F. If a registrant is a successor registrant it shall be deemed to have met these requirements if: (1) its predecessor and it, taken together, do so, provided that the succession was primarily for the purpose of changing the state of incorporation of the predecessor or forming a holding company and that the assets and liabilities of the successor at the time of succession were substantially the same as those of the predecessor; or (2) if all predecessors met the conditions at the time of succession and the registrant has continued to do so since the succession.

G. If an issuer is a majority-owned subsidiary it shall be deemed to have met the conditions of the Eligibility Requirements if its parent meets the conditions and if the parent fully guarantees the securities being registered as to principal and interest. Note: In such an instance the parent-guarantor is the issuer of a separate security consisting of the guarantee which must be concurrently registered.

II. Application of General Rules and Regulations

A. Attention is directed to the General Rules and Regulations under the Securities Act, particularly Regulation C (17 CFR 230.400 to 230.494) thereunder. That Regulation contains general requirements regarding the preparation and filing of registration statements.

B. Attention is directed to Regulation S–K (17 CFR Part 229) and Form 20–F (17 CFR 249.220f) for the requirements applicable to registration statements on F–2 under the Securities Act. Where this Form directs the registrant to furnish information required by Regulation S–K or Form 20–F and the Item of Regulation S–K or Form 20–F so provides, information need only be furnished to the extent appropriate.

III. Filing of Other Financial Statements in Certain Cases

The Commission may, upon the request of the registrant, and where consistent with the protection of investors, permit the omission of one or more of the financial statements herein required or the filing in substitution therefor of appropriate statements of comparable character. The Commission may also by informal written notice require the filing of other financial statements in addition to, or in substitution for, the statements herein required in any case where such statements are necessary of appropriate for an adequate presentation of the financial condition of any person whose financial statements are required, or whose statements are otherwise necessary for the protection of investors.

IV. Dividend or Interest Reinvestment Plans: Filing and Effectiveness of Registration Statement; Requests for Confidential Treatment

Original registration statements on this Form F–2 solely with respect to securities offered pursuant to dividend or interest reinvestment plans will become effective automatically on the twentieth day after the date of filing (Rule 456, 17 CFR 230.456), pursuant to the pre-effective amendments to such registration statement may be filed prior to effectiveness, and such amendments will be deemed to have been filed with the consent of the Commission (Rule 475a, 17 CFR 230.475a). Accordingly, the filing of a pre-effective amendment to such registration statement will not commence a new twenty-day period. Post-effective amendments to such a registration statement shall become effective upon the date of filing (Rule 464, 17 CFR 230.464). Delaying amendments are not permitted in connection with either original filings or amendments on such a registration statement (Rule 473(d), 17 CFR 239.473(d)), and any attempt to interpose a delaying amendment of any kind will be ineffective. All filings made on or in connection with this Form become public upon filing with the Commission. As a result, requests for confidential treatment made under Rule 485 (17 CFR 230.485) must be processed with the Commission staff prior to the filing of the registration statement. The number of copies of the registration statement and of each amendment required by Rules 402 and 472 (17 CFR 230.402, 230.472) shall be filed with the Commission: *Provided however*, that the number of additional copies referred to in Rule 402(a)(2) may be reduced from ten to two and the number of additional copies referred to in Rule 472(a) may be reduced from eight to two, one of which shall be marked clearly and precisely to indicate changes.

Part I. Information Required in Prospectus

Item 1. *Forepart of the Registration Statement and Outside Front Cover Page of Prospectus*

Set forth in the forepart of the registration statement and on the outside front cover page of the prospectus the information required by Item 501 of Regulation S–K (17 CFR 229.500).

Item 2. *Inside Front and Outside Back Cover Pages of Prospectus*

Set forth on the inside front cover page of the prospectus or, where permitted, on the outside back cover page, the information required by Item 502 of Regulation S–K (17 CFR 229.500).

Item 3. *Summary Information and Risk Factors*

Furnish the information required by Item 503 of Regulation S–K (17 CFR 229.500).

Item 4. *Use of Proceeds*

Furnish the information required by Item 504 of Regulation S–K (17 CFR 229.500).

Item 5. *Determination of Offering Price*

Furnish the information required by Item 505 of Regulation S–K (17 CFR 229.500).

Item 6. *Dilution*

Furnish the information required by Item 506 of Regulation S–K (17 CFR 229.500).

Item 7. *Selling Security Holders*

Furnish the information required by Item 507 of Regulation S–K (17 CFR 229.500).

Item 8. *Plan of Distribution*

Furnish the information required by Item 508 of Regulation S–K (17 CFR 229.500).

Item 9. *Description of Securities to be Registered*

Furnish the information required by Item 202 of Regulation S–K (17 CFR 229.200).

Item 10. *Interests of Named Experts and Counsel*

Furnish the information required by Item 509 of Regulation S–K (17 CFR 229.500).

Item 11. *Material Changes*

(a) Describe any and all material changes in the registrant's affairs which have occurred since the end of the latest fiscal year for which certified financial statements were included in the latest filing on Form 20–F under the Exchange Act.

(b)(1) Include in the prospectus, if not included in the reports filed under the Exchange Act which are incorporated by reference into the prospectus pursuant to Item 12: (i) Information required by Rules 3–07 and 3–08 of Regulation S–X (17 CFR Part 210) where the registrant has effected or is about to effect a transaction for which such information is required; (ii) restated financial statements if there has been a change in accounting principles or a correction of an error where such change or correction requires substantial retroactive restatement of financial statements, or where a business combination accounted for by the pooling of interest method of accounting has been consummated subsequent to the most recent fiscal year; or (iii) any financial information required because of a material disposition of assets outside the normal course of business.

(2) If the financial information specified in paragraph (b)(1) has been incorporated by reference from a previously filed report, state that such information has been incorporated by reference and briefly describe the subject transaction, accounting change, correction or disposition.

Item 12. *Information With Respect to the Registrant*

The registrant shall incorporate by reference and deliver with the prospectus the latest Form 20–F filed pursuant to the Exchange Act that contains certified financial statements for the registrant's latest fiscal year for which a Form 20–F was required to have been filed.

Instructions:

1. Reference is made to General Instruction I.D. that, in some cases, requires the financial statements in the Form 20–F to comply with Item 18 thereof as a condition for eligibility to use Form F–2.

2. Attention is directed to the requirements of Section 10(a)(3) of the Securities Act.

Part II. Information Not Required in Prospectus

Item 13. *Other Expenses of Issuance and Distribution*

Furnish the information called for by Item 511 of Regulation S–K (17 CFR 229.500).

Item 14. *Indemnification of Directors and Officers*

Furnish the information called for by Item 510 of Regulation S–K (17 CFR 229.500).

Item 15. *Exhibits*

(a) Subject to the rules regarding incorporation by reference, furnish the exhibits as required by Item 601 of Regulation S–K (17 CFR 229.600).

Item 16. *Undertakings*

(a) Furnish the undertakings required by Item 512 of Regulation S–K (17 CFR 229.500).

(b) The registration statement shall contain an undertaking substantially as follows: The undersigned issuer hereby undertakes to deliver or cause to be delivered with the prospectus, to each person to which the prospectus is sent or given, the issuer's latest filing on Form 20–F.

Signatures

Pursuant to the requirements of the Securities Act of 1933, the registrant certifies that it meets all of the requirements for filing on Form F–2 and has duly caused this registration statement to be signed on its behalf by the undersigned, thereunto duly authorized, in the City of ————, State of ————, on ————, 19—.

(Registrant) ————————————

By (Signature and Title)————————————

Pursuant to the requirements of the Securities Act of 1933, this registration statement has been signed by the following persons in the capacities and on the dates indicated.

(Signature) ————————————

(Title) ————————————

(Date)————————————

Instructions:

1. The registration statement shall be signed by the registrant, its principal executive officer or officers, its principal financial officer, its controller or principal accounting officer, at least a majority of the board of directors or persons performing similar functions and its authorized representative in the United States. Where the registrant is a limited partnership, the registration statement shall be signed by a majority of the board of directors of any corporate general partner signing the registration statement.

2. The name of each person who signs the registration statement shall be typed or printed beneath his signature. Any person who occupies more than one of the specified positions shall indicate each capacity in which he signs the registration statement. Attention is directed to Rule 402 concerning manual signatures and Item 601 of Regulation S–K concerning signatures pursuant to powers of attorney.

Instructions as to Summary Prospectuses

1. A summary prospectus used pursuant to Rule 434A (17 CFR 230.434a) shall at the time of its use contain such of the information specified below as is then included in the registration statement. All other information and documents contained in the registration statement may be omitted.

V 46 / 231 DEC 2 81 UMI

(a) As to Item 1, the aggregate offering price to the public, the aggregate underwriting discounts and commissions and the offering price per unit to the public;

(b) As to Item 2, a statement concerning the enforceability of civil liabilities against foreign persons (Item 502(f) of Regulation S–K);

(c) As to Item 4, a brief statement of the principal purposes for which the proceeds are to be used;

(d) As to Item 7, a statement as to the amount of the offering, if any, to be made for the account of security holders;

(e) As to Item 8, the name of the managing underwriter or underwriters and a brief statement as to the nature of the underwriter's obligation to take the securities; or, if any securities to be registered are to be offered otherwise than through underwriters, a brief statement as to the manner of distribution;

(f) As to Item 9, a brief statement as to dividend rights, voting rights, conversion rights, interest, maturity, exchange controls, tax treaties, limitations on ownership or voting;

(g) As to Item 12, a brief statement of the general character of the business done and intended to be done and the Selected Financial Data (Item 8 of Form 20–F); and

(h) A tabular presentation of notes payable, long term debt, deferred credits, minority interests, if material, and the equity section of the latest balance sheet filed, as may be appropriate.

2. The summary prospectus shall not contain a summary or condensation of any other required financial information except as provided above.

3. The Commission may, upon the request of the registrant, and where consistent with the protection of investors, permit the omission of any of the information herein required or the furnishing in substitution therefor of appropriate information of comparable character. The Commission may also require the inclusion of other information in addition to, or in substitution for, the information herein required in any case where such information is necessary or appropriate for the protection of investors.

§ 239.33 Form F–1, registration statement under the Securities Act of 1933 for securities of certain foreign private issuers.

This Form shall be used for registration under the Securities Act of 1933 of securities of all non-North American foreign private issuers, as defined in Rule 405(t) (17 CFR 230.405(t)), eligible to use Form 20–F (17 CFR 249.220f) for which no other form is authorized or prescribed. If an issuer is a majority-owned subsidiary it shall be deemed to have met the Eligibility Requirements if its parent meets the conditions and if the parent fully guarantees the securities being registered as to principal and interest. Note: In such an instance the parent-guarantor is the issuer of a separate security consisting of the guarantee which must be concurrently registered.

CALCULATION OF REGISTRATION FEE

Title of each class of securities to be registered	[illegible] to be registered	Proposed maximum offering price per unit	Proposed maximum aggregate [illegible] price	Amount of registration fee

Form F–1—General Instructions

I. Eligibility Requirements For Use of Form F–1

Form F–1 shall be used for registration under the Securities Act of 1933 ("Securities Act") of securities of all non-North American foreign private issuers, as defined in Rule 405(t) (17 CFR 230.405(t)), eligible to use Form 20–F (17 CFR 249.220f) for which no other form is authorized or prescribed.

If an issuer is a majority-owned subsidiary it shall be deemed to have met the Eligibility Requirements if its parent meets the conditions and if the parent fully guarantees the securities being registered as to principal and interest. Note: In such an instance the parent-guarantor is the issuer of a separate security consisting of the guarantee which must be concurrently registered.

II. Application of General Rules and Regulations

A. Attention is directed to the General Rules and Regulations under the Securities Act, particularly those comprising Regulation C (17 CFR 230.400 to 230.494) thereunder. That Regulation contains general requirements regarding the preparation and filing of registration statements.

B. Attention is directed to Regulation S–K (17 CFR Part 229) and Form 20–F (17 CFR 294.220f) for the requirements applicable to the content of registration statements under the Securities Act. Where this Form directs the registrant to furnish information required by Regulation S–K or Form 20–F and the item of Regulation S–K or Form 20–F so provides, information need only be furnished to the extent appropriate.

III. Filing of Other Financial Statements in Certain Cases

The Commission may, upon the request of the registrant, and where consistent with the protection of investors, permit the omission of one or more of the financial statements herein required or the filing in substitution therefor of appropriate statements of comparable character. The Commission may also by informal written notice require the filing of other financial statements in addition to, or in substitution for, the statements herein required in any case where such statements are necessary or appropriate for an adequate presentation of the financial condition of any person whose financial statements are required, or whose statements are otherwise necessary for the protection of investors.

IV. Exchange Offers

If any of the securities being registered are to be offered in exchange for securities of any other issuer the prospectus shall also include the information which would be required by Item 11 if the securities of such other issuer were registered on this Form. If such other issuer is not eligible to use this Form F–1, then the prospectus shall include the information which would be required by Item 11 of Form S–1 (17 CFR 239.11) if the securities of such other issuer were registered on Form S–1. There shall also be included the information concerning such securities of such other issuer which would be called for by Item 9 if such securities were being registered. In connection with this instruction, reference is made to rule 409.

Part I. Information Required in Prospectus

Item 1. *Forepart of Registration Statement and Outside Front Cover Page of Prospectus*

Set forth in the forepart of the registration statement and on the outside front cover page of the prospectus the information required by Item 501 of Regulation S–K (17 CFR 229.500).

Item 2. *Inside Front and Outside Back Cover Pages of Prospectus*

Set forth on the inside front cover page of the prospectus or, where permitted, on the outside back cover page the information required by Item 502 of Regulation S–K (17 CFR 229.500).

Item 3. *Summary Information and Risk Factors*

Furnish the information required by Item 503 of Regulation S–K (17 CFR 229.500).

Item 4. *Use of Proceeds*

Furnish the information required by Item 504 of Regulation S–K (17 CFR 229.500).

Item 5. *Determination of Offering Price*

Furnish the information required by Item 505 of Regulation S–K (17 CFR 229.500).

Item 6. *Dilution*

Furnish the information required by Item 506 of Regulation S–K (17 CFR 229.500).

Item 7. *Selling Security Holders*

Furnish the information required by Item 507 of Regulation S–K (17 CFR 229.500).

Item 8. *Plan of Distribution*

Furnish the information required by Item 508 of Regulation S–K (17 CFR 229.500).

Item 9. *Description of Securities to be Registered*

Furnish the information required by Item 202 of Regulation S–K (17 CFR 229.200).

Item 10. *Interests of Named Experts and Counsel*

Furnish the information required by Item 509 of Regulation S–K (17 CFR 229.500).

Item 11. *Information with Respect to the Registrant*

Provide the following information with respect to the Registrant:

(a) Information required by Part I of Form 20–F [17 CFR 249.220f];

(b) Information required by Item 18 of Form 20–F (Schedules required under Regulation S–X shall be filed as "Financial Statement Schedules Pursuant to Item 15, Exhibit and Financial Statement Schedules, of this Form), as well as any information required by Rules 3–07 and 3–08 of Regulation S–X (17 CFR Part 210), except as permitted by (c) below;

(c) Information required by Item 17 of Form 20–F may be furnished in lieu of the information specified by Item 18 thereof if the only securities being registered are to be offered: (1) upon the exercise of outstanding rights granted by the issuer of the securities to be offered, if such rights are granted on a pro rata basis to all existing security holders of the class of securities to which the rights attach and there is no standby underwriting or similar arrangement; or (2) pursuant to a dividend or interest reinvestment plan; or (3) upon the conversion of outstanding convertible securities or upon the exercise of outstanding transferable warrants issued by the issuer of the securities to be offered, or by an affiliate of such issuer.

Instruction. Attention is directed to Section 10(a)(3) of the Securities Act.

Part II. Information not Required in Prospectus

Item 12. *Other Expenses of Issuance and Distribution.*

Provide the information called for by Item 511 of Regulation S–K (17 CFR 229.500).

Item 13. *Indemnification of Directors and Officers*

Provide the information called for by Item 510 of Regulation S–K (17 CFR 229.500).

Item 14. *Recent Sales of Unregistered Securities*

Provide the information called for by Item 701 of Regulation S–K (17 CFR 229.500).

Item 15. *Exhibits and Financial Statement Schedules*

(a) Subject to the rules regarding incorporation by reference, furnish the exhibits as required by Item 601 of Regulation S–K (17 CFR 229.600).

(b) Furnish financial statement schedules required by Regulation S–X (17 CFR Part 210) and Item 11(b) of this Form. These schedules shall be lettered or numbered in the manner described for exhibits in paragraph (a).

Item 16. *Undertaking*

Provide the undertakings required by Item 512 of Regulation S–K (17 CFR 229.500).

Signatures

Pursuant to the requirements of the Securities Act of 1933, the Registrant certifies that it meets all of the requirements for filing on Form F–1 and has duly caused this registration statement to be signed on its behalf by the undersigned, thereunto duly authorized, in the City of ————, State of ————, on ————, 19—.

(Registrant) ————

By (Signature and Title)————

Pursuant to the requirements of the Securities Act of 1933, this registration statement has been signed by the following persons in the capacities and on the dates indicated.

(Signature) ————

(Title)————

(Date)————

Instructions. 1. The registration statement shall be signed by the registrant, its principal executive officer or officers, its principal financial officer, it controller or principal accounting officer, at least a majority of the board of directors or persons performing similar functions, and its authorized representative in the United States. Where the registrant is a limited partnership, the registration statement shall be signed by a majority of the board of directors of any corporate general partner signing the registration statement.

2. The name of each person who signs the registration statement shall be typed or printed beneath his signature. Any person who occupies more than one of the specified positions shall indicate each capacity in which he signs the registration statement. Attention is directed to Rule 402 concerning manual signatures and Item 601 of Regulation S–K concerning signatures pursuant to powers of attorney.

Instructions as to Summary Prospectuses

1. A summary prospectus used pursuant to Rule 434A (17 CFR 230.434a) shall at the time of its use contain such of the information specified below as is then included in the registration statement. All other information and documents contained in the registration statement may be omitted.

(a) As to Item 1, the aggregate offering price to the public, the aggregate underwriting discounts and commissions and the offering price per unit to the public;

(b) As to Item 2, a statement concerning the enforceability of civil liabilities against foreign persons (Item 502(f) of Regulation S–K);

(c) As to Item 4, a brief statement of the principal purposes for which the proceeds are to be used;

(d) As to Item 7, a statement as to the amount of the offering, if any, to be made for the account of security holders;

(e) As to Item 8, the name of the managing underwriter or underwriters and a brief statement as to the nature of the underwriter's obligation to take the securities; if any securities to be registered are to be offered otherwise than through underwriters, a brief statement as to the manner of distribution; and, if securities are to be offered otherwise than for cash, a brief statement as to the general purposes of the distribution, the basis upon which the securities are to be offered, the amount of compensation and other expenses of distribution and by whom they are to be borne;

(f) As to Item 9, a brief statement as to dividend rights, voting rights, conversion rights, interest, maturity, exchange controls, tax treaties, limitations on ownership or voting;

(g) As to Item 11, a brief statement of the general character of the business done and intended to be done, the Selected Financial Data (Item 8 of Form 20–F) and a brief statement of the nature and present status of any material pending legal proceedings; and

(h) A tabular presentation of notes payable, long term debt, deferred credits, minority interests, if material, and the equity section of the latest balance sheet filed, as may be appropriate.

PART 240—GENERAL RULES AND REGULATIONS, SECURITIES EXCHANGE ACT OF 1934

12. By revising paragraphs (b)(1)(i) and (2) and (c)(3) of § 240.3b–6 to read as follows:

§ 240.3b–6 Liability for certain statements by issuers.

* * * * *

(b) * * *

(1) * * *

(i) At the time such statements are made or reaffirmed, either the issuer is subject to the reporting requirements of section 13(a) or 15(d) of the Securities Exchange Act of 1934 and has complied with the requirements of Rule 13a–1 or 15d–1 thereunder; if applicable, to file its most recent annual report on Form 10–K or Form 20–F; or if the issuer is not subject to the reporting requirements of section 13(a) or 15(d) of the Securities Exchange Act of 1934, the statements are made in a registration statement filed under the Securities Act of 1933 or pursuant to section 12 (b) or (g) of the Securities Act of 1934.

* * * * *

(2) Information relating to the effects of changing prices on the business enterprise presented voluntarily or pursuant to Item 303 of Regulation S–K (17 CFR 229.300) or Item 9 of Form 20–F (17 CFR 249.220f), management's discussion and analysis of financial condition and results of operations, or Item 302 of Regulation S–K, supplementary financial information, or Rule 3–20(c) of Regulation S–X (17 CFR 210.3–20), and disclosed in a document filed with the Commission, in Part I of a quarterly report on Form 10–Q or in an annual report to shareholders meeting the requirements of Rules 14a–3 (b) and (c) or 14c–3 (a) and (b) under the Securities Exchange Act of 1934.

(c) * * *

(3) A statement of future economic performance contained in management's discussion and analysis of financial condition and results of operations included pursuant to Item 303 of Regulation S–K (229.300) or Item 9 of Form 20–F.

* * * * *

13. By adding § 240.12h–4 to read as follows:

§ 240.12h–4 Suspension of section 15(d) for foreign private issuers.

(a) Except as provided under paragraphs (b) and (c) of this section the duty of a foreign private issuer to file the reports required by section 13(a) as to any class of securities pursuant to section 15(d) shall be immediately suspended as to that class of securities upon the filing of a certification on Form 12g–4/15d–6 with respect to such class of securities confirming that the class has fewer than 300 holders resident in the United States; but if such certification is subsequently withdrawn or denied, the registrant shall, within 60 days after the date of such withdrawal or denial, file with the Commission all reports which would have been required to be filed had such certification not been filed.

(b) The suspension shall not be in effect for any subsequent fiscal year at the beginning of which securities of such class are held by 300 or more holders resident in the United States or are not exempt by Rule 15d–6.

(c) The exemption provided by paragraph (a) of this section shall not be available for any class of securities if at the end of the last fiscal year of the issuer (1) more than 50 percent of the outstanding voting securities of such issuer are held of record either directly or through voting trust certificates or depositary receipts by residents of the United States and (2) the business of such issuer is administered principally in the United States or 50 percent or more of the members of its Board of Directors are residents of the United States. For the purpose of this paragraph the term "resident," as applied to security holders, shall mean any person whose address appears on the records of the issuer, the voting trustee or the depositary as being located in the United States.

(d) All duties arising under section 15(d), other than the duty to file reports required by section 13(d), shall remain in effect under paragraph (b) of this section unless otherwise suspended under section 15(d).

(e) For the purposes of this rule, the number of holders resident in the United States shall be computed as provided by Rule 12g3–2(a) (17 CFR 240.12g3–2).

14. By amending Instruction B to paragraph (d) of § 240.13e–4 as follows:

§ 240.13e–4 Tender offers by issuers.

* * * * *

(d) * * *

Instruction: * * *

B. * * *

(4) * * *

If the financial statements are prepared according to generally accepted accounting principles of a foreign country, the summary financial information shall be accompanied by a reconciliation to generally accepted accounting principles of the United States.

* * * * * * *

15. By revising paragraph (e)(1)(viii) of § 240.14d–6 to read as follows:

§ 240.14d–6 Disclosure requirements with respect to tender offers.

* * * * * *

(e) * * *

(1) * * *

(viii) The disclosure required by Item 9 of Schedule 14D–1 or a fair and adequate summary thereof. If the financial statements are prepared according to generally accepted accounting principles of a foreign country, the summary financial information shall be accompanied by a reconciliation to generally accepted accounting principles of the United States. (Under normal circumstances, the following summary financial information for the period covered by the financial information furnished in response to Item 9 will be a sufficient summary. If the information required by Item 9 is summarized, appropriate instructions shall be included stating how complete finncial information can be obtained.)

§§ 240.13a–16 and 240.15d–16 [Amended]

16. By revising paragraph (c) of § 240.13a–16 and § 240.15d–16 to read as follows:

* * * * * *

(c) Reports furnished pursuant to this rule shall not be deemed to be "filed" for the purpose of section 18 of the Act or otherwise subject to the liabilities of that section.

17. By revising Instruction 1(b) of Item 9 of § 240.100 to read as follows:

§ 240.100 Schedule 14D–1. Tender offer statement pursuant to Section 14(d)(1) of the Securities Exchange Act of 1934.

* * * * * *

Item 9. Financial Statements of Certain Bidders.

* * * * * *

Instructions:

1. * * *

(b) Financial statements prepared in accordance with Item 17 of Form 20–F (§ 249.200f of this chapter) for a foreign bidder that is otherwise eligible to use such form.

§ 240.15d–14 [Removed]

18. By removing § 240.15d–14.

PART 249—FORMS, SECURITIES EXCHANGE ACT OF 1934

§§ 249.219 and 249.318 [Removed]

19. By removing § 249.219 and § 249.318.

§ 249.220f [Amended]

20. By revising Form 20–F (17 CFR 249.220f) as follows:

Form 20–F

(Mark one.)

Securities registered or to be registered pursuant to Section 12(g) of the Act.

(Title of Class) _____

(Title of Class) _____

Securities for which there is a reporting obligation pursuant to Section 15(d) of the Act.

(Title of Class) _____

Indicate the number of outstanding shares of each of the issuer's classes of capital or common stock as of the close of the period covered by the annual report.

_____

_____

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes— No—.

(Applicable only to issuers involved in bankruptcy proceedings during the past five years.)

Indicate by check mark whether the registrant has filed all documents and reports required to be filed by Sections 12, 13 or 15(d) of the Securities Exchange Act of 1934 subsequent to the distribution of securities under a plan confirmed by a court. Yes— No—.

Indicate by check mark which financial statements item the registrant has elected to follow. Item 17— Item 18—.

Form 20–F—General Instructions

A. Rule as to use of Form 20–F

(a) This form is to be used for registration pursuant to Section 12 of the Securities Exchange Act of 1934 of any class of securities of any foreign private issuer except that it shall not be used by:

(1) Any North American issuer, as defined in Rule 12b–2(j–1) (17 CFR 240.12b–(j–1)), if (i) the securities are to be registered pursuant to Section 12(b) of the Act; (ii) the securities are to be registered under Section 12(g) of the Act as a result of the termination of the exemption provided by Rule 12g3–2(d) (17 CFR 240.12(g)(3–2(d)); (iii) the issuer has had the same or any other class of securities registered pursuant to Section 12 of the Act on Form 10 (17 CFR 249.210), or Form 8–A (17 CFR 249.208a) or Form 8–B (17 CFR 249.208b) in lieu of Form 10 within one year prior to the date on which the registration statement is filed or required to be filed under Section 12(g) or (iv) the issuer is otherwise required to file reports on Form 10–K (17 CFR 249.310); or

(2) Any foreign private issuer if at the end of the last fiscal year of the issuer (i) more than 50 percent of the outstanding voting securities of the issuer are held of record either directly or through voting trust certificates or depositary receipts by residents of the United States; and (ii) the business of such issuer is administered principally in the United States or 50 percent or more of the members of the Board of Directors are residents of the United States.

(b) This form is to be used for annual reports of foreign private issuers filed under Section 13(a) or 15(d) of the Securities Exchange Act of 1934 pursuant to Rule 13a–1 (17 CFR 240.13a–1) or 15d–1 (17 CFR 240.15d–1) except that it shall not be used by:

(1) Any North American issuer: (i) which has any class of securities registered pursuant to Section 12 of the Act on Form 10, or on Form 8–A or 8–B in lieu of Form 10; (ii) which is filing the report pursuant to Section 15(d) of the Act; (iii) whose obligation to file reports pursuant to Section 15(d) of the Act is suspended as a result of the registration of a class of securities pursuant to Section 12(g) of the Act; (iv) which has registered securities under Section 12(g) of the Act as a result of termination of the exemption provided by Rule 12g3–2(d); or (vi) which is otherwise required to file reports on Form 10–K; or

(2) Any foreign private issuer if at the end of the fiscal year being reported on (i) more than 50 percent of the outstanding voting securities of the issuer are held of record either directly or through voting trust certificates or depositary receipts by residents of the United States; and (ii) the business of such issuer is administered principally in the United States or 50 percent or more of the members of the Board of Directors are residents of the United States.

(c) Annual reports on this form shall be filed within six months after the end of the fiscal year covered by such report.

B. Application of General Rules and Regulations

(a) The General Rules and Regulations under the Act contain certain general requirements which are applicable to registration on any form. These general requirements should be carefully read and observed in the preparation and filing of registration statements and reports on this form.

(b) Particular attention is directed to Regulation 12B which contains general requirements regarding matters such as the kind and size of paper to be used, the legibility of the registration statement or report, the information to be given whenever the title of securities is required to be stated, language to be used, and the filing of the registration statement or report. The definitions contained in Rule 12b–2 (17 CFR 240.12b–2) should be especially noted.

C. Preparation of Registration Statements and Reports

(a) This form is not to be used as a blank form to be filled in but only as a guide in the preparation of the registration statement or annual report. See General Instruction G as to the items to be responded to in the registration statement or annual report, respectively. The statement or report shall contain the numbers and captions of all items of the appropriate form, but the text of the items may be omitted provided the answers thereto are so prepared as to indicate to the reader the coverage of the items without the necessity of his referring to the text of the items or instructions thereto. However, where any item requires information to be given in tabular form, it shall be given in substantially the tabular form specified in the item. All instructions, whether appearing under the items of the form or elsewhere therein, are to be omitted. Unless expressly provided otherwise, if any item is inapplicable or the answer thereto is in the negative, an appropriate statement to that effect shall be made.

(b) With respect to a registration statement, the information required shall be given as of a date reasonably close to the date of filing the registration statement, and with respect to an annual report, the information shall be given as of the latest practicable date except where the information is required by the item to be given for the fiscal year or as of a specified date.

(c) Attention is directed to Rule 12b–20 (17 CFR 240.12b–20) which states: "In addition to the information expressly required to be included in a statement or report, there shall be added such further material information, if any, as may be necessary to make the required statements, in light of the circumstances under which they are made, not misleading."

(d) Attention is directed to Rule 12b–21 (17 CFR 240.12b–21) which refers to the omission of information which is unknown or not reasonably available.

D. Signature and Filing of Registration Statements and Reports

Three complete copies of the registration statement or report, including financial statements, exhibits and all other papers and documents filed as part thereof, and five additional copies which need not include exhibits, shall be filed with the Commission. At least one complete copy of the registration statement or report, including financial statements, exhibits and all other papers and documents filed as a part thereof, shall be filed with each exchange on which any class of securities is to be registered or is registered. At least one complete copy of the registration statement or report filed with the Commission and one such copy filed with each exchange shall be manually signed. Copies not manually signed shall bear typed or printed signatures.

E. Omission of Information Regarding Foreign Subsidiaries

Information required by any item or other requirement of this form with respect to any subsidiary outside the registrant's country of domicile or where organized may be omitted to the extent that the required disclosure would be detrimental to the registrant. However, financial statements, otherwise required, shall not be omitted pursuant to this instruction. Where information is omitted pursuant to this instruction, a statement shall be made that such information has been omitted and the names of the subsidiaries involved shall be separately furnished to the Commission. The Commission may, in its discretion, call for justification that the required disclosure would be detrimental and may require its inclusion if such justification is determined not to be consistent with the public interest or the protection of investors.

F. Incorporation by Reference

Attention is directed to Rule 12b–23 (17 CFR 240.12b–23) which provides for the incorporation by reference of information contained in certain documents in answer or partial answer to any item of the registration statement or report.

G. Items to be Responded to in Registration Statements and Annual Reports

(a) A registration statement of this form shall include the information specified in Parts I, II and IV of this form.

(b) Subject to the provisions in Part III regarding the omission of previously reported information, an annual report on this form shall include the information specified in Parts I, III and IV. If the information required by Item 3 would be unchanged from that given in a previous report, a reference to the previous report which includes the required information will be sufficient. Copies of such previous report need not be filed with the report currently being filed in this form.

(c) A registration statement or annual report on this form shall contain the financial statements and related information specified in Item 17 of this form. All registrants are encouraged, but not required, to provide the financial statements and related information specified in Item 18 in lieu of Item 17. In certain circumstances, Forms F–3 or F–2 for registration of securities under the Securities Act of 1933 require that the registrant's annual report on Form 20–F contain the financial statements and information specified in Item 18. Registrants should consult those forms for the specific

V 46 / 231 / DEC 2 81 UMI

requirements and should consider the potential advantages of complying with Item 18 in lieu of Item 17 of this form.

Part I

Item 1. *Description of Business*

(a) Describe the business done and intended to be done by the registrant and its subsidiaries. Such description shall include, if material to an understanding of the registrant's business, discussion of:

(1) The general development of the business of the registrant, its subsidiaries and any predecessor(s) during the past five years, or such shorter period as the registrant may have been engaged in business. Information shall be disclosed for earlier periods if material to an understanding of the general development of the business. In describing developments, information shall be given as to matters such as the following: the year in which the registrant was organized and its form of organization; the nature and results of any bankruptcy, receivership or similar proceedings with respect to the registrant or any of its significant subsidiaries; the nature and results of any other material reclassification, merger or consolidation of the registrant or any of its significant subsidiaries; the acquisition or disposition of any material amount of assets otherwise than in the ordinary course of business; and any material changes in the mode of conducting the business.

(2) Registrants, (i) filing a registration statement on Form F–1 under the Securities Act or on Form 20–F under Exchange Act, (ii) not subject to the reporting requirements of Section 13(a) or 15(d) of the Exchange Act immediately prior to the filing of such registration statement, and (iii) that (including predecessors) have not received revenue from operations during each of the three fiscal years immediately prior to the filing of the registration statement, shall provide the following information: (A) if the registration statement is filed prior to the end of the registrant's second fiscal quarter, a description of the registrant's plan of operation for the remainder of the fiscal year; or (B) if the registration statement is filed subsequent to the end of the registrant's second fiscal quarter, a description of the registrant's plan of operation for the remainder of the fiscal year and for the first six months of the next fiscal year. If such information is not available, the reasons for its not being available shall be stated. Disclosure relating to any plan shall include such matters as:

(*1*) In the case of a registration statement on Form F–1, a statement in narrative form indicating the registrant's opinion as to the period of time that the proceeds from the offering will satisfy cash requirements and whether in the next six months it will be necessary to raise additional funds to meet the expenditures required for operating the business of the registrant; the specific reasons for such opinion shall be set forth and categories of expenditures and sources of cash resources shall be identified; however, amounts of expenditures and cash resources need not be provided; in addition, if the narrative statement is based on a cash budget, such budget shall be furnished to the Commission as supplemental information, but not as a part of the registration statement.

(*2*) An explanation of material product research and development to be performed during the period covered in the plan;

(*3*) Any anticipated material acquisition of plant and equipment and the capacity thereof;

(*4*) Any anticipated material changes in number of employees in the various departments such as research and development, production, sales or administration; and

(*5*) Other material areas which may be peculiar to the registrant's business.

(3) the principal products produced and services rendered and the principal markets for and methods of distribution of such products and services.

(4) the breakdown of total sales and revenue during the past three fiscal years by categories of activity and into geographical markets (with sales to unaffiliated customers and sales transfers to other categories of activity of the registrant shown separately). Any relatively homogenous activity which contributes significantly to total sales and revenue shall be considered a separate category of activity.

Instruction. If the contribution to total operating profit (or loss) from each of the registrant's categories of activity materially differs from their respective contributions to total sales and revenue, such categories of activity shall be identified and appropriate narrative disclosure made concerning the significance of the contributions to total operating profit (or loss) from such category of activity. The actual operating profit (or loss) attributable to each category of activity is not required to be presented unless otherwise required to be disclosed by applicable foreign law or regulations or by foreign stock exchange requirements or is otherwise disclosed.

(5) The status of a product or service if the registrant has made public information about a new product or service which would require the investment of a material amount of the assets of the registrant or is otherwise material.

(6) The research and development policy including the estimated amount spent during each of the last three fiscal years on company-sponsored research and development activities.

(b) The registrant shall also describe those distinctive or special characteristics of the registrant's operations or industry which may have a material impact upon the registrant's future financial performance. The registrant shall briefly describe any material country risks which are unlikely to be known or anticipated by investors and could materially affect the registrant's operations. Examples of factors which might be discussed include dependence on one or a few major customers or suppliers (including suppliers of raw materials or financing), existing or probable governmental regulation; expiration of material labor contracts, patents, trademarks, licenses, franchises, concessions or royalty agreements; unusual competitive conditions in the industry, cyclicality of the industry and anticipated raw material or energy shortages to the extent management may not be able to secure a continuing source of supply.

Instruction. Furnish the information specified in any industry guide listed in Part 9 of Regulation S–K (17 CFR 229) applicable to the registrant.

Item 2. *Description of Property*

(a) State briefly the location and general character of the principal plants, mines and other materially important physical properties of the registrant and its subsidiaries. If any such property is not held in fee or is held subject to any major encumbrance, so state and briefly describe how held.

Instructions. 1. What is required is such information as reasonably will inform investors as to the suitability, adequacy, productive capacity and extent of utilization of the facilities used by the registrant. Detailed descriptions of the physical characteristics of individual properties or legal descriptions by metes and bounds are not required and shall not be given.

2. In determining whether properties should be described, the registrant should take into account both quantitative and qualitative factors.

3. In the case of an extractive enterprise, material information shall be given as to production, reserves, locations, developments, and the nature of the registrant's interest. If individual properties are of major significance to the registrant: (i) more detailed information concerning these matters shall be furnished; and (ii) appropriate maps shall be used to disclose location data of significant properties except in cases for which numerous maps would be required.

4. (i) If reserve estimates are referred to in the document, the staff of the Office of Engineering, Division of Corporation Finance, of the Commission shall be consulted. That office may request that a copy of the full report of the engineer or other expert who estimated the reserves be furnished as supplemental information and not as part of the filing.

(ii) If the estimates of reserves, or any estimated valuation thereof, are represented as being based on estimates prepared or reviewed by independent consultants, those independent consultants shall be named in the document.

5. Estimates of oil or gas reserves other than proved or, in the case of other extractive reserves estimates other than proved or probable reserves, and any estimated values of such reserves shall not be disclosed in any document publicly filed with the Commission, unless it can be shown to the staff of the Office of Engineering, Division of Corporation Finance, that (i) failure to include such information would render the document materially misleading, or (ii) such information is required to be disclosed in the document by foreign law.

(b) If oil and gas operations are material to the registrant's and its subsidiaries' business operations or financial position, disclose the information specified in Appendix A to this item.

Item 3. *Legal Proceedings*

Describe briefly any material pending legal proceedings, other than ordinary routine

litigation incidental to the business, to which the registrant or any of its subsidiaries is a party or of which any of their property is the subject. Include the name of the court or agency in which the proceedings are pending, the date instituted, the principal parties thereto, a description of the factual basis alleged to underlie the proceeding and the relief sought. Include similar information as to any such proceedings known to be contemplated by governmental authorities.

Instructions. 1. If the business ordinarily results in actions for negligence or other claims, no such action or claim need be described unless it departs from the normal kind of such actions.

2. No information need be given with respect to any proceeding that involves primarily a claim for damages if the amount involved, exclusive of interest and costs, does not exceed 10 percent of the current assets of the registrant and its subsidiaries on a consolidated basis. However, if any proceeding presents in large degree the same issues as other proceedings pending or known to be contemplated, the amount involved in such other proceedings shall be included in computing such percentage.

3. Notwithstanding Instructions 1 and 2, any material bankruptcy, receivership, or similar proceeding with respect to the registrant or any of its significant subsidiaries shall be described.

4. Any material proceedings to which any director, officer or affiliate of the registrant, or any associate of any such director, officer, or affiliate of the registrant is a party adverse to the registrant or any of its subsidiaries or has a material interest adverse to the registrant or any of its subsidiaries, also shall be described.

5. With respect to annual reports, information relating to pending litigation shall be furnished in accordance with the provisions of Item 3, except that the report shall include also a description of the disposition of any previously reported litigation which occurred during the last fiscal year.

Item 4. *Control of Registrant*

(a) As far as known to the registrant, state whether the registrant is directly or indirectly owned or controlled by another corporation(s) or by any foreign government and, if so, give the name(s) of such controlling corporation(s) or government and briefly describe the nature of such control.

(b) If the registrant's outstanding voting securities are in registered form, furnish the following information, as of the most recent practicable date, in substantially the tabular form indicated, with respect to: (1) Any person who is known to the registrant to be the owner of more than ten percent of any class of the registrant's voting securities and (2) the total amount of any class of the registrant's voting securities owned by the officers and directors as a group, without naming them.

(1)	(2)	(3)	(4)
Title of class	Identity of person or group	Amount owned	Percent of class

(c) Describe any arrangements, known to the registrant, the operation of which may at a subsequent date result in a change in control of the registrant.

Item 5. *Nature of Trading Market*

As to each class of securities to be registered, indicate briefly the nature and extent of the principal non-United States trading market for such securities, and also the nature of the trading market in the United States. State the high and low sales prices for the securities in both such markets for each full quarterly period within the two most recent fiscal years. If practicable, indicate what portion of the outstanding securities in each such class is held in the United States and the number of record holders thereof in the United States.

Instructions. 1. If the registrant's outstanding equity securities of the class being registered are wholly or partially in bearer form, the response to this item shall so indicate together with as much information as the registrant is able to provide with respect to security holdings in the United States.

2. If the securities being registered trade in the United States in the form of American Depositary Receipts or similar certificates, the response to this item shall so indicate together with the name of the depositary issuing such receipts and the number of shares or other units of the underlying security representing the trading unit in such receipts. If the primary market in the United States involves the American Depositary Receipts, the market price information specified in this item shall relate to that market.

Item 6. *Exchange Controls and Other Limitations Affecting Security Holders*

(a) Describe briefly any governmental laws, decrees or regulations in the country in which the registrant is organized that restrict the export or import of capital, including, but not limited to, foreign exchange controls, or that affect the remittance of dividends, interest or other payments to nonresident holders of the registrant's securities.

(b) As to each class of securities to be registered hereunder, describe briefly any limitations on the right of nonresident or foreign owners to hold or vote such securities imposed by foreign law or by the charter or other constituent document of the registrant, or if no such limitations are applicable, so state.

Item 7. *Taxation*

Outline briefly all taxes, including withholding provisions, to which United States securityholders are subject under existing laws and regulations of the foreign country in which the registrant is organized. Include a brief description of pertinent provisions of any reciprocal tax treaty between such foreign country and the United States regarding withholding. If there is no such treaty, so state.

Item 8. *Selected Financial Data*

Furnish in comparative columnar form the selected financial data for the registrant, referred to below, for

(a) Each of the last five fiscal years of the registrant (or for the life of the registrant and its predecessors, if less), and

(b) Any additional fiscal years necessary to keep the information from being misleading.

Instructions. 1. The purpose of the selected financial data shall be to supply in a convenient and readable format selected financial data which highlight certain significant trends in the registrant's financial condition and results of operations.

2. Subject to appropriate variation to conform to the nature of the registrant's business, the following items shall be included in the table of financial data: net sales or operating revenues; income (loss) from continuing operations; income (loss) from continuing operations per common share; total assets; long-term obligations and redeemable preferred stock (including long-term debt, capital leases, and redeemable preferred stock as defined in § 210.5–02.28(a) of Regulation S–X (17 CFR 210)); ratio of earnings to combined fixed charges and preferred dividends and the ratio of earnings to fixed charges, if required by Instruction 5 to this Item; and cash dividends declared per common share. Registrants may include additional items which they believe would enhance an understanding of and would highlight other trends in their financial condition and results of operations. A reference shall be made to any qualifications in the auditor's report with respect to the financial statements from which such data is derived.

3. Those registrants that are required to provide inflation information pursuant to Rule 3–20(c) of Regulation S–X (17 CFR 210.3–20(c)) may combine such information with the selected financial data appearing pursuant to this Item.

4. All references to the registrant in the table of selected financial data and in this Item shall mean the registrant and its subsidiaries consolidated, except in the case of the ratio of earnings to combined fixed charges and preferred dividends and, if required, the ratio of earnings to fixed charges where a total enterprise ratio is required. (See Instruction 5 to this Item.)

5. For purposes of presenting the ratio of earnings to combined fixed charges and preferred dividends and, if required, the ratio of earnings to fixed charges ("the ratios") the following rules and definitions shall apply:

A. If debt or preferred stock securities are being registered, the registrant is required to present the ratio of earnings to combined fixed charges and preferred dividends; however, additional disclosure of the ratio of earnings to fixed charges is also required in debt or preferred stock registration statements if the registrant's ratio of earnings to fixed charges is materially different from the combined ratio.

B. The ratio(s) shall be computed on the basis of the total enterprise of the registrant. That is, the revenues and expenses should include not only the amounts reflected in consolidated income statements but also

V 46 / 231 DEC 2 81 UMI

revenues and expenses of other activities not consolidated. In other words, the total enterprise should be considered to include the registrant, its majority-owned subsidiaries, as if they were consolidated, its proportionate share of 50-percent-owned persons, and its share of distributed income from less-than-50-percent-owned persons. If the registrant has guaranteed debt of another person (such as a supplier), the amount of fixed charges associated with such debt need not be included in the computation of the ratio unless the registrant has been required to satisfy the guarantee or it is probable that the registrant will be required to honor the guarantee and the amount can be reasonably estimated. A footnote to the ratio should disclose the amount of fixed charges associated with such guaranteed debt and whether it is included in the computation of the ratio.

C. "Earnings" shall be computed after all operating and income deductions (including results of discontinued operations and gain or loss from disposal of a segment of a business, but excluding extraordinary items and the cumulative effect of accounting changes) except fixed charges, taxes based on income, and minority interest in income or loss of subsidiaries and after eliminating undistributed income of less-than-50-percent-owned persons. The registrant, at its option, may present an additional ratio based only on continuing operations of the total enterprise.

(i) If a less-than-50-percent-owned person accounted for using the equity method has sustained a loss, such loss would also be eliminated except in the situation where the registrant has guaranteed the debt of this person. In this case, the registrant's equity in the loss would be included in "earnings" and the "fixed charges" (see D. below) would include the interest associated with the guaranteed debt.

(ii) In the case of public utilities, the allowance for funds used during construction shall be added to gross income but not deducted from interest expense. Other registrants which capitalize interest shall include capitalized interest in fixed charges but shall not add such amounts to gross income.

D. The term "fixed charges" shall mean the total of (i) interest and amortization of debt discount and expense and premium on all indebtedness; (ii) such portion of rental expense as can be demonstrated to be representative of the interest factor in the particular case; and (iii) in instances where a separate ratio of earnings to fixed charges is presented, preferred stock dividend requirements of subsidiaries, excluding in all cases items which would be or are eliminated in consolidation.

E. The term "preferred stock" shall include all types of preferred and preference stocks. The dividend requirements of the outstanding preferred stock (determined as set forth in the following sentences) shall be added to "fixed charges" (as defined above) in determining the denominator to be used in the computation of the ratio.

(i) The preferred stock dividend requirements shall be increased by an amount equivalent to the income tax that would be required to obtain an after-tax income sufficient to cover such dividend requirements. The tax rate shall be based on the relationship of the applicable actual income tax provision to income before income taxes, extraordinary items, and cumulative effect of accounting changes.

F. If the ratio computation indicates a negative or less than one-to-one coverage, disclosure of the ratio should not be made. Instead, a statement of this fact shall be made and the dollar amount of the coverage deficiency stated.

G. If the registrant is filing a registration statement under the Securities Act of 1933, pro forma ratio(s) shall be presented in the case of a debt or preferred stock refinancing if the effect of the refinancing changes the historical ratio(s) by 10 percent or more. If the pro forma ratio is not presented, a footnote should disclose the reason for omission.

(i) The pro forma ratio(s), if applicable, shall be presented for only the most recent fiscal year.

(ii) The only adjustments which shall be made to the corresponding historical ratio(s) are to give effect to the net increase or decrease in interest expense or preferred dividends due to the proposed issuance of new debt or preferred stock and the corresponding retirement of any debt or preferred stock presently outstanding but which will be retired with the proceeds from the proposed offering.

H. The ratio(s) shall be computed on the basis of both the primary financial statements and their reconciliation.

6. If interim period financial statements are required to be presented by § 210.3–19 of Regulation S–X in a regiatration statement filed under the Securities Act of 1933, registrants should consider whether any or all of the selected financial data need to be updated for such interim periods to reflect a material change in the trends indicated; where such updating information is necessary, registrants shall provide the information on a comparative basis unless unnecessary to an understanding of such updating information.

7. Disclose the following information:

(a) In the forepart of the document and as of the latest practicable date, the exchange rate into United States currency of the foreign currency in which the financial statements are denominated;

(b) a history of exchange rates for the five most recent years and any subsequent interim period for which financial statements are presented setting forth the rates for period end, the average rates, and the range of high and low rates; and

(c) a five year summary of dividends per share stated in both the currency in which the financial statements are denominated and United States currency based on the exchange rates at each respective payment date for each year.

8. The selected financial data shall be presented in the same currency as the financial statements. The issuer may present the selected financial data on the basis of the accounting principles used in its primary financial statements but in such case shall present these data also on the basis of any reconciliations of such data to United States generally accepted accounting principles and Regulation S–X made pursuant to Item 17 and 18 of this Form.

9. For purposes of this rule, the rate of exchange means the noon buying rate in New York City for cable transfers in foreign currencies as certified for customs purposes by the Federal Reserve Bank of New York. The average rate means the average of the exchange rates on the last day of each month during a year.

Item 9. *Management's Discussion and Analysis of Financial Condition and Results of Operations*

Discuss registrant's financial condition, changes in financial condition and results of operations for each year and subsequent interim periods for which financial statements are required to be presented. The discussion shall provide information as specified in paragraphs (a), (b) and (c) of this section with respect to liquidity, capital resources, and results of operations, and shall provide such other information that the registrant believes to be necessary to an understanding of its financial condition, changes in financial condition and results of operations. Discussions of liquidity and capital resources may be combined whenever the two topics are interrelated. Where in the registrant's judgment a discussion of categories of activity or of other subdivisions of the registrant's business would be appropriate to an understanding of such business, the discussion should focus on each relevant category of activity or other subdivision of the business and on the registrant as a whole.

(a) Liquidity. Identify any known trends or any known demands, commitments, events or uncertainties that will result in or that are reasonably likely to result in the registrant's liquidity increasing or decreasing in any material way. If a material deficiency is identified, indicate the course of action that the registrant has taken or proposes to take to remedy the deficiency. Also identify and separately describe internal and external sources of liquidity, and briefly discuss any material unused sources of liquid assets.

(b) Capital resources. (1) Describe the registrant's material commitments for capital expenditures as of the end of the latest fiscal period and any subsequent interim periods for which financial statements are presented and indicate the general purpose of such commitments and the anticipated source of funds needed to fulfill such commitments.

(2) Describe any known material trends, favorable or unfavorable, in the registrant's capital resources. Indicate any expected material changes in the mix and the relative cost of such resources. The discussion shall consider changes between equity, debt and any off balance sheet financing arrangements.

(c) Results of operations. (1) Describe any unusual or infrequent events or transactions of any significant economic changes that materially affected the amount of reported income from continuing operations and, in each case, indicate the extent to which income was so affected. In addition, describe any other significant components of revenues or expenses that, in the registrant's judgment,

should be described in order to understand the registrant's results of operations.

(2) Describe any known trends or uncertainties that have had or that the registrant reasonably expects will have a material favorable or unfavorable impact on net sales or revenues or income from continuing operations. If the registrant knows of events that will cause a material change in the relationship between costs and revenues (such as known future increases in costs of labor or materials or price increases or inventory adjustments), the change in the relationship should be disclosed.

(3) To the extent that the financial statements disclose material increases in net sales or revenues, provide a narrative discussion of the extent to which such increases are attributable to increase in prices or to increases in the volume or amount of goods or services being sold or to the introduction of new products or services.

(4) For the three most recent fiscal years of the registrant, or for those fiscal years beginning after December 25, 1979, or for those fiscal years in which the registrant has been engaged in business, whichever period is shortest, discuss the impact of inflation and changing prices on the registrant's net sales and revenues and on income from continuing operations.

Instructions. 1. The registrant's discussion and analysis shall be of the financial statements and of other statistical data that the registrant believes will enhance a reader's understanding of its financial condition, changes in financial condition and results of operations. Generally, the discussion should cover the three year period covered by the financial statements and shall use year-to-year comparisons or any other formats that in the registrant's judgment enhance a reader's understanding. However, where trend information is relevant, reference to the five year selected financial data appearing in Item 8 may be necessary.

2. The purpose of the discussion and analysis shall be to provide to investors and other users information relevant to an assessment of the financial condition and results of operations of the registrant as determined by evaluating the amounts and certainty of cash flows from operations and from outside sources. The information provided in this Item 9 need only include that which is available to the registrant without undue effort or expense and which does not clearly appear in the registrant's financial statements.

3. The registrant's discussion and analysis shall focus specifically on material events and uncertainties known to management that would cause reported financial information not to be necessarily indicative of future operating results or of future financial condition. This would include descriptions and amounts of (A) matters that would have an impact on future operations and have not had an impact in the past, and (B) matters that have had an impact on reported operations and are not expected to have an impact upon future operations.

4. Where the consolidated financial statements reveal material changes from year to year in one or more line items, the causes for the changes shall be described to the extent necessary to an understanding of registrant's businesses as a whole; provided, however, that if the causes for a change in one line item also relate to other line items, no repetition is required and a line by line analysis of the financial statements as a whole is not required or generally appropriate. Registrants need not recite the amounts of changes from year to year which are readily computable from the financial statements. The discussion shall not merely repeat numerical data contained in the consolidated financial statements.

5. The term "liquidity" as used in this Item refers to the ability of an enterprise to generate adequate amounts of cash to meet the enterprise's needs for cash. Except where it is otherwise clear from the discussion, the registrant shall indicate those balance sheet conditions or income or cash flow items which the registrant believes may be indicators of its liquidity condition. Liquidity generally shall be discussed on both a long-term and short-term basis. The issue of liquidity shall be discussed in the context of the registrant's own business or businesses. For example, a discussion of working capital may be appropriate for certain manufacturing, industrial or related operations but might be inappropriate for a bank or public utility.

6. Where financial statements of the registrant are required by § 210.4-08(e)(iii) of Regulation S-X (17 CFR 210) to include disclosure of restrictions on the ability of both consolidated and unconsolidated subsidiaries to transfer funds to the registrant in the form of cash dividends, loans or advances, the discussion of liquidity shall include a discussion of the nature and extent of such restrictions and the impact such restrictions have had and are expected to have on the ability of the registrant to meet its cash obligations.

7. Registrants are encouraged, but not required, to supply forward-looking information. This is to be distinguished from presently-known data which will impact upon future operating results, such as known future increases in costs of labor or materials. This letter data may be required to be disclosed. Any forward-looking information supplied is expressly covered by the safe harbor rule for projections. See Rule 3b-6 under the Exchange Act (17 CFR 240.3b-6).

8. Registrants need not comply with SFAS 33 but if the registrant otherwise discloses information on the effects of changing prices, then such information shall be given.

9. Registrants may discuss the effects of inflation and changes in prices in whatever manner appears appropriate under the circumstances. All that is required is a brief textual presentation of management's views. No specific numerical financial data need be presented, except as Rule 3-20(c) of Regulation S-X (17 CFR 210.3-20(c)) otherwise requires.

10. All references to the registrant in the discussion and in this Item shall mean the registrant and its subsidiaries consolidated.

11. Registrants shall also discuss briefly any pertinent governmental economic, fiscal, monetary, or political policies or factors that have materially affected or could materially affect, directly or indirectly, their operations or investments by United States nationals.

12. The discussion should focus on the primary financial statements presented in the registration statement or report. There should be a reference to the reconciliation to United States generally accepted accounting principles, and a discussion of any aspects of the difference between foreign and United States generally accepted accounting principles, not discussed in the reconciliation, that the registrant believes is necessary for an understanding of the financial statements as a whole.

Item 10. *Directors and Officers of Registrant*

(a) List the names of all directors and executive officers of the registrant and all persons chosen to become directors or executive officers; indicate all positions and offices with the registrant held by each such person; state his term of office as director and/or as executive officer and the period duing which he has served as such; and briefly describe any arrangement or understanding between him and any other person pursuant to which he was selected as a director or executive officer.

Instructions. 1. Do not include arrangements or understandings with directors or executive officers of the registrant acting solely in their capacities as such.

2. The term "executive officer" means the president, secretary, treasurer, any vice president in charge of a principal business function (such as sales, administration or finance) or any other person who performs similar policy making functions for the registrant. Where the registrant employs persons such as production managers, sales managers, or research scientists, who are not executive officers, but who make or are expected to make significant contributions to the business of the registrant, such persons shall be identified and their background disclosed to the same extent as in the case of executive officers.

(b) State the nature of any family relationship between any other director or executive officer.

Instruction. The term "family relationship" means any relationship by blood, marriage or adoption, not more remote than first cousin.

Item 11. *Remuneration of Directors and Officers*

General Instructions. If the registrant discloses to its shareholders or otherwise makes public the information specified in this Item for individually named directors and officers, then such information shall also be included in response to this Item.

(a) State the aggregate amount of remuneration paid by the registrant and its subsidiaries during the registrant's last fiscal year to all directors and officers as a group, without naming them, for services in all capacities.

Instructions. 1. The information is to be given on an accrual basis if practicable. The information required by this paragraph and paragraph (b) may be shown in a single table if the registrant so desires.

2. If any part of the remuneration shown in response to this Item was paid pursuant to a material bonus or profit-sharing plan, briefly describe the plan and the basis upon which

V 46 / 231 DEC 2 81 UMI

directors or officers participate therein. See Instruction 1 to paragraph (b) for the meaning of the term "plan."

(b) State the aggregate amount set aside or accrued by the registrant and its subsidiaries during the last fiscal year of the registrant to provide pension, retirement or similar benefits for directors and officers of the registrant pursuant to any existing plan provided or contributed to by the registrant or its subsidiaries.

Instructions. 1. The term "plan" in this paragraph includes all plans, contracts, authorizations or arrangements, whether or not set forth in any formal document.

2. Information need not be furnished with respect to payments computed on an actuarial basis under any plan which provides for fixed benefits in the event of retirement at a specified age or after a specified number of years of service.

Item 12. *Options to Purchase Securities from Registrant or Subsidiaries*

General Instructions. 1. If the registrant discloses to its shareholders or otherwise makes public the information specified in this Item for individually named directors and officers, then such information shall also be included in response to this Item.

2. Furnish the following information as to all options to purchase securities of the class being registered from the registrant or any of its subsidiaries, which are outstanding as of a specified date within 30 days prior to the date of filing the registration statement, report, or filing as part of a registration statement under the Securities Act of 1933:

(a) State (1) the title and total amount of securities called for by the options; (2) the purchase price of the securities called for; and (3) the expiration dates of the options.

(b) State the total amount of securities called for by all such options held by directors and officers of the registrant as a group, without naming them.

Instruction. The term "option" as used in this Item includes all options, warrants or rights, other than those issued to securityholders as such on a pro rata basis.

Item 13. *Interest of Management in Certain Transactions*

General Instructions. 1. The information specified in this Item need be furnished only to the extent that the registrant discloses to its shareholders or otherwise makes public the information specified in this Item for individually named directors and officers.

2. With respect to annual reports, information relating to these transactions shall be furnished in accordance with the provisions of this Item 13 except that the information may be limited to the period since the beginning of the last fiscal year up to the latest practicable date.

3. If the information called for by this Item has been reported previously in a report on Form 6–K, it may be incorporated by specific reference in the annual report to the previous filing.

(a) Describe briefly any material transactions during the last three fiscal years or any presently proposed transactions, to which the registrant or any of its subsidiaries was or is to be a party, in which any of the following persons had or is to have a direct or indirect material interest, naming such person, such person's relationship to the registrant, the nature of the interest in the transaction and, where practicable, the amount of such interest:

(1) Any director or officer of the registrant;

(2) Any security holder named in answer to Item 4(a);

(3) Any relative or spouse of any of the foregoing persons, or any relative of such spouse, who has the same home as such person or who is a director or officer of any parent or subsidiary of the registrant.

(b) State as to each of the following persons who was indebted to the registrant or its subsidiaries at any time during the last three years (i) the largest aggregate amount of indebtedness outstanding at any time during such period, (ii) the nature of the indebtedness and of the transaction in which it was incurred, (iii) the amount thereof outstanding as of the latest practicable date, and (iv) the rate of interest paid or charged thereon:

(1) Each director or officer of the registrant; and

(2) Each associate of any such director or officer.

Part II

Item 14. *Description of Securities to be Registered*

(a) *Capital Stock To Be Registered.* If capital stock is to be registered, state the title of the class and furnish the following information:

(1) Outline briefly (i) dividend rights; (ii) voting rights, (iii) liquidation rights; (iv) pre-emptive rights; (v) conversion rights; (vi) redemption provisions; (vii) sinking fund provisions; and (viii) liability to further calls or to assessment by registrant.

(2) If the rights of holders of such stock may be modified otherwise than by a vote of a majority or more of the shares outstanding, voting as a class, so state and explain briefly.

(3) Outline briefly any restrictions on the repurchase or redemption of shares by the registrant while there is any arrearage in the payment of dividends or sinking fund installments. If there is no such restriction, so state.

Instructions. 1. This Item requires only a brief summary of the provisions which are pertinent from an investment standpoint. A complete legal description of the provisions referred to is not required and should not be given. Do not set forth the provisions of the governing instruments verbatim; only a succinct resume is required.

2. If the rights evidenced by the securities to be registered are materially limited or qualified by the rights evidenced by any other class of securities or by the provisions of any contract or other document, include such information regarding such limitation of qualification as will enable investors to understand the rights evidenced by the securities to be registered.

(b) *Debt Securities To Be Registered.* If debt securities are to be registered, outline briefly such of the following as are relevant:

(1) Provisions with respect to interest, conversions, maturity, redemption, amortization, sinking fund or retirement.

(2) Provisions with respect to the kind and priority of any lien securing the issue, together with a brief identification of the principal properties subject to each lien.

(3) Provisions restricting the declaration of dividends or requiring the creation or maintenance of any ratio of assets, the creation or maintenance of reserves or the maintenance of properties.

(4) Provisions permitting or restricting the issuance of additional securities, the withdrawal of cash deposited against such issuance, the incurring of additional debt, the release or substitution of assets securing the issue, the modification of the terms of the security, and similar provisions.

(5) The name and address of the trustee and the nature of any material relationship with the registrant or any of its affiliates, the percentage of securities of the class necessary to require the trustee to take action, and what indemnification the trustee may require before proceeding to enforce the lien.

(6) The names and addresses of paying agents.

(7) The currency or currencies in which payable and, if payable in two or more currencies, state the basis of determination for the currency conversion and at whose option.

(8) The provisions of any law or decree determining the extent to which the securities of the issuer may be serviced.

(9) The circumstances concerning any failure to pay principal, interest, or any sinking or amortization installment.

Instructions. 1. The instructions to paragraph (a) shall also apply to this Item.

2. Provisions permitting the release of assets upon the deposit of equivalent funds or the pledge of equivalent property, the release of property no longer required in the business, obsolete property or property taken by eminent domain, the application of insurance monies, and similar provisions, need not be described in anwer to paragraph. (4).

3. If the securities to be registered are guaranteed, state the name of the guarantor and briefly outline the contract of guarantee.

(c) *American Depositary Receipts.* If American Depositary Receipts are being registered, furnish the following information:

(1) The name of the depositary and the address of its principal executive office.

(2) State the title of the American Depositary Receipts and identify the deposited security. Describe briefly the terms of deposit, including the provisions, if any, with respect to: (i) the amount of deposited securities represented by one unit of American Depositary Receipts; (ii) the procudure for voting, if any, the deposited securities; (iii) the collection and distribution of dividends; (iv) the transmission of notices, reports and proxy soliciting materials; (v) the sale or exercise of rights; (vi) the deposit or sale of securities resulting from dividends, splits or plans of reorganization; (vii) amendment, extension or termination of the deposit; (viii) rights of holders of receipts to inspect the transfer books of the depositary and the list of holders of receipts; (ix) restrictions upon the right to deposit or withdraw the underling securities; (x) limitation upon the liability of the depositary.

(3) Describe all fees and charges which may be imposed directly or indirectly against the holder of the American Depositary Receipts, indicating the type of service, the amount of fee or charge and to whom paid.

Instructions. 1. The response to this paragraph shall include information with respect to fees and charges in connection with (a) the deposit or substitution of the underlying securities; (b) receipt and distribution of dividends; (c) the sale or exercise of rights; (d) the withdrawal of the underlying security; and (e) the tranferring, splitting or grouping of receipts.

2. Information with respect to the right to collect the fees and charges against dividends received and deposited securities should be included in reponse to this item.

(d) *Other Securities To Be Registered.* If securities other than capital stock or long-term debt are to be registered, outline briefly the rights evidenced thereby. If subscription warrants or rights are to be registered, state the title and amount of securities called for, the period during which and the price at which the warrants or rights are exercisable.

Instruction. The instructions to paragraph (a) shall also apply to this Item.

Part III

Item 15. *Defaults Upon Senior Securities*

General Instruction. If the information called for by this Item has been reported previously in a report on Form 6–K, it may be incorporated by specific reference in the annual report to the previous report.

(a) If there has been any material default in the payment of principal, interest, a sinking or purchase fund installment, or any other material default not cured within 30 days, with respect to any indebtedness of the registrant or any of its significant subsidiaries exceeding 5 percent of the total assets of the registrant and its consolidated subsidiaries, identify the indebtedness and state the nature of the default. In the case of such a default in the payment of principal, interest or a sinking or purchase fund installment, state the amount of the default and the total arrearage on the date of filing this report.

Instruction. This paragraph refers only to events which have become defaults under the governing instruments, i.e., after the expiration of any period of grace and compliance with any notice requirements.

(b) If any material arrearage in the payment of dividends has occurred or if there has been any other material delinquency not cured within 30 days, with respect to any class of preferred stock of the registrant which is registered or which ranks prior to any class of registered securities, or with respect to any class of preferred stock of any significant subsidiary of the registrant, give the title of the class and state the nature of the arrearage or delinquency. In the case of an arrearage in the payment of dividends state the amount and the total arrearage on the date of filing this report.

Instruction. Item 15 need not be answered as to any default or arrearage with respect to any class of securities all of which is held, or for the account of, the registrant or its totally held subsidiaries.

Item 16. *Changes in Securities and Changes in Security for Registered Securities*

General Instruction. If the information called for by this Item has been reported previously in a report on Form 6–K, it may be incorporated by specific reference in the annual report to the previous report.

(a) If the constituent instruments defining the rights of the holders of any class of registered securities have been materially modified, give the title of the class of securities involved and state briefly the general effect of such modification upon the rights of holders of such securities.

(b) If the rights evidenced by any class of registered securities have been materially limited or qualified by the issuance or modification of any other class of securities, state briefly the general effect of the issuance or modification of such other class of securities upon the rights of the holders of the registered securities.

Instruction. Working capital restrictions and other limitations upon payment of dividends are to be reported hereunder.

(c) If there has been a material withdrawal or substitution of assets securing any class of registered securities of the registrant, furnish the following information:

(1) give the title of the securities.

(2) identify and describe briefly the assets involved in the withdrawal or substitution.

(3) indicate the provision in the underlying indenture, if any, authorizing the withdrawal or substitution.

Instruction. This paragraph need not be answered when the withdrawal or substitution is made pursuant to the terms of an indenture which has been qualified under the Trust Indenture Act of 1939.

(d) If the trustees or paying agents for any registered securities have changed during the last fiscal year, furnish the names and addresses of the new trustees or paying agents.

Part IV

[See General Instruction C(c)]

Item 17. *Financial Statements*

(a) The registrant shall furnish financial statements for the same fiscal years, schedules, and accountants' certificates that would be required to be furnished if the registration statement were on Form 10 or the annual report on Form 10–K.

(b) The financial statements shall be in a format substantially similar to a format that complies with United States generally accepted accounting principles and Regulation S–X.

(c) The financial statements and schedules required by paragraph (a) above may be prepared according to a comprehensive body of accounting principles other than those generally accepted in the United States if the following are disclosed:

(1) An indication, in the accountant's report or in a reasonably prominent headnote before the financial statements, of the comprehensive body of accounting principles used to prepare the financial statements.

(2) A discussion of the material variations in the accounting principles, practices, and methods used in preparing the financial statements from the principles, practices, and methods generally accepted in the United States and in Regulation S–X. Such material variations shall be quantified in the following format:

(i) For each year and any interim periods for which an income statement is presented, net income shall be reconciled in a tabular format, substantialy similar to the one shown below, on the face of the income statement or in a note thereto.

Net income, according to foreign generally accepted accounting principles	XXX
Increases	XXX
Decreases	(XXX)
Net income, according to United States generally accepted accounting principles	XXX

(ii) For each balance sheet presented, the amount of the items for which such variations exist as presented according to United States generally accepted accounting principles or Regulation S–X shall be shown in parenthesis on the face of the balance sheet or in a note thereto.

Instructions. (1) If the variations quantified pursuant to paragraph (c) above are significant, the registrant should consider presenting them on the face of the financial statements.

(2) If the registrant presents earnings per share that are materially different from earnings per share computed according to generally accepted accounting principles in the United States, the difference shall be quantified.

(3) If the registrant presents its financial statements according to generally accepted accounting principles in the United States except for SFAS 14 and if it furnishes the information relating to categories of activity required by Item 1 of Form 20–F, then such financial statements will be considered to comply with this Item, even if the auditor's report is qualified for non-compliance with SFAS 14. Such report and financial statements, however, must comply with all other applicable requirements.

Item 18. *Financial Statements*

(a) The registrant shall furnish financial statements for the same fiscal years, schedules, and accountants' certificates that would be required to be furnished if the registration statement were on Form 10 or the annual report on Form 10–K.

(b) The financial statements shall be in a format substantially similar to format that complies with United States generally accepted accounting principles and Regulation S–X.

(c) The financial statements and schedules required by paragraph (a) above may be prepared according to a comprehensive body of accounting principles other than those generally accepted in the Unites States if the following are disclosed:

(1) An indication, in the accountant's report or in a reasonably prominent headnote before the financial statements, of the comprehensive body of accounting principles used to prepare the financial statements.

(2) A discussion of the material variations in the accounting principles, practices, and methods used in preparing the financial statements from the principles, practices and methods generally accepted in the United States and in Regulation S–X. Such material

variations shall be quantified in the following format.

(i) For each year and any interim periods for which an income statement is presented, net income shall be reconciled in a tabular format, substantially similar to the one shown below, on the face of the income statement or in a note thereto.

Net income, according to foreign generally accepted accounting principles	XXX
Increases	XXX
Decreases	(XXX)
Net income, according to United States generally accepted accounting principles	XXX

(ii) For each balance sheet presented, the amount of the items for which such variations exist as presented according to United States generally accepted accounting principles or Regulation S–X shall be shown in parenthesis on the face of balance sheet or in a note thereto if there is a material variation from the amount presented according to foreign generally accepted accounting principles.

(3) All other information required by United States generaly accepted accounting principles and Regulation S–X.

Instructions. 1. If the variations quantified pursuant to paragraph (c) above are significant, the registrant should consider presenting them on the face of the financial statements.

2. If the registrant presents earnings per share that are materially different from earnings per share computed according to generally accepted accounting principles in the United States, the difference shall be quantified.

Item 19. *Financial Statements and Exhibits*

(a) List separately all financial statements filed as part of the registration statement or annual report.

(b) List all exhibits filed as part of the registration statement or annual report, including those incorporated by reference.

Instructions. 1. Where any financial statement or exhibit is incorporated by reference, the incorporation by reference shall be set forth in the list required by this Item. See Rule 12b–23.

2. See the Instructions as to Exhibits herein.

Signatures

Pursuant to the requirements of Section 12 of the Securities Exchange Act of 1934, the registrant certifies that it meets all of the requirements for filing on Form 20–F and has duly caused this registration statement (annual report) to be signed on its behalf by the undersigned, thereunto duly authorized.

(Registrant) _____

* Print the name and title of the signing officer under this signature.

Instructions as to Exhibits

A. Registration Statements

Subject to Rule 12b–32 (17 CFR 240.12b–32) regarding the incorporation of exhibits by reference, the following exhibits shall be filed as a part of the registration statement. Each registration statement shall contain an exhibit index. For convenient reference, each exhibit shall be listed in the exhibit index according to the number assigned to it below. The exhibit index shall immediately precede the exhibits filed with such document and shall indicate in the manually signed original the page number in the sequential numbering system where such exhibit can be found. Where exhibits are incorporated by reference, this fact shall be noted in the exhibit index referred to in the preceding sentence.

1. The articles of incorporation and bylaws of the registrant or instruments corresponding thereto as currently in effect.

2. (i) All instruments defining the rights of holders of the equity or debt securities being registered.

(ii) Except as set forth in (iii) below all instruments defining the rights of holders of long-term debt of the registrant and of all subsidiaries for which consolidated or unconsolidated financial statements are required to be filed.

(iii) Where the instrument defines the rights of holders of long-term debt of the registrant and all its subsidiaries for which consolidated or unconsolidated financial statements are required to be filed, there need not be filed (A) any instrument with respect to long-term debt not being registered hereunder if the total amount of securities authorized thereunder does not exceed 10 percent of the total assets of the registrant and its subsidiaries on a consolidated basis and if there is filed an agreement to furnish a copy of such instrument to the Commission upon request, (B) any instrument with respect to any class of securities if appropriate steps to assure the redemption or retirement of such class will be taken prior to or upon delivery by the registrant of the securities to be registered, or (C) copies of instruments evidencing scrip certificates for fractions of shares.

3. (i) Every contract not made in the ordinary course of business which is material to the registrant and is to be performed in whole or in part at or after the filing of the registration statement or was entered into not more than two years before filing. Only contracts need be filed as to which the registrant or a subsidiary of the registrant is a party or has succeeded to a party by assumption or assignment or in which the registrant or such subsidiary has a beneficial interest. See Rule 24b–2 (17 CFR 240.24b–2) for the procedure to be followed in requesting confidential treatment of information required to be filed under the Act.

(ii) If the contract is such as ordinarily accompanies the kind of business conducted by the registrant and its subsidiaries, it will be deemed to have been made in the ordinary course of business and need not be filed, unless it falls within one or more of the following categories, in which case it should be filed except where immaterial in amount or significance:

(A) Any contract to which directors, officers, promoters, voting trustees, or security holders named in the registration statement are parties other than contracts involving only the purchase or sale of current assets having a determinable market price, at such price;

(B) Any contract upon which the registrant's business is substantially dependent, as in the case of continuing contracts to sell the major part of registrant's products or services or to purchase the major part of registrant's requirements of goods, services or raw materials or any franchise or license or other agreement to use a patent, formula, trade secret, process or trade name upon which registrant's business depends to a material extent;

(C) Any contract calling for the acquisition or sale of any property, plant or equipment for a consideration exceeding 15 percent of all fixed assets of the registrant on a consolidated basis; or

(D) Any material lease under which a part of the property described in the registration statement is held by the registrant.

4. Upon the request of the Commission, each material foreign patent for an invention not covered by a United States patent furnish a list showing the number and a brief identification of each such patent or patent right.

5. Upon request of the Commission, a list or diagram of all parents and subsidiaries of the registrant indicating as to each person named (a) country or other jurisdiction of incorporation or organization, (b) relationship to the registrant and (c) the percentage of voting securities owned or other basis of control by its immediate parent, if any.

B. Annual Reports

Subject to Rule 12b–32 (17 CFR 240.12b–32) regarding the incorporation of exhibits by reference, the following exhibits shall be filed as a part of the annual report. Each report shall contain an exhibit index. For convenient reference, each exhibit shall be listed in the exhibit index according to the number assigned to it below. The exhibit index shall immediately precede the exhibits filed with such document and shall indicate in the manually signed original the page number in the sequential numbering system where such exhibit can be found. Where exhibits are incorporated by reference, this fact shall be noted in the exhibit index referred to in the preceding sentence.

1. Copies of all amendments or modifications, not previously filed, to all exhibits previously filed (or copies of such exhibits as amended or modified).

2. Copies of all contracts and other documents of a character required to be filed as an exhibit to an original registration statement which were executed or in effect during the fiscal year and not previously filed. See Rule 24b–2 for the procedure to be followed in requesting confidential treatment of information required to be filed.

3. Upon request of the Commission, a list or diagram of all parents and subsidiaries of the registrant indicating as to each person named (a) country or other jurisdiction of incorporation or organization, (b) relationship to the registrant and (c) the percentage of voting securities owned or other basis of control by its immediate parent, if any.

Appendix A to Item 2(b)—Oil and Gas Reserve and Production Disclosure

Registrants specified in Item 2(b) shall furnish the following information under appropriate captions (in tabular form if practicable, and with cross references, where applicable, to related information disclosed in financial statements):

(a) *Reserves.* As of the end of each of the last three fiscal years (but not for fiscal years ending prior to December 31, 1979), estimated net quantities of: (i) proved oil and gas reserves; (ii) proved developed oil and gas reserves; and (iii) oil and gas applicable to long-term supply or similar agreements with foreign governments or authorities in which the registrant acts as producer.

Instructions. 1. The following definitions shall apply to this Appendix:

(i) Proved oil and gas reserves. Proved oil and gas reserves are the estimated quantities of crude oil, natural gas, and natural gas liquids which geological and engineering data demonstrate with reasonable certainty to be recoverable in future years from known reservoirs under existing economic and operating conditions, i.e., prices and costs as of the date the estimate is made. Prices include consideration of changes in existing prices provided only by contractual arrangements, but not on escalations based upon future conditions.

(A) Reservoirs are considered proved if economic producibility is supported by either actual production or conclusive formation test. The area of a reservoir considered proved includes (1) that portion delineated by drilling and defined by gas-oil and/or oil-water contacts, if any, and (2) the immediately adjoining portions not yet drilled, but which can be reasonably judged as economically productive on the basis of available geological and engineering data. In the absence of information on fluid contacts, the lowest known structural occurrence of hydrocarbons controls the lower proved limit of the reservoir.

(B) Reserves which can be produced economically through application of improved recovery techniques (such as fluid injection) are included in the "proved" classification when successful testing by a pilot project, or the operation of an installed program in the reservoir, provides support for the engineering analysis on which the project or program was based.

(C) Estimates of proved reserves do not include the following: (1) oil that may become available from known reservoirs but is classified separately as "indicated additional reserves"; (2) crude oil, natural gas, and natural gas liquids, the recovery of which is subject to reasonable doubt because of uncertainty as to geology, reservoir characteristics, or economic factors; (3) crude oil, natural gas, and natural gas liquids, that may occur in undrilled prospects; and (4) crude oil, natural gas, and natural gas liquids, that may be recovered from oil shales, coal, gilsonite and other such sources.

(ii) Proved developed oil and gas reserves. Proved developed oil and gas reserves are reserves that can be expected to be recovered through existing wells with existing equipment and operating methods. Additional oil and gas expected to be obtained through the application of fluid injection or other improved recovery techniques for supplementing the natural forces and mechanisms of primary recovery should be included as "proved developed reserves" only after testing by a pilot project or after the operation of an installed program has confirmed through production response that increased recovery will be achieved.

(iii) Other definitions. The definitions in Section 210.4–10(a) of Regulation S-X [17 CFR 210] shall apply to this Appendix.

2. Notwithstanding, if any foreign government restricts the disclosure of estimated reserves for properties under its governmental authority, or amounts under long-term supply, purchase, or similar agreements, or if the foreign government requires the disclosure of reserves other than proved, the registrant should notify the Office of Engineering, Division of Corporation Finance, of the Commission. If the required information is not disclosed or if categories of reserves other than proved are disclosed for these reasons, the document should identify the country, cite the law or regulation which restricts or requires such disclosure, and indicate that the reported reserve estimates or amounts do not include figures for the named country or that the reserve estimates include reserves other than proved.

3. If these reserves are located entirely within the registrant's home country, that fact shall be disclosed. If some or all of the reserves are located in foreign countries, the disclosure of net quantities of reserves of oil and gas shall be separately reported for the entity's home country (if significant reserves are located there) and each foreign geographic area in which significant reserves are located. Foreign geographic areas are individual countries or groups of countries, as appropriate, for meaningful disclosure in the circumstances.

4. Disclosure shall be given of the effect on ownership of reserves of any takeover or nationalization within the most recent fiscal year by foreign governments of properties owned by the registrant, including any change of a property interest into a long-term supply, purchase, or similar agreement.

[end of Instructions to paragraph (a)]

(b) *Production.* Net quantities of oil (including condensate and natural gas liquids) and of gas produced for each of the last three fiscal years (but not for fiscal years ending prior to December 31, 1979) and the net quantities of each received during each of these years applicable to long-term supply or similar agreements with foreign governments or authorities in which the registrant acts as producer, by areas no larger than the geographic areas used for estimated reserves in paragraph (a) above.

Instructions. 1. Generally, net production should include only production that is owned by the registrant and produced to its interest, less royalties and production due others. However, in special situations (e.g., foreign production) net production before royalties may be provided if more appropriate. If "net before royalty" production figures are furnished, the change from the common usage of "net production" shall be noted.

2. Any part of natural gas liquids production obtained through or from processing plan ownership rather than through leasehold ownership should be reported separately, if material.

PART 260—GENERAL RULES AND REGULATIONS, TRUST INDENTURE ACT OF 1939

19. By revising paragraphs (b)(1)(i) and (2) and (c)(3) of § 260.0–11 to read as follows:

§ 260.0–11 Projections of future economic performance by issuers.

* * * * *

(b) * * *

(1) * * *

(i) At the time such statements are made or reaffirmed, either the issuer is subject to the reporting requirements of section 13(a) or 15(d) of the Securities Exchange Act of 1934 and has complied with the requirements of Rule 13a–1 or 15d–1 thereunder; if applicable, to file its most recent annual report on Form 10–K or Form 20–F; or if the issuer is not subject to the reporting requirements of section 13(a) or 15(d) of the Securities Exchange Act of 1934, the statements are made in a registration statement filed under the Securities Act of 1933 or pursuant to section 12(b) or (g) of the Securities Exchange Act of 1934.

* * * * *

(2) Information relating to the effects of changing prices on the business enterprise presented voluntarily or pursuant to Item 303 of Regulation S–K (17 CFR 229.300) or Item 9 of Form 20–F (17 CFR 249.220f), management's discussion and analysis of financial condition and results of operations, or Item 302 of Regulation S–K, supplementary financial information, or Rule 3–20(c) of Regulation S–X (17 CFR 210.3–20), and disclosed in a document filed with the Commission, in Part I of a quarterly report on Form 10–Q or in an annual report to shareholders meeting the requirements of Rules 14a–3 (b) and (c) or 14c–3(a) and (b) under the Securities Exchange Act of 1934.

(c) * * *

(3) A statement of future economic performance contained in management's discussion and analysis of financial condition and results of operations included pursuant to Item 303 of Regulation S–K (17 CFR 229.300) or Item 9 of Form 20–F.

* * * * *

Regulatory Flexibility Act Considerations

The Chairman has certified that the proposed rules, if promulgated, will not have a significant economic impact on a substantial number of small entities.

V 46 / 231 DEC 2 81 1 UMI

Statutory basis

These amendments are proposed pursuant to authority in Sections 6, 7, 8, 10, ans 19(a) of the Securities Act of 1933; Sections 12, 13, 15(d), and 23(a) of the Securities Exchange Act of 1934; Sections 8, 30, 31(c) and 38(a) of the Investment Company Act of 1940.

(Secs. 6, 7, 8, 10, 19(a), 48 Stat. 78, 79, 81, 85; secs. 205, 209, 48 Stat. 906, 908; sec. 301, 54 Stat. 857; sec. 8, 68 Stat. 685; sec. 1, 79 Stat. 1051; sec. 308(a)(2), 90 Stat. 57; secs, 12, 13, 15(d), 23(a), 48 Stat. 892, 894, 895, 901; secs. 1, 3, 8, 49 Stat. 1375, 1377, 1379, sec. 2103(a), 49 Stat. 704; sec. 202, 68 Stat. 686; secs. 3, 4, 6, 78 Stat. 565–568, 569, 570–574; secs, 1, 2, 82 Stat. 454 sec. 28(c), 84 Stat. 1435; secs. 1, 2, 84 Stat. 1497; sec. 105(b) 88 Stat. 1503; secs. 8, 9, 10, 18, 89 Stat. 117, 118, 119, 155; sec. 308(b), 90 Stat. 57; secs. 202, 203, 204, 91 Stat. 1494, 1498, 1499, 1500; secs. 8, 30, 31(c), 38(a), 54 Stat. 803, 836, 838, 841; 74 Stat. 201; 84 Stat. 1415; 15 U.S.C. 77f, 77g, 77h, 77j, 77s(a), 78l, 78m, 78o(d), 78w(a), 80a–8, 80a–29, 80a–30(c), 80a–37(a))

The Commission is mindful of the cost to registrants and others of its proposals and recognizes its responsibilities to weigh with care the costs and benefits which result from its rules. Accordingly, the Commission specifically invites comments on the costs to registrants and others of the addition of the proposals, if adopted.

Pursuant to Section 23(a)(2) of the Securities Exchange Act of 1934, the Commission specifically invites comments as to the competitive impact of these proposals, if adopted.

By The Commission.

George A. Fitzsimmons,

Secretary.

November 20, 1981.

Regulatory Flexibility Act Certification

I, John S. R. Shad, Chairman of the Securities and Exchange Commission, hereby certify, pursuant to 5 U.S.C. 605(b), that the proposed rules relating to registration statements of foreign issuers contained in Securities Act Release No. 6360 (November 20, 1981), "Integrated Disclosure System for Foreign Private Issuers," will not, if promulgated, have a significant economic impact upon a substantial number of small entities. The reason for this certification is that none of the approximately one hundred fifty registrants that would be affected by the adoption of the proposals appear to be a small entity.

John S. R. Shad,

Chairman.

November 20, 1981.

Notices

Federal Register
Vol. 46, No. 231
Wednesday, December 2, 1981

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF AGRICULTURE

Forest Service

Oil and Gas Leasing in Wildernesses and Primitive Areas, Proposed Wildernesses, and Congressionally Designated Study Areas Northern Region, Montana, and North Dakota; Intent To Prepare an Environmental Impact Statement

The Department of Agriculture, Forest Service, will prepare an Environmental Impact Statement for the proposed oil and gas leasing within Montana Wildernesses, proposed Wildernesses and Wilderness study areas. Also included in the study is the Twin Buttes recommended wilderness in North Dakota. Several hundred oil and gas lease applications have been received for these areas. The Regional Forester of the Forest Service Northern Region must recommend to the Secretary of the Interior through the Bureau of Land Management whether these leases should be granted, and if so, under what circumstances. The areas to be analyzed include the following lands in the State of Montana (except those withdrawn from mineral leasing):

1. Existing wildernesses
2. Administratively endorsed wilderness proposals
3. RARE II areas recommended for wilderness
4. Congressionally designated wilderness study areas

Study area lands occur in all ten Montana National Forests.

There are two alternatives—lease or withdraw. These alternatives can occur on all or any part of each of the subject areas. For the leasing alternative, there is no clearly definable proposed development. The scale of an "oil field" development cannot be predicted until enough wells are drilled to prove the existence of the necessary geologic structures and that those structures do indeed contain economically recoverable quantities of oil and gas. If development is permitted, its extent will depend on not only these geologic unknowns but also on the costs of restoration and the limitations imposed by the terms of the lease. Therefore, under the leasing alternative, this EIS will examine the effects of various levels of oil and gas development that might occur under existing Forest Service direction.

This study will establish criteria and guidelines that will identify wilderness resource values to be protected and specify applicable protection stipulations. Where stipulations cannot be written to adequately protect identified wilderness values, a basis will be provided for recommending mineral withdrawal.

Appropriate agencies and others with jurisdiction or expertise will be consulted by the study team during the analysis to obtain information as needed and to invite their participation in the study process.

Due to the overlapping jurisdictions and keen interest in the decision reached by the analysis, the Bureau of Land Management and the State of Montana will be invited to participate as cooperating agencies in this environmental analysis.

The scoping process for this EIS takes into consideration the recent public response already on record for similar proposals. These include the recent seismic applications for the Bob Marshall, Great Bear and Scapegoat Wildernesses.

A mailing list will be prepared by the study team. The list will include interested and affected groups/individuals and agencies identified by the involved Forests and Staff Units. Comments will be requested from the public during the scoping process. The time and location of public meetings will be announced through the local news media later this year. The scoping process will also include contacts by the Study Team with groups and agencies interested and/or affected by the recommendations.

The responsible official is Tom Coston, Regional Forester of the Forest Services' Northern Region. A draft environmental impact statement should be ready for public review by April 1982 with the final environmental impact statement scheduled for release in August 1982.

Written comments and suggestions concerning this analysis should be sent to Tom Coston, Regional Forester, Northern Region, USDA, Forest Service, P.O. Box 7669, Missoula, MT 59807, by January 15, 1982.

Questions about the proposed action and environmental impact statement should be directed to E. Bruce Pewitt, Minerals Impact Evaluation Group Leader, Minerals and Geology, P.O. Box 7669, Missoula, MT 59807, phone: 406–329–3516.

Dated: November 23, 1981.

Tom Coston,

Regional Forester.

BILLING CODE 3410-11-M

CIVIL AERONAUTICS BOARD

[Docket No. 37554; Order 81-11-174]

Establishment of the Standard Foreign Fare Level

Served: November 27, 1981.

The International Air Transportation Competition Act (IATCA), Pub. L. 96–192, requires that the Board establish a Standard Foreign Fare Level (SFFL) by adjusting the SFFL base [1] periodically by percentage changes in actual operating costs per available seat-mile (ASM). The SFFL thus computed becomes the benchmark for measuring the statutory nonsuspend zone similar to the zone of reasonableness established by the Airline Deregulation Act and set forth in section 1002(d) of the Federal Aviation Act of 1958. Order 80–2–69 established the first interim SFFL and subsequent Order 81–9–120 established the currently effective two-month SFFL applicable through November 30, 1981.

In establishing the SFFL for the two-month period commencing December 1, 1981 we have projected nonfuel costs based on the year ended September 30, 1981, and have adjusted fuel prices to reflect the latest experienced monthly fuel cost levels.

Our calculations measure inflation from October 1, 1979, to January 1, 1982, the midpoint of the December-January projection period, for the three

[1] As defined in section 1002(j)(7) of the Federal Aviation Act of 1958.

ratemaking entities: Atlantic, Latin America, and Pacific The four-month average of June-September fuel cost increases produces the following rate of escalation: −1.41 cents per gallon in the Atlantic; −.57 cents per gallon in Latin America; and −.23 cents per gallon in the Pacific. Examination of the monthly and weekly fuel prices submitted to the Board by the carriers, however, indicate to us that the recent reductions in fuel prices have moderated, and prices are essentially level. Consequently, we have decided not to project forward a rate of decrease in fuel prices, and, instead decided to use the latest actual fuel prices in the final calculations as the best current projection of future prices. The resulting projections are fuel prices of 112.74 cents in the Atlantic, 108.43 cents in Latin America, and 116.99 cents in the Pacific at January 1, 1982.

Consequently, based on our calculations, we find that projected cost adjustment factor to be 1.3766 percent in the Atlantic, 1.3185 percent in Latin America, and 1.3368 percent in the Pacific, over the October 1, 1979 level (see Appendix A.) [2] This results in changes over the last two-month SFFL of −.56 percent, .27 percent, and 3.74 percent, respectively.

We calculated both a two-month and a four-month SFFL effective October 1, 1981 in Order 81–9–120. The four-month period continues through January 31, 1982, and carriers whose filings utilized the higher four-month figures may not rely upon the increases permitted by this Order. The next four-month SFFL, along with the usual two-month projection, will be effective February 1, 1982.

Accordingly, pursuant to sections 102, 204(a), 403, 801 and 1002(j) of the Federal Aviation Act of 1958, as amended:

1. Effective December 1, 1981, fares may be increased by the following adjustment factors over the October 1, 1979, level: Atlantic, 1.3766; Latin America, 1.3185; Pacific, 1.3368.

2. We shall serve a copy of this order upon all U.S. certificated air carriers and all foreign are carriers; and

3. We shall publish this order in the **Federal Register**.

By the Civil Aeronautics Board.

Phyllis T. Kaylor,

Secretary.

All Members concurred.

DEPARTMENT OF COMMERCE

International Trade Administration

Petitions by Producing Firms for Determinations of Eligibility To Apply for Trade Adjustment Assistance

Petitions have been accepted for filing from the following firms: (1) Star Coat Manufacturing Company, Inc., 215 First Street, Hoboken, New Jersey 07030, producer of women's coats (accepted November 2, 1981); (2) Farwest Garments, Inc., P.O. Box C 88400, Seattle, Washington 98188, producer of men's women's and children's jackets (accepted November 3, 1981); (3) Richard Foundry Corporation, P.O. Box 4617, Norfolk, Virginia 23523, producer of iron construction castings and fabricated steel (accepted November 3, 1981); (4) The Original Collins of Texas, Inc., P.O. Box 1000, Medina, Texas 78055, producer of handbags (accepted November 9, 1981); (5) Theo. R. Schwalm, Inc., 510 Second Street, Lancaster, Pennsylvania 17603, producer of watch and clock faces, award pins, charms, medallions, trophies and metal parts (accepted November 9, 1981); (6) Knoxville Glove Company, 444 Blount Avenue, Knoxville, Tennessee 37920, producer of work gloves, aprons and hand pads (accepted November 16, 1981); (7) Kato Supplies, Inc., Mankato, Minnesota 56001, producer of athletic uniforms and warm-up suits (accepted November 16, 1981); (8) McCain Manufacturing company, 7708 1st Avenue North, Birmingham, Alabama 35206, producer of women's pants, shorts, skirts and culottes (accepted November 17, 1981); (9) S & B Foundry Company, Route 5, Bloomsburg, Pennsylvania 17815, producer of iron castings (accepted November 20, 1981); and (10) Phil-Maid, Inc., 1033 West Van Buren Street, Chicago, Illinois 60607, producer of women's lingerie and loungewear (accepted November 20, 1981).

The petitions were submitted pursuant to Section 251 of the Trade Act of 1974 (Pub. L. 93–618) and § 315.23 of the Adjustment Assistance Regulations for Firms and Communities (13 CFR Part 315).

Consequently, the United States Department of Commerce has initiated separate investigations to determine whether increased imports into the United States of articles like or directly competitive with those produced by each firm contributed importantly to total or partial separation of the firm's workers, or threat thereof, and to a decrease in sales or production of each petitioning firm.

Any party having a substantial interest in the proceedings may request a public hearing on the matter. A request for a hearing must be received by the Director, Certification Division, Office Trade Adjustment Assistance, International Trade Administration, U.S. Department of Commerce, Washington, D.C. 20230, no later than the close of business of the tenth calendar day following the publication of this notice.

The Catalogue of Federal Domestic Assistance official program number and title of the program under which these petitions are submitted is 11.309, Trade Adjustment Assistance. Inasfar as this notice involves petitions for the determination of eligibility under the Trade Act of 1974, the requirements of Office of Management and Budget Circular No. A–95 regarding review by clearinghouses do not apply.

Jack W. Osburn, Jr.,

Director, Certification Division, Office of Trade Adjustment Assistance.

[FR Doc. 81–34617 Filed 12–1–81; 8:45 am]

BILLING CODE 3510–25–M

Initiation of Countervailing Duty Investigation; Prestressed Concrete Steel Wire Strand From Spain

AGENCY: International Trade Administration, Commerce.

ACTION: Initiation of Countervailing Duty Investigation.

SUMMARY: This notice is to inform the public that we are initiating a countervailing duty investigation in order to determine whether the government of Spain has given benefits which constitute bounties or grants within the meaning of the countervailing duty law on the manufacture, production or exportation of prestressed concrete steel wire strand (PC strand) from Spain.

Unless we extend this investigation, we will make a preliminary determination not later than January 29, 1982.

EFFECTIVE DATE: December 2, 1981.

FOR FURTHER INFORMATION CONTACT: John Brinkmann, Import Administration Specialist, Office of Investigations, International Trade Administration, Department of Commerce, Washington, D.C. 20230, (202) 377–1279.

SUPPLEMENTARY INFORMATION: On November 5, 1981, a petition in proper form was received from counsel on behalf of five domestic manufacturers of PC strand. Those manufacturers are: American Spring Wire Corporation, Armco Inc., Bethlehem Steel Corporation, Florida Wire & Cable Company, and Shinko Wire America, Inc. The petition alleges that the government of Spain pays or bestows, directly or indirectly, bounties or grants upon the manufacture, production or export of PC strand within the meaning of section 303 of the Tariff Act of 1930, as amended ("the Act").

Because Spain is not a "country under the Agreement," within the meaning of section 701(b) of the Act, section 303 of the Act applies to this investigation. Since the merchandise covered by this investigation is dutiable, no injury determination is required.

Scope of the Investigation

The merchandise covered by this investigation is prestressed concrete steel wire strand. It is used to compress concrete in order to provide active resistence to loads in such items as girders, beams, pilings, and other building products. PC strand is currently classified under 624.1120 in the Tariff Schedule of the United States Annotated.

The bounties or grants alleged in the petition are as follows:

1. Remission of indirect taxes upon export (Desgravacion Fiscal). Petitioner alleges that the entire amount of the Desgravacion Fiscal, in this case 17 percent, should be found to constitute a subsidy within the meaning of the countervailing duty law.

2. Privileged Circuit Exporter Credits. The petitioner alleges that the government of Spain requires each commercial bank to maintain a specific percentage of its lendable funds in so-called "privileged circuits." Funds in these circuits are made available at preferential rates through credit programs to designated classes of borrowers. Several of these programs are available to exporters of PC strand. The "privileged circuit" subsidy programs alleged by petitioner are:

(a) Working Capital Loans. Loans ranging from 20 percent to 30 percent of the value of the Spanish firm's exports during the preceding year are available to finance working capital.

(b) Commercial Services Loans. Exporters that establish, expand or acquire commercial services in export markets or wish to maintain stocks for export may obtain preferential loans for these purposes. Commercial services loans may cover 60–65 percent of the real investment while stock maintenance loans may cover 30–35 percent of the average annual value of the stock.

(c) Short-Term Export Credit. Short-term loans for up to 80–90 percent of the contract price are available to help the exporter to finance credit terms for foreign buyers.

(d) Prefinancing Exports—Short-term loans for up to 80–85 percent of the contract price of exported goods are available in the form of prefinancing credits for certain capital and consumer goods.

(e) Warehouse Construction Loans. Exporters desiring to construct warehouse facilities adjacent to loading zones may borrow 70–75% of the total investment.

3. Export Credit Insurance. Petitioner alleges that exporters may obtain export credit insurance at premium rates for such items as contract risks, credit risks, prefinancing loans, market research, cost increases, and exchange differences.

4. *Benefits to the Steel Industry.* The petitioner further alleges that preferential terms on loans and capital grants made by the government of Spain to manufacturers of steel billets and steel wire rod should be considered subsidies to the PC strand manufacturers and producers who utilize these products in the production of PC strand.

Initiation of Investigation

After conducting a summary review of the petition, we have found that its information reasonably supports its allegations. Therefore, in accordance with section 702(b) of the Act, we are initiating a countervailing duty investigation to determine whether the government of Spain is giving its producers and exporters of PC strand certain benefits that are bounties or grants within the meaning of section 303 of the Act. If our investigation proceeds normally, we will announce our preliminary determination by January 29, 1982.

Gary N. Horlick,

Deputy Assistant Secretary for Import Administration.

Patent and Trademark Office

Schedule for Review of Commercial and Industrial Activities and Service Contracts

AGENCY: Patent and Trademark Office, Commerce.

ACTION: Notice.

SUMMARY: Pursuant to Office of Management and Budget (OMB) Circular A–76 and the Department of Commerce Administrative Order 201–41, implementing OMB Circular A–76, notice is hereby given that the Patent and Trademark Office (PTO) intends to conduct reviews of the feasibility and/or cost of contract operation versus Government operation of commercial and industrial activities and service contracts listed below under Supplementary Information. Specific invitation for bids or request for proposals will be announced in the Commerce Business Daily. A contract or contracts may or may not result from each feasibility or cost comparison study. Results of each study will be made available to responding bidders or offerors and other interested parties.

DATES: See specific dates in tables under Supplementary Information.

FOR FURTHER INFORMATION CONTACT: Bradford R. Huther, Assistant Commissioner for Finance and Planning, Patent and Trademark Office, Washington, D.C. 20231, telephone (703) 557–1572.

SUPPLEMENTARY INFORMATION: Studies to be made and the scheduled dates are identified in the following tables 1 and 2:

BILLING CODE 3510-16-M

COPYRIGHT ROYALTY TRIBUNAL

[Docket No. CRT 80-4]

1979 Cable Royalty Distribution Proceeding

November 27, 1981.

17 U.S.C. 111(d)(4) authorizes the Copyright Royalty Tribunal (Tribunal) to distribute royalty fees paid by cable systems to certain copyright owners. The procedure for distribution of the cable royalty fees is set forth at 17 U.S.C. 111(d)(5).

The Tribunal on February 26, 1981 (46 FR 14153) issued public notice, effective March 2, 1981, declaring pursuant to 17 U.S.C. 111(d)(5)(B) the existence of a controversy concerning the distribution among copyright owners of cable royalty fees paid by cable systems for secondary transmissions during 1979. In accordance with the conduct of the 1978 proceeding and a joint submission by most of the parties, the Tribunal resolved that the distribution proceeding would be conducted in two phases. Phase I would determine the allocation of cable royalties to specific groups of claimants. Phase II would allocate cable royalties to individual claimants within each group.

In order to permit the Tribunal to proceed to Phase II of this proceeding, the Tribunal is publishing this summary statement of its Phase I determinations. In accordance with 17 U.S.C. 803(b), a full and complete statement of the Tribunal's conclusions of law, findings of fact, and other relevant determinations will be included in the Tribunal's final determination. Final distribution of cable royalties to claimants will be made at the conclusion of this proceeding. This notice does not constitute a "final determination" pursuant to 17 U.S.C. 803(b) of a "final decision" under 17 U.S.C. 804(e) and 17 U.S.C. 810.

The Tribunal has reached its Phase I determinations by applying to the record evidence of this proceeding the primary and secondary criteria established in the Tribunal's 1978 cable distribution proceeding (45 FR 63026–63044).

The Tribunal has determined that no mathematical formula or theory or combination of formula and theories provides a satisfactory basis for the distribution of royalty fees. The Tribunal therefore proposes to distribute the royalty fees on the basis of the entire record made in this proceeding.

In accordance with its previous determinations the cable royalty fees awarded by the Tribunal for the secondary transmission of certain sporting events are distributed to the sports claimants except where contractual arrangements specifically provide that such royalties shall be distributed to broadcaster claimants. In its Phase I determination the Tribunal has awarded the full share of these royalty fees to the sports claimants.

In accordance with the above, the Tribunal, in its final determination, will provide for the following allocation to categories of the specified percentage of the sum available for distribution:

1. Motion Picture Association of America and other program syndicators including claimants for syndicated religious programs and programs syndicated by commercial television stations—70%.

2. Joint Sports Claimants—15%.

3. Public Broadcasting Service (for all purposes)—5.25%.

4. U.S. Television Broadcasters—4.50%.

5. Music Performing Rights Societies—4.25%.

6. Canadian Claimants (except commercial radio)—.75%.

7. National Public Radio—.25%.

No award for any U.S. or Canadian commercial radio claim.

In preparation for Phase II of this proceeding, the Tribunal directs that not later than December 16, 1981, each claimant category shall notify the Tribunal of any voluntary agreements for distribution of royalty fees among the claimants within a category. The Tribunal further directs that not later than December 16, 1981 any claimant desiring to present evidence during Phase II shall notify the Tribunal of such intention, and the Phase II issues to be decided.

The Tribunal directs that not later than January 7, 1982 parties participating in Phase II shall file with the Tribunal and exchange with other parties their direct, written cases, including list of witnesses, prehearing statements, any written witness statements, and all documentary evidence.

Phase II hearings will commence at 10 a.m., January 19, 1982 at a location to be announced. Dates and procedures for Phase II rebuttal cases will be announced later.

All communications on the above matters shall be addressed to Frances Garcia, Chairman, Copyright Royalty Tribunal, 1111 20th Street, N.W., Room

450, Washington, D.C. 20036, (202) 653–5175.

Thomas C. Brennan,

Acting Chairman.

BILLING CODE 1410-01-M

DEPARTMENT OF DEFENSE

Office of the Secretary

Privacy Act of 1974; Deletions of systems notices

AGENCY: Office of the Secretary, DOD.

ACTION: Deletions of systems notices.

SUMMARY: The Office of the Secretary of Defense proposes to delete the notices for systems of records: DUSDP 02, "Office of the Under Secretary of Defense for Policy (OUSDP) Locator File", DUSDP 03, "Office of the Under Secretary of Defense (OUSDP) Organizational Personnel Files", and DWHS BF01, "Travel Files", subject to the Privacy Act of 1974. It has been determined that DUSDP 02 and DUSDP 03 are covered under the OSD civilian personnel system and the military parent services privacy systems. DWHS BF01 is adequately covered by other personnel related system notices.

DATE: These deletions shall be effective January 4, 1982.

ADDRESS: Send any comments to the System Managers identified in the system notices (44 FR 74088) December 17, 1979.

FOR FURTHER INFORMATION CONTACT: Norma Cook, Privacy Act Officer, ODASD(A), Room 5C315, Pentagon, Washington, D.C. 20301. Telephone: (202) 695–0970.

SUPPLEMENTARY INFORMATION: The Office of the Secretary of Defense (OSD) systems notices for records systems subject to the Privacy Act of 1974 (5 U.S.C. 552a) Pub. L. 93–579 were published in the **Federal Register.**

DEPARTMENT OF EDUCATION

National Commission on Excellence in Education; Meeting

AGENCY: National Commission on Excellence in Education.

ACTION: Notice of meeting.

SUMMARY: This notice amends the announcement of the meeting of the National Commission on Excellence in Education published in the **Federal Register** on October 28, 1981 on page 53207.

DATE: December 7, 1981 (9:00 a.m. until 5:15 p.m.)

LOCATION: National Institute of Education, 1200 19th Street, NW., Room 823, Washington, D.C.

FOR FURTHER INFORMATION CONTACT: Milton Goldberg, Executive Director, 1200 19th Street, NW., Washington, D.C. 20208, (202) 254–7920 or Betty Baten, Program Assistant, (202) 254–7924.

The agenda for the open public meeting includes reports from two Commission subcommittees which met in November to discuss the provisions of the Commission's charter, as well as Commission review of options regarding how the Commission can carry out its responsibilities.

Dated: November 25, 1981.

Donald J. Senese,

Assistant Secretary for Educational Research and Improvement.

BILLING CODE 4000-01-M

Guaranteed Student Loan Program; Special Allowances for Quarter Ending September 30, 1981

AGENCY: Department of Education.

ACTION: Notice of Special Allowances for Quarter Ending September 30, 1981.

The Secretary announces that for the three-month period ending September 30, 1981, except with respect to loans to which section 432(b)(2)(D) of the Higher Education Act of 1965 applies, a special allowance at an *annual rate* of twelve and one-half (12.5) percent will be paid to holders of eligible loans under the Guaranteed Student Loan Program, having an applicable annual interest rate of seven (7) percent, and a special allowance at an *annual rate* of ten an one-half (10.5) percent will be paid to holders of eligible loans under the Guaranteed Student Loan Program, having an applicable annual interest rate of nine (9) percent.

The percentage rates for these two special allowances were computed under the statutory formula of section 438(b) of the Higher Education Act of 1965, as amended by the Education Amendments of 1980 (Pub. L. 96–374, October 3, 1980). Under this formula, each quarterly special allowance rate is computed by determining the average of the bond equivalent rates of the 91-day

Treasury Bills, auctioned during this three-month period (15.94 percent); by subtracting from this average either three and one-half (3.5) percent for seven (7) percent loans (12.44 percent) or five and one-half (5.5) percent for nine (9) percent loans (10.44 percent); by rounding the remainders upward to the nearest one-eighth of one (1) percent (12.5 percent and 10.5 percent, respectively); and by dividing the resultant percentages by four (3.125 percent and 2.625 percent, respectively).

Thus, the percentage rates of the two special allowances to be paid for this period will be: 3.125 percent for loans with an applicable annual interest rate of seven (7) percent, and 2.625 percent for loans with an applicable annual interest rate of nine (9) percent, computed on the average unpaid principal balance (not including unearned interest added to principal) of all eligible loans held by lenders under the Guaranteed Student Loan Program.

(20 U.S.C. 1087–1(b))

Dated: November 25, 1981.

BILLING CODE 4000-01-M

Library Career Training Program; Application Notice

AGENCY: Department of Education.

ACTION: Application Notice.

Applications are invited for projects under the Library Career Training Program for fiscal year 1982.

The Secretary awards grants to institutions of higher education and other library agencies and organizations for the purpose of training persons in librarianship through fellowship projects.

Authority for this program is contained in Part B of Title II, of the Higher Education Act of 1965, as amended by the Education Amendments of 1980.

(20 U.S.C. 1021 *et seq.)*

Closing Date for Transmittal of Applications: An application for a grant must be mailed or hand-delivered by February 8, 1982.

Applications Delivered by Mail: An application sent by mail must be addressed to the Department of Education, Application Control Center, Attention: 84.036, Washington, D.C. 20202–3561.

An applicant must show proof of mailing consisting of one of the following:

(1) A legibly dated U.S. Postal Service postmark.

(2) A legible mail receipt with the date of mailing stamped by U.S. Postal Service.

(3) A dated shipping label, invoice, or receipt from a commercial carrier.

(4) Any other proof of mailing acceptable for the Secretary of Education.

If an application is sent through the U.S. Postal Service, the Secretary does not accept either of the following as proof of mailing: (1) a private metered postmark, or (2) a mail receipt that is not dated by the U.S. Postal Service.

An applicant should note that the U.S. Postal Service does not uniformly provide a dated postmark. Before relying on this method, an applicant should check with its local post office.

An applicant is encouraged to use registered or at least first class mail. Each late applicant will be notified that its application will not be considered.

Applications Delivered by Hand: An application that is hand-delivered must be taken to the U.S. Department of Education, Application Control Center, Room 5673, Regional Office Building 3, 7th and D Streets, SW., Washington, D.C.

The Application Control Center will accept a hand-delivered application between 8:00 a.m. and 4:30 p.m. (Washington, D.C. time) daily, except Saturdays, Sundays, and Federal holidays.

An application that is hand-delivered will not be accepted after 4:30 p.m. on the closing date.

Program Information: Due to the limited amount of funds available for the program during fiscal year 1982, the Secretary will award grants for fellowship projects only. The Secretary will not consider application for institute or traineeship projects.

Available Funds: It is expected that approximately $667,000 will be available for the Library Career Training Program in fiscal year 1982.

It is estimated that these funds could support 34 new projects.

It is anticipated that approximately $576,000 will be reserved for fellowships at the Master's level; ¢60.000 at the Doctoral level: $24.000 at the post-Master's level; and $7.000 at the Associate level.

The anticipated average award for each new project will be $20,000.

However, these estimates do not bind the U.S. Department of Education to a specific number of grants or to the amount of any grant unless the amount is otherwise specified by statute or regulations.

Application Forms: It is anticipated that application forms and program information packages will be available on December 28, 1981. They may be obtained by writing to the Library Education, Research and Resources Branch, Attn: II–B, U.S. Department of Education (Room 3622, Regional Office Building 3), 400 Maryland Avenue SW., Washington, D.C. 20202–3320.

Applications must be prepared and submitted in accordance with the regulations, instructions, and forms included in the program information package. The Secretary strongly urges that the narrative portion of the application not exceed 30 pages in length. The Secretary further urges that applicants not submit information that is not requested.

Applicable Regulations: Regulations applicable to this program include the following:

(1) When adopted in final form, the regulations governing the Library Career Training Programs in 34 CFR Part 776 (formerly 45 CFR Part 132) Published in the **Federal Register** as a Notice of Proposed Rulemaking concurrently with this application notice. Applicants should refer to these proposed regulations in preparing their applications. If public comment on these proposed regulations results in substantive changes in the final regulations, applicant will be given the opportunity to amend their applications; and

(2) Education Department General Administrative Regulations (EDGAR) in 34 CFR Part 75 (Direct Grant Programs) (formerly 45 CFR Part 100a) and Part 77 (Definitions) (formerly 45 CFR Part 100c).

Further Information: For further information contact Frank A. Stevens, Chief, Library Education, Research and Resources Branch, Division of Library Programs, Office of Libraries and Learning Technologies, U.S. Department of Education (Room 3622, Regional Office Building 3), 400 Maryland Avenue SW., Washington, D.C. 20202–3320. Telephone: (202) 245–9530.

Dated: November 25, 1981.

(Catalog of Federal Domestic Assistance Program No. 84.036, Library Career Training Program)

T. H. Bell,

Secretary of Education.

BILLING CODE 4000-01-M

Strengthening Research Library Resources Program; Application Notice

AGENCY: Department of Education.

ACTION: Application notice.

Applications are invited for new and noncompeting continuation projects under the Strengthening Research Library Resources Program for fiscal year 1982.

The Secretary may award a grant to a public or private non-profit institution, including the library resources of an institution of higher education, an independent research library, or a State or other public library.

The purpose of these grants is to promote research and education of high quality throughout the United States by providing financial assistance that helps the Nation's major research libraries in maintaining and strengthening their collections and making their holdings available to other libraries whose users have need for research materials.

Authority for this program is contained in Part C of Title II, of the Higher Education Act of 1965, as amended by the Education Amendments of 1980.

(20 U.S.C. 1021 *et seq.*)

Closing Date For Transmittal of Applications: An application for a new grant must be mailed or hand-delivered by February 18, 1982.

To be assured consideration for funding, an application for a noncompeting continuation award should also be mailed or hand-delivered by February 18, 1982.

If an application for a noncompeting continuation award is late, the Department of Education may lack sufficient time to review it with other noncompeting continuation applications and may decline to accept it.

Applications Delivered by Mail: An application sent by mail must be addressed to the U.S. Department of Education; Application Control Center, Attention: 84.091, Washington, D.C. 20202–3561.

An applicant must show proof of mailing consisting of one of the following:

(1) A legibly dated U.S. Postal Service postmark.

(2) A legible mail receipt with the date of mailing stamped by the U.S. Postal Service.

(3) A dated shipping label, invoice, or receipt from a commercial carrier.

(4) Any other proof of mailing acceptable to the Secretary of Education.

If an application is sent through the U.S. Postal Service, the Secretary does not accept either of the following as proof of mailing: (1) a private metered postmark, or (2) a mail receipt that is not dated by the U.S. Postal Service.

An applicant should note that the U.S. Postal Service does not uniformly provide a dated postmark. Before relying on this method, an applicant should check with its local post office.

An applicant is encouraged to use registered or at least first class mail. Each late applicant will be notified that its application will not be considered.

Applications Delivered by Hand: An application that is hand-delivered must be taken to the U.S. Department of Education, Application Control Center, Room 5673, Regional Office Building 3, 7th and D Streets, S.W., Washington, D.C.

The Application Control Center will accept a hand-delivered application between 8:00 a.m. and 4:30 p.m. (Washington, D.C. time) daily, except Saturdays, Sundays, and Federal holidays.

Applications for new awards that are hand-delivered will not be accepted after 4:30 p.m. on the closing date.

Program Information: The fiscal year 1982 grant program will be governed by the provisions of the final regulations published on December 24, 1980 (45 FR 85430). It is anticipated that the revision of these regulations published on October 28, 1981 (46 FR 53370), as a Notice of Proposed Rulemaking, will not become effective until later in this fiscal year and, therefore, will govern the fiscal year 1983 grant program. In preparing proposals for new projects under the existing final regulations, potential applicants should give special attention to § 778.5 (Eligibility for assistance), which explains applicant eligibility, and to § 778.7 (Selection criteria), which contains specific program funding criteria and the number of points assigned to each criterion.

Applicants for noncompeting continuation projects should give special attention to § 75.253 of the Education Department General Administrative Regulations (EDGAR), which provides an explanation of the procedure used in evaluating these proposals.

Available Funds: It is expected that grant funds will be awarded to approximately 40 major research libraries, either directly or through joint applications. Thirty-six of these institutions will receive funding for new projects. Four awards will be made on a noncompetitive continuation basis. Anticipating an appropriateion of $6 million, each institution will receive an average of $150,000.

However, these estimates do not bind the U.S. Department of Education to a specific number of grants or to the amount of any grant unless the amount is otherwise specified by statute or regulations.

Application Forms: Application forms and program information packages are expected to be ready for mailing by December 21, 1981. They may be obtained by writing to the Library Education, Research and Resources Branch, Attn: II–C, U.S. Department of Education (Room 3622, Regional Office Building 3), 400 Maryland Avenue, SW, Washington, D.C. 20202–3320.

Applications must be prepared and submitted in accordance with the regulations, instructions, and forms included in the program information package. The Secretary strongly urges that the narrative portion of the application not exceed 50 pages in length. The Secretary further urges that applicants not submit information that is not requested.

It will not be necessary for applicants for noncompeting continuation projects to include the basic institutional data required in the original application. The new narrative will be expected to explain project activities for the continuing year requested.

Applicable Regulations: Regulations that govern this program include the following:

(1) Final regulations for the Strengthening Research Library Resources Program in 34 CFR Part 778 (formerly 45 CFR Part 132), as published in the **Federal Register** on December 24, 1980 (45 FR 85430). Applicants should refer to these regulations in preparing their applications.

(2) Education Department Administrative Regulations (EDGAR) in 34 CFR Part 75 (Direct Grant Programs) and Part 77 (Definitions) (formerly 45 CFR Parts 100a and 100c).

Further Information: For further information contact Frank A. Stevens, Chief, Library Education, Research and Resources Branch, Division of Library Programs, Office of Libraries and Learning Technologies, U.S. Department of Education (Room 3622, Regional Office Building 3), 400 Maryland Avenue, S.W., Washington, D.C. 20202–3320. Telephone: (202) 245–9530.

Dated: November 25, 1981.

BILLING CODE 4000–01–M

DEPARTMENT OF ENERGY

Mobil Oil Corp.; Proposed Remedial Order

AGENCY: Department of Energy.

ACTION: Proposed remedial order to Mobil Oil Corporation and opportunity for objection.

I. Introduction

Pursuant to 10 CFR 205.192, the Office of Special Counsel (OSC), of the Economic Regulatory Administration (ERA), Department of Energy (DOE), hereby gives notice that a Proposed Remedial Order (PRO) was issued on October 2, 1981, to Mobil Oil Corporation (Mobil), 3225 Gallows Road, Fairfax, Virginia 22037. In accordance with 10 CFR 205.193, any aggrieved person may file a Notice of Objection to the Proposed Remedial Order on or before December 17, 1981.

II. The Proposed Remedial Order

Mobil is a refiner engaged in the production of crude oil, in refining, and in the marketing of petroleum products. Mobil was therefore subject to the Mandatory Petroleum Pricing and Allocation Regulations which were in effect until January 28, 1981.

In this PRO, OSC sets forth proposed findings of fact and conclusions of law concerning Mobil's calculation and reporting of cost for purchased product under the refiner price rules in 10 CFR Part 212, Subpart E, between August 1973 and December 1980. Section 212.83 of 10 CFR Part 212 required a refiner to calculate its increased purchased product costs, the "B" factor, on a firm-wide basis. Further, 10 CFR 212.82 limited a refiner's price increases for covered products to the amount of increased product and non-product costs incurred between the month of measurement and the month of May 1973. DOE regulations required a refiner to correctly compute and calculate its monthly costs in order to insure that a refiner recovers no more than its net increased costs.

During the period August 1973 through December 1976, OSC determined that Mobil incorrectly calculated its increased purchased product costs for covered products by totalling three separate "B" factor calculations for each of its entities rather than summarizing the total increased purchased product costs for the entire Mobil "firm" and then calculating the "B" factor. Mobil thereby overstated its increased purchased product costs for this period by $10,683,000. OSC further determined that for the months of August 1976 and January 1976, Mobil incorrectly calculated and thereby overstated its increased purchased product costs for a combined amount of $132,000. Finally, for July 1980, OSC alleged that Mobil incorrectly calculated gasoline purchases for one of its entities and overstated its costs available for recovery by $1,279,000. As a result of these alleged violations, OSC determined that Mobil overstated its increased purchased product costs by $12,094,000.

As a remedy, Mobil is directed to recalculate its increased purchased product costs for the entire firm, to reduce the total amount of purchased product costs claimed by Mobil, to calculated a new maximum allowable price, and to take other remedial action as is appropriate.

III. Notice of Objection

In accordance with 10 CFR 205.193, any aggrieved person may file a Notice of Objection to the Proposed Remedial Order with the Office of Hearings and Appeals on or before December 17, 1981. A person who fails to file a Notice of Objection shall be determined to have admitted the findings of fact and conclusions of law as stated in the Proposed Remedial Order. If a Notice of Objection is not filed as provided by § 205.193, the Proposed Remedial Order may be issued as a final order.

All Notices, Statements, Motions, Responses, and other documents required to be filed with the National Office of Hearings and Appeals should be sent to: Office of Hearings and Appeals, Department of Energy, 2000 M Street, NW., Washington, D.C. 20461.

No data or information which is confidential shall be included in any Notice of Objection.

Requests for copies of the Proposed Remedial Order with confidential information deleted should be directed to: Freedom of Information Reading Room, Room IE-190, Forrestal Building, 1000 Independence Avenue, SW, Washington, D.C. 20585.

Issued in Washington, D.C. November 13, 1981.

Bethel Larey,

Acting Special Counsel.

BILLING CODE 6450-01-M

Federal Energy Regulatory Commission

[Docket Nos. G-2896-002, et al.]

ARCO Oil and Gas Co., Division of Atlantic Richfield Company, et al.; Applications for Certificates, Abandonment of Service and Petitions to Amend Certificates[1]

November 24, 1981

Take notice that each of the Applicants listed herein has filed an application or petition pursuant to Section 7 of the Natural Gas Act for authorization to sell natural gas in interstate commerce or to abandon service as described herein, all as more fully described in the respective applications and amendments which are on file with the Commission and open to public inspection.

Any person desiring to be heard or to make any protest with reference to said applications should on or before December 9, 1981, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure a hearing will be held without further notice before the Commission on all applications in which no petition to intervene is filed within the time required herein if the commission on its own review of the matter believes that a grant of the certificates or the authorization for the proposed abandonment is required by the public convenience and necessity. Where a petition for leave to intervene is timely filed, or where the Commission

[1] This notice does not provide for consolidation for hearing of the several matters covered herein

on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised it will be unnecessary for Applicants to appear or to be represented at the hearing.

Kenneth F. Plumb,
Secretary.

[1] Gas being sold to various landowners for lease use.
[2] Compliance with Commission directive OPPR N840A dated October 15, 1981. Released to the lessors.
[3] The following leases, L-5622, L-5632, L-5755, L-5761, L-7895 and L-7896 are all past their primary term. Our geological interpretation indicates there are no prospects for further development on said leases; therefore, renewal of the leases is not warranted.
[4] The following lease, GL-677 is past its primary term. Our geological interpretation indicates there are no prospects for further development on said lease; therefore, renewal of the lease is not warranted.
[5] Applicant is filing under Gas Purchase Contract dated September 21, 1977.
[6] Expired BLM leases. Leases expired between 10/1/78 and 3/31/81. Requires their deletion from this contract.
[7] Purchaser has failed to take ratably as required by Article V, Section 5 of the Gas Sales Contract.
[8] Conoco retains no leasehold interest subject to Rate Schedule No. 304.
[9] Shell Lease No. L-13014-00B dated 8/11/61 located in Section 28, T-12-S, R-6-W, consisting of 9.58 acres and Shell Lease Nos. L-20001 and L-20001A dated 11/30/66 located in Section 28, T-12-S, R-6-W, consisting of 22.00 acres are both beyond their primary term. The geological interpretation indicates there are no prospects for further development on said leases. There are no zones with production potential underlying said leases; therefore, renewal of the leases is not warranted.
[10] Shell Oil Company is no longer able to render service from the acreage involved in this application because it has no interest in the acreage.
[11] Applicant assigned a portion of its interest in Louisiana State Lease Nos. 2090, 2091, and 2092 to Humble Oil and Refining Company, predecessor to Exxon Corporation on Februray 1, 1965.
[12] Applicant is filing under Gas Sales Contract dated March 20, 1977, amended by Amendments dated September 21, 1981 and September 22, 1981.
Filing Code: A—Initial Service; B—Abandonment; C—Amendment to add acreage; D—Amendment to delete acreage; E—Total Succession; F—Partial Succession.

BILLING CODE 6717-01-M

[Docket No. CP82-42-000]

Arkansas Louisiana Gas Co.; Application

November 30, 1081.

Take notice that on October 26, 1981, Arkansas Louisiana Gas Company (Applicant), P.O. Box 21734, Shreveport, Louisiana 71151, filed in Docket No. CP82-42-000 an application pursuant to Section 7 of the Natural Gas Act and Section 157.7(g) of the Regulations thereunder (18 CFR 157.7(g)) for a certificate of public convenience and necessity authorizing the construction and for permission and approval to abandon for the 12-month period commencing on December 22, 1981, and operation of various field compression and related metering and appurtenant facilities, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

The stated purpose of this budget-type application is to enable Applicant to act with reasonable dispatch in constructing and abandoning facilities which would not result in changing Applicant's system salable capacity or service from that authorized prior to the filing of the instant application.

Applicant states that the total cost of the proposed construction and abandonment under Section 157.7(g) would not exceed $3,000,000 and the cost of any single project would not exceed $1,000,000. Applicant asserts that the $1,000,000 maximum for any single project exceeds the $500,000 maximum provided for in the present regulations but that approval of the $1,000,000 maximum is needed due to inflation and expenses incident to the installation of equipment. Such costs, it is asserted, would be financed from cash on hand, from cash generated from normal internal sources and from short-term bank loans and other short-term borrowings utilized in the normal operation of business.

Any person desiring to be heard or to make any protest with reference to said application should on or before December 23, 1981, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in a subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate and permission and approval for the proposed abandonment are required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

[Docket No. ER82-83-000]

Bangor Hydro-Electric Co.; Filing

November 27, 1981.

The filing Company submits the following:

Take notice that on November 9, 1981, the Bangor Hydro-Electric Company (Bangor) tendered for filing as a rate schedule an executed agreement dated as of November 1, 1981 between Bangor and Massachusetts Municipal Wholesale Electric Company (MMWEC). The agreement provides for sale of unit power by Bangor to MMWEC from November 1, 1981 through April 30, 1982, according to Bangor.

Bangor requests an effective date of November 1, 1981, and therefore requests waiver of the Commission's notice requirements.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 11, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

[Docket No. ER82-91-000]

Central Illinois Public Service Co.; Filing

November 27, 1981.

The filing Company submits the following:

Take notice that on November 12, 1981, Central Illinois Public Service Company (CIPS) tendered for filing the Eighth Supplemental Agreement dated October 15, 1981, to the Interconnection Agreement between CIPS and Kentucky Utilities Company dated January 31, 1967. The Commission has previously designated this agreement as CIPS Rate Schedule FERC No. 59 and KU Rate Schedule FERC No. 81.

Copies of this filing have been sent to KU, the Kentucky Public Service Commission and the Illinois Commerce Commission.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 11, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

BILLING CODE 6717-01-M

[Docket No. ER82-84-000]

Central Vermont Public Service Corp.; Filing

November 27, 1981.

The filing Company submits the following:

Take notice that Central Vermont Public Service Corporation (Company) on November 9, 1981, tendered for filing Amendment No. 1 to its Rates Schedule FERC No. 96. The proposed change would increase revenues from jurisdictional sales and service by $14,052 for the twelve month period ending October 31, 1981. Service under Amendment No. 1 to the contract is proposed to commence as of November 1, 1981. Pursuant to Section 35.11 of the Commission's Regulations the Company requests a waiver of the sixty (60) days notice requirement. Company states that this request is made in order to permit initiation of service billing concurrently with the beginning of a power year under the NEPOOL agreement and because negotiations for Amendment No. 1 with the Customer were only recently completed. Company further states that, if a waiver is granted, it will not affect purchasers of the Company's power under other rate schedules.

The change is proposed in accordance with Amendment No. 1 and Article V of

the Company's agreement with the Village of Ludlow Electric Light Department which provides that charges under the agreement will be updated annually to incorporate the Company's purchased power cost experience for the preceding twelve months ending October and the Company's capacity cost associated with company-owned generating facilities for the proceeding calendar year.

Copies of the filing were served upon the Village of Ludlow Electric Light Department and the Vermont Public Service Board.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protests with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 11, 1981. Protests will be considered by the Commission in deterimining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-02-M

[Docket No. ER82-86-000]

Central Vermont Public Service Corp.; Filing

November 27, 1981.

The filing Company submits the following:

Take notice that on November 9, 1981, Central Vermont Public Service Corporation (Company) tendered for filing a Power Transmission Contract between the Company and Village of Johnson Water and Light Department (Customer) dated October 21, 1981. Service under the contract is provided to commence as of November 1, 1981. Pursuant to § 35.11 of the Commission's Regulations the Company requests a waiver of the sixty (60) day notice requirement. Company states that this request is made so that there will be a rate available for the transmission of the Customer's power purchase over the Company's facilities, which purchases having an effective date of November 1, 1981. Company further states that if waiver is not granted there would be no rate available to the Customer respecting the transmission of power purchased by the Customer; and if waiver is granted it will not affect any other wholesale customer of the Company under other rate schedules.

Company states that the service to be furnished under this rate schedule consists of the transmission of essentially all the Customer's power purchases over the Company's facilities after the effective date of this contract.

Copies of the filing were served upon the Village of Johnson Water and Light Department and Vermont Public Service Board.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 11, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

BILLING CODE 6717-01-M

[Docket No. ER82-85-000]

Central Vermont Public Service Corp.; Filing

November 27, 1981.

The filing Company submits the following:

Take notice that Central Vermont Public Service Corporation (Company) on November 9, 1981, tendered for filing Amendment No. 1 to its Rate Schedule FERC No. 92. The proposed change would not change revenue from jurisdictional sales for the twelve month period ending October 31, 1981. No transactions have occurred under the Agreement during the preceding twelve months, and none are contemplated during the succeeding twelve months. Pursuant to § 35.11 of the Commission's Regulations the Company requests a waiver of the sixty (60) day notice requirement to allow for an effective date of November 1, 1981. Company states that this request is made in order to permit initiation of service billing concurrently with the beginning of a power year under the NEPOOL agreement and because negotiations for Amendment No. 1 with the Customer were only recently completed. Company further states that, if a waiver is granted, it will not affect purchasers of the Company's power under other rate schedules.

The change is proposed in accordance with Amendment No. 1 and Article V of the Company's agreement with the Lyndonville Electric Department which provides that charges under the agreement will be updated annually to incorporate the Company's purchased power cost experience for the preceding twelve months ending October and the Company's capacity cost associated with the company-owned generating facilities for the preceding calendar year.

Copies of the filing were served upon the Lyondonville Electric Department and the Vermont Public Service Board.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 11, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

[Docket No. TA82-1-32-002]

Colorado Interstate Gas Co.; Proposed Changes in FERC Gas Tariff

November 27, 1981.

Take notice that Colorado Interstate Gas Company (CIG), on November 13, 1981, tendered for filing proposed changes in its FERC Gas Tariff, Original Volume No. 1, to be effective January 1, 1982.

The proposed tariff changes reflect the collection by CIG from certain of its customers of the 7.2 mills per Mcf Gas Research Institute (GRI) Adjustment Charge authorized for collection by GRI by Commission Opinion No. 131.

Copies of CIG's filing have been served on CIG's jurisdictional customers and interested public bodies.

V 46 / 231 / DEC 2 81 1 UMI

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be file on or before Dec. 8, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

BILLING CODE 6717-01-M

[Docket No. RP78-20]

Columbia Gas Transmission Corp.; Filing of Report

November 24, 1981.

Take notice that on November 12, 1981, Columbia Gas Transmission Corporation (Columbia) tendered for filing a Sales Refund Obligation (SRO) report pursuant to Article V–D of its Stipulation and Agreement in Docket No. RP78–19, *et al.*

The SRO report consists of data showing that Columbia has no refund obligation pursuant to said Article V–D for the period June 1, 1980 through March 31, 1981, the end of the period during which the rates in Docket No. RP78–20 were in effect.

Columbia states that copies of the SRO report were served on all parties in Docket No. RP78–20, as well as interested state Commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with 1.18 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR, 1.8, 1.10). All such petitions or protests should be filed on or before December 7, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

BILLING CODE 6717-01-M

[Docket No. RP78-19-014, et al.]

Columbia Gas Transmission Corp.

November 24, 1981.

Take notice that on November 4, 1981, Columbia Gas Transmission Corporation (Columbia) tendered for filing certain revised Service Agreements between Columbia and eight of its 70 jurisdictional wholesale customers. Columbia states these revised Service Agreements are for service under one or more rate schedules of Columbia's FERC Gas Tariff, Original Volume No. 1, and that all of the agreements bear an effective date of November 1, 1981.

Columbia makes reference to Article XVI of the Stipulation and Agreement in Docket No. RP78–19, *et al.*, wherein it is provided that Columbia shall take action by November 1, 1981 to convert the rates in all of its sales zones to a dekatherm basis. Columbia states that on July 1, 1981, it filed tariff sheets in Docket No. RP81–83 reflecting revisions to its FERC Gas Tariff, Original Volume No. 1 and Rate Schedule X–70 (Original Volume No. 2) to reflect billing on a dry dekatherm basis. Further, Columbia states that by tariff filing dated September 25, 1981 (subsequently revised on October 1, 1981) it filed revised tariff sheets reflecting the conversion of its then existing rates to a dry dekatherm basis, effective November 1, 1981.

Columbia states that on October 1, 1981, it filed revised Service Agreements between Columbia and 62 of its 70 jurisdictional customers for the sole purpose of converting the quantities contained therein to a dry dekatherm basis. At that time, Columbia advised the Commission that several of its wholesale customers had not yet executed and returned their respective revised Service Agreements to Columbia. Columbia stated that upon receipt of such agreements it would promptly file them with the Commission. Columbia states that it has now received the executed revised Service Agreements from these eight customers and, accordingly, is submitting the agreements to the Commission.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, Union Center Plaza Building, 825 North Capitol Street N.E., Washington, D.C. 20426, in accordance with §§ 1.18 and 1.10 of the Commissions Rules of Practice and Procedure (18 CFR, 1.8 and 1.10). All such petitions or protests should be filed on or before December 7, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Any person wishing to become a party must file a petition to intervene. Copies of Columbia's filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-34521 Filed 12-1-81; 8:45 am]

BILLING CODE 6717-01-M

[Docket No. ER82-87-000]

The Connecticut Light and Power Co. Filing

November 27, 1981.

The filing Company submits the following:

Take notice that on November 9, 1981, the Connecticut Light and Power Company (CL&P) tendered for filing a proposed rate schedule pertaining to a Northfield Mountain Purchase Agreement between the CL&P, The Hartford Electric Light Company (HELCO), Western Massachusetts Electric Company (WMECO), (the NU Companies) and the Middleborough Gas and Electric Department (the Department) dated as of November 1, 1979.

CL&P states that the Purchase Agreement provides for a sale to the Department of a specified percentage of capacity and related pondage from the NU Companies' Northfield Mountain Pumped Storage Hydro Electric Project (Project) together with related transmission service during the period November 1, 1979 through October 31, 1983.

CL&P states that a redetermination of the method of calculating the annual costs of the transmission facilities of the NU Companies has recently been completed in order to more accurately determine those costs. CL&P states that this redetermination, together with delays experienced in arriving at the final contractual language, prevented the execution of the Purchase Agreement until a date which prevented the filing of this rate schedule in a timely manner.

CL&P requests that the Commission waive its standard notice period and

permit the rate schedule to become effective on November 1, 1979.

CL&P states that the capacity charge rate for the Project is a rate determined on a cost-of-service basis for the entire Project. For service rendered prior to October 1, 1980, the monthly transmission charge is equal to one-twelfth of the annual average cost of transmission service on the NU System determined in accordance with Section 13.9 of the New England Power Pool (NEPOOL) Agreement and the uniform rules adopted by the NEPOOL Executive Committee, multiplied by the number of kilowatts of winter capability which the Department is entitled to receive. For service rendered on and after October 1, 1980, the monthly transmission charge is equal to one-twelfth of the average annual cost of transmission service on the NU System determined in accordance with Schedule B to the Purchase Agreement, multiplied by the number of kilowatts of winter capability which the Department is entitled to receive. The station service charge is equal to the average cost of fossil generation on the system of the NU Companies for the prior month, multiplied by the Department's share of the Project's station service requirements.

CL&P states that the services to be provided under the Purchase Agreement are similar to services provided by the NU Companies related to an agreement between the NU Companies and the City of Holyoke Gas and Electric Department (Rate Schedule FPC Nos. CL&P 173, HELCO 170, and WMECO 146). CL&P further states that the associated transmission service supplied subsequent to October 1, 1980 is calculated on a rate similar to a rate determined pursuant to a Transmission Service Agreement between the NU Companies and the Connecticut Municipal Electric Energy Cooperative (Rate Schedule FERC Nos. CL&P 217, HELCO 229, and WMECO 180).

CL&P further states that the filing is in accordance with Part 35 of the Commission's Regulations.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 11, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-34494 Filed 12-1-81; 8:45 am]

BILLING CODE 6717-01-M

[Docket No. CP82-61-000]

Consolidated Gas Supply Corp.; Application

November 30, 1981.

Take notice that on November 5, 1981, Consolidated Gas Supply Corporation (Applicant), 445 West Main Street, Clarksburg, West Virginia 26301, filed in Docket No. CP82-61-000 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the continuation of service to Rochester Gas and Electric Corporation (Rochester) under a combined service agreement reflecting Rochester's acquisition of The Pavilion Natural Gas Company (Pavilion), all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that it is authorized to sell natural gas to Rochester and Pavilion pursuant to an order issued July 16, 1946, in Docket No. G-714 (5 FPC 184) and that it has continued sales to Pavilion and Rochester under its full requirements Rate Schedule RQ and in accordance with two service agreements dated August 20, 1963, and November 23, 1965, respectively.

It is submitted that Rochester acquired Pavilion effective February 28, 1981, and that such acquisition was approved by the New York Public Service Commission on January 19, 1981.

It is stated that on October 5, 1981, Applicant and Rochester entered into a new service agreement which consolidates the previous agreements. Applicant asserts that no change in approved sales obligations, rates or charges would result from the combination of the Rochester and Pavilion service agreements and therefore proposes to provide service to Rochester under the new service agreement effective March 1, 1981.

Any person desiring to be heard or to make any protest with reference to said application should on or before December 23, 1981, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

[Project No. 4884-000]

Consolidated Knitting Mills, Inc.; Application for Preliminary Permit

November 24, 1981.

Take notice that Consolidated Knitting Mills, Inc. (Applicant) filed on June 15, 1981, an application for preliminary permit (pursuant to the Federal Power Act, 16 U.S.C. 791(a)-825(r)) for Project No. 4884 to be known as the Long Shoals Hydropower Project located on the South Fork Catawba River in Lincolnton County, North Carolina. The application is on file with the Commission and is available for public inspection. Correspondence with Applicant should be directed to: Mr. Charles B. Mierek, P.E., Cortland Associates, Inc., 838 Arlington Drive, Tucker, Georgia 30084.

Project Description—The proposed project No. 4884 would consist of: (1) An existing rock-fill and concrete dam; (2) an existing reservoir with storage of approximately 800 acre-feet and a

drainage area of 472 square miles; (3) an existing non-operating powerhouse to be used for the installation of generating units with a total capacity ranging up to 700 kW and an estimated annual energy output of up to 4.01 GWh; and (5) appurtenant facilities. Duke Power Company is the potential customer of project power.

Proposed Scope of Studies Under Permit—A preliminary permit, if issued, does not authorize construction. The Applicant seeks issuance of a preliminary permit for a period of 36 months, during which time studies would be made to determine the engineering, environmental, and economic feasibility of the project. The Applicant estimates that the cost of studies would be $30,000.

Competing Applications—Anyone desiring to file a competing application must submit to the Commission, on or before January 27, 1982, either the competing application itself (See 18 CFR 4.33 (a) and (d) (1980)) or a notice of intent (See 18 CFR 4.33 (b) and (c) (1980)) to file a competing application. Submission of a timely notice of intent allows an interested person to file an acceptable competing application no later than the time specified in § 4.33(c).

Agency Comments—Federal, State, and local agencies are invited to submit comments on the described application. (A copy of the application may be obtained by agencies directly from the Applicant). If an agency does not file comments within the time set below, it will be presumed to have no comments.

Comments, Protests, or Petitions To Intervene—Anyone may submit comments, a protest, or a petition to intervene in accordance with the requirements of the Rules of Practice and Procedure, 18 CFR 1.8 or 1.10 (1980). In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a petition to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protests, or petitions to intervene must be received on or before January 27, 1982.

Filing and Service of Responsive Documents—Any filings must bear in all capital letters the title "COMMENTS", "NOTICE OF INTENT TO FILE COMPETING APPLICATION", "COMPETING APPLICATION", "PROTEST", or "PETITION TO INTERVENE", as applicable, and the Project Number of this notice. Any of the above named documents must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, Room 208 RB at the above address. A copy of any notice of intent, competing application, or petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

[Docket No. ER82-92-000]

Duke Power Co.; Filing

November 27, 1981.

The filing Company submits the following:

Take notice that Duke Power Company (Duke Power) tendered for filing on November 12, 1981 a supplement to the Company's Electric Power Contract with Blue Ridge Electric Cooperative, Inc. Duke Power states that this contract is on file with the Commission and has been designated Duke Power Company Rate Schedule FERC No. 142.

Duke Power further states that the Company's contract supplement, made at the request of the customer and with agreement obtained from the customer, provides for the following changes in designated demand: Delivery Point No. 6 from 10,000 KW to 9,000 KW and Delivery Point No. 20 from –0– KW to 5,900 KW.

Duke Power indicates that this supplement also includes an estimate of sales and revenue for twelve months immediately preceding and for the twelve months immediately succeeding the effective date. Duke Power proposes an effective date of September 18, 1981.

According to Duke Power copies of this filing were mailed to Blue Ridge Electric Cooperative, Inc., and the South Carolina Public Service Commission.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 11, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-34478 Filed 12-1-81; 8:45 am]

BILLING CODE 6717-01-M

[Projects Nos. 5425-000 and 5493-000]

Eastern Sierra Energy Development and Modesto Irrigation District; Applications for Preliminary Permits

November 25, 1981.

Take notice that Eastern Sierra Energy Development and Modesto Irrigation District (Applicants) filed on September 28, 1981, and October 13, 1981, applications for preliminary permits (pursuant to the Federal Power Act, 16 U.S.C. 791(a)–825(r)) for Projects Nos. 5425 and 5493 to be known as the West Walker River Hydroelectric Power Project located on West Walker River in Mono County, California. Both projects would lie within Toiyabe National Forest. The applications are on file with the Commission and are available for public inspection. Correspondence with the Applicants should be directed to: Mr. K. Thomas Miller, President, Fluid Energy Systems, Incorporated, 2210 Wilshire Boulevard, #699, Santa Monica, California 90403, and to Mr. A. Lee DeLano, Modesto Irrigation District, 1231 11th Street, P.O. Box 4060, Modesto, California 95352.

Project Description—The proposed Project No. 5425 would consist of: (1) three earth-filled concrete diversion dams, 40, 40 and 80 feet high with overflow spillways and storage capacities of 69, 860 and 2,750 acre feet: (2) pipeline and penstock systems 5,000, 10,000 and 26,000 feet long; (3) three powerhouses containing turbine/generators with capacities of 6.48, 1.94 and 14.3 MW and annual energy outputs of 39.7, 11.9 and 87.7 GWh; (4) transmission lines; and (5) appurtenant facilities. Generated power will be sold to the Southern California Edison Company. The proposed Project No. 5493 would consist of: (1) 3 concrete and natural fill dams 40, 40 and 80 feet high with reservoirs having 69, 69 and 2,750 acre-feet capacities; (2) pipeline and penstock systems 5,000, 10,000 and 26,000 feet long; (3) powerhouses containing turbine generators with capacities of 6.48 MW, 1.94 MW and 14.3 MW and annual energy productions of 39.7, 11.9 and 87.7 GWh; (4) transmission lines; and (5) appurtenant

facilities. Generated power will be distributed through Modesto's existing service network or through interties with other electric systems.

Proposed Scope of Studies Under Permit—A preliminary permit, if issued, does not authorize construction. The Applicants seek issuance of a preliminary permit for a period of 36 months, during which time the firms plan engineering, economic and environmental studies, to ascertain project feasibility and to support their application for a license to construct and operate the project. The estimated cost of these actions is $250,000 for Project No. 5425 and $200,000 for Project No. 5493.

Competing Applications—Anyone desiring to file a competing application must submit to the Commission, on or before February 1, 1982, either the competing application itself (See 18 CFR 4.33 (a) and (d) (1980)) or a notice of intent (See 18 CFR 4.33 (b) and (c) (1980)) to file a competing application. Submission of a timely notice of intent allows an interested person to file an acceptable competing application no later than the time specified in § 4.33(c).

Agency Comments—Federal, State, and local agencies are invited to submit comments on the described application. (Copies of the applications may be obtained by agencies directly from the Applicants.) If an agency does not file comments within the time set below, it will be presumed to have no comments.

Comments, Protests, or Petitions To Intervene—Anyone may submit comments, a protest, or a petition to intervene in accordance with the requirements of the Rules of Practice and Procedure, 18 CFR 1.8 or 1.10 (1980). In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a petition to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protests, or petitions to intervene must be received on or before February 1, 1982.

Filing and Service of Responsive Documents—Any filings must bear in all capital letters the title "COMMENTS", "NOTICE OF INTENT TO FILE COMPETING APPLICATION", "COMPETING APPLICATION", "PROTEST", or "PETITION TO INTERVENE", as applicable, and the Projects Numbers of this notice. Any of the above named documents must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, Room 208 RB at the above address. A copy of any notice of intent, competing application, or petition to intervene must also be served upon each representative of the Applicants specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-34506 Filed 12-1-81; 8:45 am]

BILLING CODE 6717-01-M

[Docket No. RP81-142-000]

El Paso Natural Gas Co.; Petition For Relief

November 30, 1981.

Take notice that on September 30, 1981, El Paso Natural Gas Company (El Paso), Post Office Box 1492, El Paso, Texas, 79978, filed, on behalf of three customers served by El Paso's interstate pipeline system,[1] pursuant to Section 1.7 of the Commission's Rules of Practice and Procedure (18 CFR 1.7) a petition for relief from the unauthorized overrun gas provisions set forth in El Paso's then effective FERC Gas Tariff.

The petition states that El Paso's experience in administering said unauthorized overrun gas provisions has made it aware that such provisions fail to take into account the possibility that mechanical failure or human error may result in daily deliveries to El Paso's customers in excess of their daily entitlement. By reason of mechanical failure and/or human error, customers can and do inadvertently receive gas in excess of daily entitlements, thereby unnecessarily incurring daily overrun penalties. Upon request by certain of its customers for a joint review of El Paso's penalty invoices, El Paso has determined that three of El Paso's interstate pipeline system customers have been assessed penalty charges resulting from mechanical failures or human errors, and El Paso believes that relief therefrom is appropriate. For the period of October 28, 1980, through November 3, 1980, Inspiration incurred overrun penalties totaling $51,395.00 on March 3, 1978, and September 17, 1978, Pacific Gas incurred gas overruns of 18,324 Mcf and 871 Mcf, respectively, resulting in penalties totaling $74,005.00; and during the period of December 3, 1978, through November 26, 1980, Southwest incurred gas overrun penalties on nine separate days totaling $199,300.00 In El Paso's view, given the unintentional nature of the overruns, which occurred despite (and, perhaps even as a consquence of) the efforts made by the parties to keep overruns from occurring, it would be inequitable and serve no good purpose to require the customers to absorb the subject overrun penalties.

The petition states further that the overrun penalties in question constitute an inequitable financial burden on each of those three customers. El Paso therefore requests that the Commission expeditiously grant the relief sought by this petition.

Any person desiring to be heard or to make any protest with reference to said petition should, on or before December 23, 1981, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken, but will not serve to make any protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-34479 Filed 12-1-81; 8:45 am]

BILLING CODE 6717-01-M

[Project No. 5574-000]

Energenics Systems, Inc.; Application For Preliminary Permit

November 25, 1981.

Take notice that Energenics Systems, Inc. (Applicant) filed on October 28, 1981, an application for preliminary permit (pursuant to the Federal Power Act, 16 U.S.C. 791(a)-825(r)) for Project No. 5574 to be known as the Granby Dam Project located on the Colorado River in Grand County, Colorado. The application is on file with the Commission and is available for public inspection. Correspondence with the Applicant should be directed to: Mr. Thomas H. Clarke, Energenics Systems, Inc., 1727 Q Street, N.W., Washington D.C. 20009.

Project Description—The proposed project would utilize the existing Bureau of Reclamation's Granby Dam and would consist of: (1) a new powerhouse containing two generating units with a total rated capacity of 2 MW; (2) a 115-

[1] The three customers are Inspiration Consolidated Copper Company, Pacific Gas and Electric Company, and Southwest Gas Company.

V 46 / 231 DEC 2 81 UMI

kV transmission line; and (3) appurtenant facilities. The Applicant estimates that the average annual energy output would be 8 GWh. Power would be sold to the Public Service Company of Colorado, or to other nearby public institutions or industrial users.

Proposed Scope of Studies Under Permit—A preliminary permit, if issued, does not authorize construction. The term of the proposed preliminary permit is 36 months. The work proposed under the preliminary permit would include economic analysis, preparation of preliminary engineering plans, and a study of environmental impacts. Based on results of these studies Applicant would decide whether to proceed with more detailed studies, and the preparation of an application for license to construct and operate the project. Applicant estimates that the cost of the work to be performed under the preliminary permit would be $35,000.

Competing Applications—Anyone desiring to file a competing application must submit to the Commission, on or before February 14, 1982, either the competing application itself (See 18 CFR § 4.33(a) and (d) (1980)) or a notice of intent (See 18 CFR § 4.33(b) and (c) (1980)) to file a competing application. Submission of a timely notice of intent allows an interested person to file an acceptable competing application no later than the time specified in § 4.33(c).

Agency Comments—Federal, State, and local agencies are invited to submit comments on the described application. (A copy of the application may be obtained by agencies directly from the Applicant.) If an agency does not file comments within the time set below, it will be presumed to have no comments.

Comments, Protests, or Petitions To Intervene—Anyone may submit comments, a protest, or a petition to intervene in accordance with the requirements of the Rules of Practice and Procedure, 18 CFR 1.8 or 1.10 (1980). In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a petition to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protests, or petitions to intervene must be received on or before February 14, 1982.

Filing and Service of Responsive Documents—Any filings must bear in all capital letters the title "COMMENTS", "NOTICE OF INTENT TO FILE COMPETING APPLICATION", "COMPETING APPLICATION", "PROTEST", or "PETITION TO INTERVENE", as applicable, and the Project Number of this notice. Any of the above named documents must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, Room 208 RB at the above address. A copy of any notice of intent, competing application, or petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

BILLING CODE 6717-01-M

[Docket No. ER82-93-000]

Florida Power & Light Co.; Filing

November 27, 1981.

The filing Company submits the following:

Take notice that Florida Power & Light Company (FPL) on November 12, 1981, tendered for filing two documents entitled "Exhibit I to Service Transactions Under Service Schedules A (Emergency Service), B (Short Term Firm Service), C (Economy Interchange Service) and D (Firm Service) of Contracts for Interchange Service." This filing is proposed to amend FERC Electric Tariff Original Volume II (Sheet Nos. 1-19).

FPL states that under the Exhibits I FPL will transmit power and energy for Lake Worth Utilities Authority (Lake Worth) as is required by Lake Worth in the implementation of its interchange agreements with the City of Tallahassee and Fort Pierce Utilities Authority.

FPL requests that waiver of § 35.3 of the Commission's Regulations be granted and that the proposed Exhibits be made effective immediately. FPL states that copies of the filing were served on the Chief of Engineering & Operations of Lake Worth Utilities Authority.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 11, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

[FR Doc. 81-34497 Filed 12-1-81; 8:45 am]

BILLING CODE 6717-01-M

[Project No. 485-007]

Georgia Power Co.; Application for Change in Land Rights

November 27, 1981.

Take notice that an application was filed on October 9, 1981, under the Federal Power Act, 16 U.S.C. 791(a)-825(r) by Georgia Power Company for a change in land rights, for the Bartlett's Ferry Hydropower Project, FERC Project No. 485. The project lands affected are on the Halawakee Creek Arm of Bartlett's Ferry Reservoir approximately one hundred (100) feet south of Lee County Highway 79 at Prince's Bridge.

The Applicant seeks Commission approval to lease approximately 2 to 3 acres of project land to the Water Works Board of the City of Opelika, Alabama, for the construction of a submerged raw water intake structure, a subaqueous raw water pipeline, and a pumping station on project land. The City of Opelika intends to use the water in their municipal water works system. The average withdrawal rate from the proposed project is estimated to be approximately 3 million gallons per day during the first ten years of operation and increasing to approximately 7 million gallons per day during the second ten years of operation.

The water filtration plant will be located adjacent to Lee County Highway 79, approximately 2,000 feet south of Prince's Bridge. The plant's location is outside of the project boundary defined in the license held by Georgia Power Company for Bartlett's Ferry Hydropower Project.

Comments, Protests, or Petitions To Intervene—Anyone desiring to be heard or to make any protests about this application should file a petition to intervene or a protest with the Commission, in accordance with the requirements of its Rules of Practice and Procedure, 18 CFR 1.8 or 1.10 (1980). Comments not in the nature of a protest may also be submitted by conforming to the procedures specified in § 1.10 for protests. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but a person who merely files a protest or comments does not become a party to the proceeding. To become a party, or to participate in any hearing, a person must file a petition to intervene in accordance with the Commission's Rules. Any comments, protests, or petitions to intervene must be received on or before January 4, 1982. The Commission's address is: 825 North Capitol Street NE., Washington, D.C. 20426. The application is on file with the Commission and is available for public inspection.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-34498 Filed 12-1-81; 8:45 am]

BILLING CODE 6717-01-M

[Project No. 5283-000]

Hale Manufacturing Co.; Application for Preliminary Permit

November 24, 1981.

Take notice that the Hale Manufacturing Company (Applicant) filed on August 26, 1981, an application for preliminary permit (pursuant to the Federal Power Act, 16 U.S.C. 791(a)-825(r)) for Project No. 5283 to be known as the Cargill Falls Project located on the Quinebaug River near the Town of Putnam in Windham County, Connecticut. The application is on file with the Commission and is available for public inspection. Correspondence with the Applicant should be directed to: Mr. Duane T. Sargisson, Bowditch and Dewey, 311 Main Street, Worcester, Massachusetts 01608.

Project Description—The proposed project would consist of: (1) an existing concrete dam, 80 feet long and 10 feet high; (2) an existing diversion structure; (3) an existing concrete headrace, 12 feet wide, 8 feet high and approximately 200 feet long; (4) an existing 6-foot diameter penstock adjoining a control gate and trash rack and then proceeding 60 feet, expanding to a diameter of seven feet at the turbine housing; (5) the existing 20-foot square turbine housing enclosed by the main building of the Putnam Plant and containing a new 1.0-MW turbine/generator unit operating under a head of 28 feet; (6) a 250-foot long, 12.5-kVa transmission line and (7) appurtenant facilities. The average annual electrical generation of 6,110,000 kWh would be sold to Connecticut Light and Power Company.

Proposed Scope of Studies Under Permit—A preliminary permit, if issued, does not authorize construction. Applicant seeks issuance of a preliminary permit for a period of 18 months during which time it would perform surveys and geological investigations, determine the economic feasibility of the project, reach final agreement on sale of project power, secure financing commitments, consult with Federal, State, and local government agencies concerning the potential environmental effects of the project, and prepare an application for FERC license, including an environmental report. Applicant

estimates the cost of studies under the permit would be $41,500.

Competing Applications—Anyone desiring to file a competing application must submit to the Commission, on or before January 29, 1982, either the competing application itself (See 18 CFR 4.33 (a) and (d) (1980)) or a notice of intent (See 18 CFR 4.33 (b) and (c) (1980)) to file a competing application. Submission of a timely notice of intent allows an interested person to file an acceptable competing application no later than the time specified in § 4.33(c).

Agency Comments—Federal, State, and local agencies are invited to submit comments on the described application. (A copy of the application may be obtained by agencies directly from the Applicant.) If an agency does not file comments within the time set below, it will be presumed to have no comments.

Comments, Protests, or Petitions To Intervene—Anyone may submit comments, a protest, or a petition to intervene in accordance with the requirements of the Rules of Practice and Procedure, 18 CFR 1.8 or 1.10 (1980). In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a petition to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protests, or petition to intervene must be received on or before January 29, 1982.

Filing and Service of Responsive Documents—Any filings must bear in all capital letters the title "COMMENTS", "NOTICE OF INTENT TO FILE COMPETING APPLICATION", "COMPETING APPLICATION", "PROTEST", or "PETITION TO INTERVENE", as applicable, and the Project Number of this notice. Any of the above named documents must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, Room 208 RB at the above address. A copy of any notice of intent, competing application, or petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

[Project No. 5519-000]

Hydro Management, Inc.; Application for Preliminary Permit

November 25, 1981.

Take notice that Hydro Management, Incorporated (Applicant) filed on October 15, 1981, an application for preliminary permit (pursuant to the Federal Power Act, 16 U.S.C. 791(a)–825(r)) for Project No. 5519 to be known as the South Fork Lost Creek Water Power Project located on the South Fork of Lost Creek in Lake County, Montana. The project would lie partially on Flathead National Forest land. The application is on file with the Commission and is available for public inspection. Correspondence with the Applicant should be directed to: Mr. W. H. Edelman III, President, Hydro Management, Incorporated, Route 1, Box 169, Ronan, Montana 59864.

Project Description—The proposed project would consist of: (1) a native rock diversion structure 3 feet high with negligible storage; (2) penstock 11,800 feet long; (3) a powerhouse containing a turbine generator with 291 kW capacity and 1,762 MWh annual energy production; (4) transmission line; and (5) appurtenant facilities. Generated power would be sold to the Bonneville Power Administration or the Pacific Power and Light Company.

Proposed Scope of Studies Under Permit—A perliminary permit, if issued, does not authorize construction. The Applicant seeks issuance of a perliminary permit for a term of 36 months, during which time engineering, economic and environmental studies will be conducted to ascertain project feasibility and to support application for a license to construct and operate the project. The estimated cost of these activities is $2,000.

Competing Applications—Anyone desiring to file a competing application must submit to the Commission, on or before February 1, 1982, either the competing application itself (See 18 CFR 4.33 (a) and (d) (1980)) or a notice of intent (See 18 CFR 4.33 (b) and (c) (1980)) to file a competing application. Submission of a timely notice of intent allows an interested person to file an acceptable competing application no later than the time specified in § 4.33(c).

Agency Comments—Federal, State, and local agencies are invited to submit comments on the described application. (A copy of the application may be obtained by agencies directly from the Applicant). If an agency does not file comments within the time set below, it will be presumed to have no comments.

Comments, Protests, or Petitions to Intervene—Anyone may submit comments, a protest, or a petition to intervene in accordance with the requirements of the Rules of Practice and Procedure, 18 CFR 1.8 or 1.10 (1980). In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a petition to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protests, or petitions to intervene must be received on or before February 1, 1982.

Filing and Service of Responsive Documents—Any filings must bear in all capital letters the title "COMMENTS", "NOTICE OF INTENT TO FILE COMPETING APPLICATION", "COMPETING APPLICATION", "PROTEST", or "PETITION TO INTERVENE", as applicable, and the Project Number of this notice. Any of the above named documents must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, Room 208 RB at the above address. A copy of any notice of intent, competing application, or petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

[Project No. 5520-000]

Hydro Management, Inc., Application for Preliminary Permit

November 25, 1981.

Take notice that Hydro Management, Incorporated (Applicant) filed on October 15, 1981, an application for preliminary permit (pursuant to the Federal Power Act, 16 U.S.C. 791(a)–825(r)) for Project No. 5520 to be known as the Soup Creek Water Power Project located on Soup Creek in Lake County, Montana. The application is on file with the Commission and is available for public inspection. Correspondence with the Applicant should be directed to: Mr. W. H. Edelman III, President, Hydro Management, Incorporated, Route 1, Box 169, Ronan, Montana 59864.

Project Description—The proposed project would consist of: (1) a diversion structure of native rock 3 feet high with negligible storage; (2) penstock 8,200 feet long; (3) a powerhouse containing a turbine generator with 377 kW capacity and 2.28 GWh annual energy production; (4) transmission line; and (5) appurtenant facilities. Generated power would be sold to the Pacific Power and Light Company or the Bonneville Power Administration.

Proposed Scope of Studies Under Permit—A preliminary permit, if issued, does not authorize construction. The Applicant seeks issuance of a preliminary permit for a term of 36 months, during which time engineering, economic and environmental studies will be conducted to ascertain project feasibility and to support application for a license to construct and operate the project. The estimated cost of these activities is $2,000.

Competing Applications—Anyone desiring to file a competing application must submit to the Commission, on or before February 1, 1982, either the competing application itself (See 18 CFR 4.33 (a) and (d) (1980)) or a notice of intent (See 18 CFR 4.33 (b) and (c) (1980)) to file a competing application. Submission of a timely notice of intent allows an interested person to file an acceptable competing application no later than the time specified in § 4.33(c).

Agency Comments—Federal, State, and local agencies are invited to submit comments on the described application. (A copy of the application may be obtained by agencies directly from the Applicant.) If an agency does not file comments within the time set below, it will be presumed to have no comments.

Comments, Protests, or Petitions To Intervene—Anyone may submit comments, a protest, or a petition to intervene in accordance with the requirements of the Rules of Practice and Procedure, 18 CFR 1.8 or 1.10 (1980). In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a petition to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protests, or petitions to intervene must be received on or before February 1, 1982.

Filing and Service of Responsive Documents—Any filings must bear in all capital letters the title "COMMENTS", "NOTICE OF INTENT TO FILE COMPETING APPLICATION", "COMPETING APPLICATION", "PROTEST", or "PETITION TO INTERVENE", as applicable, and the Project Number of this notice. Any of the above named documents must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, Room 208 RB at the above address. A copy of any notice of intent, competing application, or petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

BILLING CODE 6717-01-M

[Project No. 5518-000]

Hydro Management, Incorp.; Application for Preliminary Permit

November 25, 1981.

Take notice that Hydro Management, Incorporated (Applicant) filed on October 15, 1981, an application for preliminary permit (pursuant to the Federal Power Act, 16 U.S.C. §§ 791(a)–825(r)) for Project No. 5518 to be known as the Goat Creek Water Power Project located on the Goat Creek in Lake County, Montana. The project would lie partially on Flathead National Forest land. The application is on file with the Commission and is available for public inspection. Correspondence with the Applicant should be directed to: Mr. W. H. Edelman III, President, Hydro Management, Incorporated, Route 1, Box 169, Ronan, Montana 59864.

Project Description—The proposed project would consist of: (1) a native rock diversion structure 3 feet high with negligible storage; (2) penstock 12,200 feet long; (3) a powerhouse containing a turbine generator with 430 kW capacity and 2.6 GWh annual energy production; (4) transmission line; and (5) appurtenant facilities. Generated power would be sold to the Bonneville Power Administration or the Missoula Electric Coop., Incorporated.

Proposed Scope of Studies Under Permit—A preliminary permit, if issued, does not authorize construction. The Applicant seeks issuance of a preliminary permit for a term of 36 months, during which time engineering, economic and environmental studies will be conducted to ascertain project feasibility and to support application for a license to construct and operate the project. The estimated cost of these activities is $2,000.

Competing Applications—Anyone desiring to file a competing application must submit to the Commission, on or before February 1, 1982, either the competing application itself (See 18 CFR 4.33(a) and (d) (1980)) or a notice of intent (See 18 CFR 4.33(b) and (c) (1980)) to file a competing application. Submission of a timely notice of intent allows an interested person to file an acceptable competing application no later than the time specified in § 4.33(c).

Agency Comments—Federal, State, and local agencies are invited to submit comments on the described application. (A copy of the application may be obtained by agencies directly from the Applicant.) If an agency does not file comments within the time set below, it will be presumed to have no comments.

Comments, Protests, or Petitions To Intervene—Anyone may submit comments, a protest, or a petition to intervene in accordance with the requirements of the Rules of Practice and Procedure, 18 CFR 1.8 or 1.10 (1980). In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a petition to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protests, or petitions to intervene must be received on or before February 1, 1982.

Filing and Service of Responsive Documents—Any filings must bear in all capital letters the title "COMMENTS", "NOTICE OF INTENT TO FILE COMPETING APPLICATION", "COMPETING APPLICATION", "PROTEST", or "PETITION TO INTERVENE", as applicable, and the Project Number of this notice. Any of the above named documents must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. BILLING CODE 6717-01-M

[Project No. 5517-000]

Hydro Management, Inc.; Application for Preliminary Permit

November 25, 1981.

Take notice that Hydro Management, Incorporated (Applicant) filed on October 15, 1981, an application for preliminary permit [pursuant to the Federal Power Act, 16 U.S.C. 791(a)–825(r)] for Project No. 5517 to be known as the Scout Creek Water Power Project located on Scout Creek in Lake County, Montana. The project would lie partially on Flathead National Forest land. The application is on file with the Commission and is available for public inspection. Correspondence with the Applicant should be directed to: Mr. W. H. Edelman III, President, Hydro Management, Incorporated, Route 1, Box 169, Ronan, Montana 59864.

Project Description—The proposed project would consist of: (1) a native rock diversion structure 3 feet high with negligible storage; (2) penstock 5,000 feet long; (3) a powerhouse containing a turbine generator with 407 kW capacity and 2,462 MWh annual energy production; (4) transmission line; and (5) appurtenant facilities. Generated power would be sold to the Bonneville Power Administration or the Missoula Electric Coop., Incorporated.

Proposed Scope of Studies Under Permit—A preliminary permit, if issued, does not authorize construction. The Applicant seeks issuance of a preliminary permit for a term of 36 months, during which time engineering, economic and environmental studies will be conducted to ascertain project feasibility and to support application for a license to construct and operate the project. The estimated cost of these activities is $2,000.

Competing Applications—Anyone desiring to file a competing application must submit to the Commission, on or before February 1, 1982, either the competing application itself [See 18 CFR 4.33 (a) and (d) (1980)] or a notice of intent [See 18 CFR 4.33 (b) and (c) (1980)] to file a competing application. Submission of a timely notice of intent allows an interested person to file an acceptable competing application no later than the time specified in § 4.33(c).

Agency Comments—Federal, State, and local agencies are invited to submit comments on the described application. (A copy of the application may be obtained by agencies directly from the Applicant.) If an agency does not file comments within the time set below, it will be presumed to have no comments.

Comments, Protests, or Petitions to Intervene—Anyone may submit comments, a protest, or a petition to intervene in accordance with the requirements of the Rules of Practice and Procedure, 18 CFR 1.8 or 1.10 (1980). In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a petition to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protests, or petitions to intervene must be received on or before February 1, 1982.

Filing and Service of Responsive Documents—Any filings must bear in all capital letters the title "COMMENTS", "NOTICE OF INTENT TO FILE COMPETING APPLICATION", "COMPETING APPLICATION", "PROTEST", or "PETITION TO INTERVENE", as applicable, and the Project Number of this notice. Any of the above named documents must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, Room 208 RB at the above address. A copy of any notice of intent, competing application, or petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

[Docket No. CP82-57-000]

Kansas-Nebraska Natural Gas Co., Inc.; Application

November 30, 1981.

Take notice that on November 5, 1981, Kansas-Nebraska Natural Gas Company, Inc. (Applicant), P.O. Box 15265, Lakewood, Colorado 80215, filed in Docket No. CP82-57-000 an application pursuant to Section 7(b) of the Natural Gas Act for permission and approval to abandon the sale of natural gas for resale to Nebraska Natural Gas Company (Nebraska Natural), all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that it is currently authorized to make a sale of natural gas for resale pursuant to its Rate Schedules CD and WPS of its FERC Gas Tariff, Third Revised Volume No. 1 to Nebraska Natural, a distributor of natural gas in 18 communities located in central and south-central Nebraska. Applicant indicates that the 18 communities served are Lexington, Elm Creek, Elwood, Odessa, Overton, Cozad, Gothenburg, Brady, Maxwell, Fairfield, Franklin, Guide Rock, Inavale, Naponee, Nelson, Red Cloud, Darr and Willow Island.

Applicant states that effective at the close of business on October 31, 1981, Applicant would acquire Nebraska Energy, Inc. and its wholly owned subsidiary, Nebraska Natural. Applicant submits that on that date it would discontinue its sale for resale to Nebraska Natural and commencing on November 1, 1981, would begin providing service at retail to the 9,754 end-use customers formerly served at wholesale as well as 10,693 end-use customers in the four communities of Fremont, Cedar Bluffs, Hooper and Scribner, Nebraska, which would continue to be served at wholesale by another pipeline company.

Any person desiring to be heard or to make any protest with reference to said application should on or before December 23, 1981, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no petition to intervene is filed within the time required herein, if

the Commission on its own review of the matter finds that permission and approval for the proposed abandonment are required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-34481 Filed 12-1-81; 8:45 am]

BILLING CODE 6717-01-M

[Docket No. CP82-59-000]

Kansas-Nebraska Natural Gas Co., Inc.; Application

November 30, 1981.

Take notice that on November 5, 1981, Kansas-Nebraska Natural Gas Company, Inc. (Applicant), P.O. Box 15265, Lakewood, Colorado 80215, filed in Docket No. CP82-59-000 an application pursuant to Section 7 of the Natural Gas Act and paragraphs (c), (e) and (g) of § 157.7 of the Regulations thereunder (18 CFR 157.7(c), 157.7(e) and 157.7(g)) (1) for a certificate of public convenience and necessity authorizing the construction, during the calendar year 1982, and operation of facilities to make miscellaneous rearrangements on its system; (2) for permission and approval to abandon during the calendar year 1982 direct sales service and facilities no longer required for deliveries of natural gas to Applicant's customers; and (3) for a certificate of public convenience and necessity authorizing the construction and for permission and approval to abandon during the calendar year 1982, operation of various field compression and related metering and appurtenant facilities, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

The stated purpose of this budget-type application pursuant to § 157.7(c) of the Regulations is to augment Applicant's ability to act with reasonable dispatch in making miscellaneous rearrangements which would not result in any material change in the transportation and sales service presently rendered by Applicant. Applicant states that the total cost of the proposed miscellaneous rearrangements would not exceed $300,000 which would be financed from current working capital or from interim bank loans which at a later date may be funded by a security issue.

The stated purpose of this budget-type application pursuant to § 157.7(e) of the Regulations is to augment Applicant's ability to act with reasonable dispatch in abandoning service and removing direct sales measuring, regulating, and related facilities. Applicant states that it would abandon service and facilities only when deliveries to any one direct sales customer would not have exceeded 100,000 Mcf of natural gas during the last year of service.

The application further states that Applicant would not abandon any service unless it would have received a written request or written permission from the customer to terminate service. In the event such request or permission could not be obtained, a statement certifying that the customer has no further need for service would be filed with the Commission, it is asserted.

The stated purpose of this budget-type application pursuant to § 157.7(g) of the Regulations is to enable Applicant to act with reasonable dispatch in constructing and abandoning facilities which would not result in changing Applicant's system salable capacity or service from that authorized prior to the filing of the instant application. Applicant states that the total cost of the proposed construction and abandonment would not exceed $2,000,000 and no single project would exceed $500,000. Applicant states that said cost would be financed from current working capital or from interim bank loans which at a later date may be funded by a security issue.

Any person desiring to be heard or to make any protest with reference to said application should on or before December 23, 1981, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8, or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate and permission and approval for the proposed abandonment are required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-34482 Filed 12-1-81; 8:45 am]

BILLING CODE 6717-01-M

[Project No. 4114-001]

Long Lake Energy Corp.; Application for Major License

November 24, 1981.

Take notice that an application was filed on October 8, 1981, under the Federal Power Act, 16 U.S.C. 791(a)-825(r)), by Long Lake Energy Corporation (Applicant) for a license for the Lower Saranac Project, FERC No. 4114. The project would be located on the Saranac River in the City of Plattsburgh and the town of Schuyler Falls, Clinton County, New York. Correspondence with the Applicant should be directed to: Mr. Donald E. Hamer, 330 Madison Avenue, 7th Floor, New York, New York 10017.

Project Description—The proposed project would consist of two developments described as follows:

(A) The Upper Development consisting of: (1) an existing dam comprised of: (a) an 83-foot long, 18-foot high gate section located adjacent to the north dam abutment containing seven 7.5-foot wide, 10-foot high gates; (b) a 75-foot long, 24.25-foot high concrete spillway positioned at a right angle to the gate section; (c) a 50-foot long, 31.1-foot high gate structure located adjacent to the spillway; and (d) a 17.2-foot high, 60-foot long gate structure located approximately 200-feet south of the main dam structure containing three 6-foot high, 6-foot wide gates; (2) a reservoir with no usable storage capacity at elevation 281.5 feet m.s.l.; (3) an existing powerhouse built integrally to the dam containing two turbine-generators with a total rated capacity of 2.4 MW; and (4) appurtenant facilities.

Applicant proposes to retire the existing powerhouse and construct a new intake, a 4-foot diameter, 150-foot long steel penstock and a new powerhouse containing a single 200-kW turbine-generator which would discharge a minimum flow of 100 cfs into the Saranac River below the dam. In addition, Applicant proposes to construct a canal intake structure at the southern gate structure, a 3,800-foot long, 100-foot wide, 16-foot deep, lined power canal, a 275-foot long, 13-foot diameter concrete lined power tunnel, a powerhouse located approximately 150 feet west of Interstate 87, containing two turbine-generators with a total rated capacity of 6.4 MW, a 100-foot long tailrace channel, a 2,500-foot long, 4.16-kV transmission line and appurtenant facilities. The Upper Development would generate up to 26,200,000 kWh annually.

(B) The Lower Development consisting of: (1) an existing dam comprised of: (a) a 500-foot long, 9-foot high earth dike adjacent to the south dam abutment oriented on a north-south axis; and (b) a 170-foot long, 13-foot high concrete overflow spillway with a 53-foot long breached section; (2) a reservoir with no usable storage capacity and reduced, due to the breach, to elevation 202.0 feet m.s.l.; (3) an existing powerhouse foundation located at the south dam abutment; (4) an existing 60-foot wide, 425-foot long tailrace channel; (5) an existing substation; and (6) appurtenant facilities.

Applicant proposes to place a 60-foot wide bascule gate at the breach in the dam to restore the reservoir to an elevation of 207.2 feet m.s.l., make rapairs to the dam's concrete surface, and construct a 10-foot high earth dike on an east-west axis extending from the south dam abutment 300-feet upstream. A new powerhouse containing a single 1.1-MW turbine-generator would be constructed at the location of the old powerhouse along with modifications to the tailrace channel which would lengthen and slightly deepen it. The existing adjacent substation would be expanded to connect the upper and lower project powerhouse transmission lines to the existing grid system. The lower development would produce approximately 5,700,000 kWh annually.

Applicant also proposes to construct a visitor parking area, hiking/cross country ski trails, picnic areas, scenic overlook areas and boat and fishing access areas.

The project would utilize lands and existing facilities owned by Georgia Pacific Company and New York State Electric and Gas Corporation. In addition, the project would utilize 4.2 acres of land owned by the U.S. Government as part of Plattsburg Air Force Base for a transmission line corridor.

This application competes with the Lower Saranac Project FERC No. 5614–000 application filed jointly by Georgia-Pacific Company and New York State Electric and Gas Corporation on November 6, 1981.

Competing Applications—Anyone desiring to file a competing application must submit to the Commission, on or before January 28, 1982, either the competing application itself [See 18 CFR 4.33 (a) and (d) (1980)] or a notice of intent [See 18 CFR 4.33 (b) and (c) (1980)] to file a competing application. Submission of a timely notice of intent allows an interested person to file an acceptable competing application no later than the time specified in § 4.33(c).

Agency Comments—Federal, State, and local agencies are invited to submit comments on the described application. If an agency does not file comments within the time set below, it will be presumed to have no comments.

Comments, Protests, or Petitions To Intervene—Anyone may submit comments, a protest, or a petition to intervene in accordance with the requirements of the Rules of Practice and Procedure, 18 CFR 1.8 or 1.10 (1980). In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a petition to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protests, or petition to intervene must be received on or before January 28, 1982.

Filing and Service of Responsive Documents—Any filings must bear in all capital letters the title "COMMENTS", "NOTICE OF INTENT TO FILE COMPETING APPLICATION", "COMPETING APPLICATION", "PROTEST", or "PETITION TO INTERVENE", as applicable, and the Project Number of this notice. Any of the above named documents must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, Room 208 RB at the above address. A copy of any notice of intent, competing application, or petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

[Project No. 5406-000]

Maintenance Consultants, Inc., Application for Preliminary Permit

November 25, 1981.

Take notice that Maintenance Consultants, Inc. (Applicant) filed on September 24, 1981, an application for preliminary permit (pursuant to the Federal Power Act, 16 U.S.C. 791(a)–825(r)) for Project No. 5406 to be known as the Willow Falls Dam Hydropower Project located on the Willow River near the City of St. Paul, in the County of St. Croix, Wisconsin. The application is on file with the Commission and is available for public inspection. Correspondence with the Applicant should be directed to: Mr. David Mercier, 11833 Xavis Street NW, Coon Rapids, Minnesota 55433.

Project Description—The proposed project would consist of: (1) an existing reinforced concrete, hollow arch dam 160 feet long and 60 feet high; (2) an existing reservoir with a surface area of 122 acres and a gross storage capacity of 2,000 acre-feet; (3) the proposed installation of one 700 kW generator with turbine and one 430 kW generator and turbine to provide a total installed capacity of 1.1 MW; (4) a proposed transmission line one mile in length; (5) a proposed powerhouse and penstock; and (6) appurtenant facilities. The Applicant estimates the annual energy production of the proposed project to be 6.3 GWh.

Proposed Scope of Studies under Permit—A preliminary permit, if issued, does not authorize construction. The Applicant seeks issuance of a preliminary permit for a period of 36 months, during which time studies would be made to determine the engineering, environmental, and economic feasibility of the project. In addition, historic and recreational aspects of the project would be determined, along with the consultation with Federal, State and local agencies for information, comments and recommendations relevant to the project. The Applicant estimates that the cost of the studies would be $40,000.

Competing Applications—Anyone

desiring to file a competing application must submit to the Commission, on or before February 1, 1982, either the competing application itself [See 18 CFR 4.33 (a) and (d) (1980)] or a notice of intent [See 18 CFR 4.33 (b) and (c) (1980)] to file a competing application. Submission of a timely notice of intent allows an interested person to file an acceptable competing application no later than the time specified in § 4.33(c).

Agency Comments—Federal, State, and local agencies are invited to submit comments on the described application. [A copy of the application may be obtained by agencies directly from the Applicant.] If an agency does not file comments within the time set below, it will be presumed to have no comments.

Comments, Protests, or Petitions to Intervene—Anyone may submit comments, a protest, or a petition to intervene in accordance with the requirements of the Rules of Practice and Procedure, 18 CFR 1.8 or 1.10 (1980). In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a petition to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protests, or petitions to intervene must be received on or before February 1, 1982.

Filing and Service of Responsive Documents—Any filings must bear in all capital letters the title "COMMENTS", "NOTICE OF INTENT TO FILE COMPETING APPLICATION", "COMPETING APPLICATION", "PROTEST", or "PETITION TO INTERVENE", as applicable, and the Project Number of this notice. Any of the above named documents must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, Room 208 RB at the above address. A copy of any notice of intent, competing application, or petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

[Project No. 5405-000]

Maintenance Consultants, Inc.; Application for Preliminary Permit

November 24, 1981.

Take notice that Maintenance Consultants, Inc. (Applicant) filed on September 24, 1981, an application for preliminary permit (pursuant to the Federal Power Act, 16 U.S.C. 791(a)-825(r)) for Project No. 5405 to be known as the Winnibigoshish Dam Hydropower Project located on the Mississippi River near the town of Deer River, in the County of Itasca, Minnesota. The application is on file with the Commission and is available for public inspection. Correspondence with the Applicant should be directed to: Mr. David Mercier, 11833 Xavis Street NW, Coon Rapids, Minnesota 55433.

Project Description—The proposed project would utilize an existing U.S. Army Corps of Engineers' dam and reservoir. Project No. 5405 would consist of: (1) a proposed powerhouse and penstock, with the penstock running through the earth dike just beyond the spillway; (2) the proposed installation of one 700 kW generator and turbine and one 300 kW generator and turbine to provide a total installed capacity of 1 MW; (3) a proposed transmission line to run from the powerhouse to a United Power Association line six miles away; and (4) appurtenant facilities. The Applicant estimates the annual energy production of the proposed project to be 4.4 GWh.

Proposed Scope of Studies under Permit—A preliminary permit, if issued, does not authorize construction. The Applicant seeks issuance of a preliminary permit for a period of 36 months, during which time studies would be made to determine the engineering, environmental, and economic feasibility of the project. In addition, historic and recreational aspects of the project would be determined, along with the consultation with Federal, State and local agencies for information, comments and recommendations relevant to the project. The Applicant estimates that the cost of the studies would be $30,000.

Competing Applications—Anyone desiring to file a competing application must submit to the Commission, on or before January 28, 1982, either the competing application itself [See 18 CFR 4.33 (a) and (d) (1980)] or a notice of intent [See 18 CFR 4.33 (b) and (c) (1980)] to file a competing application. Submission of a timely notice of intent allows an interested person to file an acceptable competing application no later than the time specified in § 4.33(c).

Agency Comments—Federal, State, and local agencies are invited to submit comments on the described application. [A copy of the application may be obtained by agencies directly from the Applicant.] If an agency does not file comments within the time set below, it will be presumed to have no comments.

Comments, Protests, or Petitions to Intervene—Anyone may submit comments, a protest, or a petition to intervene in accordance with the requirements of the Rules of Practice and Procedure, 18 CFR 1.8 or 1.10 (1980). In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a petition to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protests, or petitions to intervene must be received on or before January 28, 1982.

Filing and Service of Responsive Documents—Any filings must bear in all capital letters the title "COMMENTS", "NOTICE OF INTENT TO FILE COMPETING APPLICATION", "COMPETING APPLICATION", "PROTEST", or "PETITION TO INTERVENE", as applicable, and the Project Number of this notice. Any of the above named documents must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, Room 208 RB at the above address. A copy of any notice of intent, competing application, or petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

Project No. 4042-000

Massachusetts Municipal Wholesale Electric Co.; Surrender of Preliminary Permit

November 27, 1981.

Take notice that Massachusetts Municipal Wholesale Electric Company (MMWEC) Permittee for the proposed Barre Falls Project No. 4042 has requested that its preliminary permit be terminated. The preliminary permit was

issued on May 5, 1981, and would have expired on November 1, 1982. The project would have been located at the U.S. Army Corps of Engineers' Barre Falls Flood Control Dam in Worcester County, Massachusetts. MMWEC indicates that the Barre Falls Project would not appear to be an economic source of energy.

MMWEC filed its request on November 6, 1981, and the surrender of its permit for Project No. 4042 has been deemed accepted as of the date of this notice.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-34483 Filed 12-1-81: 8:45 am]

BILLING CODE 6717-01-M

[Project No. 4694-000]

Midvale Irrigation District; Application for Preliminary Permit

November 24, 1981.

Take notice that Midvale Irrigation District (Applicant) filed on May 6, 1981, an application for preliminary permit [pursuant to the Federal Power Act, 16 U.S.C. 791(a)–825(r)] for Project No. 4694 to be known as the Pilot Butte Dam and Power Plant Development located on the Wind River in Fremont County, Wyoming. The application is on file with the Commission and is available for public inspection. Correspondence with the Applicant should be directed to: Mr. Jack Long, Manager, Midvale Irrigation District, Post Office Box 128, Pavillion, Wyoming 82523.

Project Description—The proposed Project No. 4694 would consist of: (1) The existing U.S. Bureau of Reclamation earthfill Pilot Butte Dam; (2) a proposed hydroelectric generating facility in the Pilot Butte Power Plant with an installed capacity of about 2.0 MW; (3) the existing, non-operating Pilot Butte Power Plant with an installed capacity of about 4.0 MW after renovation; (4) a proposed transmission line leading to the existing substation adjacent to the existing Pilot Butte Power Plant; and (5) appurtenant facilities. The total estimated average annual energy output is about 15.0 GWh. Potential customers for the project energy are located in the U.S.B.R. project area.

Proposed Scope of Studies Under Permit—A preliminary permit, if issued, does not authorize construction. Applicant seeks issuance of a preliminary permit for a period of 36 months, during which time studies would be made to determine the engineering, environmental, and economic feasibility of the project. In addition, consultation would be carried out with the appropriate Federal, State, and local agencies. The Applicant estimates the cost of studies and preparation of license application to be $26,000.

Competing Applications—This application was filed as a competing application to the Pilot Butte Project No. 3551 filed on October 9, 1981, by Continental Hydro Corporation, under 18 CFR 4.33 (1980). Public notice of the filing of the initial application has already been given and the due date for filing competing applications or notices of intent has passed. Therefore, no further competing applications or notices of intent to file competing applications will be accepted for filing.

Agency Comments—Federal, State, and local agencies are invited to submit comments on the described application. (A copy of the application may be obtained by agencies directly from the Applicant.) If an agency does not file comments within the time set below, it will be presumed to have no comments.

Comments, Protests, or Petitions To Intervene—Anyone may submit comments, a protest, or a petition to intervene in accordance with the requirements of the Rules of Practice and Procedure, 18 CFR 1.8 or 1.10 (1980). In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a petition to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protests, or petitions to intervene must be received on or before December 22, 1981.

Filing and Service of Responsive Documents—Any filings must bear in all capital letters the title "COMMENTS", "PROTEST", or "PETITION TO INTERVENE", as applicable, and the Project Number of this notice. Any of the above named documents must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, Room 208 RB at the above address. A copy of any petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

[Docket No. ER80-5]

Minnesota Power & Light Co.; Refund

November 24, 1981.

The filing Company submits the following:

Take notice that on November 16, 1981, Minnesota Power and Light Company filed a refund report in accordance with the Commission's letter order of October 2, 1981.

Any person desiring to be heard or to protest this filing should file comments with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, on or before December 11, 1981. Comments will be considered by the Commission in determining the appropriate action to be taken. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-34522 Filed 12-1-81: 8:45 am]

BILLING CODE 6717-01-M

[Docket No. TC82-4-000]

Montana-Dakota Utilities Co.; Gas Tariff Filing

November 20, 1981.

Take notice that on November 2, 1981, Montana-Dakota Utilities Co. (MDU), 400 North Fourth Street, Bismarck, North Dakota 58501, tendered for filing in Docket No. TC82-4-000, pursuant to Section 4 of the Natural Gas Act and Part 154 of the Commission's Regulations, Fourth Revised Sheet Nos. 102 and 103 to its FERC Gas Tariff, First Revised Volume No. 1, all as more fully set forth in the filing tendered with the Commission and open to public inspection.

It is submitted that the volume changes on the tariff sheets reflect reclassification of natural gas used in boilers for the production of animal feed or food from Priority 2(c) to a Priority 4. MDU asserts that it has contacted all of its industrial customers with a Priority 2(c) allocation and only two, Hardy Salt Company, Williston, North Dakota, and Pierce Packing Company, Billings, Montana, utilize natural gas in boilers for the production of animal feed or food.

MDU states that Hardy Salt Company's Priority 2(c) allocation of 80,746 Mcf of gas has been reclassified to 37,143 Mcf in Priority 2(c) and 43,603 Mcf added to Priority 4 while Pierce Packing Company's Priority 2(c) allocation of 176,640 Mcf of gas has been reclassified to 91,853 Mcf in Priority 2(c) and 84,787 Mcf in Priority 4.

Accordingly, MDU tenders for filing Fourth Revised Sheet Nos. 102 and 103 to its FERC Gas Tariff, First Revised Volume No. 1, reflecting such reclassification and requests an effective date of November 1, 1981.

Any person desiring to be heard or to make any protest with reference to said filing should on or before November 30, 1981, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-34523 Filed 12-1-81; 8:45 am]

BILLING CODE 6717-01-M

[Project No. 5514-000]

Newton Mill Associates; Application For Preliminary Permit

November 24, 1981.

Take notice that Newton Mill Associates (Applicant) filed on October 15, 1981, an application for preliminary permit [pursuant to the Federal Power Act, 16 U.S.C. 791(a)–825(r)] for Project No. 5514 to be known as the Rocky Glen Project located on the Pootatuck River in the town of Newton, Fairfield County, Connecticut. The application is on file with the Commission and is available for public inspection. Correspondence with the Applicant should be directed to: Mr. Michael Pill, New England Energy Development Systems, Inc., 109 Main Street, Amherst, Massachusetts 01002.

Project Description—The proposed Project would utilize existing facilities and would consist of: (1) a 38-foot high, 130-foot long concrete spillway-type dam; (2) a 3.8 acre reservoir with a total storage capacity of 60 acre-feet at elevation 170.0 feet m.s.l.; (3) a 305-foot long diversion canal; (4) a 4-foot diameter, 65-foot long penstock; (5) a powerhouse inside the basement of a mill building containing a turbine-generator with a total rated capacity of 112 kW which would be rehabilitated; (6) a 220-foot long tailrace channel; and (7) appurtenant facilities. The project is owned by the Applicant. The project would generate up to 490,122 kWh annually. Energy produced at the project would be sold to Northeast Utilities Service Company.

Proposed Scope of Studies Under Permit—A preliminary permit, if issued, does not authorize construction. The Applicant seeks issuance of a preliminary permit for a period of three years during which time the Applicant would investigate project design alternatives, financial feasibility, environmental effects of project construction and operation, and project power potential. Depending upon the outcome of the studies, Applicant would decide whether to proceed with an application for FERC license. Applicant estimates the cost of studies under the permit would be $10,000.

Competing Applications—Anyone desiring to file a competing application must submit to the Commission, on or before January 28, 1982, either the competing application itself [See 18 CFR 4.33 (a) and (d) (1980)] or a notice of intent [See 18 CFR 4.33 (b) and (c) (1980)] to file a competing application. Submission of a timely notice of intent allows an interested person to file an acceptable competing application no later than the time specified in § 4.33(c).

Agency Comments—Federal, State, and local agencies are invited to submit comments on the described application. (A copiy of the application may be obtained by agencies directly from the Applicant.) If an agency does not file comments within the time set below, it will be presumed to have no comments.

Comments, Protests, or Petitions To Intervene—Anyone may submit comments, a protest, or a petition to intervene in accordance with the requirements of the Rules of Practice and Procedure, 18 CFR 1.8 or 1.10 (1980). In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a petition to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protests, or petitions to intervene must be received on or before January 28, 1982.

Filing and Service of Responsive Documents—Any filings must bear in all capital letters the title "COMMENTS", "NOTICE OF INTENT TO FILE COMPETING APPLICATION", "COMPETING APPLICATION", "PROTEST", or "PETITION TO INTERVENE", as applicable, and the Project Number of this notice. Any of the above named documents must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, Room 208 RB at the above address. A copy of any notice of intent, competing application, or petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

[Docket No. ER82-90-000]

Niagara Mohawk Power Corp.; Filing

November 27, 1981.

The filing Company submits the following:

Take notice that Niagara Mohawk Power Corporation (Niagara), on November 12, 1981 tendered for filing as a rate schedule, an agreement between Niagara and Orange and Rockland Utilities Inc. (Orange and Rockland) dated July 28, 1981.

Niagara presently has on file an agreement with Orange and Rockland dated February 14, 1975. This agreement is designated as Niagara Mohawk Power Corporation Rate Schedule F.E.R.C. No. 89. This new agreement is being transmitted as a supplement to the existing agreement.

This supplement revises the transmission rate for transmitting FitzPatrick power and energy from the Power Authority of the State of New York to Orange and Rockland as provided for in the terms of the original agreement. Niagara requests waiver of the Commission's prior notice requirements in order to allow said agreement to become effective as of September 1, 1981.

Copies of this filing were served upon the following:

Orange and Rockland Utilities Inc., One Blue Hill Plaza, Pearl River, NY 10965;
Public Service Commission, State of New York, Three Rockefeller State Plaza, Albany, NY 12223.

V 46 / 231 DEC 2 81 UMI

Any persons desiring to be heard or to protest said application should file a petition to intervene or to protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, DC 20426, in accordance with 1.8 and 1.10 of the Commission's Rules of Practices and Procedures (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before *December 11, 1981.* Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-34500 Filed 12-1-81; 8:45 am]

BILLING CODE 6717-01-M

[Docket No. CP68-75-008]

Northern Natural Gas Co., Division of InterNorth, Inc.; Petition To Amend

November 30, 1981.

Take notice that on November 2, 1981, Northern Natural Gas Company, Division of InterNorth, Inc. (Petitioner), 2223 Dodge Street, Omaha, Nebraska 68102, filed in Docket No. CP68-75-008 a petition to amend the order issued May 20, 1968 [1], as amended, in the instant docket pursuant to Section 7(c) of the Natural Gas Act so as to authorize the exchange of natural gas with Phillips Petroleum Company (Phillips) at an additional delivery point in Lea County, New Mexico, all as more fully set forth in the petition to amend which is on file with the Commission and open to public inspection.

Petitioner states that by order issued May 20, 1968, it was authorized, *inter alia,* to transport and exchange natural gas with Phillips.

Petitioner proposes to establish the Lovington plant in Lea County, New Mexico, as an additional exchange point with Phillips. Petitioner indicates that establishing said additional exchange point would be in accord with an amendatory agreement dated June 23, 1980, to the May 2, 1976, gas purchase contract between the parties. It is submitted that pursuant to these agreements Petitioner would return residue gas volumes to Phillips at the Lovington plant. Petitioner explains that such gas would be used by Phillips to meet contractual obligations with producers of providing booster fuel for wellhead compression and field treaters that would continue in operation upstream of the plant.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before December 23, 1981, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-34484 Filed 12-1-81; 8:45 am]

BILLING CODE 6717-01-M

[Docket Nos. CP82-45-000 and CP82-45-001]

Northern Natural Gas Co., Division of InterNorth, Inc.; Application

November 30, 1981.

Take notice that on October 28, 1981, Northern Natural Gas Company, Division of InterNorth, Inc. (Applicant), 2223 Dodge Street, Omaha, Nebraska 68102, filed in Docket No. CP82-45-000 an application and on November 12, 1981, filed in Docket No. CP82-45-001 an amendment to the subject application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the continued sale of natural gas to its utility customers under adjusted and realigned volumes of firm entitlement for the 1981-1982 heating season and thereafter, all as more fully set forth in the application and amendment which are on file with the Commission and open to public inspection.

Applicant specifically proposes to revise the presently authorized contract demand and peaking service volumes of certain of its utility customers as set forth in the exhibit hereto and in accordance with Section 17.5 of its FERC Gas Tariff, Third Revised Volume No. 1.

It is asserted that the requested realignment of volumes would help achieve maximum utilization of presently authorized service in meeting the requirements of said utilities and that the proposed realignment would have no effect on the presently authorized contract demand and peaking service under Applicant's respective rate schedules.

Any person desiring to be heard or to make any protest with reference to said application, as amended, should on or before December 23, 1981, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commision on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear to be represented at the hearing.

Kenneth F. Plumb.

Secretary.

BILLING CODE 6717-01-M

[Docket No. ER82-98-000]

Northern States Power Co.; Filing

The filing Company submits the following:

Take notice that Northern States Power Company (NSP) on November 13, 1981, tendered for filing Supplement No. 2, dated October 22, 1981, to the Interconnection and Interchange Agreement, dated September 23, 1977, with the City of Redwood Falls.

Supplement No. 2 amends the Interconnection and Interchange Agreement to provide a Second Point of Delivery between NSP and the City of Redwood Falls.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 14, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

[Docket No. ER82-97-000]

Northern States Power Co.; Filing

November 27, 1981.

The filing Company submits the following:

Take notice that Northern States Power Company, (NSP) on November 13, 1981, tendered for filing the Municipal Transmission Service Agreement, dated November 5, 1981, with the City of Hillsboro (Hillsboro).

Northern States agrees to provide transmission service to Hillsboro to deliver the City's purchase of both WAPA power and energy and power and energy purchased from an Alternate Supplier. NSP requests an effective date January 1, 1982.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 14, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

BILLING CODE 6717-01-M

[Docket No. TA82-1-37-003]

Northwest Pipeline Corp.; Change in Rates

November 27, 1981.

Take notice that on November 13, 1981, Northwest Pipeline Corporation ("Northwest") tendered for filing and acceptance as part of its FERC Gas Tariff, First Revised Volume No. 1, Fifth Revised Sheet No. 10 and as part of its Original Volume No. 2 Tariff, Fifth Revised Sheet No. 2.

Fifth Revised Sheet No. 10 and Fifth Revised Sheet No. 2 reflect the revised funding unit for the Gas Research Institute ("GRI") approved by the Commission in Opinion No. 131 issued September 28, 1981. Such revised funding unit is proposed to become effective January 1, 1981.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 8, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

[Docket No. CP78-119-003]

Northwest Pipeline Corp.; Petition To Amend

November 30, 1981.

Take notice that on October 20, 1981, Northwest Pipeline Corporation (Petitioner), P.O. Box 1526, Salt Lake City, Utah 84110, filed in Docket No. CP78-119-003 a petition to amend the order issued July 18, 1979, in the instant docket pursuant to Section 7(c) of the Natural Gas Act so as to delete the authorization to construct and operate certain well connections, all as more fully set forth in the petition to amend which is on file with the Commission and open to public inspection.

Petitioner states that by order issued July 18, 1979, it was authorized, *inter alia*, to construct and operate certain natural gas facilities to be used for the gathering and transportation of natural gas from the area generally referred to as the Creston Nose area in Carbon County, Wyoming. Applicant explains that said facilities consisted of 6.2 miles of 8⅝-inch O.D. pipeline (Trunk A), 1.9 miles of 4½-inch O.D. pipeline, 7 wellhead meters, and appurtenant facilities to connect seven wells to Trunk A and meter facilities at the point of interconnection between Applicant's and Western Transmission Corporation's (Western) pipelines.

Applicant states that the Creston Nose Trunk A, the interconnection with Western, and five out of seven authorized Creston Nose gathering system well connections have been constructed and are in service. It is asserted that the facilities certificated for the connection of Creston Nose #1-21 and #1-4 wells have not been installed by Applicant. It is further asserted that Applicant has no future plans to connect Creston Nose #1-4 and #1-21 wells. Applicant explains that Marathon Oil Company, operator of several Creston Nose area wells, no longer plans to complete the well designated as Creston #1-4. Applicant also submits that Creston Nose #1-21 well has been completed but Applicant failed to acquire an interest in this well and no longer proposes to connect it to the Creston Nose gathering system.

Therefore, Applicant proposes deletion of authorization to construct and operate the Creston Nose #1-4 and #1-21 well connections.

Any person desiring to be heard or to make any protest with reference to said petition, to amend, should on or before December 23, 1981, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-34487 Filed 12-1-81; 8:45 am]

BILLING CODE 6717-01-M

[Project No. 5458-000]

Oglethorpe Power Corp.; Application for Preliminary Permit

November 24, 1981.

Take notice that Oglethorpe Power Corporation (Applicant) filed on October 6, 1981, an application for preliminary permit (pursuant to the Federal Power Act, 16 U.S.C. 791(a)-825(r)] for Project No. 5458 to be known as the High Falls Dam Hydroelectric Power Project located on the Towaliga River near Jackson, Georgia in Monroe County, Georgia. The application is on file with the Commission and is available for public inspection. Correspondence with the Applicant should be directed to: Mr. Larry H. James, Section Manager, Energy Development, Oglethorpe Power Corporation, 2888 Woodcock, Boulevard, Atlanta, Georgia 30341.

Project Description—The proposed project would consist of: (1) an existing masonry block dam 35 feet high and 606 feet long; (2) an existing impoundment with a surface area of 740 acres and a gross storage capacity of 8,600 acre-feet; (3) the rehabilitation of an existing powerhouse and penstock; (4) the proposed installation of turbines and generators with a total installed capacity of 1,550 kW; (5) the proposed erection of a 500-foot long distribution line; and (6) appurtenant facilities. The Applicant estimates the annual energy production to be 4.7 GWh.

Proposed Scope of Studies Under Permit—A prelimiary permit, if issued, does not authorize construction. The Applicant seeks issuance of a preliminary permit for a term of 12 months, during which time studies would be made to determine the engineering, environmental, and economic feasibility of the project. In addition, historic and recreational aspects of the project would be determined, along with the consultation with Federal, State and local agencies for information, comments and recommendations relevant to the project. The Applicant estimates that the cost of the studies would be $15,000.

Competing Applications—Anyone desiring to file a competing application must submit to the Commission, on or before January 29, 1982, either the competing application itself [See 18 CFR 4.33 (a) and (d) (1980)] or a notice of intent [See 18 CFR 4.33 (b) and (c) (1980)] to file a competing application. Submission of a timely notice of intent allows an interested person to file an acceptable competing application no later than the time specified in § 4.33(c).

Agency Comments—Federal, State, and local agencies are invited to submit comments on the described application. (A copy of the application may be obtained by agencies directly from the Applicant.) If an agency does not file comments within the time set below, it will be presumed to have no comments.

Comments, Protests, or Petitions to Intervene—Anyone may submit comments, a protest, or a petition to intervene in accordance with the requirements of the Rules of Practice and Procedure, 18 CFR § 1.8 or § 1.10 (1980). In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a petition to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protests, or petitions to intervene must be received on or before January 29, 1982.

Filing and Service of Responsive Documents—Any filings must bear in all capital letters the title "COMMENTS", "NOTICE OF INTENT TO FILE COMPETING APPLICATION", "COMPETING APPLICATION", "PROTEST", or "PETITION TO INTERVENE", as applicable, and the Project Number of this notice. Any of the above named documents must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, Room 208RB at the above address. A copy of any notice of intent, competing application, or petition to intervene must also be served upon each representative

of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-34517 Filed 12-1-81; 8:45 am]

BILLING CODE 6717-01-M

[Docket Nos. RP72-74-007 and RP74-6-002]

Southern Natural Gas Co.; Cancellation

November 24, 1981.

Take notice that Southern Natural Gas Company (Southern) on November 6, 1981 tendered for filing First Revised Sheet No. 4B of its FERC Gas Tariff, Sixth Revised Volume No. 1. Southern states that this filing is made to cancel Original Sheet No. 4B effective November 1, 1981.

Southern states that Original Sheet No. 4B provided for the collection of a 1.245¢ per MMBtu surcharge rate until an aggregate of $6,592,641.22 had been collected which will be used to reimburse certain purchasers for costs of adjustments or modifications to facilities to accommodate the high Btu content of regasified LNG. Southern further states that the remaining balance to be collected of $387,599.05 will be invoiced with the October 1981 billing and, therefore, requests such waivers as necessary to allow cancellation of the surcharge rate effective November 1, 1981 in order to terminate the rate with the October 1981 billing. Southern also states that its filing complies with the Commission's orders of June 12, 1979 and November 26, 1980 approving the surcharge.

Copies of this filing are being served upon the company's jurisdictional customers and interested state commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before Dec. 7, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-34524 Filed 12-1-81; 8:45 am]

BILLING CODE 6717-02-M

[Docket No. RP80-102-007]

Southern Natural Gas Co.; Proposed Changes to FERC Gas Tariff

November 24, 1981.

Take notice that Southern Natural Gas Company (Southern) on November 13, 1981 tendered for filing proposed changes in its FERC Gas Tariff, Sixth Revised Volume No. 1 and Original Volume No. 2. The proposed changes would reduce revenues from jurisdictional sales and transportation services by approximately $17,227,000 annually from the revenues generated by the currently effective rates.

Southern states that the filing includes revised tariff sheets with a proposed effective date of December 1, 1981. These tariff sheets are being filed pursuant to the Stipulation and Agreement in Southern's Docket No. RP80-102. The Stipulation provides that if the Commission issues a final order approving the settlement before the effective date of new rates in the next docket, Southern shall (1) reduce its effective rates to reflect an 18.40% pre-tax return, (2) reflect the change in cost allocation and rate zones made effective May 1, 1981, and (3) reflect the United Method of cost classification. This rate filing is in compliance with the terms of the settlement in Docket No. RP80-102.

Copies of this filing are being served upon the Company's jurisdictional customers and interested state commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426 in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 7, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-34518 Filed 12-1-81; 8:45 am]

BILLING CODE 6717-01-M

[Docket No. CP76-362-003]

Texas Eastern Transmission Corp.; Petition To Amend

November 30, 1981.

Take notice that on November 9, 1981, Texas Eastern Transmission Corporation (Petitioner), P.O. Box 2521, Houston, Texas 77001, filed in Docket No. CP76-362-003 a petition to amend the order issued August 31, 1976,[1] as amended, in the instant docket pursuant to Section 7(c) of the Natural Gas Act so as to authorize the transportation of natural gas from an additional receipt point, all as more fully set forth in the petition to amend which is on file with the Commission and open to public inspection.

It is stated that Petitioner and Transcontinental Gas Pipe Line Corporation (Transco) are parties to a currently effective transportation agreement dated March 23, 1976, as amended, which provides for the transportation of natural gas volumes of up to 54,000 Mcf per day from Block 480 West Cameron area, South Addition, and West Cameron Block 286, offshore Louisiana.

Petitioner states that it seeks authorization herein for the inclusion of an additional point of receipt for the transportation of natural gas as provided by an amendment to the aforementioned agreement dated September 2, 1981. Petitioner explains that the amendment provides for the receipt by Petitioner at the point of interconnection of Petitioner's system in East Cameron Block 312 with the pipeline facilities to be constructed by Petitioner, Transco and Natural Gas Pipeline Company of America from Vermilion Blocks 369 and 370 of quantities of natural gas which Transco has acquired the right to purchase in Vermilion Block 370 from Shell Oil Company.

Petitioner states that such authorization would enable Transco to receive into its system the gas produced in Vermilion Block 370 without duplication of facilities. It is further submitted that no increases in the

[1] This proceeding was commenced before the FPC. By joint regulation of October 1, 1977 (10 CFR 1000.1), it was transferred to the Commission.

volumes transported would be necessitated by the proposal.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before December 23, 1981, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

[Docket No. ER82-95-000]

The Washington Water Power Co. Filing

November 27, 1981.

The filing Company submits the following:

Take notice that on November 13, 1981, The Washington Water Power Company (Washington) tendered for filing copies of an Agreement applicable to what Washington refers to as a contract for the exchange of power between Bonneville Power Administation (Bonneville) and Washington. The exchange amount is based on a specified percentage of Washington's residential load, and is sold to Bonneville at Washington's average system cost. Washington can then buy at Bonneville's average system cost an equivalent amount of power.

Washington requests that the requirements of prior notice be waived and the effective date be November 13, 1981, adding that there would be no effect upon purchasers under other rate schedules.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 14, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

BILLING CODE 6717-01-M

[Project No. 5448-00]

Western Power, Inc.; Application for Preliminary Permit

November 25, 1981.

Take notice that Western Power, Incorporated (Applicant) filed on October 5, 1981, an application for preliminary permit [pursuant to the Federal Power Act, 16 U.S.C. 791(a)-825(r)] for Project No. 5448 to be known as the Cougar Rocks Power Project located on Willame Creek in Lewis County, Washington. The project will lie partially within the Gifford Pinchot National Forest. The application is on file with the Commission and is available for public inspection. Correspondence with the Applicant should be directed to: Mr. Thomas R. Childs, Western Power, Incorporated, 2136 James Street, Bellingham, Washington 98225.

Project Description—The proposed project would consist of: (1) a concrete diversion structure 5 feet high; (2) a pipeline 3,500 feet long, surge tank and penstock 4,100 feet long; (3) a powerhouse containing a turbine generator with 4.6 MW capacity and 21.36 GWh annual energy production; (4) transmission line; and (5) appurtenant facilities. Generated power will be sold to the Lewis County Public Utility District.

Proposed Scope of Studies Under Permit—A preliminary permit, if issued, does not authorize construction. The Applicant seeks issuance of a preliminary permit for a term of 24 months, during which time engineering, economic and environmental studies will be conducted to ascertain project feasibility and to support application for a license to construct and operate the project. The estimated cost of these activities is $225,000.

Competing Applications—Anyone desiring to file a competing application must submit to the Commission, on or before February 1, 1982, either the competing application itself [See 18 CFR 4.33 (a) and (d) (1980)] or a notice of intent [See 18 CFR 4.33 (b) and (c) (1980)] to file a competing application. Submission of a timely notice of intent allows an interested person to file an acceptable competing application no later than the time specified in § 4.33(c).

Agency Comments—Federal, State, and local agencies are invited to submit comments on the described application. (A copy of the application may be obtained by agencies directly from the Applicant.) If an agency does not file comments within the time set below, it will be presumed to have no comments.

Comments, Protests, or Petitions To Intervene—Anyone may submit comments, a protest, or a petition to intervene in accordance with the requirements of the Rules of Practice and Procedure, 18 CFR 1.8 or 1.10 (1980). In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a petition to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protests, or petitions to intervene must be received on or before February 1, 1982.

Filing and Service of Responsive Documents—Any filings must bear in all capital letters the title "COMMENTS", "NOTICE OF INTENT TO FILE COMPETING APPLICATION", "COMPETING APPLICATION", "PROTEST", or "PETITION TO INTERVENE", as applicable, and the Project Number of this notice. Any of the above named documents must be filed by providing the original and those

copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, Room 208 RB at the above address. A copy of any notice of intent, competing application, or petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice

November 27, 1981.

The filing Company submits the following:

Take notice that Wisconsin Electric Power Company ("Wisconsin Electric" or "the Company") on November 12, 1981 tendered for filing an interconnection agreement and assignment agreements between the Company and the Cities of Kaukauna and Menasha, Wisconsin ("the Cities"). The interconnection agreement sets forth the terms and conditions upon which Wisconsin Electric will provide electric services to the Cities. The interconnection agreement has been on file with the Commission as a rate schedule for electric service since October 1980. The interconnection agreement is due to become effective on October 30, 1981. The assignment agreements assign, with the Company's consent, the Cities' rights and duties under existing electric service agreements with Wisconsin Electric to Wisconsin Public Power Incorporated ("WPPI"), a bank power supply municipal electric company created under Wisconsin law. The assignment agreements are due to become effective on November 1, 1981.

Wisconsin Electric requests waiver of the Commission's 60-day notice requirement in order to allow an effective date of October 30, 1981 for the interconnection agreement and an effective date of November 1, 1981 for the assignment agreements.

Copies of this filing have been served on the Cities and the Public Service Commission of Wisconsin.

Any person wishing to be heard or to protest said application should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 14, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

[Docket No. CP80-503-004]

Arkansas Louisiana Gas Co.; Petition To Amend

November 27, 1981.

Take notice that on November 4, 1981, Arkansas Louisiana Gas Company (Petitioner), P.O. Box 21734, Shreveport, Louisiana 71151, filed in Docket No. CP80-503-004 a petition to amend the order issued April 27, 1981, as amended, in the instant docket pursuant to section 7(c) of the Natural Gas Act so as to authorize the construction and operation of 11 additional rural taps and appurtenant facilities on its interstate system to effect deliveries of natural gas for direct sales, all as more fully set forth in the petition to amend which is on file with the Commission and open to public inspection.

Petitioner states that it is primarily in the business of selling gas at retail to all customers within ecomomic reach of its facilities in its service areas in the several states it serves. Petitioner avers that although its pipelines from the field to its distribution systems are certificated by the Commission under the Natural Gas Act there are persons who live outside of Petitioner's distribution systems and along its pipelines who request gas service. Petitioner submits that it was authorized by order issued April 27, 1981, in the instant docket to install 80 tap points to effect retail sales to customers in the vicinity of jurisdictional lines. Petitioner maintains that by order issued September 16, 1981, Petitioner was authorized to add additional tap points and facilities.

Petitioner now proposes to add 11 additional tap points and facilities to effect retail sales from jurisdictional lines as follows:

Arkansas

Pete Hearn, Macedonia, AR
O. V. Woodrome, Marianna, AR
W. H. Gerrard Farms, Marianna, AR
City Office, Marianna, AR

Louisiana

Dr. Michael L. Barrington, Stonewall, LA
Pearlie C. Turner, Plain Dealing, LA
William T. Quirk, Shreveport, LA
St. Divine Baptist Church, Minden, LA

Oklahoma

Eberle Oil Processing Co., Ada, OK
Cecil Clovis Swindell, Coalgate, OK

Texas

Edener Deadmon, Hallsville, TX

Petitioner asserts that for an average residential customer in this area peak day sales are estimated at 1 Mcf and average day sales at 0.3 Mcf. Petitioner explained that for an average commercial customer peak day sales are estimated at 3 Mcf and average day sales at 1.1 Mcf. It is stated that gas supply for these customers would be from Petitioner's general system supply.

The cost of a typical tap and related facilities is estimated to be approximately $890 which would be financed through funds on hand, it is submitted.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before December 23, 1981, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

[Docket No. ER82-102-000]

Central Illinois Public Service Co.; Filing

November 27, 1981.

The filing Company submits the following:

Take notice that on November 17, 1981, Central Illinois Public Service Company (CIPS) tendered for filing a proposed new agreement for the purchase of firm power by the City of Flora from CIPS through a third delivery point.

Rate W-2 under which the City of Flora is billed was filed with the Commission on May 28, 1980.

A copy of the filing was sent to the City of Flora and the Illinois Commerce Commission.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 14, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

BILLING CODE 6717-01-M

[Docket No. ER82-101-000]

The Cleveland Electric Illuminating Co.; Filing

November 27, 1981.

The filing company submits the following:

Take notice that on November 16, 1981, The Cleveland Electric Illuminating Company (CEI) tendered for filing an executed Service Agreement and Exhibits A and B thereto, providing for transmission by CEI of approximately 30 MW of power from the 345 kv interconnection point on CEI's Juniper—Canton Line with the Ohio Power Company to the City of Cleveland, Ohio (City) in accordance with the terms and conditions of CEI's FERC Transmission Service Tariff.

CEI has requested waiver of the FERC's 60-day notice requirement in order to permit commencement of transmission service on November 1, 1981.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 14, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

BILLING CODE 6717-01-M

[Project No. 4632]

Clifton Power Corp.; Application for Short-Form License

November 30, 1981.

Take notice that Clifton Power Corporation (Applicant) filed on May 7, 1981, an application for a license [pusuant to the Federal Power Act, 16 U.S.C. 791(a)–825(r)] for continued operation of a water power project to be known as Clifton Mills No. 1, Project No. 4632. The project would be located on the Pacolet River near Clifton in Spartanburg County, South Carolina. Correspondence with the Applicant should be directed to: Charles B. Mierek, P.E., Cortland Associated, Inc., 838 Arlington Drive, Tucker, Georgia 30084.

Project Description—The existing project consists of: (1) An existing concrete slab and buttress type dam approximately 175 feet long and 16 feet high with three tainer gates each 16.5 feet high by 25 feet wide; (2) an existing reservoir with a surface area of 15 acres with a maximum storage capacity of 150 acre-feet at a normal pool elevation of 594 feet msl; (3) an existing headworks structure approximately 100 feet long containing three vertical type wooden gates approximately 12 feet wide by 12 feet high; (4) an existing powerhouse located approximately 25 feet downstream of the dam, containing two generating units with a capacity of 800 kW; (5) an existing 12.47 kV transmission line; and (6) appurtenant facilities. The project would be operated on a run-of-river basis.

Purpose of Project—All project energy produced will be sold to the Duke Power Company for marketing to the residents and establishments of the local area. The average annual generation is expected to be 5,120 MWh.

Agency Comments—Federal, State, and local agencies that receive this notice through direct mailing from the Commission are requested to provide comments pursuant to the Federal Power Act, the Fish and Wildlife Coordination Act, the Endangered Species Act, the National Historic Preservation Act, the Historical and Archeological Preservation Act, the National Environmental Policy Act, Pub. L. No. 88-29, and other applicable statutes. No other formal requests for comments will be made.

Comments should be confined to substantive issues relevant to the issuance of a license. A copy of the application may be obtained directly from the Applicant. If an agency does not file comments within the time set below, it will be presumed to have no comments.

Competing Applications—Anyone desiring to file a competing application must submit to the Commission, on or before January 26, 1982, either the competing application itself or a notice of intent to file a competing application. Submission of a timely notice of intent allows an interested person to file the competing application no later than January 26, 1982. A notice of intent must conform with the requirements of 18 CFR 4.33(b) and (c), (as amended 44 FR 61328, October 25, 1979). A competing application must conform with the requirements of 18 CFR 4.33(a) and (d), (as amended, 44 FR 61328, October 25, 1979).

Comments, Protests, or Petitions To Intervene—Anyone desiring to be heard or to make any protest about this application should file a petition to intervene or a protest with the Federal Energy Regulatory Commission, in accordance with the requirements of the Commission's Rules of Practice and Procedure, 18 CFR 1.8 or 1.10 (1979). Comments not in the nature of a protest may also be submitted by conforming to the procedures specified in § 1.10 for protests. In determining the appropriate action to take, the Commision will consider all protests or other comments filed, but a person who merely files a protest or comments does not become a party to the proceeding. To become a party, or to participate in any hearing, a person must file a petition to intervene in accordance with the Commission's Rules. Any comments, protests, or petition to intervene must be filed on or before January 26, 1982. The Commission's address is: 825 North

Capitol Street NE., Washington, D.C. 20426. The application is on file with the Commission and is available for public inspection.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

[Docket No. ER82-100-000]

Duke Power Co.; Filing

November 27, 1981.

The filing Company submits the following:

Take notice that Duke Power Company (Duke Power) tendered for filing on November 16, 1981 a supplement to the Company's Electric Power Contract with Davidson Electric Membership Corporation, Inc. Duke Power states that this contract is on file with the Commission and has been designated Duke Power Company Rate Schedule FERC No. 134.

Duke Power further states that the Company's contract supplement, made at the request of the customer and with agreement obtained from the customer, provides for the following increase in designated demand: Delivery Point No. 8 from 1,400 KW to 2,200 KW.

Duke Power indicates that this supplement also includes an estimate of sales and revenue for twelve months immediately preceding and for the twelve months immediately succeeding the effective date. Duke Power proposes an effective date of January 19, 1982.

According to Duke Power copies of this filing were mailed to Davidson Electric Membership Corporation, Inc., and the North Carolina Utilities Commission.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 14, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

[Docket No. ER82-106-000]

Duke Power Co.; Notice of Supplement to Electric Power Contract

November 27, 1981.

The filing Company submits the following:

Take notice that Duke Power Company (Duke Power) tendered for filing on November 18, 1981, a supplement to the Company's Interconnection Agreement with Carolina Power & Light Company. Duke Power states that this Agreement is on file with the Commission and has been designated Duke Power Company Rate Schedule FERC No. 10.

Duke Power further states that the Company's contract supplement, made at the request of the customer and with agreement obtained from the customer, provides for an increase in the transformer capacity in Duke's Pisgah Tie Substation.

Duke Power proposes an effective date of December 1, 1981.

According to Duke Power copies of this filing were mailed to the North Carolina Utilities Commission and Carolina Power & Light Company.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 14, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

[Docket No. ES82-18-000]

Gulf States Utilities Co.; Application

November 27, 1981.

Take notice that on November 16, 1981, Gulf States Utilities Company, (Applicant), filed an Application seeking an order pursuant to Section 204 of the Federal Power Act, authorizing the issuance of unsecured short-term promissory Notes not to exceed $300,000,000 principal amount in the aggregate outstanding at any time. The notes would be issued at various times with a final maturity date of not later than December 31, 1983.

Any person desiring to be heard or to make any protest with reference to said Application should, on or before December 15, 1981, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, petitions or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). The Application is on file and available for public inspection.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-34605 Filed 12-1-81; 8:45 am]

BILLING CODE 6717-01-M

[Project No. 5483-000]

Homestake Consulting & Investment Inc.; Application for Preliminary Permit

November 30, 1981.

Take notice that Homestake Consulting & Investments, Inc. (Applicant) filed on October 13, 1981, an application for preliminary permit (pursuant to the Federal Power Act, 16 U.S.C. 791(a)–825(r)) for Project No. 5483 to be known as the Flat Creek Water Power Project located on Flat Creek near Eureka in Lincoln County, Montana. The application is on file with the Commission and is available for public inspection. Correspondence with the Applicant should be directed to: Mr. William H. Delp, II, Independent Power Developers, Inc., P.O. Box 1467, Noxon, Montana 59853.

Project Description—The project would consist of: (1) A 3-foot high diversion structure with 10-square foot intake orifice; (2) a 4300-foot long, 10-inch diameter penstock; (3) a powerhouse with total installed capacity of 150 kW and (4) a 9.4-mile long, 5-kV transmission line from the powerhouse to an existing Lincoln Electric Corporation transmission line. The Applicant estimates that the average annual energy production would be 0.701 million kWh.

Proposed Scope of Studies Under Permit—A preliminary permit, if issued, does not authorize construction. The Applicant seeks issuance of a preliminary permit for a period of 36 months during which time it would conduct technical, environmental and economic analysis; and prepare an FERC license application. No new roads would be needed for conducting these studies. The Applicant estimates that the cost of undertaking these studies would be $5200.

Competing Applications—Anyone desiring to file a competing application must submit to the Commission, on or before January 29, 1982, either the competing application itself (See 18 CFR 4.33 (a) and (d) (1980)) or a notice of intent (See 18 CFR 4.33 (b) and (c) (1980)) to file a competing application. Submission of a timely notice of intent allows an interested person to file an acceptable competing application no later than the time specified in § 4.33(c).

Agency Comments—Federal, State, and local agencies are invited to submit comments on the described application. (A copy of the application may be obtained by agencies directly from the Applicant). If an agency does not file comments within the time set below, it will be presumed to have no comments.

Comments, Protests, or Petitions To Intervene—Anyone may submit comments, a protest, or a petition to intervene in accordance with the requirements of the Rules of Practice and Procedure, 18 CFR 1.8 or 1.10 (1980). In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a petition to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protest or petition to intervene must be received on or before January 29, 1982.

Filing and Service of Responsive Documents—Any filings must bear in all capital letters the title "COMMENTS", "NOTICE OF INTENT TO FILE COMPETING APPLICATION", "COMPETING APPLICATION", "PROTEST", or "PETITION TO INTERVENE", as applicable, and the Project Number of this notice. Any of the above named documents must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, Room 208 RB at the above address. A copy of any notice of intent, competing application or petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

[Docket No. ES82-22-000]

Idaho Power Co.; Application

November 25, 1981.

Take notice that on November 19, 1981, Idaho Power Company (Applicant), filed an Application with the Federal Energy Regulatory Commission, pursuant to section 204 of the Federal Power Act proposing to enter into lease transaction whereby it will transfer investment tax credits and cost recovery allowances (depreciation) associated with the Company's 50% interest in Unit No. 1 of the North Valmy Steam Electric Generating Plant in accordance with section 168(f)(8) of the Internal Revenue Code.

Any person desiring to be heard or to make any protest with reference to said Application should, on or before December 2, 1981, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, petitions or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). The Application is on file and available for public inspection.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-34604 Filed 12-1-81; 8:45 am]

BILLING CODE 6717-01-M

[Docket No. ER82-96-000]

Illinois Power Co.; Filing

November 27, 1981.

The filing Company submits the following:

Take notice that Illinois Power Company ("the Company") on November 13, 1981, tendered for filing proposed changes in the following schedules:

Rate Schedule FERC No. 26, applicable to the Village of Ladd
Rate Schedule FERC No. 28, applicable to the City of Oglesby
Rate Schedule FERC No. 30, applicable to Cedar Point Light and Water Company

The proposed changes would increase revenues from jurisdictional sales and service by approximately $103,000 based on the twelve month period ending June 30, 1982.

The Company states that with the present rates it would earn an adequate rate of return on electric sales to these customers during the twelve months ending June 30, 1982. Continuing increases in cost of capital, labor, materials and supplies are expected to further reduce the Company's earnings. The Company states that the electric rate changes made by this filing are necessary to more fully provide compensation for these increasing costs. The Company proposes the increased rates become effective on November 15, 1981 as agreed to by the Company and each of its three Full Requirements Wholesale customers.

Copies of this filing were served upon the Company's electric full requirements wholesale customers and the Illinois Commerce Commission, Springfield, Illinois.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such comments or protests should be filed on or before December 14, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

[Docket No. ES82-19-000]

Iowa Power and Light Co.; Application

November 27, 1981.

Take notice that on August 19, 1981, Iowa Power and Light Company, (Applicant) of Des Moines, Iowa, filed an Application, pursuant to Section 204 of the Federal Power Act, seeking authority to negotiate privately with respect to the guaranty of securities (Eurobonds) to be issued to overseas holders.

Any person desiring to be heard or to make any protest with reference to said Application should, on or before December 15, 1981, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, petitions or protests in accordance with the requirements of the Commission's rules

V 46 / 231 DEC 2 81 UMI

of practice and procedure (18 CFR 1.8 or 1.10). The Application is on file and available for public inspection.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-34605 Filed 12-1-81; 8:45 am]

BILLING CODE 6717-01-M

[Docket No. TC81-5-000]

Mid Louisiana Gas Co.; Tariff Filing

November 27, 1981.

Take notice that on November 18, 1981, Mid Louisiana Gas Company (Mid Louisiana), 21st Floor, Lykes Center, 300 Poydras Street, New Orleans, Louisiana 70130, filed in Docket No. TC81-5-000 tariff sheets pursuant to Section 4 of the Natural Gas Act to be effective January 1, 1982, amending the index of entitlements contained in its present interim curtailment plan which comprises Section B of Mid Louisiana's FERC Gas Tariff, First Revised Volume No. 1, and extending the plan beyond its current expiration date of December 31, 1981.

To amend the index of entitlements appearing at § 13.9 of its currently effective curtailment plan, Mid Louisiana submits for filing the following sheets:

5th Revised Sheet No. 23f, superseding 4th Revised Sheet No. 23f
5th Revised Sheet No. 239, superseding 4th Revised Sheet No. 239
3rd Revised Sheet No. 23h, superseding 2nd Revised Sheet No. 23h

Mid Louisiana also proposes to amend § 13.13 by submitting for filing the following tariff sheet:

3rd Revised Sheet No. 23j, superseding 2nd substitute 2nd Revised Sheet No. 23j.

Mid Louisiana states that the purposes of this filing are to reflect more accurately (1) actual consumption levels of Mississippi Gas Corporation; (2) actual consumption level during the summer season of Peck Gas Company and to leave less of a margin for error in the summer entitlement level for Peck Gas Company; (3) the seasonability of Anderson's Minnow Farm's consumption levels since its peak period for Priority 2 consumption has been lengthened by one month; and (4) the minimum requirements of International Paper Company which has shifted 1,600 Mcf of gas daily from priority 6 to priority 3. By amending § 13.13, Mid Louisiana proposes to avoid expiration of the current curtailment plan on January 1, 1982, to extend the plan, and to remove the interim status of the plan by deleting "December 31, 1981" from the present written § 13.13.

Any person desiring to be heard or to make any protests with reference to said tariff sheet filings should on or before December 15, 1981, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-34606 Filed 12-1-81; 8:45 am]

BILLING CODE 6717-01-M

[Docket No. ER82-99-000]

Missouri Public Service Co.; Tariff Change

November 27, 1981.

Take notice that Missouri Public Service Company, on November 16, 1981, tendered for filing proposed changes in its FERC Electric Service Tariffs for wholesale firm power service to supersede and replace those rate provisions of contract rate schedules presently in effect and on file with the Commission which relate to six wholesale customers located in the state of Missouri as follows:

Wholesale customer	Superseding and replacing
1. City of El Dorado Springs	Supplements No. 8 and 9 to Supplement No. 2 to FPC Rate Schedule No. 35
2. City of Galt	Supplements No. 8 and 9 to FERC Rate Schedule No. 38
3. City of Harrisonville	Supplements No. 8 and 9 to FERC Rate Schedule No. 39
4. City of Liberal	Supplements No. 8 and 9 to Supplement No. 2 to FPC Rate Schedule No. 36
5. City of Pleasant Hill	Supplements No. 8 and 9 to Supplement No. 2 to FPC Rate Schedule No. 34
6. City of Rich Hill	Supplements No. 8 and 9 to Supplement No. 2 to FPC Rate Schedule No. 37

The proposed changes would increase revenues from jurisdictional sales and service by $595,812 based on the adjusted twelve month period ended June 30, 1981. The purposes of filing the proposed Municipalities-Resale Rate Schedule are:

(1) To cover the increased cost of service including fuel, labor, materials, cost of money, taxes, and environmental requirements.

(2) To increase revenues to produce a rate of return of percent on the Company's investment with the proposed increase applied to the six locations subject to unilateral rate filings. Company earned 3.29 percent rate of return from the Municipalities-Resale customers for Period I for the adjusted test year ending June 30, 1981.

(3) To encourage municipalities to improve their load factor in a manner that will help improve the Company's load factor thus tending to lower the system cost per KWH. A summer-winter differential has been retained for this specific purpose.

(4) To revise the fuel adjustment rider base cost through a roll-in to base rate energy charges.

Missouri Public Service Company requests an effective date of January 15, 1982.

Copies of the filing were served upon the six Municipalities-Resale customers whose rates and charges would be affected thereby, and upon the Public Service Commission of Missouuri.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, DC 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 14, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

[Docket No. ER82-107-000]

Niagara Mohawk Power Corp.; Filing

November 27, 1981.

The filing Company submits the following:

Take notice that Niagara Mohawk Power Corporation (Niagara), on November 18, 1981, tendered for filing as a rate schedule, an agreement between Niagara and the Vermont Public Power Supply Authority (VPPSA) dated October 1, 1981.

The agreement provides for the purchase for resale to Vermont Public Power Supply Authority of short term

power and associated energy from Ontario Hydro and to provide transmission service for the delivery of said short term power and associated energy. Niagara is requesting an effective date as of October 1, 1981.

Copies of the filing were served upon the following:

Vermont Public Power Supply Authority, P.O. Box C–5515, South Burlington, VT 05401
Vermont Electric Power Co., Inc., P.O. Box 548, Rutland, VT 05701
Public Service Commission, State of New York, Three Rockefeller State Plaza, Albany, NY 12223

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capital Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 14, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717–01–M

[Docket No. ES82–20–000]

Pacific Power and Light Co.; Application

November 27, 1981.

Take notice that on November 18, 1981, Pacific Power and Light Company, (Applicant), filed an Application with the Federal Energy Regulatory Commission pursuant to section 204 of the Federal Power Act, seeking an order authorizing it to enter into a Loan Agreement with the City of Forsyth, Montana pursuant to which Applicant will incur the obligation to make payments equal to the required payment of the principal and interest of Floating Rate Monthly Demand Pollution Control Revenue Bonds not to exceed $45,000,000 in aggregate principal amount, to be issued by the City, pursuant to an Indenture of Trust to be entered into between the City and the First National Bank of Chicago as Trustee.

Any person desiring to be heard or to make any protest with reference to said Application should, on or before December 7, 1981, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, petitions or protests in accordance with the requirements of the Commission's rules of practice and procedures (18 CFR 1.8 or 1.10). The Application is on file and available for public inspection.

[Docket No. ER82–104–000]

Public Service Company of Colorado; Filing

November 27, 1981.

The filing Company submits the following:

Take notice that on November 18, 1981, the Public Service Company of Colorado (PSCC) tendered for filing copies of proposed revised rate schedules increasing the rates charged by the Company under the following FERC Electric Rate Schedules of the Company:

1. FERC Rate Schedule No. 3, City of Aspen
2. FERC Rate Schedule No. 6, Town of Lyons
3. FERC Rate Schedule No. 9, Home Light and Power Company
4. FERC Rate Schedule No. 11, City of Glenwood Springs
5. FERC Rate Schedule No. 12, Colorado-Ute Electric Association, Inc.
6. FERC Rate Schedule No. 13, Central Telephone and Utilities Corporation, Southern Colorado Power Division
7. FERC Rate Schedule No. 15, City of Burlington
8. FERC Rate Schedule No. 17, Town of Center
9. FERC Rate Schedule No. 20, Town of Julesbury

PSCC proposes an effective date of January 17, 1982, and therefore requests that the Commission waive its notice requirements.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 14, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

BILLING CODE 6717–01–M

[Docket No. ER82–105–000]

Sierra Pacific Power Co.; Filing

November 27, 1981.

The filing Company submits the following:

Take notice that on November 16, 1981, Sierra Pacific Power Company ("Sierra Pacific") tendered for filing a notice of change in rates and charges in Rate Schedule R of its FERC Electric Tariff, Volume 1. Based upon the 12-month estimated test period ending December 31, 1982, Sierra Pacific estimates that the total effect of the changes in rates and charges would increase annual revenues from FERC jurisdictional sales and services by approximately $2,515,000 for Phase I rates and an additional $452,000 representing Phase II rates.

The proposed effective date for both the Phase I and Phase II rates is January 17, 1982. Sierra Pacific requests that Phase I rates be accepted without suspension or that they be suspended for no longer than one day. If Phase I rates are permitted to become effective after a suspension period of no longer than one day, Sierra Pacific states that it would not oppose a maximum five-month suspension of the Phase II rates. If the Commission does not permit the Phase I rates to become effective as requested, Sierra Pacific states that there is no purpose for the Phase I rates, in which case the Phase I rates should be deemed withdrawn and the Phase II rates would be the rates to become effective after the suspension period.

The reason for the proposed increase in rates and charges is to compensate Sierra Pacific for increases in labor costs, maintenance and operating expenses, costs associated with rate base additions, financing costs, and other costs incurred since the last general rate increase based on the 12 months ending June 30, 1978, test period.

Copies of the filing were served upon Sierra Pacific's jurisdictional customers, the California Public Utilities Commission and the Nevada Public Service Commission.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825

North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 14, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make protestants parties to the proceedings. Any persons wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Singer-Fleischaker Oil Operating Co.; Application for Adjustment

November 27, 1981

On November 9, 1981, Singer-Fleischaker Oil Operating Company, P.O. Box 663, Oklahoma City, Oklahoma 73101 (Applicant), filed with the Federal Energy Regulatory Commission (Commission) an application for an adjustment under § 271.805(a) of the Commission's regulations wherein Applicant sought continuance of the contract price established between it, as Seller, and Delhi Gas Pipeline Corporation as buyer (i.e., continuance of the section 102 price under the Natural Gas Policy Act of 1978 on a well disqualified for Section 108 status).

The procedures applicable to the conduct of this adjustment proceeding are found in § 1.41 of the Commission's Rules of Practice and Procedure, Order No. 24 issued March 22, 1979.

Any person desiring to participate in this adjustment proceeding shall file a petition to intervene in accordance with the provisions of § 1.41. All petitions to intervene must be filed on or before December 17, 1981.

BILLING CODE 6717-01-M

[Docket No. CP82-40-000]

Southern Natural Gas Co.; Application

December 1, 1981.

Take notice that on October 23, 1981, Southern Natural Gas Company (Applicant), P.O. Box 2563, Birmingham, Alabama 35202, filed in Docket No. CP82-40-000 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the transportation of natural gas for Tennessee Gas Pipeline Company, a Division of Tenneco Inc. (Tennessee), all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that pursuant to the terms of a gas transportation agreement dated August 14, 1981, it would transport on an interruptible basis up to 3.5 billion Btu of natural gas per day or greater quantity as it may accept which Tennessee has arranged to purchase from Tenneco Oil Company in Main Pass Block 311, offshore Louisiana. It is further stated that Tennessee would deliver this gas to Applicant at the point where Applicant and Tennessee's jointly-owned 6⅝-inch pipeline interconnects with Applicant's 20-inch pipeline in Main Pass Block 311, From this point, Applicant would transport Tennessee's gas to the point of interconnection between Applicant's and Tennessee's facilities in Patterson Field, St. Mary Parish, Louisiana, it is stated.

Applicant proposes to charge Tennessee a volume charge of 23.3 cents multiplied by the total volume of gas delivered by Tennessee less quantities retained by Applicant for system fuel and uses with a provision for a minimum monthly bill. Applicant asserts it would retain 1.0 percent of the quantity received for system fuel and uses.

The proposal would allow Tennessee to take delivery of the subject gas without having to construct additional facilities, it is stated.

Any person desiring to be heard or to make any protest with reference to said application should on or before December 18, 1981, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to jurisdiction conferred upon the Federal Energy Regulatory Commission by sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

[Docket No. GP82-6]

State of Pennsylvania; Request for Withdrawal of Final Well Category Determination

Issued: November 27, 1981.

In the matter of State of Pennsylvania, section 103 NGPA Determination, J & J

Enterprises, Inc., Student Coop Assoc. #3 Well, JD No. 80–16246, Pa. Docket No. 3931.

On August 6, 1981, J & J Enterprises, Inc. (J & J) filed with the Federal Energy Regulatory Commission (Commission) an application to permit withdrawal of a final well category determination for the Student Coop Assoc. No. 3 well pursuant to the Commission's authority under the Natural Gas Policy Act of 1978 (NGPA), 15 U.S.C. 3301–3432 (Supp. II 1978).

The Commission received an affirmative determination from the Pennsylvania Department of Environmental Resources (PA. DER) that the above-referenced well qualifies as a new, onshore production well under section 103 of the NGPA on February 20, 1980. This determination became final on April 5, 1980 pursuant to § 275.202(a) of the Commission's regulations (18 CFR 275.202(a)). Pa. DER made the affirmative section 103 determination based, in part, on J & J's statement that the subject well was not located within 1000 feet of another well since Pa. DER regulations define a proration unit for a well drilled in a shallow reservoir as the area within a circle having a radius of at least 1000 feet from the location of the subject well. It has since been discovered that the subject well is within 600 feet of an existing well.

With respect to the question of refunds arising out of J & J's request for withdrawal of the subject final well category determination, notice is hereby given that the question of whether refunds, plus interest computed under 18 CFR 154.102(d), will be required is a matter subject to the review and final decision of the Commission.

Any person desiring to be heard or to protest this petition should file, within 30 days after publication of this notice in the **Federal Register**, with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, a protest or a petition to intervene in accordance with § 1.8 or § 1.10 of the Commission's rules of practice and procedure. All protests filed with the Commission will be considered, but will not make the protestants parties to the proceeding. Any person wishing to become a party to the proceeding or to participate as a party in any hearing must file a petition to intervene in accordance with the Commission's Rules.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81–34609 Filed 12–1–81; 8:45 am]

BILLING CODE 6717–01–M

[Docket No. CP82–38–000]

Tennessee Gas Pipeline Company, a Division of Tenneco Inc.; Application

December 1, 1981

Take notice that on October 23, 1981, Tennessee Gas Pipeline Company, a Division of Tenneco Inc. (Applicant), P.O. Box 2511, Houston, Texas 77001, filed in Docket No. CP82–38–000 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing Applicant to make interruptible sales of natural gas to its existing on-system customers under the provisions of its proposed revised Rate Schedule R, all as more fully set forth in the application which is on file with the Commission and open to inspection.

It is stated that from time to time Applicant is faced with supplies of natural gas in excess of its current demand for natural gas because of the combination of high rates of deliverability from many of the reserves available to Applicant and the obligation to receive gas at high daily rates to avoid the take-or-pay obligations in its gas purchase contracts. Applicant, therefore, requests blanket authorization to make interruptible sales of natural gas to its existing on-system customers under its Rate Schedule R. The proposed sales, it is asserted, would provide Applicant's customers with more flexibility in meeting their requirements and the ability to utilize more fully supplies which are available from Applicant.

Any person desiring to be heard or to make any protest with reference to said application should on or before December 18, 1981, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene, or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to jurisdiction conferred upon the Federal Energy Regulatory Commission by sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717–01–M

[Docket No. CP79–230–003]

Transcontinental Gas Pipe Line Corp.; Petition To Amend

December 1, 1981

Take notice that on October 23, 1981, Transcontinental Gas Pipe Line Corporation (Petitioner), P.O. Box 1396, Houston, Texas 77251, filed in Docket No. CP79–230–003 a petition to amend the order issued on June 7, 1979, as amended, in the instant docket pursuant to section 7(c) of the Natural Gas Act so as to authorize the transportation and delivery of natural gas to El Paso Natural Gas Company (El Paso) at an additional point, all as more fully set forth in the petition to amend which is on file with the Commission and open to public inspection.

Petitioner states that by order issued June 7, 1979, as amended, it was authorized to transport for El Paso up to 60,000 Mcf of natural gas per day which El Paso purchases in various blocks in the High Island Area, offshore Texas, and which is received by Petitioner at the interconnection of its Southwest Louisiana Gathering System and the tailgate of the separation plant of U–T Offshore System near Johnson's Bayou, Cameron Parish, Louisiana. Petitioner further states that it delivers or causes to be delivered thermally equivalent quantities to Houston Pipe Line Company (Houston) and/or Houston's affiliate Oasis Pipe Line Company at the point of connection between the facilities of Petitioner and the Katy Plant of Exxon Company, U.S.A. in Waller County, Texas, and the point of connection between the facilities of Petitioner and Houston near Fulshear, Fort Bend County, Texas.

It is stated that pursuant to an amendment dated March 6, 1980, to the gas transportation agreement Petitioner is presently delivering a portion of the transportation quantity for the account of El Paso at a third delivery point, the existing interconnection between Petitioner and Houston near Bammel, Harris County, Texas. Petitioner proposes herein to include this delivery point on a permanent basis.

Petitioner states that no additional facilities are required to effectuate the transportation of natural gas proposed herein.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before December 18, 1981, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

[Docket No. ER82-103-000]

The Washington Water Power Co.; Filing

November 27, 1981.

The filing Company submits the following:

Take notice that on November 17, 1981, The Washington Water Power Company (Washington) tendered for filing copies of a service schedule applicable to what Washington refers to as the First Amendment to the Intercompany Pool Agreement (Revised). Revisions have been made to portions of Part III, section 8 to change the rate for nonfirm energy transfers.

Washington requests that the requirements of prior notice be waived and the effective date be made retroactive to September 1, 1981, adding that there would be no effect upon purchasers under other rate schedules.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, DC 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 14, 1981. Protests will be considered in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

[Project No. 5544-000]

Stephen J. Gaber; Application for Preliminary Permit

November 27, 1981.

Take notice that Stephen J. Gaber (Applicant) filed on October 20, 1981, an application for preliminary permit (pursuant to the Federal Power Act, 16 U.S.C. 791(a)–825(r)) for Project No. 5544 to be known as the Tomyhoi Creek Hydroelectric Project located on Tomyhoi Creek within Mt. Baker National Forest on lands owned by the U.S. Forest Service in Whatcom County, Washington. The application is on file with the Commission and is available for public inspection. Correspondence with the Applicant should be directed to: Mr. Stephen J. Gaber, 2551 Mt. Baker Hiway, Bellingham, Washington 98225.

Project Description—The project would consist of: (1) a 10-foot high, 65-foot long diversion structure; (2) a 36-inch diameter, 12,000-foot long penstock; and (3) a powerhouse containing a single generating unit with a rated capacity of 3.2 MW. Applicant estimates the average annual energy output to be 13 million kWh.

Proposed Scope of Studies Under Permit—A preliminary permit, if issued, does not authorize construction. Applicant has requested a 36-month permit to prepare a definitive project report including preliminary designs, results of geological, environmental, and economic feasibility studies. The cost of the above activities, along with the preparation of an environmental impact report, obtaining agreements with the U.S. Forest Service and other Federal, State and local agencies is estimated by the Applicant to be $281,000.

Competing Applications—Anyone desiring to file a competing application must submit to the Commission, on or before January 27, 1982, either the competing application itself (See 18 CFR 4.33 (a) and (d) (1980)) or a notice of intent (See 18 CFR 4.33 (b) and (c) (1980)) to file a competing application. Submission of a timely notice of intent allows an interested person to file an acceptable competing application no later than the time specified in § 4.33(c).

Agency Comments—Federal, State, and local agencies are invited to submit comments on the described application. (A copy of the application may be obtained by agencies directly from the Applicant.) If an agency does not file comments within the time set below, it will be presumed to have no comments.

Comments, Protests, or Petitions To Intervene—Anyone may submit comments, a protest, or a petition to intervene in accordance with the requirements of the Rules of Practice and Procedure, 18 CFR 1.8 or 1.10 (1980). In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a petition to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protests, or petitions to intervene must be received on or before January 27, 1982.

Filing and Service of Responsive Documents—Any filings must bear in all capital letters the title "COMMENTS", "NOTICE OF INTENT TO FILE COMPETING APPLICATION", "COMPETING APPLICATION", "PROTEST", or "PETITION TO INTERVENE", as applicable, and the Project Number of this notice. Any of the above named documents must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, Room 208 RB at the above address. A copy of any notice of intent, competing application, or petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-34574 Filed 12-1-81; 8:45 am]

BILLING CODE 6717-01-M

[Project No. 5543-000]

Stephen J. Gaber; Application for Preliminary Permit

November 27, 1981.

Take notice that Stephen J. Gaber (Applicant) filed on October 20, 1981, an application for preliminary permit (pursuant to the Federal Power Act, 16 U.S.C. 791(a)–825(r)) for Project No. 5543 to be known as the Silesia Creek Hydroelectric Project located on Silesia Creek and unnamed tributaries and West Fork of Silesia Creek and unnamed tributaries on U.S. Forest Service Land within Mt. Baker National Forest Service in Whatcom County, Washington. The application is on file with the Commission and is available for public inspection. Correspondence with the Applicant should be directed to: Mr. Stephen J. Gaber, 2551 Mt. Baker Hiway, Bellingham, Washington 98225.

Project Description—The project would consist of: (1) seven 10-foot high, 65-foot long diversion structures; (2) a 96-inch diameter, 23,000-foot long pipeline with branch pipelines ranging 18 inches to 60 inches in diameter, and (3) a powerhouse containing a single generating unit with a rated capacity of 15 MW. Applicant estimates the average annual energy production would be 60 million kWh.

Proposed Scope of Studies Under Permit—A preliminary permit, if issued, does not authorize construction. Applicant has requested a 36-month permit to prepare a definitive project report including preliminary designs, results of geological, environmental, and economic feasibility studies. The cost of the above activities, along with the preparation of an environmental impact report, obtaining agreements with the U.S. Forest Service and other Federal, State and local agencies, preparing a license application, conducting final field surveys, and preparing designs is estimated by the Applicant to be $281,000.

Competing Applications—Anyone desiring to file a competing application must submit to the Commission, on or before January 27, 1982, either the competing application itself (See 18 CFR 4.33(a) and (d) (1980)) or a notice of intent (See 18 CFR 4.33(b) and (c) (1980)) to file a competing application. Submission of a timely notice of intent allows an interested person to file an acceptable competing application no later than the time specified in § 4.33(c).

Agency Comments—Federal, State, and local agencies are invited to submit comments on the described application. (A copy of the application may be obtained by agencies directly from the Applicant.) If an agency does not file comments within the time set below, it will be presumed to have no comments.

Comments, Protests, or Petitions To Intervene—Anyone may submit comments, a protest, or a petition to intervene in accordance with the requirements of the Rules of Practice and Procedure, 18 CFR 1.8 or 1.10 (1980). In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a petition to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protests, or petitions to intervene must be received on or before January 27, 1982.

Filing and Service of Responsive Documents—Any filings must bear in all capital letters the title "COMMENTS", "NOTICE OF INTENT TO FILE COMPETING APPLICATION", "COMPETING APPLICATION", "PROTEST", or "PETITION TO INTERVENE", as applicable, and the Project Number of this notice. Any of the above named documents must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, Room 208 RB at the above address. A copy of any notice of intent, competing application, or petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

[Project No. 5478-000]

Homestake Consulting & Investments, Inc.; Application for Preliminary Permit

November 27, 1981.

Take notice that Homestake Consulting & Investments, Inc. (Applicant) filed on October 13, 1981, an application for preliminary permit (pursuant to the Federal Power Act, 16 U.S.C. 791(a)–825(r)) for Project No. 5478 to be known as the Boulder Creek Hydroelectric Project located on Boulder Creek in Lincoln County, Montana. The application is on file with the Commission and is available for public inspection. Correspondence with the Applicant shoud be directed to: Mr. William H. Delp, II, Independent Power Developers, Inc., P.O. Box 1467, Noxon, Montana 59853.

Project Description—The proposed project would consist of: (1) diversion structure less than 3 feet high with negligible storage capacity; (2) a penstock 4,800 feet long; (3) a powerhouse containing five turbine generators with a total capacity of 750 kW and annual energy production of 3.2 GWh; (4) transmission line, and (5) appurtenant facilities. Generated power will be sold to Lincoln Electric Cooperative or a competitive utility. The project would lie within Kootenai National Forest.

Proposed Scope of Studies Under Permit—A preliminary permit, if issued, does not authorize construction. The Applicant seeks issuance of preliminary permit for a term of 36 months, during which time engineering, economic and environmental studies will be conducted to ascertain project feasibility and to support application for a license to construct and operate the project. The estimated cost of these activities is $6,594.

Competing Applications—Anyone desiring to file a competing application must submit to the Commission, on or before January 27, 1982, either the competing application itself (see 18 CFR 4.33 (a) and (d) (1980)) or a notice of intent (see 18 CFR 4.33 (b) and (c) (1980)) to file a competing application. Submission of a timely notice of intent allows an interested person to file an acceptable competing application no later than the time specified in § 4.33(c).

Agency Comments—Federal, State, and local agencies are invited to submit comments on the described application. (A copy of the application may be obtained by agencies directly from the Applicant.) If an agency does not file comments within the time set below, it will be presumed to have no comments.

Comments, Protests, or Petitions To Intervene—Anyone may submit comments, a protest, or a petition to intervene in accordance with the requirements of the Rules of Practice and Procedure, 18 CFR 1.8 or 1.10 (1980). In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a petition to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protests, or petitions to intervene must be received on or before January 27, 1982.

Filing and Service of Responsive Documents—Any filings must bear in all

capital letters the title "COMMENTS", "NOTICE OF INTENT TO FILE COMPETING APPLICATION", "COMPETING APPLICATION", "PROTEST", or "PETITION TO INTERVENE", as applicable, and the Project Number of this notice. Any of the above named documents must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, Room 208 RB at the above address. A copy of any notice of intent, competing application, or petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-34576 Filed 12-1-81; 8:45 am]

BILLING CODE 6717-01-M

[Project No. 5554-000]

Hurn Shingle Company, Inc.; Application for Preliminary Permit

November 27, 1981.

Take notice that Hurn Shingle Company, Inc. (Applicant) filed on October 23, 1981, an application for preliminary permit [pursuant to the Federal Power Act, 16 U.S.C. 791(a)-825(r)] for Project No. 5554 to be known as the Iron Mountain Project located on O'Toole Creek, near Concrete, in Skagit County, Washington. The application is on file with the Commission and is available for public inspection. Correspondence with the Applicant should be directed to: Hurn Shingle Company, Inc., 5012 Sauk Valley Road, Concrete, Washington 98237.

Project Description—The proposed project would consist of: (1) a 5-foot high concrete diversion structure; (2) a 2,100-foot long, 24-inch diameter steel penstock; (3) a powerhouse containing an installed capacity of 1.2 MW; and (4) a 3-mile long transmission line. The average annual energy generation is estimated to be 5.26 million kWh.

Proposed Scope of Studies Under Permit—A preliminary permit, if issued, does not authorize construction. Applicant seeks issuance of a preliminary permit for a period of 24 months, during which time it would conduct engineering, economic, environmental, and feasibility studies, and prepare an FERC license application. No new roads would be required to conduct the studies. Applicant proposes to sink test borings at the weir, penstock, and powerhouse sites. Disturbed areas will be restored to the natural state. The cost of the work to be performed under the preliminary permit is $90,000.

Competing Applications—Anyone desiring to file a competing application must submit to the Commission, on or before January 29, 1982, either the competing application itself [See 18 CFR 4.33 (a) and (d) (1980)] or a notice of intent [See 18 CFR 4.33 (b) and (c) (1980)] to file a competing application. Submission of a timely notice of intent allows an interested person to file an acceptable competing application no later than the time specified in § 4.33(c).

Agency Comments—Federal, State, and local agencies are invited to submit comments on the described application. (A copy of the application may be obtained by agencies directly from the Applicant.) If an agency does not file comments within the time set below, it will be presumed to have no comments.

Comments, Protests, or Petitions To Intervene—Anyone may submit comments, a protest, or a petition to intervene in accordance with the requirements of the Rules of Practice and Procedure, 18 CFR 1.8 or 1.10 (1980) In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a petition to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protests, or petitions to intervene must be received on or before January 29, 1982.

Filing and Service of Responsive Documents—Any filing must bear in all capital letters the title "COMMENTS", "NOTICE OF INTENT TO FILE COMPETING APPLICATION", "COMPETING APPLICATION", "PROTEST", or "PETITION TO INTERVENE", as applicable, and the project Number of this notice. Any of the above named documents must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, Room 208 RB at the above address. A copy of any notice of intent, competing application, or petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

[Project No. 5556-000]

Hydro Management, Inc.; Application for Preliminary Permit

November 27, 1981.

Take notice that Hydro Management, Inc. (Applicant) filed on October 22, 1981, an application for preliminary permit [pursuant to the Federal Power Act, 16 U.S.C. 791(a)—825(r)] for Project No. 5556 to be known as the South Fork Woodard Creek Water Power Project located on the South Fork of Woodward Creek in Lake County, Montana. The application is on file with the Commission and is available for public inspection. Correspondence with the Applicant should be directed to: W. H. Edelman, III, President, Route 1, Box 169, Ronan, Montana 59864.

Project Description—The project would consist of: (1) a 3-foot high, 19-foot long diversion dam; (2) a 16-inch diameter, 18,000-foot long penstock; (3) a 11,000-foot long transmission line; and (4) a powerhouse containing a single generating unit with a rated capacity of 1,411 kW. The project would not be located on U.S. Lands. The Applicant estimates that the average annual energy output would be 8,536 MWh.

Proposed Scope of Studies Under Permit—A preliminary permit, if issued, does not authorize construction. Applicant requests a permit for 36-months to prepare a definitive project report including preliminary designs, results of geological, environmental, and economic feasibility studies. The cost of the above activities, along with preparation of an environmental impact report, obtaining agreements with Federal, State and local agencies, preparing a license application, conducting final field surveys, and preparing designs is estimated by the Applicant to be $2,000.

Competing Applications—Anyone desiring to file a competing application must submit to the Commission, on or before February 1, 1982, either the competing application itself [See 18 CFR 4.33 (a) and (d) (1980)] or a notice of intent [See 18 CFR 4.33 (b) and (c) (1980)] to file a competing application. Submission of a timely notice of intent allows an interested person to file an acceptable competing application no later than the time specified in § 4.33(c).

Agency Comments—Federal, State, and local agencies are invited to submit comments on the described application. (A copy of the application may be obtained by agencies directly from the Applicant.) If an agency does not file comments within the time set below, it will be presumed to have no comments.

Comments, Protests, or Petitions To Intervene—Anyone may submit comments, a protest, or a petition to intervene in accordance with the requirements of the Rules of Practice nd Procedure, 18 CFR 1.8 or 1.10 (1980). In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a petition to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protests, or petitions to intervene must be received on or before February 1, 1982.

Filing and Service of Responsive Documents—Any filings must bear in all capital letters the title "COMMENTS", "NOTICE OF INTENT TO FILE COMPETING APPLICATION", "COMPETING APPLICATION", "PROTEST", or "PETITION TO INTERVENE", as applicable, and the Project Number of this notice. Any of the above named documents must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, Room 208 RB at the above address. A copy of any notice of intent, competing application, or petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

[Project No. 5559-000]

Hydro Management, Inc.; Application for Preliminary Permit

November 27, 1981.

Take notice that Hydro Management, Inc. (Applicant) filed on October 22, 1981, an application for preliminary permit [pursuant to the Federal Power Act, 16 U.S.C. 791(a)–825(r)] for Project No. 5559 to be known as the Lion Creek Water Power Project located on Lion Creek within the Flathead National Forest in Lake County, Montana. The application is on file with the Commission and is available for public inspection. Correspondence with the Applicant should be directed to: W. H. Edelman, III, President, Route 1, Box 169, Ronan, Montana 59864.

Project Description—The project would consist of: (1) a 3-foot high, 20-foot long diversion dam; (2) a 14-inch diameter, 8,500-foot long penstock; (3) a 16,500-foot long transmission line; and (4) a powerhouse containing a single generating unit with a rated capacity of 314 kW. Applicant estimates that the annual average energy output would be 1,900 MWh.

Proposed Scope of Studies Under Permit—A preliminary permit, if issued, does not authorize construction. Applicant has requested a 36 month to prepare a definitive project report, including results of geological, environmental and economic feasibility studies. The cost of the above activities, along with preparation of an environmental impact report, obtaining agreements with the U.S. Forest Service and other Federal, State and local agencies and preparing a license application is estimated by the Applicant to be $2,000.

Competing Applications—Anyone desiring to file a competing application must submit to the Commission, on or before February 1, 1982, either the competing application itself [See 18 CFR 4.33 (a) and (d) (1980)] or a notice of intent [See 18 CFR 4.33 (b) and (c) (1980)] to file a competing application. Submission of a timely notice of intent allows an interested person to file an acceptable competing application no later than the time specified in § 4.33(c).

Agency Comments—Federal, State, and local agencies are invited to submit comments on the described application. (A copy of the application may be obtained by agencies directly from the Applicant.) If an agency does not file comments within the time set below, it will be presumed to have no comments.

Comments, Protests, or Petitions To Intervene—Anyone may submit comments, a protest, or a petition to intervene in accordance with the requirements of the Rules of Practice and Procedure, 18 CFR 1.8 or 1.10 (1980). In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a petition to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protests, or petitions to intervene must be received on or before February 1, 1982.

Filing and Service of Responsive Documents—Any filings must bear in all capital letters the title "COMMENTS", "NOTICE OF INTENT TO FILE COMPETING APPLICATION", "COMPETING APPLICATION", "PROTEST", or "PETITION TO INTERVENE", as applicable, and the Project Number of this notice. Any of the above named documents must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, Room 208 RB at the above address. A copy of any notice of intent, competing application, or petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-34579 Filed 12-1-81; 8:45 am]

BILLING CODE 6717-01-M

[Docket No. CP82-49-000]

Locust Ridge Gas Co.; Application

November 27, 1981.

Take notice that on November 2, 1981,[1] Locust Ridge Gas Company (Applicant), 4100 Southwest Freeway, Suite 320, Houston, Texas 77027, filed in Docket No. CP82-49-000 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the transportation of natural gas by Applicant for Mid Louisiana Gas Company (Mid Louisiana), all as more fully set forth in the application which is on file with the Commission and open to public inspection.

It is stated that Applicant currently provides gathering and transportation service for Mid Louisiana pursuant to a December 1, 1975, gas gathering agreement between Horner & Smith, Applicant's predecessor, and Mid Louisiana. Applicant asserts that Horner & Smith never requested Commission authorization for such service as it believed that said service was a gathering service. Applicant now proposes to render the existing

[1] The application was initially tendered for filing on November 2, 1981; however, the fee required by § 159.1 of the regulations under the Natural Gas Act (18 CFR 159.1) was not paid until November 3, 1981; thus, filing was not completed until the latter date.

V 46 / 231 DEC 2 81 1 UMI

gathering, compression and transportation service to Mid Louisiana under an October 26, 1981, natural gas transportation agreement between Applicant and Mid Louisiana in lieu of the aforementioned December 1, 1975, gathering agreement. Applicant further requests that the Commission issue a certificate of public convenience and necessity authorizing this continued transportation service and that this certificate of public convenience and necessity be made effective on the filing date of this application.

Applicant submits that the Stipulation and Agreement in Docket Nos. RP80–4, RP80–141, and RP80–108–000 provides for a rate of 45.34 cents per million Btu for both resale and transportation service provided by Applicant to Mid Louisiana and for resale to Michigan Wisconsin Pipe Line Company. It is averred that Applicant now receives under the December 1, 1975, gathering agreement 10.0 cents to 15.0 cents per million Btu for this service and would receive 35.3 cents per million Btu for this service under the October 26, 1981, transportation agreement. Applicant therefore requests that the Commission allow at least the collection of the contract rate of 35.3 cents per million Btu by authorizing the certificate to be effective upon the filing date of this application so as to minimize the financial burden on Applicant.

Any person desiring to be heard or to make any protest with reference to said application should on or before December 23, 1981, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to jurisdiction conferred upon the Federal Energy Regulatory Commission by sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81–34580 Filed 12–1–81; 8:45 am]

BILLING CODE 6717–01–M

[Docket No. ST82–7–000]

Louisiana Gas Intrastate, Inc. of Shreveport; Application for Approval of Rates

November 27, 1981.

Take notice that on October 2, 1981, Louisiana Gas Intrastate, Inc. of Shreveport (Applicant), 890 Dresser Tower, Houston, Texas 77002, filed in Docket No. ST82–7–000 an application pursuant to § 284.123(b)(2) of the Commission's regulations for approval of its rate for gathering, treatment, processing, transportation and delivery of natural gas on behalf of United Gas Pipe Line Company (United), all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that pursuant to a gas transportation agreement dated August 14, 1981, it would transport on behalf of United up to 20 billion Btu of gas per day from a point in Claiborne Parish, Louisiana, to various points in Bienville, Jackson, and Ouachita Parishes, Louisiana.

For such service, Applicant proposes to charge United 29.51 cents per million Btu. It is further submitted that in addition to the transportation charge United would reimburse Applicant for the actual cost to Applicant of providing compression services necessary to permit delivery of the gas from United's facilities into Applicant's facilities at the delivery point. It is asserted that United would provide the fuel for such compression and would reimburse Applicant for the actual cost of providing such compression which is estimated at $14,500 per month for leasing equipment. Applicant submits that the rates and charges to be assessed United for the subject service are fair and equitable and not in excess of an amount which is reasonably comparable to the rates and charges which interstate pipelines would be permitted to charge for providing similar transportation service.

Any person desiring to be heard or to make any protest with reference to said application should on or before December 23, 1981, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81–34581 Filed 12–1–81; 8:45 am]

BILLING CODE 6717–01–M

[Docket No. CP82–54–000]

Northwest Pipeline Corp.; Application

November 27, 1981.

Take notice that on November 4, 1981, Northwest Pipeline Corporation (Applicant), P.O. Box 1526, Salt Lake City, Utah 84110, filed in Docket No. CP82–54–000 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of a new mainline tap to be utilized as a delivery point for Northwest Natural Gas Company (Northwest Natural), all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to construct and operate a new mainline tap consisting of 40 feet of 1-inch line to be constructed from 2 existing 8-inch blow off valves which are located upstream and downstream of an existing 26-inch block valve. It is stated that the site of the proposed connection would be at the point of interconnection between Applicant's 18-inch Portland Lateral and 26-inch main transmission line in Clark County, Washington.

Applicant indicates that the maximum daily delivery requirements would by 137 Mcf with an annual requirement of 6,502 Mcf. It is stated that Applicant would provide firm service by utilizing existing quantities of natural gas heretofore authorized for sale and delivery by Applicant at various

mainline taps in Clark County, Washington, under its existing Rate Schedule ODL–1. Applicant states that there would be no increase in the daily contract quantity of natural gas which it is authorized to sell and deliver to Northwest Natural.

Applicant estimates the cost of constructing the proposed facilities at $700.00 which would be financed from funds on hand. It is stated that pursuant to an agreement dated October 6, 1981, Northwest Natural has agreed to reimburse Applicant for all reasonable costs excluding company labor incurred in constructing the proposed connection.

It is asserted that in lieu of the proposed main line connection Applicant would have to construct a 3-mile extension from its existing facilities thus making it economically impracticable to provide the requested natural gas service. Applicant states that the proposed facilities would be used to supply natural gas service to a greenhouse for space heating purposes.

Any person desiring to be heard or to make any protest with reference to said application should on or before December 23, 1981, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81–34582 Filed 12–1–81; 8:45 am]

BILLING CODE 6717–01–M

[Docket No. CP81–527–001]

Sea Robin Pipeline Co.; Amendment to Application

November 27, 1981.

Take notice that on October 27, 1981, Sea Robin Pipeline Company (Applicant), P.O. Box 1478, Houston, Texas 77001, filed in Docket No. CP81–527–001 an amendment to its application filed pursuant to section 7(b) of the Natural Gas Act so as to reflect abandonment of one additional compressor unit at East Cameron Block 270, offshore Louisiana, all as more fully set forth in the amendment which is on file with the Commission and open to public inspection.

It is stated that Pennzoil Producing Company (Pennzoil) assigned to Applicant an undivided 60 percent interest in the eight compressor leases and appurtenant facilities at Block 270 in return for which Applicant agreed to reimburse Pennzoil for 60 percent of the expenses incurred by Pennzoil relating to transportation, installation, leasing, operation and maintenance of the eight compressor units. Applicant asserts that Pennzoil assigned the remaining undivided 40 percent proportionate part of the leases to Mobil Oil Exploration & Producing Southeast Inc. (Mobil). Applicant avers that Mobil has reimbursed and continues to reimburse Pennzoil for the remaining 40 percent of expenses incurred relating to transportation, installation, leasing, operation and maintenance of the eight compressors on Block 270. It is explained that under the eight leases it is the obligation of Applicant and Mobil upon termination of the leases to pay all costs of removing the compressors from Block 270 and transporting the compressors back to Houston, Texas.

Applicant submits that Pennzoil indicated that due to declining production capacity which requires less horsepower than the eight compressors presently installed at Block 270 provide, four of the the compressor units were no longer needed. Applicant states that it then filed the application for abandonment in the instant docket seeking permission and approval to abandon four compressor units. It is avered that subsequent to the filing of the application Pennzoil advised Applicant that one of the two remaining wells at Platform A on Block 270 has now watered out and that the volume of gas produced from the remaining well at Platform A is reduced significantly. Applicant states that only one compressor is now needed at Platform A. Applicant therefore now proposes to abandon a total of five compressor units from Block 270.

It is averred that Applicant and Mobil would arrange for the cut-loose and transportation onshore of the five surplus compressors. Applicant maintains that it would bear 60 percent of such costs and that Mobil would bear 40 percent. Applicant asserts that if it and Mobil are able to sell these surplus compressors "as is" on the platforms at Block 270 then Applicant would not incur its proportionate share of transportation costs.

It is stated that to eliminate the lease obligation to pay rental on the five surplus compressors Applicant and Mobil have elected to exercise the purchase option applicable to each of the five surplus compressors. Applicant submits that Pennzoil would continue to operate the three remaining compressors for Applicant and Mobil under existing operating agreements and Applicant and Mobil would continue to reimburse Pennzoil for the operating and maintenance expenses and for the platform space provided by Pennzoil for the three in-use compressors.

Any person desiring to be heard or to make any protest with reference to said amendment should on or before December 23, 1981, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Reglations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules. All persons who have heretofore filed need not file again.

Kenneth F. Plumb,

Secretary.

V 46 / 231 / DEC 2 8 1 UMI

[Docket No. CP81-535-001]

Texas Eastern Transmission Corp.; Amendment to Application

November 27, 1981.

Take notice that on November 9, 1981, Texas Eastern Transmission Corporation (Applicant), P.O. Box 2521, Houston, Texas 77001, filed in Docket No. CP81-535-001 an amendment to its application filed pursuant to section 7(c) of the Natural Gas Act so as to reflect the transportation and delivery of natural gas to an additional receipt point, all as more fully set forth in the amendment which is on file with the Commission and open to public inspection.

It is stated that on September 29, 1981, Applicant filed in the instant docket an application for authorization to transport for Public Service Electric and Gas Company (Public Service) up to 75,000 dekatherms equivalent of natural gas per day which Public Service has purchased from its subsidiary, Energy Development Corporation (EDC). Applicant asserts that this transportation was to be rendered pursuant to a gas transportation agreement dated September 22, 1981, among Applicant, Public Service, and Transcontinental Gas Pipe Line Corporation (Transco) which provided for the receipt by Transco from EDC of the stated quantities of natural gas for the account of Public Service and delivery by Transco to Applicant at Transco's meter station 503 in West Feliciana Parish, Louisiana, or at other mutually agreeable points of delivery. Applicant explains that it would then deliver the stated quantities of natural gas less applicable shrinkage to Public Service at the existing point of interconnection between Applicant and Public Service at Applicant's meter station 128 in Union County, New Jersey, or at other mutually agreeable existing points of delivery.

Applicant submits that transportation was to commence on the initial date of delivery to Applicant or sixty days after receipt of Commission authorization for a term of one year from such date.

Applicant now proposes to deliver the natural gas to Public Service at Applicant's meter station 128 in Union County, New Jersey, or other mutually agreeable existing points of delivery, or to Applicant's meter station 931 in Clinton County, Pennsylvania, for storage under Rate Schedule SS-II. Applicant states that subsequent to the filing of the application Public Service requested the option of having Applicant deliver the stated quantities of natural gas into storage for Public Service's account under Applicant's Rate Schedule SS-II. Applicant explains that Public Service, Transco, and Applicant have accordingly entered into a superseding gas transportation agreement on November 2, 1981, to reflect the change in delivery points.

Applicant maintains that in addition to the change in delivery points the superseding gas transportation agreement also provides that the natural gas to be transported by Applicant contain no more than seven pounds of water vapor per 1,000 Mcf of gas. Applicant further asserts that it waives for the term of the transportation agreement the requirement set forth in section 7.1 of its Rate Schedule SS-II that gas to be injected for the account of Public Service under Rate Schedule SS-II be gas purchased under Applicant's rate schedules.

Applicant submits that the proposed amendment would have no impact on its ability to render service to its customers under existing sales agreements.

Any person desiring to be heard or to make any protest with reference to said amendment should on or before December 23, 1981, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules. All persons who have heretofore filed need not file again.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

[Docket No. CP82-46-000]

Transcontinental Gas Pipe Line Corp., Algonquin Gas Transmission Co., Texas Eastern Transmission Corp.; Application

November 27, 1981.

Take notice that on October 28, 1981, Transcontinental Gas Pipe Line Corporation (Transco), P.O. Box 1396, Houston, Texas 77251, Algonquin Gas Transmission Company (Algonquin Gas), 1284 Soldiers Field Road, Boston, Massachusetts 02135, and Texas Eastern Transmission Corporation (Texas Eastern), P.O. Box 2521, Houston, Texas 77001, filed in Docket No. CP82-46-000 a joint application pursuant to section 3 of the Natural Gas Act for authorization to import 305,882 Mcf of natural gas per day from Canada into the United States, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

It is submitted that on December 1, 1980, Transco and Algonquin Gas entered into gas sale contracts with Pan-Alberta Gas Ltd. (Pan-Alberta) and that Texas Eastern entered into a similar agreement with Pan-Alberta on October 28, 1981, pursuant to which Pan-Alberta would cause to be delivered to the point of importation up to 305,882 Mcf of natural gas per day to be divided equally among Applicants and that Applicants would each be required to take-or-pay for 85 percent of the maximum daily volume of 101,961 Mcf as calculated on an annual basis or an annual total of 31,633,400 for each purchaser. It is further stated that Applicants would be able to make up in any subsequent contract year any deficiency volumes which they are unable to take in any contract year and that if eighteen months prior to the end of the contract term it appears that any such make-up would be impossible during the remainder of the contract term Pan-Alberta would increase its daily deliveries so as to minimize deficiency volumes. Applicants further state that if upon expiration of the contracts they have paid for gas which they have not been able to make up Pan-Alberta would refund the money previously paid for such gas.

It is explained that the initial term of the gas purchase contracts is for 15 years from the commencement of the second contract year and that the contracts may be extended for an additional five-year period. Applicants state that the subject gas would be imported at a specific point on the U.S.-Canada border in the vicinity of St. Stephen, New Brunswick, Canada, and Calais, Maine, and would be transported by New England States Pipeline Company from the import point to Burrillville, Rhode Island, to an interconnection with Algonquin Gas.

For such natural gas service, it is submitted, Pan-Alberta would charge Applicants the regulated price as established by the National Energy Board of Canada which price is currently $4.94 per million Btu (U.S.).

Applicants assert that the proposed importation of natural gas from Canada

into the United States would augment the ability of Applicants to render natural gas service at reasonable rates to their U.S. customers.

Any person desiring to be heard or to make any protest with reference to said application should on or before December 23, 1981, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

[Docket No. ST81-315-000]

United Texas Transmission Co.; Petition to Amend

November 27, 1981.

Take notice that on October 2, 1981, United Texas Transmission Company (Petitioner), P.O. Box 1478, Houston, Texas 77002, filed in Docket No. ST81-315-000 a petition pursuant to Section 284.127 of the Commission's Regulations to amend the order issued July 20, 1981, in the instant docket so as to authorize an extension of Petitioner's transportation of natural gas on behalf of Energy Gathering Inc. (Energy Gathering), all as more fully set forth in the petition to amend which is on file with the Commission and open to public inspection.

Petitioner states that by order issued January 27, 1981, in Docket No. CP80-520-002 Natual Gas Pipeline Company of America (Natural) was authorized to sell gas to Energy Gathering. It is further stated that on August 11, 1981, Natural filed in such docket a petition to amend the order so as to authorize an extension of the term of the sale for one-year from July 23, 1981, to July 23, 1982, or until the total volume of gas to be sold has been delivered by Natural to Energy Gathering whichever occurs last.

It is submitted that by order dated July 20, 1981, in the instant docket Petitioner along with Channel Industries Gas Co. (Channel) was authorized to transport up to 100,000 Mcf of natural gas per day on behalf of Energy Gathering in connection with the purchase of such gas from Natural. Petitioner asserts that the proposal in Natural's petition to amend requires a corresponding extension in the term of the transportation of such gas by Petitioner. Petitioner further asserts that since the subject gas is not for system supply the Commission must grant authorization of the transportation pursuant to §§ 284.122(b)(2) and 284.127 of the Commission's Regulations.

Accordingly, Petitioner requests that the Commission amend the order issued July 20, 1981, in the instant docket so as to authorize Petitioner to transport gas on an interruptible basis on behalf of Energy Gathering for the period July 23, 1981, to July 23, 1982, or until the total volume of such gas to be sold has been delivered by Natural to Energy Gathering whichever occurs last.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before December 23, 1981, with the the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to proceeding or to participate as a party in any hearing therein must file a petition to intevene in according with the Commission's rules.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

Office of Hearings and Appeals

Tenneco Oil Co.; Special Refund Procedures; Hearing

AGENCY: Office of Hearings and Appeals, DOE.

ACTION: Notice of Implementation of Special Refund Procedures, Solicitation of Comments, and Notice of Public Hearing.

SUMMARY: The Office of Hearings and Appeals of the Department of Energy solicits comments concerning the appropriate procedures to be followed in refunding to adversely affected parties $5,000,000 obtained by the DOE under the terms of a consent order entered into with Tenneco Oil Company. The funds were provided by the firm in order to settle enforcement proceedings brought by the Office of Special Counsel.

DATES AND ADDRESS: Comments must be filed on or before January 4, 1982 and should be addressed to the Office of Hearings and Appeals, Department of Energy, 2000 M Street NW., Washington, D.C. 20461. All comments should display conspicuously a reference to case number BEF-0073. A public hearing on the matter will be held on Tuesday, January 5, 1982, at 10:00 a.m. in Room 4A-1004, James Forrestal Building, 1000 Independence Avenue SW., Washington, D.C.

FOR FURTHER INFORMATION CONTACT: Thomas O. Mann, Deputy Director, Office of Hearings and Appeals, Department of Energy, 2000 M Street NW., Washington, D.C. 20461, (202) 653-3137.

SUPPLEMENTARY INFORMATION: In accordance with § 205.282(b) of the procedural regulations of the Department of Energy, 10 CFR 205.282(b), notice is hereby given of the issuance of the Proposed Decision and Order set out below. The Proposed Decision and Order tentatively establishes procedures to distribute to adversely affected parties a total of $5,000,000 obtained by the DOE under the terms of a consent order entered into with Tenneco Oil Company. The funds were provided to the DOE by the firm in order to settle all claims and disputes between Tenneco and the DOE regarding the manner in which Tenneco applied the federal price and allocation regulations with respect to its importation, refining, and sale of crude oil and covered petroleum products during the period between March 3, 1973 and December 31, 1980. In the consent order, the parties stipulated that the funds were to be distributed by the DOE pursuant to 10 CFR Part 205, Subpart V.

The Proposed Decision and Order sets forth the procedures and standards that the DOE has tentatively formulated to distribute the contents of the escrow account funded by Tenneco. The DOE has tentatively decided that Applications for Refund should be accepted from the initial purchasers of covered products from Tenneco during the audit period. In addition, the DOE determined that Applications for Refund also should be accepted from all persons who bought Tenneco products durng the relevant time periods. The Proposed Decision and Order provides that in order to be entitled to receive any portion of the settlement funds, a purchaser must furnish the DOE with evidence which demonstrates that the

claimant was injured by the alleged unlawful prices for covered products charged by Tenneco, including specific documentation concerning the date, place, price, and volume of product purchased, whether the increased costs were absorbed by the claimant or passed through to other purchasers, and the extent of any injury alleged to have been suffered.

The Proposed Decision and Order also provides for the distribution of any funds remaining after all valid claims are paid. The Proposed Decision and Order states DOE's view that refunds might be made in the form of lowered energy or energy-related costs in the areas where the persons who are likely to have been injured by the alleged overcharges may reside. The DOE also solicits proposals from the public concerning the distribution of any funds remaining after claims have been paid. In the alternative, the DOE suggests that any remaining funds which would otherwise go undistributed be deposited in the Treasury of the United States.

It should be pointed out that until final procedures are adopted, no claims for refunds will be accepted. Applications for Refund therefore should *not* be filed at this time. Appropriate public notice, including notice published in the **Federal Register**, will be provided prior to the acceptance of claims.

Any member of the public may submit written comments regarding the proposed refund procedures. Commenting parties are requested to submit two copies of their comments. Comments should be submitted on or before January 4, 1982 and should be sent to the address set forth at the beginning of this notice. All comments received in this proceeding will be available for public inspection in the Public Document Room of the Office of Hearings and Appeals, Room B–120, 2000 M Street, N.W., Washington, D.C. between the hours of 1:00 to 5:00 p.m., Monday through Friday, except Federal holidays.

After all comments have been received, a public hearing on this matter will be held on Tuesday, January 5, 1982, at 10:00 a.m. in Room 4A–1004, James Forrestal Building, 1000 Independence Avenue, S.W., Washington, D.C.

Issued in Washington, D.C. on November 24, 1981.

George B. Breznay,

Director, Office of Hearings and Appeals.

November 24, 1981.

Proposed Decision and Order of the Department of Energy—Special Refund Procedures

Name of Petitioner: Office of Special Counsel: In the Matter of Tenneco Oil Company

Date of Filing: August 11, 1981

Case Number: BEF–0073

Under the procedural regulations of the Department of Energy, the Economic Regulatory Administration's Office of Special Counsel (OSC) may request the Office of Hearings and Appeals to formulate and implement special procedures to make refunds in order to remedy the effects of alleged violations of the DOE regulations. *See* 10 CFR Part 205, Subpart V.

In accordance with these regulatory provisions, the OSC recently filed a Petition for the Implementation of Special Refund Proceedings in connection with a consent order entered into with Tenneco Oil Company (Tenneco). Under the terms of this consent order, the firm agreed to make refunds for its alleged violations of the DOE price regulations in the following amounts: (i) $4 million to be distributed in accordance with the directives of the OHA pursuant to special refund proceedings; (ii) $8 million to be distributed to certain direct purchasers of heating oil and propane; and (iii) $2 million to be refunded to certain direct purchaser/end-users of petroleum products. *See* Consent Order, §§ 402–04. The consent order further provided that to the extent any funds remained from category (iii), all residual funds would be deposited with the category (i) funds for disposition through special refund proceedings. One million dollars of category (iii) funds were not distributed by Tenneco, and these funds have been remitted to the DOE. Consequently, the sum of $5 million is now being held in an escrow account under the jurisdiction of the DOE pending receipt of instructions from the Office of Hearings and Appeals regarding its final distribution.

I. Background

Tenneco is a "refiner" as that term was defined in 10 CFR 212.31. During the relevant time periods, Tenneco was subject to the Mandatory Petroleum Price Regulations set forth in 10 CFR Part 212, Subpart E. That Subpart governed the maximum prices that could lawfully be charged by refiners in the sale of fuel oil, motor gasoline, and other covered products. In addition, Tenneco was subject to the Mandatory Petroleum Allocation Regulations set forth in 10 CFR Part 211.

In connection with its compliance activities, the OSC conducted an extensive audit of Tenneco's pricing and allocation practices, including the manner in which the firm applied the federal petroleum price and allocation regulations with respect to its importation, refining, and sale of crude oil and covered petroleum products during the period March 3, 1973 through December 31, 1980. Following extensive negotiations, the DOE and Tenneco entered into a consent order in order to resolve all of the issues raised during the OSC's audit. Only Tenneco's compliance with the regulations regarding crude oil produced from marginal properties and newly discovered crude oil was excluded from the ambit of the consent order. The proposed consent order was executed on January 18, 1981 and published for public comment in the **Federal Register** on January 26, 1981. *See* 46 FR 8102 (1981). The OSC received comments from four parties and a notice of claim from Pacific Oil Company. (*1*) After the regulatory comment period had expired and the OSC had considered all of the comments which it had received, a slightly modified consent order was adopted as a final order on May 18, 1981. *See* 46 FR 29499 (1981). (*2*)

II. Jurisdiction

The OSC filed a Petition for the Implementation of Special Refund Procedures in connection with the Tenneco consent order on August 11, 1981. We have previously discussed the jurisdictional prerequisites for such petitions in *Office of Enforcement*, 8 DOE ¶ 82.515 (1981). The Subpart V process is to be used in situations where the Department of Energy is unable to readily identify persons who are entitled to refunds or to readily ascertain the amounts that such persons are entitled to receive as a result of enforcement proceedings. 10 CFR 205.280. After reviewing the record developed in the Tenneco case, we have concluded that the implementation of Subpart V proceedings is also appropriate here. In this case there is a significant degree of difficulty inherent in identifying the persons who were injured by the alleged overcharges and ascertaining the level of refunds that such persons should receive. Until recently, crude oil and refined petroleum products were subject to a comprehensive price regulation scheme which could be utilized to facilitate the channeling of refunds to

adversely affected purchasers through price rollbacks. However, on January 28, 1981, the President exempted crude oil and all refined petroleum products from the DOE regulatory program. Exec. Order No. 12287, 46 FR 9909 (1981). As a result of decontrol, price rollbacks can no longer be used to refund moneys to purchasers who were overcharged in the past. Therefore, to refund money to the parties affected by the alleged overcharges, a determination must generally be made regarding the extent to which purchasers of the products involved absorbed the overcharges or passed the higher costs through to their customers by raising their own sales prices. Moreover, the Tenneco consent order has already provided for substantial refunds to certain identifiable direct purchasers of heating oil and propane and to certain direct purchaser/end-users of other petroleum products. The additional, remaining persons entitled to refunds are not readily identifiable, and the amount of the refunds that any particular person should receive is not readily ascertainable. Under these circumstances, we believe that Subpart V provides the most useful mechanism to refund money to persons who were likely to have been injured by alleged pricing violations. The Office of Hearings and Appeals therefore has decided to exercise jurisdiction over the funds received by the DOE in settlement of the enforcement proceedings underlying the Petition for Implementation of Special Refund Procedures in the case of Tenneco.

III. Authority to Fashion Refund Procedures

In several recent decisions we have considered Petitions for the Implementation of Special Refund Procedures under Subpart V *See, e.g., Office of Enforcement,* No. BEF–0049 (August 18, 1981) (proposed decision) (hereinafter referred to as *Worldwide*); *Office of Enforcement,* 8 DOE ¶ 82,597 (1981) (hereinafter referred to as *Vickers*); *Office of Enforcement,* No. BEF–0030 (May 1, 1981) (proposed decision) (hereinafter referred to as *Fagadau*). The July 17, 1981 *Vickers* Decision is the most recent determination issued by the Office of Hearings and Appeals pursuant to Subpart V which establishes final procedures for the filing of applications for refunds of moneys received by the DOE under a consent order.

Subpart V authorizes the Office of Hearings and Appeals, upon request by the appropriate enforcement official, to fashion special procedures to distribute moneys obtained as part of settlement agreements. 10 CFR 205.281, 205.282. This special refund process is part of an overall regulatory program which is intended to implement several different statutes. Congress provided for mandatory allocation and price ceilings for crude oil, residual fuel oil, and refined petroleum products in the Emergency Petroleum Allocation Act of 1973 (EPAA), 15 U.S.C. 751 *et seq.* (1976). The authority to enforce regulations issued under the EPAA was granted by Section 5 of the EPAA, which incorporated enforcement authorities established in the Economic Stabilization Act (ESA) (12 U.S.C. 1904 note (1970)); EPAA, section 5(a) (15 U.S.C. 754(a)). The statutory authority to enforce the regulations governing the allocation and pricing of petroleum products was delegated to the Administrator of the Federal Energy Administration, and subsequently to the Secretary of Energy. Federal Energy Administration Act (FEAA), section 5 (15 U.S.C. 765 (1974)); Department of Energy Organization Act (DOE Act), section 201(a) (42 U.S.C. 7151(a) (1979)). To carry out these statutory mandates, the regulations of the Cost of Living Council, the Federal Energy Office, the Federal Energy Administration, and the DOE have provided throughout the existence of the price control program for the issuance of remedial orders "requiring a person to cease a violation or to eliminate or compensate for the effects of a violation, or both." 6 CFR 155.81(b) (1973); 10 CFR 205.2 (1974) (defining "remedial order").

As we have noted in previous Subpart V decisions, restitution is designed to accomplish two purposes: disgorgement of the fruits of a regulatory violation from the wrongdoer, and refunds to persons injured by the regulatory violation. *See generally Vickers; Sauder v. DOE,* 648 f.2d 1341 (Temp. Emer. Ct. App. 1981). The latter objective—refunds to overcharged persons—furthers the specific EPAA goal of providing for the "equitable distribution of * * * refined petroleum products at equitable prices * * * among all users." (15 U.S.C. 753(b)(1)(F).)

IV. Proposed Refund Procedures

In view of the objectives expressed in the statutes and regulations discussed above, and the Tenneco consent order itself, the procedures to be implemented in this case should, to the maximum extent practicable, provide for the distribution of the refund amount to parties who were adversely affected by the alleged violations.

As we have stated before, refunding moneys obtained through DOE enforcement proceedings is the primary focus of Subpart V. 10 CFR 205.280; *see Vickers.* Subpart V offers a means of compensating many individuals who, because they either lack the resources or do not have a sufficient financial stake in the outcome to institute private lawsuits under section 210 of the ESA, have suffered injuries which would otherwise go unredressed. The Subpart V process is also an efficient administrative mechanism for returning alleged overcharges to injured parties because it eliminates the need for long and costly court actions.

Based upon our experience with Subpart V cases, we believe that the distribution of funds to overcharged persons should generally take place in two stages. In the first stage of the process, payment should be made to persons and firms who file applications for refund and demonstrate that they are entitled to a portion of the funds received by the DOE. After meritorious claims are paid in the first stage, a second stage may be necessary. In the second stage, there are a number of alternative procedures which could be adopted. Under one alternative, payments for the benefit of injured persons could be made to entities that are in a position to effectuate the restitutionary purposes discussed above. As a second alternative, or in the event that implementation of the methods discussed above would not accomplish their intended objectives or fails to exhaust all of the settlement fund, § 205.287(c) provides that "any remaining funds * * * shall be deposited in the United States Treasury or distributed in any manner specified in the Decision and Order referred to in § 205.282(c)." 10 CFR 205.287(c).

In the present determination, we shall address the comments we have received thus far, propose first stage procedures, and suggest possible second stage procedures for the distribution of the Tenneco consent order funds. This Proposed Decision and Order shall be sent to all parties on the service list for this case and shall be published in the **Federal Register.** We are soliciting comments concerning the proposed disposition of these funds contained in this determination. Comments should be submitted within 30 days after its publication in the **Federal Register.** All comments will be made available for public inspection in the Public Docket Room of the Office of Hearings and Appeals, Room B–120, 2000 M Street, N.W., Washington, D.C., between the hours of 1:00 and 5:00 p.m., Monday through Friday, except Federal holidays. After all comments have been received, we shall hold a public hearing

V 46 / 231 DEC 81 UMI

concerning this matter. The hearing will be held on Tuesday, January 5, 1982, at 10:00 a.m. in Room 4A–1004, James Forrestal Building, 1000 Independence Avenue, S.W., Washington, D.C.

A. Refunds to Identifiable Purchasers

1. *Eligible parties.* During the first stage in the refund process, the consent order funds should be distributed to claimants who satisfactorily demonstrate that they have been adversely affected by Tenneco's alleged violations of the DOE regulations. We note that the first purchasers of the relevant products from the firm are likely to be claimants in this proceeding. These purchasers can be categorized as follows: (1) Resellers of petroleum products, (2) firms of individuals who used the product in question for the production or distribution of goods and services which were purchased by the public, and (3) entities which were ultimate consumers of the product they purchased from Tenneco or an intermediate reseller. Many of these parties have already been identified and have received a refund through the non-Subpart V provisions of the consent order. The record in this proceeding indicates that Tenneco paid $9 million to approximately 72,000 parties pursuant to section 403 of the consent order prior to the OSC's submission of this Petition. Absent special circumstances, those parties which already received refunds will not be eligible for further refunds.

In a submission which it filed subsequent to the OSC's initiation of this proceeding, Tenneco urges us to adopt an election of remedies requirement as a precondition to filing Applications for Refund. In particular, Tenneco contends that Kern County Refining, Inc. (Kern) should be required to execute a release or waiver of its right to institute a private action concerning the same transactions covered by the consent order.[3] Tenneco contends that the OHA should adopt an election of remedies requirement because it would be consistent with the provisions of the consent order and would serve to assure the OHA that its refund proceedings will not be frivolously invoked. In this regard, Tenneco notes that section 404 of the agreement provided for a $2 million fund for refunds to certain direct purchaser/end-users of petroleum products who agreed to sign a release of all claims against Tenneco. In a letter executed after the consent order, the OSC stated that the parties "understood and agreed upon" the interpretation that up to $1 million of the section 404 funds could be used to settle allocation disputes. Tenneco maintains that this implicitly refers to an allocation dispute with Kern, which was the only known allocation dispute at that time. Tenneco states that it attempted to negotiate a settlement with Kern under the provisions of section 404, but the firms were unsuccessful in reaching an agreement. Tenneco subsequently remitted $1 million to the DOE as residual funds from the section 404 mechanism to be distributed along with the funds set aside for distribution under Subpart V. The firm therefore contends that by requiring that applicants sign a waiver as specified in section 404 of the consent order as a condition to obtaining funds through Subpart V, the OHA would be effectuating the intent of the parties to the consent order.

In addition, Tenneco contends that Kern should not be permitted in the context of a Subpart V proceeding to seek damages for alleged violations of the DOE allocation regulations rather than refund of alleged overcharges. In the alternative, Tenneco maintains that we should require an election of remedies from Kern prior to our consideration of its Application for Refund in order to insure that our administrative processes are not frivolously invoked. Finally, Tenneco argues that it would be unfair to permit Kern two chances to seek a recovery for alleged allocation violations—first from the OSH through an Application for Refund, and then from the courts through a private action under section 210 of the ESA.

After careful consideration of the issues raised by Tenneco we have concluded that we should not adopt an election of remedies provision. First, contrary to Tenneco's assertions, the consent order does not explicitly provide for such a provision. In fact, it appears that even if section 404 of the consent order is applicable to allocation disputes it expressly provided that all residual funds would be deposited with the section 402 funds for distribution through Subpart V proceedings. Subsequently, $1 million of the funds provided for by section 404 were not expended and were thus deposited in the account established pursuant to section 402 of the consent order, which does not provide for an election of remedies requirement. Furthermore, the OSC's Petition in this case does not request that the OHA limit potential claimants to parties who are willing to execute waivers. We have therefore concluded that Tenneco's requested election of remedies provision is not required or supported by the consent order. *Compare Vickers* (election of remedies provision adopted where it was recommended in both the consent order and the petition for the implementation of special refund procedures) *with Office of Enforcement*, 9 DOE, ¶ (November 20, 1981) (OHA refused to adopt such a provision where no recommendation appeared in either the consent orders or the petitions).

Furthermore, we note that Tenneco has requested that an applicant be required to elect its remedies prior to our processing of its application for refund. Tenneco's requested provision would be even more restrictive than that which we adopted in the *Vickers* case. In *Vickers*, we provided that an applicant could delay its election of remedies until the OHA had adjudicated its claim and had determined the amount of the refund which it would receive. In support of its request, Tenneco contends that requiring an election of remedies would prevent the filing of frivolous applications for refund.

We believe that it would be fundamentally unfair to require of any party a waiver and release of claims prior to the filing of an Application for Refund. A claimant could not make an intelligent decision concerning whether it should abandon its private right of action at that point in the proceedings because it would not yet know what its recovery through Subpart V proceedings might be. Placing a potential claimant in such a position would certainly discourage firms from filing any Applications for Refund, not just frivolous ones, and would be plainly inconsistent with 10 CFR 205.822(e), which provides that "(I)n establishing standards and procedures for implementing refund distributions, the Office of Hearings and Appeals shall take into account the desirability of * * * resolving to the maximum extent practicable all outstanding claims." Moreover, we disagree with Tenneco that it is unfair to permit Kern to seek redress of the alleged allocation violations through both Subpart V proceedings and a section 210, private action. Congress expressly set a policy of permitting double exposure to liability by providing in sections 209 and 210 of the ESA that a firm be subject to suit by both the government and by private firms. In interpreting these statutory provisions, the Temporary Emergency Court of Appeals has held that enforcement actions brought by the federal government and private section 210 actions serve different purposes and may be maintained separately at the same time. *Bulzan v. Atlantic Richfield Co.*, 620 F.2d 278 (Temp. Emer. Ct. App. 1980). *See also S.O.S. Gasoline*

Enterprises v. DOE, 3 Fed. Energy Guidelines ¶ 26,231 (D.D.C. July 8, 1981). Consequently, absent strong countervailing factors such as those that were present in the *Vickers* case, we decline to adopt an election of remedies provision that would limit a firm's rights under section 210. We therefore decline to adopt Tenneco's requested provision.(*4*)

To the extent that first purchasers who are resellers or who are involved in the production or distribution of goods and services can establish that they absorbed the alleged overcharges rather than passed them on to their customers, they will be entitled to a *pro rata* share of the consent order funds. In order to qualify for a refund, these first purchases will be required to demonstrate that during the period covered by the consent order they would have kept their prices for petroleum products or goods and services at the same level had the alleged overcharges not occurred. While there are a variety of means by which a claimant could make this showing, a reseller or firm engaged in the production or distribution of goods and services generally should demonstrate that at the time it purchased covered products from its supplier, market conditions would not permit it to increase its prices to pass through the additional costs associated with the alleged overcharges. In addition, a reseller of petroleum products must have maintained until January 28, 1981, the date on which the President decontrolled all remaining covered products, a "bank" of unrecovered costs in order to demonstrate that it did not subsequently recover these costs by increasing its prices.

With respect to first purchasers who are ultimate consumers, we believe that the above showing should not be necessary in order for a firm to qualify for a refund. The types of organizations and individuals that would be included in this group include home owners, schools, religious institutions, federal, state, and local government entities, research foundations, and any other individual or organization which is not engaged in the direct sale of goods or services. It is unlikely that these types of first purchasers would have passed the alleged overcharges through to others because they are non-profit entities which are not involved in the direct sale of goods or services to other consumers. In order to establish a claim, this type of first purchaser need demonstrate only that it purchased a specific quantity of product which was sold by Tenneco during the relevant time period.

If the first purchasers are able to make the showings described above, the entire amount of the funds at issue in this proceeding may be disbursed to them. In the event that they are unable to make a satisfactory showing, firms and individuals who purchased products from the first purchasers will be eligible to receive a portion of these funds. However, all purchasers of products sold by Tenneco may file refund applications.

2. Proposed procedures. In order to establish an entitlement to a refund, a person claiming to be an injured party must satisfactorily demonstrate that it purchased, during the relevant time period, a specific quantity, of product which was sold by Tenneco. Privity with either Tenneco or one of its first purchasers need not be established; evidence need only be presented that the products purchased by the claimant flowed through a chain of distribution leading back to Tenneco. In addition, unless the purchaser is an ultimate consumer, it should generally demonstrate that it did not pass through the cost increases resulting from the alleged overcharges to its own customers. For example, a purchaser who resold the identified product should be in a position to show that market conditions did not permit it to raise prices charged to downstream customers, and that consequently it was forced to absorb the cost increases that are represented by Tenneco's alleged overcharges. In the absence of that showing, we could conclude that the claimant was not injured in a monetary sense by the alleged overcharge. However, in *Vickers* we noted that this showing could be too complicated for those individuals and firms who might otherwise be entitled to apply for refunds and who purchased relatively small amounts of product from the firm. We also observed that many of those purchasers might lack the type of records required to support such a showing. We therefore established in that case a threshold level of purchases under which applicants, primarily smaller firms and individuals, were not required to make a detailed showing of actual injury. For those applicants who were claiming a refund based on less than that level of purchases, we required only proof of the amount of product purchased by the applicant during the consent order period. This Proposed Decision is being published in the **Federal Register** so that interested parties will have an opportunity to submit comments on the tentative distribution scheme. We will consider a similar treatment for smaller claimants in this proceeding, and we specifically request comments from the public on this issue. *See Vickers; Office of Special Counsel for Compliance*, 4 DOE ¶ 82,511, at 85,043–44. Refunds to persons who establish an entitlement to a refund will be made on a volumetric basis—*i.e.*, based on the proportion of the product purchased by the applicant to the total amount of those products (whether motor gasoline, diesel fuel, or No. 2 fuel oil) sold by Tenneco during the relevant period.

Any purchaser claiming a portion of the refund amount should file an Application for refund pursuant to 10 CFR § 205.283. Applications should provide all relevant information necessary to establish a claim, including specific documentation concerning the date, place, price, and volume of product purchased, the retention of increased costs, and the extent of any injury alleged. Detailed procedures for filing applications will be provided in a final Decision and Order. *See Vickers*. Before disposing of any of the funds received as a result of the consent orders involved in this proceeding, we intend to publicize widely the distribution process and to provide an opportunity for any affected party to file a claim. In addition to publishing notice in the **Federal Register**, notice will be provided in publications in the areas in which Tenneco marketed its products during the period covered by the consent order. As a final matter, we note that refund applications filed on behalf of groups of claimants identifying themselves as adversely affected purchasers also will be considered. Such applications will be evaluated on a case-by-case basis.

B. Distribution of the Remainder of the Refund Amount

After all meritorious claimants have received the share of the settlement fund to which they are entitled, the settlement fund provided by Tenneco pursuant to its consent order, while diminished, may not be exhausted. The remainder of the funds should be distributed during the second stage of the refund process in furtherance of the goals set forth in the DOE's enabling legislation and implementing regulations. In this decision, we are proposing several alternatives for the second-stage refund procedure. However, we wish to emphasize that any consideration of the second-stage procedure at this point in time involves a number of uncertainties. As we noted in *Vickers:*

[Such] a step would be difficult to justify before the analysis and processing of Applications for Refund filed in the first stage

V 46 / 231 DEC 2 81 UMI

of the distribution of the Consent Order funds to claimants, since the amount remaining after all meritorious claims have been paid directly affects the appropriateness of the second-stage distribution scheme.

Vickers at 85,397. As in that case, we intend to set forth a number of second-stage alternatives in this proposed decision, consider the comments received after publication in the **Federal Register**, and then issue a final Decision and Order establishing procedures for the first stage. In that decision, we will summarize and address briefly the comments received concerning the proposed second-stage procedure, and will solicit another round of comments on the distribution of the funds remaining after payment of claims in the first stage. In this way, we will have several opportunities to consider the outstanding issues before reaching a final decision on the second stage.

Since refunding money to adversely affected parties is the primary concern of Subpart V proceedings, any remaining funds should, if administratively and economically feasible, be distributed to groups of ultimate consumers who were likely to have borne a portion of the higher prices charged by Tenneco. In view of the relatively small sums of money likely to be involved in claims by many ultimate consumers, and the improbability that members of this class will possess records sufficient to establish their claims, we anticipate that only a limited number of ultimate consumers who were actually injured by the alleged overcharges will be able to prove during the first stage of the refund process that they are entitled to refunds. *See Vickers*. The fact that claims to specific refunds may not have been proved, however, does not mean that injuries to ultimate consumers have not occurred. Rather, the absence of claims for the full amount of the settlements would tend to reflect the difficulty such parties encounter in establishing a valid claim for a portion of the consent order funds.

One alternative we propose is that after payments are made to successful claimants, additional refunds might be made in the form of lowered energy or energy-related costs in areas where the products associated with the alleged overcharges by Tenneco were marketed. For example, in *Office of Special Counsel for Compliance*, No. DFF-0003 (March 13, 1981) (proposed decision), we proposed that the second-stage refund to consumers who were likely to have been overcharged be effected by using rate-regulated utilities to pass through the remaining funds to comsumers through fuel adjustment clauses or other appropriate mechanisms. We observed that it is likely that the persons who purchased motor gasoline or heating oil in a particular area would reside there as well and would be ultimate comsumers of electricity. They would therefore benefit from the proposed rate reduction. We further suggested that state governments in the affected areas also may be designated as refund recipients for the purpose of reducing energy-related expenses subject to their direct control. Although we cannot yet determine what actions we will take in the second stage, we will consider this type of restitutionary scheme as one possible alternative.

In the event that distribution schemes for the second stage prove to be inappropriate because of administrative costs or the lack of accurate information, we propose that the portion of the settlement fund which would go undistributed after the second stage be deposited in the United States Treasury. We also propose as an alternative to the distribution scheme outlined above that any funds remaining after the first stage claims procedure be deposited directly into the United States Treasury.

Subpart V regulations specifically sanction this course of action, *see* 10 CFR 205.287(c), and direct payments to the Treasury may well be appropriate in those cases where other remedies would be ineffectual or administratively burdensome. *See Citronelle-Mobile Gathering, Inc. v. O'Leary*, 499 F. Supp. 871 (S.D. Ala. 1980); *Golden Eagle Oil Co.*, 6 DOE ¶ 83,005 at 86,065 (1980); *cf. Chana's Auto Service Center*, 8 DOE ¶ 83,002 (1981). However, as noted above, we will not be in a position to decide what should be done with any remaining funds until after the first-stage refund procedure is completed. The amount of money available for the second stage of the refund process will be a factor that will influence the ultimate disposition of those funds.

It Is Therefore Ordered That:

The $5,000,000 refund amount supplied by Tenneco will be distributed in accordance with the foregoing Decision.

Footnotes

(*1*) The four parties who submitted comments were the Air Transport Association, the Transportation Group, the National Consumer Law Center, and Kern County Refining, Inc. These four parties and Pacific Refining Company have been included on the service list for this proceeding.

(*2*) The sole modification adopted by the parties was the elimination of provisions concerning Tenneco's treatment of its banks of unrecouped product cost increases. *See* 46 Fed. Reg. 29499 (1981).

(*3*) Although Tenneco's comments focus on Kern, it apparently contends that any party seeking a refund on the basis of a claim that it was injured by alleged violations of the DOE allocation regulations should be required to execute a waiver prior to the OHA's consideration of an Application for Refund.

(*4*) The double recovery risk feared by Tenneco may actually be far less than it appears. The courts and the OHA would certainly reduce ("set-off") any firm's recovery in one proceeding by any amount already recovered in another proceeding.

ENVIRONMENTAL PROTECTION AGENCY

[A-3-FRL-1995-6]

Pennsylvania State Implementation Plan; Deficiency

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of deficiency; Pennsylvania State implementation plan.

SUMMARY: Sections 172(b)(7) and 110(a)(2)(F) of the Clean Air Act require each state to provide evidence of adequate funding for programs contained in its State Implementation Plan (SIP). On May 20, 1980 EPA approved a revision to the Pennsylvania SIP establishing a vehicle inspection/maintenance ("I/M") program for three areas: Philadelphia, Pittsburgh, and Allentown-Bethlehem-Easton. (45 FR 33607) On October 5, 1981 the Pennsylvania legislature passed a bill over the Governor's veto which prohibits the expenditure of any public funds for I/M. EPA is today notifying the state that, as result of this action, the Pennsylvania SIP now lacks the funding assurances required by Sections 172(b)(7) and 110(a)(2)(F). Under authority contained in Section 110(a)(2)(H), EPA is requesting the State to correct this SIP deficiency within 90 days of the date of publication of this notice. The notice also informs the State that the Agency is considering the promulgation of findings concering the State's failure to implement its I/M program.

FOR FURTHER INFORMATION CONTACT: Sheldon M. Novick, Regional Counsel, Environmental Protection Agency, Region III, Sixth and Walnut Streets, Philadelphia, PA 19106.

SUPPLEMENTARY INFORMATION:

A. Notice of Deficiency

The Clean Air Act Amendments of 1977 added a new Part D to the Act which required states to submit revised state implementation plans ("SIPs") for

areas which had not yet attained any ambient air quality standards. These plans must meet specific requirements outlined in Part D, and generally must provide for attainment of national ambient air quality standard by December 31, 1982. For areas where a state demonstrates that it cannot attain the ozone (O_3) or carbon monoxide (CO) standards by 1982, Section 172(a)(2) allows EPA to grant an extension of the attainment deadline to 1987. If an extension is granted, states must also meet the additional requirements of Section 172(b)(11). One of these requirements is submittal of a schedule for implementation of a vehicle inspection/maintenance ("I/M") program in any area with an extended attainment deadline.

Part D also requires states to identify and commit adequate funds for Part D programs contained in their SIPs. Section 172(b)(7). Section 110 contains a similar funding requirement for all SIP activities. Section 110(a)(2)(F).

Pursuant to Section 172(a)(2), Pennsylvania submitted a Part D SIP which demonstrated that the O_3 and CO standards could not be attained by 1982 in the Philadelphia and Pittsburgh areas, and that the O_3 standard could not be attained by 1982 in the Allentown-Bethlehem-Easton area. Consequently, Pennsylvania requested an extension for attainment of the O_3 and CO standards in these areas. Pennsylvania also submitted schedules for the implementation of I/M in these areas. In addition, the state submitted evidence of adequate funding to implement its Part D SIP programs.

On May 20, 1980 (45 FR 33604), EPA approved the state's extension requests, the I/M schedules and the funding commitments.[1]

On October 5, 1981 the Pennsylvania General Assembly enacted House Bill No. 456. Section 2, which was effective immediately upon enactment, provides that the executive branch of the State government may not "expend any public funds for the establishment and administration of any system for the periodic inspection of emissions of motor vehicles." As a result of this legislation, the Pennsylvania SIP now lacks any assurances that the Commonwealth will provide adequate funding for I/M as required under Section 172(b)(7) and 110(a)(2)(F).

Under Section 110(a)(2)(H), EPA may request a state to revise its SIP where the Administrator finds "that the plan is substantially inadequate to achieve a national ambient air quality standard or to otherwise comply with any additional requirement established under the Clean Air Act Amendments of 1977." Pursuant to this authority, EPA finds that the Pennsylvania SIP no longer complies with the funding requirements of Section 172(b)(7) and 110(a)(2)(F). Consequently, EPA requests that the State revise its plan to provide assurances of funding for the I/M program. EPA requests that the State submit this revision within 90 days of the date of this notice. During this time, the State and the public may submit information showing why the state's plan is not in fact deficient.

If, within 90 days, the State either fails to revise its SIP or demonstrate to EPA that its current SIP is not deficient, under Section 110(c)(1)(C) EPA will be required to disapprove the O_3 and CO SIPs for these three areas requiring I/M programs. If EPA disapproves the SIP for failure to meet Section 172(b)(7), there will be a moratorium on the construction and modification of new sources of O_3 and CO in the three affected areas under Section 110(a)(2)(I) and 40 CFR 52.24. This moratorium will prohibit construction or modification of major stationary sources of CO and hydrocarbons (O_3) in the Pittsburgh, Philadelphia and Allentown-Bethlehem-Easton areas. EPA will publish a notice in the **Federal Register** announcing its decision and the applicability of the moratorium if it determines disapproval of the SIP is appropriate.

B. Possible Finding of a Failure To Implement the SIP

Under Sections 173(4) and 176(b) of the Clean Air Act, a state's failure to implement any element of an approved Part D plan also results in the imposition of a construction moratorium and a cut-off of air pollution planning funds granted under the Clean Air Act in any area of the state where the plan is not being implemented. EPA must propose and promulgate a finding that the state is failing to implement its plan before either of these provisions can come into effect.

In a Memorandum in Support of Motion to Stay and to Modify the Consent Decree filed with the United States District Court for the Eastern District of Pennsylvania, Pennsylvania stated that it will be unable to implement its I/M program as a result of the new legislation. Based on this representation, EPA intends to propose a finding that Pennsylvania has failed to implement its ozone and carbon monoxide plans. EPA will evaluate any comments submitted by the public, and any future actions or commitments made by the state before deciding whether to promulgate a finding that the state is not implementing its plan.

C. Miscellaneous

EPA finds it is issuing this notice without providing prior notice and opportunity to comment under Section 4(a) of the Administrative Procedure Act, 5 U.S.C. 553(b) because EPA does not believe this notice of deficiency is a "rule" within the meaning of that Act. It is only a preliminary finding explaining that the State plan does not meet certain requirements in the Clean Air Act. This finding in itself has no future regulatory effect. Moreover, the State and the public will have an opportunity to comment before the State revises its SIP or EPA takes action to disapprove the State's plan.

(Sec. 110(a)(2)(H) (42 U.S.C. 7410(a)(2)(H)))

Dated: November 19, 1981.

Peter Bibko,

Regional Administrator.

[FR Doc. 81-34640 Filed 12-1-81; 8:45 am]

BILLING CODE 6560-38-M

[1] The I/M program submitted by the State incorporates the provisions of a consent decree entered in *Delaware Valley Citizen's Council for Clean Air v. Commonwealth of Pennsylvania* and *United States v. Commonwealth of Pennsylvania* (E.D. Pa. Civ. Nos. 76-2068 and 77-619). In these cases the citizens' group and the federal government sought to compel Pennsylvania to fulfill an earlier commitment to implement I/M which was approved by EPA as a SIP revision in 1973. The consent decree applies only to the Philadelphia and Pittsburgh areas; in its Part D SIP, the state committed to apply the provisions of the decree in the Allentown-Bethlehem-Easton area.

[TSH-FRL-1996-1; OPTS-51358]

Certain Chemicals; Premanufacture Notices

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: Section 5(a)(1) of the Toxic Substances Control Act (TSCA) requires any person who intends to manufacture or import a new chemical substance to submit a premanufacture notice (PMN) to EPA at least 90 days before manufacture or import commences. Statutory requirements for section 5(a)(1) premanufacture notices are discussed in EPA statements of interim policy published in the **Federal Register** of May 15, 1979 (44 FR 28558) and November 7, 1980 (45 FR 74378). This notice announces receipt of two PMNs and provides a summary of each.

DATE: Written comments by: PMN 81-597 & 81-598, January 19, 1982.

ADDRESS: Written comments, identified by the document control number "[OPTS-51358]" and the specific PMN number should be sent to: Document

Control Officer (TS–793), Office of Pesticides and Toxic Substances, Environmental Protection Agency, Rm. E–409, 401 M St., SW., Washington, DC 20460, (202)–755–5687).

FOR FURTHER INFORMATION CONTACT: David Dull, Acting Chief, Notice Review Branch, Chemical Control Division (TS–794), Office of Toxic Substances, Environmental Protection Agency, Rm. E–216, 401 M St., SW., Washington, DC 20460, (202–426–2601).

SUPPLEMENTARY INFORMATION: The following are summaries of information provided by the manufacturer on the PMNs received by EPA:

PMN 81–597

Close of Review Period. February 18, 1982.

Importer's Identity. American Hoechst Corporation, Route 202/206 North, Somerville, NJ 08876.

Specific Chemical Identity. Butanamide, 2-[(2-methoxyphenyl)azo-N-(2,3-dihydro-2-oxo-1H-benzimiazol-5-yl)-3-oxo-.

Use. The importer states that the PMN substance will be used in coloring plastic, paint and fibers.

Import Estimates. Claimed confidential business information.

Physical/Chemical Properties

Solubility:
water and other common solvents, Insoluble
Decomposition temperature, 320°C

Toxicity Data

Acute oral toxicity LD_{50} (rat), >5,000 mg/kg
Skin irritation (rabbit), Non-irritant
Eye irritation (rabbit), Slightly irritating
Ames salmonella, Non-mutagenic

Exposure. The importer states that during processing 1 worker may experience dermal and inhalation exposure 2 hrs/day, 10 days/yr during mixing.

Environmental Release/Disposal. Disposal is by publicly owned treatment works (POTW), National Pollution Discharge Elimination System (NPDES) and approved landfill.

PMN 81–598

Close of Review Period. February 18, 1982.

Manufacturer's Identity. Claimed confidential business information.

Organization information provided:
Annual sales—Over $500 million
Manufacturing site—Middle Atlantic and East South Central regions
Standard Industrial Classification Code—282.

Specific Chemical Identity. Claimed confidential business information.

Generic name provided: A modified polymer of alkyl methacrylates, a substituted alkyl acrylate, a substituted alkane, an alkenoic acid and a vinyl aromatic compound.

Use. Claimed confidential business information. Generic use information provided: The manufacturer states that the PMN substance will be used in a contained use.

Production Estimates. Claimed confidential business information.

Physical/Chemical Properties

Appearance, Clear liquid
Specific gravity, 1.0–1.1
Flash point, 151°F (SFCC)
Viscosity for solids @ 25°C, 2,000–40,000 cps
Residual monomer, <.50%

Toxicity Data

Oral toxicity LD_{50} (rat), > 5 g/kg
Dermal toxicity LD_{50} (rabbit) > 5 g/kg
Skin irritation (rabbit), Slight
Eye irritation (rabbit), Moderate

Exposure. The manufacturer states that during manufacturing a total of 8 workers may experience dermal and occular exposure up to 8 hrs/day, up to 116 days/yr during sampling, analytical, equipment cleaning, filtration replacement, drumming operations, transfer and disposal.

Environmental Release/Disposal. The manufacturer states that 10–10,000 kg/yr will be released to land. Disposal is to an approved landfill and by incineration.

Dated: November 23, 1981.

Woodson W. Bercaw,

Acting Director, Management Support Division.

BILLING CODE 6560–31–M

FEDERAL MARITIME COMMISSION

Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for review and approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement and the justification offered therefor at the Washington office of the Federal Maritime Commission, 1100 L Street, N.W., Room 10427; or may inspect the agreement at the Field Offices located at New York, N.Y., New Orleans, Louisiana, San Francisco, California, Chicago, Illinois, and San Juan, Puerto Rico. Interested parties may submit comments on the agreement, including request for hearing, to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, within 10 days after the date of the **Federal Register** in which this notice appears. Comments should include facts and arguments concerning the approval, modification, or disapproval of the proposed agreement. Comments shall discuss with particularity allegations that the agreement is unjustly discriminatory or unfair as between carriers, shippers, exporters, importers, or ports, or between exporters from the United States and their foreign competitors, or operates to the detriment of the commerce of the United States, or is contrary to the public interest, or is in violation of the Act.

A copy of any comments should also be forwarded to the party filing the agreement and the statement should indicate that this has been done.

Agreements Nos.: T–4005 through T–4005–I.

Filing Party: Thomas E. Fotopulos, Esquire, Fowler, White, Gillen, Boggs, Villareal & Banker, P.A., 220 Madison Street, Tampa, Florida 33601.

Summary: Agreements Nos. T–4005 through T–4005–I are components of a leveraged lease transaction concerning a 50,000 short ton capacity anhydrous ammonia storage tank terminal facility at Port Sutton, Florida, involving, *inter alia*, the Tampa Port Authority (as lessor) (Port), Security Pacific Commercial leasing, Inc., (as Lessee) (SPCL) and International Minerals & Chemical Corporation (as sublessee) (IMC). Agreement No. T–4005 is a Ground Lease for the land on which the facility is located, providing for the Port's 35-year lease of this land to SPCL for an aggregate rental of $1 and the transfer of all title to the land to IMC on the termination of the ground lease. Agreement No. T–4005–A is a Facility Lease providing for the Port's 25-year lease of the facility to SPCL for basic rent equal to the debt service on the Refunding Bonds issued to finance the facility and stipulated loss value payments in the event of casualty or condemnation or purchase of the facility by SPCL equal to the unpaid principal and accrued interest on the Refunding Bonds plus a premium. Agreement No. T–4005–B provides for SPCL's 25-year sublease (with renewal options) of both the land and facility to IMC, at a basic rent and stipulated loss value payments in amounts equal to or in excess of basic rent and stipulated loss value payments provided for in Agreement No. T–4005–A. Agreement No. T–4005–C is a Throughput Agreement between the Port and IMC, providing for rent payments to

the Port in an amount equal to the greater of (a) $22,500 annually (to be increased by 10 percent at the beginning of each 5-year period during the agreement's term); or (b) an amount equal to $0.06 per short ton on all products received at the facility. Additionally, IMC will pay the Port a Tax Factor determined annually by the Port. The term of Agreement No. T–4005–C is identical to that of Agreement No. T–4005–B. Agreement No. T–4005–D is a Bill of Sale and Assignment providing that IMC will sell and transfer all of its right and interest in the facility to the Port concurrently with the issuance of the Refunding Bonds and the equity investment by SPCL under Agreement No. T–4005–F, below. Agreement No. T–4005–E is a Bond Purchase Agreement providing for the financing of the facility's construction through the issuance and sale of $8,160,000 10 percent Secured Hillsborough County Port District Special Purpose Revenue Refunding Bonds to Nationwide Mutual Insurance Company, St. Paul Fire and Marine Insurance Company and Nationwide Mutual Fire Insurance Company (collectively Bond Purchasers). Agreement No. T–4005–F is a Participation Agreement among IMC, SPCL and the Bond Purchasers, providing for SPCL's equity investment. Agreement No. T–4005–G is a Mortgage and Deed of Trust among SPCL, the Port and Exchange Bank and Trust Company of Florida (EB&T) mortgaging, pledging and assigning all of SPCL's interest under Agreements Nos. T–4005, T–4005–A and T–4005–B. Agreement No. T–4005–H is an Indenture of Trust between the Port and EB&T, securing the bonds by creating a lien and security interest in all of the Port's rights and interests in Agreements Nos. T–4005 and T–4005–A and the rents and revenues due thereunder. Agreement No. T–4005–I subordinates IMC's fee interest in the land it will acquire through the provisions of Agreement No. T–4005.

By Order of the Federal Maritime Commission.

Dated: November 27, 1981.

Francis C. Hurney,

Secretary.

[FR Doc. 81–34627 Filed 12–1–81; 8:45 am]

BILLING CODE 6730–01–M

Agreements Filed

The Federal Maritime Commission hereby gives notice that the following agreements have been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of each of the agreements and the justifications offered therefor at the Washington Office of the Federal Maritime Commission, 1100 L Street, N.W., Room 10327; or may inspect the agreements at the Field Offices located at New York, N.Y.; New Orleans, Louisiana; San Francisco, California; Chicago, Illinois; and San Juan, Puerto Rico. Interested parties may submit comments on each agreement, including requests for hearing, to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, within *20* days after the date of the **Federal Register** in which this notice appears. Comments should include facts and arguments concerning the approval, modification, or disapproval of the proposed agreement. Comments shall discuss with particularity allegations that the agreement is unjustly discriminatory or unfair as between carriers, shippers, exporters, importers, or ports, or between exporters from the United States and their foreign competitors, or operates to the detriment of the commerce of the United States, or is contrary to the public interest, or is in violation of the Act.

A copy of any comments should also be forwarded to the party filing the agreements and the statement should indicate that this has been done.

Agreements Nos. T–2880–18, T–2884–11, T–3553–3 and T–3879–1.

Filing party: John C. Barnett, Deputy Chief, Leases & Operating Agreements Division, The Port Authority of New York and New Jersey, One World Trade Center, New York, New York 10048.

Summary: The above agreements, between the Port Authority of New York and New Jersey and respective lessees, viz: John W. McGrath Corporation (T–2880–18), Universal Maritime Service Corp. (T–2884–11), International Terminal Operating Co., Inc. (T–3553–3), Venezuelan Line/Peruvian State Line (T–3879–1) amend the basic lease agreements by providing for an increase of $.10 (from $2.50 to $2.60) in the rate per revenue ton payable by the lessees under the minimum-maximum formula, without otherwise changing the manner in which the rental is computed.

Agreement No. T–3894–2.

Filing party: Mr. Randall V. Adams, Accounting/Traffic, Port of Palm Beach, P.O. Box 9935, Riviera Beach, Florida 33404.

Summary: Agreement No. T–3894–2, between the Port of Palm Beach (Port) and Johnson's Shipping Agency, Inc. (JSA), modifies the basic agreement between the parties which provides for the Port's lease to JSA of certain warehouse space at the Port of Palm Beach Terminal. The purpose of the modification is to add 8,040 square feet of warehouse space to the original lease.

Agreement No. T–3933–1.

Filing party: William E. Emick, Jr., Deputy, Offices of the City Attorney of Long Beach, Harbor Administration Building, P.O. Box 570, Long Beach, California 90801.

Summary: Agreement No. T–3933–1, between the City of Long Beach (City) and Toyota Motor Sales U.S.A., Inc. (Toyota), modifies the basic agreement between the parties which provides for the 3-year lease by City to Toyota of certain premises to be used as a contract marine terminal. The purpose of the modification is to correct a miscalculation of the compensation and to provide for a realignment of the boundaries of the premises to accommodate construction in the area.

Agreement No. T–4004.

Filing party: Milton A. Mowat, Manager, Traffic and Regulatory Affairs, Port of Portland, Box 3529, Portland, Oregon 97208.

Summary: Agreement No. T–4004 is a preferential use and terminal service agreement between the Port of Portland (Port) and Japan Line, Ltd., Kawasaki Kisen Kaisha, Ltd., Mitsui-O.S.K. Lines, Ltd., Nippon Yusen Kaisha, Ltd., Showa Line, Ltd., and Yamashita Shinnihon Steamship Company, Ltd. (Lines), and provides for the Port's preferential assignment to the Lines of 14 acres at Terminal 6, including one berth, one crane and adjacent working area. The Port will perform all terminal stevedore services, vessel stevedoring, and services required in the movement of containers and cargo on or over the premises. The Lines agree to pay for these services in accordance with Port of Portland Terminal Tariff No. 4. The Lines will compensate the Port at a minimum annual fee of $700,000, for the first year and escalating on an annual basis therafter. Revenue from dockage, wharfage, wharf demurrage, and storage paid by the Lines on their vessels and cargoes will be applied against the minimum annual guarantee. Revenues are to be shared between the Port and the Lines according to a formula set forth in the agreement. The term of the agreement is three years with an option to renew for an additional two-year term.

Agreement No. 9815–34.

Filing party: Ms. Dorothy L. Nichols, Billig, Sher & Jones, P.C., 2033 K Street, N.W., Suite 300, Washington, D.C. 20006.

Summary: Agreement No. 9615–34 modifies the basic agreement of the Iberian/U.S. North Atlantic Westbound Freight Conference by reducing from six to five the number of calls required to qualify for membership in the agreement's Spanish Olive Section.

Agreement No. 10066–2.

Filing party: Hopewell H. Darneille, III, Esquire, Bowman Conner Touhey & Thornton, 2828 Pennsylvania Avenue, N.W., Washington, D.C. 20007.

Summary: Agreement No. 10066–2 is a proposal by the parties to the U.S. East and West Coast/Colombia Equal Access Agreement to extend the term of the basic agreement from January 10, 1982, to February 21, 1983.

By Order of the Federal Maritime Commission.

Dated: November 27, 1981.

Francis C. Hurney,

Secretary.

[FR Doc. 81–34634 Filed 12–1–81; 8:45 am]

BILLING CODE 6730–01–M

[Agreements Nos. 10424, T–1875–1, T–3450–1, T–3992, T–3996, T–3998, T–3999 and T–4003]

Availability of Findings of No Significant Impact; Various Agreements

Upon completion of environmental assessments, the Federal Maritime Commission's Office of Energy and Environmental Impact has determined that the Commission's decision on the proposed actions listed below will not constitute major Federal actions significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969, 42 U.S.C. 4321 *et seq.*, and that preparation of environmental impact statements is not required.

Agreement No. 10424 proposes to combine three currently existing conferences (United States Atlantic & Gulf/Haiti Conference, FMC Agreement No. 8120; the United States Atlantic and Gulf/Jamaica Conference, FMC Agreement 4160; and the United States Atlantic & Gulf/Santo Domingo Conference, FMC Agreement No. 6080) to form the United States Atlantic & Gulf/Jamaica and Hispaniola Conference.

Agreement No. T–1875–1 is between the Port of Tacoma, Washington and Kaiser Aluminum & Chemical Corporation (Kaiser). The parties desire to extend the terms of the agreement to November 1, 1999 and change the rates on wharfage and crane rental Kaiser pays per short ton of alumina unloaded at the Port of Tacoma.

Agreement No. T–3450–1 is an agreement between the City of Los Angeles and Oversea Terminal Company, Inc. to extend the term of the nonexclusive preferential use of Berths 228–230 at Los Angeles Harbor to March 31, 1986. It also provides for the settlement of disputed claims by the Harbor Department.

Agreement No. T–3992 is between Global Terminal & Container Services, Inc. (Global) and Dart Containerline Company, Ltd. (Dart). Global will perform Dart's cargo handling services at the Port of New York.

Agreement No. T–3996, the Puerto Rico Ports Authority (PRPA) authorizes Molinos de Puerto Rico, Inc. (Molinos) to rapair the berthing facilites it uses in the Catano waterfront area of the Port of San Juan at Molino's own expense. PRPA also grants Molinos the use of the berthing facilities for five years with two renewal options of five years each.

Agreement No. T–3998, between The Port of Palm Beach District and Grand Bahama Hotel Co., is for the exclusive use of certain warehouse space at the Port of Palm Beach Terminal, City of Riviera, Florida. This facility will be used as office space and cargo storage.

Agreement No. T–3999 is between Puerto Rico Ports Authority (PRPA) and Van Storage & Services Corporation (VSSC). PRPA proposes to lease to VSSC 42,600 square feet of open space adjacent to PRPA's warehouse at Pier 11, San Juan, for parking vans.

Agreement No. T–4003 is a lease agreement between the City of Long Beach and Toyota Motor Sales, U.S.A. (Toyota) for the use of 75 acres of land including a site and facilities for processing vehicles. The agreement also includes preferential berthing rights at Berth 83 and tertiary berthing rights at Berth 82. These facilities will replace old facilities on Pier J which Toyota has occupied for several years.

The Findings of No Significant Impact (FONSI) will become final within 10 days of publication of this Notice in the **Federal Register** unless petitions for review are filed pursuant to 46 CFR 547.6(b).

The FONSI and related environmental assessments are available for inspection on request from the Office of the Secretary, Room 11101, Federal Maritime Commission, Washington, D.C. 20573, telephone (202) 523–5725.

[Independent Ocean Freight Forwarder License No. 2360]

Edward W. Brown III; Order of Revocation

On November 13, 1981, Edward W. Brown, III, 734 15th Street, N.W., Washington, D.C. 20005 requested the Commission to revoke his Independent Ocean Freight Forwarder License No. 2360.

Therefore, by virtue of authority vested in me by the Federal Maritime Commission as set forth in Manual of Orders, Commission Order No. 201.1 (Revised), § 5.01(c), dated August 8, 1977;

It is ordered, that Independent Ocean Freight Forwarder License No. 2360 issue to Edward W. Brown, III be revoked effective November 13, 1981.

It is further ordered, that Independent Ocean Freight Forwarder License No. 2360 issued to Edward W. Brown, III be returned to the Commission for cancellation.

It is further ordered, that a copy of this Order be published in the **Federal Register** and served upon Edward W. Brown, III.

[Independent Ocean Freight Forwarder License No. 1448]

Richard Diaz, d.b.a. C. A. Mar Freight Forwarding; Order of Revocation

Section 44(c), Shipping Act, 1916, provides that no independent ocean freight forwarder license shall remain in force unless a valid bond is in effect and on file with the Commission. Rule 510.15(d) of Federal Maritime Commission General Order 4 further provides that a license shall be automatically revoked for failure of a licensee to maintain a valid bond on file.

The bond issued in favor of Richard Diaz, d/b/a C. A. Mar Freight Forwarding was cancelled effective October 18, 1981.

Richard Diaz, d/b/a C. A. Mar Freight Forwarding has failed to furnish a valid bond.

By virtue of authority vested in me by the Federal Maritime Commission as set forth in Manual of Orders, Commission Order No. 201.1 (Revised), § 5.01(d) dated August 8, 1977;

Notice is hereby given, that Independent Ocean Freight Forwarder License No. 1448 be and is hereby revoked effective October 18, 1981.

It is ordered, that Independent Ocean Freight Forwarder License No. 1448 issued to Richard Diaz, d/b/a C. A. Mar Freight Forwarding be returned to the Commission for cancellation.

It is further ordered, that a copy of this Order be published in the **Federal Register** and served upon Richard Diaz, d/b/a C. A. Mar Freight Forwarding.

GENERAL SERVICES ADMINISTRATION

[F-81-20]

Delegation of Authority to Secretary of Defense

1. *Purpose.* This delegation authorizes the Secretary of Defense to represent the consumer interests of the executive agencies of the Federal Government in proceedings before the Virginia State Corporation Commission involving intrastate telecommunications service rates.

2. *Effective date.* This delegation is effective immediately.

3. *Delegation.*

a. Pursuant to the authority vested in me by the Federal Property and Administrative Services Act of 1949, 63 Stat. 377, as amended, particularly sections 201(a)(4) and 205(d) [40 U.S.C. 481(a)(4) and 486(d)], authority is delegated to the Secretary of Defense to represent the consumer interests of the Federal executive agencies before the Virginia State Corporation Commission involving the application of the Chesapeake and Potomac Telephone Company of Virginia for an increase in rates for telecommunications services.

b. The Secretary of Defense may redelegate this authority to any officer, official, or employee of the Department of Defense.

c. This authority shall be exercised in accordance with the policies, procedures, and controls prescribed by the General Services Administration, and shall be exercised in cooperation with the responsible officers, officials, and employees thereof.

d. The Department of Defense shall add the General Services Administration to its service list in this case so that GSA will receive copies of testimony, briefs, and other Department of Defense filings.

Dated: November 20, 1981.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Office of the Assistant Secretary for Health

Diathermy (Shortwave, Microwave and Ultrasound); Assessment of Medical Technology

The Public Health Service (PHS) through the Office of Health Research, Statistics, and Technology (OHRST) announces that it is coordinating an assessment of what is known of the safety and clinical effectiveness of diathermy (shortwave, microwave and ultrasound). The PHS assessment consists of a synthesis of information obtained from appropriate organizations in the private sector and from PHS agencies and others in the Federal government.

PHS assessment are based on the most current knowledge concerning the safety and clinical effectiveness of a technology. Based on this assessment, a PHS recommendation will be formulated to assist the Health Care Financing Administration (HCFA) in establishing Medicare coverage policy. Any person or group wishing to provide OHRST with information relevant to this assessment should do so in writing no later than March 2, 1982. The information being sought is a review and assessment of past, current, and planned research related to this technology, a bibliography of published controlled clinical trials and other well designed clinical studies, and other information related to the clinical acceptability and relative utility of this technology. Proprietary information is not being sought.

Written material should be submitted to: Medical and Scientific Evaluation Staff, Office of Health Research, Statistics and Technology, Room 17A40, Parklawn Building, 5600 Fishers Lane, Rockville, Maryland 20857.

For further information contact: Dennis J. Cotter, Health Science Analyst, at the above address or by telephone (301) 443-4990.

Dated: November 17, 1981.

Wayne C. Richey, Jr.,

Acting Executive Secretary, Office of Health Research Statistics, and Technology.

BILLING CODE 4160-18-M

Health Resources Administration

Application Announcement for Grants for Traineeships for Students in Schools of Public Health (Formula)

The Bureau of Health Professions, Health Resources Administration, announces that applications for Fiscal Year 1982, Grants for Traineeships for Students in School of Public Health are now being accepted under the authority of section 792 (previously 748(a)(1)) of the Public Health Service Act as amended by Pub. L. 97-35.

Section 792 authorizes the Secretary to award grants to accredited schools of public health for traineeships for students enrolled in graduate or specialized training in public health. Traineeships may include the payment

of stipends, tuition, and fees. Of the amount received by a grantee in Fiscal Year 1982, at least 65 percent shall go to students with a previous baccalaureate degree or three years' work experience in health services and who are pursuing a course of study in:

(1) Biostatistics or epidemiology,

(2) Health administration, health planning, or health policy analysis and planning,

(3) Environmental or occupational health,

(4) Dietetics or nutrition,

(5) Preventive medicine or dentistry, or

(6) Maternal and child health.

Fiscal Year 1982 application materials are being made available prior to final action on an appropriation for this program. The Omnibus Budget Reconciliation Act of 1981 (Pub. L. 97–35) authorizes approximately $3 million in Fiscal Year 1982 for grants. However, this amount is subject to change when the final Fiscal Year 1982 appropriation is enacted.

Requests for application materials and questions regarding grants policy should be directed to: Grants Management Officer (A–03), Bureau of Health Professions, Health Resources Administration, Center Building, Room 4–27, 3700 East-West Highway, Hyattsville, Maryland 20782, Telephone: (301) 436–7360.

To be considered for Fiscal Year 1982 funding, applications must be received by the Grants Management Officer, at the above address no later than February 8, 1982.

Should additional programmatic information be required, please contact: Mr. Ernest W. Michelson, Chief, Education Development Branch, Division of Associated Health Professions, Bureau of Health Professions, Health Resources Administration, Center Building, Room 5–27, 3700 East-West Highway, Hyattsville, Maryland 20782, Telephone: (301) 436–6800.

This program is listed at 13.964 in the Catalog of Federal Domestic Assistance. Applications submitted in response to this announcement are not subject to review by State and areawide clearinghouses under the procedures in the Office of Management and Budget Circular No. A–95.

Robert Graham,

Acting Administrator.

Working Group on Blood Resources and Blood Substitutes; Meeting

Notice is hereby given of the meeting of the Working Group on Blood Resources and Blood Substitutes, sponsored by the National Heart, Lung, and Blood Institute, on January 25, 1982, from 9:00 a.m. to 12:30 p.m., Building 31, C Wing, Conference Room 9 at the National Institutes of Health, 9000 Rockville Pike, Bethesda, MD 20205.

The entire meeting, will be open to the public. The Working Group on Blood Resources and Blood Substitutes is meeting to examine and coordinate federal research activities which concern human blood and its substitutes. Attendence by the public will be limited to space available.

For detailed program information, a list of meeting participants, and a meeting summary contact: Dr. David M. Robinson, Co-Chairman, IATC Working Group on Blood Resources and Blood Substitutes, National Heart, Lung, and Blood Institute, National Institutes of Health, Building 31, Room 5A03, 9000 Rockville Pike, Bethesda, MD 20205, 301–496–5031.

Dated: November 17, 1981.

Thomas E. Malone,

Deputy Director, NIH.

[FR Doc. 81–34467 Filed 12–1–81; 8:45 am]

BILLING CODE 4140–01–M

DEPARTMENT OF THE INTERIOR

Office of the Secretary

[516 DM 6, Appendix 1]

National Environmental Policy Act Revised Implementing Procedures

AGENCY: Department of the Interior.

ACTION: Notice of proposed revised instructions for the Fish and Wildlife Service

SUMMARY: This notice proposes a complete revision to the actions categorically excluded from the NEPA process for the Fish and Wildlife Service. The current categorical exclusions were published in the **Federal Register** on July 17, 1980; 45 FR 47941.

DATE: Comments due by January 18, 1982.

ADDRESS: Comments to: J. Robinson West, Assistant Secretary—Policy, Budget and Administration, Department of the Interior, Washington, D.C. 20240.

FOR FURTHER INFORMATION CONTACT: Bruce Blanchard, Director of Environmental Project Review, Office of the Secretary, Department of the Interior, Washington, D.C. 20240, Telephone (202) 343–3891. For Fish and Wildlife Service, contact Gene Whitaker, Telephone (202) 343–5685.

SUPPLEMENTARY INFORMATION: This is a proposed revision to section 14 of Appendix 1 to Chapter 6, Part 516 of the Departmental Manual (516 DM 6, App. 1.4). It would completely replace the categorical exclusions previously published in the **Federal Register** on July 17, 1980; 45 FR 47941. The Department's NEPA procedures were published on April 23, 1980; 45 FR 27541.

These proposed categorical exclusions expand upon the current exclusions and are based on continued experience with the NEPA process, especially in regard to actions in the endangered species and State grant programs.

Comments on this proposed revision are invited. To be considered in the preparation of the final revision, comments must be received by January 18, 1982.

Dated: November 27, 1981.

Bruce Blanchard,

Director, Environmental Project Review.

516 DM 6, Appendix 1

Section 1.4 is proposed to be changed as follows:

1.4 Categorical Exclusions

In addition to the actions listed in the Departmental categorical exclusions outlined in Appendix 1 of 516 DM 2, many of which the Service also performs, the following FWS actions are designated categorical exclusions unless the action qualifies as an exception under 516 DM 2.3(A)(3):

A. *Information Gathering.*

1. Inventory, data, and information collection, which does not involve substantial animal mortality, undertaken to determine the number and condition of fish and wildlife, their habitats, and the public use of these resources.

2. Research studies which do not involve substantial animal mortality, introduction of exotic organisms, long-term environmental disruption, or introduction of unpermitted contaminants into the environment.

B. *Refuge, Hatchery, and Resource Management.*

1. Routine operations and maintenance of existing structures, facilities, and resource developments, including habitats.

2. Renovation or replacement of minor structures and facilities that continue the present function in the same general location with no or minor environmental effects and that do not require a permit from another Federal agency.

3. Permitting additional use of an existing right-of-way, including the addition of new power or telephone lines when there is no change in pole configuration and the addition of buried lines, or minor deviations from or additions to an existing right-of-way when there is an environmental document that addresses the same or similar impact in the right-of-way area.

4. The maintenance and improvement of existing roads and parking lots and the installation of routine signs when there will be no or only minor environmental impact.

5. Reintroduction of endemic or native species into their historical habitat, with no or only minor effects on other species.

6. Reissuance of special use permits not entailing environmental disturbance.

7. Minor changes in amounts or types of public use or environmental education activities, in accordance with existing regulations.

8. The reissuance of annual grazing and agricultural use permits which do not increase the level of use or continue environmentally unsatisfactory conditions.

9. The addition of small buildings, structures, or facilities in existing development areas with no or minor environmental effect.

10. Removal of discarded or abandoned materials and structures, including dumps, automobiles, fences, and buildings, in order to restore natural appearances.

C. *Endangered Species.*

1. Technical assistance and recommendations provided to other agencies and private parties.

2. Consultation provided under Section 7 of the Endangered Species Act (16 U.S.C. 1536).

3. Actions under an approved recovery plan for which an environmental document has been prepared in conjunction with plan approval when taken to promote the conservation of a species providing there are no or only minor effects on other species.

D. *Permit and Regulatory Functions.*

1. Issuance of plant and wildlife permits pursuant to 50 CFR 13, including permits for: importation at non-designated ports and marking (Part 14), feather imports (Part 15), injurious wildlife (Part 16), endangered species (Part 17), marine mammals (Part 18), migratory birds (Part 21), eagles (Part 22), and endangered species convention (Part 23).

2. Issuance of routine, recurring, and special regulations for hunting, fishing, public access, recreation, and other uses of FWS-managed lands unless they involve a significant change in the level of use

previously permitted or continue enviornmentally unsatisfactory conditions.

3. Activities related to the enforcement of fish and wildlife laws including, but not limited to, the investigation of violations, inspections, and seizure of property, forfeiture or abandonment of property, and disposal of forfeited or abandoned property.

E. *Other.*

1. Issuance and modification of procedures, manuals, handbooks, orders, and field rules where the impacts are limited to administrative, economic, or technological effects and the environmental effects are minimal.

2. Training actions for personnel and efforts to make the public aware of fish and wildlife resources and their values and knowledgeable of their responsibilities toward these resources.

3. Consultation, technical guidance, and assistance, including reports or recommendations provided to other Federal or State agencies, corporations, or individuals to assist them in their planning actions to either benefit or minimize harm to fish and wildlife resources.

4. Minor changes or amendments in an approved action with an environmental document covering the same or similar impacts.

F. *Grants to States for Fish and Wildlife Restoration and Management Projects.*

1. Grants for categorically excluded actions listed in paragraphs A, B, C, and E above.

2. Grants for land acquisition by a State agency from a willing seller with consultation with local (town and/or county) governing bodies and where no major changes in land use are contemplated.

3. Grants for administrative, advisory, and clerical services for Federal Aid projects and for the development of plans and planning systems including the administrative determination by FWS that a State's planning system meets prescribed standards.

4. Grants for hunter education activities except for target range construction.

BILLING CODE 4310-55-M

Bureau of Land Management

Big Flat-Squaw Park Management Framework Plan; Surface Mining of Carbonaceous Shale (Humate); Planning Amendment

November 24, 1981.

The Grand Resource Area of the Moab District of the Bureau of Land Management is preparing a planning amendment to consider surface mining of carbonaceous shale (humate) in the Westwater portion of the Big Flat-Squaw Park planning unit.

The proposal is to surface mine humate from a 200-acre area located within Section 22, T.19S., R.25E., SLB&M. The proposed site is approximately 65 miles East along I-70 from Green River, Utah; three miles South of Harley Dome, Utah; and five miles West of the Utah-Colorado State line.

The main issues to be considered are:

1. Alteration of 200 acres of pinyon-juniper vegetation.

2. Alteration of topography of area to be surface mined.

3. Increased scientific knowledge of fossilized flora in the area.

4. Visual intrusion for travelers on Interstate 70.

5. Destruction of six cultural sites located within the mine area.

6. Heavy truck traffic conflicts with historical use of the area (Westwater access road).

7. Rehabilitation of area following removal of humate material.

The environmental assessment (EA) is being prepared under a third party contract. A full interdisciplinary approach will be followed in reviewing the EA.

For further information concerning the planning amendment, contact Colin P. Christensen, Grand Resource Area Manager, Sand Flats Road, Moab, Utah 84532, or call (801) 259-6111. A copy of the EA is available at this address and phone number.

Kenneth V. Rhea,

Acting District Manager.

BILLING CODE 4310-84-M

[Serial No. I-17872]

Conveyance of Public Lands, Ada County, Idaho

Notice is hereby given that pursuant to the Act of October 21, 1976 (90 Stat. 2750; 43 U.S.C. 1713), the following-described public land has been sold by direct sale to Robert G. Lewis and Miriam E. Lewis, P.O. Box 4293, Boise, Idaho 83704.

Boise Meridian, Idaho

T. 5 N., R. 1 E.,
Sec. 20, Lot 2.
Comprising 2.14 acres.

The lands were conveyed on November 12, 1981, to settle an Unintentional Occupancy caused by an erroneous property line survey made by a private surveyor on adjacent private land. The public interest was well served through completion of the sale.

The fair value of the public land was appraised at $3,200 and payment in this amount was received by the United States.

Dated: November 24, 1981.

Louis B. Bellesi,

Chief, Division of Technical Services.

BILLING CODE 4310-84-M

[Serial No. OR 33587]

Designation of Myrtle Island Research Natural Area, Oregon

Pursuant to the authority in 43 CFR Part 2070 and authorization from the Director dated November 4, 1981, I hereby designate the following described public land as the Myrtle Island Research Natural Area:

Willamette Meridian

T. 24 S., R. 7 W.,
Sec. 20, lot 9
Sec. 21, lot 11.
The area described contains 28.28 acres in Douglas County, Oregon.

In accordance with 43 CFR 2071.4(a), this designation action is only for the purpose of identifying the Bureau's current management objectives for the area, and, unto, itself, has no effect upon established use or management of the lands and resources involved. The area is designated under the category of Natural Resources Experiment and Research Areas, which covers relatively small areas used for research or experimental purposes (43 CFR 2071(b)(4)). The primary management objectives for Myrtle Island are to maintain its quality as a significant example of natural diversity, and to facilitate its use by authorized persons and groups for nonmanipulative and nondestructive scientific research and education. The area has been determined to meet the criteria for BLM Research Natural Areas prescribed by 43 CFR 8223.0-5. It will be managed under regulations in 43 CFR 8223.1 and in accordance with Public Land Order 754, dated September 14, 1951, or any future amendments thereof.

William G. Leavell,

State Director.

BILLING CODE 4310-84-M

Proposed Public Land and Resource Planning Amendment; Trinity Management Framework Plan, Four-Rivers Resource Area, California

This notice is to advise the public of a proposed change in the Trinity Management Framework Plan, Four-Rivers Resource Area, Redding District Office. The Four-Rivers Resource Area Manager has proposed a change in the land use classification of the N½NW¼NW¼SE¼, Section 14, T. 32 N., R. 10 W., Mount Diablo Meridian, California (approximately 2.5 acres), from not allowing R&PP disposal action. Specifically, the site would be used for construction of the Douglas City Community Services District fire station.

No environmental or public issues are anticipated. However, an environmental assessment has been prepared by an interdisciplinary team to analyze identified affects. The team was composed of the following disciplines:

Forestry
Botany
Archaeology
Landscape Architecture
Wildlife Biology

Comments concerning the proposed amendment will be accepted until January 4, 1982.

Comments or suggestions should be sent to the Four-Rivers Resource Area Manager, Bureau of Land Management, 355 Hemstead Drive, Redding, California 96002. The Trinity Management Framework Plan, Land Report, Environmental Assessment and casefile are available for public inspection at this location.

For further information, contact Dwain Davis, (916) 246–5325.

Stanley D. Butzer,

District Manager.

[FR Doc. 81-34554 Filed 12-1-81; 8:45 am]

BILLING CODE 4310-84-M

Platte River Resource Area, Casper District, Wyoming; Intent To Prepare Resource Management Plan and Environmental Impact Statement

November 23, 1981.

AGENCY: Bureau of Land Management, Interior.

ACTION: Initiation of a Resource Management Plan and Environmental Impact Statement for the Platte River Resource Area, Casper District, Wyoming.

SUMMARY: The Casper District is initiating development of a Resource Management Plan (RMP), an integral component of which is an environmental impact statement (EIS). In addition, the public is invited to identify issues to be addressed in the RMP or to comment on issues identified by BLM staff and included below.

LOCATION OF DOCUMENTS:

Throughout the development of the RMP, documentation records and completed documents pertaining to the RMP will be available for public review at the Platte River Resource Area, 951 Rancho Road, Casper, Wyoming 82601

FOR FURTHER INFORMATION CONTACT:

For additional information, to be placed on the Platte River mailing list, or to add to or comment on the list of issues to be addressed in the RMP contact: Jim Melton, Area Manager, Platte River Resource Area, 951 Rancho Road, Casper, Wyoming 82601 (307) 265–5550, Ext. 5101.

SUPPLEMENTARY INFORMATION: The Casper District is initiating development of a Resource Management Plan (RMP) to guide future management actions on the public lands within the Platte River Resource Area. The Platte River Resource Area is located in the east-central Wyoming counties of Natrona, Converse, Platte, and Goshen. Within these four counties, BLM manages 19 percent of the surface, approximately 1.7 million acres, and about 66 percent of the mineral estate, approximately 5.9 million acres

The RMP will be a long-range comprehensive land use plan. The objective of the RMP is to improve resource management decisions on public lands through a planning process which incorporates public participation, maximizes use of the best available data, and analyzes alternatives for multiple use management. Resource management plans are required under the Federal Land Management Policy Act of 1976. Standards, guidelines, and procedures for RMP preparation are contained in 43 CFR Part 1600.

The steps in the RMP process include identification of issues, development of planning criteria to address the issues, inventory data and information collection, analysis of the management situation, formulation of alternatives, estimation of effects of alternatives, selection of preferred alternatives, selection of the resource management plan, and monitoring and evaluation of the plan. Completion of the RMP is scheduled for September 1984.

The identification of issues focuses the direction of the RMP at the outset of the process. BLM staff has identified general issues to be addressed. These include: rangeland uses; present and future developments for energy and non-energy minerals; land development; recreation, cultural resource and wildlife uses and managememt; social and economic conditions; access and rights-of-way; and soil, air, and water quality The public, including other federal agencies and state and local governments, is invited to suggest additional issues that should be addressed by the RMP or to comment on those issues identified by the BLM staff. Comments should be sent to the address indicated above and should be received by the BLM within 30 calendar days of publication of this notice.

Alternatives developed in the RMP process will range from those favoring resource protection to those favoring resource production and will include the no action alternative, which is a continuation of present management. An integral component of the RMP process will be an environmental impact statement (EIS).

Public participation will also be an essential element of the RMP process with opportunities for public input offered throughout the process. In addition to the opportunity to suggest or comment on issues identified at this first stage of the planning process, there will be a 30-day comment period on the planning criteria developed to address specific issues and a 90-day comment period and a public hearing on the draft EIS. Notice of all public participation opportunities will be given through Federal Register notices, local media, and mailings to all parties on the mailing list. Public meetings will be considered when requested and when accompanied by appropriate rationale.

An interdisciplinary team will be formed to develop the RMP. Disciplines to be represented include: geology, range, realty, forestry, archaeology, sociology, economics, hydrology, wildlife, recreation, soils, and air quality.

Dated: November 23, 1981

Leslie A. Olver,

Acting District Manager.

INTERSTATE COMMERCE COMMISSION

Agricultural Cooperative; Notice to the Commission of Intent To Perform Interstate Transportation for Certain Nonmembers

Dated: November 27, 1981.

The following Notices were filed in accordance with section 10526(a)(5) of the Interstate Commerce Act. These rules provide that agricultural cooperatives intended to perform nonmember, non-exempt, interstate transportation must file the Notice, form BOP-102, with the Commission within 30 days of its annual meeting each year. Any subsequent change concerning officers, directors, and location of transportation records shall require the filing of a supplemental Notice within 30 days of such change. The name and address of the agricultural cooperative, the location of the records, and the name and address of the person to whom inquiries and correspondence should be addressed, are published here for interested persons. Submission of information that could have bearing upon the propriety of a filing should be directed to the Commission's Office of Consumer Protection, Washington, D.C. 20423. The Notices are filed in Ex Parte No. MC-75 (Sub No. 1) and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C. 20423.

Motor Carriers; Applications, Alternate Route Deviations, and Intrastate Applications

Motor Carrier Intrastate Application(s)

The following application(s) for motor common carrier authority to operate in intrastate commerce seek concurrent motor carrier authorization in interstate or foreign commerce within the limits of the intrastate authority sought, pursuant to Section 10931 (formerly Section 206(a)(6)) of the Interstate Commerce Act. These applications are governed by Special Rule 245 of the Commission's *General Rules of Practice* (49 CFR 1100.245), which provides, among other things, that protests and requests for information concerning the time and place of State Commission hearings or other proceedings, any subsequent changes therein, and any other related matters shall be directed to the State Commission with which the application is filed and shall *not* be addressed to or filed with the Interstate Commerce Commission.

New York Docket T-9939, filed September 14, 1981. Applicant: BEST TIME MESSENGER SERVICE INC., 38 Middle Neck Road, Great Neck, NY 11201. Representative: Herman & Natale, Esqs., 600 Old Country Road, Garden City, NY 11530. Certificate of Public Convenience and Necessity sought to operate a freight service, as follows: Transportation of: General Commodities—Between all points in New York City and Nassau and Suffolk Counties. Intrastate, interstate and foreign commerce authority sought. Hearing: date, time and place not yet fixed. Request for procedural information should be addressed to the New York State Department of Transportation, 1220 Washington Ave., State Campus, Albany, NY 12232, and should not be directed to the Interstate Commerce Commission.

North Carolina Docket T-2142, filed June 29, 1981. Applicant: ROWAN FREIGHT CO., INC., Peeler Road, Salisbury, NC 28114. Representative: William P. Farthing, Jr., 1100 Cameron-Brown Bldg., Charlotte, NC 28204. Certificate of Public Convenience and Necessity sought to operate a freight service, as follows: Transportation of: Group 1 General Commodities over irregular routes—Between points in Rowan County, NC, on the one hand, and, on the other, all points in NC. Intrastate, interstate and foreign commerce authority sought. Hearing: date, time and place not yet fixed. Request for procedural information should be addressed to the State of North Carolina Utilities Commission, P.O. Box 991, Raleigh, NC 27602, and should not be directed to the Interstate Commerce Commission.

By the Commission.

BILLING CODE 7035-01-M

Motor Carrier Finance Applications; Decision-Notice

The following applications, filed on or after July 3, 1980, seek approval to consolidate, purchase, merge, lease operating rights and properties, or

V 46 / 231 DEC 2 81 UMI

acquire control of motor carriers pursuant to 49 U.S.C. 11343 or 11344. Also, applications directly related to these motor finance applications (such as conversions, gateway eliminations, and securities issuances) may be involved.

The applications are governed by Special Rule 240 of the Commission's Rules of Practice (49 CFR 1100.240). See Ex Parte 55 (Sub-No. 44), *Rules Governing Applications Filed By Motor Carriers Under 49 U.S.C. 11344 and 11349*, 363 I.C.C. 740 (1981). These rules provide among other things, that opposition to the granting of an application must be filed with the Commission in the form of verified statements within 45 days after the date of notice of filing of the application is published in the **Federal Register**. Failure seasonably to oppose will be construed as a waiver of opposition and participation in the proceeding. If the protest includes a request for oral hearing, the request shall meet the requirements of Rule 242 of the special rules and shall include the certification required.

Persons wishing to oppose an application must follow the rules under 49 CFR 1100.241. A copy of any application, together with applicant's supporting evidence, can be obtained from any applicant upon request and payment to applicant of $10.00, in accordance with 49 CFR 1100.241(d).

Amendments to the request for authority will not be accepted after the date of this publication. However, the Commission may modify the operating authority involved in the application to conform to the Commission's policy of simplifying grants of operating authority.

We find, with the exception of those applications involving impediments (e.g., jurisdictional problems, unresolved fitness questions, questions involving possible unlawful control, or improper divisions of operating rights) that each applicant has demonstrated, in accordance with the applicable provisions of 49 U.S.C. 11301, 11302, 11343, 11344, and 11349, and with the Commission's rules and regulations, that the proposed transaction should be authorized as stated below. Except where specifically noted this decision is neither a major Federal action significantly affecting the quality of the human environment nor does it appear to qualify as a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient protests as to the finance application *or* to any application directly related thereto filed within 45 days of publication (or, if the application later becomes unopposed), appropriate authority will be issued to each applicant (unless the application involves impediments) upon compliance with certain requirements which will be set forth in a notification of effectiveness of this decision-notice. To the extent that the authority sought below may duplicate an applicant's existing authority, the duplication shall not be construed as conferring more than a single operating right.

Applicant(s) must comply with all conditions set forth in the grant or grants of authority within the time period specified in the notice of effectiveness of this decision-notice, or the application of a non-complying applicant shall stand denied.

Dated: November 24, 1981.

By the Commission, Review Board Number 3, Members Krock, Joyce, and Dowell.

Agatha L. Mergenovich,

Secretary.

MC–F–14721, filed October 23, 1981. REDSTONE CORPORATION (Redstone) (123 Coulter Avenue, Ardmore, PA 19003)–CONTROL-TRAVIS TRANSPORTATION, INC. (TTI) (6013 Rittiman Plaza, San Antonio, TX 78218. Representative: Maxwell A. Howell, 1100 Investment Bldg., 1511 K St., NW, Washington, D.C. 20005. Redstone, a non-carrier in control of a carrier, seeks approval to control the interstate operating rights and property of TTI through the ownership of stock. TTI is generally a contract carrier of designated commodities for named shippers between points in much of the United States under docket No. MC–150567 and subs thereunder, it also holds common carrier authority under MC–150954. Redstone controls, through stock ownership, Alamo Express, Inc. (Alamo) a common carrier of property under docket No. MC–107727 and subs thereunder. Alamo is authorized to transport general commodities (with the usual exceptions) between areas in Southern Texas on the one hand, and, on the other, points and designated counties, in IN, OH, MI, AL, AZ, AR, CA, CO, FL, GA, IA, IL, KY, KS, MO, NM, NC, MS, OK, SC, TN, UT, WI and LA. No TA application has been filed.

Note.—Since a substantial portion of the investment of, and revenues derived by, Redstone Corporation involve regulated transportation, Redstone shall be considered a carrier pursuant to 49 U.S.C. 11348, to the extent of the statutory provision and the Commission's regulations pertaining to accounting procedures, record keeping, reporting requirements, and securities issuances or assumptions.

BILLING CODE 7035–01–M

Motor Carrier Finance Applications; Decision-Notice

As indicated by the findings below, the Commission has approved the following applications filed under 49 U.S.C. 10924, 10926, 10931 and 10932.

We find:

Each transaction is exempt from section 11343 (formerly section 5) of the Interstate Commerce Act, and complies with the appropriate transfer rules.

This decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

Petitions seeking reconsideration must be filed within 20 days from the date of this publication. Replies must be filed within 20 days after the final date for filing petitions for reconsiderations; any interested person may file and serve a reply upon the parties to the proceeding. Petitions which do not comply with the relevant transfer rules at 49 CFR 1132.4 may be rejected.

If petitions for reconsideration are not timely filed, and applicants satisfy the conditions, if any, which have been imposed, the application is granted and they will receive an effective notice. The notice will indicate that consummation of the transfer will be presumed to occur on the 20th day following service of the notice, unless either applicant has advised the Commission that the transfer will not be consummated or that an extension of time for consummation is needed. The notice will also recite the compliance requirements which must be met before the transferee may commence operations.

Applicants must comply with any conditions set forth in the following decision-notices within 30 days after publication, or within any approved extension period. Otherwise, the decision-notice shall have no futher effect.

It is Ordered:

The following applications are approved, subject to the conditions stated in the publication, and further subject to the administrative requirements stated in the effective notice to be issued hereafter.

By the Commission, Review Board Number 3, Krock, Joyce and Dowell.

MC–FC–78773. (CORRECTION) (Previously published in the **Federal Register** issue of October 27, 1980). By decision of September 23, 1980, issued under 49 U.S.C. 10926 and the transfer

rules at 49 CFR 1132, The Motor Carrier Board approved the transfer to WESTERN TURF EXPRESS INC., of Certificate No. MC–129156 (Sub-No. 1) issued April 7, 1975 to GIDDI-UP-GO HORSE TRANSPORTATION, INC. authorizing the transportation of *horses*, other than ordinary, *mascots, personal effects* of attendants, trainers, and exhibitors, and *supplies and equipment* used in the care and exhibition of such animals, between points in AZ, AR, CA, CO, IL, KY, LA, MI, NE, NV, NM, OK, OR, TX, UT, and WA. Representative: Earl Brown, 1316 Southwest 16th, Renton, WA 98055.

Note.—The purpose of this republication is to add the State of Colorado to the territorial description. It has been omitted by mistake.

MC–FC–79386. By decision of 10/21/81 issued under 49 U.S.C. 10926 and the transfer rules at 49 C.F.R. 1132, Review Board Number 3 approved the transfer to R. B. RAINES, SR. AND WILLIAM RAINES, A PARTNERSHIP d.b.a. R & R TRUCKING, of Princeton, LA, of permit No. MC–143645 Sub 2 issued to HOMER JONES, d.b.a. HOMER JONES TRUCKING, of Minden, LA, authorizing: *gravel*, from Wilton, AR to named parishes in LA, under contract with Bruswell Industries, Inc. Applicant's representative: D. Paul Stafford, P.O. Box 45538, Dallas, TX 75245. TA lease is not sought. Transferee is not a carrier.

MC–FC–79458. By decision of November 6, 1981 issued under 49 U.S.C. 10926 and the transfer rules at 49 C.F.R. 1132, Review Board Number 3 approved the transfer to GARY ISKER d.b.a. PRAIRIE DRAY LINES of Certificate No. MC–146837 (Sub-No. 2F) issued to SOUTHERN MINNESOTA GROCERY COMPANY authorizing the transportation of *salt*, from Hutchinson, KS, to points in Iowa, Minnesota, Wisconsin, and Missouri.

Applicants' representative: Andrew R. Clark, 1600 TCF Tower, Minneapolis, MN 55402.

Note.—Transferee is a non-carrier however, currently has pending a petition for substitution of applicant in MC–146837 (Sub-No. 3).

MC–FC–79448. By decision of 11/16/81 Review Board 3 approved the transfer to GLENNA HICKS, d.b.a. GENE HICKS (Madisonville, TN) of permit No. MC–146434 (Sub-No. 2) issued to GENE HICKS (Madisonville, TN) (Glenna Hicks, Executrix) authorizing *lumber* and *lumber mill products*, from Madisonville, TN, to points in KY, NC, GA, AL, IN, and OH under contract with Melvin Sheets Lumber Co., of Madisonville, TN. Applicant's representative: Rudolph L. Ennis, P.O. Box 550, Knoxville, TN 37901.

MC–FC–79449. By decision of 11/16/81 issued under 49 U.S.C. 10926 and the transfer rules at 49 C.F.R. 1132, Review Board Number 3 approved the transfer to PHOENIX TRUCKING CO., of Ravenna, OH of Certificate No. MC–106373 (Sub-Nos. 36, 39, 44, 45, 47, and 48 issued, respectively, October 3, 1979, April 24, 1980, May 6, 1981, August 14, 1980, August 14, 1980, and December 11,1980, to THE SERVE TRANSPORT CO., of Ravenna, OH, authorizing the transportation of *iron and steel articles* and *materials, equipment, and supplies* used in the manufacture and distribution of iron and steel articles from and to described points in the East.

MC–FC–79452. By decision of November 5, 1981, issued under 49 U.S.C. 10926 and the transfer rules at 49 CFR 1132, Review Board Number 3 approved the transfer to GRANDVIEW ENTERPRISES, INC., of Portland, OR, or Permit No, MC–139884 (Sub-No. 6)X, issued July 17, 1981, to KLIMA, INC., of Portland, OR, authorizing the transportation of (1) *transportation equipment*, between points in the United States, Under continuing contracts with Allied Body Works, of Seattle, WA; (2) *food and related products*, between points in the United States, under continuing contracts with (a) Luden's Inc., of Reading, PA, and (b) Northwest Brokerage Co., of Seattle, WA; and (3) *lumber and wood products*, between points in the United States, under continuing contracts with (a) Dana-Deck, Inc., of Bellingham, WA, and (b) Tri-Mac Panel Products, Inc., of Portland, OR. Representative: Lawrence V. Smart, Jr., 419 N.W. 23rd Avenue, Portland, OR 97210.

Notes.—TA has not been filed. Transferee is a motor contract carrier operating under authority issued in MC–139588.

MC–FC–79454. By decision of 11/16/81 issued under 49 U.S.C. 10926 and the transfer rules at 49 CFR 1132, Review Board Number 3 approved the transfer to RICHARD HEATHERLY d.b.a. TANK TRANSPORTS, of Newport, AR, of Certificate No. MC–150530 Sub 1F, issued February 23, 1981, to IKE HALL AND JAMES THORPE, d.b.a. IKE HALL WHOLESALE CO., of Newport, AR, authorizing the transportation of *ground limestone and roofing granules*, between points in Shelby County, TN, on the one hand, and, on the other, points in Pulaski and Independence Counties, AR. Approval of this transfer is conditioned upon Ruby P. Hall submitting copies of appropriate court orders stating that she has been appointed executrix of the estate of James Ike Hall. Representative: James N. Clay, III, 222 E. Mallory Ave., Memphis, TN 38109.

Notes.—TA has been filed. Transferee is a non-carrier.

MC–FC–79455. By decision of November 16, 1981 issued under 49 U.S.C. 10926 and the transfer rules at 49 CFR 1132, Review Board Number 3 approved the transfer to M. L. Rogers, Inc., of South Windham, ME, of Certificate Nos. MC–31245 and MC–31245 (Sub-Nos. 4 and 7), issued to ESTATE OF MAURICE L. ROGERS, of South Windham, ME, (Jennie S. Rogers, Executrix), authorizing the transportation of (1) *building materials and supplies, heavy machinery, farm machinery, fertilizer, lumber and forest products, and snow removal equipment*, between points in ME, on the one hand, and, on the other, points in MA and NH; (2) *box shooks*, from Clarks Mill, ME, to points in NY; (3) *lumber*, from the boundary line between the U.S. and Canada, at or near Coburn Gore, ME, to South Windham, ME; and (4) *building materials, prefabricated homes, machinery, snow removal equipment*, and *fertilizer*, between points in ME, on the one hand, and, on the other, points in VT, RI, and CT. Representative: Kenneth Baird, 477 Congress Street, Portland, ME 04101.

Notes.—TA has not been filed. Transferee is not a carrier.

MC–FC–79457. By decision of 11/16/81 issued under 49 U.S.C. 10926 and the transfer rules at 49 CFR 1132, Review Board Number 3 approved the transfer to JBM ENTERPRISES, INC., of Butler, PA of Certificate No. MC–145791 Sub 3F issued to JAMES B. MILLER, d/b/a J. B. MILLER ENTERPRISES, of Butler, PA, authorizing (1) *such commodities* as are dealt in or used by homeproducts manufacturers and distributors of cosmetics, toilet preparations and jewelry, and (2) *such commodities* as are distributed by hardware stores, between points in PA, OH, IN, IL, WV, MD, DE, NJ, NY, MA, VA, NC, SC, and DC. Applicant's representative: Arthur J. Diskin, 806 Frick Bldg., Pittsburgh, PA 15219. TA lease is not sought. Transferee is not a carrier.

MC–FC–79459. By decision of 11/16/81 issued under 49 U.S.C. 10926 and the transfer rules at 49 CFR 1132, Review Board Number 3 approved the transfer to WOODIE EVERLY & SON, INC. of Permit No. MC–145204 (Subs 1, 2F and 3F) issued to TVF SECURITY CO. authorizing: To operate as a *contract carrier*, by motor vehicle, in interstate or foreign commerce, over irregular routes, transporting in Sub 1 *printed matter*, from the facilities of R.R. Donnelley & Sons Company, at Warsaw, IN, to Ft. Wayne, Elkhart, Indianapolis, and

Lafayette, IN, Chicago, IL, and Cincinnati, OH, under continuing contract(s) with R.R. Donnelley & Sons Company; in Sub 2 *paper and plastic disposable cups, plates, bowls, containers* without lids, and *ice cream cones,* from the facilities of Sweetheart Cup Corp., and Northwest Cone at Chicago, IL, on the one hand, and, on the other, points in Indiana, on and north of U.S. Hwy 40, under continuing contract(s) with Sweetheart Cup Corp.,—Northwest Cone, of Chicago, IL; and in Sub 3 *castings,* from the facilities of Dalton Foundries, Inc., at Warsaw, IN, to points in Illinois, Ohio, Michigan, New York, Kentucky, Tennessee, North Carolina, Ohio, and Pennsylvania, and *materials, equipment and supplies* used in the manufacture and distribution of castings, from points in Illinois, Ohio, Michigan, New York, Kentucky, Tennessee, North Carolina, Ohio, and Pennsylvania, to the facilities of Dalton Foundaries, Inc., at Warsaw, IN, under continuing contract(s) with The Dalton Foundries, Inc., of Warsaw, IN. Applicant's representative: Donald W. Smith, P.O. Box 40248, Indianapolis, IN 46240. TA lease is not sought. Transferee is not a carrier.

MC–FC–79461. By decision of 11/16/81 issued under 49 U.S.C. 10926 and the transfer rules at 49 CFR 1132, Review Board Number 3 approved the transfer to WHITENER LINES, INC., of Springfield, MO, of Certificate Nos. MC–149568 and MC–149568 (Sub-No. 1) and Permit Nos. MC–149568 (Sub-Nos. 2, 3x, 4, 5, and 6) and MC–124988 (Sub-No. 15), issued to TRUCK SERVICE COMPANY, of Springfield, MO, authorizing the transportation of the following: (A) *common carrier,* (1) *general commodities* (with specified exceptions), for the United States Government, between points in the United States; and (2) *meats and related products,* between points in Anderson County, TX, and points in the U.S.; and (B) *contract carrier,* (1) *rubber and plastic products,* and *chemicals and related products,* between points in the U.S., under contracts with E.I. du Pont de Nemours & Co., Inc.; (2) *charcoal briquettes, processed vermiculite, wood chips, charcoal lighter fluid,* in containers, and *spices and sauces* used in outdoor cooking, betwen points in the U.S., under contracts with Kingsford Company; (3) *food and related products, chemicals and related products, synthetic fibers,* and *rubber and plastic articles,* between points in the U.S., under contracts with Hercules Incorporated; (4) *such commodities* as are dealt in or used by hospitals, between points in the U.S., under contracts with Becton Dickinson & Company; (5) *chemicals and related products,* between points in the U.S., under contracts with Philipp Brothers Chemicals, Inc.; and (6) *chemicals,* between points in the U.S., under contracts with PPG Industries, Inc. Representative: John L. Alfano, 550 Mamaroneck Avenue, Harrison, NY 10528.

Notes.—TA has not been filed. Transferee is not an ICC carrier.

MC–FC–79466. By decision of 11/16/81 issued under 49 U.S.C. 10926 and the transfer rules at 49 CFR 1132, Review Board Number 3 approved the transfer to MUSTANG FREIGHT LINES, INC., of Aurora, CO, of Certificate No. MC–145577 (Sub-Nos. 1, 3, 4, 5, 6, 7, 12, 14, 15, 20, 22, 24, 25, 27, and 28), issued to GULLETT-GOULD, LTD., Debtor, Albert Farb, Trustee, which authorize the transportation, as a common carrier, the following, as summarized: *compressors and evaporator coils, dry animal feed, photographic equipment, iron and steel ariticles, pet vitamins, grape juice and concentrates, coal, glass containers, metal containers, paint, air conditioners, furnaces, and heating equipment,* and *wood burning stoves,* between specified points throughout the United States. Representative: Peggy Smookler, 188 S. Dearborn Circle, Aurora, CO 80012.

Notes.—TA has not been filed. Transferee is not an ICC carrier.

Agatha L. Mergenovich,

Secretary.

BILLING CODE 7035–01–M

Motor Carrier Permanent Authority Decisions; Restriction Removals; Decision-Notice

November 25, 1981.

The following restriction removal applications, filed after December 28, 1980, are governed by 49 CFR 1137. Part 1137 was published in the **Federal Register** of December 31, 1980, at 45 FR 86747.

Persons wishing to file a comment to an application must follow the rules under 49 CFR 1137.12. A copy of any application can be obtained from any applicant upon request and payment to applicant of $10.00.

Amendments to the restriction removal applications are not allowed.

Some of the applications may have been modified prior to publication to conform to the special provisions applicable to restriction removal.

Findings:

We find, preliminarily, that each applicant has demonstrated that its requested removal of restrictions or broadening of unduly narrow authority is consistent with 49 U.S.C. 10922(h).

In the absence of comments filed within 25 days of publication of this decision-notice, appropriate reformed authority will be issued to each applicant. Prior to beginning operations under the newly issued authority, compliance must be made with the normal statutory and regulatory requirements for common and contract carriers.

By the Commission, Restriction Removal Board, Members Sporn, Ewing, and Shaffer.

Agatha L. Mergenovich,

Secretary.

MC 6801 (Sub-12)X, published July 27, 1981, September 3, 1981 and November 2, 1981 republished as corrected this issue. Applicant: G. H. HARNUM, INC., 867 Woburn Ave., Wilmington, MA 01887. [Ex Parte No. 311]

Expedited Procedures for Recovery of Fuel Costs

Decided: November 25, 1981.

Service date: November 25, 1981.

In our recent decisions an 18.0-percent surcharge was authorized on all owner-operator traffic, and on all truckload traffic whether or not owner-operators

V 46 / 231 DEC 2 81 UMI

were employed. We ordered that all owner-operators were to receive compensation at this level.

The weekly figure set forth in the appendix for transportation performed by owner-operators and for truckload traffic is 17.8-percent. Accordingly, we are authorizing that the surcharge for this traffic remain at 18.0 percent. All owner-operators are to receive compensation at this level.

No change is authorized in the 2.0 percent surcharge for United Parcel Service, the 6.6 percent surcharge for bus carriers, or the 3.1 percent surcharge on less-than-truckload (LTL) traffic performed by carriers not using owner-operators.

Notice shall be given to the general public by mailing a copy of this decision to the Governor of each State having jurisdiction over transportation by depositing a copy in the Office of the Secretary, Interstate Commerce Commission, Washington, D.C. for public inspection and by depositing a copy to the Director, Office of the Federal Register, for publication therein.

It is ordered: This decision shall become effective Friday, 12:01 a.m., November 27, 1981.

By the Commission, Chairman Taylor, Vice Chairman Clapp, Commissioners Gresham and Gilliam.

Agatha L. Mergenovich,
Secretary.

APPENDIX.—FUEL SURCHARGE

[November 23, 1981]

Base date and price per gallon (including tax)

January 1, 1979 ..... 63.5¢

Date of current price measurement and price per gallon (including tax)

November 23, 1981 ..... 130.5¢

	Transportation performed by—			
	Owner operator [1]	Other [2]	[redacted] carrier	UPS
Average percent fuel expenses (including taxes) of total revenue	16.9	2.9	6.3	3.3
Percent surcharge developed	17.8	3.1	6.6	[3] 2.8
Percent surcharge allowed	18.0	3.1	6.6	[4] 2.0

[1] Apply to all truckload rated traffic.
[2] Including less-than-truckload traffic.
[3] The percentage surcharge developed for UPS is calculated by applying 81 percent of the percentage increase in the current price per gallon over the base price per gallon to UPS average percent of fuel expense to revenue figure as of January 1, 1979 (3.3 percent)
[4] The developed surcharge is reduced 0.8 percent to reflect fuel-related increases already included in UPS rates

[Decision Volume No. 437]

Motor Carriers Permanent Authority; Republications of Grants of Operating Rights; Authority Prior to Certification

The following grants of operating rights authorities are republished by order of the Commission to indicate a broaden grant of authority over that previously noticed in the Federal Register.

An original and one copy of a petition for leave to intervene in the proceeding must be filed with the Commission within 30 days after the date of this Federal Register notice. Such pleading shall comply with Special Rule 247(e) of the Commission's *General Rules of Practice* (49 CFR 1100.247) addressing specifically the issue(s) indicated as the purpose for republication, and including copies of intervenor's conflicting authorities and a concise statement of intervenor's interest in the proceeding setting forth in detail the precise manner in which it has been prejudiced by lack of notice of the authority granted. A copy of the pleading shall be served concurrently upon the carrier's representative, or carrier if no representative is named.

MC 102295 (Sub-39) (Republication), filed September 13, 1979, published in the Federal Register issue of March 18, 1980, and republished this issue. Applicant: GUY HEAVENER, INC., 480 School Lane, Harleysville, PA 19438. Representative: Maxwell A. Howell, 1100 Investment Bldg., 1511 K Street, NW., Washington, D.C. 20005. A Decision of the Commission, Division 1, Acting as an Appellate Division, decided October 21, 1981 and served October 27, 1981, and a Decision of the Commission, Review Board Number 3, decided July 24, 1981 and served August 19, 1981 finds on further consideration that the performance by applicant of the service as described herein will serve a useful public demand or need to operate as a common carrier, by motor vehicle, in interstate or foreign commerce, over irregular routes, transporting *sand, stone, and gravel* between points in NJ on and south of NJ Hwy 33 to those points in the United States in and east of MN, IA, NE, KS, OK, and TX; that applicant is fit, willing and able properly to perform the granted service and to conform to statutory and administrative requirements. The purpose of this republication is to give notice to those parties who have relied on the previous notice in the Federal Register of the application as published and may have an interest in, and would be prejudiced by the lack of proper notice of the authority granted to the extent it authorizes two-way operations instead of one-way service from points in New Jersey.

By the Commission.

Agatha L. Mergenovich,
Secretary.

BILLING CODE 7035-01-M

[Finance Docket No. 29748]

Brandywine Valley Railroad Co.; Petition for Exemption

AGENCY: Interstate Commerce Commission.

ACTION: Notice of exemption.

SUMMARY: The Commission exempts from the requirement of its prior review and approval: (1) under 49 U.S.C. 10901, the acquisition by Brandywine Valley Railroad Company, (Brandywine) a non carrier, of 12 miles of track of Consolidated Rail Corporation extending between Coatesville and Valley Township, PA; and (2) under 49 U.S.C. 11301, the issuance by Brandywine of 1,000 shares of no par value capital stock to Lukens Steel Company for $1 million to finance the transaction and provide initial working capital.

A decision in this proceeding which is being served by the Commission concurrently with this notice contains further information..

DATES: These exemptions will be effective 30 days from the dates of this publication. Petitions for reconsideration of this action must be filed within 20 days after this publication.

ADDRESSES: Send pleadings to:

Interstate Commerce Commission, Section of Finance, Room 5414, 12th St. and Constitution Ave. N.W., Washington, D.C. 20423; and

Petitioner's representative: James L. Slattery, 50 South First Avenue, Coatesville, PA 19320

Copies of the full decision are available from: Interstate Commerce Commission, Room 2227, 12th St. and Constitution Ave., N.W., Washington, D.C. 20423; or by calling toll-free: 800-424-5403

FOR FURTHER INFORMATION CONTACT:
Ellen D. Hanson (202) 275-7245.

Dated: November 25, 1981.

By the Commission, Chairman Taylor, Vice-Chairman Clapp, Commissioners Gresham and Gilliam.

Agatha L. Mergenovich,

Secretary.

[FR Doc. 81-34756 Filed 12-1-81: 8:45 am]

BILLING CODE 7035-01-M

Motor Carriers; Permanent Authority Decisions; Decision-Notice

The following applications, filed on or after February 9, 1981, are governed by Special Rule of the Comission's Rules of Practice, see 49 CFR 1100.251. Special Rule 251 was published in the **Federal Register** on December 31, 1980, at 45 FR 86771. For compliance procedures, refer to the **Federal Register** issue of December 3, 1980, at 45 FR 80109.

Persons wishing to oppose an application must follow the rules under 49 CFR 1100.252. Applications may be protested *only* on the grounds that applicant is not fit, willing, and able to provide the transportation service or to comply with the appropriate statues and Commission regulations. A copy of any application, including all supporting evidence, can be obtained from applicant's representative upon request and payment to applicant's representative of $10.00.

Amendments to the request for authority are not allowed. Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority.

Findings

With the exception of those applications involving duly noted problems (e.g., unresolved common control, fitness, water carrier dual operations, or jurisdictional questions) we find, preliminarily, that each applicant has demonstrated a public need for the proposed operations and that it is fit, willing, and able to perform the service proposed, and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the Commission's regulations. This presumption shall not be deemed to exist where the application is opposed. Except where noted, this decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later become unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

To the extent that any of the authority granted may duplicate an applicant's other authority, the duplication shall be construed as conferring only a single operating right.

Note.—All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract".

Please direct status inquiries to the Ombudsman's Office, (202) 275-7326.

Volume No. OP1-311

Decided: November 18, 1981.

By the Commission, Review Board No. 1, Members Parker, Chandler, and Fortier.

MC 159221, filed November 9, 1981. Applicant: S.K.T., 623 N.E. 10th Street, Minot, ND 58701. Representative: Jack L. Schiller, 123-60 83rd Avenue, Kew Gardens, NY 11415, (212) 263-2078. Transporting *food and other edible products and byproducts intended for human consumption* (except alcoholic beverages and drugs), *agricultural limestone and fertilizers, and other soil conditioners* by the owner of the motor vehicle in such vehicle, between points in the U.S.

BILLING CODE 7035–01–M

Motor Carriers; Permanent Authority Decisions; Decision-Notice

The following applications, filed on or after February 9, 1981, are governed by Special Rule of the Commission's Rules of Practice, see 49 CFR 1100.251. Special Rule 251 was published in the **Federal Register** of December 31, 1980, at 45 FR 86771. For compliance procedures, refer to the **Federal Register** issue of December 3, 1980, at 45 FR 80109.

Persons wishing to oppose an application must follow the rules under 49 CFR 1100.252. A copy of any application, including all supporting evidence, can be obtained from applicant's representative upon request and payment to applicant's representative of $10.00.

Amendments to the request for authority are not allowed. Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority.

Findings:

With the exception of those applications involving duly noted problems (e.g., unresolved common control, fitness, water carrier dual operations, or jurisdictional questions) we find, preliminarily, that each applicant has demonstrated a public need for the proposed operations and that it is fit, willing, and able to perform the service proposed, and to conform to

the requirements of Title 49, Subtitle IV, United States Code, and the Commission's regulations. This presumption shall not be deemed to exist where the application is opposed. Except where noted, this decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication, (or, if the application later becomes unopposed) appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisifed before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

To the extent that any of the authority granted may duplicate an applicant's other authority, the duplication shall be construed as conferring only a single operating right.

Note.—All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract".

BILLING CODE 7035-01-M

INTERNATIONAL TRADE COMMISSION

Request for Public Comment on Termination of Countervailing Duty Investigation Concerning Compressors and Parts Thereof from Italy

AGENCY: International Trade Commission.

ACTION: Request for comments on proposed termination of countervailing duty investigation under section 104(b) of the Trade Agreements Act of 1979.

FOR FURTHER INFORMATION CONTACT: Mr. Larry Reavis, Office of Investigations, telephone 202-523-0296.

SUPPLEMENTARY INFORMATION: The Trade Agreements Act of 1979, subsection 104(b)(1), requires the Commission in the case of a countervailing duty order issued under section 303 of the Tariff Act of 1930, upon the request of a government or group of exporters of merchandise covered by the order, to conduct an investigation to determine whether an industry in the United States would be materially injured, or threatened with material injury, or whether the establishment of such industry would be materially retarded, if the order were to be revoked. On March 28, 1980, the Commission received a request from the Delegation of the Commission of the European Communities for the review of the countervailing duty order on compressors and parts thereof from Italy (T.D. 72-122), notice of which was published on May 3, 1972, in the **Federal Register** (37 FR 8948).

The Commission received a letter on November 16, 1981, from Tecumseh Products Company, the original petitioner for the countervailing duty order, stating that it withdraws its request for the imposition of countervailing duties under the above-referenced countervailing duty order.

The legislative history of section 704(a) of the Tariff Act of 1930, as amended by the Trade Agreements Act, indicates that the Commission should solicit public comment prior to termination of an investigation and approve the termination only if it is in the public interest. In light of the Commission's duty to consider the public interest, the Commission requests written comments from persons concerning the proposed termination of the investigation on compressors and parts thereof from Italy. These written comments must be filed with the Secretary to the Commission no later than January 4, 1982.

Issued: November 27, 1981.

By order of the Commission.

Kenneth R. Mason,

Secretary.

BILLING CODE 7020-02-M

[Investigation No. 337-TA-90]

Certain Airless Paint Spray Pumps and Components Thereof; Issuance of Exclusion Order

AGENCY: U.S. International Trade Commission.

ACTION: Issuance of exclusion order.

SUPPLEMENTARY INFORMATION: The Commission instituted this investigation to determine whether there is a violation of section 337 of the Tariff Act of 1930 (19 U.S.C. 1337) in connection with the importation or sale of certain airless paint spray pumps and components thereof, and published notice of its investigation in the **Federal Register** November 21, 1980 (45 FR 77190).

On November 4, 1981, the Commission unanimously determined [1] that there is a violation of section 337 in the unauthorized importation and sale of certain airless paint spray pumps which infringe certain claims of U.S. Letters Patent 3,154,845, U.S. Letters Patent 3,367,270, and U.S. Reissue Patent 29,055. The Commission further determined [2] that the appropriate remedy is an order directing that the infringing articles manufactured by Larius DiCastagna and C., S.N.C., Ltd., of Lecco, Italy, or any of its affiliated companies, parents, subsidiaries, or other related business entities, or their successors or assigns, be excluded from entry into the United States for the remaining terms of the patents, except under license granted by the patent owner.

Copies of the Commission's Action and Order, the opinions of the Commissioners, and all other nonconfidential documents on the record of this investigation are available for inspection by the public during official working hours (8:45 a.m. to 5:15 p.m.) in the Office of the Secretary, U.S. International Trade Commission, 701 E Street NW., Room 161, Washington, D.C. 20436, telephome 202-523-0161.

[1] Commissioner Eckes not participating.

[2] Commissioners Calhoun and Frank dissenting.

FOR FURTHER INFORMATION CONTACT: Scott Daniels, Esq., Office of the General Counsel, U.S. International Trade Commission, telephone 202-523-0480.

By order of the Commission.

BILLING CODE 7020-02-M

[Investigation No. 337-TA-84]

Chlorofluorohydrocarbon Drycleaning Process, Machines and Components Therefor; Termination of Investigation

AGENCY: U.S. International Trade Commission.

ACTION: Notice is hereby given that the Commission has granted a joint motion (Motion 84-28) to terminate the above-captioned investigation on the basis of a settlement agreement.

SUMMARY: On November 24, 1981, the Commission granted Motion 84-28 to terminate the investigation on the basis of a settlement agreement entered into between the complainant and all respondents.

FOR FURTHER INFORMATION CONTACT: Jack Simmons, Esq., Office of the General Counsel, U.S. International Trade Commission, telephone (202) 523-0350.

SUPPLEMENTARY INFORMATION: On July 1, 1981, the complainant, all respondents, and the Commission investigative attorney filed a joint motion (Motion 84-28) to terminate the above-captioned investigation, pursuant to rule 210.51(a) of the Commission's Rules of Practice and Procedure (46 FR 17530, Mar. 18, 1981), on the basis of a settlement agreement executed by all the parties. On July 28, 1981, the presiding officer recommended that the motion be granted. The settlement agreement appears to resolve all outstanding issues between the parties.

The Commission published notice of the joint motion and a request for public comments in the **Federal Register** of September 2, 1981 (46 FR 44104). In response to the notice, comments were received from two Government agencies, the complainant Research Development Co., and one of the respondents, A.M.A. Universal S.p.A. The comments raised no substantive

[1] The Commission action and order referred to herein was originally scheduled to be issued on November 23, 1981, but was not because the Commission lacked authority to do so in the absence of appropriated funds.

[Investigation No. 337-TA-105]

Certain Coin-Operated Audiovisual Games and Components Thereof (Viz, Pac Man and Rally-X); Hearing on the Presiding Officer's Recommended Determination and on Relief, Bonding and the Public Interest, and Schedule for Filing Written Submissions

AGENCY: U.S. International Trade Commission.

ACTION: The scheduling of oral argument and briefing on the presiding officer's recommended determination and on relief, bonding, and the public interest in investigation No. 337-TA-105, Certain Coin-Operated Audiovisual Games and Components Thereof (viz, Pac Man and Rally-X).

SUMMARY: Notice is hereby given that the Commission will hold a hearing on December 11, 1981, in the Commission's Hearing Room (Room 331), 701 E Street, NW., Washington, D.C. 20436, beginning at 10:00 a.m. At the hearing, the Commission will hear oral argument on the presiding officer's recommendation and oral presentations on the appropriate relief, bonding, and the public interest in the event that the Commission determines that there is reason to believe that there is a violation of section 337.

The parties to the investigation, interested Government agencies, and the Commission investigative attorney are encouraged to file briefs on the issues of violation (to the extent that they have not already briefed that issue in connection with their exceptions to the presiding officer's recommended determination), remedy, bonding, and the public interest in order to give greater focus to the hearing. Such briefs must be filed no later than 5:15 p.m. on December 1, 1981.

FOR FURTHER INFORMATION CONTACT: Jack M. Simmons, Esq., Office of the General Counsel, U.S. International Trade Commission, telephone 202-523-0350.

SUPPLEMENTARY INFORMATION:

Background

The presiding officer has issued a recommended determination that there is reason to believe that there is a violation of section 337 of the Tariff Act of 1930 (19 U.S.C. 1337) in the unauthorized importation into the United States and sale of certain audiovisual games and components thereof which are the subject of the Commission's investigation. Accordingly, the recommended determination and the record of the investigation have been certified to the Commission for review and a Commission determination.

Commission Hearing

The Commission will hold a public hearing on December 11, 1981, in the Commission's Hearing Room (Room 331), 701 E Street, NW., Washington, D.C. 20436, beginning at 10:00 a.m. The hearing will be divided into two parts. First, the Commission will hear oral arguments on the presiding officer's recommended determination that there is reason to believe that there is a violation of section 337 of the Tariff Act of 1930. Second, the Commission will hear presentations concerning appropriate relief, the effect that such relief would have upon the public interest, and the proper amount of the bond in the event that the Commission determines that there is reason to believe that there is a violation of section 337 and that relief should be granted.

Any party to the Commission's investigation or any interested Government agency may present an oral argument concerning the presiding officers's recommended determination. That portion of a party's or an agency's total time allocated to oral argument may be used in any way the party or agency making argument sees fit, i.e., a portion of the time may be reserved for rebuttal or devoted to summation. The oral arguments will be held in the following order: complainant, respondents, Government agencies, and the Commission investigative attorney. Any rebuttals will be held in this order: respondents, complainant, Government agencies, and the Commission investigative attorney. Persons making oral argument are reminded that such argument must be based upon the evidentiary record certified to the Commission by the presiding officer.

Following the oral arguments on the presiding officer's recommendation, parties to the investigation, Government agencies, public-interest groups, and interested members of the public may make oral presentations on the issues of relief, bonding, and the public interest. This portion of the hearing is quasi-legislative in nature; presentations need not be confined to the evidentiary record certified to the Commission by the presiding officer, and may include the testimony of witnesses. Oral presentations on relief, bonding, and the public interest will be heard in the same order as oral arguments on the recommended determination.

If the Commission finds that there is reason to believe that a violation of section 337 has occurred, it may issue (1) an order which could result in the temporary exclusion of the subject articles from entry into the United States and/or (2) an order which could result in one or more respondents being temporarily required to cease and desist from engaging in unfair methods of competition or unfair acts in the importation and sale of such articles. Accordingly, the Commission is interested in hearing presentations which address the form of relief, if any, which should be ordered.

If the Commission concludes that there is reason to believe that a violation of section 337 has occurred and contemplates some form of relief, it must consider the effect of that relief upon the public interest. The factors which the Commission will consider include the effect that an exclusion order and/or a cease and desist order would have upon (1) the public health and welfare, (2) competitive conditions in the U.S economy, (3) the U.S. production of articles which are like or directly competitive with those which are the subject of the investigation, and (4) U.S. consumers.

Prior to the conclusion of this investigation, the subject articles would be entitled to enter the United States under a bond in an amount determined by the Commission and prescribed by the Secretary of the Treasury. The Commission is, therefore, interested in hearing presentations concerning the amount of the bond, if any, which should be imposed.

The complainant, respondents, and Government agencies will be limited to a total of 30 minutes each (exclusive of time consumed by questions from the Commission or its advisory staff) for making both oral argument on violation and oral presentations on remedy, bonding, and the public interest. The respondents may determine among themselves how to allocate the 30-minute period alloted to them. Persons making only oral presentations on

remedy, bonding, and the public interest will be limited to 10 minutes each (exclusive of time consumed by questions from the Commission and its advisory staff). The Commission may in its discretion expand these time limits upon receipt of a timely request to do so.

Written Submissions

In order to give greater focus to the hearing, the parties to the investigation and interested Government agencies are encouraged to file briefs on the issues of whether there is reason to believe that there is a violation of section 337 (to the extent that they have not already briefed that issue in their written exceptions to the presiding officer's recommended determination), remedy, bonding, and the public interest. The complainant and the Commission investigative attorney are also requested to submit a proposed temporary exclusion order and/or proposed temporary cease and desist orders for the Commission's consideration. Persons other than the parties and Government agencies are invited to file written submissions addressing the issues of remedy, bonding, and the public interest. All written submissions must be filed not later than the close of business on December 1, 1981. During the course of the hearing, the parties may be asked to file posthearing briefs.

Notice of Appearance

Written requests to appear at the Commission hearing must be filed with the Office of the Secretary by December 1, 1981.

Additional Information

The original and 11 true copies of all briefs must be filed with the Office of the Secretary not later than December 1, 1981. Any person desiring to discuss confidential information, or to submit a document (or a portion thereof) to the Commission in confidence, must request in camera treatment unless the information has already been granted such treatment by the presiding officer. All such requests should be directed to the Secretary to the Commission and must include a full statement of the reasons why the Commission should grant such treatment. Documents or arguments containing confidential information approved by the Commission for in camera treatment will be treated accordingly. All nonconfidential written submissions will be available for public inspection at the Secretary's Office.

Notice of this investigation was published in the **Federal Register** of July 1, 1981. 46 FR 34436.

Public Inspection

The public record of this investigation, including the nonconfidential version of the presiding officer's recommended determination, is available for public inspection between the hours of 8:45 a.m. and 5:15 p.m. in the Office of the Secretary, U.S. International Trade Commission, 701 E Street NW., Room 161, Washington, D.C. 20436, telephone 202–523–9161.

Issued: November 25, 1981.

[Investigation No. 731–TA–52 (Preliminary)]

Sheet Piling From Canada; Preliminary Antidumping Investigation; Conference

AGENCY: United States International Trade Commission.

ACTION: Institution of a preliminary antidumping investigation and scheduling of a conference to be held in connection with the investigation.

SUMMARY: The U.S. International Trade Commission hereby gives notice of the institution of investigation No. 731–TA–52 (Preliminary) to determine, pursuant to section 733(a) of the Tariff Act of 1930 (19 U.S.C. 1673b(a)), whether there is a reasonable indication that an industry in the United States is materially injured, or is threatened with material injury, or the establishment of an industry in the United States is materially retarded, by reason of imports from Canada of sheet piling of iron or steel, provided for in items 609.96 and 609.98 of the Tariff Schedules of the United States Annotated (1981), which are possibly sold in the United States at less than fair value.

EFFECTIVE DATE: November 24, 1981.

FOR FURTHER INFORMATION CONTACT: Mr. Lynn Featherstone, Office of Investigations, U.S. International Trade Commission; telephone 202–523–0242.

SUPPLEMENTARY INFORMATION:

Background.—This investigation is being instituted following receipt of advice from the U.S. Department of Commerce on November 24, 1981, that it was initiating an antidumping investigation on sheet piling from Canada pursuant to section 732(a) of the Tariff Act of 1930 (19 U.S.C. 1673a(a)). After monitoring imports of certain steel products under the Trigger Price Mechanism, Commerce found significant sales of sheet piling from Canada being made less than the relevant trigger price. These sales constitute possible sales at less than fair value. The Commission must make its determination in the investigation within 45 days after the date of notification from Commerce, or by January 8, 1982 (19 CFR 207.17). The investigation will be subject to the provisions of part 207 of the Commission's Rules of Practice and Procedure (19 CFR Part 207, 44 FR 76457), and particularly subpart B thereof.

Written submissions.—Any person may submit to the Commission on or before December 18, 1981, a written statement of information pertinent to the subject matter of this investigation. A signed original and nineteen copies of such statements must be submitted.

Any business information which a submitter desires the Commission to treat as confidential shall be submitted separately, and each sheet must be clearly marked at the top "Confidential Business Data." Confidential submissions must conform with the requirements of § 201.6 of the Commission's Rules of Practice and Procedure (19 CFR 201.6). All written submissions, except for confidential business data, will be available for public inspection.

Conference.—The Director of Operations of the Commission has scheduled a conference in connection with this investigation for 9:30 a.m., e.s.t., on December 16, 1981, at the U.S. International Trade Commission Building, 701 E Street, NW., Washington, D.C. Parties wishing to participate in the conference should contact the supervisory investigator for the investigation, Mr. Lynn Featherstone, telephone 202–523–0242, not later than December 9, 1981, to arrange for their appearance. Parties in support of the imposition of antidumping duties in this investigation and parties in opposition to the imposition of such duties will each be collectively allocated one hour within which to make an oral presentation at the conference.

For further information concerning the conduct of the investigation and rules of general application, consult the Commission's Rules of Practice and Procedure, Part 207, Subparts A and B (19 CFR Part 207), and part 201, subparts A through E (19 CFR Part 201). Further information concerning the conduct of the conference will be provided by Mr. Featherstone.

This notice is published pursuant to § 207.12 of the Commission's rules of practice and procedure (19 CFR 207.12).

By order of the Commission.

Issued: November 25, 1981.

Kenneth R. Mason,

Secretary.

[FR Doc. 81-34623 Filed 12-1-81; 8:45 am]

BILLING CODE 7020-02-M

[Investigation No. 731-TA-50 (Preliminary)]

Stainless Clad Steel Plate From Japan

Determination

On the basis of the record [1] developed in investigation No. 731–TA–50 (Preliminary), the Commission determines that there is a reasonable indication that an industry in the United States is materially injured or threatened with material injury by reason of imports from Japan of stainless clad steel plate, provided for in item 607.94 of the Tariff Schedules of the United States, which are alleged to be sold in the United States at less than fair value (LTFV).[2]

Background

On October 6, 1981, the U.S. International Trade Commission and the U.S. Department of Commerce each received a petition from Lukens Steel Co., Coatesville, Pa., alleging that imports of stainless clad steel plate from Japan are being, or are likely to be, sold in the United States at LTFV. Accordingly, the Commission instituted a preliminary antidumping investigation under section 733(a) of the Tariff Act of 1930 (19 U.S.C. 1673b(a)) to determine whether there is a reasonable indication that an industry in the United States is materially injured, or is threatened with material injury, or the establishment of an industry in the United States is materially retarded, by reason of the imports of such merchandise into the United States. The statute directs that the Commission makes its determination within 45 days of its receipt of the petition, or by November 20, 1981.

Notice of the institution of the Commission's investigation and of the public conference to be held in connection therewith was duly given by posting copies of the notice in the Office of the Secretary, U.S. International Trade Commission, Washington, D.C., and by publishing the notice in the **Federal Register** on October 14, 1981 (46 FR 50864). The conference was held in Washington, D.C. on October 29, 1981, and all persons who requested the opportunity were permitted to appear in person or by counsel.

Views of the Commission

Introduction

We find that there is a reasonable indication that an industry in the United States is materially injured or threatened with material injury by reason of imports of stainless clad steel plate from Japan which is allegedly sold at less than fair value.[3] The recent rapid increase in imports has led to injury to the domestic industry, which has been manifested through price suppression, lost sales, and declining profitability. The increase in imports is almost certain to continue through the end of 1981 with additional adverse impact on the domestic industry.

Domestic Industry

Section 771(4)(A) of the Tariff Act of 1930 defines the term "industry" as the "domestic producers as a whole of a like product or those producers whose collective output of the like product constitutes a major proportion of the total domestic production of that product." [4] The statute defines "like product" as a product which is like or in the absence of like, most similar in characteristics and uses with the article under investigation.[5]

Stainless clad steel plate, the imported article subject to this investigation, is a composite plate consisting of stsainless steel integrally bonded to a carbon or alloy steel plate base. It is produced to order and specifications in a range of types of stainless and backing steels and in a variety of lengths, widths, and

---

[1] The record is defined in § 207.2(j) of the Commission's Rules of Practice and Procedure (19 CFR 207.2(j)).

[2] Chairman Alberger and Commissioner Frank determine that there is a reasonable indication that an industry in the United States is materially injured by reason of imports of the subject merchandise.

[3] Chairman Alberger and Commissioner Frank determine only that there is a reasonable indication of material injury, and therefore do not reach the issue of reasonable indication of threat of material injury.

[4] 19 U.S.C. 1677(4)(A).

[5] 19 U.S.C. 1677(10).

thicknesses. Stainless clad steel plate is used because it combines the corrosion-resistant properties of stainless steel with the strength of carbon or alloy steel, thus allowing less of the more expensive stainless material to be used. Stainless clad steel plate is used in petroleum vessels, petrochemical vessels, ships which carry corrosive chemicals, and in the nuclear power industry.[6]

Petitioner Lukens Steel Co. alleges four instances of less than fair value sales by Japan Steel Works through their sales representatives in the United States. Although the petition stated that clad plate is a fungible product, the Lukens' witness said at the conference held on October 29, 1981, that funibility is only applicable to articles of the same specifications. In short, stainless steel clad plate of different specifications is not fungible. However, he explained that there is some degree of substitutability of slightly different types of stainless clad steel plate products.[7] Because an intended end use may be accomplished in a number of ways, specifications may be altered during the course of a project.[8]

Since this is a case in which the like product candidates consist of a group of products slightly distinguishable from each other, among which no clear dividing lines can be drawn based on characteristics and uses, we find the like product in this preliminary investigation is all members of the group. Unlike the situation in *Certain Amplifier Assemblies and Parts*

Thereof from Japan, Inv. No. 731-TA-48(P), where there was a clear dividing line between made-to-specifications products, such a clear line does not appear here. Therefore, for the purposes of this preliminary investigation, we find that the domestic industry consists of the four domestic producers of stainless clad steel plate: Lukens Steel Co., Phoenix Steel Corp., E.I. DuPont de Nemours & Co., Inc., and Explosive Fabricators, Inc.

Material Injury by Reason of LTFV Imports

Section 771(7) of the Act directs the Commission to consider, in making its determination, among other factors, (1) the volume of imports of the merchandise under investigation, (2) their impact on domestic prices, and (3) the consequent impact on the domestic industry.[9]

Volume of imports.—Prior to 1981, imports of stainless clad steel plate from Japan were generally very low. They declined steadily from 1978 to 1980. In the first six months of 1981, however, imports increased substantially both in absolute volume and in relation to U.S. consumption. Imports rose from less than 1 percent of consumption in 1980 to more than 10 percent of consumption in the first six months of 1981.[10] The volume of imports in the second half of 1981 is expected to be even greater than that in the first half of 1981 according to information provided by importers on contracts which they have already been awarded.

Effect of imports on domestic prices.—The significance of the imports becomes most apparent in their effect on the prices of the domestic product. Stainless clad steel plate is generally sold on a competitive bid basis. Domestic producers may bid against each other as well as against importers. The stainless clad steel plate requirements for a particular bid must meet the specifications of the fabricator/purchaser. Therefore, on any given bid inquiry the product being bid on is identical regardless of whether the source is a domestic or foreign producer.

Information on bids was solicited for comparative purposes from the producers, importers, and fabricators of stainless clad steel plate on the five largest tonnage contracts on which they quoted or requested quotes in 1980 and January-June 1981. This time period includes the period when less-than-fair-value sales were alleged to have occurred. These data provided a sample of competitive price comparisons. In every instance in which the contract was awarded to a supplier of Japanese stainless clad steel plate, the bid price for the imported Japanese product was below the domestic producer's bid price. Margins of underselling ranged from as low as 2.7 percent to as high as 31.3 percent. In several instances, the underselling has resulted in contracts being lost by the domestic producers.[11]

Such underselling has also resulted in price suppression or depression which seems to have been caused by this alleged LTFV import competition. The bid process is often evolutionary in nature. During the time between the initial submission of a bid and the final award of the contract to supply the stainless clad steel plate for the project, domestic producers and importers have an opportunity to change or lower their bids.[12] Based on information presented in the course of this investigation, it appears that domestic producers have been compelled to lower their bid prices, in some instances by more than 30 percent, due to the competition from stainless clad steel plate imported from Japan.[13]

The Commission is aware that in some of the responses by fabricator/purchasers of stainless clad steel plate, certain requirements, such as quality, adherence to specification, and customer preference, were listed as being more important than price. Notwithstanding these factors, price is always an important consideration in the final selection of the supplier

In this investigation, there is a reasonable indication of price suppression, price depression, and lost sales as a result of the importation of stainless clad steel plate allegedly being sold at less than fair value.[14]

Impact on the domestic industry.[15] The industry which produces stainless clad steel plate was in a serious decline from 1978 to 1980. Production, shipments, capacity utilization, profitability, and employment declined steadily throughout the period.[16] Imports were also at a very low level from 1978 to 1980, both in absolute numbers and as a percent of total U.S. consumption.

In the first six months of 1981, however, the market for stainless clad steel plate increased dramatically. Production and shipments of the domestic producers increased, employment levels rose, and capacity utilization was at its highest level in the period for which we have data.[17] In 1981, however, there were massive imports which caused problems for an already weakened domestic industry.

The profitability of the domestic producers declined steadily from 1978 to 1980 and dropped sharply in the first six months of 1981 despite the increase in their shipments.[18] The ratio of cost of goods sold to net sales increased by more than 10 percentage points from 1978 to 1981, indicating firms were unable to pass their increased costs on

[12] A complete discussion of the bid process is provided in the report which follows this opinion.
[13] Chairman Alberger and Vice Chairman Calhoun note that this might not be a serious problem if prices in the industry were inflated. However, it appears clear from the data on profitability that such is not the case.
[14] If this case were to be returned for a final determination by the Commission, more information on the relationship of price to quality would be useful.
[15] Specific company-related data are confidential and cannot be discussed in this public document.

V 46 / 231 DEC 2 81 UMI

in the price they charged for their goods, thus lowering their profitability.[19]

It appears that the principal reason producers have been unable to raise prices and in some instances have had to roll back their prices to make sales, was the strong price competition from the imported product. The result has been a decline in both gross profit and net profit before taxes in January-June 1981, a time when shipments had increased and when profits could reasonably have been expected to increase as well. Despite lowering prices to meet the Japanese price, domestic producers nonetheless lost sales to stainless clad steel plate imported from Japan on at least six contracts.[20]

Reasonable indication of threat of material injury.—The report of the Committee on Ways and Means of the House of Representatives on the Trade Agreement Act of 1979 states that, with respect to threat, the Commission should focus on—

> demonstrable trends—for example, the rate of increase of the * * * dumped exports to the U.S. market, capacity in the exporting country to generate exports, the likelihood that such exports will be directed to the U.S. market taking into account the availability of other export markets, * * *.

A critical factor in considering how substantial an impact imports have had is the short period of time in which the increase occurred. The significant increase of imports in 1981 constitutes a threatening situation to the domestic industry. Imports went from less than one percent of consumption in 1980 to more than 10 percent in January–June 1981. Indications are that imports will continue to increase at least at this rate through the end of 1981.

Japan Steel Works is believed to be operating below capacity at the present time. How much of this excess capacity would be available for export to the United States is unknown.[21] Any increase in the January–June 1981 levels would have a serious detrimental impact on the domestic industry, particularly if the Japanese imports increased while total domestic consumption simultaneously decreases, as some industry sources anticipate.[22]

Conclusion

On the basis of the best information available, we find that there is a reasonable indication that an industry in the United States is materially injured or threatened with material injury [23] by reason of imports of stainless clad steel plate from Japan which is allegedly being sold at less than fair value.

Date Issued: November 20, 1981.

By order of the Commission.

Kenneth R. Mason,

Secretary.

[21] If the Commission undertakes a final investigation, it will attempt to ascertain what percentage of Japan Steel Works' exports could be directed to the U.S. market.

[22] Transcript p. 29.

[23] Material retardation of the establishment of an industry is not an issue in this investigation.

DEPARTMENT OF JUSTICE

Drug Enforcement Administration

[Docket No. 81-17]

Joseph Bruce Friedman, M.D.; Revocation and Modification of Registration; Final Order

On June 24, 1981, the Administrator of the Drug Enforcement Administration (DEA) directed to Joseph Bruce Friedman, M.D. (Respondent) of 6331 South Grant Drive, Littleton, Colorado, an Order to Show Cause as to why DEA Certificate of Registration AF8725890 issued to him under 21 U.S.C. 823(f) should not be revoked. The proposed revocation was based on a guilty plea Respondent entered pursuant to the Colorado statutory deferred judgment procedure on April 15, 1981, in the District Court, in and for the County of Pueblo, State of Colorado, to one (1) count of Obtaining Narcotic Drugs by Fraud and Deceit in violation of Colorado Revised Statute 12-22-319(1). This is a controlled substance-related felony.

Respondent, through counsel, requested a hearing on the issues raised by the Order. The matter was placed on the docket of the Honorable Francis L. Young, Administrative Law Judge. In lieu of a hearing on the issues raised by the Order, Respondent and the Government entered into an Agreement of Understanding. By Order dated November 10, 1981, the Administrative Law Judge terminated the proceedings in this matter.

The Acting Administrator has considered the Agreement of Understanding entered into by the parties and pursuant to 21 CFR 1316.67 publishes his Final Order in this matter. The Acting Administrator finds that Respondent entered a plea of guilty pursuant to the Colorado statutory deferred judgment procedure on April 15, 1981, in the District Court, in and for the County of Pueblo, State of Colorado, to one (1) count of Obtaining Narcotic Drugs by Fraud and Deceit in violation of Colorado Revised Statute 12-22-319(1). The Acting Administrator further finds that the parties agreed that Respondent will submit to DEA quarterly reports for a three (3) year period, including photostatic copies of all prescriptions for controlled substances in Schedules III through V and a summary report of all Schedules III through V controlled substances which he administered, dispensed and prescribed. During the same three year period, Respondent will submit monthly reports to DEA, including photostatic copies of all prescriptions for Schedule II controlled substances and a summary report of each and every Schedule II controlled substances which he administered, dispensed or prescribed. These monthly reports will include an incident report for each and every Schedule II controlled substances which he administered, dispensed or prescribed.

The Acting Administrator further finds the parties have stipulated that Respondent will only administer, dispense or prescribe controlled substances in connection with his position as an emergency physician at the Swedish Ken Caryl Emergency Clinic. The parties have agreed that Respondent will only practice at this Emergency Clinic or another emergency facility, and not in any other form of medical practice. Respondent will notify DEF of any change of employment. This limitation on Respondent's practice will also be in effect for three (3) years. Respondent understands that the agreement is probationary in nature, and that any violation of the terms of the Agreement will result in summary suspension of his controlled substances privileges by the Acting Administrator.

21 CFR 1301.76(a) provides that a "registrant shall not employ as an agent or employee who has access to controlled substances any person who has had * * * his registration revoked at any time." The Acting Administrator finds that the employment of Respondent as an emergency facility physician at Swedish Ken Caryl Clinic is in the public interest, and that the public interest will be served if Respondent is permitted to handle controlled substances according to the terms of the agreement. Accordingly, the Acting Administrator waives the prohibition of 21 CFR 1301.76(a) with respect to the employment of Joseph Bruce Freidman, M.D., as an emergency facility physician at the Swedish Ken Caryl Clinic. See *Charles J. Burks, M.D.*, Docket No. 79-4, 44 FR 61466 (1979); *David Frank Micci,*

M.D., 45 FR 71448 (1980) and 45 FR 74795 (1980) where the Administrator waived application of 21 CFR 1301.76(a) in similar cases.

The Acting Administrator finds that the agreement in this matter is an appropriate resolution to the issues raised in the Order to show Cause, and hereby incorporates the agreement into the final disposition of this case. Accordingly, pursuant to the authority vested in the Attorney General by sections 303 and 304 of the Controlled Substances Act, 21 U.S.C. 823 and 824, and redelegated to the Administrator of the Drug Enforcement Administration, the Acting Administrator orders that DEA Certificate of Registration AF8725890, issued to Joseph Bruce Friedman, M.D. be revoked, and a registration be issued reflecting the limitations on Respondent's authority to possess, dispense, prescribe and otherwise handle controlled substances imposed by the agreement between Respondent and the Government, effective immediately.

Francis M. Mullen, Jr.,

Acting Administrator, Drug Enforcement Administration.

November 25, 1981.

NUCLEAR REGULATORY COMMISSION

[Docket Nos. STN 50-498 OL and STN 50-499 OL]

Houston Lighting & Power Co. et al.; (South Texas Project Units 1 and 2); Cancellation of Evidentiary Hearing

November 24, 1981.

Notice is hereby given that, in accordance with the Atomic Safety and Licensing Board's Memorandum and Order of November 13, 1981, the evidentiary hearing on near-term construction activities scheduled for December 8–10, 1981 in Austin, Texas (see 46 FR 55580, November 10, 1981) has been cancelled. The prehearing conference scheduled for December 8, 1981, will convene as previously announced, beginning at 9:30 a.m. in the Austin Public Library Auditorium, Forth Floor, 800 Guadalupe, Austin, Texas 78701.

Issued at Bethesda, Maryland.

For The Atomic Safety and Licensing Board.

Charles Bechhoefer,

Chairman, Administrative Judge.

BILLING CODE 7590-01-M

[Docket No. 50-219]

Jersey Central Power & Light Co.; Issuance of Amendment to Provisional Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 57 to Provisional Operating License No. DPR-16, issued to Jersey Central Power & Light Company (the licensee), which revised the Technical Specifications for operation of the Oyster Creek Nuclear Generating Station (the facility) located in Ocean County, New Jersey. The amendment is effective as of its date of issuance.

The amendment approves changes to the Appendix A Technical Specifications to allow credit to be taken for an acoustical monitor on an adjacent valve to provide sufficient warning of an open safety valve whose primary or secondary position indicating instrumentation is inoperable.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) the application for amendment dated November 24, 1981, and supporting information transmitted by letter dated November 23, 1981, (2) Amendment No. 57 to License No. DPR-16, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. and the Ocean County Library, Brick Township Branch, 401 Chambers Bridge Road, Brick Town, New Jersey 08723. A single copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Licensing.

Dated at Bethesda, Maryland, this 25th day of November, 1981.

For the Nuclear Regulatory Commission.

Thomas V. Wambach,

Acting Chief, Operating Reactors Branch No. 5, Division of Licensing.

PRESIDENTIAL ADVISORY COMMITTEE ON FEDERALISM

Education Subcommittee; Open Meeting

The Education Subcommittee of the Presidential Advisory Committee on Federalism will meet on Tuesday, December 15, 1981, at 2:00 p.m. in Room 7008 of the New Executive Office Building, at 17th Street and Pennsylvania Avenue NW., Washington, D.C.

The Subcommittee is part of the Advisory Committee on Federalism which was established by Executive Order 12303 on April 8, 1981. The Chairman of the Full Committee is U.S. Senator Paul Laxalt. The Subcommittee is composed of members from the Full Committee which includes private citizens, public officials from state and local governments, and members of the Legislative and Executive branches of the federal government. The members serve at the pleasure of the President.

The Committee shall advise the President with respect to the objectives and conduct of overall federalism policy of the United States.

The meeting will be open to public observation. Written comments or statements may be submitted at any time before or after the meeting and should be related to the substantive matter identified above. Approximately 25 seats will be available for the public on a first come, first served basis.

For further information, call (202) 456-7943.

Alan F. Holmer,

Deputy Assistant to the President for Intergovernmental Affairs.

Revenue Source Return and Sorting Out of Federal, State and Local Responsibilities; Open Meeting

The Presidential Advisory Committee on Federalism will meet on Tuesday, December 15, 1981, from 8:30 a.m. to 11:30 a.m. in Conference Room B of the Departmental Auditorium on Constitution Avenue, between 12th and 14th Streets, NW., Washington, D.C. There will be two topics of general discussion: Revenue source return and

the sorting out of Federal, state and local responsibilities.

The Advisory Committee on Federalism was established by Executive Order 12303 on April 8, 1981. The Chairman of the Full Committee is U.S. Senator Paul Laxalt. The Committee membership includes private citizens, public officials from state and local governments, and members of the Legislative and Executive branches of the Federal Government. The members serve at the pleasure of the President.

The Committee shall advise the President with respect to the objectives and conduct of the overal federalism policy of the United States.

The meeting will be open to public observation. Written comments or statements may be submitted at any time before or after the meeting and should be related to the substantive matter identified above. Approximately 125 seats will be available for the public on a first come, first served basis.

For further information, call (202) 456–7943.

Alan F. Holmer,

Deputy Assistant to the President for Intergovernmental Affairs.

BILLING CODE 3195-01-M

SECURITIES AND EXCHANGE COMMISSION

[Release No. 22288; (70-6352)]

Wheeling Electric Co.; Proposal To Increase Amount of Long-Term Note

November 27, 1981.

Wheeling Electric Company ("Company"), P.O. Box 751, Wheeling, West Virginia 26003, an electric utility subsidiary of American Electric Power Company, Inc., a registered holding company, has filed with this Commission a post-effective amendment to its previously filed declaration pursuant to sections 6(a) and 7 of the Public Utility Holding Company Act of 1935 ("Act") and Rule 50(a)(2) thereunder.

The Company and Bankers Trust Company ("Bank") are parties to a Term Loan Agreement dated as of October 24, 1979 ("Agreement"), under which the Bank has agreed to lend the Company the principal sum of $19,000,000. Pursuant to the Agreement and the order of the Commission dated October 24, 1979 (HCAR No. 21265), the Company has borrowed the principal sum of $19,000,000 under the Agreement, evidenced by its unsecured promissory note due November 1, 1987, which bears interest prior to maturity at a fluctuating rate per annum equal to: (i) The prime commercial lending rate of the Bank ("Prime Rate") in effect from the date of such note through October 31, 1981; (ii) 102% of the Prime Rate from November 1, 1981, through October 31, 1983; (iii) 104% of the Prime Rate from November 1, 1983, through October 31, 1985; and (iv) 106% of the Prime Rate from November 1, 1985, to maturity. Such note bears interest from maturity at a fluctuating rate per annum equal to the greater of (a) 2% plus the Prime Rate, or (b) 106% of the Prime Rate, until payment in full.

The Company and the Bank now propose to enter into an amendment to the Agreement pursuant to which the Bank would agree to lend the Company up to an additional $3,000,000 through November 1, 1987. The Bank's commitment under the Agreement, as amended, would thereupon be in an aggregate amount of up to $22,000,000.

The Bank and the Company have also agreed to amend the Agreement to provide that the Company's unsecured notes evidencing all borrowings (i.e., original borrowings and additional borrowings) under the Agreement shall bear interest at a fluctuating rate per annum equal to the Prime Rate through October 31, 1983. All other terms, conditions, restrictions and obligations in the Agreement, to the extent not modified by amendment, will remain unchanged.

The additional borrowing under the Agreement, as amended, would be evidenced by an unsecured promissory note ("Note") of the Company. The Note will be due and payable on November 1, 1987, and will bear interest on the unpaid principal amount from the date thereof to the date of payment in full, payable quarterly on the first day of February, May, August and November in each year, at the maturity thereof (whether by acceleration or otherwise) and after such maturity on demand. The Note will be prepayable in whole at any time or in part from time to time without premium or penalty, upon at least three business days' notice to the Bank.

The amended declaration and any further amendments thereto are available for public inspection through the Commission's Office of Public Reference. Interested persons wishing to comment or request a hearing should submit their views in writing by December 21, 1981, to the Secretary, Securities and Exchange Commission, Washington, D.C. 20549, and serve a copy on the declarant at the address specified above. Proof of service (by affidavit or, in the case of an attorney at law, by certificate) should be filed with the request. Any request for a hearing shall identify specifically the issues of fact or law that are disputed. A person who so requests will be notified of any hearing, if ordered, and will receive a copy of any notice or order issued in this matter. After said date, the declaration, as filed or as it may be amended, may be permitted to become effective.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

Shirley E. Hollis,

Assistant Secretary.

BILLING CODE 8010-01-M

[Release No. 22287; 70-6613]

Allegheny Power System, Inc. et al.; Proposed Creation of New Subsidiary, Equity Contributions to the Subsidiary by Its Parents, Guarantee of Subsidiaries Notes and Obligations; Subsidiary's Acquisition of and Capacity Purchases From Other Utility's Power Plant and Issuance of Notes and Stock

November 25, 1981.

In the Matter of Allegheny Power System, Inc., 320 Park Avenue, New York, New York 10022; Monongahela Power Co., 1310 Fairmont Avenue, Fairmont, West Virginia 26554; The Potomac Edison Co., Downsville Pike, Hagerstown, Maryland 21740; West Penn Power Co., 800 Cabin Hill Drive, Greensburg, Pennsylvania 15601; Allegheny Generating Co., 320 Park Avenue, New York, New York 10022.

Allegheny Power System, Inc. ("APS"), a registered holding company, and Monongahela Power Company ("Monongahela"), the Potomac Edison Company ("Potomac"), West Penn Power Company ("West Penn") and Allegheny Generating Company ("AGC"), subsidiaries of APS, have filed an application-declaration and amendments thereto with this Commission pursuant to sections 3, 6, 7, 9, 10 and 12 of the Public Utility Holding Company Act of 1935 ("Act") and the applicable rules promulgated thereunder.

Monongahela, Potomac, and West Penn (the "APS Companies") seek authorization to create a new subsidiary, Allegheny Generating Company ("AGC"), to participate by ownership interest and purchase power contract in 40%, increasable to 50% through December 31, 1984, of VEPCO's 2,100 MW Bath County Pumped Storage Project ("Project"). AGC must initially acquire a 20% undivided interest in the Project scheduled for completion in 1986 at an estimated cost of $1.7 billion. AGC may acquire additional ownership interests up to the elected 40% to 50% participation level at VEPCO's book value adjusted for VEPCO's tax effects.

Monongahela's, Potomac's and West Penn's proposed ownership and participation shares are estimated to be 27%, 28%, and 45%, respectively, with total equity contributions of up to $350 million. Pursuant to an Equity Agreement, Monongahela, Potomac and West Penn will initially acquire 270, 280, and 450 shares, respectively, of AGC common stock with a par value of $1 at a purchase price of $10 per share. The purchase power contracts would be Capacity Purchase Agreements to continue for at least 10 years from commencement and subsequently be terminable upon 10 years notice with capacity purchased at a negotiated rate based on Project cost, or, if unable to agree, at a rate filed by VEPCO with FERC.

Initially, AGC will purchase 20% of VEPCO's Project investment as of the closing date plus 20% of VEPCO's continuing expenditures thereafter up to an aggregate total of $217 million. The purchase price for the initial interest, estimated to be $155 million if closing had been on July 1, 1981, will be the sum of (i) 20% of construction costs, including AFDC, as of closing, (ii) $13.3 million, representing income tax reimbursement as of July 1, 1981 and a portion of the completed plant's worth as of December 31, 1979, and (iii) any additional tax reimbursement for closing after July 1, 1981. AGC may make additional payments toward the $217 million total or may purchase additional interests.

The Agreement requires AGC to deposit with VEPCO at closing an option payment, estimated to be $12 million as of July 1, 1981, equal to the effective financing costs of $217 million from January 1, 1980 to the closing date less contruction costs included in the purchase price of the initial undivided interest. Additional quarterly option payments will be required but on a balance decreasing to zero as AGC makes progress payments of 20% of ongoing construction costs. The aggregate amounts deposited will be credited against either purchases of additional undivided interests in excess of 20% in the Project or be credited to capacity purchases.

AGC will finance the acquisition costs not covered by equity contributions by its parent through short-term and medium-term debt in an aggregate principal amount not exceeding $650 million outstanding at any one time. Borrowings by AGC from APS or the APS Companies will be at the lender's effective interest cost. Such interim debt will be refinanced by permanent debt capital. The precise form, amount, terms and conditions of such permanent debt, and such interim financing in excess of the $225 million of interim debt described below, will be subject to further Commission authorization.

AGC has entered into negotiations regarding the bank finance agreement for the first $225 million of such interim debt with a group of eleven banks with Chemical Bank serving as agent bank. The agreement provides for a revolving credit facility in the maximum aggregate principal amount of $225 million to be converted on the Completion Date (December 31, 1986 or commercial operation of the sixth unit of the Project, if earlier) into a term loan payable in four annual installments with a final maturity on the fourth anniversary of the Completion Date. On the date of regulatory approval ("approval date") a commitment fee of ¼ of 1% of the unused portion of the credit facility will be incurred provided that if the maximum amount of borrowings of AGC outstanding on any day during any January 1 through June 30 or July 1 through December 31 prior to January 1, 1984 exceeds (i) $130 million prior to January 1, 1982, (ii) $160 million after December 31, 1981 and prior to January 1, 1983, or (ii) $200 million after December 31, 1982 and prior to January 1, 1984, then AGC shall retroactively pay a usage fee for the entire such six month period equal to ⅛ of 1% of such excess amounts. From September 15, 1981 to the approval date, AGC shall pay a standby fee of ⅛ of 1% on the credit facility and if the approvals date is later than March 15, 1982, ¼ of 1% after that date. In the event the Bath County transactions for any reason should not close, AGC will be liable for the standby fee accrued between September 15, 1981 and the cancellation date.

The borrowings under the revolving credit facility and the term loans shall bear interest, computed on the basis of one of the three options chosen by AGC, as follows:

	Alternate base rate ("ABR")	LIBOR	CD
Closing to Dec. 31, 1985	ABR	LIBOR + ⅜	CD + ½
Jan. 1, 1986 to Dec. 31, 1990.	ABR + ¼	LIBOR + ½	CD + ⅝

The Alternate Base Rate is the higher of Chemical Bank's floating prime or ½ of 1% over the 90-119 day dealer-placed commercial paper rate, payable quarterly in arrears. The LIBOR is the average International London rate of Chemical Bank, Citibank, N.A. and Manufacturers Hanover Trust Company, adjusted for reserves and payable quarterly in arrears with designated maturities of 2, 3, 4, 5 and 6 months, as available. The CD rate is the reserve and insurance adjusted 3 month certificate of deposit rate, based on Chemical Bank's daily 3-dealer quote, payable quarterly in arrears. The comparative borrowing costs of the three rates as of October 20, 1981 was 18% for ABR, 16.8099% for adjusted LIBOR and 16.5507% for the adjusted CD

rate. Assuming ABR borrowings of $140,100,000 as of December 31, 1982, under a prime rate of 18%, the effective interest cost would be 18.15%. Assuming full ABR line usage and an 18% prime rate from 1986–1990 the effective interest cost would be 18.25%.

From time to time, if AGC considers a fixed rate loan to be more advantageous than the other options, AGC may request and the banks may offer such loans if available up to each bank's designated pro-rata share, in maturities of 1 year or more, but not beyond December 31, 1990.

The commitment may be reduced or terminated by AGC on 10 days' notice at any time without premium or penalty. Any borrowings made may be prepaid at any time without premium or penalty except that any loss to the banks on reinvestment of the funds which results from pre-payment prior to the end of the interest period will be reimbursed by AGC. Monongahela, Potomac and West Penn, severally and not jointly, propose to guarantee their respective ownership percentages of AGC's notes, as well as AGC's duties under the Project, Operating and Capacity Agreements.

VEPCO would continue to construct the Project and would operate the Project pursuant to an Operating Agreement. However, in the event of certain defaults AGC would be entitled to complete construction and to operate the Project.

The APS System and VEPCO are currently interconnected by three separate 500 KV transmission lines. The APS Companies propose to exchange equal interests of up to 50% in two transmission line segments to facilitate transmission of power to the APS System. The APS Companies also seek to acquire interests in other transmission and substation facilities. Appropriate reimbursement for the exchange is presently being determined.

The application-declaration and any amendments thereto are available for public inspection through the Commission's Office of Public Reference. Interested persons wishing to comment or request a hearing should submit their views in writing by December 18, 1981, to the Secretary, Securities and Exchange Commission, Washington, D.C. 20549, and serve a copy on the applicant-declarants at the addresses specified above. Proof of service (by affidavit or, in the case of an attorney at law, by certificate) should be filed with the request. Any request for a hearing shall identify specifically the issues of fact or law that are disputed. A person who so requests will be notified of any hearing, if ordered, and will receive a copy of any notice or order issued in this matter. After said date, the application-declaration, as amended or as it may be further amended, may be granted and permitted to become effective.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

George A. Fitzsimmons,

Secretary.

BILLING CODE 8010-01-M

[Release No. 12056 812-4900]

American General Life Insurance Co. of Delaware; et al.; Filing of Application for an Order Exempting Applicants and Approving Certain Offers of Exchange

November 25, 1981.

In the Matter of American General Life Insurance Co. of Delaware; American General Life Insurance Co. of Delaware Separate Account D and American General Capital Distributors, Inc. 2727 Allen Parkway, P.O. Box 1931, Houston, Texas 77001

Notice is hereby given That American General Life Insurance Company of Delaware ("AG Life"), American General Life Insurance Company of Delaware Separate Account D ("Account D"), and American General Capital Distributors, Inc. ("Distributors") (collectively, "Applicants"), filed an application on June 19, 1931, and an amendment thereto on November 12, 1981, for an order of the Commission pursuant to Section 6(c) of the Investment Company Act of 1940 ("Act") exempting Applicants, to the extent requested, from the provisions of Sections 2(a)(32), 2(a)(35), 22(c), 22(e), 26(a), 26(a)(2)(C), 27(a)(3), 27(c)(1), 27(c)(2) and 27(d) of the Act and Rule 22c–1 thereunder and, pursuant to Section 11 of the Act, approving certain offers of exchange. AG Life is a Delaware stock life insurance company. Account D is a separate account of AG Life registered under the Act as a unit investment trust. AG Life is the depositor of, and Distributors, the principal underwriter for, Account D. All interested persons are referred to the application, as amended, on file with the Commission for a statement of the representations made therein, which are summarized below.

Account D funds certain variable annuity contracts which AG Life currently has outstanding (the "Current Contracts"). According to the application, AG Life intends to discontinue marketing the Current Contracts and, in their place, to offer a new class of variable annuity contracts (the "Proposed Contracts"). Both the Proposed and Current Contracts are individual variable annuity contracts designed to establish retirement benefits, either on a "qualified" or "non-qualified" basis for federal tax purposes. Three types of contracts are offered: (a) single payment immediate annuity contracts, under which the owner makes only one purchase payment and annuity payments to the person entitled to receive them commence within two months; (b) single payment deferred annuity contracts, under which the owner makes only one purchase payment but the date on which annuity payments commence is deferred; and (c) periodic payment deferred annuity contracts, which contemplate a series of purchase payments and a deferred annuity date. There are minimum purchase payment requirements under the Proposed Contracts.

Purchase payments with respect to the Proposed Contracts will be placed in Account D and will be allocated at the election of purchasers of the Proposed Contracts to one or more of its divisions. The assets of each division are invested solely in shares of an open-end management investment company ("Fund"). Two such Funds will be used in connection with the Proposed Contracts, American General Money Market Fund, Inc. and High Yield Accumulation Fund, Inc. (divisions six and seven, respectively). Applicants state that additional divisions may be added to the Separate Account from time to time and existing divisions may be eliminated (or their assets invested in other Funds). During the accumulation and annuity periods, the terms of the Proposed Contract permit contractowners and, in certain cases, beneficiaries under the Proposed Contract to make transfers among the divisions available in connection with the contract, subject to certain limitations. Transfers are effected at net asset value subject to a charge of $10 with respect to each transfer. This charge is assessed against the accumulated value during the accumulation period and against the amount being transferred during the annuity period. AG Life may suspend these rights of transfer.

No sales charge is deducted from purchase payments made under the Proposed Contracts. Rather, a withdrawal charge will be imposed on surrenders during the accumulation period and in connection with certain settlement options under the Proposed Contracts. The withdrawal charge is calculated as a percentage of the dollar amount of purchase payments made

during the preceding 72 months which are withdrawn. It is always assumed that the earliest purchase payments during the 72-month period are withdrawn first and no withdrawal charge is ever imposed on any amount not actually withdrawn. The withdrawal charge equals the sum of the following: 1% of purchase payments made during the 61st through 72nd months prior to surrender; 2%of purchase payments made during the 49th through 60th months prior to surrender; 3% of purchase payments made during the 37th through 48th months prior to surrender; 4% of purchase payments made during the 25th through 36th months prior to surrender; 5% of purchase payments made during the 13th through 24th months prior to surrender; and 6% of purchase payments made during the 1st twelve months prior to surrender.

If a partial surrender is made which reduces the accumulated value of the contract by less than 80% of the accumulated value immediately preceding such partial surrender, no withdrawal charge will be imposed on any amount withdrawn (the "Exempt Amount") which, when added to all other Exempt Amounts previously withdrawn over the life of the contract, does not exceed the sum of the following: 100% of purchase payments made more than 72 months prior to the partial surrender; 50% of purchase payments made during the 61st through 72nd months prior to the partial surrender; 40% of purchase payments made during the 49th through 60th months prior to the partial surrender; 30% of purchase payments made during the 37th through 48th months prior to the partial surrender; 20% of purchase payments made during the 25th through 36th months prior to the partial surrender; and 10% of purchase payments made during the 13th through 24th months prior to the partial surrender.

If the partial surrender is for more than the Exempt Amount so calculated, the same withdrawal charge will be imposed as would be imposed on a total surrender in the amount of such excess. Once a withdrawal charge has been imposed on any purchase payment or portion of a purchase payment, that purchase payment or portion will not thereafter be considered as a purchase payment for purposes of calculating either the withdrawal charge or the Exempt Amount. If a partial surender is made which reduces the accumulated value of the contract by 80% or more of the accumulated value of the contract immediately preceding such partial surrender, or if a total surrender is made, the amount of the withdrawal charge imposed will be adjusted upward to reflect a withdrawal charge on Exempt Amounts withdrawn without a withdrawal charge pursuant to any partial surrenders made during the preceding 12 months. Under the Proposed Contracts, if the surrender value at any time during the accumulation period falls below $300, AG Life at its option may cause the contract to be involuntarily surrendered, provided the contract is not a qualified contract. A withdrawal charge will be imposed in such cases in the same amount as would be imposed on a voluntary total surrender.

The withdrawal charge will also apply in connection with certain settlement options under the Proposed Contracts. The Proposed Contracts will treat a surrender in lieu of annuitization as a total surrender during the accumulation period and such surrender will be subject to any applicable withdrawal charge. Where an annuitant is receiving annuity payments under an annuity option not providing for life contingencies, the annuitant may elect at any time to receive the commuted value of the contract, in which case any applicable withdrawal charge will be imposed on such commuted value as if it were a total surrender of the contract. Contractowners who wish to receive fixed (but not variable) annuity payments may elect to have the value of their contract applied to a fixed life annuity pursuant to a "betterment of rates" provision, rather than pursuant to the annuity rate table guaranteed in the contract; and if they make such election, any applicable withdrawal charge will be assessed against the contract value so applied, as if a total surrender of the contract had been effected. These withdrawal charges, though imposed on or after the annuity date, will be based on purchase payments, as described above in connection with surrenders made during the accumulation period. Thus, Applicants represent that no such charges would be imposed on any election of a commutation option or betterment of rates option occurring more than 72 months after the most recent purchase payment was made.

Under the Proposed Contracts, deductions for premium taxes, if any, will be made from the amount applied to an annuity option at the annuity date, even though AG Life may actually have paid the tax at the time a purchase payment was made. Under the Proposed Contracts, AG Life will charge Account D an amount (the "Asset Charge"), calculated daily, at an annual rate of 1.25% of the average daily net asset value of the separate account assets allocable to Proposed Contracts. Under the Proposed Contracts, AG Life will also receive reimbursement for administrative expenses from an annual contract maintenance charge in the amount of $30, which will be assessed on the last day of each contract year during the accumulation period, and which will be pro rated on a monthly basis for each month or part thereof during the contract year in case of a total surrender other than at the end of a contract year. This annual contract maintenance charge is not guaranteed and may be raised or lowered in AG Life's discretion as to contracts outstanding at any time and/or as to contracts issued subsequently. The Asset Charge is intended to cover additional anticipated administrative expenses and to compensate AG Life for assuming mortality risks. The Asset Charge is guaranteed and may not be increased by AG Life. Applicants estimate that approximately four-fifths of the Asset Charge is allocable to assumption of mortality risks and that anticipated administrative expenses constitute approximately one-fifth of the Asset Charge.

Exemptions for Withdrawal Charge

Section 2(a)(35) of the Act defines "sales load" as the difference between the price of a security to the public and that portion of the proceeds from its sale which is received and invested or held for investment by the issuer, less any portion of such difference deducted for trustee's or custodian's fees, insurance premiums, issue taxes, or administrative expenses or fees which are not properly chargeable to sales or promotional activities. Applicants state that, because of the timing of the withdrawal charge, that charge might not be encompassed by the definition of sales load in section 2(a)(35). Nevertheless, Applicants state that the withdrawal charge will be allocated to cover expenses associated with the offer and sale of the Proposed Contracts, including commissions paid to sales personnel, promotional expenses and sales administration expenses, just as a "front-end" sales load is. Therefore, although Applicants do not necessarily agree that the withdrawal charge is not a sales load within the meaning of section 2(a)(35), Applicants request an exemption from the provisions of that section, to the extent necessary, in order to permit the offer and sale of the Proposed Contracts with the withdrawal charge.

In general, section 2(a)(32) of the Act defines a "redeemable security" as any

V 46 / 231 DEC 2 81 UMI

security under the terms of which the holder, upon its presentation to the issuer, is entitled to receive "approximately his proportionate share" of the issuer's current net assets, or the cash equivalent thereof. Section 27(c)(1) provides, in substance, that no issuer of a periodic payment plan certificate shall sell such certificates unless the certificate is a "redeemable security." Applicants submit that although section 2(a)(32) does not specifically contemplate the imposition of a sales charge at the time of redemption, such a charge is not inconsistent with the definition of a redeemable security, and that Congress intended that a redemption charge be deemed consistent with the concept of "proportionate share" under section 2(a)(32). Therefore, although Applicants do not believe that the withdrawal charge would necessarily violate sections 2(a)(32) and 27(c)(1) of the Act, Applicants request an exemption from those sections, to the extent necessary, to permit the imposition of the withdrawal charge under the Proposed Contracts.

In effect, section 27(a)(3) of the Act prohibits the imposition of any sales load in connection with a periodic payment plan certificate if the amount of such sales load deducted from any one of the first twelve monthly payments exceeds proportionately the amount deducted from any other such payment, or the amount deducted from any subsequent payment exceeds proportionately the amount deducted from any other subsequent payment. Under the Proposed Contracts, if a partial surrender is made which reduces the accumulated value of a Proposed Contract, if a partial surrender is made which reduces the accumulated value of a Proposed Contract by 80% or more of the accumulated value of the contract immediately preceding such partial surrender, or if a total surrender is made, the amount of any withdrawal charge imposed will be adjusted upward to reflect a withdrawal charge on Exempt Amounts withdrawn without a withdrawal charge pursuant to partial surrenders made during the preceding twelve months. Applicants state that the reimposition of the withdrawal charge on such Exempt Amounts might be deemed to represent a charge that exceeds proportionately that imposed on another withdrawal and, hence, inconsistent with section 27(a)(3). Applicants state that they nevertheless do not believe that section 27(a)(3) applies to a withdrawal charge. Although Applicants do not necessarily agree that the withdrawal charge is inconsistent with section 27(a)(3), Applicants request an exemption from that section, to the extent necessary, to permit the offer and sale of the Proposed Contracts with the withdrawal charge.

Section 27(d) of the Act, in effect, requires that a holder of a periodic payment plan certificate who redeems the certificate within eighteen months of issuance receive (a) the value of his or her account and (b) an amount equal to the excess paid for sales expenses which is over 15% of the purchase payments made by the certificate holder. Applicants state that the first requirement under section 27(d), that is, that a holder receive the value of his account, is addressed above in connection with sections 2(a)(32) and 27(c)(1). As to the second requirement, Applicants assert that during the eighteen-month period addressed in section 27(d), the maximum rate for the withdrawal charge for sales expenses will be 6% of purchase payments as compared with the maximum rate of 15% under the section. Nevertheless, to eliminate any doubt as to the applicability of section 27(d), Applicants request an exemption from that section, to the extent necessary, to permit the offer and sale of the Proposed Contracts with the withdrawal charge.

Rule 22c–1 promulgated under section 22(c) of the Act, as pertinent, prohibits a registered investment company which issues a redeemable security from redeeming such security except at a price based on the current net asset value of such security which is next computed after receipt of the tender of such security. Applicants assert that the aspect of rule 22c–1 that addresses the amount to be redeemed upon withdrawal reflects the requirements of sections 2(a)(32) and 27(c)(1) discussed above. Regarding the timing requirement of rule 22c–1, Applicants state that, consistent with their current procedures, they will determine the value of any interest surrendered or commuted on behalf of an owner or annuitant on the basis of the current net asset value that is next computed after receipt of the withdrawal request. Applicants state that the proposal meets the policy and purposes of rule 22c–1. Although Applicants, therefore, do not believe that the withdrawal charge would necessarily violate such provisions, Applicants request an exemption from section 22(c) and rule 22c–1, to the extent necessary, to permit the deduction of the withdrawal charge from the value of an individual account upon surrender or commutation.

Section 27(c)(2) of the Act provides, in substance, that a periodic payment plan certificate company or a depositor or underwriter for such a company is prohibited from selling any such certificates unless, among other things, the proceeds of all payments, other than the sales load, on such certificates are deposited with a trustee or custodian having the qualifications prescribed in section 26(a)(1) and are held by such trustee or custodian under an agreement containing, in substance, the trust indenture provisions required by sections 26(a)(2) and 26(a)(3) of the Act. Section 26(a)(2)(C) provides that no payment to the depositor of, or principal underwriter for, a registered unit investment trust (or to any affiliated person or agent of such depositor or principal underwriter) shall be allowed the trustee or custodian as an expense except for payment of a fee, not exceeding such reasonable amount as the Commission may prescribe as compensation for performing bookkeeping and other administrative services of a character normally performed by the trustee or custodian. Applicants state that the withdrawal charge to be imposed under The Proposed Contracts is designed to recover costs relating to the offer and sale of the Proposed Contracts. Applicants assert, therefore, that the withdrawal charge is wholly consistent with the Congress' intent in enacting section 27(c)(2), which specifically makes provision for and excepts sales load deductions from the requirement that the proceeds of all payments under a periodic payment plan certificate be deposited with a trustee or custodian. Although Applicants, therefore, do not believe that the withdrawal charge would necessarily violate sections 26(a)(2)(C) and 27(c)(2) of the Act, Applicants request an exemption from the provisions of those sections, to the extent necessary, in order to permit the offer and sale of the Proposed Contracts with the withdrawal charge.

Exemptions for Custodianship and for Payment of Contract Fees and Charges

Section 27(c)(2) of the Act prohibits a registered investment company or any depositor or underwriter for such company from selling periodic payment plan certificates, unless the proceeds of all payments other than the sales load are deposited with a trustee or custodian having the qualifications prescribed in section 26(a)(1) and held under an agreement containing, in substance, the provisions required by sections 26(a)(2) and (3) of the Act. Applicants request exemptions from sections 26(a) and 27(c)(2) of the Act in order that: (1) assets of Account D may

be held by AG Life under the terms and conditions, and subject to the fees and charges (including the Asset Charge, the annual maintenance charge for administrative expenses, transfer fees, and any premium tax charges) set forth in the application rather than by a trustee or custodian pursuant to an indenture or agreement as provided in those sections; (2) certificates for shares in the Funds may be held in an "open-account" system; and (3) assets of Account D although segregated will not be required to be held in trust. In support of these requested exemptions, Applicants state that except for Fund shares, Account D's only assets will consist of small amounts of cash from time to time. Such cash will be kept on deposit in the name of Account D with a bank meeting the requirements of section 26(a)(1). According to Applicants, safekeeping of Account D assets does not require that Fund certificates be issued to AG Life and any such requirement would, in fact, result in unnecessary administrative expenses. The application states that AG Life is subject to extensive supervision and control by the insurance regulatory authorities of the State of Delaware and of each other state in which it does business; such supervision requires AG Life to complete and file detailed periodic reports; AG Life's activities are subject to review and examination by the Delaware Commissioner of Insurance at all times; and a full examination of AG Life's operations is conducted by the National Association of Insurance Commissioners at least once every three years. Applicants represent that the administrative charges under the Proposed Contracts (i.e., the $30 annual maintenance charge and the portion of the Asset Charge attributable to additional anticipated administrative expenses) are reasonable, in amounts not exceeding anticipated administrative expenses, and not properly chargeable to sales or promotional activities within the meaning of the Act. Applicants acknowledge that any increase of the annual maintenance charge above $30 will require additional exemptive relief.

Applicants consent to the requested exemptions from sections 26(a) and 27(c)(2) of the Act being granted subject to the following conditions: (a) the charges pursuant to the Proposed Contracts for administrative services shall not exceed such reasonable amounts as the Commission shall prescribe, jurisdiction being reserved for such purpose; and (b) the payment of sums and charges out of Account D shall not be deemed to be exempted from regulation by the Commission by reason of the requested order; provided, that Applicants' consent to this condition shall not be deemed to be a concession to the Commission of authority to regulate the payment of sums and charges out of such assets other than charges for administrative services, and Applicants reserve the right in any proceeding before the Commission, or in any suit or action in any court, to assert that the Commission has no authority to regulate the payment of such other sums or charges.

Exemptions Relating to Texas Optional Retirement Program

Texas institutions of higher education make available to certain of their employees an optional retirement program (the "Texas Program"), codified as Subchapter G of Chapter 51 of the Texas Education Code. Applicants state that, as interpreted by the Attorney General of Texas, Texas law, in effect, prohibits any participant in the Texas Program from receiving the redemption or surrender value of a variable annuity contract funding benefits under the Texas Program prior to termination of employment, retirement, death, or total disability. Section 27(c)(1) of the Act makes it unlawful for any registered investment company issuing periodic payment plan certificates, or for any depositor of or underwriter for such company, to sell any such certificate unless such certificate is a redeemable security. Section 2(a)(32) of the Act defines a "redeemable security" as any security under the terms of which the holder, upon its presentation to the issuer, is entitled to receive approximately his proportionate share of the issuer's current net assets, or the cash equivalent thereof. Section 22(e) of the Act provides that no registered investment company shall suspend the right of redemption of any redeemable security in accordance with its terms for more than seven days after the tender of such security to the company or its agent designated for that purpose for redemption, except in certain prescribed circumstances. Section 27(d) of the Act makes it unlawful for any registered investment company issuing periodic payment plan certificates, or for any depositor of or underwriter for such company, to sell any such certificate unless the certificate provides that the holder thereof may surrender the certificate at any time within the first eighteen months after the issuance of the certificate and receive in payment thereof, in cash, the sum of (a) the value of his or her account, and (b) an amount, from such underwriter or depositor, equal to that part of the excess paid for sales loading which is more than 15% of the purchase payments made by the certificate holder.

Applicants request exemptions from the provisions of sections 22(e), 27(c)(1) and 27(d) of the Act, to the extent necessary, to permit compliance with Section 51.358 of the Texas Education Code as it pertains to (a) any redemptions under Proposed Contracts or Current Contracts issued subsequent to the date of the exemptive order or (b) any redemption under Current Contracts issued prior to the date of the exemptive order, where the amount redeemed is not in excess of purchase payments made subsequent to such date, plus appreciation thereon. Applicants state that appropriate disclosure will be made to persons who consider participation in the Texas Program, informing them of the restriction on the availability of redemption values under contracts to be issued to them. This disclosure will take the form of an appropriate reference in each prospectus (or a sticker thereto) to the restrictions on redemption of these contracts, as well as requiring each participant, as a part of the determination that the sale of these contracts is suitable for that participant, to sign a statement indicating that he or she is aware that these restrictions will be placed on his contract when it is issued. In addition, according to Applicants, all sales literature that is to be used in conjunction with the sale of these contracts will be reviewed for the existence of material representations that are inconsistent with the restrictions to be placed on these contracts, and the salespeople involved in soliciting in this market will be instructed to bring this restriction specifically to the attention of the potential participants. Applicants assert that if such exemptions are not granted, adherence to the opinion of the Attorney General of Texas would effectively deny persons participating in the Texas Program an opportunity to select as a funding medium for their retirement benefits one of two funding media (the other being fixed annuity contracts) specifically provided in the Texas statute for such purpose.

Approvals Under Section 11

Section 11(a) of the Act, in effect, requires that the terms of any offer made to a security holder of an open-end investment company registered under the Act to exchange his or her security for the security of the same or another open-end investment company registered under the Act must receive prior Commission approval, if the exchange is to be made on a basis other

V 46 / 231 DEC 2 81 UMI

than the relative net asset value of the interests to be exchanged. Section 11(c) of the Act, *inter alia*, requires that, regardless of whether an exchange referred to in section 11(a) is effected at net asset value, the Commission must approve in advance the terms of any offer of exchange of securities of a registered open-end company for securities of a registered unit investment trust and of any type of offer of exchange of the securities of a registered unit investment trust for securities of any other investment company.

Applicants state that sections 11(a) or 11(c) could be interpreted to require Commission approval of transfers between divisions six and seven of Account D pursuant to the Proposed Contracts. Although Applicants do not necessarily agree that any such interpretation would be correct, Applicants request Commission approval under those sections to the extent necessary to permit owners and beneficiaries to effect transfers among the various divisions of Account D pursuant to the Proposed Contracts, subject to an administrative charge of $10 per transfer. Applicants believe the transfers between Account D divisions contemplated by the Proposed Contracts are consistent with the purposes of sections 11(a) and (c) of the Act and the terms thereof should be approved by the Commission.

AG Life intends to offer owners of deferred Current Contracts which are in the accumulation period the opportunity to surrender such contracts and apply the proceeds to the purchase of a Proposed Contract. According to the application, no partial conversions will be permitted and the decision to convert will be completely in the discretion of the contract owner. Applicants state that since holders of Current Contracts have already paid a sales expense charge on purchase payments made thereunder, amounts converted from a Current Contract to a Proposed Contract ("Converted Amounts") will not be subject to the withdrawal charge which otherwise would be applicable under the Proposed Contracts. Purchase payments made under the Proposed Contract subsequent to the conversion, however, would be subject to such withdrawal charge under the Proposed Contract, with such exceptions and exemptions as are available to holders of Proposed Contracts generally. For this purpose, Converted Amounts would be deemed to be withdrawn only after all such subsequent purchase payments had been withdrawn. The application states that no charge will be assessed by AG Life for the privilege of converting. Applicants assert that the conversion offer will be made via the prospectus used in connection with the Proposed Contracts and a special supplement thereto which will provide full disclosure as to the terms and conditions, and advantages and disadvantages, of the conversion offer. Applicants state that section 11(a) or section 11(c) could be interpreted to require Commission approval of the proposed conversion offer. Although Applicants do not necessarily agree with such an interpretation, Applicants request Commission approval under those sections to the extent necessary to permit AG Life to offer Current Contract owners the opportunity to convert to Proposed Contracts under the terms and conditions described above. Applicants believe the conversion offer is consistent with the purposes of sections 11(a) and (c) of the Act and the terms thereof should be approved by the Commission.

Section 6(c) of the Act, in pertinent part, provides that the Commission, by order upon application, may conditionally or unconditionally exempt any person, security, or transaction, or any class or classes of persons, securities or transactions, from any provision or provisions of the Act to the extent that such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Notice is further given That any interested person may, no later than December 16, 1981, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reasons for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communications should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C., 20549. A copy of such request shall be served personally or by mail upon the Applicants at the address stated above. Proof of such service (by affidavit or, in the case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. As provided by rule 0–5 of the Rules and Regulations promulgated under the Act, an order disposing of the application will be issued as of course following December 16, 1981 unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive any notice and orders issued in this matter, including any notice of the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

George A. Fitzsimmons,

Secretary.

BILLING CODE 8010–01–M

[File No. 1–6955]

Bancroft Convertible Fund, Inc., Common Stock, $.01 Par Value; Application To Withdraw From Listing and Registration

November 25, 1981.

The above named issuer has filed an application with the Securities and Exchange Commission pursuant to section 12(d) of the Securities Exchange Act of 1934 ("Act") and rule 12d2–2(d) promulgated thereunder, to withdraw the specified security from listing and registration on the Boston Stock Exchange, Inc. ("BSE").

The reasons alleged in the application for withdrawing this security from listing and registration include the following:

1. The common stock of Bancroft Convertible Fund, Inc. ("Company") is listed and registered on the BSE and the American Stock Exchange, Inc. ("Amex"). Due to the lack of activity of the Company's stock on the BSE, the Company has determined that the costs and expenses do not justify maintaining the listing of the common stock on the BSE.

2. This application relates solely to withdrawal of the common stock from listing and registration on the BSE and shall have no effect upon the continued listing of such stock on the Amex. The BSE has posed no objection to this matter.

Any interested person may, on or before December 18, 1981, submit by letter to the Secretary of the Securities and Exchange Commission, Washington, D.C. 20549, facts bearing upon whether the application has been made in accordance with the rules of the Exchange and what terms, if any, should be imposed by the Comission for the protection of investors. The Commission, based on the information submitted to it, will issue an order granting the application after the date mentioned above, unless the

Commission determines to order a hearing on the matter.

For the Commission, by the Division of Marketing Regulation, pursuant to delegated authority.

George A. Fitzsimmons,

Secretary.

[FR Doc. 81-34587 Filed 12-1-81; 8:45 am]

BILLING CODE 8010-01-M

[Release No. 18286]

Chicago Board Options Exchange, Inc. et al.; Filing and Order Approving Proposed Rule Changes

November 24, 1981.

In the Matter of Chicago Board Options Exchange, Incorporated, LaSalle at Jackson, Chicago, Illinois 60604; American Stock Exchange, Inc., 86 Trinity Place, New York, New York 10006; Philiadelphia Stock Exchange, Inc., 1900 Market Street, Philadelphia, Pennsylvania 19103; Pacific Stock Exchange, Incorporated, 618 South Spring Street, Los Angeles, CA 90014; SR-CBOE-81-21 SR-Amex-81-19, SR-Phlx-81-17, SR-PSE-81-20.

The Chicago Board Options Exchange ("CBOE"),[1] the American Stock Exchange ("Amex"),[2] the Pacific Stock Exchange ("PSE"),[3] and the Philadelphia Stock Exchange ("Phlx") [4] (collectively, the "options exchanges") have filed with the Commission, pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1) (the "Act") and Rule 19b-4, proposed rule changes to amend their initial and maintenance listing standards for stocks underlying listed options.[5] The proposed amendments to the initial listing standards would, among other things: (1) reduce the float requirement from eight million to seven million shares; (2) reduce the minimum number of shareholders required from 10,000 to 6,000; (3) replace the requirement that the issuer be in compliance with Sections 13 and 14 of the Act with a requirement that the issuer be in compliance with any applicable filing or disclosure requirements under the Act; and (4) modify the default and net income criteria for issuers. The amendments would modify the options exchanges' maintenance listing standards in a similar manner, except that the issuer net income requirement would be eliminated as a maintenance standard.

Due to the derivative and highly leveraged nature of options, options listing standards are intended to ensure that the stocks underlying options have broad distribution and active trading characteristics ("quality of market" criteria) and are limited to those of certain qualified issuers ("quality of issuer" criteria). The quality of market criteria relate to public float, number of shareholders, trading volume and price. The quality of issuer criteria relate to compliance with certain Exchange Act requirements, defaults, net income and deficits.

The quality of market standards were developed primarily to limit options trading to underlying securities which appeared to be less susceptible to regulatory problems associated with unusually high market volatility, *e.g.*, manipulation, market corners, short squeezes, and excessive speculation and financial exposure. It was felt that because options are low cost and highly leveraged instruments would be easier to facilitate such occurrences through a relatively small committment of capital to an options position.

The quality of issuer standards relate in large part to the manner in which disclosure is made concerning options on particular stocks. When the CBOE initally proposed its options program it contended that it would be unnecessarily burdensome to require prospectus disclosure of specific information with respect to each issuer of stocks underlying options. The Commission agreed, provided that options trading was limited to high quality stocks issued by relatively stable companies about which considerable information was available to options investors.

The Commission believes that the modifications proposed by the options exchanges pose no significant regulatory problems, and should continue to ensure that options are listed only on stocks that are widely held and actively traded and whose issuers are relatively stable and about whom considerable information is publicly available.

Accordingly, the Commission finds that the proposed rule changes are consistent with the requirements of the Act and the rules and regulations thereunder applicable to national securities exchanges, and in particular, the requirements of Section 6 and the rules and regulations thereunder. The Commission finds good cause for approving the Phlx and PSE proposed rule changes prior to the thirtieth day after the date of publication of notice of filing thereof in that the terms of the Phlx and PSE proposals are identical to those of the Amex and CBOE which were published for the full statutory period.

It is therefore ordered, pursuant to sections 19(b)(2) of the Act, that the above-mentioned proposed rule changes be, and they hereby are, approved.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

George A. Fitzsimmons,

Secretary.

V 46 / 231 DEC 2 81 UMI

and rules 43, 45, 50(a)(2), 50(a)(3) and 50(a)(5) thereunder.

By orders dated April 30, 1981 and July 15, 1981 (HCAR Nos. 22032 and 22130), the Commission authorized the following transactions of Columbia and certain subsidiaries: (1) the issuance of Columbia of up to $350,000,000 of notes to banks and commercial paper to dealers through May 31, 1982; (2) the advance by Columbia on open account to certain subsidiaries of up to $576,500,000 through December 31, 1981; and (3) the acquisition by Columbia, and the issuance and sale by certain subsidiaries, of up to $319,800,000 of installment and/or term notes and $9,000,000 of common stock through December 31, 1981. Jurisdiction was reserved over borrowings by Columbia Gas of New York, Inc., pending the receipt of the requisite state authorization.

By post-effective amendment, Columbia Hydrocarbon Corporation ("Hydrocarbon") requests that its authorization to issue notes to Columbia, and for Columbia to acquire such notes, be increased from $7,000,000 to $8,000,000 under the same terms and conditions specified in the order of April 30, 1981 (HCAR No. 22032). Hydrocarbon also proposes to issue and sell, and Columbia seeks to acquire, up to 136,000 shares of $25.00 per value common stock for an aggregate par value of $3,400,000. The additional funds are required because Hydrocarbon's cost of purchased products for resale has increased substantially.

By the Commission's order of April 30, 1981, (HCAR No. 22032) the Commission also authorized Columbia to advance on open account to Columbia Gas Transmission Corporation ("Transmission") and Hydrocarbon up to $250,000,000 and $1,000,000 respectively. Transmission's cost of gas purchased for storage has increased substantially, making the original authorization inadequate. Hydrocarbon's liquid stream cost has doubled, making its initial financing authorization insufficient for the remainder of the year. Columbia also seeks to include in its application-declaration and make open account advances to Commonwealth Gas Pipeline Corporation ("Commonwealth Pipeline"), Commonwealth Gas Services, Inc. ("Commonwealth Services"), and Bottled Gas Corporation of Virginia ("Bottled Gas"), three new subsidiaries resulting from the merger of Columbia and Commonwealth Natural Resources, Inc. (HCAR No. 22166, August 20, 1981). The proposed open account advances would be under indentical terms and conditions to those previously authorized and the advances would be up to the following maximum aggregate amounts:

Columbia Transmission	$330,000,000
Hydrocarbon	8,000,000
Commonwealth Pipeline	2,000,000
Commonwealth Services	4,000,000
Bottled Gas	3,500,000

Notes issued by Columbia Gas Development of Canada LTD. ("Development Canada") pursuant to our order of April 30, 1981 (HCAR No. 22032) generally have the same provisions as the other authorized notes. However, the payment of both interest and current maturities would only be made to the extent that Development Canada had U.S. taxable earnings from operations and therefore a corresponding tax liability on a year-to-year basis. Any unpaid interest and current maturities, resulting because of this provision would be accrued and carried forward to future years and would be paid at such time as Development Canada had sufficient U.S. taxable earnings. By post-effective amendment, it is proposed that this provision be changed to only defer payment of interest, not current maturities. However, the interest on such notes of Development Canada would be due and payable only if and to the extent that it is determined, as of the end of such payment period, that Columbia will be able to reduce its United States consolidated income tax liability for the taxable year in which such interest is to be paid, or for any preceding taxable year, by the full amount of any foreign taxes paid or payable by Columbia with respect to such interest or the receipt thereof.

The application-declaration as amended by said post-effective amendment and any further amendments, is available for public inspection through the Commission's Office of Public Reference. Interested persons wishing to comment or request a hearing should submit their views in writing by December 18, 1981, to the Secretary, Securities and Exchange Commission, Washington, D.C. 20549, and serve a copy on the applicant-declarants at the addresses specified above. Proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. Any request for a hearing shall identify specifically the issues of fact or law that are disputed. A person who so requests will be notified of any hearing, if ordered, and will receive a copy of any notice or order issued in this matter. After said date the application-declaration, as amended by the post-effective amendment or as it may be further amended, may be granted and permitted to become effective.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

Shirley E. Hollis,

Assistant Secretary.

DEPARTMENT OF STATE

[Public Notice 783]

Claims Against Iran

This notice concerns the procedures applicable to the filing and hearing of claims of U.S. nationals against Iran before the Iran-United States Claims Tribunal at The Hague. It supplements information provided in Public Notices 779 (46 FR 55468, November 9, 1981), 775 (46 FR 49695, October 7, 1981), 772 (46 FR 45057, September 9, 1981) and 764 (46 FR 37418, July 20, 1981). For further information, contact David P. Stewart, Administrator Iranian Claims, Office of the Legal Adviser, Department of State, Washington, D.C. 20520. Telephone (202) 632-5040.

At its November preparatory session the Iran-United States Claims Tribunal adopted the following additional guidance regarding the preparation and filing of statements of defense. The text set forth below was received by the Department of State on November 25, 1981.

Iran-United States Claims Tribunal

Administrative Directive No. 4

November 21, 1981

1. Introduction

This Administrative Directive has been issued by the Iran-United States Claim Tribunal to inform interested parties concerning additional provisions of the forthcoming Tribunal Rules relating to the preparation and filing of statements of defense.

2. Statement of Defense

(A) The provisions of Administrative Directive Number 1 and 2 relating to the languages, number of copies, form, delivery, and actions of the Registrar with respect to statements of claims also apply equally to statements of defense.

(B) Each statement of defense and any

other documents filed with the Tribunal shall have a caption stating:

(i) The names of the parties,

(ii) The case number assigned by the Registrar and

(iii) The number of the Chamber seised of the case.

Gunnar Lagergren, President.

November 25, 1981

David P. Stewart,

Administrator for Iranian Claims.

DEPARTMENT OF THE TREASURY

Office of the Secretary

[Supplement to Depart. Circular Public Debt Series—No. 37-81]

Treasury Notes of Series D-1987; Interest Rate

November 25, 1981.

The Secretary announced on November 24, 1981, that the interest rate on the notes designated Series D-1987, described in Department Circular—Public Debt Series—No. 37-81 dated November 18, 1981, will be 12¾ percent. Interest on the notes will be payable at the rate 12¾ percent per annum.

Supplementary statement: The announcement set forth above does not meet the Department's criteria for significant regulations and, accordingly, may be published without compliance with the departmental procedures applicable to such regulations.

Paul H. Taylor,

Fiscal Assistant Secretary.

PAROLE COMMISSION

[2P0401]

TIME AND DATE:

5 p.m. to 5:45 p.m., Monday, December 7, 1981

9 p.m. to 5:30 p.m., Wednesday, December 9, 1981

PLACE: Room 420-F, One North Park Building; 5550 Friendship Boulevard; Bethesda, Maryland 20015.

STATUS: Open.

MATTERS TO BE CONSIDERED:

1. *CTC Placements.* Mr. Gerald Farkas from the Bureau of Prisons has been invited to make a presentation to the Commission on Monday, December 7, 1981 at 5:00 p.m.

2. Approval of minutes of meetings of September 11, 1981 and October 6 and 7, 1981.

3. Reports from Chairman, Commissioners, Counsel's Office, and Research and Case Operations Sections.

4. Briefing on proposed legislation

5. Consideration of rule changes, procedural changes, changes in functions, or authorization of further studies in reference to the following subjects:

(a) Parole on the record;

(b) Expansion of regional boundaries;

(c) Adding cases to hearing dockets;

(d) Combining Northeast Region with Central Office;

(e) Hearings by one examiner;

(f) Summary retardation for disciplinary infractions;

(g) Hearings at tri-monthly intervals;

(h) Similar related issues.

6. Severity Rating of Multiple Separate Offenses.

7. Wording on Notices of Action.

8. Federal Prosecution of Juvenile Delinquents.

9. Superior Program Achievement

10. Inmates Released on Bond.

11. Status of Colorado YCA cases and YCA institutions.

12. Handling of D.C. Parole Violators.

CONSENT AGENDA: The following Consent Agenda items, only if previously requested to be opened for discussion at the meeting on or before December 3, 1981:

13. Probation Violations—use of the original federal offense plus any new offense committed while on probation in determining offense severity.

14. Revision of Procedures Manual to list all non-appealable actions.

CONTACT PERSON FOR MORE INFORMATION: Ms. Billie L. Richards, Chairman's Office (301) 492–5990.

Veterans Administration

Guidelines Pertaining to Treatment of Veterans Exposed to Agent Orange and Ionizing Radiation

VETERANS ADMINISTRATION

Guidelines Pertaining to Treatment of Veterans Exposed to Agent Orange and Ionizing Radiation

AGENCY: Veterans Administration.

ACTION: Publication of Guidelines.

SUMMARY: The "Veterans' Health Care, Training, and Small Business Loan Act of 1981" authorizes the Veterans Administration (VA) to treat veterans for disabilities which may have been caused by exposure to dioxins (Agent Orange) or ionizing radiation. The VA is issuing guidelines for use by VA physicians to assist them in making determinations in individual cases as to whether a disability may have been caused by such exposure. The guidelines are being issued to meet a specific requirement of the new Act.

EFFECTIVE DATE: November 18, 1981.

FOR FURTHER INFORMATION CONTACT: Dr. Barclay M. Shepard, Special Assistant to the Chief Medical Director, (102), Department of Medicine and Surgery, Veterans Administration, 810 Vermont Avenue, NW., Washington, DC 20420, (202) 389–2241.

SUPPLEMENTARY INFORMATION: The "Veterans' Health Care, Training, and Small Business Loan Act of 1981", Public Law 97–72, authorizes the Veterans Administration to provide certain health care services: (1) to any veteran of the Vietnam era who while serving in Vietnam may have been exposed to dioxin or was exposed to a toxic substance in a herbicide or defoliant used for military purposes, and (2) to veterans who were exposed while serving on active duty to ionizing radiation from the detonation of a nuclear device as a result of participation in the test of such a device or with the American occupation of Nagasaki or Hiroshima, Japan, between September 11, 1945, and July 1, 1946.

The Act provides that the VA may not treat veterans for disabilities that are found, in accordance with guidelines issued by the Chief Medical Director of the VA, to have resulted from a cause other than exposure to dioxins or ionizing radiation.

These guidelines are being published under the authority of section 552(a)(1)(B) of title 5, United States Code. Pub. L. 97–72 uses the word "guidelines" rather than the word "regulations" and the legislative history indicates that Congress clearly intended that general guidelines be issued, rather than specific regulations. Accordingly, these guidelines are *not* being published as regulations under the authority of section 553 of title 5, United States Code.

Understanding that it was legally required that these guidelines be published in the **Federal Register** for public comment, Congress nevertheless requested that such comments be solicited. See Congressional Record, October 16, 1981, p. 11586. Accordingly, the VA is following this approach. When comments are received, they will be evaluated and, if appropriate, the guidelines will be changed. In any event, the VA anticipates republication of the guidelines after public comments are received.

In addition to publishing these guidelines in the **Federal Register**, we are instructing personnel at all VA medical facilities to provide a copy of such guidelines to all veterans seeking treatment for a disability under the authority of Pub. L. 97–72.

In accordance with Pub. L. 97–72, when a veteran seeks treatment under the authority of that law, the VA will require verification of qualifying service by official records. In the cases of exposure to dioxins or to other toxic substances in a herbicide or defoliant, verification of service in Vietnam during the Vietnam era (August 5, 1964—May 7, 1975) will be required. In the cases of nuclear test participants, claims of exposure to ionizing radiation will require verification by Department of Defense records. Verification of qualifying service with the American occupation forces of Hiroshima and Nagasaki, Japan, between September 11, 1945 and July 1, 1946 will be deemed to satisfy the requirements of exposure, not because all such troops were exposed to bomb-related doses of ionizing radiation, but because dose exposure information for these individuals is not available.

In accordance with congressional intent, a determination to furnish care under this authority does not establish that the condition for which medical care is provided is service-connected or affects in any way determinations regarding service-connection, including eligibility for compensation under Chapter 11 or for vocational rehabilitation under Chapter 31 of title 38, United States Code.

Interested persons may submit written comments, suggestions, or objections to the Administrator of Veterans Affairs (102), 810 Vermont Avenue, NW, Washington, DC 20420 on or before February 1, 1982. Material submitted will be evaluated and considered in any future revision.

Pending issuance of final guidelines, these guidelines are adopted as stated below.

Approved: November 24, 1981.

John P. Murphy,

Acting Administrator.

Circular 10–81–249

Veterans Administration
Department of Medicine and Surgery
Washington, D.C.

November 18, 1981.

To: Directors, VA Medical Centers, Medical and Regional Office Centers, Regional Offices, Regional Offices with Outpatient Clinics, Domiciliary, and Outpatient Clinics.

Subj: Interim Guidelines for Implementation of Legislation Related to the Provision of Health Care Services to Veterans Exposed to Dioxins.

1. The "Veterans' Health Care, Training, and Small Business Loan Act of 1981" was signed into law on November 3, 1981. The Act, Pub. L. 97–72, authorizes the Veterans Administration to provide certain health care services, as described in paragraph 3, to any veteran of the Vietnam era (August 5, 1964–May 7, 1975) who while serving in Vietnam may have been exposed to dioxin or was exposed to a toxic substance in a herbicide or defoliant used for military purposes.

2. Health care services may not be provided under this law, for the care of conditions which are found to have resulted from a cause other than the specified exposures.

3. Health care services authorized under this provision are limited to hospital and nursing home care in VA facilities and outpatient care in VA facilities on a pre- or post-hospitalization basis or to obviate a need for hospitalization. Such health care services will be provided without regard to the veteran's age, service-connected status or the inability of the veteran to defray the expenses of such care. Veterans furnished outpatient care under this authority will be accorded priority ahead of nonservice-connected veterans and equal to former Prisoners of War who are receiving care for non-service connected conditions. Congress made it clear that this law provides for health care only, and that a determination that the veteran is eligible for such care does not constitute a basis for service-connection or in any way affect determinations regarding service-connection.

4. Each veteran who served in the Republic of Vietnam and who requests VA medical care will be provided a complete medical history, physical examination and appropriate diagnostic studies in accordance with DM&S Circular 10–81–54, "Possible Exposure of Veterans to Herbicides During the Vietnam War." If such an examination has been completed within the prior six months, only those procedures which are medically indicated by the current circumstances need be repeated. Where the findings reveal a condition requiring treatment, the responsible staff physician shall make a determination as to whether the condition resulted from a cause other than the specified exposure. In making this determination, the physician should consider that the following types of conditions are not

V 4 6 / 2 3 1
D E 2 8 1
UMI

ordinarily considered to be due to such exposure:

a. Congenital or developmental conditions, e.g., spina bifida; scoliosis.

b. Conditions which are known to have pre-existed military service.

c. Conditions resulting from trauma, e.g., deformity or limitation of motion of an extremity.

d. Conditions having a specific and well established etiology, e.g., tuberculosis; gout

e. Common conditions having a well recognized clinical course, e.g., inguinal hernia; acute appendicitis.

5. On occasion, the responsible staff physician may find that a veteran requires care for one or more of the conditions listed in paragraph 4, but that the case presents complicating circumstances that make the provision of care under this authority appropriate. In such instances, the physician should seek guidance from the Chief of Staff regarding authorization for treatment. If treatment is so authorized, the reasons will be clearly documented in the medical record. Veterans who are not provided needed medical care under this circular may be furnished care if they are eligible under any other statutory authority.

6. The provisions of this circular will not exclude any veteran who served in the Republic of Vietnam from being included in the VA's Agent Orange Registry Program as outlined in DM&S Circular 10–81–54, dated March 19, 1981.

7. These guidelines will be effective upon receipt. They will be published in the **Federal Register** for information and public comment. A copy of the pertinent guidelines should be made available to any veteran seeking care under this authority.

8. Following receipt of public comments, final guidance will be provided.

W. J. Jacoby, Jr.,

Deputy Chief Medical Director.

Circular 10–81–250

Veterans Administration
Department of Medicine and Surgery
Washington, D.C.

November 18, 1981.

To: Directors, VA Medical Centers, Medical and Regional Office Centers, Regional Offices with Outpatient Clinics, Regional Offices, Domiciliary, Outpatient Clinics.

Subj: Interim Guidelines for Implementation of Legislation Related to the Provision of Health Care Services to Veterans Exposed to Ionizing Radiation As a Result of Detonation of Nuclear Devices.

1. The "Veterans' Health Care, Training, and Small Business Loan Act of 1981" was signed into law on November 3, 1981. The Act, Pub. L. 97–72, authorizes the Veterans Administration to provide certain health care services, as described in paragraph 3, to veterans who, while serving on active military duty, were exposed to ionizing radiation from the detonation of a nuclear device as a result of participation in either the testing of such a device or the American occupation of Hiroshima or Nagasaki, Japan, between September 11, 1945, and July 1, 1946.

2. Health care services may not be provided under this law for the care of conditions which are found to have resulted from a cause other than the specified exposures.

3. Health care services authorized under this provision are limited to hospital and nursing home care in VA facilities and outpatient care in VA facilities on a pre- or post-hospitalization basis or to obviate a need for hospitalization. Such health care services will be provided without regard to the veteran's age, service connected status or the inability of the veteran to defray the expenses of such care. Veterans furnished outpatient care under this authority will be accorded priority ahead of nonservice-connected veteran, and equal to former Prisoners of War who are receiving care for non-service connected conditions. Congress made it clear that this law provides for health care only, and that a determination that the veteran is eligible for such care does not constitute a basis for service-connection or in any way affect determinations regarding service-connection.

4. Each veteran who participated in the testing of a nuclear device or who participated in the occupation of Hiroshima or Nagasaki, Japan, between September 11, 1945, and July 1, 1946, and who requests VA medical care will be provided a complete medical history, physical examination and appropriate diagnostic studies in accordance with DM&S Circular 10–81–99, "Military Nuclear Ionizing Radiation." If such an examination has been completed within the prior six months, only those procedures which are medically indicated by the current circumstances need be repeated. Where the findings reveal a condition requiring treatment, the responsible staff physician shall make a determination as to whether that condition resulted from a cause other than the veteran's exposure to ionizing radiation. Veterans who meet the other criteria of this circular and are suffering from cancer may be treated under this authority. Conditions other than cancer are usually considered to be due to causes other than exposure to ionizing radiation.

5. If the responsible staff physician finds that the veteran requires care for a condition other than cancer and also believes that the individual case presents complicating circumstances that make the provision of care under this authority appropriate, the physician should seek guidance from the Chief of Staff as to whether treatment should be authorized. If treatment is so authorized, the reasons will be clearly documented in the medical record. Veterans who are not provided needed medical care under this circular may be furnished care if they are eligible under any other statutory authority.

6. *Verification of Exposure.* If, upon examination, the veteran is found to require care under this authority, verification of the veteran's exposure must be made but should not delay initiation of appropriate care. The following information will be obtained from the veteran by the Medical Administration Service at the local VA medical facility:

a. Social security number;

b. VA claim file number (if any);

c. Current address and telephone number;

d. Date and place of birth;

e. Branch of service and military service number;

f. Military rank or rating at time of test;

g. Period of service;

h. Military unit to which the veteran was attached/detailed at the time of the test;

i. Military unit from which the veteran may have been detailed for participation in the test;

j. Date(s) and location(s) of the test(s);

k. Code name(s) of the operation(s) or test shot(s);

l. Whether or not the veteran was wearing a dosimetry badge.

In the case of a veteran alleging exposure as a result of participation in the test of a nuclear device, the VA medical facility will request verification from the appropriate VA regional office in accordance with procedures as outlined in Chapter 6, M–1, Part I. If the regional office has a record verifying the veteran's participation in such a test, a copy of this should be forwarded to the requesting medical facility for inclusion in the veteran's medical record. In the event that it does not hold such verification, the VA regional office, in order to verify exposure, will contact the Records Processing Center, St. Louis, Missouri, with the above information.

If participation in the test of a nuclear device is verified, the regional office will confirm this fact to the VA medical facility. In the case of a veteran alleging exposure resulting from participation in the occupation of Hiroshima and Nagasaki, verification of unit assignment and location will be obtained through the appropriate VA Regional Office in accordance with procedures for similar types of verification as outlined in Chapter 6, M–1, Part I.

7. The provisions of this circular will not exclude any veteran who alleges exposure to ionizing radiation as described in paragraph 1 of this circular from being eligible for a medical examination as outlined in DM&S Circular 10–81–99 dated June 4, 1981.

8. These guidelines will be effective upon receipt. They will be published in the **Federal Register** for information and public comment. A copy of the pertinent guidelines should be made available to any veteran seeking care under this authority.

9. Following receipt of public comments, final guidance will be provided.

W. J. Jacoby, Jr.,

Deputy Chief Medical Director.

AGENCY PUBLICATION ON ASSIGNED DAYS OF THE WEEK

The following agencies have agreed to publish all documents on two assigned days of the week (Monday/Thursday or Tuesday/Friday).

This is a voluntary program. (See OFR NOTICE 41 FR 32914, August 6, 1976.)

Monday	Tuesday	Wednesday	Thursday	Friday
DOT/SECRETARY	USDA/ASCS		DOT/SECRETARY	USDA/ASCS
DOT/COAST GUARD	USDA/FNS		DOT/COAST GUARD	USDA/FNS
DOT/FAA	USDA/REA		DOT/FAA	USDA/REA
DOT/FHWA	USDA/SCS		DOT/FHWA	USDA/SCS
DOT/FRA	MSPB/OPM		DOT/FRA	MSPB/OPM
DOT/MA	LABOR		DOT/MA	LABOR
DOT/NHTSA	HHS/FDA		DOT/NHTSA	HHS/FDA
DOT/RSPA			DOT/RSPA	
DOT/SLSDC			DOT/SLSDC	
DOT/UMTA			DOT/UMTA	

Documents normally scheduled for publication on a day that will be a Federal holiday will be published the next work day following the holiday. Comments on this program are still invited.

Comments should be submitted to the Day-of-the-Week Program Coordinator, Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408.

REMINDERS

The "reminders" below identify documents that appeared in issues of the **Federal Register** 15 days or more ago. Inclusion or exclusion from this list has no legal significance.

Deadlines for Comments on Proposed Rules for the Week of December 6 through December 12, 1981

AGRICULTURE DEPARTMENT

Agricultural Marketing Service—

49569 10–7–81 / Increase in fees and charges; comments by 12–7–81

Federal Crop Insurance Corporation—

56802 11–19–81 / Wheat Crop Insurance Regulations; comments by 12–9–81

Rural Electrification Administration—

55122 11–6–81 / Advance Notice of Proposed Rulemaking; Appendix A—REA Bulletin 112–3, Area Coverage Service; comments by 12–7–81

COMMERCE DEPARTMENT

International Trade Administration—

50054 10–9–81 / Revision of regulations to require a validated license for export of technical data related to infrared imaging equipment to all destinations except Canada; comments by 12–8–81

COPYRIGHT ROYALTY TRIBUNAL

55276 11–9–81 / Interim adjustment of royalty payable under compulsory license for making and distributing phonorecords; comments by 12–7–81

DEFENSE DEPARTMENT

Army Department—

54964 11–5–81 / Armed Forces Disciplinary Control Boards and Off-Installation Military Enforcement Services; comments by 12–7–81

EDUCATION DEPARTMENT

51870 10–22–81 / Migrant education program activities; grants to state educational agencies to improve interstate and intrastate coordination; comments by 12–7–81

ENERGY DEPARTMENT

Conservation and Renewable Energy Office—

35468 7–8–81 / Wind Energy Technology Application Program provisions; comments by 12–8–81

Federal Energy Regulatory Commission—

55536 11–10–81 / Amendments governing case-by-case exemption from all or part of Part I of the Federal Power Act of small hydroelectric power projects with an installed capacity of 5 megawatts or less; comments by 12–7–81

56428 11–17–81 / High-cost gas produced from tight formation; Niobrara Formation, Nebraska; designation; comments by 12–7–81

56429 11–17–81 / High-cost gas produced from tight formation; Lower Wilcox Formation, Texas; designation; comments by 12–7–81

55542 11–10–81 / High-cost natural gas produced from wells drilled in deep water; availability of environmental assessment; comments by 12–10–81

ENVIRONMENTAL PROTECTION AGENCY

55550 11–10–81 / Approval and promulgation of implementation plans; Georgia and South Carolina; prevention of significant deterioration regulations; comments by 12–10–81

54974 11–5–81 / Designation of areas for air quality planning purposes; Indiana; comments by 12–7–81

16096 3–10–81 / Polychlorinated biphenyls (PCBs), use in electrical equipment; comments by 12–7–81

[Corrected at 46 FR 25660, 5–8–81]

55123 11–6–81 / Revision of state implementation plan; West Virginia; comments by 12–7–81

FEDERAL COMMUNICATIONS COMMISSION

54787 11–4–81 / Amendment to eliminate the requirement that licensees retain letters received from the public; comments by 12–7–81

46355 9–18–81 / FM broadcast station in Augusta and Gardiner, Maine; changes in table of assignments; reply comments by 12–8–81

46357 9–18–81 / FM broadcast station in Billings, Mont.; reply comments by 12–8–81

46352 9–18–81 / FM broadcast station in Camden, Ala.; changes in table of assignments; reply comments by 12–8–81

46353 9–18–81 / FM broadcast station in Downs, Kans.; changes in table of assignments; reply comments by 12–8–81

46355 9–18–81 / FM broadcast station in Mountain View, Mo.; changes in table of assignments; reply comments by 12–8–81

50990 10–16–81 / FM broadcast station in Pittsburg, Kans.; changes in table of assignments; comments by 12–8–81

50989 10–16–81 / FM broadcast station in Williams, Ariz.; changes in table of assignments; comments by 12–8–81

50988 10–16–81 / TV broadcast station in Cape Coral, Fla.; changes in table of assignments; comments by 12–8–81

FEDERAL HOME LOAN BANK BOARD

49135 10–6–81 / Consumer leasing; comments by 12–6–81

FEDERAL MARITIME COMMISSION

54391 11–2–81 / Tariffs filed by common carriers in foreign commerce of U.S.; per-container rates filing; Sea-Land Service, Inc., consideration of petition; comments by 12–10–81

[Originally published at 46 FR 43474, 8–28–81]

FEDERAL RESERVE SYSTEM

50380 10–13–81 / Regulation M; Consumer Leasing; official staff interpretation; comments by 12–11–81

51920 10–23–81 / Regulation Z; Truth in Lending; definition of "arranger of credit"; comments by 12–7–81

INTERIOR DEPARTMENT

Indian Affairs Bureau—

55542 11–10–81 / Indian Fishing; Hoopa Valley Indian Reservation; comments by 12–10–81

Surface Mining Reclamation and Enforcement Office—

55275 11–9–81 / Consideration of modification of deadlines for Oklahoma's State Implementation Program; comments by 12–9–81

LABOR DEPARTMENT

Office of the Secretary—

50352 10–9–81 / Equal access to Justice; comments by 12–8–81

TRANSPORTATION DEPARTMENT

Coast Guard—

54973 11–5–81 / Safety zone; Gastineau Channel, Juneau, Alaska; comments by 12–7–81

National Highway Traffic Safety Administration—

51793 10–22–81 / Motor vehicle safety standards; multiple compartment stop lamps and turn signal lamps; minimum effective projected luminous lens area reduction; comments by 12–7–81

[Corrected at 46 FR 54392, 11–2–81]

51788 10–22–81 / Motor vehicle safety standards; speedometers and odometers; controls and displays; rescission; comments by 12–7–81

TREASURY DEPARTMENT

Alcohol, Tobacco and Firearms Bureau—

49599 10–7–81 / Limekiln Valley Viticultural Area; comments by 12–7–81

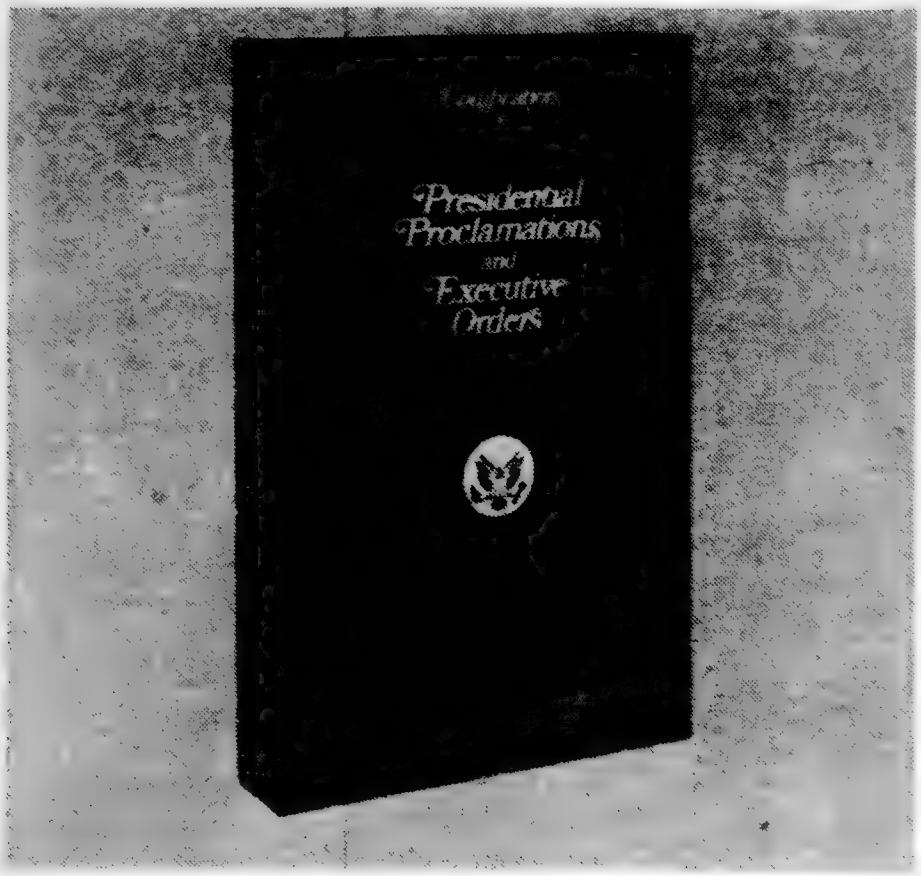
NEW PUBLICATION NOW AVAILABLE



For those of you who must keep informed about Presidential proclamations and Executive orders, there is now a convenient reference source that will make researching certain of these documents much easier.

Arranged by subject matter, this first edition of the *Codification* contains proclamations and Executive orders that were issued or amended during the period January 20, 1961, through January 20, 1977, and which have a continuing effect on the public. For those documents that have been affected by other proclamations or Executive orders, the codified text presents the amended version. Therefore, a reader can use the *Codification* to determine the latest text of a document without having to "reconstruct" it through extensive research.

Special features include a comprehensive index and a table listing each proclamation and Executive order issued during the 1961–1977 period, along with any amendments, an indication of its current status, and, where applicable, its location in this volume.

Published by the Office of the Federal Register, National Archives and Records Service, General Services Administration

Book 1 of 2 Books
Thursday, December 3, 1981

Highlights

58812 **Grant Programs—Education** ED publishes list of schools eligible for National Defense Student Loan and National Direct Student Loan Cancellation Benefits for 1981–82 school year. (Part III of this issue)

58674, 58706 **Grant Programs—Health** HHS/PHS removes prohibition on eligibility for research awards to for-profit organizations, and HHS proposes rule on grants and subgrants to for-profit organizations. (2 documents)

58675 HHS/PHS revises grant regulations of National Institute for Occupational Safety and Health.

58644 **Credit** FRS revises staff commentary to regulation Z to exempt origination fee in certain student loans from truth-in-lending disclosures until August 1982.

58701 SBA proposes standards and guidelines for Export Revolving Line of Credit loans.

58664 **Supplemental Security Income** HHS/SSA makes available to States use of regression formula in computation of Federal fiscal liability rates.

58677 **Medicaid** HHS/HCFA amends rules on public notice of changes in method or level of reimbursement.

CONTINUED INSIDE

FEDERAL REGISTER Published daily, Monday through Friday, (not published on Saturdays, Sundays, or on official holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The **Federal Register** provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive Orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The **Federal Register** will be furnished by mail to subscribers, free of postage, for $75.00 per year, or $45.00 for six months, payable in advance. The charge for individual copies is $1.00 for each issue, or $1.00 for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the **Federal Register**.

Questions and requests for specific information may be directed to the telephone numbers listed under INFORMATION AND ASSISTANCE in the READER AIDS section of this issue.

Highlights

58773 **Employee Benefit Plans** Labor/P&WBP issues notice of proposed class exemption for transactions involving certain residential mortgage financing arrangements.

58682, 58691 **Telecommunications** FCC exempts rural areas from telephone company-cable television cross ownership rules and amends rules to permit "talk-around" in private land mobile radio services on shared channels above a certain frequency. (2 documents)

58693 **Hazardous Materials** DOT/RSPA amends general applicability regulations.

58702 **Consumer Protection** CPSC reproposes rule on risk of injury from certain stuffed toys.

58651 **Air Transportation** DOT/FAA extends termination date of Special Federal Aviation Regulation No. 36 on development of major repair data.

58665 **Drawbridges** DOT/CG establishes standard opening and acknowledging signals for most drawbridges throughout country.

58654 **Securities** SEC amends regulations on national securities exchanges membership for self-regulatory organizations.

58671 **Copyrights** Library of Congress, Copyright Office prescribes conditions for registration of certain claims to renewal copyright.

58804 **Fishing** Commerce/NOAA implements amendments to section 10 of Fisherman's Protective Act on fishing vessel or gear damage compensation. (Part II of this issue)

58731 **Imports** CITA adjusts restraint level for certain man-made fiber apparel from Republic of Korea.

58778 **Sunshine Act Meetings**

Rules and Regulations

Federal Register
Vol. 46, No. 232
Thursday, December 3, 1981

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.
The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

7 CFR Part 907

[Navel Orange Reg. 530]

Navel Oranges Grown in Arizona and Designated Part of California; Limitation of Handling

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule.

SUMMARY: This regulation establishes the quantity of fresh California-Arizona navel oranges that may be shipped to market during the period December 4–10, 1981. Such action is needed to provide for orderly marketing of fresh navel oranges for this period due to the marketing situation confronting the orange industry.

EFFECTIVE DATE: December 4, 1981.

FOR FURTHER INFORMATION CONTACT: William J. Doyle, 202–447–5975.

SUPPLEMENTARY INFORMATION: *Findings.* This rule has been reviewed under Secretary's Memorandum 1512–1 and Executive Order 12291 and has been designated a "non-major" rule. This regulation is issued under the marketing agreement, as amended, and Order No. 907, as amended (7 CFR Part 907), regulating the handling of navel oranges grown in Arizona and designated part of California. The agreement and order are effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). This action is based upon the recommendations and information submitted by the Navel Orange Administrative Committee and upon other available information. It is hereby found that this action will tend to effectuate the declared policy of the act.

This action is consistent with the marketing policy for 1981–82. The marketing policy was recommended by the committee following discussion at a public meeting on October 6, 1981. A regulatory impact analysis on the marketing policy is available from William J. Doyle, Acting Chief, Fruit Branch, F&V, AMS, USDA, Washington, D.C. 20250, telephone 202–447–5975.

The committee met again publicly on December 1, 1981 at Los Angeles, California, to consider the current and prospective conditions of supply and demand and recommended a quantity of navels deemed advisable to be handled during the specified week. The committee reports the demand for navel oranges is good.

It is further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rulemaking, and postpone the effective date until 30 days after publication in the **Federal Register** (5 U.S.C. 553), because of insufficient time between the date when information became available upon which this regulation is based and the effective date necessary to effectuate the declared policy of the act. Interested persons were given an opportunity to submit information and views on the regulation at an open meeting. It is necessary to effectuate the declared policy of the act to make this regulatory provision effective as specified, and handlers have been apprised of such provisions and the effective time.

Forms required for operation under this part are subject to clearance by the Office of Management and Budget and are in the process of review.

1. Section 907.830 is added as follows:

§ 907.830 Navel Orange Regulation 530.

The quantities of navel oranges grown in Arizona and California which may be handled during the period December 4, 1981, through December 10, 1981, are established as follows:

(a) District 1: 1,365,000 cartons;
(b) District 2: Unlimited cartons;
(c) District 3: 135,000 cartons;
(d) District 4: Unlimited cartons.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: December 2, 1981.

Charles C. Brader,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc. 81–34948 Filed 12–2–81; 11:38 am]
BILLING CODE [illegible]

7 CFR Part 928

[Papaya Reg. 11, Amdt. 2]

Papayas Grown in Hawaii; Termination of Grade and Size Requirements

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule.

SUMMARY: This amendment terminates mandatory minimum grade and size requirements for shipments of fresh Hawaiian papayas. Changes in the handling requirements of California and Japan have altered the supply and demand factors upon which these grade and size requirements are based. This action recognizes the current and prospective marketing situation for Hawaiian papayas.

EFFECTIVE DATE: November 29, 1981.

FOR FURTHER INFORMATION CONTACT: William J. Doyle, Acting Chief, Fruit Branch, F&V, AMS, USDA, Washington, D.C. 20250, telephone 202–447–5975.

SUPPLEMENTARY INFORMATION: This amendment has been reviewed under Secretary's Memorandum 1512–1 and Executive Order 12291 and has been designated a "non-major" rule. William T. Manley, Deputy Administrator, Agricultural Marketing Service, has determined that this action will not have a significant economic impact on a substantial number of small entities because it would not measurably affect costs for the directly regulated handlers.

This amendment is issued under the marketing agreement and Order No. 928 (7 CFR Part 928) regulating the handling of papayas grown in Hawaii. The agreement and order are effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). This action is based upon the recommendations and information submitted by the Papaya Administrative Committee and upon other information. It is hereby found that this action will tend to effectuate the declared policy of the act.

The Papaya Administrative Committee (PAC) at its meeting on September 24, 1981, unanimously recommended grade and size requirements for shipments of fresh papayas during the period November 1–December 31, 1981. Papaya Regulation 11 was published in the **Federal Register** on October 20, 1981 (46 FR 51368). Amendment 1 to Papaya Regulation 11 was published in the **Federal Register** on November 5, 1981 (46 FR 54920) which changed the effective date for minimum grade and size requirements from November 1–December 31, 1981, to November 29–December 31, 1981.

The minimum grade and size requirements recommended by the PAC were based upon a market which included California and Japan. The California Occupational Safety and Health Administration put into effect a new standard concerning the handling of commodities that have been treated with ethylene dibromide (EDB). As a result, it is not likely that Hawaiian papayas will be marketed in the State. In addition, Japan has adopted regulations similar to the new California standard and thus that market is not an outlet. Since these major markets are not available, papaya shipments are being diverted to other markets. The committee met on November 20, 1981, to review crop conditions and consider recommendations for modification or termination of quality requirements for papayas. The committee concluded that the remaining supplies of papayas for fresh shipment are satisfactory and of a quality consistent with demand and recommended termination of grade and size requirements under Papaya Regulation 11, which would have become effective November 29, 1981.

It is found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rulemaking, and postpone the effective date of this amendment until 30 days after publication in the **Federal Register** (5 U.S.C. 553) in that the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient. This amendment relieves restrictions on the handling of papayas. It is necessary to effectuate the declared purposes of the act to make this regulatory provision effective as specified, and handlers have been apprised of such provisions and the effective time.

Information collection requirements (reporting or recordkeeping) under this part are subject to clearance by the Office of Management and Budget and are in the process of review. These information requirements shall not become effective until such time as clearance by the OMB has been obtained.

PART 928—PAPAYAS GROWN IN HAWAII

§ 928.311 [Removed]

Accordingly, § 928.311 (Papaya Regulation 11; 46 FR 51368, 54920) is hereby terminated and removed.

(Secs. 1–19, 48 Stat. 31, as amended; (7 U.S.C. 601–674))

Dated: November 27, 1981.

D. S. Kuryloski,

Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc. 81-34736 Filed 12-2-81; 8:45 am]

BILLING CODE 3410-02-M

---

7 CFR Part 989

Raisins Produced From Grapes Grown in California; Preliminary Free and Reserve Percentages for the 1981-82 Crop Year

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule.

SUMMARY: This rule designates preliminary marketing percentages for Natural (sun-dried) Seedless and Dipped Seedless raisins from the 1981 production. The estimated 1981 production of such raisins is in excess of domestic and Western Hemisphere market needs, and the action is intended to tailor the supply to these needs. Excess supplies would be available primarily for export to approved countries outside the Western Hemisphere.

EFFECTIVE DATES: August 1, 1981, through July 31, 1982.

FOR FURTHER INFORMATION CONTACT: J. S. Miller, Chief, Specialty Crops Branch, Fruit and Vegetable Division, AMS, U.S. Department of Agriculture, Washington, D.C. 20250 (202) 447–5697.

SUPPLEMENTARY INFORMATION: This final action has been reviewed under USDA guidelines implementing Executive Order 12291 and Secretary's Memorandum No. 1512–1 and has been classified a "non-major" rule under criteria contained therein.

William T. Manley, Deputy Administrator, Agricultural Marketing Service, has determined that this action will not have a significant economic impact on a substantial number of small entities because it would result in only minimal costs being incurred by the regulated 21 handlers.

Information collection (reporting and recordkeeping) under this part are subject to clearance by the Office of Management and Budget and are in the process of review. These information requirements shall not become effective until such OMB clearance has been obtained.

It is found that good cause exists for not postponing the effective date of this action until 30 days after publication in the **Federal Register** (5 U.S.C. 553) because: (1) The percentages designated herein for the 1981–82 crop year apply to all Natural (sun-dried) Seedless and Dipped Seedless raisins acquired by handlers during that crop year; (2) handlers will be marketing these 1981 crop raisins soon, and must know what free and reserve percentages will be applicable to make marketing plans; (3) handlers are aware of this action as recommended by the Committee and require no additional time to comply; and (4) no useful purpose would be served by delaying this action.

Notice of this action was published in the **Federal Register** on October 27, 1981 (46 FR 52377). In that notice interested persons were given the opportunity to submit comments until November 12, 1981. None was received.

The rule pertains to designating preliminary free tonnage percentages for Natural (sun-dried) Seedless and Dipped Seedless raisins of 71 percent for the 1981-82 crop year. Also, designated for that crop year are preliminary reserve tonnage percentages for these raisins of 29 percent. The 1981-82 crop year began August 1, 1981.

These designations are pursuant to § 989.55 of the marketing agreement and Order No. 989, both as amended (7 CFR Part 989), regulating the handling of raisins produced from grapes grown in California, hereinafter referred to collectively as the "order". The order is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). The marketing percentages were recommended under § 989.54(b) by the Raisin Administrative Committee, established under the order as the agency to work with USDA in administering its terms and provisions.

Under § 989.54(b) of the order, the Committee is required to recommend on or before October 5, a preliminary free tonnage percentage for any varietal type of raisin for which a free tonnage has been computed. If the Committee determines that the field price is firmly established for a particular varietal type, the Committee is required to

recommend a preliminary free tonnage percentage which when applied to the estimated production of that varietal type, would release 85 percent of the computed free tonnage for that varietal type. In accordance with § 989.54(a), the Committee computed free tonnages for Natural (sun-dried) Seedless and Dipped Seedless raisins of 180,430 natural condition tons and 6,691 natural condition tons, respectively. The field price for each of these varietal types has been firmly established and the 1981 production of Natural (sun-dried) Seedless and Dipped Seedless raisins is estimated to be 215,000 natural condition tons and 8,000 natural condition tons, respectively.

Eighty-five percent of the free tonnage quantity (180,430 tons) for Natural (sun-dried) Seedless raisins would be 153,366 tons. Dividing this by the estimated production (215,000 tons) results in a preliminary free tonnage percentage of 71 percent. Eighty-five percent of the free tonnage quantity (6,691 tons) for Dipped Seedless raisins would be 5,687 tons. Dividing 5,687 tons by the estimated production (8,000 tons) results in a preliminary free tonnage percentage of 71 percent.

Section 989.54(b) also provides that any difference between the preliminary or final free tonnage percentage and 100 percent should be the reserve percentage. Thus, the preliminary reserve percentage for Natural (sun-dried) Seedless and Dipped Seedless raisins would be 29 percent.

The preliminary free tonnage percentages would make 153,366 tons of the estimated 1981 production of Natural (sun-dried) Seedless raisins, and 5,687 tons of the Dipped Seedless raisin production available for immediate sale in any marketing channel. No later than February 15, the Committee is required to recommend free tonnage percentages which when applied to the final production estimate will tend to release the full free tonnage for those varietal types. By then, the Committee will have more accurate estimates of the 1981 raisin production.

After consideration of all relevant matter presented including that in the notice, the information and recommendations submitted by the Committee, and other available information, it is further found that the designation under § 989.55 of the preliminary free and reserve percentages for Natural (sun-dried) Seedless and Dipped Seedless raisins, set forth below, will tend to effectuate the declared policy of the act.

PART 989—RAISINS PRODUCED FROM GRAPES GROWN IN CALIFORNIA

Therefore, § 989.235 is added to read as follows: [The following section will not be published in the Code of Federal Regulations].

§ 989.235 Free and reserve percentages for the 1981–82 crop year.

The preliminary percentages of standard Natural (sun-dried) Seedless and Dipped Seedless raisins acquired by handlers during the crop year beginning August 1, 1981, which shall be free tonnage and reserve tonnage, respectively, are designated as follows:

	Free percentage	Reserve percentage
Natural (sun dried) Seedless	71	29
Dipped Seedless	71	29

(Secs. 1–19, 48 Stat. 31, as amended; (7 U.S.C. 601–674)

Dated: November 27, 1981.

D. S. Kuryloski,

Deputy Director, Fruit and Vegetable Division.

7 CFR Part 1001

[Docket No. AO-14-A58; Milk Order No. 1]

Milk in the New England Marketing Area; Order Amending Order

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule.

SUMMARY: This action changing present provisions of the New England milk order is based on industry proposals which were considered at a public hearing held in September 1980. The amendments increase the total amount of transportation allowance on milk moved from country locations to city plants in order to reflect more nearly the actual costs of transportation. Related amendments permit the use of storage tanks at a nonpricing reload point, allow Class I classification of ending inventories of fluid milk products, and increase the level of allowable diversions of producer milk to nonpool plants. The procedure for applying location adjustments to shipments from supply plants is also amended. The amendments are necessary to reflect current marketing conditions and to assure orderly marketing in the New England area.

EFFECTIVE DATE: The order provisions set forth herein shall become effective January 1, 1982.

FOR FURTHER INFORMATION CONTACT: Clayton H. Plumb, Marketing Specialist, Dairy Division, Agricultural Marketing Service, United States Department of Agriculture, Washington, D.C. 20250 (202/447-6273).

SUPPLEMENTARY INFORMATION: Prior documents in this proceeding:

Notice of Hearing: Issued August 11, 1980; published August 14, 1980 (45 FR 54066).

Recommended Decision: Issued August 28, 1981; published September 2, 1981 (46 FR 43980).

Final Decision: Issued November 5, 1981; published November 12, 1981; (46 FR 55876).

Findings and Determinations

The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of the previously issued amendments thereto; and all of the said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 *et seq.*), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order regulating the handling of milk in the New England marketing area.

Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order as hereby amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(2) The parity prices of milk, as determined pursuant to section 2 of the Act, are not reasonable in view of the price of feeds, available supplies of feed, and other economic conditions which affect market supply and demand for milk in the said marketing area, and the minimum prices specified in the order are such prices as will reflect the

aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order as hereby amended, regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial or commercial activity specified in, a marketing agreement upon which a hearing has been held.

(b) *Additional findings.* It is necessary in the public interest to make this order amending the order effective not later than January 1, 1982. Any delay beyond that date would tend to disrupt the orderly marketing of milk in the marketing area.

The provisions of this order are known to handlers. The recommended decision of the Acting Administrator, was issued August 28, 1981, and the decision of the Deputy Assistant Secretary containing all amendment provisions of this order was issued November 5, 1981. The changes effected by this order will not require extensive preparation of substantial alteration in method of operation for handlers. In view of the foregoing, it is hereby found and determined that good cause exists for making this order amending the order effective January 1, 1982, and that it would be contrary to the public interest to delay the effective date of this amendment for 30 days after its publication in the **Federal Register**. (Sec. 553(d), Administrative Procedure Act, 5 U.S.C. 551–559)

(c) *Determinations.* It is hereby determined that:

(1) The refusal or failure of handlers (excluding cooperative associations specified in section 8c(9) of the Act) of more than 50 percent of the milk which is marketed within marketing area, to sign a proposed marketing agreement, tends to prevent the effectuation of the declared policy of the Act;

(2) The issuance of this order, amending the order, is the only practical means pursuant to the declared policy of the Act of advancing the interest of producers as defined in the order as hereby amended; and

(3) The issuance of the order amending the order is approved or favored by at least two-thirds of the producers who during the determined representative period were engaged in the production of milk for sale in the marketing area.

Order Relative to Handling

It is therefore ordered, That on and after the effective date hereof, the handling of milk in the New England marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended, as follows:

PART 1001—MILK IN THE NEW ENGLAND MARKETING AREA; ORDER AMENDING ORDER

1. In § 1001.4 paragraph (b) is revised to read as follows:

§ 1001.4 Plant.

* * * * *

(b) Bulk reload points (separate premises used for the purpose of transferring bulk milk from one tank truck to another tank truck while en route from dairy farmers' farms to a plant). If stationary storage tanks are used for transferring milk at the premises, the operator of the facility shall make an advance written request to the market administrator that the facility be treated as a reload point; otherwise it shall be a plant. The cooling of milk, collection or testing of samples, and washing and sanitizing of tank trucks at the premises shall not disqualify it as a bulk reload point.

2. In § 1001.15 paragraph (c) is revised to read as follows:

§ 1001.15 Diverted milk.

* * * * *

(c) Milk moved, as described in paragraphs (a) and (b) of this section, from dairy farmers' farms to nonpool plants in excess of 35 percent in the months of September through November and 45 percent in other months, of the total quantity of producer milk received (including diversions) by the handler during the month shall not be diverted milk. Such milk, and any other milk reported as diverted milk that fails to meet the requirements set forth in this section, shall be considered as having been moved directly from the dairy farmers' farms to the plant of physical receipt, and if that plant is a nonpool plant the milk shall be excluded from producer milk. If the handler fails to designate the dairy farmers whose milk is to be so excluded, the entire quantity of milk that the handler caused to be moved from dairy farmers' farms directly to nonpool plants during the month shall be excluded from producer milk.

3. Section 1001.41 is revised to read as follows:

§ 1001.41 Classification of inventories.

(a) A handler who operates a pool distributing plant may claim a Class I classification of some or all inventories of fluid milk products at the end of each month pending final disposition of such fluid milk products.

(b) If a handler does not claim a Class II classification of any fluid milk products received, inventories of fluid milk products at the end of each month shall be classified as Class I milk pending final disposition of such fluid milk products.

4. In § 1001.47 paragraphs (a), (b) and (c) are revised to read as follows:

§ 1001.47 Additional assignments to Class I and Class II milk.

(a) Assign to Class I milk bulk fluid milk products received from other pool plants, unless Class II utilization was requested by the transferee and transferor handlers.

(b) Assign to Class I milk the receipts of producer milk that have not been previously assigned pursuant to § 1001.43(d) and receipts of milk from cooperative associations in their capacity as handlers under § 1001.9(d).

(c) Assign to class I milk the bulk fluid milk products received from other pool plants that have not been previously assigned.

* * * * *

§ 1001.50 [Amended]

5. In § 1001.50(a), the amount "$2.42" is changed to "$2.28".

6. In § 1001.52, paragraph (a) is revised, paragraphs (b), (c) and (d) are removed, and paragraph (g) is revised, as follows:

§ 1001.52 Plant location adjustments.

* * * * *

(a) The following zones are defined for the purpose of determining location adjustments:

(1) Zone 1 shall include the State of Rhode Island and the Massachusetts counties of Barnstable, Bristol, Dukes, Norfolk, Plymouth and Suffolk, and between Boston and Massachusetts highway route number 128.

(2) Zone 2 shall include the Massachusetts counties of Middlesex (only that portion south of Massachusetts highway route number 2 not included in Zone 1) and Worcester (only the townships of Berlin, Blackstone, Bolton, Douglas, Hopedale, Mendon, Milford, Millville, Northborough, Northbridge, Southborough, Sutton, Upton, Uxbridge, Westborough and that portion of Harvard township south of Massachusetts highway route number 2).

(3) Zone 3 shall include:

(i) The Connecticut counties of Middlesex (except the townships of Cromwell, Durham, Haddam, Middlefield, Middletown, and Portland), New London, Tolland (except the townships of Ellington and Somers), and Windham.

(ii) The Massachusetts county of Worcester (only the townships of Auburn, Boylston, Charlton, Clinton, Dudley, Grafton, Holden, Lancaster, Leicester, Millbury, Oxford, Paxton, Shrewsbury, Southbridge, Sterling, Webster, West Boylston, and Worcester City).

(4) Zone 5 shall include:

(i) The Connecticut counties of Fairfield, Hartford, Litchfield, Middlesex (only the townships of Cromwell, Durham, Haddam, Middlefield, Middletown and Portland), New Haven, and Tolland (only the townships of Ellington and Somers).

(ii) The Massachusetts counties of Hampden (only the townships of Brimfield, Holland, Monson, Palmer and Wales), Hampshire (only the township of Ware), and Worcester (only the townships of Brookfield, East Brookfield, Hardwick, New Braintree, North Brookfield, Oakham, Spencer, Sturbridge and West Brookfield).

(5) Zone 6 shall include the Massachusetts counties of Hampden (except the townships of Brimfield, Holland, Monson, Palmer and Wales), and Hampshire (except the township of Ware).

(b)—(d) [Reserved]

* * * * *

(g) The location adjustments for each plant shall be the amounts shown in the following table for the zone in which the plant is located:

LOCATION ADJUSTMENTS FOR DETERMINATION OF ZONE PRICE

Distance to Boston (miles)	Plant location zone	Class I and blended price adjustments (cents per hundredweight)
1 to 10	1	+72.0
11 to 20	2	+69.5
21 to 30	3	+67.0
31 to 40	4	+64.5
41 to 50	5	+62.0
51 to 60	6	+59.5
61 to 70	7	+57.0
71 to 80	8	+54.5
81 to 90	9	+52.0
91 to 100	10	+49.5
101 to 110	11	+47.0
111 to 120	12	+44.5
121 to 130	13	+42.0
131 to 140	14	+39.5
141 to 150	15	+15.0
151 to 160	16	+12.5
161 to 170	17	+10.0
171 to 180	18	+7.5
181 to 190	19	+5.0
191 to 200	20	+2.5
201 to 210	21	+0.0
211 to 220	22	-2.5
221 to 230	23	-5.0
231 to 240	24	-7.5
241 to 250	25	10.0
251 and over	[2] 26	([1])

[1] Class I and blended price location adjustments applicable to plants located in subsequent zones shall be obtained by extending the table at the rate of 2.5 cents for each additional 10 miles except that in no event shall the Class I or blended price at any zone be less than the Class II price for the month.

[2] Includes 26 and over.

7. In § 1001.53, the word "and" at the end of paragraph (f) is removed, the period at the end of paragraph (g) is changed to a semicolon followed by the word "and", and a new paragraph (h) is added to read as follows:

§ 1001.53 Determination of applicable zone locations for pricing purposes.

* * * * *

(h) For purposes of computing the value of fluid milk products at class prices, any fluid milk products moved in bulk from a pool plant to another pool plant at which a higher Class I price applies and which is classified as Class I milk shall be priced at the Class I price applicable at the location of the plant to which the milk was moved subject to a location adjustment credit for the transferee-plant determined by the market administrator as follows:

(1) After the assignments pursuant to § 1001.46 for the transferee-plant, multiply the remaining pounds of Class I skim milk by 110 percent and the remaining pounds of Class I butterfat by 150 percent;

(2) Subtract the respective pounds of skim milk and butterfat in bulk fluid milk products physically received at the plant from the following sources:

(i) Producers;

(ii) Cooperative associations in their capacity as handlers under § 1001.9(d);

(iii) Receipts of diverted milk from pool plants; and

(iv) Receipts (other than diverted milk) from pool plants at which the same or a higher Class I price applies;

(3) Assign any pounds remaining (which are not in excess of Class I transfers) to skim milk and butterfat in bulk receipts of fluid milk products (except diverted milk) from other pool plants at which a lower Class I price applies in sequence according to the zone location of the plants, beginning with the plant in the lowest numbered zone; and

(4) Multiply the hundredweight computed for each transferor-plant in paragraph (h)(3) of this section by the difference in the Class I prices applicable at the transferee-plant and transferor-plant and total such amounts.

8. In § 1001.60 paragraphs (a) (1) and (3), and (i) are revised to read as follows:

§ 1001.60 Computation of value of fluid milk products at class prices.

* * * * *

(a) * * *

(1) Producer milk assigned under §§ 1001.43(d) and 1001.47(b) except that for any cooperative association in its capacity as a handler under § 1001.9(d) the quantity of producer milk shall be reduced by the total quantity of milk moved to pool plants during the month, to the limit of the quantity of producer milk;

(2) * * *

(3) Milk received at a pool plant from a cooperative association in its capacity as a handler under § 1001.9(d) and assigned under § 1001.47(b).

* * * * *

(i) Add together the amounts obtained under paragraphs (a) through (d) of this section, subtract therefrom the sum of the amounts obtained under paragraphs (e) through (h) of this section, and subtract the amount of the location adjustment credit computed pursuant to § 1001.53(h).

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Effective date: January 1, 1982.

Signed at Washington, D.C. on: November 24, 1981.

C. W. McMillan,

Assistant Secretary, Marketing and Inspection Services.

Agricultural Marketing Service

Food Safety and Quality Service

7 CFR Part 2856

[Docket No. 80–025F]

Revision of Shell Egg Standards and Grades; Correction

AGENCY: Agricultural Marketing Service,[1] USDA.

ACTION: Final rule; correction.

SUMMARY: This document corrects amendatory language contained in a final rule implementing changes to shell egg standards and grades which was published August 4, 1981, (46 FR 39566). This action is necessary to clarify the amendatory language so that it is clearly understood that the table and note in the affected section is not deleted or changed. This change is editorial in nature and is not substantive.

FOR FURTHER INFORMATION CONTACT: D. M. Holbrook, (202) 447–3506.

Accordingly, in FR Doc. 81–22537 published on August 4, 1981, at 46 FR 39573, the amendatory language in item number 22, in the first column is corrected to read:

[1] The Commodity Services program of the Food Safety and Quality Service, USDA, was transferred to the Agricultural Marketing Service, USDA by USDA Secretary's Memorandum 1000–1, issued June 17, 1981. A notice detailing the Agency's reorganization is being drafted for later publication.

"22. In § 2856.228, the text of (a) is revised to read as set forth below. The note and table which follow the paragraph continue in effect."

(Agricultural Marketing Act of 1946, sec. 205, 60 Stat. 1090, as amended; (7 U.S.C. 1624))

Done at Washington, D.C., on November 25, 1981.

William T. Manley,

Deputy Administrator, Marketing Program Operations.

BILLING CODE 3410-02-M

FEDERAL RESERVE SYSTEM

12 CFR Part 226

[Reg. Z; TIL-1]

Truth in Lending; Official Staff Commentary: Revision

AGENCY: Federal Reserve System.

ACTION: Revision to official staff commentary to Regulation Z.

SUMMARY: On October 9, 1981 (46 FR 50288), the Board's staff published a final official staff commentary to Regulation Z, as revised effective April 1, 1981. One paragraph of the commentary discussed the treatment of origination fees in certain student loans and provided an exception to the annual percentage rate disclosure for such fees. The staff is now revising that position to state that until August 1, 1982, the origination fee in such student loans need not be reflected in any of the Truth in Lending disclosures. Because of the need for prompt action, the revision is being adopted in final form immediately.

EFFECTIVE DATE: December 4, 1981

FOR FURTHER INFORMATION CONTACT: Claudia J. Yarus or Rugenia Silver, Staff Attorneys, Division of Consumer and Community Affairs, Board of Governors of the Federal Reserve System, Washington, D.C. 20551 (202-452-3667).

SUPPLEMENTARY INFORMATION: (1) An August 13, 1981 amendment to the Higher Education Act of 1965 (Pub. L. 97-35, 536(a)(4)) permits lenders to charge an origination fee of up to 5% on certain guaranteed student loans. The amendment provides that for loans made before August 1, 1982, the disclosure of origination fees "need not meet the requirements of Truth in Lending" and "shall not be taken into account in calculating and disclosing the annual percentage rate."

After reviewing the legislative history, the staff included an interpretation of the amendment in the official staff commentary to Regulation Z (TIL-1). Comment 17(i)-4 provided that these origination fees should be excluded from the annual percentage rate, but required that all other Truth in Lending disclosures must account for the fees. Examples of such other disclosures include the prepaid finance charge and the amount financed.

After publication of the commentary, the Chairmen and Ranking Minority Members of the Subcommittee on Education, Arts and Humanities of the Senate Committee on Labor and Human Relations and the Subcommittee on Postsecondary Education of the House Committee on Education and Labor wrote to the Board regarding this matter. They stated that the congressional intent was to exclude the origination fee from Truth in Lending for all purposes and urged that the commentary be revised to reflect that intent, particularly to avoid any disruption to the student loan program.

The staff is now revising Comment 17(i)-4 to state that for loans made before August 1, 1982, the origination fee shall not be considered in calculating and disclosing the annual percentage rate and need not be taken into account for purposes of *any* other Truth in Lending calculations and disclosures. While this revision does not alter the commentary's previous treatment of the annual percentage rate, it now permits the creditor either to reflect the origination fee in the other disclosures or to disregard the fees altogether for purposes of Truth in Lending.

The revised position applies to student loans made under both previous Regulation Z and revised Regulation Z.

The Truth in Lending effects of revised Comment 17(i)-4 are set forth below. These examples contrast the disclosures as they may be made for an interim student loan pursuant to the amendment to the Higher Education Act until August 1, 1982, with the way the disclosures would be made without that amendment. An interim student loan as defined in the commentary is an extension of credit for educational purposes where the repayment amount and schedule are not known at the time the credit is advanced. Both examples are based on a typical student loan of this type involving a single advance of $2,000 for 18 months, with a 5% origination fee and a 1% guarantee insurance fee. These examples assume that the only finance charge for the repayment period is 9% simple interest.

- Before August 1, 1982, the Truth in Lending disclosures may reflect an amount financed of $1,980, a prepaid finance charge of $20 (attributable only to the guarantee fee), an annual percentage rate of .67% for the interim period, and an annual percentage rate of 9% for the repayment period.
- Beginning on August 1, 1982, the Truth in Lending disclosures will reflect an amount financed of $1,880, a prepaid finance charge of $120 ($100 attributable to the origination fee and $20 attributable to the guarantee fee), an annual percentage rate of 4.20% for the interim period, and an annual percentage rate of 9% for the repayment period.

The staff is adopting this revision in final form rather than inviting public comment on it. Immediate resolution of this issue is essential to avoid disruption to guaranteed student loan programs, and the delay required for a comment period would be contrary to the public interest.

(2) Pursuant to 15 U.S.C. 1640(f), the staff is amending TIL-1 by revising Comment 17(i)-4 to read as follows:

Section 226.17—General Disclosure Requirements * * *

17(i) Interim student credit extensions. * * *

4. *Origination fee disclosure.* Pub. L. 97-35 (August 13, 1981) amended the Higher Education Act of 1965 to permit lenders to charge up to a 5% origination fee on certain student credit extensions, such as federally-insured student loans. On such credit extended before August 1, 1982, creditors are not to take those fees into account in calculating and disclosing the annual percentage rate. Moreover, the origination fee need not be taken into account for purposes of any other Truth in Lending calculations and disclosures (for example, amount financed, prepaid finance charge, and prepayment disclosures) on such credit extended before August 1, 1982.

BILLING CODE 6210-01-M

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 39

[Docket No. 81-CE-4-AD; Amdt. 39-4273]

Airworthiness Directives; Beech Models 99, 99A, A99A, A99 and B99 Airplanes

Note.—This document originally appeared in the Federal Register for Tuesday, December 1, 1981. It is reprinted in this issue

to meet requirements for publication on the Monday—Thursday schedule assigned to the Federal Aviation Administration.

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Extension of effective date of final rule.

SUMMARY: This amendment extends the effective date of Amendment 39–4235 (46 FR 51734–51736) Airworthiness Directive (AD) 81–18–08 which concerns revised operating limitations in the FAA Approved Airplane Flight Manual (AAFM) for Beech Models 99, 99A, A99A, A99 and B99 airplanes. The AD's extended effective date provides approximately 60 days beyond the effective date of the FAA Master Minimum Equipment List (MMEL) to be issued on these Beach Model 99 airplanes for the accommodation of affected operators to develop and process Minimum Equipment Lists (MELs) with their local FAA office to this latest issue of the Beech 99 series MMEL. This reissued MMEL will be available after the Central Region's next meeting of the Flight Operations Evaluation Board (FOEB) meeting scheduled for December 1981.

DATE: Extends effective date of Amendment 39–4235, AD 81–18–08 to February 16, 1982.

SUPPLEMENTARY INFORMATION: The FAA issued an airworthiness directive, Amendment 39–4196, AD 81–18–08, on August 17, 1981, effective October 3, 1981, and revised the AD by Amendment 39–4235 (46 FR 51734–51736) effective December 2, 1981, applicable to Beech Models 99, 99A, A99A, A99 and B99 airplanes. The AD, as amended, requires the deletion of the Minimum Equipment List (MEL) and Configuration Deviation List (CDL) from the FAA Approved Airplane Flight Manual (AAFM) and the insertion therein of a new document entitled Kinds of Operations Equipment List (KOEL) in the Limitations Section of the AAFM for these Beech Model 99 airplanes. This action was taken pursuant to a notice of proposed rulemaking and is necessary to preclude unsafe operation of the airplanes with certain inoperative equipment. Consistent and in accordance with the AD, the FAA was to issue a new MMEL on these Beech Model 99 airplanes to be used as a guide by operators of these airplanes in updating their MELs or develop new MELs to the new MMEL. Issuance of the new MMEL has been unduly delayed due to various reasons. Since the new MMEL will not be issued prior to the Amendment 39–4235 effective date of December 2, 1981, there will not be sufficient time to allow operators to adjust their MELs or develop new MELs to the new MMEL. Accordingly, the FAA has determined there is a need to extend the AD effective date beyond the projected new MMEL issue date to be established at the December meeting of the Beech 99 FOEB. Therefore, the FAA believes that it is in the public interest to extend the effective date of Amendment 39–4235 until February 16, 1982. This should allow affected operators and their local FAA offices ample time to develop and process MELs on these Beech Model 99 airplanes to the above new MMEL.

FOR FURTHER INFORMATION CONTACT: Paul A. Cormaci, Aerospace Engineer, FAA, Airworthiness Standards Program, Room 1639, 601 East 12th Street, Kansas City, Missouri 64106, Telephone (816) 374–6942.

PART 39—AIRWORTHINESS DIRECTIVES

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, § 39.13 of Part 39 of the Federal Aviation Regulations (14 CFR 39.13) is amended by amending Amendment 39–4235, AD 81–18–08, as follows:

This amendment extends the effective date of Amendment 39–4235, AD 81–18–08 to February 16, 1982.

(Secs. 313(a), 601, and 603, Federal Aviation Act of 1958, as amended (49 U.S.C. 1354(a), 1421 and 1423); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c); 14 CFR 11.89))

Note.—Since this document involves an extension of effective date of a regulation which is not major, the FAA has determined that it is not major under Executive Order 12291, or significant under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979). This regulatory action imposes no additional burden on any persons, and the anticipated impact is so minimal that it does not warrant preparation of a regulatory evaluation.

Issued in Kansas City, Missouri, on November 25, 1981.

Murray E. Smith,

Director, Central Region.

[Docket No. 81–NW–35–AD, Amdt. 39–4270]

Airworthiness Directives; McDonnell Douglas Model DC–8 Series Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment adopts a new Airworthiness Directive (AD) which requires inspection of windshields manufactured by Pittsburgh Plate Glass Industries (PPG), between November 1, 1978, and December 31, 1980, that are installed on McDonnell Douglas Model DC–8 series airplanes. Due to the existence of unstable anti-ice electrical coatings in these windshields, this AD is needed to assure that proper heat generation is available for bird impact protection and anti-ice functions.

DATE: Effective date January 4, 1982. Compliance schedule as prescribed in the body of the AD, unless already accomplished.

ADDRESSES: The applicable service information may be obtained from: McDonnell Douglas Corporation, 3855 Lakewood Boulevard, Long Beach, California 90846, Attention: Director, Publications and Training, C1–750 (54–60). This information also may be examined at FAA Northwest Mountain Region, 9010 East Marginal Way South, Seattle, Washington 98108, or 4344 Donald Douglas Drive, Long Beach, California 90808.

FOR FURTHER INFORMATION CONTACT: Gilbert L. Thompson, Aerospace Engineer, Systems and Equipment Branch, ANM–130L, Federal Aviation Administration, Northwest Mountain Region, Los Angeles Area Aircraft Certification Office, 4344 Donald Douglas Drive, Long Beach, California 90808, telephone (213) 548–2833.

SUPPLEMENTARY INFORMATION: A proposal to amend Part 39 of the Federal Aviation Regulations to adopt a new airworthiness directive to require inspection of windshields manufactured by Pittsburgh Plate Glass Industries (PPG), between November 1, 1978, and December 31, 1980, that are installed on McDonnell Douglas Model DC–8 series airplanes was published in the **Federal Register** (46 FR 35523; July 9, 1981). This proposal was prompted by the events discussed below:

During the latter part of 1980, an increase in the number of DC–8/DC–9 windshield panels being returned under warranty for out of tolerance resistance coatings was investigated by the McDonnell Douglas Company. This investigation revealed that windshield panels manufactured by Pittsburgh Plate Glass Industries (PPG) between November 1, 1978 and December 31, 1980, may have unstable anti-ice electrical coatings that increase in resistance after installation. This increase in resistance may prevent sufficient heat generation to provide ice protection. Further, the windshields' structural strength may be reduced

below that required for bird impact protection if adequate windshield heat is not available. Investigation has shown that new windshield anti-ice coatings were within specifications as measured during acceptance inspections, but that the coating's electrical resistance may increase after power application. Service reports indicate this resistance change can be measured only after 20 to 100 hours of flight operation. The rate of resistance increase is significantly reduced after 200 flight hours. An inspection of these windshields is necessary to assure that windshield heating is available or that certain operational procedures are followed when it is not available.

Interested persons have been afforded an opportunity to participate in the making of this amendment. Seven comments were received in response to the Notice of Proposed Rule Making. Three commenters noted an erroneous reference in paragraph A.2.c.(4)(f) to manufacturer's date codes beginning with November 1, 1979, instead of November 1, 1978. The Final Rule reflects the correct date of November 1, 1978. Also, three commenters recommended that the words following the December 31, 1980, date be deleted from paragraph A.2.c(4).(f) because the manufacturer's quality assurance system will assure that the windshields are produced within the required toler .nce. Considering, in addition, that the operator's maintenance program should provide for proper maintenance practice concerning windshield tolerance checks, as noted in the maintenance manual, the FAA agrees and these words have been deleted.

One commenter pointed out that some DC–8 airplanes have a five tap transformer installed. Paragraph A.2.c.(2)(c) has been revised to reflect this configuration.

One commenter noted that the use of the statement "resistance must * * *" in paragraphs A.2.c.(1).(c) and A.2.c(1).(d) should be changed to "resistance should * * *" because paragraph A.2.c.(4).(c) provides for resistance values other than the range indicated. The FAA agrees and the final rule is so modified.

One commenter questioned the need for the airspeed limitation placard in light of the FAR 91.70 requirement that aircraft operated below 10,000 feet mean sea level be restricted to an indicated airspeed of no more than 250 knots. The FAA has determined that the airspeed placards are appropriate, since many DC–8 airplanes are operated over water and internationally where the provisions of FAR 91.70 do not apply. In addition, there is a need for the pilot in command, from an overall operational standpoint, to be aware that he is so limited because of potential bird impact protection degradation.

One commenter feels the requirement for 50 hour and 1500 hour repetitive inspections is unnecessary and inconsistent with the initial inspection requirement of the proposed airworthiness directive. The FAA does not agree. The initial inspection interval was derived and based upon the degree of operation hazard associated with the potential exposure of windshields whose electrical coatings are far out of tolerance. Once the windshield panels are initially inspected, the 50 hour and 1500 hour repetitive inspection intervals as outlined in the proposed AD are warranted based upon known unstable electrical coating characteristics.

One commenter questioned the necessity of referencing the lower limit resistance tolerance since the proposed AD is concerned with resistance instabilities which increase after installation. Though such is the case, the resistance tolerance intervals referenced in the proposed AD are those reflected by the airplane maintenance manual as established by the airplane type design. Since the airplanes involved are maintained in a manner consistent with good maintenance practice, the FAA sees no conflict in specifying the complete tolerance band.

One commenter felt that paragraphs A.2.c(4).(d) and A.2.c.(4).(e) were unclear in their intent to require that existing Airplane Flight Manual procedures be followed for all DC–8 series airplanes when windshield heat is inoperative. Since paragraph A.2.c(4).(e) applies to all DC–8 airplanes regardless of series, the wording of that paragraph has been changed to more clearly reflect this intent.

Finally, one commenter requested that the phrase "if windshield heat is unavailable for ice protection" in paragraph A.2.c.(4).(e) be clarified by providing appropriate numerical limitations. The FAA has determined that this is unnecessary since paragraphs A.2.c.(1), A.2.c.(2), and A.2.c.(4).(c) provide such numerical limits; and companion tolerance limits for proper system operation are presently reflected in the airplane maintenance manual.

After careful review of available data, including the comments above, the FAA has determined that sufficient evidence exists in the public interest in aviation safety to adopt the proposed rule with the changes previously noted.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, § 39.13 of Part 39 of the Federal Aviation Regulations (14 CFR 39.13) is amended by adding the following new airworthiness directive:

McDonnell Douglas: Applies to McDonnell Douglas Model DC–8 series airplanes certificated in all categories. Compliance required within six months from the effective date of this AD, unless already accomplished. To assure that proper windshield heat generation is available for bird impact protection and anti-ice functions, on aircraft that have had left, center, or right windshield panels replaced since November 1, 1978, accomplish the following:

A. Inspect windshield panels to determine manufacturer and year of manufacture. Windshield panels may be identified by the manufacturer's logo "PPG" or "LOF" in large capital letters with part number specification, and serial number adjacent to logo. These are located at the top panel on the left and right-hand windshield panels, and at the bottom or top of the center windshield panel.

1. Panels manufactured by Libbey Owens Ford (LOF), no further action is required.

2. Panels manufactured by PPG:

a. Determine the year of manufacture, which is contained in the serial number. Serial number samples are shown below:

8–H–11–20–220–315 (first digit indicates year of manufacture, 1978; third digit indicates month, November).

9–H–5–21–315–373 (first digit indicates year of manufacture, 1979; third digit indicates month, May).

0–H–4–6–219–215 (first digit indicates year of manufacture, 1980; third digit indicates month, April).

1–H–3–6–317–212 (first digit indicates year of manufacture, 1981; third digit indicates month, March).

b. Windshield panels with an October 1978 or prior manufacturing date coded or January 1981 or subsequent manufacturing date coded, no further action is required.

c. Aircraft with less than 200 flight hours on replacement panel(s), accomplish the following resistance check of PPG November 1, 1978, through December 31, 1980, date coded windshield panels:

(1) DC–8–60 series windshield resistance check:

(a) Open anti-ice windshield heat right, center, left, and right, center, left anti-fog circuit breakers on EPG circuit breaker panel.

(b) Disconnect windshield electrical conductor from receptacle on left, right, and center windshield panels.

(c) Using an ohmmeter check resistance between Terminal L and P at the receptacle on left (right) windshield panel. Resistance should be 61.2–82.8 ohms.

(d) Using an ohmmeter check resistance between Terminals E and G at receptacle on center windshield panel. Resistance should be 67.5–92.5 ohms.

(e) Reconnect the windshield electrical conductor to receptacle on windshields and close the power system circuit breakers.

(2) DC–8–50 series and prior windshield resistance check:

(a) Open the outer pane windshield heat circuit breakers for the left, right, and center windshields on the heat, vent, and ice protection (AC bus) circuit breaker panel.

(b) Remove access door No. 623 on the first officer's console and electrical power center.

(c) Disconnect the conductor connected to transformer Terminal X, Y, or Z on three tap transformer or V, W, X, Y or Z on five tap transformer of windshield to be tested.

(d) Using an ohmmeter, check resistance between transformer Terminal 1 and the conductor disconnected from the transformer. Resistance should be 81.6 to 110.4 ohms for left (right) windshield.

(e) Using an ohmmeter, check the resistance between transformer Terminal 1 and the conductor disconnected from the transformer. Resistance should be 96 to 130 ohms for the center windshield.

(f) Reconnect conductors to terminals.

(3) If windshield resistance is:

(a) Within tolerance on all three panels, aircraft may be continued in service and panels must be respectively inspected at 50-hour intervals until the accumulation of 200 flight hours.

(b) Within tolerance after the accumulation of 200 flight hours, no further action is required.

(4) If resistance is out of tolerance on one or more of the three windshield panels:

(a) For DC–8–60 series center panel out of tolerance install the following placard in full view of pilot: "Do Not Exceed 260 kts IAS Below 10,000 Feet Altitude."

(b) For DC–8–60 series with only side panel(s) out of tolerance, install the following placard in full view of the pilot: "Do Not Exceed 285 kts IAS Below 10,000 Feet Altitude."

(c) For DC–8–60 series, if left (right) windshield panel(s) resistance is 82.9 to 130 ohms and/or center windshield panel resistance is 92.6 to 130 ohms, full anti-ice capability is available. Panels must be repetitively inspected at 50-hour intervals, until the accumulation of 200 flight hours, to ascertain that the resistance remains at or below 130 ohms. After the accumulation of 200 flight hours, the repetitive inspection interval can be extended to 1500 flight hours.

(d) For DC–8–50 series and prior with resistance out of tolerance on one or more of the three windshield panels, install the following placard in full view of the pilot: "Do Not Exceed 245 kts IAS Below 10,000 Feet Altitude."

(e) If windshield heat is unavailable for ice protection, install the following placard in full view of the pilot: "Windshield Heat Inoperative." In certain cases, the rain removal system can be used to de-ice or anti-ice windshields. See procedures in the airplane Flight Manual.

(f) The above restrictions can be removed when the out-of-tolerance panel(s) is/are replaced with panel(s) manufactured by LOF or any PPG manufactured panel(s) with a date code other than November 1, 1978, through December 31, 1980.

d. For November 1, 1978, through December 31, 1980, date coded windshield panels which have over 200 flight hours, accomplish the resistance check per paragraph c(1) or c(2), as applicable.

(1) If windshield resistance is within tolerance on panels, no further action is required.

(2) If resistance is out of tolerance on any of the three panels, accomplish the instructions as outlined under paragraph c(4).

B. Alternative inspections, repairs, or other action to be accomplished on or after the effective date of this AD which provide an equivalent level of safety, may be used when approved by the Chief, Los Angeles Area Aircraft Certification Office, FAA Northwest Mountain Region.

Special flight permits may be issued in accordance with FAR §§ 21.197 and 21.199 to operate airplanes to a base for the accomplishment of inspections and/or modifications required by this AD.

(Secs. 313(a), 601, and 603, Federal Aviation Act of 1958, as amended (49 U.S.C. 1354(a), 1421, and 1423); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.89)

Note.—The FAA has determined that this document involves a regulation which is not considered to be major Executive Order 12291 or significant under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979) and will not have a significant economic effect on a substantial number of small entities under the criteria of the Regulatory Flexibility Act, since it involves few, if any, such entities. A final evaluation has been prepared for this regulation and has been placed in the docket. A copy of it may be obtained by contacting the person identified under the caption "FOR FURTHER INFORMATION CONTACT."

This rule is a final order of the Administrator. Under section 1006(a) of the Federal Aviation Act of 1958, as amended (49 U.S.C. 1486(a)), it is subject to review by the courts of appeals of the United States, or the United States Court of Appeals for the District of Columbia.

Issued in Seattle, Washington, on November 20, 1981.

Robert O. Brown,

Acting Director, Northwest Mountain Region.

14 CFR Part 39

[Docket No. 81-NW-36-AD; Amdt. 39-4271]

Airworthiness Directives; McDonnell Douglas Model DC–9 Series Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment adopts a new Airworthiness Directive (AD) which requires inspection of windshields manufactured by Pittsburgh Plate Glass Industries (PPG), between November 1, 1978, and December 31, 1980, that are installed on McDonnell Douglas Model DC–9 series airplanes. Due to the existence of unstable anti-ice electrical coatings in these windshields, this AD is needed to assure that proper heat generation is available for bird impact protection and anti-ice functions.

DATE: Effective date January 4, 1982. Compliance schedule as prescribed in the body of the AD, unless already accomplished.

ADDRESSES: The applicable service information may be obtained from: McDonnell Douglas Corporation, 3855 Lakewood Boulevard, Long Beach, California 90846, Attention: Director, Publications and Training, C1–750 (54–60). This information also may be examined at FAA Northwest Mountain Region, 9010 East Marginal Way South, Seattle, Washington 98108, or the Los Angeles Area Aircraft Certification Office, 4344 Donald Douglas Drive, Long Beach, California 90808.

FOR FURTHER INFORMATION CONTACT: Gilbert L. Thompson, Aerospace Engineer, Systems and Equipment Branch, ANM–130L, Federal Aviation Administration, Northwest Mountain Region, Los Angeles Area Aircraft Certification Office, 4344 Donald Douglas Drive, Long Beach, California 90808, telephone (213) 548–2833.

SUPPLEMENTARY INFORMATION: A proposal to amend Part 39 of the Federal Aviation Regulations to adopt a new airworthiness directive to require inspection of windshields manufactured by Pittsburgh Plate Glass Industries (PPG), between November 1, 1978, and December 31, 1980, that are installed on McDonnell Douglas Model DC–9 series airplanes was published in the **Federal Register** (46 FR 34806; dated July 6, 1981). This proposal was prompted by the events discussed below:

During the latter part of 1980, an increase in the number of DC–8/DC–9 windshields being returned under warranty for out of tolerance resistance coatings was investigated by the McDonnell Douglas Company. This investigation revealed that windshields manufactured by Pittsburgh Plate Glass Industries (PPG) between November 1, 1978 and December 31, 1980, may have unstable anti-ice electrical coatings that increase in resistance after installation. This increase in resistance may prevent sufficient heat generation to provide for ice protection. Further, the windshield's structural strength may be reduced below that required for bird impact protection if adequate windshield heat is not available. Investigation has shown that new windshield anti-ice coatings were within specifications as

measured during acceptance inspections, but that the coating's electrical resistance may increase after power application. Service reports indicate this resistance change can be measured only after 20 to 100 hours of flight operation. The rate of resistance increase is significantly reduced after 200 flight hours. An inspection of these windshields is necessary to assure that windshield heating is available or that certain operational procedures are followed when it is not available.

Interested persons have been afforded an opportunity to participate in the making of this amendment. Eight comments were received in response to the Notice of Proposed Rule Making (NPRM). Three commenters noted an erroneous reference in paragraph A.2.c.6.d to manufacturer's date codes beginning with November 1, 1979, instead of November 1, 1978. The Final Rule reflects the correct date of November 1, 1978.

Also, one commenter recommended that the words following the December 31, 1980, date be deleted from paragraph A.2.c.6.d., because the manufacturer's quality assurance system will assure that the windshields are produced within the required tolerance. Considering, in addition, that the operators' maintenance program should provide for proper maintenance practice concerning windshield tolerance checks as noted in the airplane maintenance manual, the FAA agrees and these words have been deleted.

Two commenters felt the proposed amendment was unwarranted based upon prior satisfactory service experience. The FAA does not agree. Service experience of two years does not moderate the known degradation of the required bird impact protection and anti-ice functions which result from the resistance increase in the electrical coating of the windshield.

Two commenters questioned the need for the airspeed limitation placard in light of FAR 91.70 requirements that aircraft operated below 10,000 feet mean sea level are restricted to an indicated airspeed of no more than 250 knots. The FAA has determined that the airspeed placards are appropriate, since many DC–9 aircraft are operated overwater and internationally where the provisions of FAR 91.70 do not apply. In addition, there is a need for the pilot-in-command, from an overall operational standpoint, to be aware that he is so limited because of potential bird impact protection degradation.

Two commenters expressed concern regarding the availability of replacement parts. A lack of parts could ground aircraft with windshields outside the 130 ohm limit during the winter months. The FAA considered this possibility when formulating the six month period for initial inspection and the period of time involved in issuance of a Notice of Proposed Rule Making and subsequent Final Rule. At the manufacturer's rate of production of new windshields the present airline inventory was to be replaced by the end of June 1981. The FAA has determined, considering the percentage of suspect windshields which will fall outside the 130 ohm limit with the inspection intervals and windshield availability, that sufficient flexibility is provided so that accomplishment of the AD within the times allowed will have no adverse effect on operations.

One commenter requested that McDonnell Douglas Service Bulletin 56–12 be approved as an equivalent method of compliance with the proposed AD. Many of the aspects of S/B 56–12 are identical with the actions proposed in the AD, but the FAA does not agree with the structure of the compliance times as presented in S/B 56–12 so it cannot be considered an equivalent means of compliance in toto.

Finally, one commenter feels the requirement for 50 hour and 1,500 hour repetitive inspections is unnecessary and inconsistent with the initial inspection requirement of the proposed airworthiness directive. The FAA does not agree. The initial inspection interval was arrived at based upon the degree of operational hazard associated with the potential exposure of windshields whose electrical coatings are far out of tolerance. Once the windshield panels are initially inspected, the 50 hour and 1,500 hour repetitive inspection intervals, as outlined in the proposed AD, are warranted based upon known unstable electrical coating characteristics.

After careful review of all available data, including the comments above, the FAA has determined that sufficient evidence exists in the public interest in aviation safety to adopt the proposed rule with the changes previously noted.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, § 39.13 of Part 39 of the Federal Aviation Regulations (14 CFR 39.13) is amended by adding the following new airworthiness directive:

McDonnell Douglas: Applies to McDonnell Douglas Model DC–9–10, –20, –30, –40, –50, and –80 series airplanes, including C–9A, C–9B, and VC–9C airplanes, certificated in all categories. Compliance required within six months from the effective date of this AD, unless already accomplished. To assure that proper windshield heat generation is available for bird impact protection and anti-ice functions on aircraft fuselage numbers 894 through 1021 and on aircraft that have had left, center, or right windshield panels replaced since November 1, 1978, accomplish the following:

A. Inspect windshield panels to determine manufacturer and year of manufacture. Windshield panels may be identified by the manufacturer's logo "PPG" or "LOF" in large capital letters with part number, specification, and serial number adjacent to logo. These are located at the top of the panel on the left and right-hand windshield panels, and at the bottom or top of the center windshield panel.

1. Panels manufactured by Libbey Owens Ford (LOF), no further action is required.

2. Panels manufactured by PPG Industries:

a. Determine the year of manufacture, which is contained in the serial number. Serial number samples are shown below:

8–H–10–20–220–315 (first digit indicates year of manufacture, 1978; third digit indicates month, October).

9–H–5–21–315–373 (first digit indicates year of manufacture, 1979; third digit indicates month, May).

0–H–4–6–219–215 (first digit indicates year of manufacture, 1980; third digit indicates month, April).

1–H–3–6–317–212 (first digit indicates year of manufacture, 1981; third digit indicates month, March).

b. Windshield panels with an October 1978 or prior manufacturing date coded, or January 1981 or subsequent manufacturing date coded, no further action is required.

c. Aircraft with less than 200 flight hours since new or on aircraft with less than 200 flight hours on replacement panel(s), accomplish the following heating element resistance check on PPG November 1, 1978, through December 31, 1980, date coded windshield panels:

(1) Open anti-ice circuit breaker on lower electrical panel center for windshield to be checked.

(2) Disconnect electrical connector from windshield panel to be checked.

(3) Using an ohmmeter, check resistance between Pins L and P at receptacle on left (right) windshield panel. Resistance reading should measure 61.2–82.8 ohms.

(4) Using an ohmmeter, check resistance between Pins E and G at receptacle on center windshield panel. Resistance should measure 67.5–92.5 ohms.

(5) If windshield resistance is:

(a) Within tolerance on all three panels, aircraft may be continued in service, and panels must be repetitively inspected at 50-hour intervals until the accumulation of 200 flight hours.

(b) Within tolerance after the accumulation of 200 flight hours, no further action is required.

(6) If resistance is out of tolerance on one or more of the three windshield panels:

(a) Center panel out of tolerance, install the following placard in full view of the pilot: "Do Not Exceed 260 kts IAS Below 10,000 Feet Altitude."

(b) Only side panel(s) out of tolerance, install the following placard in full view of the pilot: "Do Not Exceed 285 kts IAS Below 10,000 Feet Altitude."

(c) If windshield resistance of any panel, left, right, or center is greater than 130 ohms install the following placard in full view of the pilot: "Flight into known icing conditions is prohibited." If left (right) windshield panel(s) resistance is 82.9 to 130 ohms, and/or center windshield panel resistance is 92.6 to 130 ohms, the panel(s) must be repetitively inspected at 50-hour intervals until the accumulation of 200 flight hours to ascertain that resistance remains at or below 130 ohms. After the accumulation of 200 flight hours, the repetitive inspection interval can be extended to 1,500 flight hours.

(d) The above restrictions can be removed when the out-of-tolerance panel(s) is/are replaced with panel(s) manufactured by LOF or any PPG manufactured panel(s) with a date code other than November 1, 1978, through December 31, 1980.

(7) Reconnect electrical connector to windshield panel and close circuit breakers.

d. For November 1, 1978, through December 31, 1980, date coded windshield panels which have over 200 flight hours, accomplish the following:

(1) Perform heating element resistance check, as outlined in paragraphs c(1) through c(4). If windshield resistance is within tolerance on panel(s), reconnect electrical connector to panel(s). No further action is required.

(2) If resistance is out of tolerance on any of the three panels, accomplish the instructions as outlined under paragraph c(6).

B. Alternate inspections, repairs, or other action to be accomplished on or after the effective date of this AD, which provide an equivalent level of safety, may be used when approved by the Chief, Los Angeles Area Aircraft Certification Office, FAA Northwest Mountain Region.

Special flight permits may be issued in accordance with FAR 21.197 and 21.199 to operate airplanes to a base for the accomplishment of inspections and/or modifications required by this AD.

(Sec. 313(a), 601, and 603, Federal Aviation Act of 1958, as amended (49 U.S.C. 1354(a), 1421, and 1423); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11 89)

Note.—The FAA has determined that this document involves a regulation which is not considered to be major under Executive Order 12291 or significant under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979), and will not have a significant economic effect on a substantial number of small entities under the criteria of the Regulatory Flexibility Act, since it involves few, if any, such entities. A final evaluation has been prepared for this regulation and has been placed in the docket. A copy of it may be obtained by contacting the person identified under the caption "FOR FURTHER INFORMATION CONTACT."

This rule is a final order of the Administrator. Under section 1006(a) of the Federal Aviation Act of 1958, as amended (49 U.S.C. 1486(a)), it is subject to review by the courts of appeals of the United States, or the United States Court of Appeals for the District of Columbia.

Issued in Seattle, Washington, on November 20, 1981.

Robert O. Brown,

Acting Director, Northwest Mountain Region.

14 CFR Part 73

[Airspace Docket No. 81-APC-1]

Special Use Airspace; Amendment To Restricted Area R-7201, Farallon De Medinilla Island, Mariana Islands, Guam

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule; request for comments.

SUMMARY: This action amends the time of use of Restricted Area R-7201 and adds the Federal Aviation Administration, Guam Center/RAPCON as the controlling agency. This action results in more efficient joint use of the affected airspace by freeing that airspace for nonparticipating IFR and VFR aircraft when not in use

DATES: Effective date—January 21, 1982. Comments must be received on or before January 4, 1982.

ADDRESSES: Send comments on the rule in triplicate to: Director, FAA Western-Pacific Region, Attention: Chief, Air Traffic Division, Docket No. 81-APC-1, Federal Aviation Administration, 15000 Aviation Boulevard, P.O. Box 92007, Worldway Postal Center, Los Angeles, CA 90009.

The official docket may be examined in the Rules Docket, weekdays, except Federal holidays, between 8:30 a.m. and 5:00 p.m. The FAA Rules Docket is located in the Office of the Chief Counsel, Room 916, 800 Independence Avenue, SW., Washington, D.C.

An informal docket may also be examined during normal business hours at the office of the Regional Air Traffic Division.

FOR FURTHER INFORMATION CONTACT: Robert Maxey, Airspace Regulations and Obstructions Branch (AAT-230), Airspace and Air Traffic Rules Division, Air Traffic Service, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, D.C. 20591; telephone: (202) 426-8783.

The Rule

This amendment to § 73.72 of Part 73 of the Federal Aviation Regulations (14 CFR Part 73) changes the time of use for Restricted Area R-7201, Farallon De Medinilla Island, Mariana Islands, Guam, to read "As activated by NOTAM 12 hours in advance." and adds "Controlling agency. Federal Aviation Administration, Guam Center/RAPCON." Redesignation of this area as joint use airspace will relieve any burden the restricted area may have upon airspace users by freeing that airspace for nonparticipating IFR and VFR aircraft when not in use. Because this action results in increased public access to the affected airspace, I find that notice and public procedure are unnecessary; however, comments are invited on the rule. When the comment period ends, the FAA will use the comments and any other available information to review the regulation. Section 73.72 of Part 73 of the Federal Aviation Regulations was republished in the **Federal Register** on January 2, 1981 (46 FR 831).

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me, § 73.72 of Part 73 of the Federal Aviation Regulations (14 CFR Part 73) as republished (46 FR 831) is amended, effective 0901 GMT, January 21, 1982, as follows:

Restricted Area R-7201 Farallon De Medinilla Island, Mariana Islands, Guam [Amended]

Under time of use by deleting the word "Continuous." and substituting the words "as activated by NOTAM 12 hours in advance."

By adding "Controlling agency. Federal Aviation Administration, Guam Center/RAPCON."

(Secs. 307(a) and 313(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a) and 1354(a)); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.69)

Note.—The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Issued in Washington, D.C., on November 24, 1981.

B. Keith Potts,

Chief, Airspace and Air Traffic Rules Division.

BILLING CODE 4910-13-M

14 CFR Part 97

[Docket No. 22455; Amdt. No. 1204]

Standard Instrument Approach Procedures; Miscellaneous Amendments

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment establishes, amends, suspends, or revokes Standard Instrument Approach Procedures (SIAPs) for operations at certain airports. These regulatory actions are needed because of the adoption of new or revised criteria, or because of changes occurring in the National Airspace System, such as the commissioning of new navigational facilities, addition of new obstacles, or changes in air traffic requirements. These changes are designed to provide safe and efficient use of the navigable airspace and to promote safe flight operations under instrument flight rules at the affected airports.

DATES: An effective date for each SIAP is specified in the amendatory provisions.

ADDRESSES: Availability of matters incorporated by reference in the amendment is as follows:

For Examination—

1. FAA Rules Docket, FAA Headquarters Building, 800 Independence Avenue, SW., Washington, D.C. 20591;
2. The FAA Regional Office of the region in which the affected airport is located; or
3. The Flight Inspection Field Office which originated the SIAP.

For Purchase—

Individual SIAP copies may be obtained from:

1. FAA Public Information Center (APA-430), FAA Headquarters Building, 800 Independence Avenue, SW., Washington, D.C. 20591; or
2. The FAA Regional Office of the region in which the affected airport is located.

By Subscription—

Copies of all SIAPs, mailed once every 2 weeks, may be ordered from Superintendant of Documents, U.S. Government Printing Office, Washington, D.C. 20402. The annual subscription price is $135.00.

FOR FURTHER INFORMATION CONTACT:

Donald K. Funai, Flight Procedures and Airspace Branch (AFO-730), Aircraft Programs Division, Office of Flight Operations, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, D.C. 20591; telephone (202) 426-8277.

SUPPLEMENTARY INFORMATION: This amendment to Part 97 of the Federal Aviation Regulations (14 CFR Part 97) prescribes new, amended, suspended, or revoked Standard Instrument Approach Procedures (SIAPs). The complete regulatory description of each SIAP is contained in official FAA form documents which are incorporated by reference in this amendment under 5 U.S.C. 552(a), 1 CFR Part 51, and § 97.20 of the Federal Aviation Regulations (FARs). The applicable FAA Forms are identified as FAA Forms 8260-3, 8260-4 and 8260-5. Materials incorporated by reference are available for examination or purchase as stated above.

The large number of SIAPs, their complex nature, and the need for a special format make their verbatim publication in the **Federal Register** expensive and impractical. Further, airmen do not use the regulatory text of the SIAPs, but refer to their graphic depiction on charts printed by publishers of aeronautical materials. Thus, the advantages of incorporation by reference are realized and publication of the complete description of each SIAP contained in FAA form document in unnecessary. The provisions of this amendment state the affected CFR (and FAR) sections, with the types and effective dates of the SIAPs. This amendment also identifies the airport, its location, the procedure identification and the amendment number.

This amendment to Part 97 is effective on the date of publication and contains separate SIAPs which have compliance dates stated as effective dates based on related changes in the National Airspace System or the application of new or revised criteria. Some SIAP amendments may have been previously issued by the FAA in a National Flight Data Center (FDC) Notice to Airmen (NOTAM) as an emergency action of immediate flight safety relating directly to published aeronautical charts. The circumstances which created the need for some SIAP amendments may require making them effective in less than 30 days. For the remaining SIAPs, an effective date at least 30 days after publication is provided.

Further, the SIAPs contained in this amendment are based on the criteria contained in the U.S. Standard for Terminal Instrument Approach Procedures (TERPs). In developing these SIAPs, the TERPS criteria were applied to the conditions existing or anticipated at the affected airports. Because of the close and immediate relationship between these SIAPs and safety in air commerce, I find that notice and public procedure before adopting these SIAPs is unnecessary, impracticable, or contrary to the public interest and, where applicable, that good cause exists for making some SIAPs effective in less than 30 days.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me, Part 97 of the Federal Aviation Regulations (14 CFR Part 97) is amended by establishing, amending, suspending, or revoking Standard Instrument Approach Procedures, effective at 0901 G.M.T. on the dates specified, as follows:

1. By amending § 97.23 VOR-VOR/DME SIAPs identified as follows:

** * * Effective January 21, 1982*

Pontiac, MI—Oakland-Pontiac, VOR Rwy 9R, Amdt. 21
Pontiac, MI—Oakland-Pontiac, VOR Rwy 27L, Amdt. 12

Cape Girardeau, MO—Cape Girardeau Muni, ILS Rwy 10, Amdt. 6

* * * *Effective November 6, 1981*

New Haven, CT—Tweed-New Haven, ILS Rwy 2, Amdt. 11
Worcester, MA—Worcester Muni, ILS Rwy 11, Amdt. 13

5. By amending § 97.31 RADAR SIAPs identified as follows:

* * * *Effective January 21, 1982*

Richmond, VA—Richard Evelyn Byrd Intl, RADAR-1, Amdt. 6

* * * *Effective January 7, 1982*

Caribou, ME—Caribou Muni, RADAR-1 Amdt. 1
Houston, TX—Andrau Airpark, RADAR-1, Amdt. 3, cancelled

6. By amending § 97.33 RNAV SIAPs identified as follows:

* * * *Effective January 21, 1982*

Newburgh, NY—Stewart, RNAV Rwy 16, Original
Charleston, WV—Kanawha, RNAV Rwy 14, Orig.
Charleston, WV—Kanawha, RNAV Rwy 32, Orig.

* * * *Effective January 7, 1982*

Little Rock, AR—Adams Field, RNAV Rwy 22, Amdt. 6
Half Moon Bay, CA—Half Moon Bay, RNAV-A, Original
Hilton Head Island, SC—Hilton Head, RNAV Rwy 3, Amdt. 3
Hilton Head Island, SC—Hilton Head, RNAV Rwy 21, Amdt. 3
Richmond, VA—Richard Evelyn Byrd Intl, RNAV Rwy 20, Amdt. 3

* * * *Effective December 24, 1981*

Ogden, UT—Ogden Muni, RNAV Rwy 7, Amdt. 1

(Secs. 307, 313(a), 601, and 1110, Federal Aviation Act of 1958 (49 U.S.C. 1348, 1354(a), 1421, and 1510); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.49(b)(3))

Note.—The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. The FAA certifies that this amendment will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Issued in Washington, D.C. on November 20, 1981.

Note.—The incorporation by reference in the preceding document was approved by the Director of the Federal Register on December 31, 1980.

John M. Howard,

Acting Chief, Aircraft Programs Division.

14 CFR Parts 121, 127, 135, and 145

[Docket No. 17551; SFAR No. 36-2]

Development of Major Repair Data

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment extends the effectivity of Special Federal Aviation Regulation (SFAR) No. 36 which provides that repair stations, air carriers, air taxis, and commercial operators of large aircraft may accomplish major repairs using self-developed repair data which have not been specifically approved by the FAA.

EFFECTIVE DATE: January 23, 1982.

FOR FURTHER INFORMATION CONTACT: Joseph A. Sirkis, Regulatory Projects

V 46 / 232 / DEC 3 81 UMI

Branch (AVS–24), Safety Regulations Staff, Associate Administrator for Aviation Standards, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, D.C. 20591, Telephone: (202) 755–8716.

SUPPLEMENTARY INFORMATION: SFAR 36, which became effective January 23, 1978, was issued to relieve qualifying certificated air carriers, operators, and repair stations of the burden of obtaining FAA approval of data developed by them for major repairs on a case-by-case basis. The certificate holders eligible for authorization under the SFAR are those employing adequately trained personnel and complying with specified procedural requirements.

SFAR 36 was adopted as an interim rulemaking action to obtain information upon which to base a permanent rule change. However, most of the affected certificate holders did not utilize the provisions of SFAR 36 until it was well into its second year and near its expiration date of January 23, 1980. Since the FAA did not have sufficient data upon which to base a permanent rule change, the termination date for SFAR 36 was extended an additional 2 years. The termination date for SFAR 36 is January 23, 1982, and authorizations issued to date under SFAR 36 are effective for a period of 2 years.

The FAA will initiate rulemaking to make the authorization issued under SFAR 36 a permanent part of the Federal Aviation Regulations. The reasons which justified the adoption of SFAR 36 still exist, and in order to allow time for completion of the permanent rule change, it is in the public interest to extend the termination date of SFAR 36 from January 23, 1982, to January 23, 1984. So that previously authorized certificate holders will not be subjected to the unnecessary burden of requalifying upon expiration of the initial 2-year period, the amendment provides that each authorization issued under this SFAR has an effective period from the date of issuance until January 23, 1984. This rule extension should provide ample time for provisions to be incorporated into a permanent rule change.

Since this amendment continues in effect the provisions of a currently effective SFAR and imposes no additional burden on any person, I find that notice and public procedures hereon are unnecessary, and the amendment may be made effective in less than 30 days.

In consideration of the foregoing, effective January 23, 1982, Special Federal Aviation Regulation No. 36 is amended by changing the termination date from "January 23, 1982" to "January 23, 1984", and by revising paragraph 5 to read as follows:

5. *Duration of Authorization.* Each authorization issued under this Special Federal Aviation Regulation is effective from the date of issuance until January 23, 1984, unless it is surrendered or the administrator suspends, revokes, or otherwise terminates it at an earlier date.

* * * * *

(Secs. 313(a), 601, 604 and 607, Federal Aviation Act of 1958 as amended (49 U.S.C. 1354(a), 1421, 1424, and 1427); Sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).)

Note.—The FAA has determined that this document involves a rule change which is relaxatory in nature and imposes no additional burden on any person. Accordingly, it has been determined that: the rule change does not involve a major change under Executive Order 12291; it is not significant under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and its anticipated impact is so minimal that an evaluation is not required.

Issued in Washington, D.C., on November 3, 1981.

J. Lynn Helms,

Administrator.

BILLING CODE 4910–13–M

FEDERAL TRADE COMMISSION

16 CFR Part 13

[Docket No. C–3078]

Ball-Matic Corp., Inc., et al.; Prohibited Trade Practices, and Affirmative Corrective Actions

AGENCY: Federal Trade Commission.

ACTION: Final order.

SUMMARY: In settlement of alleged violations of federal law prohibiting unfair acts and practices and unfair methods of competition, this consent order requires, among other things, an Orange, California corporation and corporate officer to cease representing that the use of the "Ball-Matic"or any similar retrofit device will result in substantial fuel economy improvement. Further, respondents are prohibited from making respresentations that the use of any retrofit device or product will result in an energy savings, unless substantiated by competent scientific evidence. In addition, where any claim or characterization pertaining to energy savings is made, respondents are barred from making any endorsements without written and dated authorization, and prohibited from making misrepresentations concerning the purpose, content or conclusion of any test or survey.

DATE: Complaint and order issued Oct. 29, 1981.[1]

FOR FURTHER INFORMATION CONTACT: FTC/PE, William Haynes, Attorney, Washington, D.C. 20580. (202) 724–0726.

SUPPLEMENTARY INFORMATION: On Thursday, August 6, 1981, there was published in the **Federal Register**, 46 FR 40040, a proposed consent agreement with analysis In the Matter of Ball-Matic Corporation, Inc., a corporation; Lonnie W. Smith, individually and as an officer of Ball-Matic Corporation, Inc., for the purpose of soliciting public comment. Interested parties were given sixty (60) days in which to submit comments, suggestions or objections regarding the proposed form of order.

No comments having been received, the Commission has ordered the issuance of the complaint in the form contemplated by the agreement, made its jurisdictional findings and entered its order to cease and desist, as set forth in the proposed consent agreement, in disposition of this proceeding.

The prohibited trade practices and/or corrective actions, as codified under 16 CFR Part 13, are as follows: Subpart—Advertising Falsely or Misleadingly: § 13.110 Endorsements, approval and testimonials; § 13.170 Qualities or properties of product or service, 13.170–12. Auxiliary, improving or supplementary, 13.170–34 Economizing or saving; § 13.190 Results; § 13.205 Scientific or other relevant facts; § 13.210 Scientific tests; § 13.250 Success, use or standing.

Subpart—Claiming or Using Endorsements or Testimonials Falsely or Misleadingly: § 13.330 Claiming or using endorsements or testimonials falsely or misleadingly, 13.330–94 Users, in general. Subpart—Corrective Actions and/or Requirements: § 13.533 Corrective actions and/or requirements, 13.533–45 Maintain records, 13.533–45(a) Advertising substantiation. Subpart—Disseminating Advertisements, Etc.: § 13.1043 Disseminating advertisements, etc.

Subpart—Misrepresenting Oneself and Goods—Business Status, Advantages or Connections: § 13.1665 Endorsements; § 13.1730 Results; § 13.1740 Scientific or other relevant facts; § 13.1755 Success, use, or standing; § 13.1757 Surveys. Subpart—neglecting, Unfairly or Deceptively, To Make Material Disclosure: § 13.1863 Limitations of product; § 13.1885

[1] Copies of the Complaint and the Decision and Order filed with the original document.

Qualities or properties; § 13.1895 Scientific or other relevant facts. Subpart—Offering Unfair, Improper and Deceptive Inducements To Purchase or Deal: § 13.1980 Guarantee, in general; § 13.2063 Scientific or other relevant facts.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U.S.C. 45)

16 CFR Part 13

[Docket No. C-3077]

Great North American Industries, Inc., et al.; Prohibited Trade Practices, and Affirmative Corrective Actions

AGENCY: Federal Trade Commission.

ACTION: Final order.

SUMMARY: In settlement of alleged violations of federal law prohibiting unfair acts and practices and unfair methods of competition, this consent order requires, among other things, two Gainesville, Texas corporations and a corporate officer to cease representing that substantial fuel economy can be achieved by the use of Teflon oil additives such as "Tephguard." Further, respondents are prohibited from making representations that the use of any automobile retrofit device, fuel or engine oil additive will increase fuel economy, unless substantiated by competent scientific evidence, and accompanied by the disclosure of any limitations on the performance or efficacy of such products. Additionally, the Order bars claims of government approval without written and dated authorization; prohibits misrepresentations concerning the conclusions of product tests or surveys; and requires that consumer endorsements of any product or service reflect typical consumer experiences.

DATE: Complaint and order issued October 29, 1981.[1]

FOR FURTHER INFORMATION CONTACT: FTC/PE, William Haynes, Attorney, Washington, D.C. 20580. (202) 724-0726.

SUPPLEMENTARY INFORMATION: On Thursday, August 6, 1981, there was published in the **Federal Register**, 46 FR 40037, a proposed consent agreement with analysis in the matter of Great North American Industries, Inc., a corporation; Products on the Move, Inc., a corporation; and Patrick O. McCrary, individually and as an officer of Great North American Industries, Inc., and Products on the Move, Inc., for the purpose of soliciting public comment. Interested parties were given sixty (60) days in which to submit comments, suggestions or objections regarding the proposed form of order.

No comments having been received, the Commission has ordered the issuance of the complaint in the form contemplated by the agreement, made its jurisdictional findings and entered its order to cease and desist, as set forth in the proposed consent agreement, in disposition of this proceeding.

The prohibited trade practices and/or corrective actions, as codified under 16 CFR Part 13, are as follows: Subpart—Advertising Falsely or Misleadingly: § 13.15 Business status, advantages or connections, 13.15-150 Endorsement; § 13.85 Government approval, action, connection or standards; § 13.110 Endorsements, approvals and testimonials; § 13.170 Qualities or properties of product or service, 13.170-12 Auxiliary, improving, or supplementary, 13.170-34 Economizing or saving; § 13.190 Results; § 13.205 Scientific or other relevant facts; § 13.210 Scientific tests; § 13.250 Success, use or standing.

Subpart—Claiming or Using Endorsements or Testimonials Falsely or Misleadingly: § 13.330 Claiming or using endorsements or testimonials falsely or misleadingly, 13.330-90 United States Government, 13.330-94 Users, in general. Subpart—Corrective Actions and/or Requirements: § 13.533 Corrective actions and/or requirements, 13.533-20 Disclosures, 13.533-37 Formal regulatory and/or statutory requirements, 13.533-45 Maintain records, 13.533-45(a) Advertising substantiation.

Subpart—Disseminating Advertisements: § 13.1043 Disseminating advertisements. Subpart—Misrepresenting Oneself and Goods—Business Status, Advantages or Connections: § 13.1430 Government endorsement, sanction, or sponsorship. Subpart—Misrepresenting Oneself and Goods—Goods: § 13.1632 Government endorsement or recommendation; § 13.1645 Government standards or specifications; § 13.1665 Endorsements; § 13.1730 Results; § 13.1740 Scientific or other relevant facts; § 13.1755 Success, use, or standing; § 13.1757 Surveys.

Subpart—Neglecting, Unfairly or Deceptively, To Make Material Disclosure: § 13.1863 Limitations of product; § 13.1885 Qualities or properties; § 13.1895 Scientific or other relevant facts. Subpart—Offering Unfair, Improper and Deceptive Inducements To Purchase or Deal: § 13.1980 Guarantee, in general; § 13.2063 Scientific or other relevant facts.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U.S.C. 45)

16 CFR Part 13

[Docket No. C-2963]

International Brotherhood of Teamsters, Chauffeurs, Warehousemen and Helpers of America, Local Union 959; Prohibited Trade Practices, and Affirmative Corrective Actions

AGENCY: Federal Trade Commission.

ACTION: Modifying order.

SUMMARY: In response to recent appeals court decisions under the National Labor Relations Act (NLRA), this order reopens the proceeding and modifies the Commission's order issued on May 9, 1979 (44 FR 34923, 93 F.T.C. 739) by modifying the last proviso of the first ordering paragraph, so as to permit Local 959 to negotiate NLRA-authorized subcontracting agreements with construction industry employers.

DATE: Order issued May 9, 1979. Modifying order issued November 2, 1981.

FOR FURTHER INFORMATION CONTACT: FTC/CC, Elliot Feinberg, Washington, D.C. 20580 (202) 376-2863.

SUPPLEMENTARY INFORMATION: In the Matter of International Brotherhood of Teamsters, Chauffeurs, Warehousemen and Helpers of America, Local Union 959. The prohibited trade practices and/or corrective actions, as codified under 16 CFR Part 13 and appearing at 44 FR 34923, remain unchanged.

The Order is as follows:

The Commission on September 18, 1981 having issued an order against respondent to show cause why the proceeding herein should not be reopened for the purpose of modifying the first ordering paragraph of the consent order to cease and desist entered on May 9, 1979; and respondent having answered that it has no objection to the reopening of the proceeding and the modification of the consent order, as set forth in the order to show cause;

Accordingly, It is ordered that the matter is reopened and that the first ordering paragraph of the order herein is modified so that it will read:

---

[1] Copies of the Complaint and the Decision and Order filed with the original document.

It is ordered that respondent International Brotherhood of Teamsters, Chauffeurs, Warehousemen and Helpers of America, Local Union 959, its successors and assigns, affiliated subdivisions, officers, trustees, employees, agents and members, directly or indirectly through any other form of business organization, shall forthwith cease and desist from:

1. Entering into any agreement or understanding that requires an employer engaged in the construction business to use or deal only with third party businesses who agree to perform work on the same terms and conditions as are agreed to between such employer engaged in the construction business and respondent;

2. Entering into any agreement or understanding with an employer engaged in the construction business that requires a third party business to be signatory to a collective bargaining agreement or other type of agreement that is binding between respondent and such employer engaged in the construction business;

3. Entering into any agreement or understanding with an employer engaged in the construction business that requires respondent to agree to the same terms and conditions of employment with a third party business as are binding between respondent and such employer engaged in the construction business;

4. Taking any action which would discriminate against or economically injure those employers engaged in the construction business which deal with third party businesses on terms other than those agreed to between such employer engaged in the construction business and respondent.

Provided, however, that respondent shall not be prohibited from engaging in any legal activity now or later authorized by federal labor law such as the right of respondent to engage in standards picketing, or entering into any agreement authorized by section 8(e) of the National Labor Relations Act. 29 U.S.C. 158(e).

By direction of the Commission.

Carol M. Thomas,

Secretary.

BILLING CODE 6750-01-M

16 CFR Part 13

[Docket No. 9142]

Lehigh Portland Cement Co., et al.; Prohibited Trade Practices, and Affirmative Corrective Actions

AGENCY: Federal Trade Commission.

ACTION: Final order.

SUMMARY: In settlement of alleged violations of federal law prohibiting unfair acts and practices and unfair methods of competition, this consent order requires, among other things, an Allentown, Pennsylvania corporation engaged in the production of cement to divest, in accordance with the terms of the Order, the Universal plant at Hannibal, Missouri and three Midwestern States distribution facilities. The Order also bars the company for specified time periods, from making certain acquisitions in prescribed areas, without prior Commission approval.

DATES: Complaint issued July 30, 1980. Final order issued October 30, 1981.[1]

FOR FURTHER INFORMATION CONTACT: FTC/CS-7, Stephen Riddell, Washington, D.C. 20580. (202) 724-1122.

SUPPLEMENTARY INFORMATION: On Wednesday, July 29, 1981, there was published in the **Federal Register**, 46 FR 38707, a proposed consent agreement with analysis In the Matter of Lehigh Portland Cement Company, a corporation, and United States Steel Corporation, a corporation, for the purpose of soliciting public comment. Interested parties were given sixty (60) days in which to submit comments, suggestions or objections regarding the proposed form of order.

Comments were filed and considered by the Commission. The Commission has ordered the issuance of the complaint in the form contemplated by the agreement, made its jurisdictional findings and entered its order to cease and desist, as set forth in the proposed consent agreement, in disposition of this proceeding.

The prohibited trade practices and/or corrective actions, as codified under 16 CFR Part 13, are as follows: Subpart—Acquiring Corporate Stocks or Assets: § 13.5 Acquiring corporate stocks or assets, 13.5-20 Federal Trade Commission Act. Subpart—Corrective Actions and/or Requirements: § 13.533 Corrective actions and/or requirements.

[1] Copies of the Complaint and Decision and Order filed with the original document.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; sec. 7, 38 Stat. 731, as amended; 15 U.S.C. 45, 18)

SECURITIES AND EXCHANGE COMMISSION

17 CFR Part 240

[Release No. 34-18278; File No. S7-878]

Notice by Self-Regulatory Organizations of Proposed Admission to, or Continuance in, Membership or Participation of Certain Persons Subject to Statutory Disqualifications

AGENCY: Securities and Exchange Commission.

ACTION: Final rule.

SUMMARY: The Commission is amending the requirements applicable to notices and applications filed by self-regulatory organizations ("SRO's") with the Commission concerning proposed admissions to, or continuances in, membership or participation in the organization or association with a member of persons subject to statutory disqualifications. The amendments are designed to (1) provide additional specific exceptions from the notice filing requirements for SRO's in certain situations; (2) require specifically that SRO's provide certain detail in notices and applications to facilitate Commission review of the proposed SRO action; and (3) clarify certain provisions relating to notices and applications that may now be unclear, either as to their meaning or as to the proper procedures to be followed.

EFFECTIVE DATE: January 1, 1982.

FOR FURTHER INFORMATION CONTACT: H. Steven Holtzman, Esq., Officer of Legal Policy and Trading Practices, Division of Market Regulation, Securities and Exchange Commission, Washington, D.C. 20549, (202) 272-2842.

SUPPLEMENTARY INFORMATION: The Securities and Exchange Commission today announced the adoption of amendments to Rule 19h-1 (the "Rule")[1] under the Securities Exchange Act of 1934 (the "Act").[2] The Commission

[1] 17 CFR 240.19h-1. Rule 19h-1 was adopted on July 8, 1977 in Securities Exchange Act Release No. 13726, 42 FR 36410 (July 14, 1977).

[2] In accordance with section 17A(d)(3)(A)(i) of the Act, 15 U.S.C. 78q-1(d)(3)(A)(i), at least fifteen days

Continued

V 46 / 232 / DEC 3 '81 UMI

announced its proposal to amend the Rule in its March 1981 release (the "Proposal Release") [3] concerning the requirements applicable to notices and applications filed by SRO's with the Commission concerning proposed admissions to, or continuances in, membership or participation or association with a member of persons subject to statutory disqualifications under the Act. The amendments are intended primarily to reduce the number of full notices that must be filed with the Commission by SRO's and to facilitate the review of notices and applications filed with the Commission by SRO's and persons subject to statutory disqualifications.[4]

The Commission has carefully considered the comments submitted in response to the Proposal Release by six commentators.[5] The Commission's views and actions taken in response to the comments, including a number of revisions in the Rule made pursuant to the comments, are discussed in Section II of this release. Other significant amendments to the rule that were first reflected in the Proposal Release and that have not been commented upon and further revised are also described in that section of the release.[6]

The Commission's actions are discussed in detail in the following sections of this release:

I. Background
II. Discussion of Amendments to the Rule
III. Statutory Basis
IV. Text of Rule

I. Background

Passage of the Securities Act Amendments of 1975 (the "1975 Amendments") [7] to the Act gave the Commission enhanced oversight responsibilities as to SRO activities. In particular, sections 6(c)(2), 15A(g)(2) and 17A(b)(4)(A) of the amended Act provide, among other things, that a national securities exchange, national securities association or registered clearing agency must file with the Commission a notice, whose form and content is prescribed by the Commission, not less than thirty days before approving the application of a person to become a member or participant in the organization or associated with a member firm when the SRO knows, or in the exercise of reasonable care should have known, that such person is subject to a statutory disqualification. Those sections also grant the Commission authority to direct that the SRO deny membership or participation and to bar the association with a member of the person who is subject to a statutory disqualification.[8]

The rule was adopted in response to the changes made by the 1975 Amendments and in order to codify procedures for Commission resolution of issues relating to readmission to, or continuation of disqualified persons in, the securities business. The Rule provides for Commission review of notices filed by SRO's proposing, conditionally or unconditionally, to admit to, or continue any person in, membership, participation or association with a member, notwithstanding a statutory disqualification where the SRO and the parties involved, including the person subject to the statutory disqualification and his prospective employer, have agreed on employment conditions or limitations. Rule 19h–1 establishes the review mechanism and contemplates the immediate submission, as part of the notice, of the full record in the proceeding before the SRO.

Prior to the adoption of the 1975 Amendments, proposals for admission to, or continuance in, the securities business of disqualified persons were submitted by only one SRO, the NASD, with respect to its members and persons associated with its members.[9] Since the Commission has been given specific statutory responsibility for oversight of the exchanges and clearing agencies in this area by the 1975 Amendments and as a result of other factors, including growth in the securities industry, the volume of such notices submitted to the Commission has increased substantially.[10] Both the Commission's experience in administering Rule 19h–1 and the increased level of filings have demonstrated that certain changes in the Rule are desirable. Certain of these changes will reduce significantly the volume of filings required to be made with the Commission. This will lessen the burdens on the SRO's, firms, and individuals concerned and better enable the Commission to devote its limited resources to those filings that raise important issues of investor protection. Moreover, the Rule sets forth revised procedures that will facilitate both compliance with the Rule by SRO's and its administration by the Commission.

II. Discussion of Amendments to The Rule

A. Additional Exceptions to Filing Requirements.

Under an amendment to paragraph (a)(3) of the rule, proposed in the Proposal Release, a formal notice would not have to be filed with the Commission by an SRO for an individual who changes employment if the new position is essentially on the same terms and conditions as were imposed pursuant to a prior Commission order in connection with an earlier admission or continuance of employment for that individual, notwithstanding the same disqualifying circumstances.[11] Commentators suggested that this exception also should be available in situations where an equivalent no-action or other letter, as well as an order, previously has been issued by the Commission.[12] It appears that the commentators are referring to the practice under which the Commission staff may advise an SRO, which has submitted a notice under the Rule not accompanied by a request for an order under paragraph (d),[13] that the staff does not intend to recommend that the Commission exercise its veto authority under section 6(c)(2), 15A(g)(2) or 17A(b)(4)(A) of the Act. The Commission has determined that it is appropriate to amend the Rule so as to afford equivalent treatment to such prior staff communications with Commission orders under paragraph (d) of the Rule.[14]

---

before this announcement, the Commission consulted and requested the views of the Board of Governors of the Federal Reserve System, the "appropriate regulatory agency" for four bank clearing agencies.

[4] *See* Section 3(a)(39) of the Act.

[5] The Commission received comments from the American Stock Exchange, Inc. ("Amex Response"), National Association of Securities Dealers, Inc. ("NASD Response"), National Securities Clearing Corporation ("NSCC Response"), New York Stock Exchange, Inc. ("NYSE Response"), Philadelphia Stock Exchange, Inc. ("Phlx Response"), and Securities Industry Association ("SIA Response") The full texts of these comments may be found in Securities and Exchange Commission File No. S7–878.

[6] *See* the Proposal Release for a more detailed explanation of such changes.

[7] Pub. L. No. 94–29 (June 4, 1975).

[8] This authority is sometimes referred to in this release as the "veto power" or "veto authority."

[9] *See* former Rule 15Ab–1 under the Act. That rule was superseded by Rule 19h–1.

[10] In 1978, the Commission reviewed approximately 45 SRO notices. Since the beginning of 1979, the Commission has reviewed approximately 180 SRO notices.

[11] *See* new paragraph (a)(3)(ii) of the rule.

[12] NASD, NYSE and Amex Responses.

[13] Procedures for obtaining such orders will continue to be available under the Rule.

[14] Commentators also suggested that present paragraph (a)(3)(i) of the rule be similarly amended. Paragraph (a)(3)(i) currently provides that a further notice need not be filed with the Commission if a person subject to a statutory disqualification is, pursuant to an order of the Commission, a participant in, member of, or a person associated with a member of an SRO, and the SRO member or participant then joins another SRO. The Commission has determined that a no-action letter or other written determination issued by the Commission to an SRO should be a sufficient basis

Continued

Under the exception from the formal notice filing requirement for employment changes that has been adopted, an SRO will nevertheless be required, instead of preparing and submitting a full notice, to file with the Commission a brief report, in the form of a letter, no later than 14 days after its final determination to permit the admission to, or continuance in, membership, participation, or association.[15] The report would set forth the individual's name, contemplated place of employment, name of his proposed new supervisor(s), and the SRO's finding that, after reasonable inquiry, the disqualified applicant is being employed under substantially the same terms and conditions as his/her previous, identified employment and that there is no intervening conduct or other circumstance that would cause the employment to be inconsistent with the public interest or the protection of investors.[16]

Commentators suggested that a statement be inserted in paragraph (a)(4) of the rule codifying the legal conclusion set forth in the Proposal Release that, where an exception from the full notice provisions is available, an SRO may determine whether and when a disqualified person may be permitted to engage in or continue his employment prior to transmission of the short form notification to the Commission.[17] The rule has been amended to provide that, in the case of an SRO required to file a short form notification with the Commission for an admission to membership or association with a member, an SRO may determine, without a waiting period and pending Commission review, when the new employment could commence.[18]

One commentator stated that an SRO should be able to use its discretion as to the interim employment status of a person when a disqualification, such as an injunction or conviction, first occurs during the course of a person's employment or first becomes evident in the course of an employment transfer.[19] The Commission believes, however, that both the SRO and the Commission should have an opportunity, where a person's future status in the business has not yet been fully adjudicated, to review his employment, even if on a temporary basis, when a disqualification first occurs. In such situations, the Commission may have an investigation underway or there may be risks to continued employment that the Commission would like to consider.

Nevertheless, the firm, the associated person or an SRO may seek a no-action position from the Commission (*e.g.*, under paragraph (d) of the rule) in the case of a disqualification that occurs during the course of employment. If a disqualification occurs prior to a transfer and an exemption (*e.g.*, prior Commission consideration of the conduct without any limitation on future employment) [20] from the rule is not available, the SRO should not readmit the applicant without filing a notice with the Commission. Sections 6(c)(2) and 15A(g)(2) of the Act so contemplate.

Another amendment to paragraph (a)(3) of the rule, which has been adopted as proposed, will also remove from the filing requirement cases where the sole operative statutory disqualification consists of an injunction [21] that was entered ten or more years prior to the proposed admission or continuance. The Commission believes that it is unlikely that an injunction issued more than ten years prior to reentry would, by itself, be an appropriate impediment to reentry.

One commentator suggested that, where the disqualification consists of any injunction that is not followed by administrative proceedings, the admission or continuance should be subject to an abbreviated notification under the rule**Federal Register** [22] and another commentator suggested that the Commission provide such relief with respect to all injunctions that do not raise "important issues of investor protection."[23] In the absence of more clearly defined criteria for affording exemptive relief for additional classes of injunctive actions, the Commission believes that it should not adopt the commentators' recommendations. In the Commission's experience, there have been a variety of situations where, for appropriate reasons, administrative proceedings did not immediately follow the issuance of an injunction but the Commission nevertheless wished to retain full and final authority to pass upon the future status of the subject firm or individual in the securities business. Further investigations of the underlying facts may still have been in progress, or there may not have been an immediate need to institute administrative proceedings where, for example, an enjoined person had left the securities business or an enjoined firm had become inactive. In such cases, the Commission may conclude that, because of the presence of the injunction as itself a potential bar to future reentry, administrative action should be withheld in order to better utilize currently available resources. Adoption of the commentators' suggestions could readily open up the possibility for unduly diminishing the Commission's desired role in reviewing the future participation of such persons in the business, as and when the question arises.

A further exception from the full filing requirements is being adopted, under paragraph (a)(3)(iv) of the rule, for certain reentry situations where a person's statutory disqualification was the subject of prior Commission consideration during an administrative proceeding (*e.g.*, pursuant to section 15(b) of the Act). The amendment will apply where, on the prior occasion, (1) the Commission concluded that it would not restrict or limit the future employment of the disqualified person in the securities industry on the basis of that disqualifying circumstance or (2) the Commission set forth restrictions or limitations on the person's employment in the securities industry for a specified time period and that time period has elapsed. An additional exemption is included in paragraph (a)(3)(v) of the rule to cover those situations where the same kinds of determinations respecting a person's future participation in the securities business were incorporated in the judgment or decision entered in a court enforcement action. In order to permit the Commission to oversee use by the SRO's of these exceptions, however, the Commission proposed that SRO's be required to advise the Commission, by letter, of those instances where it takes an admission or continuance action in reliance on those provisions.[24]

---

on which to permit admission into another SRO without the filing of a notice with the Commission. Accordingly, the Commission has amended paragraph (a)(3)(i) as suggested by the commentators.

[15] An abbreviated format will also be applicable to certain other exceptions to the full notice requirement. *See infra* and paragraph (a)(4) of the rule.

[16] The Commission does not anticipate that it will routinely issue a response to such reports.

[17] NYSE and Amex Responses. The SIA also appeared to adopt a similar position.

[18] The Commission would, however, still not be foreclosed from instituting administrative proceedings (*e.g.*, under section 15(b) or 19(h), as applicable) based on the disqualification if it later appears that the SRO finding was in error because, for example, the employment conditions have been materially misrepresented to it or there has been a failure to comply with the approved employment conditions.

[19] NYSE Response.

[20] *See* paragraphs (a)(3)(iv) and (v) of the rule.

[21] *See* Sections 3(a)(39) and 15(b)(4)(C) of the Act.

[22] NASD Response.

[23] Amex Response.

[24] These conditional exceptions to the notice requirement would not act in any way to remove the disqualification. Therefore, among other things, the disqualification would still be required to be

Continued

Commentators suggested that the short form notification requirement not be applicable for excepted entries under paragraphs (a)(3)(iv) and (a)(3)(v) of the rule.[25] Two commentators also believed that the short form notification should not be required for entries under paragraph (a)(3)(v) of the rule if a person remains with the same firm he was with prior to the statutory disqualification, as the court would have made its decision with the full knowledge of the person's then current employment.[26] The Commission believes, however, that the short form notification should be used in the foregoing situations since it will assist the Commission in overseeing how the exceptions are being applied and interpreted by SRO's and would not impose a substantial burden upon SRO's.

Two commentators suggested that, in paragraph (a)(3)(iv) of the rule, the category of administrative proceedings under the Act that provides the basis for a short form notification be broadened to encompass administrative proceedings under other securities laws administered by the Commission.[27] Since it is possible that the broker-dealer status of persons and firms would be addressed in administrative proceedings under federal securities laws other than the Securities Exchange Act—as, for example, in connection with the settlement of such a proceeding under the Investment Advisers Act of 1940—the rule has been amended to provide for this possibility.

Finally, an exemption from the full notice requirements has been adopted to cover situations where the Commission has previously consented, pursuant to section 15(b)(6) or 15B(c)(4) of the Act, to a particular proposed association of a person who is subject to a Commission order under one or both of those sections barring the person from being or becoming associated with a broker or dealer or municipal securities dealer.[28] Since the Commission would already have been directly informed of and would have approved the particular proposed employment, the filing of a notice under the Rule would serve no useful purpose in those situations.

B. SRO Records Filed with the Commission

Paragraphs (c) and (e) of the amended rule formally require the inclusion in SRO notices and applications of the following additional information that the Commission, through experience, has found helpful in reviewing and making determinations with respect to notices and applications filed under the rule and has previously requested that the SRO's supply:[29]

1. *Information Relating to Supervisors.* The rule has been amended to require that information be provided in the recitation of the proposed supervisory procedures concerning the pertinent qualifications of the supervisors, including prior disciplinary and enforcement actions against them and the relationship of any of the supervisors to the disqualified person.[30]

2. *Terms of Employment and Supervision.* Under the rule as amended, a statement by the proposed employer setting forth the terms and conditions of the prospective employment and supervision will be required by this provision.[31] As proposed, an affidavit by the proposed employer attesting to the accuracy of the statement would have also been required by this provision. Several commentators stated that the affidavit requirement was unnecessary.[32] Two commentators observed that the applicant and employer are already under an obligation to provide truthful information to SRO's and that failure to do so would itself constitute a statutory disqualification.[33] The same two commentators also stated that witnesses are not sworn in their disciplinary or disqualifications proceedings.[34] In response to these comments, including their recognition of the importance of assuring accuracy in the representations made to SRO's that are contained in the notices filed with the Commission, the Commission has not adopted the proposed affidavit requirement.[35]

3. *Other Disqualified Persons Employed by the Firm.* As amended, the Rule requires that the names and locations of other disqualified persons employed by the firm be included in a notice or application. One commentator suggested that such information would be of little relevance to the Commission.[36] The Commission believes, however, that such information is useful in permitting it and the SRO's to evaluate the adequacy of the proposed supervisory procedures. Those procedures may be expected to vary depending upon, among other factors, the number of disqualified persons within a firm or under the immediate supervision of a particular office or supervisor. For example, the presence of disqualified persons at offices other than the one at which an applicant is to be employed may affect the degree of secondary (*e.g.*, home office) supervision that an applicant may receive and therefore should be considered in reviewing a reentry or continuance notice or application. Accordingly, no change has been made in this provision, which has been adopted as proposed.

4. *Examinations.* The Rule as amended will require that notices and applications include a summary of the findings and disposition of the examinations that were conducted, within the prior two-year period, by all SRO's of the main office and any branch office of the proposed employer where an applicant would be employed or supervised.

Commentators criticized as unduly burdensome the proposed requirement for inclusion of results of all examinations of the firm completed by all SRO's during the previous three years.[37] They expressed concern that the examination results for an entire multi-office firm would not be pertinent for evaluating the adequacy of a firm's supervisory procedures. One SRO suggested that examination results for the main office and branch office where the individual will be employed would provide sufficient information to make an informed judgment about the firm's ability to supervise.[38] Another recommended that the examination information be limited to the branch office where the disqualified person is proposed to be employed.[39] A third SRO suggested that the statement of the filing SRO be confined to the results of the

---

disclosed on Form BD and in registration filings with the SRO(s).

[25] NYSE and Amex Responses.

[26] NASD and Amex Responses.

[27] NYSE and Amex Responses.

[28] See "Clarifications," subsection C, *infra*, for a discussion of certain of the circumstances under which such prior Commission action on the proposed association may arise.

[29] The NYSE observed that paragraphs (c) and (e) contain requests for duplicative material. Although there are important distinctions between those provisions, many of the requirements set forth in paragraph (c) for contents of notices have been repeated in paragraph (e) for contents of applications for no-action orders or consents to avoid excessive cross-references in the text of the rule. If both a notice and application are filed with the Commission, however, only one set of the materials or information required by both (c) and (e) must be included in the combined filing.

[30] Paragraph (c)(4)(i) of the rule

[31] Paragraph (c)(4) of the rule.

[32] NASD, NYSE, Amex and Phlx Responses.

[33] NASD and Amex Responses.

[34] One commentator was also concerned that obtaining the affidavits could impose a substantial cost burden on member firms. Phlx Response.

[35] The Commission has also determined not to include in the amended rule the proposed affidavit requirement for certain written materials not included in a certified hearing record that are furnished by persons other than an SRO or the Commission. *See* paragraphs (c)(6) and (e)(7) of the rule as set forth in the Proposal Release. The same commentators made similar comments with respect to that proposed affidavit requirement.

[36] SIA Response.

[37] NASD, NYSE, Amex and the Phlx Responses

[38] NASD Response.

[39] Amex Response

most recent examination conducted by the SRO and only those results of that examination pertaining to problems uncovered by it in regard to related supervisory procedures.[40] Another SRO stated that the examination results may not be needed if the Rule were amended to require that firms include in notice filings any disciplinary actions taken against the firm.[41]

Two commentators suggested that a summary of examination results of other SRO's should not be required since they will generally have concurred with the filing, thereby indicating that there are not serious problems with the member firm.[42] One commentator was also concerned that SRO's should not have to make independent findings with respect to examinations conducted by other SRO's.[43]

In light of the comments, the Commission has determined that notices and applications should include a summary of all SRO inspections of the firm's main and applicable branch offices for two years prior to the filing. The Commission concurs with the commentators that inspection information concerning unaffected branch offices should not be required. It believes, however, that all recent examination information from each examining SRO is necessary to obtain a more complete basis for assessing the firm's ability to supervise. A filing SRO, as in the past, is not generally required to make independent findings with respect to examinations conducted by other SRO's. Nonetheless, it should consider the reported results in its review of a proposed reentry or continuance.

5. *Form U–4 and certification.* The Rule as amended will require inclusion of a completed Form U–4 [44] and a certification by the SRO that the disqualified person currently meets all applicable qualifications requirements with respect to the proposed employment. Commentators questioned whether the certification requirement would serve a useful purpose.[45] One commentator stated that the system of cooperative regulation between the Commission and SRO's presupposes that all statements made by an SRO will be made in good faith and that the certification requirement should therefore be deleted.[46]

The latter requirement reflects the procedures now followed under the Rule. The Commission understands that an SRO now verifies an applicant's qualifications prior to reviewing the merits of a proposed reentry or continuance. Under present practice, for example, an SRO normally ascertains whether an applicant has passed the appropriate qualifying examination by reference to its own files or by consultation with the SRO that administered the examination. The Commission is aware of at least one instance, however, where considerable effort was expended in preparing and reviewing a reentry application prior to discovery of the fact that the applicant had not passed the applicable examination. The required certification, which imposes no significant new burden, is designed merely to help the industry and the Commission avoid such unnecessary costs in the future.

6. *Materials supplied by Commission staff.* The Rule as amended will also require that any written information supplied by the Commission staff for consideration by the SRO in its disposition of the matter be (1) included as part of the notice or application or (2) incorporated by reference in the notice or application. The SRO is also required to include a statement of its views on the information supplied.

One commentator stated that the reason for the proposed "return" of materials to the Commission was not apparent. As explained in the Proposal Release, the Commission is especially concerned that existing relevant information in its files, of which the SRO initially may be unaware, be a part of the record before the SRO in reentry proceedings so that the SRO and affected persons may have an opportunity to address that information.[47] The Commission further believes that, in reviewing notices and applications filed under the Rule, it should have before it the full record that was before the SRO. The Commission nevertheless believes that the same objectives would be achieved if the materials in question were incorporated by reference in the SRO filing and has amended the Rule to so provide.

7. *Materials not part of hearing record.* The Rule as amended requires that all materials not included in a certified oral hearing record before the SRO that were considered by the SRO in its disposition of the matter be included in the notice.[48] As discussed above, the proposed requirement that such additional statements, if furnished by persons other than an SRO or the Commission, be accompanied by an affidavit has not been adopted.[49]

The Rule has contained corresponding provisions for supplemental materials that are submitted to the Commission as part of a notice or application but which were *not* a matter of record before the SRO and therefore were not considered by the SRO in reaching its decision on the merits.[50] One commentator suggested that these provisions be revised to clarify their meaning.[51] The current provisions were intended to recognize the Commission's practice of permitting the organization, firm, or associated person concerned to supplement the SRO record by including additional factual materials in the notice or application filed with the Commission. But in view of the unusual nature of such a submission and because the facts contained in it would not have been subject to the normal SRO hearing and deliberative process,[52] the Rule requires that the person or organization offering such facts for the Commission's consideration do so in affidavit form. Under the circumstances, the Commission has determined to retain these provisions with the addition of some clarifying language relating to the responsibility for the completion of the required affidavit.

8. *Notification to the Commission.* The Rule has been amended to require that, promptly after receipt by an SRO of an application for admission to, or continuance in, membership, participation or association with a member with respect to a person subject

---

[40] NYSE Response.

[41] Phlx Response. Since disciplinary actions against member firms would already be a part of the Commission's official records, the Commission does not believe that it is necessary for such actions to be included as part of the SRO record in filings under the Rule. The Commission expects that such actions will be considered by SRO's in connection with reentry and continuance matters and, where relevant, will be discussed in the filings. The rule does require, however, that a copy of the disqualifying order forming the basis of the reentry or continuance proceeding accompany the SRO filing.

[42] NASD and NYSE Responses.

[43] Amex Response.

[44] Form U–4 is a uniform form for registration of individuals with the Commission, SRO's and state securities commissions that contains, among other things, information concerning the prior employment and disciplinary history of the individuals.

[45] NASD, NYSE and Amex Responses.

[46] NYSE Response.

[47] The Rule contemplates a hearing before the SRO in which the SRO gives the applicant an opportunity to support the proposed employment. In addition, an SRO favorably disposed to the application may supplement the information supplied to it by the applicant so as to present a record to the Commission supporting its proposal. There is not, however, a requirement that the hearing before the SRO be a formal evidentiary hearing.

[48] Paragraphs (c)(6) and (e)(7) of the Rule.

[49] *See* note 35, *supra*, and accompanying text.

[50] *See* the last subparagraphs of paragraphs (c) and (e) of the current Rule and the proposed revised rule, respectively.

[51] NYSE Response.

[52] *See* note 35, *supra*.

to a statutory disqualification, the SRO notify the Commission staff of such receipt. This brief notification is only required in cases where the SRO would, if it later approves the admission or continuance, be required to file a full notice pursuant to paragraph (a)(1) of the rule. The notification will enable the Commission staff to alert the SRO to the possible existence of relevant information in its files, of which the SRO may be unaware, and, in appropriate circumstances, to make such information available to the SRO in time to permit its consideration in the SRO's processing of entry or continuance applications.

C. Clarifications

1. *Categories of Persons Subject to the Rule.* Several commentators were concerned that notices would have to be filed under the Rule for all clerical and ministerial employees who are subject to statutory disqualifications and requested clarification of the Rule in that regard. [53] The Commission is clarifying the Rule to provide that member employees subject to the notice filing requirements of the Rule include only (a) employees engaged in or supervising other employees engaged in advertising, public relations, research, sales, trading, and training, except clerical and ministerial persons engaged in such activities and (b) all employees (including clerical and ministerial persons) with access to funds or securities or firm books and records. [54]

2. *Continuances in Membership or Association with a Member.* Section 6(c)(2), 15A(g) (2) and 17A(b)(4)(A) of the Act specifically require that notice be given (at least 30 days in advance) to the Commission by SRO's with respect to "admitting" any disqualified person or registered broker-dealer to membership or participation, or "permitting any [such] person to become associated with a member." Paragraph (a) of the Rule provides, however, that the filing of a notice is required not only where the SRO has determined to admit a disqualified person seeking entry or reentry but also where the SRO proposes to continue in membership or association a person who becomes subject to a disqualification while a member or associated with a member. [55]

One commentator questioned whether the Commission should require continuance notices. [56] The principal reason for the inclusion of continuance situations is that the Commission has independent authority under sections 15(b) or 19(h) of the Act [57] effectively to prevent the continuance (as well as an admission) and will need to have before it the same kinds of information in order to determine whether it wishes to exercise that authority or its authority to deny membership, participation or association under sections 6(c)(2), 15A(g)(2) and 17(A)(b)(4)(A). [58]

3. *Sections 15(b)(6) and 15B(c)(4) Consents.* Sections 15(b)(6) and 15B(c)(4) of the Act make it unlawful for any person barred under those sections to become, or to be, associated with a broker-dealer or municipal securities dealer and for any such broker, dealer or municipal securities dealer to permit such a person to become, or remain, a person associated with the firm without the consent of the Commission. Therefore, persons under such bars who are the subject of a notice filed by an SRO under the rule need such consent to make the proposed association lawful. Such consent can take the form of a declaratory order under paragraph (d) of the rule. Since there has been some uncertainty in this area, an amendment to paragraph (d) of the rule specifically clarifies that such consent can and, if needed when the notice is filed, should be sought under that paragraph.

At the same time, it has been the Commission's practice to permit an individual to apply directly to the Commission for reentry in cases where the Commission has barred that person from association with a broker-dealer in a proceeding under section 15(b)(6) of the Act and, as part of that sanction, has explicitly afforded the person a right to apply for reassociation, under appropriate conditions, at a future time. [59] A proviso has therefore been added to the new provision discussed in the preceding paragraph making it clear that that provision does not affect the individual's ability to choose to apply directly. [60]

Commentators were concerned that existence of the alternative procedure permitting persons to apply directly to the Commission may result in confusion and "forum shopping" by disqualified persons. [61] The commentators suggested that the disqualified person should be required to apply directly to the Commission for reentry in all such situations.

The Commission believes, however, that either procedure is compatible with the Act. The Commission has not found that the degree of uncertainty created by offering an election, which has been available since at least 1977, has resulted in undue confusion for affected persons or organizations. The Commission's experience also has not indicated that, as a practical matter, there is any inherent difficulty in providing disqualified persons alternative procedures.

The Commission has historically expressed a general preference, where both it and SRO's have exclusionary authority, for having reentry matters first presented to the SRO (or SRO's) concerned. [62] The Commission, however, has recognized exceptions for cases of the type described in the new proviso to paragraph (d) of the rule where it has imposed the disqualification in the form of a bar or suspension from association under section 15(b)(6) of the Act and where the Commission specifically granted the person the right to apply for reentry in the future. [63] The Commission

[54] Paragraph (a)(2)(i) of the rule as amended herein.

[55] Some types of disqualifications automatically terminate membership, participation or association. Others do not. *See* Section 3(a)(39) of the Act. Under section 17(a) of the Act, of course, the Commission has authority to require SRO's to furnish it such reports as the Commission "prescribes as necessary or appropriate in the public interest, ..."

[56] NSCC Response. NSCC also raised questions concerning the burdens of the present rule on clearing agencies, the relevance of the filing requirements to clearing agency functions and their capability to appropriately process continuance and reentry applications. With regard to reentries, NSCC recommends that the processing function be centralized in the participant's designated examining authority. The Commission notes that, while the Act requires each SRO that approves a reentry to file a notice with the Commission, the rule permits interested SRO's to coordinate their activities in this area in order to achieve the most efficient use of their collective resources. *See* the Proposal Release and paragraphs (a)(3)(i) and (a)(5) of the rule. The Commission understands that inter-SRO arrangements for such purposes have been established and expects that they would be available to all interested SRO's, including clearing agencies.

[57] Section 15(b) of the Act empowers the Commission to impose exclusionary sanctions, including revocation of broker-dealer registration, on any person who has been found to have committed certain offenses (as set forth in paragraphs (4) and (6) of the section), which findings and sanctions are included within those constituting a "statutory disqualification" (as defined in section 3(a)(39)) from SRO membership, participation or association. In addition, section 19(h) empowers the Commission directly to suspend or bar persons from SRO membership, participation or association based on similar findings.

[58] *See* the second sentence of paragraph (d) of the rule. *See* also *In the Matter of NASD and Fliederbaum and Mooradian*, Securities Exchange Act Release No. 15568 (February 13, 1979), 16 SEC Docket 1105.

[60] Since the same principles seem to apply to bars from association with a municipal securities dealer under section 15B(c)(4) of the Act, a reference to that section has also been included in the proviso.

[61] NASD and Amex Responses.

[62] *See* the Proposal Release.

[63] Usually these are settled cases where, since the Commission itself negotiated the settlement with the disqualified person and took the disqualifying

Continued

believes that the equities in favor of the person having a choice of two avenues for obtaining relief in such cases outweigh any disadvantages.

4. *Other Requests for Relief by Municipal Securities Firms.* Under sections 15B(a)(2) and 15B(c)(2) of the Act, the Commission has authority to exclude from registration as a municipal securities dealer any person that would be subject to denial, revocation or suspension of its broker-dealer registration if it were so registered or if it were seeking such registration under Section 15(b). For example, if a bank municipal securities dealer [64] that was seeking registration under section 15B(a)(2) were the subject of a conviction or injunction of a type described in section 15(b)(4) of the Act, the Commission could deny that registration. Thus, if that bank dealer were also seeking participation in a registered clearing agency and the clearing agency, as required by Section 17A(b)(4)(A) of the Act, filed a notice of that proposed participation under Rule 19h–1, the clearing agency (or bank dealer) might also wish to apply to the Commission for a determination that the Commission would not institute a denial proceeding against the bank dealer under section 15B(a)(2) on the basis of the conviction or injunction. Since paragraph (d) of the Rule, which permits applications for such Commission determinations in other, similar situations, [65] does not now provide explicitly for such applications by or on behalf of municipal securities dealers, paragraph (d) has been amended to so provide.

In addition, under rule G–4 of the Municipal Securities Rulemaking Board, a municipal securities broker or municipal securities dealer that is subject to certain disqualifications is considered to be unqualified to engage in the municipal securities business unless the Commission (or in some cases the NASD or appropriate bank regulatory agency), on application, finds to the contrary. Rule 19h–1 has been amended [66] to permit such applications, when required to be submitted to the Commission, to be filed at the time a notice of a proposed admission or continuance with respect to the disqualified person is filed under that rule.

5. *Standards for Issuing Declaratory Orders.* Paragraph (d) of the rule currently provides that the Commission may issue a declaratory order, upon application at the time of the filing of a notice, with respect to the membership, participation or association of any person subject to an applicable disqualification if "it finds it appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act." These standards, which are not required by the Act in this context, have been deleted and the paragraph has been amended to permit the Commission to issue such an order "should the Commission determine not to object to the position of the SRO set forth in the notice or application." This language more accurately reflects the nature of the Commission's decision-making process with respect to the issuance of such orders, which orders are, in substance, similar to traditional determinations of the Commission not to institute enforcement proceedings under the federal securities laws.

6. *Procedures to be Used by the Commission in Reviewing Notices.* Under another amendment, the Commission has set forth in paragraph (g) of the rule the procedures that it will follow in determining whether to direct, pursuant to sections 6(c)(2), 15A(g)(2), or 17A(b)(4)(A) of the Act, that a proposed admission covered by a notice be denied or an order barring association issue where the notice is filed under paragraph (a) of the rule and is not accompanied by an application for a declaratory order under paragraph (d) of the rule. These procedures parallel those for determining Commission action on an application filed under paragraph (d) of the rule.

A second revision of paragraph (g) of the rule provides that the Commission may grant or deny an application for a declaratory order on the basis of the notice or application filed by the SRO, by the person subject to the disqualification or by another applicant, such as the proposed employer, on behalf of such person. Paragraph (g) of the Rule formerly provided that the Commission could grant or deny an application under paragraph (d) on the basis of the papers filed by the "parties." Since the term "parties" was not defined in the Rule and therefore could have created some uncertainty, the Commission believes that it would be preferable to spell out its intention more clearly in this respect.

Finally, the Act does not address whether the Commission may exercise its veto authority under sections 6(c)(2), 15A(g)(2) and 17A(b)(4)(A) of the Act after expiration of the thirty day period following the Commission's receipt of notice from an SRO of a proposal to admit a disqualified person to membership, participation, or association with a member. [67] In addition, those provisions do not specify when, following the expiration of the minimum thirty day period, an SRO may admit such a person. Therefore, and in order to allow ample time for the Commission to consider the merits of a proposed admission when circumstances require a longer period of deliberation, the rule has been amended to provide that the Commission could, by written notice to the SRO, extend for up to sixty days beyond the initial minimum thirty day period, its consideration of the SRO's proposal. However, in the interests of fairness to the person seeking entry, the amendment also provides that during the Commission's extended consideration of whether to veto the SRO's proposal, the person may, if the SRO consents, temporarily commence his membership, participation or association with a member. [68] Such membership, participation or association would, of course, be required to terminate if the Commission determines to exercise its veto power during the extension period.

7. *Definition of "Control."* The Rule currently provides that notices need to be filed with the Commission with respect to a person associated with an exchange or securities association member if such person is in a control relationship with such member or controls an unregistered broker-dealer affiliated with the member. Commentators suggested that the definition of the term "control" should be changed so that the current presumption in the Rule based on a 10% voting or participation interest conforms with the 25% test in rule 19g2–1 under the Act. [69] The commentators expressed concern that the rule's 10% standard was unduly restrictive. [70] One commentator also suggested that there may be some conflict or ambiguity in the relationship between paragraph (a)(2)(ii) of the rule, which includes within the SRO's duties to file notices with the Commission unregistered non-member broker-dealers that are affiliated with

---

action, the latter often may assume that, if and when he sought relief pursuant to the disqualifying order, his reentry conditions would also be primarily in the Commission's hands.

[64] Banks or separately identifiable departments or divisions of banks doing business as dealers in municipal securities are excluded from the broker-dealer registration requirements of section 15(b) but are required to register as municipal securities dealers under Section 15B. *See* Sections 3(a)(5) and 3(a)(30) of the Act.

V 46 / 232 2 D E 3 8 1 UMI

SRO members and have statutory disqualifications, and rule 19g2–1, which (among other things) relieves the SRO's of their general enforcement obligations with respect to such broker-dealers.[71]

The Commission believes, however, that there are important distinctions between the policies underlying the two rules that merit different treatment. Rule 19g2–1 is intended to relieve SRO's of certain of their broad obligations to enforce the Act and the rules thereunder with respect to various classes of persons associated with members whether or not such persons are previously adjudicated offenders.[72] Rule 19h–1, on the other hand, only imposes on an SRO a limited duty—to report to the Commission an entry into the securities business—and that duty relates only to those who have found to have committed one or more significant violations of law or standards of business conduct. Because of the importance to the industry and public investors of the SRO's and the Commission's retaining close regulatory oversight concerning prior violators' participation in the securities business, and in light of the relatively small regulatory burdens that will be imposed on the Commission, SRO's and the industry, the Commission has taken the different approaches in Rule 19h–1 referred to by the commentators.

One Commentator suggested that, since the concepts of "associated persons" [73] and "control" have wide application, SRO's should be permitted to employ "realistic guideposts" in determining the applicability of the rule.[74] Under the Rule, the 10% criterion merely establishes a presumption of control that may be rebutted. Accordingly, in determining whether the presumption has been rebutted, or where the presumption is not applicable, the SRO's would be expected to employ realistic guideposts in reaching conclusions on the issue of control in specific cases.

Regulatory Flexibility Act Considerations

The Chairman has certified that the Rule amendments, if promulgated, will not have a significant economic impact on a substantial number of small entities. There were not any comments concerning the Chairman's certification that were received following publication of the Proposal Release.

[73] NYSE Response.

[74] *See also* discussion in section C. 1., *supra*, concerning associated persons.

Statutory Basis

On the basis of the foregoing analysis and discussion and the Proposal Release, the Commission finds that the amendments to rule 19h–1 adopted hereby are consistent with the public interests, the protection of investors and the purposes of the Act. Overall, it is expected that the amendments to rule 19h–1 will reduce the barriers to entry or continuance in the securities industry and will result in a corresponding increase in competition in the industry. To the extent that the burdens on gaining entry or continuance in the securities industry may increase for certain individuals as a result of the amendments, such burdens on competition are necessary and appropriate in furtherance of the purposes of the Act.

PART 240—GENERAL RULES AND REGULATIONS, SECURITIES EXCHANGE ACT OF 1934

The amendments to rule 19h–1 are promulgated under the Act, and particularly Sections 6, 15, 15A, 15B, 17, 17A, 19 and 23 thereof (15 U.S.C. 78f, 78*o*, 78*o*–3, 78*o*–4, 78q, 78q–1, 78s, and 78w). Therefore, the Commission is amending Part 240 of Chapter II of Title 17 of the Code of Federal Regulations by revising § 240.19h–1 to read as follows:

§ 240.19h–1 Notice by a self-regulatory organization of proposed admission to or continuance in membership or participation or association with a member of any person subject to a statutory disqualification, and applications to the Commission for relief therefrom.

(a) *Notice of admission or continuance notwithstanding a statutory disqualification.*

(1) Any self-regulatory organization proposing, conditionally or unconditionally, to admit to, or continue any person in, membership or participation or (in the case of a national securities exchange or registered securities association) association with a member, notwithstanding a statutory disqualification, as defined in section 3(a)(39) of the Act, with respect to such person, shall file a notice with the Commission of such proposed admission or continuance. If such disqualified person has not consented to the terms of such proposal, notice of the organization's action shall be filed pursuant to rule 19d–1 under the Act and not this rule.

(2) With respect to a person associated with a member of a national securities exchange or registered securities association, notices need be filed with the Commission pursuant to this rule only if such person:

(i) Controls such member, is a general partner or officer (or person occupying a similar status or performing similar functions) of such member, is an employee who, on behalf of such member, is engaged in securities advertising, public relations, research, sales, trading, or training or supervision of other employees who engage or propose to engage in such activities, except clerical and ministerial persons engaged in such activities, or is an employee with access to funds, securities or books and records, or

(ii) Is a broker or dealer not registered with the Commission, or controls such (unregistered) broker or dealer or is a general partner or officer (or person occupying a similar status or performing similar functions) of such broker or dealer.

(3) A notice need not be filed with the Commission pursuant to this rule if:

(i) The person subject to the statutory disqualification is already a participant in, a member of, or a person associated with a member of, a self-regulatory organization, and the terms and conditions of the proposed admission by another self-regulatory organization are the same in all material respects as those imposed or not disapproved in connection with such person's prior admission or continuance pursuant to an order of the Commission under paragraph (d) of this section or other substantially equivalent written communication.

(ii) The self-regulatory organization finds, after reasonable inquiry, that except for the identity of the employer concerned, the terms and conditions of the proposed admission or continuance are the same in all material respects as those imposed or not disapproved in connection with a prior admission or continuance of the person subject to the statutory disqualification pursuant to an order of the Commission under paragraph (d) of this section or other substantially equivalent written communication and that there is no intervening conduct or other circumstance that would cause the employment to be inconsistent with the public interest or the protection of investors;

(iii) The disqualification consists of (A) an injunction from engaging in any action, conduct, or practice specified in section 15(b)(4)(C) of the Act, which injunction was entered 10 or more years prior to the proposed admission or continuance—*Provided, however*, That in the case of a final or permanent injunction which was preceded by a

preliminary injunction against the same person in the same court proceeding, such ten-year period shall begin to run from the date of such preliminary injunction—and/or (B) a finding by the Commission or a self-regulatory organization of a willful violation of the Act, the Securities Act of 1933, the Investment Advisers Act of 1940, the Investment Company Act of 1940, or a rule or regulation under one or more of such Acts and the sanction for such violation is no longer in effect;

(iv) The disqualification previously (A) was a basis for the institution of an administrative proceeding pursuant to a provision of the federal securities laws, and (B) was considered by the Commission in determining a sanction against such person in the proceeding; and the Commission concluded in such proceeding that it would not restrict or limit the future securities activities of such person in the capacity now proposed or, if it imposed any such restrictions or limitations for a specified time period, such time period has elapsed;

(v) The disqualification consists of a court order or judgment of injunction or conviction, and such order or judgment (A) expressly includes a provision that, on the basis of such order or judgment, the Commission will not institute a proceeding against such person pursuant to section 15(b) or 15B of the Act or that the future securities activities of such persons in the capacity now proposed will not be restricted or limited or (B) includes such restrictions or limitations for a specified time period and such time period has elapsed; or

(vi) In the case of a person seeking to become associated with a broker or dealer or municipal securities dealer, the Commission has previously consented to such proposed association pursuant to section 15(b)(6) or 15B(c)(4) of the Act.

In the case of an admission to membership, participation, or association, if an exception provided for in this paragraph (a)(3) is applicable, the self-regulatory organization shall, pursuant to its rules, determine when the admission to membership, participation, or association shall become effective.

(4) If a self-regulatory organization determines to admit to, or continue any person in, membership, participation, or association with a member pursuant to an exception from the notice requirements provided in paragraphs (a)(3)(ii), (iv) or (v) of this section, such organization shall, within 14 calendar days of its making of such determination, furnish to the Commission, by letter, a notification setting forth, as appropriate:

(i) The name of the person subject to the statutory disqualification;

(ii) The name of the person's prospective and immediately preceding employers who are (were) brokers or dealers or municipal securities dealers;

(iii) The name of the person's prospective supervisor(s);

(iv) The respective places of such employments as reflected on the records of the self-regulatory organization;

(v) If applicable, the findings of the self-regulatory organization referred to in paragraph (a)(3)(ii) of this section and the nature (including relevant dates) of the previous Commission or court determination referred to in paragraph (a)(3)(iv) or (v) of this section; and

(vi) An identification of any other self-regulatory organization which has indicated its agreement with the terms and conditions of the proposed admission or continuance;

(5) If a notice or notification has been previously filed or furnished pursuant to this rule by a self-regulatory organization, any other such organization need not file or furnish a separate notice or notification pursuant to this rule with respect to the same matter if such other organization agrees with the terms and conditions of the membership, participation or association reflected in the notice or notification so filed or furnished, and such agreement is set forth in the notice or notification.

(6) The notice requirements of sections 6(c)(2), 15A(g)(2), and 17A(b)(4)(A) of the Act concerning an action of a self-regulatory organization subject to one (or more) of such sections and this paragraph (a) shall be satisfied by a notice with respect to such action filed in accordance with paragraph (c) of this section.

(7) The Commission, by written notice to a self-regulatory organization on or before the thirtieth day after receipt of a notice under this Rule, may direct that such organization not admit to membership, participation, or association with a member any person who is subject to a statutory disqualification for a period not to exceed an additional 60 days beyond the initial 30 day notice period in order that the Commission may extend its consideration of the proposal; *Provided, however,* That during such extended period of consideration, the Commission will not direct the self-regulatory organization to bar the proposed admission to membership, participation or association with a member pursuant to section 6(c)(2), 15A(g)(2), or 17A(b)(4)(A) of the Act, and the Commission will not institute proceedings pursuant to section 15(b) or 15B of the Act on the basis of such disqualification if the self-regulatory organization has permitted the admission to membership, participation or association with a member, on a temporary basis, pending a final Commission determination.

(b) *Preliminary notifications.* Promptly after receiving an application for admission to, or continuance in, participation or membership in, or association with a member of, a self-regulatory organization which would be required to file with the Commission a notice thereof pursuant to paragraph (a) of this section if such admission or continuance is ultimately proposed by such organization, the organization shall file with the Commission a notification of such receipt. Such notification shall include, as appropriate:

(1) The date of such receipt;

(2) The names of the person subject to the statutory disqualification and the prospective employer concerned together with their respective last known places of residence or business as reflected on the records of the organization;

(3) The basis for any such disqualification including (if based on a prior adjudication) a copy of the order or decision of the court, the Commission, or the self-regulatory organization which adjudicated the matter giving rise to the disqualification; and

(4) The capacity in which the person concerned is proposed to be employed.

(c) *Contents of notice of admission or continuance.* A notice filed with the Commission pursuant to paragraph (a) of this section shall contain the following, as appropriate:

(1) The name of the person concerned together with his last known place of residence or business as reflected on the records of the self-regulatory organization;

(2) The basis for any such disqualification from membership, participation or association including (if based on a prior adjudication) a copy of the order or decision of the court, the Commission or the self-regulatory organization which adjudicated the matter giving rise to such disqualification;

(3) In the case of an admission, the date upon which it is proposed by the organization that such membership, participation or association shall become effective, which shall be not less than 30 days from the date upon which the Commission receives the notice;

(4) A description by or on behalf of the person concerned of the activities engaged in by the person since the disqualification arose, the prospective business or employment in which the person plans to engage and the manner and extent of supervision to be exercised over and by such person. This description shall be accompanied by a written statement submitted to the self-regulatory organization by the proposed employer setting forth the terms and conditions of such employment and supervision. The description also shall include (i) the qualifications, experience and disciplinary records of the proposed supervisors of the person and their family relationship (if any) to that person; (ii) the findings and results of all examinations conducted, during the two years preceding the filing of the notice, by self-regulatory organizations of the main office of the proposed employer and of the branch office(s) in which the employment will occur or be subject to supervisory controls; (iii) a copy of a completed Form U–4 with respect to the proposed association of such person and a certification by the self-regulatory organization that such person is fully qualified under all applicable requirements to engage in the proposed activities; and (iv) the name and place of employment of any other associated person of the proposed employer who is subject to a statutory disqualification (other than a disqualification specified in paragraph (a)(3)(iii) of this section);

(5) If a hearing on the matter has been held by the organization, a certified record of the hearing together with copies of any exhibits introduced therein;

(6) All written submissions not included in a certified oral hearing record which were considered by the organization in its disposition of the matter;

(7) An identification of any other self-regulatory organization which has indicated its agreement with the terms and conditions of the proposed admission or continuance;

(8) All information furnished in writing to the self-regulatory organization by the staff of the Commission for consideration by the organization in its disposition of the matter or the incorporation by reference of such information, and a statement of the organization's views thereon; and

(9) Such other matters as the organization or person deems relevant.

If the notice contains assertions of material facts not a matter of record before the self-regulatory organization, such facts shall be sworn to by affidavit of the person or organization offering such facts for Commission consideration. The notice may be accompanied by a brief.

(d) *Application to the Commission for relief from certain statutory disqualifications.* The filing of a notice pursuant to paragraph (a) of this section shall neither affect nor foreclose any action which the Commission may take with respect to such person pursuant to the provisions of section 15(b), 15B or 19(h) of the Act or any rule thereunder. Accordingly, a notice filed pursuant to paragraph (a) of this section with respect to the membership, participation, or association of any person subject to an "applicable disqualification," as defined in paragraph (f) of this section, may be accompanied by an application by or on behalf of the person concerned to the Commission for an order declaring, as applicable, that notwithstanding such disqualification, the Commission:

(1) Will not institute proceedings pursuant to section 15(b)(1)(B), 15(b)(4), 15(b)(6), 15B(a)(2), 15B(c)(2), 19(h)(2) or 19(h)(3) of the Act if such person seeks to obtain or continue registration as a broker or dealer or municipal securities dealer or association with a broker or dealer or municipal securities dealer so registered, or membership or participation in a self-regulatory organization;

(2) Will not direct otherwise, as provided in section 6(c)(2), 15A(g)(2) or 17A(b)(4)(A) of the Act; and

(3) Will deem such person qualified pursuant to Rule 15b8–2 under the Act or rule G–4 of the Municipal Securities Rulemaking Board under the Act.

If a Commission consent is required in order to render a proposed association lawful under section 15(b)(6) or 15B(c)(4) of the Act, an application by or on behalf of the person seeking such consent shall accompany the notice of the proposed association filed pursuant to paragraph (a) of this section. The Commission may, in its discretion and subject to such terms and conditions as it deems necessary, issue such an order and consent should the Commission determine not to object to the position of the self-regulatory organization set forth in the notice or application; *Provided, however,* That nothing herein shall foreclose the right of any person, at his election, to apply directly to the Commission for such consent, if he makes such application pursuant to the terms of an existing order of the Commission under section 15(b)(6) or 15B(c)(4) of the Act limiting his association with a broker or dealer or municipal securities dealer but explicitly granting him such a right to apply for entry or reentry at a later time.

(e) *Contents of application to the Commission.* An application to the Commission pursuant to paragraph (d) of this section shall consist of the following, as appropriate:

(1) The name of the person subject to the disqualification together with his last known place of residence or business as reflected on the records of the self-regulatory organization;

(2) A copy of the order or decision of the court, the Commission or the self-regulatory organization which adjudicated the matter giving rise to such "applicable disqualification";

(3) The nature of the relief sought and the reasons therefor;

(4) A description of the activities engaged in by the person since the disqualification arose;

(5) A description of the prospective business or employment in which the person plans to engage and the manner and extent of supervision to be exercised over and by such person. This description shall be accompanied by a written statement submitted to the self-regulatory organization by the proposed employer setting forth the terms and conditions of such employment and supervision. The description also shall include (i) the qualifications, experience, and disciplinary records of the proposed supervisors of the person and their family relationship (if any) to that person; (ii) the findings and results of all examinations conducted, during the two years preceding the filing of the application, by self-regulatory organizations of the main office of the proposed employer and of the branch office(s) in which the employment will occur or be subject to supervisory controls; (iii) a copy of a completed Form U–4 with respect to the proposed association of such person and a certification by the self-regulatory organization that such person is fully qualified under all applicable requirements to engage in the proposed activities; and (iv) the name and place of employment of any other associated person of the proposed employer who is subject to a statutory disqualification (other than a disqualification specified in paragraph (a)(3)(iii) of this section);

(6) If a hearing on the matter has been held by the organization, a certified copy of the hearing record, together with copies of any exhibits introduced therein;

(7) All written submissions not included in a certified oral hearing record which were considered by the organization in its disposition of the matter;

(8) All information furnished in writing to the self-regulatory organization by the staff of the Commission for consideration by the organization in its disposition of the matter or the incorporation by reference of such information, and a statement of the organization's views thereon; and

(9) Such other matters as the organization or person deems relevant.

If the application contains assertions of material facts not a matter of record before the organization, such facts shall be sworn to by affidavit of the person or organization offering such facts for Commission consideration. The application may be accompanied by a brief. If any information called for in this paragraph (e) of this section is already contained in an application filed with the Commission in accordance with paragraph (b) of rule 15b8–2 under the Act concerning the same proposed employment, such information may be incorporated by reference in the application pursuant to this rule.

(f) *Definitions.* For purposes of this rule:

(1) The term "applicable disqualification" shall mean:

(i) Any effective order of the Commission pursuant to section 15(b) (4) or (6), 15B(c) (2) or (4) or 19(h) (2) or (3) of the Act—

(A) Revoking, suspending or placing limitations on the registration, activities, functions, or operations of a broker or dealer;

(B) Suspending, barring, or placing limitations on the association, activities, or functions of an associated person of a broker or dealer;

(C) Suspending or expelling any person from membership or participation in a self-regulatory organization; or

(D) Suspending or barring any person from being associated with a member of a national securities exchange or registered securities association;

(ii) Any conviction of injunction of a type described in section 15(b)(4) (B) or (C) of the Act; or

(iii) A failure under the provisions of Rule 15b8–2 under the Act or rule G–4 of the Municipal Securities Rulemaking Board under the Act, to meet qualifications standards, and such failure may be remedied by a finding or determination by the Commission pursuant to such rule(s) that the person affected nevertheless meets such standards.

(2) The term "control" shall mean the power to direct or cause the direction of the management or policies of a company whether through ownership of securities, by contract or otherwise; *Provided, however,* That

(i) Any person who, directly or indirectly, (A) has the right to vote 10 percent or more of the voting securities, (B) is entitled to receive 10 percent or more of the net profits, or (C) is a director (or person occupying a similar status or performing similar functions) of a company shall be presumed to be a person who controls such company;

(ii) Any person not covered by paragraph (i) shall be presumed not to be a person who controls such company; and

(iii) Any presumption may be rebutted on an appropriate showing.

(g) Where it deems appropriate to do so, the Commission may determine whether to (1) direct, pursuant to section 6(c)(2), 15A(g)(2) or 17A(b)(4)(A) of the Act, that a proposed admission covered by a notice filed pursuant to paragraph (a) of this section shall be denied or an order barring a proposed association issued or (2) grant or deny an application filed pursuant to paragraph (d) of this section on the basis of the notice or application filed by the self-regulatory organization, the person subject to the disqualification, or other applicant (such as the proposed employer) on behalf of such person, without oral hearing. Any request for oral hearing or argument should be submitted with the notice or application.

(h) The Rules of Practice [17 CFR 201] shall apply to proceedings under this rule to the extent what they are not inconsistent with this rule.

By the Commission.

George A. Fitzsimmons,

Secretary.

November 20, 1981.

BILLING CODE 8010-01-M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Social Security Administration

20 CFR Part 416

Supplemental Security Income for the Aged, Blind, and Disabled

AGENCY: Social Security Administration, HHS.

ACTION: Final rule.

SUMMARY: This regulation will afford States for which SSA administers State supplementation payments under the Supplemental Security Income (SSI) program, the use of a regression formula in the computation of Federal fiscal liability (FFL) rates. Under the FFL concept, the Federal government assumes responsibility for Federal errors is State optional and mandatory supplementary payments discovered by its quality assurance system, which exceed the 4 percent tolerance for error established in the regulations. The regression formula is a mathematical means of determining the relationship between our original quality assurance findings and the results of an independent State review of a subsample of these same cases. The extent of differences derived from studying the subsample is projected to adjust the error rate in our total sample of cases. This is an alternative to the current method of correcting only the differences noted in the State's subsample, before we compute the FFL error rates. Use of the regression formula is at the option of the State, and is available beginning with 6-month sample periods beginning October 1, 1980.

EFFECTIVE DATE: This final regulation is effective December 3, 1981, but States may start applying it for 6-month sample periods beginning as early as October 1, 1980.

FOR FURTHER INFORMATION CONTACT: Willie H. Dow, Room 3226 Annex Building, 6401 Security Boulevard, Baltimore, Maryland 21235, (301) 597–2516.

SUPPLEMENTARY INFORMATION: We published the interim rule providing for the use of the regression formula in the **Federal Register** on January 23, 1981 (46 FR 7269) with a 60-day comment period. Two comments were received and are discussed under the heading **Discussion of Comments.**

Background Information

Some States have enterd into agreements with the Secretary for us to administer their mandatory and optional supplementary payments in the SSI program. Part of our responsibility is to review a valid sample of cases for each 6-month period beginning in April and October of each year, and to compute our FFL if our error rate based on the review exceeds a prescribed standard (currently 4 percent). Additionally, a State may rereview a subsample of the cases we select. Traditionally, the States have chosen to rereview a small subsample of these cases. If we agree with a State's review findings, we revise our data base and compute our FFL by treating the State's findings as if they were our own on a case-by-case basis.

Recently the States, through the National Council of State Public Welfare Administrators (NCSPWA), have proposed the use of a mathematical regression formula to weight the value

of errors detected by a State in its subsample review. A regression methodology estimates the extent of differences in the full sample, whereas the present case-by-case methodology corrects only differences noted in the State's subsample of our sample. The regression formula produces a statistically valid error rate for the total sample without having to subject to rereview every case in the quality assurance sample. The effect of using the regression formula in any particular FFL determination will be to raise, lower, or not change original error rate projections.

Historically, the quality assurance systems in SSI and in AFDC have been similar. The regression formula has been used for some time in the AFDC program. The States have requested that the use of the regression formula be an available option in the SSI program. Accordingly, we have amended § 416.2086(h)(2) to allow a State, at its option, to use the regression formula for 6-month sample periods beginning October 1, 1980.

Discussion of Comments

We received two comments on the interim rule published on January 27, 1981 (46 FR 7269). One comment was entirely favorable and requires no response. That commenter stated that he is pleased to see the publication of the regulation on the regression formula because it resulted from negotiations between NCSPWA and SSA.

The other commenter stated that there is no documentation in any Department of Health and Human Services publication supporting our statement that use of the regression formula will increase accuracy of the payment error rate finding used for the Federal fiscal liability determination.

Experience in using the regression formula in the AFDC program demonstrates the formula to be a statistically proper method for taking into account, and adjusting for fallibility and possible bias that may occur in the initial review. However, to avoid misunderstanding, we have made minor editorial changes in the interim regulation as published to clarify our definition of the regression formula.

Use of the regression formula is not mandatory, but rather at the option of the State. A State is free to exercise its option to use the regression formula in any 6-month sample period. Any State which believes that the formula does not suit its needs or budget conditions, or will not adequately reflect the differences detected in rereview may refrain from exercising the option. The State then may have its Federal fiscal liability determined under the present case-by-case methodology if it chooses to rereview cases at all.

Certification under Executive Order 12291, the Regulatory Flexibility Act, and the Paperwork Reduction Act

We have determined that this regulation does not meet the criteria specified in Executive Order 12291 for a major regulation. In addition, we certify that this regulation does not have a significant economic impact on small entities because its use is optional by States and it affects only HHS error rates. There are no recordkeeping or reporting requirements requiring OMB clearance.

Accordingly, this regulation is adopted with minor editorial changes as set forth below.

(Secs. 1102 and 1631 of the Social Security Act, as amended; 49 Stat. 647, as amended, 86 Stat. 1745, as amended; 42 U.S.C. 1302 and 1383)

(Catalog of Federal Domestic Assistance Program No. 13.807, Supplemental Security Income Program)

Dated: September 16, 1981.

John A. Svahn,

Commissioner of Social Security.

Approved: November 13, 1981.

Richard S. Schweiker,

Secretary of Health and Human Services.

PART 416—SUPPLEMENTAL SECURITY INCOME FOR THE AGED, BLIND, AND DISABLED

Part 416 of Chapter III of Title 20 of the Code of Federal Regulations is amended at § 416.2086 by revising paragraph (h)(2) to read as follows:

§ 416.2086 Federal liability when error rate in payment of federally administered State supplementation exceeds national standard.

* * * * *

(h) * * *

(2) *Adjustment to liability.* If a State's finding in a case differs from ours and if we agree that the State is correct, we will use this revised finding in computing FFL. We will then determine our liability—

(i) By treating the State's findings on cases that we agree upon as if they were the findings of our sample review; or

(ii) At the State's option, through the use of a regression formula as specified in the Federal-State agreement. For purposes of this section, a regression formula is a mathematical means of determining the relationship between the original findings of the Federal quality review and the results of an independent State rereview of a subsample of the same cases. The extent of differences derived from the subsample is projected to adjust the error rates in the total sample of cases selected for quality review. This option is available for 6-month sample periods beginning on or after October 1, 1980.

BILLING CODE 4190-11-M

DEPARTMENT OF TRANSPORTATION

Coast Guard

33 CFR Part 117

[CGD 75-237]

Drawbridge Operation Regulations; Opening Signals for Drawbridges

AGENCY: Coast Guard, DOT.

ACTION: Final rule.

SUMMARY: The Coast Guard is amending its regulations governing the operation of drawbridges by establishing standard opening and acknowledging signals for most of the drawbridges throughout the country. A diverse range of opening and acknowledging signals has been employed for many of these drawbridges. By eliminating this potential source of uncertainty and confusion for the mariner, these regulations should contribute to safer conditions on the nation's waterways. In addition, these amendments consolidate into a general section certain provisions that apply to a large number of drawbridges, such as those allowing the use of radiotelephone communication in lieu of sound and visual signals, and those prohibiting a vessel from attempting to pass through the draws of a bridge unless an opening signal has been received.

DATES: This amendment is effective on February 8, 1982.

Comments on revisions made in this final rule that were not discussed in the notice of proposed rulemaking must be received on or before January 18, 1982.

ADDRESS: Comments should be mailed to Commandant (G-CMC/44) (CGD 75-237), U.S. Coast Guard, Washington, D.C. 20593. Between the hours of 7:00 a.m. and 5:00 p.m., Monday through Thursday, comments may be delivered to, and are available for inspection and copying at the Marine Safety Council (G-CMC/44), Room 4402, U.S. Coast Guard Headquarters, 2100 Second Street, SW., Washington, D.C. 20593.

FOR FURTHER INFORMATION CONTACT: Frank L. Teuton, Jr., Chief, Drawbridge Regulations Branch (G-NBR/14), Room 1420, Department of Transportation, Coast Guard Headquarters, 2100 Second

Street, SW., Washington, D.C. 20593 (202–426–0942).

SUPPLEMENTARY INFORMATION: The Coast Guard published a Notice of Proposed Rulemaking concerning this amendment on June 26, 1980 (45 FR 43226). The public was invited to submit comments on the proposal by September 1, 1980. Sixty-one comments were received. Twenty-four of these either agreed with the proposal in all particulars, or expressed no objection to it. The remaining comments generally favored the proposal, but recommended certain revisions. These comments are discussed below in the same order as the sections of the rule to which they pertain.

One comment included a request that a public hearing be held on this rulemaking. In light of the substantial information that has been provided through written comments, the Coast Guard did not consider it necessary to hold a public hearing, as it could not be expected to generate significant additional information. *Drafting Information:* The principal persons involved in drafting this rule are: Frank L. Teuton, Jr., Project Manager, Office of Navigation, and Coleman Sachs, Project Attorney, Office of the Chief Counsel.

Discussion of Comments

§ *117.b Signals.*

(a) Sound signals. Several comments recommended substitution of the expression "prolonged blast" for "long blast" in paragraph (a). A long blast was defined in the proposal as being of three seconds duration. The comments noted that "long blast" is not found in the Navigation Rules, but that "prolonged blast" is defined in these rules as a blast of four to six seconds duration. Because there is no official definition of "long blast," the Coast Guard has adopted "prolonged blast" in these final rules, giving it the same definition that it has in the Navigation Rules.

Several comments recommended that megaphones and bells be eliminated from the list of permissible signaling devices in paragraph (a). Some contended that drawtenders may have difficulty hearing signals given on these devices. Others questioned how a distinct long or short blast could be produced by them. The final rules have been changed to eliminate bells in order to preserve their uniqueness as fog signaling devices. Megaphones have not been eliminated from the list of permissible devices, as they are useful in times of emergency when other signaling devices are unavailable or malfunctioning.

One comment recommended that only signaling devices that are capable of producing 120 decibels of sound at the source be permitted. Another recommended that devices with an audible range of three miles be required. These characteristics for sound producing devices are specified in the Navigation Rules. The requirements vary according to vessel size. It would be inadvisable to include these details in the drawbridge operation regulations in order to keep them as simple as possible. The recommendations have therefore not been adopted.

One comment objected to the proposed requirement that signaling devices other than those specified be capable of "producing sound that can be clearly heard." This was felt to be too subjective a standard. The Coast Guard would be reluctant to phrase the audibility requirement with any greater specificity in the drawbridge operation regulations, as it is a subject that is treated, and properly belongs, in the Navigation Rules. The proposed language has therefore been retained.

Several comments objected to the proposed opening signal of one long blast followed by one short blast. One stated that this signal is presently used between vessels and tugs to maneuver. No confirmation of this could be found in the Navigation Rules. Others stated that one long and one short blast resembles the towing signal. Article 15(e) of the Inland Rules defines the signals for vessels towing or in tow as one prolonged and two short blasts. There should be no difficulty distinguishing this from the proposed opening signal. Several parties recommended the adoption of alternate signals presently used in their parts of the country. The Coast Guard has decided to retain the opening signal originally proposed, modified by the substitution of prolonged blast for long blast, as previously discussed. As stated in the Notice of Proposed Rulemaking, the uniqueness of this signal, and its suitability for its intended function justify its adoption nationwide.

One comment, suggesting that the interval between the long and short blast of the opening signal should be better defined, recommended that it be expressed as "one long blast followed immediately by one short blast." This recommendation has not been adopted. The Coast Guard is unaware of any problems with the proposed singal on those bridges where it is already used. The fact that the short blast should immediately follow the long blast is implied in the identification of these sounds as part of the same signal.

Several comments recommended that drawtenders be required to immediately acknowledge opening signals. It was felt that this would reduce the need for vessels to circle or take other evasive maneuvers while awaiting a response from the bridge. This would allow them to promptly pass through the draw when the bridge is opened, minimizing the disruption to land traffic. The Coast Guard recognizes the need for the drawtender to provide a prompt response, and has therefore adopted in these final rules a requirement that acknowledging signals be given not more than 30 seconds after the receipt of opening signals.

One comment suggested that the acknowledging signal should differ from the opening signal to allow drawtenders on consecutive bridges to distinguish vessel from bridge signals. This has not been adopted, as it would unduly complicate signalling procedures to benefit a relatively small number of bridges.

One comment recommended the addition of a provision specifying that vessels may pass through the draws of open, unmanned bridges without receiving an acknowledging signal. The final rules have been so amended.

Several comments recommended that five short blasts be substituted for four short blasts as the acknowledging signal when the draw cannot be opened immediately or is open and must be closed immediately. Four blasts were originally proposed to conform to the danger signal in Article 17, Rule III of the Inland Rules. These have since been amended and placed in substantial conformity with the International Regulations for Preventing Collisions at Sea, 1972 (72 COLREGS), which, in rule 34(d) prescribes five or more short blasts as a danger signal. The new rules are to take effect in December, 1981. In anticipation of this development, the recommended change in being adopted in these final rules.

One comment questioned whether four blasts must be given by the drawtender whenever a bridge is closed. This signal need only be given in response to an opening signal from a vessel if the draw cannot open immediately or is open and must close immediately.

One comment recommended that the word "immediately" be eliminated from the heading of paragraphs (a)(2)(i), (a)(2)(ii), (b)(2)(i), and (b)(2)(ii), which prescribe acknowledging signals for drawbridges. It was felt that this terminology would require immediate openings, and would not take proper account of the time lag needed for land

V 46 / 232 DEC 3 81 UMI

traffic to clear the bridge. The phrase "as soon as possible" was suggested as an alternative. This terminology has not been adopted, as it does not provide sufficient guidance to vessel operators and bridge tenders. However, the word "promptly" has been substituted for "immediately" to imply that some delay would be tolerated.

Another comment recommended that a provision be added requiring drawbridges to open immediately upon signal to maintain waterway navigability. This recommendation has not been adopted. As noted above, immediate openings cannot be provided in all instances, as some allowance must be made for vehicular traffic to clear the bridge. Occasionally, openings must also be delayed to allow emergency vehicles to pass.

Several comments recommended that vessels be required to signal when they have cleared a draw in order to avoid premature closings. The Coast Guard considers it unnecessary to impose this additional signalling requirement. The drawtender's visual observations should provide sufficient precaution against premature closings.

A number of comments recommended the adoption of signals that differ from those originally proposed. With the two exceptions noted above, the Coast Guard has retained the proposed signals, as they are felt to offer the least likelihood of confusion with signals given different meaning under the Navigation Rules.

(b) Visual signals. One comment recommended that visual signals be allowed whenever their use would be appropriate. It was noted that the proposal would only allow the use of visual signals when adverse weather conditions prevent sound signals from being heard, or when sound producing devices are malfunctioning. Other situations were described that might warrant the use of visual signals, such as when ambient noise levels are high, or when occupied vessels are moored close by at night. Paragraph (b) has been revised to broaden the range of situations that are cited as making the use of visual signals appropriate.

One comment recommended that the minimum range of visibility for visual signals be expanded from one-half mile to two miles. This recommendation has not been adopted, as the benefits that could be derived from added visibility are not considered sufficient to justify the expense for altering structures and installing more powerful lights.

One comment noted that some bridges presently use cylinders, balls, or other devices instead of lights and flags to give visual signals, and recommended that these still be allowed. The Coast Guard is willing to allow the use of devices other than flags and lights that are capable of rendering the same signal, especially where these have been previously used. The parenthetical note in paragraphs (b)(1) and (b)(2)(ii) has been revised to reflect this.

One comment recommended that flashing lights be principally used on bridges as signalling devices, and that the manual display of flags or lights only be allowed in the case of equipment failure. This recommendation has not been adopted. It would impose an unreasonable expense on bridge owners, especially on those whose bridges cross waterways that carry only occasional vessel traffic.

One comment recommended that visual signals be given only through the use of revolving lights with interchangeable lenses in three standard colors. This recommendation has not been adopted. The Coast Guard wishes to provide vessel and bridge owners with greater flexibility in the procurement and use of signalling devices and limit the expenses necessary to comply with these regulations.

One comment opposed the substitution of visual signals for sound signals, citing the dangers drawtenders incur in manually displaying visual signals during inclement weather. The Coast Guard has found that visual signals must be allowed. As discussed above, sound signals are ineffective or inappropriate in some situations. Bridges can be equipped with mechanical devices to eliminate the need for drawtenders to display visual signals manually. If this is not possible, drawtenders should be instructed to exercise sufficient caution to reduce the likelihood of mishaps.

One comment recommended that visual signals not apply to automated bridges. These are bridges that are not continually manned, but are equipped with opening mechanisms that are activated through a sound signal. The Coast Guard recognizes that an exception must be made for these bridges, not only in regard to visual signals, but sound signals as well. This is because they may be activated by signals that differ from those under consideration. As a consequence, signalling provisions have been retained within the individual operation regulations for all automated bridges.

One comment objected to the proposed use of a white light as an opening signal at night. It was felt that the drawtender could confuse this with other lights on the water. The Coast Guard is unaware of any problems with white lights at the numerous bridges where they are presently required. The majority of vessels that are equipped with lights for signalling purposes are most likely to have white lights. This is also the color light that is probably most readily available. The Coast Guard would be reluctant to impose a requirement for different equipment without a clearer showing that a problem exists.

One comment recommended that two green lights flashing alternately should be substituted for a white light as the acknowledging signal when the draw will be opened. It was noted that this signal is familiar to many users of United States waterways. Paragraph (b)(1) has been revised to allow the acknowledging signal to be given with a white or green light.

Several comments recommended a change in the provision in paragraph (b)(2)(ii) requiring vessels to acknowledge visual signals from the bridge "with the same signal." Some felt this could be misinterpreted as requiring vessels to be equipped with the same signalling devices, such as elaborate arrays of flashing lights. Others noted that pleasure craft might not be equipped with red flags, lanterns, or other devices employed on the bridge. Paragraph (b)(2)(ii), as well as paragraph (a)(2)(ii) containing a parallel provision on sound signals, have been revised to allow a vessel to acknowledge a bridge signal with "a signal that carries the same meaning." This would clarify the fact that similar devices need not be used, and would permit visual signals to be acknowledged with sound signals if conditions so allow, thus affording vessel operators maximum flexibility.

(c) Draw will not open. One comment stated that this paragraph's prohibition on vessel passage should not restrict a vessel from moving into fenderings or other bridge protection structures to await bridge openings under safe conditions. The paragraph has been revised to allow such maneuvers.

(d) Radiotelephones. Two comments recommended that all drawbridges be required to have radiotelephones. This recommendation has not been adopted. Many bridges do not have sufficient vessel traffic passing through them to warrant the use of radiotelephones. Nearly all of the bridges that could benefit from radiotelephones already have them installed. It should be noted that the Commandant of the Coast Guard need only require the installation of radiotelephones under 33 CFR 117.1(e) upon a finding that their use

would be essential for navigation or safety.

One comment stated the substitution of radiotelephone communication for sound and visual signals should not be permitted. Signals were considered less likely to be misunderstood than oral communication. It was also noted that the extended range afforded by radiotelephone communication may result in premature drawbridge openings disrupting vehicular traffic. Because it is less formal than exchanging signals, it was also felt that radiotelephone communication would cause the vessel operator to be less cautious in navigating through the draw. The Coast Guard has not adopted this recommendation, as it has no evidence that problems have been found on the numerous bridges that have been equipped with radiotelephones. In fact, radiotelephones have enhanced safety on waterways crossed by bridges where they are in use.

A number of comments objected to the proposed requirement for vessels to monitor the radiotelephone channel selected for communication with the drawtender until they have cleared the draw. Some contended that there is no need to communicate with the drawtender once the bridge has been opened. Others noted that masters must monitor other channels simultaneously in some locations. The monitoring requirement has been retained in these final rules. It is felt that the majority of transits are so short that this requirement is not unreasonable. Monitoring allows vessel operators and drawtenders to make rapid changes in the transiting sequence if unforeseen developments arise.

A number of comments recommended that specific channels be assigned for radiotelephone communication between vessel and bridge. The Coast Guard has no authority to do this, as it is a function that is only exercised by the Federal Communications Commission. Furthermore, in light of regional variations in the use of certain channels, it would be ill advised to designate these nationwide.

One comment requested publication of VHF channel numbers used to request bridge openings. As this is general information that is not regulatory in nature, it would be an unnecessary addition to the Code of Federal Regulations. This information could be more effectively disseminated at the Coast Guard District level through the Local Notice to Mariners.

One comment recommended that a prescribed format be adopted for radiotelephone communications. This would require that specific language be used to request or acknowledge an opening. The Coast Guard considers this unnecessary in light of its interest in keeping these regulations as simple as possible. It would also disregard regional variations that might exist in the format of radiotelephone communications.

One comment recommended that if paragraph (d) is adopted, allowing radiotelephone communications to be substituted for sound and visual signals, 33 CFR 117.1(e) should be amended. This provision describes radiotelephone communication as serving a supplementary role. It has been amended as suggested.

(e) Contiguous drawbridges. One comment recommended that a "progressive numeric" system of signalling be adopted for bridges in close proximity to one another. Presumably, this would require an increasing or decreasing number of blasts for successive bridges. A similar method of signalling is already employed on a number of contiguous drawbridges. The Coast Guard does not consider this change necessary for the small number of bridges that employ other techniques.

One comment recommended that once an opening signal has been given for a bridge, it should be eliminated for subsequent bridges in close proximity. It was felt that drawtenders should be able to provide openings on the basis of their visual observations. By eliminating excessive noise, the recommended change was described as being beneficial to shoreside residents and occupants of neighboring vessels at anchor. This recommendation has not been adopted. It is necessary for communications to be established between the vessel and each drawtender, as vehicular traffic conditions on subsequent bridges may delay their openings. The recommended change might also result in unnecessary openings for vessels intending to anchor between bridges.

Miscellaneous comments. Two comments questioned the need for nationwide uniformity in drawbridge signals, and requested that the Great Lakes region be excluded from this scheme. As stated in the Notice of Proposed Rulemaking, uniform signals will eliminate one source of confusion for mariners, thus contributing to safer conditions on the nation's waterways. Wide support for this aspect of the proposal was expressed by those submitting comments.

One comment recommended that the uniform signals apply to all drawbridges in the country. The Coast Guard does not agree with this recommendation for two reasons. First, there are a number of close proximity drawbridges in several metropolitan areas. If all of these bridges were required to open on the same signal, this could be quite confusing, and the Coast Guard's position is that different signals should be used for each bridge. The second group of drawbridges that should not require standard signals are those that are automated. Several of these bridges have been programmed to open on different signals. The Coast Guard feels that reprogramming these bridges would be an unnecessary expense to the bridge owner. The operation of these bridges is governed by the following sections, in all of which signalling provisions have been retained:

§ 117.75 Boston Harbor.
§ 117.78 Cape Cod Canal.
§ 117.130 Pequonnock River, et al.
§ 117.429 St. Johns River.
§ 117.432 Matanzas River.
§ 117.435 Indian River.
§ 117.436a Loxahatchee River.
§ 117.491 Mobile River.
§ 117.550 Cedar Bayou.
§ 117.554 Victoria Channel.
§ 117.556 Ark and White River.
§ 117.604 Illinois River.
§ 117.640a Duluth Superior Harbor.
§ 117.650 Manitowoc River.
§ 117.655 Milwaukee River, et al.
§ 117.660 Root River.
§ 117.663 Chicago River.
§ 117.670 Calumet River.
§ 117.711 Cerritos Channel.
§ 117.740 Youngs Bay.
§ 117.750 Willamette River, et al.
§ 117.760 Columbia and Snake Rivers.
§ 117.770 Willapa Harbor.
§ 117.775 Grays Harbor.
§ 117.785 Tacoma Harbor.
§ 117.790 Duwamish Slough.
§ 117.805 Snohomish River.
§ 117.900 Honolulu.

Several comments recommended that additional signalling provisions in the operation regulations for individual bridges be deleted with the adoption of these rules. As a result of these comments, and its own review of the existing regulations, the Coast Guard is deleting the following provisions that were not included in the notice of proposed rulemaking:

§ 117.156(d)
§ 117.310(c)
§ 117.706(b)(2)
§ 117.706a (a)(4) (5), and (b)(3)
§ 117.761(b)

As none of the bridges governed by these sections are automated or in close proximity to other bridges, they should properly be subject to the standard signals being established. However, since prior notice of these revisions has not been provided, the Coast Guard

invites the public to comment upon them on or before February 1, 1982. All comments submitted will be reviewed to determine whether any further modifications are necessary.

In addition, § 117.555(b) is being revised to eliminate a cross reference to paragraph (d), which is being deleted under these rules. A similar revision is being made to eliminate the cross reference to paragraph (i) in § 117.50(b), the cross reference to paragraph (d) in § 117.555(b) and the cross reference to paragraph (c)(2)(ii) in § 117.690(e).

The following provisions proposed for revision or deletion in the Notice of Proposed Rulemaking will not be modified under these final rules because they pertain to bridges which are either in close proximity to other bridges, or which would have difficulty adopting the standard signals being established:

§ 117.432 (c)(1)(i) and (c)(2)(i)
§ 117.670 (d) and (e)
§ 117.770(a) (2), (3) and (4)
§ 117.775 (a) (2) and (3)
§ 117.790 (b), (c), and (d)
§ 117.805 (b)(1)(i), (b)(1)(ii), and (b)(2)

One comment recommended a delay in the implementation of these rules so that the public can become accustomed to them. As stated above, they will not become effective until January 1, 1982, which is beyond the close of the present boating season. This will afford all Coast Guard Districts ample opportunity to inform the public of these changes through the Local Notice to Mariners, mailings, and radio broadcasts. This will also afford bridge owners or operators ample time to modify or augment their signalling devices if this is necessary.

This amendment has been reviewed and determined to be neither a major rule under Executive Order 12291, nor significant under the Department of Transportation's Policies and Procedures for Simplification, Review and Analysis of Regulations (DOT Order 2100.5). A final evaluation has been prepared and included in the public docket. This may be obtained from the Marine Safety Council (G–CMC/44), Room 4402, U.S. Coast Guard Headquarters, 2100 Second Street, SW., Washington, D.C. 20593. As the notice of proposed rulemaking was issued before January 1, 1981, this rulemaking is exempt from the Regulatory Flexibility Act (94 Stat. 1164). However, the requirements of the Act were taken into consideration, and these rules are not expected to have a significant effect on small entities.

In consideration of the foregoing, Part 117 of Title 33, Code of Federal Regulations is amended as follows:

PART 117—DRAWBRIDGE OPERATION REGULATIONS

1. By removing and reserving paragraph (d) of § 117.1.

§ 117.1 [Amended]

* * * * *

(d) [Reserved].

2. By revising the introductory paragraph and paragraph (4) of § 117.1(e) to read as follows:

§ 117.1 General.

* * * * *

(e) The Commandant may require the owner or operator to install and operate one or more radiotelephone stations of appropriate characteristics on a drawbridge upon finding that for navigation or safety it is essential that a means other than sound or visual signals be available to request openings of the draw.

(1) * * *

(4) The provisions of this section are not intended to restrict the voluntary installation and operation of radiotelephone stations on drawbridges.

3. By adding a new § 117.1b to read as follows:

§ 117.1b Signals.

(a) *Sound signals.* Sound signals shall be the primary signals to be used if weather conditions will permit sound signals to be heard by the drawtender and by the vessel operator. A prolonged blast shall be of four to six seconds duration and a short blast shall be of approximately one second duration. These signals may be made by a whistle, or horn, by shouting through a megaphone, or by other similar devices producing sound that can be clearly heard. If a drawbridge does not have sound signals individually specified in this Part, the following signals shall be used:

(1) Signal to request opening of draw. One prolonged blast followed by one short blast.

(2) Acknowledging signal by the drawtender.

(i) When the draw will be opened immediately. One prolonged blast followed by one short blast, sounded not more than 30 seconds after the opening signal.

(ii) When the draw cannot be opened promptly or is open and must be closed promptly. Five short blasts, sounded in rapid succession not more than 30 seconds after the opening signal, repeated at regular intervals until acknowledged by a signal which has the same meaning from the vessel. As soon as the draw can be opened the drawtender shall sound the opening signal and open the draw for any vessel waiting to pass.

(b) *Visual signals.* These signals shall be used if weather, noise, or other conditions may prevent sound signals form being heard or if sound producing devices are not properly functioning. Sound signals may be used in conjunction with visual signals. If a drawbridge does not have visual signals individually specified in this Part, the following shall be used:

(1) Signal to request opening of draw. A white flag of sufficient size to be readily visible for a distance of one-half mile by day or a white or green light of sufficient intensity to be readily visible for a distance of one-half mile by night, raised and lowered vertically in full sight of the drawtender, repeated until acknowledged by the drawtender (mechanical devices or other objects using fixed or flashing lights which produce essentially the same signal, are permitted).

(2) Acknowledging signal by the drawtender.

(i) When the draw will open promptly. Same as signal to request opening, displayed not more than 30 seconds after the opening signal.

(ii) When the draw cannot open promptly or is open and must be closed promptly. A red flag of sufficient size to be readily visible for a distance of one-half mile by day or a red light of sufficient intensity to be readily visible by night, swung back and forth horizontally in full sight of the vessel not more than 30 seconds after the opening signal is observed, and repeated until acknowledged by the vessel with a signal which carries the same meaning (mechanical devices or other objects using fixed or flashing lights which produce essentially the same signal, are acceptable). As soon as the draw can open, the drawtender shall give the opening signal and open the draw for any vessels waiting to pass.

(c) *Draw will not open.* When the signal from the bridge indicates that the draw will not open, the vessel shall not attempt to pass the closed draw until an opening signal is received from the bridge. However, if there is sufficient room, the vessel may advance into the fender system until the draw opens.

(d) *Radiotelephones.* When the request for draw opening and the answering acknowledgement is given by radiotelephone, sound or visual signals need not be used. Both vessel and bridge must continue to monitor the selected channel until the vessel has cleared the draw. If radiotelephone contact cannot be maintained, sound or visual signals shall be used.

(e) *Contiguous drawbridges.* When a vessel wishes to pass two or more drawbridges close together, the opening signal shall be given for the first bridge After acknowledgement from the first bridge that it will open promptly the opening signal shall be given for the second bridge and so on until all bridges that the vessel desires to pass have been given the opening signal and have acknowledged that they will open promptly

(f) *Vessels approaching a drawbridge.* When two or more vessels are approaching the same drawbridge at nearly the same time from the same or opposite directions with the draw open or closed, each of these vessels shall signal independently for the opening of the draw, and the drawtender shall reply in turn to the signal of each vessel.

(g) When a vessel approaches a drawbridge in the open position, the vessel shall sound the opening signal. If no response is received, the vessel may proceed through the draw.

4. By removing and reserving the following paragraphs:

§ 117.8(b)
§ 117.10(c)
§ 117.20(c)
§ 117.25 (b), (c), and (f)
§ 117.35(a) (1), (2), and (3)
§ 117.50(i)

§ 117.706a (4) (5), and (b)(3)
§ 117.707a (c), (d), (e) and (f)
§ 117.709(d)
§ 117.710(b)
§ 117.715(a)
§ 117.716 (a)(1)(iv) and (b)(1)
§ 117.759a(b)
§ 117.759b(e)
§ 117.761(b)
§ 117.765(a) (2) and (3)
§ 117.776(b)
§ 117.784 (b)(2) and (d)(2)
§ 117.795(c)
§ 117.800(b)
§ 117.801(b)(2)

§ 117.5 [Amended]

5. In § 117.5(a) by replacing the colon after the word "minutes" with a period and removing all the remaining language in the paragraph.

§ 117.15 [Amended]

6. In § 117.15 by removing the last sentence.

§ 117.50 [Amended]

7. In § 117.50(b) by removing the words "when the signal prescribed in paragraph (i) of this section for the opening of the draw is received" and inserting in their place "upon signal."

§ 117.55 [Amended]

8. In § 117.55(a)(1) by removing the words "upon receipt of the signal prescribed in paragraph (a)(5) of this section" and inserting in their place "upon signal."

§ 117.65 [Amended]

9. In § 117.65(b) by removing the words, "upon the signal prescribed in paragraphs (d) and (e) of this section being given."

§ 117.135 [Amended]

10. In § 117.135(a) by removing the words "upon a signal given by three short blasts (each of about two seconds duration) of a horn or steam whistle" and inserting in their place "upon signal."

§ 117.156 [Amended]

11. In § 117.156(c) by removing the words "after giving a signal of three distinct blasts of a horn, whistle or megaphone, repeated at intervals when necessary until answered from the bridges" and inserting in their place "on signal."

§ 117.220 [Amended]

12. In § 117.220(c) by removing the first sentence.

§ 117.230 [Amended]

13. In § 117.230(a)(2) by replacing the comma after the word "draw" with a period, and removing all the remaining language in the paragraph.

§ 117.305 [Amended]

14. By revising paragraph (a) of § 117.305 to read as follows:

(a) From 5 a.m. to 6:30 a.m., 9:30 a.m. to 4 p.m., and 6 p.m. to 9 p.m., the draw shall open on signal.

§ 117.442 [Amended]

15. In § 117.442(a) by removing the words "need open on signal of three blasts of a whistle, horn or by shouting" and inserting in their place "need only open on signal."

§ 117.442 [Amended]

16. In § 117.442(b) by removing the last sentence.

§ 117.442(a) [Amended]

17. In § 117.442a(a) by removing the words "of three blasts of a whistle, horn or by shouting."

18. In § 117.442a(b) by removing the last sentence.

§ 117.443 [Amended]

19. In § 117.443(a) by removing the words "of three blasts of a whistle, horn or by shouting."

20. In § 117.443(b) by removing the last sentence.

§ 117.555 [Amended]

21. In § 117.555(b) by removing the words "prescribed in paragraph (d) of this section."

22. In § 117.555 (e) and (f) by removing the words "as prescribed in paragraph (d) of this section."

§ 117.643 [Amended]

23. In § 117.643(b)(3) by inserting a period after the word "season" and removing all the remaining language in the paragraph

§ 117.690 [Amended]

24. In § 117.690(e) by removing the last sentence.

§ 117.725 [Amended]

25. In § 117.725(a)(1) by removing all language after the word "upon" and inserting in its place the word "signal" followed by a period.

§ 117.755 [Amended]

26. In § 117.755(a)(1) by removing all language after the word "upon" and inserting in its place the word "signal" followed by a period.

§ 117.765 [Amended]

27. In § 117.765(a)(4) by removing the words "(paragraphs (a)(2)(ii), (2)(iv), (3)(ii), and (3)(iv) of this section)."

§ 117.801 [Amended]

28. In § 117.801(c) by removing the last sentence.

§ 117.805 [Amended]

29. In § 117.805(b)(1)(i) by capitalizing the first letter of the word "distinctive" and removing all preceding language in the paragraph.

(33 U.S.C. 499, 49 U.S.C. 1655(g)(2): 49 CFR 1.46(c)(5))

Dated: September 17, 1981.

Peter J. Rots,

Captain, U.S. Coast Guard, Acting Chief, Office of Navigation.

BILLING CODE 4910-14-M

LIBRARY OF CONGRESS

Copyright Office

37 CFR Part 202

[Docket RM 77-17A]

Registration of Claims to Renewal of Copyright

AGENCY: Copyright Office, Library of Congress.

ACTION: Final rule.

SUMMARY: The Copyright Office of the Library of Congress is adopting a final rule with respect to renewal registration practices and procedures under section 304(a) of the Copyright Act of 1976, title 17 of the United States Code. That section pertains to claims to renewal copyright in works for which first term copyright subsisted on January 1, 1978. The effect of the proposed regulation is to prescribe conditions for the registration of such claims to renewal copyright.

EFFECTIVE DATE: December 3, 1981.

FOR FURTHER INFORMATION CONTACT: Dorothy Schrader, General Counsel, Copyright Office, Library of Congress, Washington, D.C. 20559, (202) 287-8380.

On October 6, 1981, there was published in the **Federal Register** (46 FR 49145) a notice of a proposed rule governing registration of claims to renewal copyright under section 304(a) of the Copyright Act of 1976, title 17 of the United States Code. Interested persons were given 30 days in which to comment on the proposed rule.

One comment letter was received, which opposed adoption of that portion of the proposed rule governing renewal registration for works eligible for United States copyright under the Universal Copyright Convention (U.C.C.), as implemented in title 17 of the United States Code in effect on December 31, 1977. Specifically, the comment suggested that original term registration should be required for U.C.C. works as a condition for securing renewal term registration. The comment also objected to the provision for renewal registration for U.C.C. works without deposit of a complete copy, under certain circumstances.

The Copyright Office agrees that original term registration could be required for U.C.C. works, consistent with our U.C.C. obligations, as a condition precedent for renewal registration (not, of course, as a condition of protection for the original term itself). However, a comment submitted during an earlier phase of this rulemaking proceeding (**Federal Register** notice of January 5, 1978, 43 FR 964; see the discussion of this point at 46 FR 49146) argued that original term registration should not be required of *any* renewal claimant. While the Copyright Office rejected and continues to reject that contention, we concluded that some accommodation for U.C.C. works would be appropriate in view of the history and spirit of the U.C.C. and the unfamiliarity of foreigners with our registration requirements.

The Copyright Office notes that the proposed rule clearly requires deposit of one complete copy, if available, to accompany a renewal claim for a U.C.C. work not registered for the original term. It is only if the deposit copy is *unavailable* that resort can be had to alternative forms of submission to substantiate the existence of the copyright. Rather than deal with such cases under the special relief provision of 37 CFR 202.20(d), the Office has proposed a specific rule as part of this renewal registration regulation. It is anticipated that the provision for alternative forms of submission will be invoked rarely.

The comment also suggested that the Office provide by regulation for acceptance of renewal applications by hand-delivery until twelve midnight on December 31. The Office in fact does make special arrangements for Library of Congress special police to accept renewal applications until midnight on December 31. However, these arrangements require the cooperation of staff not under the control of the Copyright Office, and we have decided not to specify such arrangements in a Copyright Office regulation.

Accordingly, the proposed rule is hereby adopted without change and is set forth below.

(17 U.S.C. 304, 205, 702, and 708)

Dated: November 16, 1981.

David Ladd,

Register of Copyrights.

Approved:

Daniel J. Boorstin,

The Librarian of Congess.

PART 202—REGISTRATION OF CLAIMS TO COPYRIGHT

Part 202 of 37 CFR, Chapter II, is amended by revising 202.17 to read as follows:

§ 202.17 Renewals.

(a) *General.* This section prescribes rules pertaining to the application for renewal copyright under section 304(a) of title 17 of the United States Code, as amended by Pub. L. 94-553.

(b) *Definition.* For purposes of this section, the term "posthumous work" means a work that was unpublished on the date of the death of the author and with respect to which no copyright assignment or other contract for exploitation of the work occurred during the author's lifetime.

(c) *Renewal Time-Limits.* (1) For works originally copyrighted between January 1, 1950 and December 31, 1977, claims to renewal copyright must be registered within the last year of the original copyright term, which begins on December 31 of the 27th year of the copyright, and runs through December 31, of the 28th year of the copyright. The original copyright term for a published work is computed from the date of first publication; the term for a work originally registered in unpublished form is computed from the date of registration in the Copyright Office. Unless the required applicaton and fee are received in the Copyright Office during the prescribed period before the first term of copyright expires, the copyright in the unrenewed work terminates at the expiration of twenty-eight years from the end of the calendar year in which copyright was originally secured. The Copyright Office has no discretion to extend the renewal time limits.

(2) The provisions of paragraph (c)(1) of this section are subject to the following qualification: In any case where the year date in the notice on copies distributed by authority of the copyright owner is earlier than the year of first publication, claims to renewal copyright must be registered within the last year of the original copyright term, which begins on December 31 of the 27th year from the year contained in the notice, and runs through December 31 of the 28th year from the year contained in the notice.

(3) Whenever a renewal applicant has cause to believe that a formal application for renewal (Form RE), and in the case of works under paragraph (d)(2) of this section, an accompanying affidavit and submission relating to the subsistence of first-term copyright, if sent to the Copyright Office by mail, might not be received in the Copyright Office before expiration of the time limits provided by 17 U.S.C., section 304(a), he or she may apply for renewal registration by telegraphic or similar unsigned written communication. An application made by this method only will be accepted if: (i) The message is received in the Copyright Office within the specified time limits; (ii) the applicant adequately identifies the work involved, the date of first publication or original registration, the name and address of the renewal claimant, and the statutory basis of the renewal claim; (iii) the fee for renewal registration, if not already on deposit, is received in the Copyright Office before the time for renewal registration has expired; and (iv) a formal application for renewal (Form RE), and in the case of works under paragraph (d)(2) of this section, an accompanying affidavit and submission relating to subsistence of the first-term copyright are also received in the Copyright Office before February 1 of the following year.

(d) *Original Registration.* (1) Except as provided by paragraph (d)(2) of this section, copyright in a work will not be registered for a renewal term unless an original registration for the work has been made in the Copyright Office.

(2) An original registration in the Copyright Office is not a condition precedent for renewal registration in the case of a work in which United States copyright subsists by virtue of section 9(c) of title 17 of the United States Code, in effect on December 31, 1977 (which implemented the Universal Copyright Convention) provided, however, that the application for renewal registration is accompanied by:

(i) An affidavit identified as "Renewal Affidavit for a U.C.C. Work" and containing the following information:

(A) The date of first publication of the work;

(B) The place of first publication of the work;

(C) The citizenship of the author on the date of first publication of the work;

(D) The domicile of the author on the date of first publicaton of the work;

(E) An averment that, at the time of first publication, all the copies of the work published under the authority of the author or other copyright proprietor bore the symbol c accompanied by the name of the copyright proprietor and the year of first publication, and that United States copyright subsists in the work;

(F) The handwritten signature of the renewal claimant or the duly authorized agent of the renewal claimant. The signature shall (*1*) be accompanied by the printed or typewritten name of the person signing the affidavit and by the date of the signature; and (*2*) shall be immediately preceded by the following printed or typewritten statement in accordance with section 1746 of title 28 of the United States Code: I certify under penalty of perjury under the laws of the United States of America that the foregoing is true and correct.

(ii) A submission relating to the notice of copyright and copyrightable content which shall be, in descending order of preference, comprised of:

(A) One complete copy of the work as first published; or

(B) (*1*) A photocopy of the title page of the work as first published, and

(*2*) A photocopy of the page of the work as first published bearing the copyright notice, and

(*3*) A specification as to the location, relative to each other, of the title and notice pages of the work as first published, if the pages are different, and

(*4*) A brief description of the copyrightable content of the work, and

(*5*) An explanation of the inability to submit one complete copy of the work as first published; or

(C) A statement describing the position and contents of the copyright notice as it appeared on the work as first published, and a brief description of the copyrightable content. The statement shall be made and signed in accordance with paragraph (d)(2)(i)(F) of this section and shall also include an explanation of the inability to submit either one complete copy of the work as first published or photocopies of the title and notice pages of the work as first published.

(e) *Application for Renewal Registration.* (1) Each application for renewal registration submitted on or after January 1, 1978 shall be furnished on Form RE. Copies of Form RE are available free upon request to the Public Information Office, United States Copyright Office, Library of Congress, Washington, D.C. 20559.

(2) (i) An application for renewal registration may be submitted by any eligible renewal claimant as specified in paragraph (f) of this section or by the duly authorized agent of any such claimant.

(ii) An application for renewal registration shall be accompanied by a fee of $6. The application shall contain the information required by the form and its accompanying instructions, and shall include a certification. The certification shall consist of: (A) A designation of whether the applicant is the renewal claimant, or the duly authorized agent of such claimant (whose identity shall also be given); (B) the handwritten signature of such claimant or agent, accompanied by the typewritten or printed name of that person; (C) a declaration that the statements made in the application are correct to the best of that person's knowledge; and (D) the date of certification.

(iii) In the case of an application for renewal registration for a foreign work protected under the U.C.C. which has not been the subject of an original copyright registration, the application shall be accompanied by a "Renewal Affidavit for a U.C.C. Work" and a submission relating to the notice of copyright and the copyrightable content in accordance with paragraph (d)(2) of this section.

(3) Once a renewal registration has been made, the Copyright Office will not accept a duplicate application for renewal registration on behalf of the same renewal claimant.

(f) *Renewal Claimants.* (1) Except as otherwise provided by paragraphs (f)(2) and (3) of this section, renewal claims may be registered only in the name(s) of the eligible person(s) falling within one of the following classes of renewal claimants specified in section 304(a) of the copyright law. If the work was a new version of a previous work, renewal may be claimed only in the new matter.

(i) In the case of any posthumous work or of any periodical, cyclopedic, or other composite work upon which the copyright was originally secured by the proprietor thereof, the renewal claim may be registered in the name of the proprietor;

(ii) In the case of any work copyrighted by a corporate body (otherwise than as assignees or licensees of the individual author) or by an employer for whom such work is made for hire, the renewal claim may be

V 46 / 232 DE 3 81 UMI

registered in the name of the proprietor; and

(iii) In the case of any other copyrighted work, including a contribution by an individual author to a periodical or to a cyclopedic or other composite work, the renewal claim may be registered in the name(s) of the following person(s) in descending order of eligibility:

(A) the author of the work, if still living;

(B) the widow, widower, or children of the author, if the author is not living;

(C) the author's executors, if there is a will and neither the author nor any widow, widower, or child of the author is living;

(D) the author's next of kin, in the absence of a will and if neither the author nor any widow, widower, or child of the author is living.

(2) The provisions of paragraph (f)(1) are subject to the following qualification: Notwithstanding the definition of "posthumous work" in paragraph (b) of this section, a renewal claim may be registered in the name of the proprietor of the work, as well as in the name of the appropriate claimant under paragraph (f)(1)(iii), in any case where a contract for exploitation of the work but no copyright assignment in the work has occurred during the author's lifetime. However, registration by the Copyright Office in this case should not be interpreted as evidencing the validity of the claim.

(3) The provisions of paragraphs (f)(1)(iii)(C) and (D) of this section are subject to the following qualifications:

(i) In any case where: (A) the author has left a will which names no executor; (B) the author has left a will which names an executor who cannot or will not serve in that capacity; or (C) the author has left a will which names an executor who has been discharged upon settlement of the estate or removed before the estate has been completely administered, the renewal claim may be registered either in the name of an administrator cum testamento annexo (administrator c.t.a.) or an administrator de bonis non cum testamento annexo (administrator d.b.n.c.t.a.) so appointed by a court of competent jurisdiction;

(ii) In any case described in paragraph (f)(3)(i) of this section, except in the case where the author has left a will without naming an executor and a court appointed administrator c.t.a. or administrator d.b.n.c.t.a. is in existence at the time of renewal registration, the renewal claim also may be registered in the name of the author's next of kin. However, registration by the Copyright Office of the conflicting renewal claims in these cases should not be interpreted as evidencing the validity of either claim.

BILLING CODE 1410-03-M

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[A-5-FRL 1969-5]

State and Federal Administrative Orders Revising Michigan State Implementation Plan

AGENCY: U.S. Environmental Protection Agency.

ACTION: Notice of final rulemaking.

SUMMARY: The U.S. Environmental Protection Agency (EPA) approves the Michigan Air Pollution Control Commission's (Commission) request for a revision to the Michigan State Implementation Plan (SIP). The revision is contained in a Final Order issued by the Commission replacing the federally approved Final Order (APC No. 08-1979) for the Dundee Cement Company.

On August 11, 1980 (45 FR 53137), EPA approved a site-specific revision to Michigan's SIP for Total Suspended Particulates (TSP) for the Dundee Cement Company (Company) in Monroe County, Michigan. On January 14, 1981, the Michigan Department of Natural Resources (MDNR) submitted a new Stipulation for Entry of Consent Order and Final Order, APC No. 16-1980. The new Order replaces the previous order's compliance date of December 31, 1983 with earlier final compliance dates of December 31, 1980 for reducing the particulate matter emissions to 0.20 pounds per 1,000 pounds of exhaust gases and December 31, 1981 for visible emission reductions from the Company's cement kilns. The purpose of today's rulemaking is to announce approval of the new order providing an earlier compliance schedule. This action will be effective on February 1, 1982, unless notice is received within 30 days that someone wishes to submit critical or adverse comments.

DATE: This action is effective February 1, 1982.

ADDRESSES: Copies of the SIP revision available for review at the following places.

U.S. Environmental Protection Agency, Region V, Air Programs Branch, 230 South Dearborn Street, Chicago, Illinois 60604

Environmental Protection Agency, Public Information Reference Unit, 401 M Street, S.W., Washington, D.C. 20460

Michigan Department of Natural Resources, Air Quality Division, State Secondary Government Complex, General Office Building, 7150 Harris Drive, Lansing, Michigan 48917.

Written comments on this action should be sent to: Gary Gulezian, Chief, Regulatory Analysis Section, Air Programs Branch, Region V, U.S. Environmental Protection Agency, 230 South Dearborn Street, Chicago, Illinois 60604.

FOR FURTHER INFORMATION CONTACT: Toni Lesser, Regulatory Analysis Section, Air Programs Branch, Region 5, U.S. Environmental Protection Agency, 230 South Dearborn Street, Chicago, Illinois 60604 (312) 886-6037).

SUPPLEMENTARY INFORMATION: The Dundee Cement plant is located on Day Road, Monroe County, in a designated attainment area for TSP (45 FR 45993). The nearest primary particulate nonattainment areas are approximately 35 km northeast and south of the plant, with the closet secondary particulate nonattainment area being approximately 6 km east.

The new order APC No. 16-1980, replaces APC No. 08-1979, the Previous Stipulation for Entry of Consent Order and Final Order, and changes Paragraphs 4, 6, 8, 9, 10, 11, and 12.

The Commission's Rules R 336.1301 and R 336.1331 set forth the visible particulate matter emission limitations for cement kilns in the State of Michigan. The new order, paragraph 5(h), states that after December 31, 1980, particulate matter emissions from the Company's two cement kilns shall not exceed 0.20 pounds per 1,000 pounds of exhaust gases. Paragraph 5(i) of the order provides that after December 31, 1981 visible emissions (excluding water vapor) from the Company's cement kilns shall not exceed 20 percent opacity except that visible emissions of not more than 40 percent opacity (excluding water vapor) are allowed for not more than three minutes in any 60-minute period, but such emissions shall not be allowed on more than three occasions during any 24-hour period. The revision does not relax the TSP emission limits, or opacity requirements of Michigan's federally approved SIP as established by the requirements of APC 08-1979.

EPA takes action today to approve APC No. 16-1980, as a revision to the Michigan SIP. EPA believes that this action is a noncontroversial rulemaking, since the new order requires earlier compliance with Michigan's TSP mass emission and opacity SIP requirements

than the previous order and provides for attainment and maintenance of the TSP National Ambient Air Quality Standards.

This action will be effective 60 days from the date of this Federal Register notice. However, if EPA is notified within 30 days that someone wishes to submit adverse or critical comments, this action will be withdrawn and a new rulemaking will propose this action and establish a comment period.

Pursuant to the provisions of 5 U.S.C. 605(b), the Administrator certified on January 27, 1981, (46 FR 8709) that approvals or conditional approvals of SIPs under Sections 110 and 172 of the Clean Air Act and revisions of attainment status designations under Section 107(d) would not, if promulgated, have a significant economic impact on a substantial number of small entities. Today's action approves an action submitted pursuant to the provisions of Section 110 of the Act. It imposes no new requirements beyond those which the State has already imposed.

Under Executive Order 12291, (46 FR 13193) EPA must also judge whether a regulation is "major" and therefore subject to the requirements of a Regulatory Impact Analysis. Today's action does not constitute a major regulation since it merely approves a State action for one source. This regulation was submitted to the Office of Management and Budget (OMB) for review as required by Executive Order 12291.

Under Section 307(b)(1) of the Clean Air Act, judicial review of this action is available only by the filing of a petition for review in the United States Court of Appeals for the appropriate circuit within 60 days of (date of publication). Under Section 307(b)(2) of the Clean Air Act, the requirements which are the subject of today's notice may not be challenged later in civil or criminal proceeding brought by EPA to enforce these requirements.

(Sec. 110, Clean Air Act (42 U.S.C. Section 7410))

Dated: November 19, 1981.

Anne M. Gorsuch,

Administrator.

Part 52 of Chapter 1, Title 40 Code of Federal Regulations is amended as follows:

PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

Subpart X—Michigan

Section 52.1170 is amended by adding paragraph (c)(40) as follows:

§ 52.1170 Identification of plan.

* * * * *

(c) * * *

(40) Revised compliance schedules were submitted by the State of Michigan, Department of Natural Resources (MDNR) to EPA on January 14, 1981, for the Dundee Cement Company, Monroe County (Michigan Final Order, APC No. 16—1980, adopted November 19, 1980). The revised Order provides an earlier final compliance date of December 31, 1980 for reducing the particulate matter emissions to 0.20 pounds per 1,000 pounds of exhaust gases and December 31, 1981 for visible emission reductions from the Company's cement kilns.

* * * * *

2. In § 52.1175(e), the entry in the table for "Dundee Cement Company" is revised to read as follows:

§ 52.1175 Compliance schedules.

BILLING CODE 6560-38-M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Public Health Service

42 CFR Part 52

Grants to for-Profit Organizations; Implementing Amendments

AGENCY: Public Health Service, HHS.

ACTION: Final rule.

SUMMARY: This issuance amends 42 CFR Part 52 applicable to grants made for research projects under sections 301 and 356 of the Public Health Service Act to delete the prohibition on eligibility for research awards to entities that are organized or operated for profit. Elsewhere in this issue of the Federal Register is a final rule which, among other things, amends 42 CFR Part 87 to allow for-profit organizations to apply for health research and demonstration grants under section 20 of the Occupational Safety and Health Act and section 501 of the Federal Mine Safety and Health Act.

EFFECTIVE DATE: January 4, 1982.

FOR FURTHER INFORMATION CONTACT: Mr. Thomas D. Shoe, Director, Division of Grants and Contracts, Office of Resource Management, OM, Room 18A-19, Parklawn Building, 5600 Fishers Lane, Rockville, Maryland 20857, Telephone (301-443-6630).

SUPPLEMENTARY INFORMATION: On February 28, 1980 the Public Health Service (PHS) published in the Federal Register (45 FR 13200) a notice inviting public comment on whether to change the PHS policy which precluded organizations operated for profit from applying for and receiving financial assistance awards (grants and cooperative agreements) for research activities under the following authorities: sections 301, 340, 356, and 404 of the PHS Act (42 U.S.C. 241, 256, 263d, and 285), section 20 of the Occupational Safety and Health Act (29 U.S.C. 669), and section 501 of the Federal Mine Safety and Health Act (30 U.S.C. 951).

After consideration of all comments received, the PHS published a notice in the Federal Register of April 6, 1981 (46 FR 20603) that eligibility would be extended to for-profit organizations, but that this eligibility would not become effective until existing regulations precluding awards to for-profit organizations were amended. This notice also prescribed special conditions under which assistance awards would be made to for-profit organizations. In terms of public reaction to the special conditions, the only concern related to the proposed rights-in-data requirement from the standpoint of the Government's access to data developed under an award. Upon further consideration, the Secretary has determined that for-profit organizations will be subject to the same administrative policies on this issue that are currently applicable to nonprofit institutions—as set forth in 45 CFR Part 74, Administration of Grants.

Except for rights-in-data, the remaining special conditions from the April 6 notice are now being proposed for use throughout HHS and will be included in an NPRM amending 45 CFR Part 74.

Until such time as 45 CFR Part 74 is amended, the remaining conditions in the April 6 notice, repeated below, will be applied to individual award notices. Office of Management and Budget Circular FMC 73–3 (A–100) Cost Sharing on Federal Research has been rescinded; therefore, reference to it has been deleted from the cost sharing condition. However, the legal requirement for cost sharing remains in the Department's appropriation act.

For-profit organizations will be subject to the same administrative requirements currently applicable to nonprofit institutions, with five exceptions. They are described briefly below. A more complete explanation of these exceptions and their effects is contained in a Notice of Proposed Rulemaking published elsewhere in this issue of the **Federal Register**.

a. *Cost Principles*—There are no cost principles applicable to for-profit organizations receiving financial assistance awards. Therefore, the cost principles for Contracts with Commercial Organizations set forth in 41 CFR Subpart 1–15.2 will be used. PHS has elected the option provided in 41 CFR Subpart 1–15.102 of not authorizing independent research and development costs. For hospitals, cost principles referenced in 45 CFR 74.173 will apply.

b. *Property*—Title to real property, equipment, and supplies acquired by a for-profit recipient under a financial assistance award or subaward shall vest upon acquisition in the Federal Government. The transfer, sale or other disposition of the property will be determined by the awarding office. Recipients will also be required to comply with the equipment management requirements of § 74.140 of Subpart O of 45 CFR Part 74.

c. *Cost Sharing*—The legal requirements for cost sharing will be met through separate cost sharing agreements negotiated for each research project. Cost sharing amounts will be determined in accordance with Department of Health and Human Services policy.

d. *Patents and Inventions*—The requirements set forth in 45 CFR Parts 6 and 8 as implemented by PHS govern the development and reporting of patents and inventions. Disposition of royalties or equivalent income earned on patents and inventions arising out of activities developed under financial assistance awards or subawards shall be governed by determinations made or agreements entered into under 45 CFR Parts 6 and 8 on a case-by-case basis only.

e. *General Program Income*—The additional costs alternative described in 45 CFR 74.42(e) is not an allowable alternative.

Amendments to the affected regulations are described briefly as follows:

Part 52 of Title 42, Code of Federal Regulations, which implements sections 301 and 356 of the PHS Act, is amended to remove the prohibition in § 52.3 that excepts for-profit organizations from eligibility for grant awards. In addition, in view of the promulgation of Department-wide regulations governing debarment and suspension (45 CFR Part 76), a pre-existing provision dealing with disqualification of more limited scope has been deleted from § 52.3.

Section 340 of the PHS Act does not have implementing regulations to amend. Legislative authority for this section has been extended for one year, to expire September 30, 1982. Applicant eligibility will be provided for when regulations are published.

Section 404 of the PHS Act does not have implementing regulations for the research listed under this authority and no research awards are made that use this authority. Unless and until such time as implementing regulations for research are issued for section 404, applicant eligibility is not an issue.

Elsewhere in this issue of the **Federal Register** is a final rule which, among other things, amends 42 CFR Part 87 to allow for-profit organizations to apply for health research and demonstration grants under section 20 of the Occupational Safety and Health Act and section 501 of the Federal Mine Safety and Health Act.

Because both the number of small businesses able to take advantage of this new eligibility and the impact on existing grantees are likely to be small, the Department of Health and Human Services has determined that this final rule will not significantly impact a substantial number of small entities and therefore does not require preparation of a regulatory flexibility analysis under the Regulatory Flexibility Act.

The Department has also determined that this final rule is not a "major rule" under Executive Order 12291, because it will not have an annual effect on the economy of $100 million or more, result in significant adverse effects in competition, or otherwise meet the thresholds established in the Executive Order. Therefore, preparation of a regulatory impact analysis is not required.

Accordingly, Title 42 of the Code of Federal Regulations is amended as set forth below:

Dated: October 5, 1981.

Edward N. Brandt, Jr.,

Assistant Secretary for Health.

Approved: November 10, 1981.

Richard S. Schweiker,

Secretary.

PART 52—GRANTS FOR RESEARCH PROJECTS

Section 52.3 is amended by revising the introductory text of paragraph (a), (a)(1), and (a)(2) to read as follows:

§ 52.3 Who is eligible to apply for a grant?

(a) *Persons eligible.* Any individual, corporation, public or private institution or agency, or other legal entity shall be eligible for a grant award except:

(1) An individual or entity which is otherwise ineligible for an award under applicable law or regulation, and

(2) Federal agencies or institutions unless specifically authorized by law to receive the grant.

(Sec. 215, 58 Stat. 690, as amended, 63 Stat. 835 (42 U.S.C. 216))

[FR Doc. 81–34718 Filed 12–2–81; 8:45 am]

BILLING CODE 4160–17–M

Centers for Disease Control

42 CFR Parts 55, 86, and 87

National Institute for Occupational Safety and Health; Revision of Grant Regulations

AGENCY: National Institute for Occupational Safety and Health (NIOSH), Centers for Disease Control, Public Health Service, HHS.

ACTION: Final rule.

SUMMARY: This rule (1) revises the research and demonstration grant regulations of NIOSH to conform them to HHS's general grants administration regulation (45 CFR Part 74), and (2) implements NIOSH's authority to award grants for health research in all types of mining. This rule also reflects the Secretary's decision to change the policy which precluded organizations operated for profit from applying for and receiving PHS grants. This particular amendment is published elsewhere in this issue of the **Federal Register** along with similar amendments to various other parts of Title 42. Editorial changes have been made to delete duplicative administrative provisions and to consolidate NIOSH research and

demonstration project grant regulations into a single regulation. This rule is part of HHS's commitment to reduce the size of its program grant regulations and to bring about greater uniformity in the rules that govern the rights and obligations of the HHS granting agencies and their grantees.

DATE: Effective date: January 4, 1982.

FOR FURTHER INFORMATION CONTACT: Mr. Roger A. Nelson, Grants Administration and Review Branch, NIOSH, Rockville, MD 20857. Phone: (301) 443–4493.

SUPPLEMENTARY INFORMATION: On August 2, 1978 (43 FR 34076), HHS revised its general grants administration regulation (45 CFR Part 74) to provide uniform basic administrative provisions for virtually all HHS grants. Since that time, the Department has been systematically purging its program grant regulations of provisions that duplicate or conflict with 45 CFR Part 74. On March 13, 1980 (45 FR 16209), NIOSH proposed to revise the grant regulations affecting its programs as follows:

1. *42 CFR Part 55, Grants for Advancement of Health in Coal Mining*—NIOSH proposed to revoke Part 55 and combine the provisions pertaining to grants for health research in coal mining with the provisions of 42 CFR Part 87 (see below).

2. *42 CFR Part 86, Grants for Education Programs in Occupational Safety and Health*—All provisions that duplicate or conflict with 45 CFR Part 74 were deleted. The provisions pertaining to grantee eligibility, applications, program requirements, evaluation criteria, restrictions on use of grant funds, and applicable regulations were rewritten in updated language and standardized format.

3. *42 CFR Part 87, Grants for Research and Demonstrations Relating to Occupational Safety and Health*—The provisions in Part 87 pertaining to grantee eligibility, applications, program requirements, evaluation criteria, restrictions on use of grant funds, and applicable regulations were combined with those similar provisions from Part 55 in a revised Part 87 entitled "National Institute for Occupational Safety and Health Research and Demonstration Grants." In addition, provisions for awarding grants for health research in all types of mining were included. All provisions that duplicate or conflict with 45 CFR Part 74 were deleted.

A 45-day period was provided for the public to comment on the proposal, and no comments were received. The revisions to Parts 55 and 87 are being adopted as proposed with minor editorial changes for clarification. The reporting requirements contained in these parts have been reviewed and approved by the Office of Management and Budget (OMB Approval No. 0925–0001). This program is not subject to OMB Circular A–95 (revised) nor Health Systems Agency review.

It has been determined that the training grant application requirements as proposed in Part 86 would require approval by the Office of Management and Budget (OMB). In addition, NIOSH recently reported on the effectiveness of its Educational Resource Center (ERC) grant program. Evaluation findings indicate that modifications to the structure of the ERC program are needed. However, any modifications and subsequent OMB clearances must await evaluation of the NIOSH report. Therefore, the revisions proposed to 42 CFR Part 86 on March 13, 1980 (45 FR 6209), are not being adopted at this time.

The Department of Health and Human Services has determined that this document will not significantly impact on small entities and therefore does not require preparation of a Regulatory Flexibility Analysis under the Regulatory Flexibility Act, Pub. L. 96–354.

PART 55 [Removed]

Accordingly, Part 55 of Title 42, Code of Federal Regulations, is hereby removed, and Part 87 of Title 42 is retitled and revised as set forth below:

(Catalog of Federal Domestic Assistance Program No. 13.282, Occupational Safety and Health Research Grants)

Dated: June 30, 1981.

Edward N. Brandt, Jr.,

Assistant Secretary for Health.

Approved: November 10, 1981.

Richard S. Schweiker,

Secretary.

PART 87—NATIONAL INSTITUTE FOR OCCUPATIONAL SAFETY AND HEALTH RESEARCH AND DEMONSTRATION GRANTS

Sec.

87.1 To which programs does this regulation apply?
87.2 Definitions.
87.3 Who is eligible to apply for a grant under this part?
87.4 For what purposes may grants be awarded?
87.5 What information must be included in the grant application?
87.6 How will grant applications be evaluated and the grants awarded?
87.7 For what period of time will grants be awarded?
87.8 How may a grantee use grant funds?
87.9 Which other HHS regulations apply?

Authority: Sec. 8(g), 84 Stat. 1600 (29 U.S.C. 657(g)), sec. 508, 83 Stat. 803 (30 U.S.C. 957).

§ 87.1 To which programs does this regulation apply?

This regulation applies to research and demonstration project grants under: (a) Section 20(a)(1) of the Occupational Safety and Health Act of 1970 (29 U.S.C. 669(a)(1)) for the support of studies related to occupational safety and health, and (b) section 501 of the Federal Mine Safety and Health Act of 1977 (30 U.S.C. 951) for the support of health research in mining. These grants are awarded and administered by the National Institute for Occupational Safety and Health, Centers for Disease Control, of the Public Health Service.

§ 87.2 Definitions.

As used in this regulation:

"Demonstration project grant" means an award of funds to an eligible applicant to assist in meeting the cost of conducting a demonstration, either on a pilot or full-scale basis, of the technical or economic feasibility or application of a new or improved procedure, method, technique, or approach that will further the research purposes described in § 87.4.

"Principal investigator" for a research project, or "project director" for a demonstration project, means a single individual who is responsible for the scientific and technical direction of the project.

"Research project grant" means an award of funds to an eligible applicant to assist in meeting the costs of conducting an identified research activity or program, study, or experiment that will further the research purposes described in § 87.4.

"Secretary" means the Secretary of Health and Human Services and any other officer or employee of the Department of Health and Human Services to whom the authority involved has been delegated.

§ 87.3 Who is eligible to apply for a grant under this part?

Any public or private agency or institution is eligible to apply for a grant under this part, except Federal agencies or institutions not specifically authorized by law to receive such a grant.

§ 87.4 For what purposes may grants be awarded?

(a) The Occupational Safety and Health Act authorizes grants for research, experiments, and demonstrations relating to occupational safety and health, including studies of the psychological factors involved. This authority includes projects to develop innovative methods, techniques, and approaches for dealing with

occupational safety and health problems.

(b) The Federal Mine Safety and Health Act authorizes grants for research projects designed to:

(1) Improve working conditions and practices affecting health in coal or other mines and to prevent occupational diseases originating in the mining industry.

(2) Develop epidemiological information to (i) identify and define positive factors involved in occupational diseases of miners, (ii) provide information on the incidence and prevalence of pneumoconiosis and other respiratory ailments of miners, and (iii) improve health standards.

(3) Develop techniques for the prevention and control of occupational diseases of miners, including tests for hypersusceptibility and early detection.

(4) Evaluate the effect on bodily impairment and occupational disability of miners afflicted with an occupational disease.

(5) Study the relationship between coal or other mine environments and occupational diseases of miners.

(6) Study matters involving the protection of life and the prevention of diseases in connection with persons who, although not miners, work with or around the products of coal or other mines in areas outside of such mines and under conditions which may adversely affect the health and well-being of such persons.

(7) Develop effective respiratory equipment.

§ 87.5 What information must be included in the grant application?

The application must contain a complete description of the objective of the project and the plan for carrying out the research or demonstration, the name and qualifications of the principal investigator or project director and principal staff members, the total resources and facilities that will be available, and a justification of the amount of grant funds requested.

§ 87.6 How will grant applications be evaluated and the grants awarded?

(a) The Secretary may award grants to those applicants whose approved projects will best promote the purposes of either the Occupational Safety and Health Act or the Federal Mine Safety and Health Act on the basis of an evaluation conducted by experts or consultants engaged for this purpose.

(b) This evaluation will take into account the scientific merit and significance of the project, the competency of the proposed staff in relation to the type of research or demonstration involved, the feasibility of the project, the likelihood of its producing meaningful results, the proposed project period, the adequacy of the applicant's resources available for the project, the amount of grant funds necessary for completion, and for mining grant applications, the recommendations of the Mine Health Research Advisory Committee.

(c) The Secretary may evaluate and approve two or more concurrent applications, each dealing with one or more specified aspects of the project, and make two or more concurrent grant awards for the project. This may be necessary when a project involves a number of different but related problems, activities, or disciplines which would require evaluation by different groups, or when support for a project could be more effectively administered by separate handling of various aspects of the project.

§ 87.7 For what period of time will grants be awarded?

(a) The notice of grant award specifies how long the Secretary intends to support the project without requiring the project to recompete for funds. This period, called the project period, will usually be for 3–5 years.

(b) Generally, the grant will initially be for 1 year and subsequent continuation awards will also be for 1 year at a time. A grantee must submit a separate application to have the support continued for each subsequent year. Decisions regarding continuation awards and the funding level of such awards will be of such factors as the grantee's progress and management practices, and the availability of funds. In all cases, continuation awards require a determination by the Secretary that continued funding is in the best interest of the Federal Government.

(c) Neither the approval of any application, nor the award of any grant commits or obligates the Federal Government in any way to make any additional, supplemental, continuation, or other award with respect to any approved application or portion of an approved application.

§ 87.8 How may a grantee use grant funds?

A grantee shall only spend funds it receives under this part according to the approved application and budget, the authorizing legislation, the terms and conditions of the grant award, the applicable cost principles specified in Subpart Q of 45 CFR Part 74, and the regulations of this part.

§ 87.9 Which other HHS regulations apply?

Several other regulations apply to grants under this part. These include, but are not limited to:

42 CFR Part 50—Subpart D—PHS grant appeals procedure.
45 CFR Part 16—Department grant appeals process.
45 CFR Part 46—Protection of human subjects.
45 CFR Part 74—Administration of grants.
45 CFR Part 75—Informal grant appeals procedures (indirect cost rates and other cost allocations).
45 CFR Part 80—Nondiscrimination under programs receiving Federal assistance through the Department of Health and Human Services—Effectuation of Title VI of the Civil Rights Act of 1964.
45 CFR Part 81—Practice and procedure for hearings under Part 80.
45 CFR Part 84—Nondiscrimination on the basis of handicap in federally assisted programs.
45 CFR Part 91 [1]—Nondiscrimination on the basis of age in programs or activities receiving Federal financial assistance from HHS.

BILLING CODE 4160-19-M

Health Care Financing Administration

42 CFR Part 447

Medicaid Program; Public Notice of Changes in Method or Level of Reimbursement

AGENCY: Health Care Financing Administration (HCFA), HHS.

ACTION: Interim final rule with comment period.

SUMMARY: Current regulations require that Medicaid State agencies give 60 days public notice of certain proposed changes in the Statewide method or level of reimbursement for Medicaid services. These amended rules eliminate reference to a set waiting period between the date of public notice and the proposed effective date of the change. In addition, the regulations clarify that the public notice provision applies only to significant changes in methods and standards for setting payment rates.

We expect this revision in the regulations will reduce the regulatory burden on the States and allow them greater flexibility in developing reimbursement methodologies and in adjusting reimbursement rates in response to changing fiscal situations. At the same time, it retains a public notice requirement to assure that

[1] Refer to 45 CFR Part 90 until Part 91 is issued.

interested parties are informed of Medicaid reimbursement changes.

EFFECTIVE DATE: December 3, 1981. Although these regulations are final, we will consider any written comments received by March 3, 1982 and will revise the regulations if necessary.

ADDRESS: Address comments in writing to: Administrator, Department of Health and Human Services, Health Care Financing Administration, P.O. Box 17076, Baltimore, Maryland 21235.

If you prefer, you may deliver your comments to Room 309–G Hubert H. Humphrey Building, 200 Independence Ave. SW., Washington, D.C., or to Room 789, East High Rise Building, 6325 Security Boulevard, Baltimore, Maryland.

In commenting, please refer to BPO–25–FC. Agencies and organizations are requested to submit comments in duplicate.

Comments will be available for public inspection, beginning approximately two weeks after publication, in Room 309–G of the Department's office at 200 Independence Ave., SW., Washington, D.C., 20201 on Monday through Friday of each week from 8:30 a.m. to 5:00 p.m. (202–245–7890).

FOR FURTHER INFORMATION CONTACT: William Hickman, 301–594–9101.

SUPPLEMENTARY INFORMATION:

I. Background

On April 6, 1979, we issued final regulations that require Medicaid agencies to give public notice at least 60 days before certain proposed changes in Medicaid reimbursement levels or methods are effective (see 44 FR 20693). These regulations are authorized under sections 1902(a)(4)(A) and 1902(a)(30) of the Social Security Act and are codified at 42 CFR 447.205.

The 60-day public notice is required for proposed reimbursement changes that:

1. Would either:

a. Affect the general method of payment to all providers of a particular service; or

b. Affect the level of payments for a particular service; for example, a change in the maximum allowable rate under a Statewide schedule of usual and customary charges due to an adjustment of the percentile ceiling; and

2. Would be projected to affect a State's Medicaid expenditures for a particular service by one percent or more during the 12 months following the effective date of change.

The notice must describe the change, give an estimate of the expected annual increase or decrease in expenditures, and explain why the agency is changing its reimbursement methodology or level. The location, date, and time of any public hearings must also be included. Public comments must be solicited and an address given where the comments may be viewed by the public. A local agency in each county must have a copy of the proposed change for public review.

The notice must be published by the Medicaid agency in a State register similar to the **Federal Register** or in the newspaper of widest circulation in each city with a population of 50,000 or more. If there is no city with a population of 50,000 or more, the notice must be published in the newspaper of widest circulation in the State. At the time of publication, the proposed change must be sent to the HCFA Regional office.

The current regulations were intended to help restrain the rapid increase in health care costs and to give the public an opportunity to comment on proposed changes in order to bring new ideas, concerns, and information to the attention of the State Medicaid agency.

II. Problems Identified Through Public Comments

When the current regulations were published as a notice of proposed rulemaking (NPRM) on May 12, 1978 (43 FR 20516), a majority of the States responded unfavorably. Their main concerns were that the 60-day public notice provision limits States' abilities to make timely changes, duplicates requirements of State administrative procedure acts, and is administratively burdensome.

The States believe that the current regulations are inflexible because they make no provision for legislatively mandated reimbursement changes that must be implemented immediately. Also, the States are unable to change rapidly their reimbursement levels in response to crises, thus causing budgetary complications.

Of the 34 States that commented on the NPRM, 26 stated that they already had procedures in place to notify the public of reimbursement changes. Often these procedures are codified in State administrative procedure acts. The requirements imposed by the 60-day public notice regulations are duplicative, overlapping, and sometimes in conflict with these State procedural requirements.

The States also cited the increased administrative costs associated with implementing these regulations. The detailed requirements (publication of the notice and analyzing and responding to public comments) may force States to hire additional professional and clerical staff. A further expense is the actual cost of preparing and publishing the public notice. The States also commented on how broadly the regulations are written, requiring the States to publish notices on a large number of routine reimbursement changes.

Several States contend that the regulations do not really help contain health care costs (the justification for the regulations). They suggest that no State operating under the tight fiscal constraints that exist today is interested in increasing unnecessarily Medicaid provider fees. In fact, the 60-day public notice requirement could very well promote increased Medicaid costs by delaying proposed reimbursement decreases and imposing unnecessary administrative costs.

We also received comments on the NPRM from providers, health care provider organizations, and beneficiary and welfare rights organizations. Many of the providers responded unfavorably because they believed the regulations impose a needless obstacle to increasing provider reimbursement rates. They contend that providers are rarely reimbursed the full amount of their costs and these regulations only delay much needed reimbursement increases.

On the other hand, health care provider organizations such as the American Medical Association and the American Hospital Association supported the regulations as giving a public forum for discussion of Medicaid reimbursement levels. In addition, beneficiary groups and welfare rights organizations favored the 60-day public notice provision because it allows Medicaid beneficiaries and their advocates a chance to comment on proposed reimbursement changes.

Decision To Proposed Revocation of the Current Regulations

These current regulations have been criticized by States as an example of Federal requirements that impose a regulatory burden on the States without a comparable return in the form of decreased health care costs. There is no statutory requirement that a 60-day public notice provision be imposed on the States. Therefore, in an NPRM published September 16, 1981 in the **Federal Register** (46 FR 45964), we proposed to delete these regulations. Generally, this action would not deprive the public of an opportunity for input into reimbursement decisions since more States have their own procedures in effect that allow for public participation. We expected that rescission of these regulations would ease the States' regulatory burden and

V 46 / 232 DEC 3 81 UMI

allow them the flexibility to respond timely to both legislative and fiscal mandates concerning Medicaid reimbursement levels.

III. Discussion of Public Comments

We received 149 comments from health care providers and provider organizations, Medicaid agencies, beneficiary organizations and legal services, health care consultants, Members of Congress, the State Medicaid Directors Association, and the National Governors Association. Approximately 20 commenters favored the proposed rescission while the remainder opposed the changes or suggested revision of the regulation instead of revocation. A discussion of the recommendations and comments follows.

1. *Comment:* Almost two-thirds of the commenters believed that revocation of the public notice regulations would deprive providers and beneficiaries of adequate notice of program changes and their right to comment on those changes. They are concerned that in this period of cutbacks and transition in State Medicaid programs, a safeguard is needed to ensure that proposed changes in Medicaid reimbursement methods are logical and carefully considered. Without the protection of the 60-day notice regulations, these commenters fear that State reimbursement decisions will be made with little or no input from those individuals and groups that are most affected by them.

Response: The large number of comments from providers and beneficiary groups indicates that there is serious concern about the future of State Medicaid programs in a period of fiscal crisis. The Omnibus Budget Reconciliation Act of 1981 (Pub. L. 97–35) imposes a Federal funding reduction on State Medicaid programs effective October 1, 1981. It also provides the States with additional flexibility, including flexibility in setting reimbursement methods, to enable them to modify their programs to be more cost effective.

Since publication of the NPRM proposing to rescind the 60-day notice regulations, we have published interim final regulations that implement the two recent statutory provisions that deal with increased State flexibility in setting reimbursement rates for long term care facility and inpatient hospital services (section 962 of the Omnibus Reconciliation Act of 1980 and section 2173 of the Omnibus Budget Reconciliation Act of 1981). A public notice provision was incorporated in these interim final regulations (46 FR 47972, September 30, 1981). Extending procedural protection to providers and beneficiaries is a method for ensuring that rate changes are fair and equitable and conform with statutory mandates. These mandates are that reimbursement rates must be reasonable and adequate to meet the costs that must be incurred by efficiently and economically operated facilities to provide care in conformity with Federal and State requirements and must assure reasonable beneficiary access to inpatient hospital services of adequate quality.

Since we do not believe that institutional and noninstitutional providers should be subject to differing public notice requirements, we have revised these regulations to conform with the interim final regulations pertaining to institutional providers, published on September 30, 1981 and codified at 42 CFR 447.254. This decision is based on the expectation that rates developed through a public process will represent an appropriate balance among provider concerns, beneficiary concerns, and State budget limitations. We are retaining a Federal rule to guarantee that rates will continue to be developed in a public process.

Significant changes in a State's methods and standards for setting payment rates for inpatient hospital and long term care facility services are governed by the requirements of 42 CFR 447.254. Changes in the methods and standards for all other services must meet the requirements of 42 CFR 447.205.

2. *Comment:* A few commenters suggested that the problems and complaints of States with regard to the 60-day public notice requirement could be overcome by revision of the regulations rather than by their removal.

Response: We agree with this comment and have revised the current regulations to allow States greater flexibility while retaining a public notice process. We have accomplished this by (1) eliminating reference to a set comment period; (2) clarifying that the rules apply only to significant changes in methods or standards for setting payment rates; and (3) eliminating a specific expenditure threshold above which public notice is required. These changes conform these regulations to those applicable to institutional providers, as mentioned above.

3. *Comment:* Many commenters opposed revocation of the 60-day notice regulations because they believe the 60-day waiting period allows providers an adequate transition period to plan effectively and make needed rate adjustments.

Response: We agree that a guaranteed two-month prior notice may be advantageous to providers in making financial plans. However, we do not think a set 60-day waiting period is a critical element of these regulations for several reasons. First, many States have their own procedures that allow for various other lengths of comment periods. The formal waiting periods contained in State procedural codes are sufficient to fulfill the intent of a public notice and comment regulation. Second, a set two-month waiting period for all reimbursement changes is too inflexible. It does not allow States to respond timely to legislatively mandated changes. Changes that are a direct result of legislative action have already gone through a public process and should not need a further prolonged notice period before finalization. We believe that specifying that a public notice must appear before the effective date of the proposed changes, without prescribing a definite comment period, is an adequate Federal requirement.

4. *Comment:* Several commenters complained that State administrative procedures are inadequate to protect the public comment process and are sometimes ignored or bypassed by Medicaid agencies.

Response: In this interim final rule, we have retained a Federal public notice requirement applicable to all States. We share the concern of commenters that State reimbursement decisions continue to be made through a public process.

5. *Comment:* A large number of commenters protested the 15-day comment period of the NPRM. They complained that such a short period of time was inadequate to permit interested parties to develop, present, and transmit their views. Several commenters requested that the comment period be extended.

Response: Although the NPRM stated that comments should be received by September 30, 1981 to assure consideration, we continued to entertain and weigh comments beyond that date. In fact, we received a substantial volume of the public comments discussed in this document after September 30. Because we realize there is considerable interest in these regulations, we are publishing an interim final rule with comment period on this subject. This will allow the public another opportunity to comment on these regulations and give us the flexibility to revise the rule further if necessary. We do not believe that extension of the NPRM comment period is in the public interest. Such an extension would delay the date on which States would know with certainty

what our policy is and therefore postpone their planning.

IV. Provisions of the Final Regulations

1. *When notice is required.* These regulations alter the requirements of the 60-day notice provision in several areas. Public notice under these rules is required for any significant proposed change in a Medicaid agency's methods and standards for setting payment rates for a service. We have deleted the requirement that any change that is expected to increase or decrease Medicaid payments for a service by one percent or more in the 12 months following the change must be published. This deletion is in the interest of promoting State flexibility. We do not believe it is necessary to set an explicit expenditure threshold above which public notice is required. A requirement that all significant changes be published will be effective in guaranteeing public notice of major changes in reimbursement.

The original intention of the 60-day notice regulation in referring to changes in level of reimbursement for a service was to cover situations such as "a change in the maximum allowable rate under a State-wide schedule of usual and customary charges due to an adjustment of the percentile ceiling". (44 FR 20693, April 6, 1979) We intend that these percentile ceiling adjustments will continue to be covered by these regulations. Any change in rate setting made by the Medicaid agency is considered a change in either the method or standard for setting payment rates and is subject to these regulations.

2. *Publication of notice.* We have made two changes related to the publication of the notice. First, in the interest of State flexibility, we have eliminated the mandatory length of the comment period. The final regulations require that the notice be published before the proposed effective date of the change.

We have also made a technical change in 42 CFR 447.205(d)(2). The current regulations require that the notice be published in a State register similar to the **Federal Register**, the newspaper of widest circulation in each city with a population of 50,000 or more, or the newspaper of widest circulation in the State, if there is no city with a population of 50,000 or more. This provision has been misinterpreted to mean that a notice must be published in both a State register and one of the newspaper options. These final regulations are revised to clarify the original intent that the notice must appear as a public announcement in one of those publications.

V. Regulatory Analysis

Executive Order 12291

We have determined that this rule does not meet the criteria for a major rule as defined by section 1(b) of Executive Order 12291. That is, this rule will not have an annual effect on the economy of $100 million or more or otherwise meet threshold criteria of the Executive Order. We believe that these regulations neither cause any increase in expenditures nor result in any appreciable savings, but allow States the flexibility they need to make appropriate reimbursement changes quickly in response to State needs.

Regulatory Flexibility Act

Section 603(a) of Pub. L. 96–354 (the Regulatory Flexibility Act of 1980) requires Federal agencies to prepare and make public a regulatory flexibility analysis when regulations have a significant economic impact on a substantial number of small businesses or small governmental jurisdictions. Because the economic impact of these regulations is not significant, we believe a regulatory analysis is not required. Therefore, the Secretary certifies, under section 605(b) of Pub. L. 96–354, that this rule will not have a significant economic impact on a substantial number of small entities.

VI. Response to Comments

Because of the large number of comments we receive, we cannot acknowledge or respond to them individually. However, if as a result of comments we believe that changes are needed in these regulations, we will publish the changes in the **Federal Register** and respond to the comments in the preamble of that document.

42 CFR Part 447 is amended as set forth below:

PART 447—PAYMENTS FOR SERVICES

1. The table of contents is amended by revising the title of § 447.205 to read as follows:

* * * * *

447.205 Public notice of changes in Statewide methods and standards for setting payment rates.

* * * * *

Authority: Section 1102 of the Social Security Act, (42 U.S.C. 1302), unless otherwise noted.

2. In § 447.205, paragraph (b) is reprinted and the section is amended by revising the title and paragraphs (a), (c), and (d).

§ 447.205 Public notice of changes in Statewide methods and standards for setting payment rates.

(a) *When notice is required.* For services other than those covered by § 447.254, and except as specified in paragraph (b) of this section, the agency must provide public notice of any significant proposed change in its methods and standards for setting payment rates for services.

(b) *When notice is not required.* Notice is not required if—

(1) The change is being made to conform to Medicare methods or levels of reimbursement;

(2) The change is required by court order; or

(3) The change is based on changes in wholesalers' or manufacturers' prices of drugs or materials, if the agency's reimbursement system is based on material cost plus a professional fee.

(c) *Content of notice.* The notice must—

(1) Describe the proposed change in methods and standards;

(2) Give an estimate of any expected increase or decrease in annual aggregate expenditures;

(3) Explain why the agency is changing its methods and standards;

(4) Identify a local agency in each county (such as the social services agency or health department) where copies of the proposed changes are available for public review;

(5) Give an address where written comments may be sent and reviewed by the public; and

(6) If there are public hearings, give the location, date and time for hearings or tell how this information may be obtained.

(d) *Publication of notice.* The notice must—

(1) Be published before the proposed effective date of the change;

(2) Appear as a public announcement in one of the following publications:

(i) A State register similar to the **Federal Register.**

(ii) The newspaper of widest circulation in each city with a population of 50,000 or more.

(iii) The newspaper of widest circulation in the State, if there is no city with a population of 50,000 or more.

BILLING CODE 4120-03-M

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Parts 0 and 1

[FCC 81-526]

Delegation of Authority to Review Board

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: The FCC is revising its rules pertaining to the delegation of authority to the Review Board in order to help achieve the Commission's objective of providing speedier service to the public.

Three major changes are being made. First, in addition to its other duties, the Board is authorized to review decisions of Administrative Law Judges in cases involving renewal or revocation of broadcast and common carrier licenses. Second, the Board is given a firm 180-day deadline by which it will have to issue a decision in each case or otherwise any party may request certification to the Commission. Third, the present rule requiring three Board Members to participate in each decision is changed to allow two members to adopt a decision in cases of emergency or necessity where a third member is unavailable.

DATES: Effective: January 1, 1982.

FOR FURTHER INFORMATION CONTACT: Allan Sacks, Review Board, Federal Communications Commission, (202) 632-7180.

SUPPLEMENTARY INFORMATION:

Adopted: November 12, 1981.

Released: November 20, 1981.

By the Commission: Commissioner Fogarty dissenting; Commissioner Jones concurring and issuing a statement; Commissioner Dawson not participating.

1. Section 0.361, 0.365 and 0.367 of the Commission's Rules contain the delegation of authority to the Review Board. These Rules have been reviewed to make those changes necessary to insure that the public receives service in the most efficient and expeditious manner possible. To achieve that objective several changes have been made in the Board's authority, and the rules have been rewritten in simpler and more direct language. See Appendix to this Order, especially, §§ 0.361 (a) and (c), 0.362(b), and 1.301(c)(6).

2. Authority for the adoption of the foregoing revisions is contained in Section 4(f)(1), 4(i), 4(j), 5(b), 5(d), and 303(r) of the Communications Act of 1934, as amended. 47 U.S.C. 154(f)(1), 154(i), 154(j), 155(b), and 303(r).

3. In view of the fact that the proposed revision involves rules of agency organization, prior publication of a *Notice of Proposed Rule Making* under the provisions of Section 4 of the Administrative Procedure Act, 5 U.S.C. 553, is unnecessary. Since the revisions are necessary to prevent undue delay in adjudicatory proceedings, delay in its implementation would be contrary to the public interest.

4. Accordingly, it is ordered, that effective January 1, 1982, Parts 0 and 1 of the Commission's Rules are amended as set forth in the attached Appendix.

(Secs. 4, 303, 307, 48 Stat., as amended, 1066, 1082, 1083; 47 U.S.C. 154, 303, 507)

Federal Communications Commission.

William J. Tricarico,

Secretary.

Appendix

PART 0—COMMISSION ORGANIZATION

Chapter 1 of Title 47 of the Code of Federal Regulations is amended as follows:

1. Section 0.361 is revised to read as follows:

§ 0.361 General authority.

(a) The Review Board is constituted pursuant to section 5(d)(1) of the Communications Act of 1934, as amended, to review decisions of the Administrative Law Judges in all adjudicative proceedings unless at the time of designation, the Commission specifies otherwise. The Board shall also perform those functions set forth in §§ 0.362 through 0.365 of this Part and any additional duties assigned by the Commission not inconsistent with these functions.

(b) The Board is composed of three or more Commission employees. Members of the Board are designated by the Commission, serve indefinitely on a full-time basis, and are responsible only to the Commission. Neither the Commission nor any of its members will discuss the merits of any matter pending before the Board with the Board or any of its members.

(c) Two members of the Board shall constitute a quorum. The Board may sit in panels of two members. Any member assigned to a case who is not present at oral argument may, after reading the transcript of oral argument, participate in the Board's decision. However, so far as practicable, all of the members of the Board assigned to a case shall hear oral argument. In the case of a tie vote, a member of the Board not recused may review the record and vote; if a third member is not available, the case shall be certified to the Commission for decision.

(d) The member of the Board designated as Chairman by the Commission shall assign panels and cases on a rotational basis to the extent practicable. Each opinion of the Review Board will be signed by one of its members, who shall be responsible for its preparation.

2. A new § 0.362 is added, to read as follows:

§ 0.362 Action on initial decisions.

(a) The Review Board shall decide each matter before it by majority vote in accordance with the Communications Act of 1934, as amended, rules and regulations, case precedent, and established policies of the Commission. In reviewing initial decisions referred to it, the Review Board is authorized to perform all of the review functions which would otherwise have been performed by the Commission under §§ 1.273 through 1.282 of this chapter.

(b) The Board shall adopt a decision within 180 days after the release date of an Initial Decision to which exceptions are taken; provided, however, that where, for good cause shown, extensions of time are requested by the parties and granted, the 180 days shall be extended likewise. If the Board does not adopt a decision before the appropriate date, any party may file a motion with the Commission for certification of the case for decision.

3. A new § 0.363 is added, to read as follows:

§ 0.363 Certification of matters to the Commission.

(a) The Review Board, on its own motion or upon motion to the Board by any party, may in its discretion certify any matter to the Commission with a request that the Commission act upon the matter. The Commission may act upon the matter or remand it to the Board for decision.

(b) Whenever the Commission determines that a matter pending before the Board involves a novel issue of law or policy, it may, on its own motion, direct that the matter before the Board be certified to the Commission for

decision. However, no petition requesting the Commission to take such action will be entertained.

4. Section 0.365 is revised to read as follows:

§ 0.365 Authority delegated.

(a) The Review Board is delegated general authority to take such action as may be necessary to perform those duties specified in §§ 0.361 through 0.363 of this Part.

(b) The Review Board is delegated specific authority in all adjudicative cases to act on exceptions to initial or summary decisions, appeals from other rulings of Administrative Law Judges pursuant to §§ 1.301 and 1.302 of this chapter, and all related pleadings filed in cases or matters which are before the Board.

5. Section 0.367 is revised to read as follows:

§ 367 Record of actions taken.

The official record of all actions taken by the Review Board pursuant to §§ 0.361–0.365 is contained in the original docket folder, which is maintained by the Secretary in the Dockets Branch.

PART 1.—PRACTICE AND PROCEDURE

6. Section 1.301(c)(6) is revised to read as follows:

§ 1.301 Appeal from presiding officer's interlocutory ruling; effective date of ruling.

* * * * *

(c) * * *

(6) Appeals are acted on by the Review Board.

* * * * *

November 12, 1981.

Concurring Statement of Commissioner Anne P. Jones

In Re: Amendment to Parts 0 and 1 of the Commission's Rules to revise the Review Board's authority

I concur in these amendments because of the hope they offer of increased expedition in the Commission's adjudicatory processes. I would prefer, however, that the newly established quorum of two Board members be limited to cases of emergency or necessity when a third Board member is unavailable.

It seems to me that in cases considered and decided by only two Board members there may be too much incentive for compromise and consensus. I believe it preferable, where there is no emergency and a third member is available to have three members decide each case, so they will be free to vote strictly on their view of the merits of the case without any pressure to reach a consensus to avoid a tie vote.

[FR Doc. 81-34698 Filed 12-2-81; 8:45 am]
BILLING CODE 6712-01-M

47 CFR Part 63

[CC Docket No. 80-767; FCC 81-520]

Elimination of the Telephone Company—Cable Television Cross-Ownership Rules for Rural Areas

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: The Federal Communications Commission prohibits telephone companies from providing cable television service within their telephone service areas. It allows waivers for those areas where independent cable television service demonstrably cannot exist, or upon other showing of good cause. On January 22, 1981, the FCC adopted a Notice of Proposed Rulemaking to establish an exemption which would allow telephone companies to provide cable television service to rural areas without a waiver. 46 FR 9138 (January 28, 1981). The FCC hoped the exemption would facilitate cable television service to unserved rural areas. This order exempts rural areas from the prohibition. A rural area is any area outside of (a) any place, incorporated or unincorporated, with 2500 or more inhabitants; and (b) any urbanized area. This exemption will allow cable television service in rural areas which might otherwise go unserved.

EFFECTIVE DATE: December 4, 1981.

FOR FURTHER INFORMATION CONTACT: Linda M. Goodman, Common Carrier Bureau, (202) 632–6920.

In the matter of elimination of the Telephone Company—Cable Television Cross-Ownership Rules, §§ 63.54–63.56, for Rural Areas, CC Docket No. 80–767.

Report and Order

Adopted: November 5, 1981.

Released: November 27, 1981.

By the Commission: Commissioner Fogarty concurring and issuing a statement.

1. In a *Notice of Proposed Rulemaking* adopted December 19, 1980,[1] we announced an intention to create an exemption from the telephone company—cable television cross-ownership rules[2] in rural areas. We found, upon initial analysis, that requiring waivers for rural areas appeared to be imposing costs which exceeded benefits. We proposed several alternative definitions of rural areas and requested interested parties to submit their comments on those definitions, as well as to submit additional proposals.

2. We find herein that our initial analysis was correct. Accordingly, we are supplementing our waiver policy with an exemption for rural areas. We adopt the definition of rural area used by the U.S. Department of Commerce, Bureau of the Census.

I. Background

3. The telephone company—cable television cross-ownership rules generally prohibit telephone common carriers from furnishing directly, or through affiliates, cable television service within their telephone service areas. Provisions exist for waiver of the rules

> [i]n those areas where cable television service demonstrably could not exist except through a cable television system owned by, operated by, controlled by, or affiliated with the local telephone common carrier, or upon other showing of good cause * * *.[3]

4. Since adoption of the cross-ownership rules in 1970,[4] the Commission has instituted several proceedings designed to ensure that the rules not impose unreasonable barriers to the growth of desired cable services. The Commission has attempted to better define "those areas where cable television service demonstrably could not exist," and to streamline the procedures pursuant to which petitioners might seek waivers of the cross-ownership prohibition. Nevertheless, many rural areas have remained unserved by cable television.

5. A number of rural telephone companies have filed for waivers to provide cable television service in their telephone service areas.[5] Most petitions have been unopposed and have been

---

[1] Notice of Proposed Rulemaking in the Elimination of the Telephone Company—Cable Television Cross-Ownership Rules for Rural Areas, 84 FCC 2d 335 (1981) (hereinafter cited as NPRM).

[2] Sections 63.54–63.56 of the Commission's rules, 47 CFR 63.54–63.56. Previously, the caption in this docket included § 63.57. However, that section is only applicable to certain Section 214 applications in which the telephone company is constructing and leasing the cable system to an independent cable operator. Therefore, the caption of this proceeding has been amended to read "§§ 63.54–63.56."

[3] Section 63.56(a) of the Commission's rules, 47 CFR 63.56(a).

[4] Applications of Telephone Companies for Section 214 Certificates for Channel Facilities Furnished to Affiliated Community Antenna Television Systems, 21 FCC 2d 307 (1970) (hereinafter cited as *Section 214 Certificates*), *recons. in part*, 22 FCC 2d 746 (1970), *aff'd sub nom.* General Telephone Company of the Southwest v. U.S., 449 F. 2d 846 (5th Cir. 1971).

V46/232
DEC 81
UMI

granted routinely. However, action on some opposed petitions has taken longer than 18 months. Service has been denied to the public while the matters were being resolved by the Commission.

6. This proceeding was undertaken to determine whether the benefits of the cross-ownership rules in rural areas continued to outweigh the costs. We sought comment on whether the policies underlying the rules remained relevant in such areas. Our initial analysis indicated that the restrictions were not working to the public benefit in rural areas, and therefore we proposed to eliminate the requirement of waivers for rural areas. We proposed several definition of "rural areas" and also invited other proposals. The definitions we proposed for comment were:

a. *Less than 30 Homes per Route Mile, Franchise Area.* This was the level (measured within a franchise area) established in CC Docket No. 78–219. We found that independent cable television systems generally were not viable in franchise areas with populations at this level.[6]

b. *Less than 30 Homes per Route Mile, Service Area.* This standard was broader than the preceding one because a telephone company could determine the density of the entire area it proposed to serve with cable television, regardless of franchise area boundaries. Although we had rejected this approach in the *First Reconsideration in CC 78–219, supra* note 6, we believed it appropriate to reevaluate the standard and propose it for comment.

c. *No Community of Greater than 1500 Persons.* The Rural Electrification Administration (REA) administers financing for cable television services and facilities. The REA gives priority consideration to:

> low density rural areas, particularly those outside the boundaries of incorporated or unincorporated cities, villages, or boroughs having a population in excess of 1500 inhabitants.[7]

d. *Areas Outside the Top 100 Major Television Markets.* For administrative ease, we proposed using the specified zone and major market concepts found in our cable television rules, 47 CFR 76.5(f), 76.51. Thus, any area more than 35 miles from the center of a city to which stations in the top 100 television markets are licensed would have been considered rural. We speculated that areas outside these 35 mile zones would generally be rural and not prime candidates for independent cable television operations. The standard also would be convenient to administer.

e. *Areas Outside the Top 200 Television Markets.* This standard would exclude the second 100 television markets' 35 mile zones from the definition of rural.

f. *Combined Measure.* We asked comment on any combination of the above. We asked if it would be appropriate to eliminate the rules for those areas outside the specified zones of all major markets where the community size was less than 1500 or where there were fewer than 30 homes per mile.

II. Summary of Pleadings

7. The formal comments filed in this proceeding were received from the cable television industry,[8] the telephone industry,[9] government agencies [10] and a not-for-profit organization unaffiliated with either industry (the National Citizens Committee for Broadcasting (NCCB)).

8. The cable television group, except for CATV Service, Inc., unanimously rejected the proposed exemption from the telephone company-cable television cross-ownership rules. Their arguments consisted for the most part of a reiteration of the policies underlying the adoption of the cross-ownership rules. For example, they claimed that concerns about control over the media and anticompetitive abuses are still warranted, and that cable is a potential alternative to the telephone local distribution monopoly. Furthermore, they asserted that the waiver procedure has sufficiently reduced the administrative burden caused by the rules, and that the Commission's burden is now "more ministerial than substantive." They argued that the relatively few opposed petitions demonstrate that the independent cable industry is as interested as the telephone industry in getting service to rural areas. They also stated that furtherance of the Commission's national communications policies is sufficient reason to overrule local franchising authorities who might prefer the local telephone company to an independent operator, and that the Commission need not worry about frustrating REA policies, because REA's budget has been reduced severely. The comments made little distinction between the application of the rules in rural and nonrural areas. Furthermore, they offered but few suggestions or comments concerning an appropriate definition of "rural area" for purposes of the exemption.

9. Times Mirror Cable Television, Inc., while rejecting the proposed exemption, included an alternative position in its comments. In lieu of the exemption, it proposed that unopposed waiver petitions be granted automatically. However, if an exemption were to be adopted, it suggested that the exemption apply only to areas more than 35 miles from any community which has a licensed television station, so long as the area has a population of less than 1500 or a density of less than 30 households per route mile measured on a franchise area basis. It argued that its alternative to an exemption—the automatic grant of unopposed petitions—would expedite the waiver process and the commencement of cable

---

[6] This franchise area standard was incorporated in the provision for obtaining waiver of the cross-ownership rules. *See* Section 63.56 of the Commission's rules, 47 CFR 63.56. Memorandum Opinion and Order in Revision of the Processing Policies for Waivers of the Telephone Company—Cable Television "Cross Ownership Rules," 82 FCC 2d 254, 258 (1980) (hereinafter cited as *First Reconsideration in CC 78–219).* However, subsequent to the filing dates for comments in this proceeding, the standard was modified to apply the presumption on a cable television service area basis (proposal b). Memorandum Opinion and Order in the Revision of the Processing Policies for Waivers of the Telephone Company—Cable Television "Cross Ownership Rules," 86 FCC 2d 983 (1981) (hereinafter cited as *Second Reconsideration in CC 78–219).*

[7] Interim REA Bulletin 328–1, Sec. VI.A.1., page 5, June 28, 1979.

[8] The cable television group consisted of American Cable Television, Inc.; Arizona Cable Television Association, Cablecom-General, Inc., Coaxial Communications, Inc., Essex Communications Corporation, Horizon Communications Corporation, McCaw Communications Companies, Inc., Mid-America Cable TV Association, New England Cable Television Association, North Carolina CATV Association, Tele-Media Corporation, Vision Cable Communications, Inc., Whitney Communications Corporation, and W.W. Communications, Inc. (filing consolidated comments) (Arizona Group); CATV Service, Inc.; Colonial Cablevision of Revere, Inc.; Community Antenna Television Association, Inc.; National Cable Television Association, Inc. (NCTA); New York State Cable Television Association; Palmer Communications, Inc.; Multimedia Cablevision, Inc., and Nor Cal Cablevision, Inc. (filing consolidated comments); Storer Broadcasting Company; Tele-Communications, Inc.; Teleprompter Corporation; and Times Mirror Cable Television, Inc.

[9] The telephone company group consisted of Ardmore Telephone Company, Inc. (Ardmore); Continental Telephone Companies (Continental); GTE Service Corporation and its affiliated domestic telephone companies (GTE); Missouri Telephone Company, North-West Telephone Company, and Platteville Telephone Company (filing consolidated comments) (Missouri Group); National REA Telephone Association (NREATA); National Telephone Cooperative Association (NCTA); Organization for the Protection and Advancement of Small Telephone Companies (OPASTCO); Telephone and Data Systems, Inc. (TDS); United States Independent Telephone Association (USITA); and United Telephone Systems, Inc. (UTS).

[10] This group was made up of the New York Public Service Commission (NYPSC), the Rural Electrification Administration (REA), and the United States Department of Justice (Department of Justice).

television service. Its proposal for a rural definition allegedly reflects the built-up nature of television markets and the threshold levels at which independent cable television service is presumptively unattractive.

10. CATV Service, Inc., limited its comments to whether a waiver should be required for a telephone company to compete with an existing cable television operator at franchise renewal time. It argued in favor of such a waiver requirement. It stated that to permit telephone companies to serve areas where there are operating cable systems would undermine the rationale on which the present cross-ownership restrictions are based.

11. The comments received from the telephone interests were more diverse. GTE, NREATA, Ardmore, and UTS were joined by NYPSC in arguing that the cross-ownership rules should be eliminated for all areas. They reiterated the reasoning in the *NPRM, supra* note 1, and professed that it could be applied generally. GTE and UTS did not propose any definition of rural area to be used in the event that the Commission decided against their broader proposal. Ardmore and NREATA suggested exemption of proposed cable television systems with less than 10,000 actual subscribers or 20,000 potential subscribers measured on a headend basis. They claimed that the use of that measure would ensure the provision of cable television service by telephone companies only in areas of insubstantial population.

12. Continental and TDS proposed that rural areas be defined as those areas having less than 30 households per cable route mile measured on a cable television service area basis. This definition was one of those proposed for comments in the *NPRM, supra* note 1. They pointed out that this was the density level below which independent cable television operation generally is not viable.

13. Two parties proposed that telephone companies be allowed several alternative definitions under which to claim an exemption. The Missouri Group proposed the following alternatives: (i) Areas having less than 30 households per route mile measured on a service area basis; (ii) areas containing no municipality with a population greater than 10,000; or (iii) areas outside the municipal boundaries of the nation's 100 largest cities. NTCA's alternatives included (i) and (ii) above, and added an exemption for cooperatively-owned telephone companies and an exemption for areas outside of the cities of license of the top 100 television markets. The Missouri Group argued that (ii) is found in the only federal law which authorizes loans for cable television service, and that it includes most towns and small cities in the telephone service areas of independent telephone companies. It further argued that (iii) was more appropriate than using the top 100 television markets, because those markets bear no relationship to the problems of encouraging cable television service, to the concept of "rural," or to the availability of other cable entertainment and services. NTCA argued for exempting areas outside of the cities of license of the top 100 television markets for the same reason, *i.e.*, that the entire "markets" exclude too large an area.

14. OPASTCO suggested that the entire United States be defined as rural except the cities of license of the top 100 television markets, and adjacent cities with populations exceeding 10,000. It argued that this standard would be easy to administer and would exclude those cities containing licensed full-service television stations.

15. USITA, along with REA, argued for an exemption for all areas that do not include a municipality with a population of over 10,000. Its reasons were similar to those of other parties espousing the same viewpoint. USITA would also exempt areas containing less than 40 households per route mile measured on a service area basis. It proposed this standard based on "current economic conditions and the prospects for the future," stating that a density of 30 households per route mile is no longer realistic.

16. NCCB proposed that an exemption be created for cooperatively-owned telephone companies. It, along with NTCA, argued that cooperative ownership of the media is in the public interest.

17. The Department of Justice noted that in franchise areas containing less than thirty households per cable route mile, independent cable television service is presumably infeasible.[11] It requested that the rural exemption apply only to places where independent cable television service is unquestionably infeasible. Although it made no concrete suggestion, the Department of Justice proposed that the definition of rural area be narrower than the 30 households per route mile standard.

18. Reply comments were filed by the Arizona Group, the Missouri Group, NCTA, NTCA, the New England Cable Television Association (filing separately from the Arizona group), OPASTCO, TDS, USITA, UTS, and Teleprompter Corporation. The reply comments largely reiterated the positions taken in the initial comments.

19. Reply comments also were received from two parties who had not participated in the initial round of filings. Cascade Utilities, Inc., voiced general support for the adoption of a rural exemption. The New York State Commission on Cable Television expressed general disapproval of the creation of a rural exemption. It expressed particular concern that any federal deregulation in the cross-ownership area not preempt the states' right to retain cross-ownership prohibitions.

20. We also received a number of informal comments. Most of these expressed views similar to those expressed in various formal comments. A few, however, suggested an exemption for all independent telephone companies. One suggested an exemption for any telephone company proposing to serve its entire telephone service area, so long as the overall density was less than 10 or 12 households per route mile. These informal comments were brief and usually contained little hard evidence to justify the proposals.

21. Many of the parties also responded to the questions we raised in paragraph 21 of the *NPRM*.[12] The first question asked whether a waiver should be required for a telephone company to compete with an existing independent cable company at franchise renewal time. Cable interests stated that such waivers should be required, while telephone interests, joined by REA and NYPSC, argued against such waivers. Similar responses by those groups were submitted as to whether waivers should be required for telephone company acquisitions of existing independent systems.

22. All parties agreed that divestiture should not be required of a telephone company when a formerly exempt area grows to be nonrural. The cable interests did suggest a requirement that leaseback arrangements be offered. All parties also agreed that cooperatively-owned telephone companies make up only a small number of the independent telephone companies interested in serving rural areas. Furthermore, all parties agreed that cable television service offered by telephone companies should be treated the same as independent cable television service with respect to rules concerning access to the cable, channel capacity, etc.

23. The cable interests feared that the provision of cable services by telephone companies might retard the provision of

[11] *See* note 6, *supra*.

[12] *NPRM, supra* note 1, at 342.

V 46 / 232
DEC 3 81
UMI

nonvoice, nonvideo communications services in rural areas. Conversely, the telephone interests, along with REA and NYPSC, felt that cross-ownership would enhance the possibilities of such services.

24. Finally, the cable interests proffered that REA policies afford the telephone companies a competitive advantage in providing cable television service in rural areas. The telephone interests, REA and NYPSC claimed that REA policies treat everyone equally.

III. Discussion

A. General Considerations and Conclusions

25. Before discussing the merits of the alternatives before us, we believe it would be helpful to outline the reasons that led us to propose an exemption from the cross-ownership rules. The Commission has long been concerned that its rules not deprive rural Americans of cable television service.[13] Indeed, the waiver mechanism was created for those situations in which the local telephone company or its affiliate might be the only feasible provider of cable television service.[14]

26. We revisited the waiver question in a proceeding initiated in 1978.[15] Ultimately, we refined the waiver process [16] to reduce the impediments to the development of rural cable television service caused by the cross-ownership prohibition.[17] In promulgating that refinement,[18] we acknowledged that our waiver procedures may have discouraged the initiation of new rural cable television service by needlessly requiring complicated and expensive presentations by rural telephone companies.[19] As a result of the easing of the impediments, there has been a marked increase in the number of waiver petitions filed.[20] It is our hope that even more service to rural areas will follow the elimination of the rules for those areas.

27. The cost of applying these rules to rural areas has been high. The majority of the waiver petitions we have received for rural areas have been unopposed. In such cases, when it appeared that service would not otherwise be provided, waivers were usually granted. Yet, the filing of these petitions has placed a considerable burden upon both the rural telephone companies and the Commission. Furthermore, service to communities has been delayed, and that is especially unfortunate in the many cases in which a franchise was obtained prior to the filing of the waiver petition.

28. The major benefit supporting the cross-ownership prohibition in 1970 was the preservation of an environment for the unhindered development of wideband services. Eleven years later, the benefit to be gained from continuation of the prohibition in rural areas is, at best, illusory. Our concerns must seem ironic to residents of rural areas without any wideband service.

29. Nor have the general comments submitted by the cable interests demonstrated that the analysis proffered in the *NPRM* was incorrect. While we are aware of the problems that can arise from telephone company provision of cable television service, we find that an exemption for rural areas is important to ensure that such areas have an opportunity to enjoy the same benefits associated with broadband services which urban areas are already experiencing or are more likely to experience sooner. Many small telephone companies, not familiar with our waiver procedures, may be discouraged from implementing broadband services in rural areas by the mere presence of the Commission's prohibition. Furthermore, the expense of acquiring legal, engineering and other assistance to obtain a waiver may be an additional impediment. In a rural area where the profitability of providing broadband services may be slim, these considerations may be real barriers to initiation of new cable service. Moreover, since we have not observed rapid or significant penetration into rural areas by independent cable operators even under the prohibition, we believe that its costs to the rural public have far exceeded its benefits.[21]

30. Accordingly, we reject the proposals made by the cable television interests that the rules remain intact. We see the more immediate availability of cable television service to rural areas, that an exemption should bring to fruition, as outweighing our earlier expressed concerns supporting the prohibition. Therefore, we will exempt "rural areas" from the telephone company—cable television cross-ownership rules.

31. We similarly believe that proposals to eliminate the cross-ownership rules entirely, or to eliminate their applicability to independent or cooperatively-owned telephone companies, are inappropriate in this proceeding. In the *NPRM, supra* note 1, we stated that "the policies our rules are designed to promote no longer outweigh the burdens imposed on rural areas."[22] We are not rejecting the policies underlying the cross-ownership rules. We merely find them to be overly costly in rural areas. Complete elimination of the cross-ownership rules is beyond the contemplation of this proceeding.[23] We also reject a blanket exemption for independent or cooperative telephone companies. No evidence has been presented to show that the rationale behind the cross-ownership rules is any less applicable to cooperative telephone companies, or that independents or cooperatives operate only in rural areas. We now turn to the question of what is a rural area.

B. Proposals Based on the Number of Households per Route Mile

32. Although two of the standards we proposed for identifying rural areas were based on population density (the number of households per route mile), further reflection and the comments convince us that such a definition is too difficult to implement. Under an exemption, a telephone company that

---

[13] From the inception of the cross-ownership rules, the Commission has sought to ensure that no substantial segment of the public would be without the opportunity of having cable television service. *See* Notice of Proposed Rulemaking and Notice of Inquiry in the Applications of Telephone Companies for Section 214 Certificates For Channel Facilities Furnished to Affiliated Community Antenna Television Systems, 34 FR 6290, 6292 (1969).

[14] *Section 214 Certificates, supra* note 4, at 326.

[16] The refinement was the adoption of the rebuttable presumption that independent cable operation is not economically feasible in areas having a density of fewer than thirty households per cable route mile. *See* § 63.56(b) of the Commission's rules, 47 CFR 63.56(b).

[17] Report and Order in Revision of the Processing Policies for Waiver of the Telephone Company—Cable Television "Cross Ownership Rules," 82 FCC 2d 233 (1979) (hereinafter cited as *Report and Order in CC 78–219*).

[18] *Second Reconsideration in CC 78–219, supra* note 6.

[19] *NPRM in CC 78–219, supra* note 15, 1113–14.

[20] *NPRM, supra* note 1, at 338.

[21] The cable interests also argue that the process is not administratively burdensome to the Commission. However, we anticipate that elimination of the rules in rural areas will permit the reallocation of at least two workyears time annually. Such a reallocation, given the Commission's current budgetary constraints, is not insignificant.

[22] *NPRM, supra* note 1, at 341.

[23] The Commission's staff has completed a study of all cable television cross-ownership rules. We invite all interested parties to comment on whether the reasons for the telephone company—cable television cross-ownership rules have continued viability or whether other valid reasons exist for the continuation of the prohibition. *See* Staff Report on FCC Policy on Cable Ownership, released November 17, 1981 (hereinafter cited as *Staff Report).*

decides to provide cable television service to an area defined as rural does so with no need to come before the Commission for a waiver. Therefore, the status of the area as rural must be readily apparent. Unfortunately, household density is not apparent. It requires engineering studies and surveying techniques. Even then, the results are not irrefutable. In our experience with waiver petitions, we have seen a number of disputes as to actual household density. Such uncertainty renders any household density standard administratively impractical, since the exemption must be based on a definition of rural area that is easily identifiable and verifiable.

C. Proposals To Exempt Areas Outside Certain Television Markets

33. Unlike the household density proposals, an exemption granted to areas outside certain television markets would be easy to administer. However, the number and signal strength of the television outlets in an area are not necessarily determinative of whether the area is urban or rural. Those facts may be indicative of other aspects of the area, *e.g.*, size, proximity to major urban centers, and growth trends, which might be relevant to a classification of the area as urban or rural. But many areas not well served by television are not rural areas, and have proved very attractive to independent cable operators. We believe that the standard discussed below gives a more accurate definition of rural—one which is related to size and population density of an area.

D. Proposals To Exempt Areas Which Do Not Contain a Sizeble Community

34. An exemption standard based upon the population in the area has the benefit of being precise and easily enforceable. If we establish that an exemption is warranted for those areas that do not include population centers exceeding a specific size, we could use publicly available census data to determine eligibility. Some commenters suggested that an area should not be considered rural if it contains a community with a population in excess of 1500. We had proposed that figure for comment, since it was utilized by REA. However, several parties pointed out that even truly rural areas can contain towns much larger than 1500.

35. REA argued against making 1500 the standard. It urged the adoption of a community population of 10,000 persons. Although several good reasons were given for adopting that standard, most of the commenters admitted that at populations close to 10,000, independent cable television service often becomes feasible. We also recognize the Department of Justice's concerns that our exemption only be applicable in areas where independent cable television service is truly infeasible. Therefore, it is our belief that a population figure of 10,000 is too high.

36. We believe the most appropriate and administratively manageable definition of "rural area" is that used by the U.S. Department of Commerce, Bureau of the Census. The Census Bureau began utilizing a rural/urban dichotomy over one hundred years ago.[24] It has been refining its definitions ever since.[25] The definition of rural is related to the population density and overall size of an area. Our experience shows that this definition adequately describes those areas in which cable operators have been reluctant to initiate service. We, therefore, are adopting an exemption for areas which are defined as rural by the Census Bureau.

37. The Census Bureau defines as rural all areas outside of:

(a) Places of 2500 inhabitants or more, incorporated or unincorporated;[26] and

(b) Other territory, incorporated or unincorporated, included in urbanized areas.

We want to emphasize that the telephone company's entire cable television service area must be rural in order to qualify for the exemption. The exemption will be inapplicable if the area includes even a portion of a place defined as nonrural in subparagraph (a) or (b) above.[27]

38. The most easily identifiable determinant leading to classification of an area as "nonrural" is whether it contains any incorporated places having 2500 inhabitants or more. However, a definition of urban territory restricted to such places would exclude a number of large and densely settled places merely because they are not incorporated. Therefore, in 1950, the Census Bureau adopted the urbanized area concept and delineated boundaries for unincorporated places.[28]

39. For purposes of the 1980 census, an urbanized area is composed of an incorporated place and surrounding densely settled areas that together have a combined population of at least 50,000. There is no minimum size for the incorporated place that forms the central city of the area. Areas surrounding the central city are included in the urbanized area only if they are sufficiently densely populated. This population density factor is used so that the physical extent of a city or cities can be clearly delineated.[29]

40. According to the 1980 census, 26.3 percent of the U.S. population live in rural areas. State population census volumes for 1980 will list the number of inhabitants of each incorporated or unincorporated place and will contain maps and other information relating to each urbanized area. The Census Bureau will release each volume as it is published. In the meantime, such information is available from the Census Bureau by telephone.

41. We expect that only the most recent U.S. Census Bureau statistics will be used in qualifying for the rural exemption. We realize there will be times when all available Census Bureau statistics seem out of date. However, we cannot involve ourselves in determinations as to the accuracy of conflicting statistics. If we were to get involved in these determinations, we would be thwarting one of the reasons for eliminating these areas from the prohibition—elimination of unnecessary delay caused by resolution of issues by this Commission. Therefore, administrative finality requires that statistics from other sources be rejected.

E. Requirement of Waiver for Acquisitions and for Oppositions to Franchise Renewals

42. In rural areas, we have determined that the costs of imposing the cross-ownership rules outweigh their benefits. Those costs include foreclosure or delay of cable television service to rural residents and wasted administrative resources at the Commission. Neither of these costs is substantial in the case of acquisitions, or oppositions to franchise

---

[24] *See*, Statistical Atlas of the United States, 1874.

[25] U.S. Department of Commerce, Bureau of the Census, Series P–23, No. 1, The Development of the Urban—Rural Classification in the United States: 1874–1949, Aug. 5, 1949.

[26] The first publication in which the population of places having 2500 inhabitants or more was officially designated as urban was the Supplementary Analysis of the Twelfth Census (1900), published in 1906. *Id.* Since that time, the Census Bureau has used this definition with minor modifications. *See* U.S. Department of Commerce, Bureau of the Census, Number of Inhabitants, 1970, Series PC(1)–A (hereinafter cited as *Number of Inhabitants, 1970*).

[27] The Census Bureau has defined some incorporated places of 2500 inhabitants or more as "extended cities." Such cities consist of a rural part and an urban part. The rural part of such "extended cities" will qualify for the exemption from the telephone company—cable television cross-ownership rules.

[28] The introduction of the concept of "extended cities" in 1970 has had very little impact on the numbers of areas classified as either urban or rural. *Number of Inhabitants, 1970, supra* note 26.

[29] U.S. Department of Commerce, Bureau of the Census, Release No. 81–125, Large Increase in Number of Urbanized Areas Shown by Census Figures, July 27, 1981.

V 46 / 232 / DEC 3 81 UMI

renewals. In these instances, an independent cable operator continues to provide service to the community. Furthermore, such waiver petitions have been few. We therefore find that a continuation of the waiver requirement in these situations is not overly burdensome to either the rural areas or the Commission. We will continue to require waivers of telephone companies who propose cable television service in any area where a competing cable television system is under construction or in existence.

F. Other Matters

43. In order to distinguish those telephone company applications which propose cable television service in exempted areas from those which do not, we will require telephone companies to state in their applications for authority under Section 214 of the Act that they are relying upon the rural exemption. We are therefore adding to our rules a new § 63.01(r) that will describe this requirement.

44. We wish to make it clear that any party filing an opposition to a Section 214 application to which the exemption may apply must confine its arguments to issues relevant to whether the "public convenience and necessity" will be served by the applicant's proposal. For example, an opposition may contain current Census Bureau figures showing that an exemption claimed pursuant to § 63.01(r) is inapplicable. However, considering the years that many rural areas have gone without cable service while we have precluded telephone company involvement, we believe it would be inappropriate and counterproductive for us to continue to take into account naked assertions that independent cable television service is feasible in these areas.

45. Telephone companies will still need waivers to provide cable television service within their telephone service areas if any part of the area to be served is not rural. We are retaining our present waiver standards for this purpose. A telephone company must show, pursuant to § 63.56, that service otherwise would not exist or, alternatively, that other good cause warrants waiver. Telephone companies will continue to enjoy a rebuttable evidentiary presumption that service would not otherwise exist where the proposed cable television service area has fewer than 30 households per cable route mile. This standard is based on our findings in the *Report and Order in CC 78–219, supra* note 17, that cable television systems generally are not profitable when density is below that level. Unaffiliated cable television systems may, of course, rebut the presumption by demonstrating an intent to offer essentially the same service as proposed by the telephone company within the same time frame.

46. The exemption will relieve petitioners, the Commission and the public of the costs and burdens associated with the waiver process where the benefits of the process are least apparent—in rural areas. Permitting telephone companies located outside these areas to continue to seek waiver under our present standards will provide a means by which to evaluate the public interest aspects of individual situations on a case-by-case basis. Moreover, comments on the *Staff Report, supra* note 23, may indicate that further refinements in our telephone company-cable television cross-ownership rules and policies are necessary. Until that record is compiled, we believe continuing our present policies, with the exemption for rural areas adopted today, is the most administratively sound way of proceeding.

47. It is not our intention to preempt the rights of the states to adopt cross-ownership prohibitions as they see fit. In this proceeding, we do not reject the policies underlying the cross-ownership rules. We merely wish to eliminate any barriers to *rural* cable television service stemming from *our* rules. Therefore, state and local officials may continue to assess the effects of cross-ownership within their jurisdictions, and may make any rules or judgments that seem appropriate to them. Thus, our action in no way affects local requirements that the telephone company first obtain a cable television franchise.

48. We want to assure any telephone companies contemplating service to rural areas that divestiture will not be required solely because an area becomes nonrural at some future time. Also, any telephone company providing cable television service must comply with the same Commission rules with which independent cable television operators must comply. *See* Parts 76 and 78 of the Commission's rules, 47 CFR Parts 76 and 78.

49. Finally, a number of petitions for waiver are pending. Review of several of these petitions reveals that in many situations waivers will no longer be necessary. On or before the effective date of this order, the staff will notify parties to those waiver petitions of the determination that the telephone company's proposed cable television service area is rural. Those parties will then have 10 working days from the effective date of this order to rebut that determination with recent census data that shows the area is not rural. Absent that showing, those waiver petitions will be dismissed and the requirement of the new § 63.01(r) will be waived to facilitate processing of the corresponding Section 214 applications.

50. In light of the above, any delay in the effectiveness of this order would be contrary to the public interest. Accordingly, pursuant to Section 553(d)(1) and (3) of the Administrative Procedure Act, 5 U.S.C. 553 (d)(1) and (3), the new rules will be effective December 3, 1981.

Ordering Clauses

51. Accordingly, it is ordered that, pursuant to Sections 2, 3, 4 (i) and (j), 205, 214, 303, 307, 308, 309, and 403 of the Communications Act of 1934, as amended, 47 U.S.C. 152, 153, 154(i) and (j), 205, 214, 303, 307, 308, 309, and 403, Part 63 of the Commission's rules is amended as set forth in the attached Appendix below, effective December 3, 1981.

52. It is further ordered that, parties who receive the notification outlined in paragraph 49 above, may file, within 10 working days after the effective date of this order, any response thereto.

(Sec. 2, 3, 4, 5, 301, 303, 307, 308, 309, 315, 317, 48 Stat., as amended, 1064, 1065, 1066, 1068, 1081, 1082, 1083, 1084, 1085, 1088, 1089; (47 U.S.C. 152, 153, 154, 155, 301, 303, 307, 308, 309, 315, 317))

Federal Communications Commission.

William J. Tricarico,

Secretary.

Appendix

PART 63—EXTENSION OF LINES AND DISCONTINUANCE OF SERVICE BY CARRIERS

Part 63 of Chapter I of Title 47 of the Code of Federal Regulations is amended as set forth below.

1. By adding a new paragraph (r) to § 63.01 to read as follows:

§ 63.01 Contents of applications.

* * * * *

(r) A statement as to whether the applicant is relying upon the exemption found in § 63.58, if the proposed facilities are to be used to provide a communication service prohibited by §63.54.

2. By adding a new § 63.58 to Part 63 to read as follows:

§ 63.58 Exemption.

(a) A telephone common carrier shall be exempt from the provisions of §§ 63.54–63.56 if no cable television system is under construction or in

existence within the proposed cable television service area, and that area contains none of the following:

(1) Any incorporated place of 2,500 inhabitants or more, or any part thereof;

(2) Any unincorporated place of 2,500 inhabitants or more, or any part thereof; or

(3) Any other territory, incorporated or unincorporated, included in an urbanized area.

(b) All population statistics and definitions used in qualifying for this exemption shall be the most recent available from the U.S. Department of Commerce, Bureau of the Census. In no event shall any statistics resulting from censuses prior to 1980 be used.

Note.—The Census Bureau has defined some incorporated places of 2,500 inhabitants or more as "extended cities." Such cities consist of an urban part and a rural part. If the proposed cable television service area includes a rural part of an extended city, but otherwise includes no territory described in paragraphs (a) (1), (2), or (3) of this section, the exemption shall apply.

Concurring Statement of Commissioner Joseph R. Fogarty

In Re: Elimination of the Telephone Company-Cable Television Cross-Ownership Rules, §§ 63.54–63.56, for Rural Areas.

I have repeatedly called for a complete exemption from the cable/telco cross-ownership prohibition for rural areas of the United States,[1] and I am therefore pleased to have this *Report and Order* approved by the Commission. Cable service that could have been provided to rural America by telephone companies has been too long denied in favor of protecting a vague future possibility of service from independent operators. As this decision so correctly emphasizes:

(C) Considering the years that many rural areas have gone without cable service while we have precluded telephone company involvement, we believe it would be inappropriate and counterproductive for us to continue to take into account naked assertions that independent cable televison service is feasible in these areas.

I do question, however, the assertion in this *Report and Order* that there is no evidence indicating that the rationale of the cross-ownership prohibition is any less applicable to telephone cooperatives. The existing cross-ownership prohibition is heavily predicated on the spectre of cross-subsidization between basic telephone service and cable television service. In the context of a telephone cooperative—where the subscribers are also the owners—it is either ludicrously mindless or diabolically paternalistic to worry about any "danger"of cross-subsidy. I note that the Commission will soon have the opportunity to address this matter, as well as the issue of whether the cable/telco cross-ownership prohibition should be completely rescinded, in considering the Office of Plans & Policy Staff Report on cable television ownership issues and public comment thereon.

[BC Docket No. 81-154; RM-3692]

FM Broadcast Station in Ansley, Alabama; Changes Made in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: Action taken herein denies a petition to assign FM Channel 261A to Ansley, Alabama, in response to a petition from Reid Spann. Petitioner failed to establish community status for Ansley.

DATES: Effective: Non-Applicable.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Nancy V. Joyner, Broadcast Bureau, (202) 632-7792.

SUPPLEMENTARY INFORMATION:

Report and Order

(Proceeding Terminated)

Adopted: November 16, 1981.

Released: November 20, 1981.

By the Acting Chief, Policy and Rules Division:

In the Matter of amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations. (Ansley, Alabama) BC Docket No. 81-154 RM-3692.

1. The Commission has before it for consideration a *Notice of Proposed Rule Making*, 46 Fed. Reg. 17809, published March 20, 1981, proposing the assignment of FM Channel 261A to Ansley, Alabama, as its first FM allocation, in response to a petition filed by Reid Spann ("petitioner"). Comments in opposition were filed by Talton Broadcasting Company ("TBC"), licensee of FM broadcast Station WTUN, Selma, Alabama, to which the petitioner responded.

2. The *Notice* indicated that the Commission was prepared to consider assigning Channel 216A to Ansley, Alabama, as its first FM assignment, contingent upon the petitioner's submission of economic and demographic information to demonstrate that Ansley is a community for assignment purposes. His petition asserted that Ansley's population consists of approximately 600 persons, 30% of which are Black, and that the nucleus of its social and entertainment activities is provided by the nearby communities of Troy and Montgomery. Further, petitioner stated that Ansley is in need of a station that will relate to its needs, although it is dependent on the support of larger cities. Petitioner was therefore requested to submit a recent population estimate for Ansley, and furnish additional data to demonstrate the need for the proposed FM assignment. Additionally, petitioner was requested to make a showing of his present intent to apply for the channel, if assigned.

3. Ansley (not listed in the U.S. Census), is located approximately 56 kilometers (35 miles) south of Montgomery, Alabama. It currently has no local aural broadcast service.

4. In its opposition, TBC challenges petitioner's showing of Ansley as a community for assignment purposes. It cites such factors as petitioner's admission of dependence on the nearby urban areas of Troy and Montgomery as the focal points of Ansley's employment and social activities, as precluding a finding of an independent and distinct community, citing *Musical Heights*, 19 RR 49, 50 (1959). Further, it disputes petitioner's allegation that Ansley has a population of approximately 600 persons. TBC states that not only is Ansley not listed in the U.S. Census Reports, but neither is it attributed any population by state or local sources. It adds that Ansley does not appear on the 1980 Alabama road map, and has no identifiable boundaries. Further, it claims that according to Rand-McNally 1980 (p. 564), Ansley has a population of 50 persons. It also points out the total absence of a business district, as precluding the attainment of community status, citing *Musical Heights, supra*, and *Risner Broadcasting, Inc.*, 20 FCC 2d 790 at 791 (1969). Also, TBC alleges that it was unable to locate any social

organizations in Ansley, which is another recognized community component, as established in such cases as *Naples, Florida*, 41 RR 2d 1549 at 1553 (1977), *Hymen Lake*, 22 RR 2d 1553 (1974), *Mercer Broadcasting Co.*, 13 RR 891 at 909 (1957), and *Coker, Alabama*, 43 RR 2d 190 at 193 (1978). It notes also that Ansley does not have an individual telephone exchange or post office, but that these services are provided to it by the nearby community of Troy.

5. As a final matter, TBC contends that an assignment to Ansley will cause objectionable interference to the secondary services of nearby co-channel stations. The distance between the proposed Ansley site 7 kilometers (4.4 miles) northwest of the community and WTUN is approximately 66 miles, whereas 65 miles is required for co-channel Class A assignments. It recognizes that the Commission does not protect such co-channel stations beyond the normally predicted 1 mV/m contour. However, it states that the Commission plainly acknowledges secondary service (§ 73.315(b)) which, in the absence of interference, will provide a listenable signal to rural areas. It states that an Ansley assignment would curtail service to a significant portion of such a rural area. TBC is correct in stating that the Commission does not protect a station's "secondary service," and, in any event, because of our disposition herein, this will not be discussed further.

6. In his reply comments, in response to the *Notice*, petitioner merely states that even though the Census does not reflect population data for Ansley, that it does have a population, albeit small. He adds that "[a]ccording to the residents . . . the Ansley area is a community, consisting of Ansley, Shell Horn and Shady Grove." And that "[o]ne resident . . . *thought* the community consisted of over 500 persons." (emphasis added) As to the area's business concerns, petitioner states that four (unidentified) businesses serve the residents with goods and services and that automotive services, supplies and groceries are available from two identified groceries, both of which it states are within five miles of each other in the "general community."

7. After a careful review and consideration of the comments, we do not find that petitioner has submitted sufficient information in response to our *Notice* to establish that Ansley, Alabama, qualifies as a community for assignment purposes. We are not inferring that Ansley could not be identified as a community, but merely that based upon the information submitted by petitioner, a sufficient showing has not been made to establish it as such under the Commission's criteria. Petitioner has not demonstrated that Ansley contains any of the components which are considered in determining community status, such as banks, post office, library, schools, shopping centers, churches, social and/or civic organizations, newspapers, or other indicia. As the Commission has consistently held, ". . . the term community means a specific locality, with defined boundaries, where the residents share common interests." *See, Naples, Florida, supra.* And, as we held in *Coker, Alabama, supra*, absent other evidence ". . . which demonstrates that the [local] businesses, organizations or services meet the needs of a recognizable group with common interests," we will not make an FM assignment.

8. In view of the above, it is ordered, That the petition of Reid Spann, requesting the assignment of Channel 261A to Ansley, Alabama, is denied.

9. It is further ordered, That this proceeding is terminated.

10. For further information concerning this proceeding, contact Nancy V. Joyner, Broadcast Bureau, (202) 632-7792.

[BC Docket No. 81-405; RM-3775]

FM Broadcast Stations in St. Johns, Arizona; Changes Made in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: This action assigns Class C FM Channel 239 to St. Johns, Arizona, in response to a petition filed by Plateau Communications, Inc. The assignment could provide St. Johns with a first local aural service.

DATE: Effective January 4, 1982.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Nancy V. Joyner, Broadcast Bureau, (202) 632-7792.

SUPPLEMENTARY INFORMATION:

Report and Order

Adopted: November 16, 1981.

Released: November 19, 1981.

By the Acting Chief, Policy and Rules Division:

In the Matter of amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations. (St. Johns, Arizona) BC Docket No. 81-405 RM-3775.

1. The Commission has before it for consideration a *Notice of Proposed Rule Making*, 46 Fed. Reg. 34603, published July 2, 1981, proposing the assignment of Class C FM Channel 239 to St. Johns, Arizona, as that community's first FM allocation, in response to a request filed by Plateau Communications, Inc. ("petitioner"). Supporting comments were filed by the petitioner in which it reaffirmed its intention to apply for the channel, if assigned. No oppositions to the proposal were received.

2. St. Johns (population 3,343),[1] the seat of Apache County (population 52,083), is located approximately 272 kilometers (170 miles) northeast of Phoenix, Arizona. It presently has no local aural service. Channel 239 could be assigned to St. Johns consistent with the minimum distance separation requirements of § 73.207 of the Commission's rules.

3. In supporting comments, petitioner incorporated by reference the information contained in the *Notice* which demonstrated the need for a first FM assignment to St. Johns, Arizona.

4. As stated in the *Notice*, the assignment of Channel 239 to St. Johns will cause preclusion on Channels 236, 237A, 238, 239, 240A, 241, and 242. However, petitioner stated that alternate channels are available to those precluded communities which contain a population in excess of 1,000.

5. In view of the above, we believe that the public interest would be served by the assignment of Channel 239 to St. Johns, Arizona. An interest has been shown for its use and such an assignment could provide the community with a first local aural broadcast service, as well as render service to surrounding areas and populations.[2]

6. Mexican concurrence in the assignment has been obtained.

[1] Population figures are extracted from the 1980 U.S. Census.

[2] In our *Notice*, we pointed our that when a community of St. Johns size requests a Class C assignment, a *Roanoke Rapids/Anamosa* showing is required. However, since it appeared that a Class C assignment to St. Johns would provide a substantial first and/or second service based on its isolated location, we waived the necessity for such a study.

7. In view of the foregoing and pursuant to the authority contained in sections 4(i), 5(d)(1), 303(g) and (r) and 307(b) of the Communications Act of 1934, as amended, and § 0.281 of the Commission's Rules, IT IS ORDERED, That effective January 4, 1982, the FM Table of Assignments, § 73.202(b) of the Commission's rules, is amended with respect to St. Johns, Arizona, as follows:

City	Channel No.
St. Johns, Ariz.	239

8. It is further ordered, That this proceeding is terminated.

9. For further information concerning the above, contact, Nancy V. Joyner, Broadcast Bureau, (202) 632-7792.

(Secs. 4, 303, 48 stat., as amended, 1068, 1082; 47 U.S.C. 154, 303.)

47 CFR Part 73

[BC Docket No. 81-322; RM-3722 and RM-3935]

FM Broadcast Station Coxsackie and Rotterdam, New York; Changes Made in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: Action taken herein assigns FM Channel 252A to Rotterdam, New York, in response to a proposal filed by John D. Flanders. The assignment would provide Rotterdam with a first local aural broadcast service. It also denies the request of Catskill Communications, Inc. to assign the same channel to Coxsackie, New York, as that community's first local aural broadcast service.

DATE: Effective January 4, 1982.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Nancy V. Joyner, Broadcast Bureau, (202) 632-7792.

SUPPLEMENTARY INFORMATION:

Report and Order

Adopted: November 16, 1981.

Released: November 20, 1981.

By the Acting Chief, Policy and Rules Division:

In the Matter of amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations. (Coxsackie and Rotterdam,[1] New York) BC Docket No. 81-322, RM-3722, RM-3935.

1. On May 1, 1981, the Commission issued a *Notice of Proposed Rule Making*, 46 Fed. Reg. 26513, published May 13, 1981, in RM-3722, proposing the assignment of FM Channel 252A to Coxsackie, New York, as that community's first local aural service, in response to a petition filed by Catskill Communications, Inc. ("petitioner").[2] In response to our *Notice*, comments and a counterproposal were filed by John D. Flanders ("Flanders")[3] seeking assignment of Channel 252A to Rotterdam, New York, as that community's first local aural service, to which petitioner responded. Reply comments were filed by both proponents.[4] Appended to the petitioner's comments were letters from several of Coxsackie's community leaders in support of the proposal.

2. Since the distance between Coxsackie and Rotterdam is approximately 46 kilometers (29 miles), whereas the required mileage separation for co-channel Class A assignments is 104 kilometers (65 miles), the proposals are mutually exclusive. No other channels are available for assignment to either community.

3. Coxsackie (population 2,786),[5] in Greene County (population 40,861), is located approximately 32 kilometers (20 miles) south of Albany, New York. It currently has no local aural broadcast service. In the *Notice*, we set forth information submitted by petitioner which we believed merited exploration of the need for a first FM assignment to the community.

4. Rotterdam (population 29,451), in Schenectady County (population 149,946), is located approximately 18 kilometers (11 miles) northwest of Albany, New York. This community, like Coxsackie, is devoid of any local aural service, nor does it have any local newspaper available to its residents.

5. In support of its proposal, Flanders states that Rotterdam has its own government unit, schools, civic organizations, churches, and retail outlets. It adds that the principal economy of the community is derived from industrial and retail elements, as well as truck farming. Further, it states that a portion of the General Electric Company complex is located within its town boundaries. Channel 252A could be assigned to Rotterdam in compliance with the minimum distance separation requirements of § 73.207 of the Commission's rules.

6. Flanders states in its comments that neither assignment will provide any first or second service, and that both proposals would have only slight preclusive effects. It adds that each community is served by fulltime AM Station WGY, Schenectady, New York, as well as the following six commercial FM stations:

Coxsackie	*Rotterdam*
WGNA (Albany)	WGNA (Albany)
WPYX (Albany)	WPYX (Albany)
WROW-FM (Albany)	WROW-FM (Albany)
WGFM (Schenectady)	WWOM (Albany)
WFLY (Troy)	WGFM (Schenectady)
WHUC-FM (Hudson)	WFLY (Troy)

7. Flanders urges the Commission to consider its suggestion that Channel 272A be assigned to Saugerties, New York, in an attempt to satisfy petitioner's request for a Class A assignment to its proposed service area. It states that the terrain in that area is such as to permit 1 mV/m service to the Catskill area as well as Coxsackie. We do not have a commitment from any party that the channel would be utilized in Saugerties but would entertain such a request, if properly made.

8. Petitioner did not file supporting comments reaffirming its intention to apply for the channel if assigned to Coxsackie. However, the Commission does not have reason to believe otherwise since its late-filed reply pleading implies its continuing interest, although such is not clearly stated. In any event, this factor is not controlling in our determination of the community to be preferred for assignment purposes.

9. Our finding herein rests solely on satisfying one of the most important assignment priorities, which is to provide a first FM service to as much of the population of the United States as possible. Each proposal would provide a first local service but, in keeping with our assignment priorities, Rotterdam must be preferred since it is significantly more populous. See, *Theodore and Chickasaw, Alabama*, 39 RR 2d 412 (Broadcast Bureau, 1976).

---

[1] This community has been added to the caption.

[2] Petitioner is the licensee of Station WCKL (AM), Catskill, New York.

[3] Public Notice of the petition was given July 17, 1981, Report No. 1299.

[4] The reply of petitioner was filed late and petitioner requested that the pleading be accepted on that basis. We have considered the pleading herein since it would aid us in making a comparative determination of the merits of assigning the channel to Coxsackie as requested. Flanders also submitted a reply to petitioner's reply comments. However, the Commission's procedures do not contemplate such a filing (see § 1.415 of the Commission's rules) and we do not find sufficient justification to give consideration to that filing.

[5] All population figures herein are extracted from the 1980 U.S. Census.

10. The assignment of Channel 252A is made to Rotterdam consistent with the minimum distance separation requirements of § 73.207 of the Commission's rules. Canadian concurrence in the assignment has been obtained.

11. In view of the foregoing and pursuant to authority contained in Sections 4(i), 5(d)(1), 303(g) and (r) and 307(b) of the Communications Act of 1934, as amended, and Section 0.281 of the Commission's Rules, it is ordered, That effective January 4, 1982, the FM Table of Assignments, § 73.202(b) of the Commission's rules, is amended, as follows:

City	Channel No
Rotterdam, NY	252A

12. It is further ordered, That the petition of Catskill Communications, Inc. (RM–3722), proposing the assignment of FM Channel 252A to Coxsackie, New York, is hereby denied.

13. It is further ordered, That this proceeding is terminated.

14. For further information concerning the above, contact Nancy V. Joyner, Broadcast Bureau, (202) 632–7792.

(Secs. 4, 303, 48 Stat., as amended, 1066, 1082; 47 U.S.C. 154, 303.)

[BC Docket No. 81–401; RM–3733]

FM Broadcast Station in Midland, Texas; Changes Made in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: This action assigns FM Channel 294 to Midland, Texas, in response to a petition filed by Stephen L. Wood and D. Lloyd Henderson. The assigned channel could provide a fourth FM service to Midland.

DATE: Effective January 4, 1982.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Montrose H. Tyree, Broadcast Bureau, (202) 632–7792.

SUPPLEMENTARY INFORMATION:

Report and order

Adopted: November 16, 1981.

Released: November 19, 1981.

By the Acting Chief, Policy and Rules Division.

In the Matter of amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations. (Midland, Texas) BC docket No. 81—401, RM–3733.

1. The Commission has under consideration a *Notice of Proposed Rule Making*, 46 Fed. Reg. 35133, published July 7, 1981, proposing the assignment of Class C FM Channel 294 to Midland, Texas, as that community's fourth FM assignment in response to a request from Stephen L. Wood and D. Lloyd Henderson ("petitioners"). Comments in support of the proposal were filed by Albert C. Hajny, by Richard L. and Ladona L. Moore, and by the petitioners, each stating their intent to apply for the channel, if assigned.

2. Midland (population 70,525),[1] seat of Midland County (population 82,636) is located approximately 496 kilometers (310 miles) west-southwest of Dallas, Texas. It is served locally by one fulltime AM station, three daytime-only AM stations, and three FM stations.

3. In its comments, the petitioners incorporated by reference the information contained in the *Notice* demonstrating the need for a fourth FM assignment.

4. As stated in the *Notice*, the proposed assignment would provide no new first or second service to Midland. The petitioners have stated that alternate channels are available to the communities precluded by the assignment. Since alternate channels are available to the communities precluded by the assignment, we consider the preclusion impact minimal. On the basis of the interest expressed and the apparent need for a fourth FM station at this growing community, we find the proposal justified. The transmitter site is restricted to 11.2 kilometers (7 miles) southeast of the city, to avoid short spacing to Channel 296A, Jal, New Mexico.

5. Mexican concurrence has been obtained in the assignment of Channel 294 to Midland, Texas.

6. Accordingly, pursuant to authority contained in sections 4(i), 5(d)(1), 303 (g) and (r) and 307(b) of the Communications Act of 1934, as amended, and § 0.281 of the Commission's Rules, it is ordered, That effective January 4, 1982, the FM Table of Assignments, § 73.202(b) of the rules, is amended with respect to the community listed below:

City	Channel No
Midland, Texas	222, 227, 277, 294

7. It is further ordered, That this proceeding is terminated.

8. For further information concerning this proceeding, contact Montrose H. Tyree, Broadcast Bureau, (202) 632–7792.

(Secs. 4, 303, 48 Stat., as amended, 1068, 1082; 47 U.S.C. 154, 303)

[PR Docket No. 81–215; RM–3742; FCC 81–527]

Talk-Around in Private Land Mobile Radio Services on Shared Channels Above Certain Frequency

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: The FCC adopts revisions to its rules which permit "talk-around" on a primary basis in the private land mobile radio services on conventional and trunked channels above 806 MHz thereby allowing mobile-to-mobile intercommunication in areas in which it is difficult or unnecessary to access the mobile relay station.

DATE: Effective December 30, 1981.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Lewis H. Goldman, Private Radio Bureau, (202) 632–6497.

SUPPLEMENTARY INFORMATION:

In the matter of amendment of the Commission's rules and regulations to permit Talk-around in the private land mobile radio services on shared channels above 806 MHz, Report and Order.

Adopted: November 12, 1981.

Released: November 27, 1981.

1. We initiated this proceeding on March 26, 1981, in response to a petition from the Special Industrial Radio Service Association Inc. (SIRSA),[1]

[1] SIRSA's August 18, 1980 petition (RM–3742) was subsequently supported, prior to any Commission action, in comments received from the Central

Continued

which sought the institution of rule making looking towards an amendment of Subpart M of Part 90 of our rules to permit mobile stations operating in the private land mobile radio services on shared conventional channels above 806 MHz to transmit mobile-to-mobile by employing the assigned paired base station frequency, thereby avoiding the associated mobile relay or "repeater" station.[2] This change would permit mobile units to talk directly to each other in situations when they had no need to talk through the mobile relay or where this was not feasible (at the fringes of the mobile relay's signal or in hilly terrain).

2. By way of explanation, channels in the 800 MHz band are assigned in pairs, as is also the case in the 450–470 MHz and 470–512 MHz bands. Ordinarily mobile units and control stations transmit on frequency A and receive on frequency B; base stations transmit on frequency B and receive on frequency A. In the 800 MHz band this channel pair operation is prescribed by 47 CFR 90.365(a)(3).

3. In a mobile relay system, the relay is the base station. Hence, all communications between mobile units or between a mobile unit and a control station must ordinarily go through the mobile relay (commonly known as the "repeater"), because the only frequency the mobile or control station can receive is the repeater transmit frequency. The operating technique termed "talk-around" permits a mobile unit in a paired frequency operation to communicate with another mobile unit without going through the mobile relay. This is accomplished by the mobile unit using the base or mobile relay channel to transmit. (We noted in the *Notice* initiating this proceeding that although talk around capability primarily benefits users of mobile relay systems, it can also be employed in two-frequency simplex systems.)[3]

4. In proposing to amend the rules to permit talk-around, we explained that under existing rules talk-around is permitted below 806 MHz.[4] With respect to the 800 MHz band, however, an implicit prohibition of this mode is contained in 47 CFR 90.365(a)(3). In contrast, 47 CFR 90.385(c) permits—again by implication—the employment of talk-around where a licensee has exclusive use of an 800 MHz conventional channel pair. The purpose of the restriction upon talk-around in the case of shared systems was to permit the other sharing users of the same frequency pair to operate free from mobile station interference.[5]

5. We commenced this proceeding because SIRSA and the parties supporting its petition expressed confidence that talk-around at 800 MHz would not create a significant interference problem for sharing users of the co-channel base frequency while providing concomitant benefits to licensees needing mobile-to-mobile communications in situations where use of the repeater would not be feasible or desirable.[6]

6. However, our *Notice* differed from that which was sought in the SIRSA petition in two respects. First, we proposed to authorize talk-around above 806 MHz only on a secondary basis to the usual mobile relay mode of operation. In addition, we invited comments on whether talk-around should be authorized on trunked frequencies, a point not raised by SIRSA or any other party which supported its petition. We asked whether special problems might be encountered in trunked operations.

7. Comments were received from Charley Murray, Inc. (Murray), the Central Committee on Telecommunications of the American Petroleum Institute (API), the Manufacturers Radio Frequency Advisory Committee (MRFAC), Motorola, Inc., the National Association of Business and Educational Radio, Inc. (NABER), as well as SIRSA, the original petitioner. These parties, most of whom also commented in favor SIRSA's initial rule making submission, are unanimous in support of talk-around at 800 MHz. However, none support limiting talk-around to a secondary use. Talk-around on trunked facilities also meets with approval from all who address that point.

8. Murray, an equipment hauling firm, noted that it is often outside or on the edge of repeater range. Murray urges adoption of talk-around at 800 MHz. NABER reiterates its earlier firm support of 800 MHz band talk-around, but criticizes our proposal to authorize it only on a secondary basis. Pointing out that neither SIRSA nor any other interested party supported secondary use, NABER contends that there is no record to justify that limitation.

9. API's experience with talk-around, it asserts, does not support the secondary use restriction. Moreover, API states, there is no reason to preclude talk-around on trunked facilities, even if currently available trunked equipment does not have that capability. We should allow it now, API reasons, so that it may be implemented as soon as suitable trunked equipment is on the market. SIRSA, the original petitioner, notes that talk-around is not relegated to secondary status below 512 MHz, and the petitioner finds no rationale offered by us to support that limitation. SIRSA also approves of talk-around on trunked systems barring any serious engineering considerations. MRFAC, while not addressing the issue of secondary use, believes that talk-around on trunked facilities should be encouraged unless technical difficulties are foreseen.

10. Motorola, the only equipment manufacturer to comment, strongly opposes secondary use, saying it is unaware of interference complaints arising from talk-around operation in the lower frequency bands. It takes note of the Commission's occasional grant of waivers to permit talk-around at 800 MHz. Those given waivers, Motorola stresses, have been authorized operation on a primary basis. It would make no sense, Motorola submits, to accord waiver recipients primary status while those using talk-around pursuant to a rule amendment permitting it must do so on a secondary basis. The latter would be justifiable, Motorola contends, only where there is demonstrable evidence of or a legitimate question concerning interference. Motorola does support its use on trunked systems. It is technically feasible, Motorola says, and it will not precipitate co-channel interference problems. Many potential talk-around users, e.g., construction crews and quarry workers, now use 800 MHz trunked facilities, and these types of operations, Motorola asserts, are good candidates for talk-around operation.

Committee on Telecommunications of the American Petroleum Institute, the Manufacturers Radio Advisory Committee, Forest Industries Telecommunications, and Motorola, Inc. SIRSA and the National Association of Business and Educational Radio, Inc., filed supporting reply comments.

[2] The proceeding was commenced by *Notice of Proposed Rule Making, PR Docket No. 81–215*, (FCC 81–120), adopted March 26, 1981, released April 9, 1981, 46 22624, April 20, 1981.

[3] Two frequency simplex is a system where the mobile transmits on one frequency and the base on a different frequency; neither the base nor the mobiles may both transmit and receive simultaneously because each station's receiver is muted when its associated transmitter is activated. This is contrasted to two frequency duplex, where either the base or mobile, or both, may transmit and receive simultaneously.

[4] Talk-around is explicitly authorized in the 450–470 MHz and 450–512 MHz bands, 47 CFR 90.173(i), and has been permitted as a matter of administrative policy in the bands below 450 MHz.

[5] See *Land Mobile Service, Docket No. 18262, Memorandum Opinion and Order*, 51 FCC 2d 945, 981 (1975).

[6] See *Notice of Proposed Rule Making, PR Docket No. 81–215*, f.n. 2, *supra*, at paras. 4–5.

11. We have carefully considered all of the comments and are persuaded not only that talk-around on shared channels above 806 MHz should be authorized, but that we should permit its use on a primary basis with both conventional and trunked shared facilities, so that when trunked equipment which can be employed in the talk-around mode becomes available, its use need not await further rule making proceedings. There have been no allegations that primary operation in the talk-around mode, whether on conventional or trunked shared channel pairs, would create a significant interference hazard or present any other problems. We have already noted, in issuing the *Notice*, that mobile transmissions on the base transmit frequency are unlikely to overpower mobile relay or base transmissions because the maximum effective radiated power of mobile units is normally much less than that of base stations.[1] The only interference would be to other users operating on the same channel pair in the talk-around mode. Yet talk-around permits mobiles to communicate with each other in areas where it is difficult to access the repeater, e.g., at the fringe of the mobile relay's signal or in hilly terrain. Moreover, because talk-around tranmission at a single site eliminates the need to use the repeater, mobile relay congestion will thus be alleviated.

12. For the foregoing reasons, we conclude that authorization of talk-around operation on a primary basis on shared 800 MHz conventional or trucked frequency pairs is in the public interest. Accordingly, pursuant to the authority contained in Sections 4(i) and 303(r) of the Communication Act of 1934, as amended, it is ordered, that effective December 30, 1981, Part 90 of the Commission's rules, 47 CFR Part 90 , is amended as set forth in the Appendix.

13. It is further ordered that this proceeding is terminated.

14. It is further ordered that the Secretary of the Commission shall cause this Report and Order to be published in the **Federal Register**.

15. For further information concerning this document, contact Lewis H. Goldman, Room 5120, Private Radio Bureau, Federal Communications Commission, Washington, D.C. 20554, (202) 632-6497.

(Secs., 4, 303, 307, 48 Stat., as amended. 1066, 1082, 1083; 47 U.S.C. 154, 303, 307.)

[1] See 47 CFR § 90.379 (a) and (d).

Federal Communications Commission.

William J. Tricarico,

Secretary.

Appendix

PART 90—PRIVATE LAND MOBILE RADIO SERVICES

Part 90 of Chapter I of Title 47 of the Code of Federal Regulations is amended as follows:

Section 90.365(a) (1)(i) and (a)(3) are revised to read as follows:

§ 90.365 Selection and assignments of frequencies.

(a) * * *

(1) * * *

(i) All Mobile and control station frequencies will be chosen from those allocated in the 806–821 MHz band. Mobile station transmitting frequencies will commence with Channel No. 1 at 820.9875 MHz, followed by Channel No. 2 at 820.9625 MHz, and proceed to the band end with uniform 25 kHz channeling; and base station transmitting frequencies will be selected by the Commission and assigned from those allocated in the 851–866 MHz band, commencing with Channel No. 1 at 865.9875 MHz, followed by Channel No. 2 at 865.9625 MHz, and proceed to the band end with uniform 25 kHz channeling. A mobile station is authorized to transmit on any frequency assigned to its associated base station.

* * * * *

(3) For conventional systems, mobile station transmitting frequencies, as well as those for use by control stations, will be selected from those allocated in the 806–821 MHz band. Mobile and control station transmitting frequencies will commence with Channel No. 1 at 806.0125 MHz, followed by Channel No. 2 at 806.0375 MHz, and proceed to the band end with uniform 25 kHz channeling. Base station transmitting frequencies will be selected and assigned from those allocated in the 851–866 MHz band, with Channel No. 1 commencing at 851.0125 MHz, followed by Channel No. 2 at 851.0375 MHz, and proceed to the band end with uniform 25 kHz channeling. The spacing between associated mobile and base station frequencies shall be, uniformly, 45 MHz. A mobile station is authorized to transmit on any frequency assigned to its associated base station.

* * * * *

BILLING CODE 6712-01-M

DEPARTMENT OF TRANSPORTATION

Research and Special Programs Administration

49 CFR Parts 172, 173, 175, 176, and 178

[Docket HM-139D; Amdt. Nos. 172-72, 173-151, 175-21, 176-14, and 178-68]

Conversion of Individual Exemptions to Regulations of General Applicability

AGENCY: Materials Transportation Bureau (MTB), Research and Special Programs Administration, DOT.

ACTION: Final rule.

SUMMARY: This action is being taken to incorporate into the Department's Hazardous Materials Regulations a number of changes based on the data and analyses supplied in selected exemption applications or from existing exemptions. The need for this action has been created by the public demand to make available new packagings and shipping alternatives that have proven themselves safe under the Department's exemptions program. The intended effect of these amendments is to provide wider access to the benefits of transportation innovations recognized and shown to be effective and safe.

EFFECTIVE DATE: These amendments are effective January 4, 1982. However, compliance with the regulations as amended herein is authorized immediately.

FOR FURTHER INFORMATION CONTACT: Darrell L. Raines, Chief, Exemptions and Regulations Termination Branch, Office of Hazardous Materials Regulation, Materials Transportation Bureau, Washington, D.C. 20590 (202-472-2726).

SUPPLEMENTARY INFORMATION: On June 4, 1981 the MTB published Notice No. 81-3 (46 FR 29973) under Docket HM-139D which proposed to amend the Hazardous Materials Regulations by incorporating the provisions of certain DOT exemptions and applications for exemptions into the general regulations. The public comment period ended July 20, 1981. A total of ten comments were received which referenced Docket HM-139D.

Two commenters requested that MTB consider including their exemption(s) into the next HM-139 rulemaking. One commenter requested that the mandatory compliance date for calcium silicon (powder) be at least six months after publication in the **Federal Register**. As a matter of information, holders of exemptions that are terminated by Docket HM-139 are given approximately six months to deplete their existing

stock before the exemption number has to be removed from the containers and shipping papers.

One comment received which was undated and unsigned recommended that MTB publish an amended notice so as to include such data as the number of units/carload commodities handled under each of the subject exemptions; the accident experience, if any, under each of the subject exemptions; and the types and characteristics of commodities handled under each of the exemptions. Apparently, this commenter is not familiar with the rulemakings under Docket HM–139. Approximately 300 exemptions have been terminated under HM–139 since November 15, 1976. Any exemption that has a questionable shipping experience is not considered for rulemaking under this docket.

A couple of changes have been made regarding the use of Specification 56 and 57 tanks that were not fully addressed in the notice.

First, for transportation by water in the Specification 57 tanks, frangible devices are not authorized in §§ 173.119(b)(6), 173.128(a)(3), 173.132(a)(2), 173.245(a)(38), 173.256(b)(1), 173.263(a)(8), 173.276(a)(12), and 173.277(c). These changes are necessary in order to provide a package that will not leak during transportation by water. Second, the authorized use of the Specification 56 tank has been expanded to include flammable solids (including water reactive materials) and dry oxidizers. During the past several years commodities such as calcium carbide, sodium nitrate, sodium hydrosulfite, phosphorous pentasulfide, magnesium powder, ammonium perchlorate, and others, have been transported in Specification 56 tanks or nonspecification portable tanks equivalent to Specification 56 tanks under the terms of a DOT exemption without incident. In view of the above, § 173.154 has been revised accordingly.

Other than minor editorial changes, the only other change of any significance is the revision of § 176.340. Because of the change being made in § 173.119, it is necessary to amend § 176.340; otherwise, combustible liquids not having any other hazards would not be allowed in the same portable tanks as authorized for flammable liquids.

In consideration of the foregoing, 49 CFR Parts 172, 173, 175, 176, and 178 are amended as follows:

PART 172—HAZARDOUS MATERIALS TABLE AND HAZARDOUS MATERIALS COMMUNICATIONS REGULATIONS

1. In § 172.101, the Hazardous Materials Table is amended by adding Calcium silicon (powder) and Magnesium, granules, coated. The entry Magnesium metal (*powdered, pellets, turnings,* or *ribbons*) is revised to read as follows:

§ 172.101 Hazardous materials table.

* * * * *

(1)	(2)	(3)	(3A)	(4)	(5)		(6)	(7)		
					Packaging		Maximum net quantity in 1 package (pounds)	Water shipments		
. /E/A/W	Hazardous materials descriptions and proper shipping names	Hazard class	Identification No	Label(s) required (if not excepted)	(a) Exceptions	(b) Specific requirements	(a) Passenger carrying aircraft or railcar	(b) Cargo only aircraft	(a) Cargo vessel	(b) Passenger vessel	(c) Other requirements
	.	.	.	.	.	.	.	.	.	.	
	Calcium silicon (*powder*)	Flammable solid..	UN1406	Flammable solid and Dangerous when wet	173.153	173.178	Forbidden	25	1.2	4	Segregation same as for flammable solids labeled Dangerous when wet
	.	.	.	.	.	.	.	.	.	.	
	Magnesium granules coated, *particle size not less than 149 microns*	Flammable solid...	UN2950	Flammable solid and Dangerous when wet.	173.153	173.178	25	100	1.2	1.2	Segregation same as for flammable solids labeled Dangerous when wet.
	Magnesium metal (*powder, pellets, turnings, or ribbon*) or Magnesium aluminum powder	Flammable solid...	UN1869	Flammable solid and Dangerous when wet	173.153	173.220	25	100	1.2	1.2	Segregation same as for flammable solids labeled Dangerous when wet
	.	.	.	.	.	.	.	.	.	.	

PART 173—SHIPPERS—GENERAL REQUIREMENTS FOR SHIPMENTS AND PACKAGINGS

2. In § 173.119, paragraph (b)(6) is added to read as follows:

§ 173.119 Flammable liquids not specifically provided for.

* * * * *

(b) * * *

(6) Specification 57 (§ 178.253 of this subchapter). Steel portable tank. Authorized for transportation by water when having a minimum design pressure of 9 psig and equipped in accordance with § 178.253–4, except that frangible devices are not authorized. Also, for water transportation, no pressure relief device may open at less than 5 psig. Authorized for liquids with flash points above 20° F and a vapor pressure not over 16 psia at 100° F.

* * * * *

3. In § 173.128, paragraph (a)(3) is revised to read as follows:

§ 173.128 Paints and related materials (flammable liquids).

(a) * * *

(3) Specification 52[1] or 57 (§§ 178.251, 178.253 of this subchapter). Metal portable tank. Not authorized for transportation by water except as prescribed in § 173.119(b)(6) of this subchapter.

* * * * *

4. In § 173.131, paragraph (a)(2) is revised to read as follows:

§ 173.131 Road asphalt, or tar, liquid.

(a) * * *

(2) In cargo tanks that are at least equivalent in design and construction to Specification MC–306 (§§ 178.340, 178.341 of this subchapter) except for the requirements of §§ 178.340–10, 178.341–3, 178.341–4, and 178.341–5.

* * * * *

5. In § 173.132, paragraph (a)(2) is revised to read as follows:

§ 173.132 Cement liquid, n.o.s.; container cement; linoleum cement; pyroxylin cement; rubber cement; tile cement; wallboard cement; coating solution (flammable liquids).

(a) * * *

(2) Specification 52[1] or 57 (§§ 178.251, 178.253 of this subchapter). Metal portable tank. Not authorized for transportation by water except as prescribed in § 173.119(b)(6) of this subchapter.

* * * * *

6. In § 173.154, paragraph (a)(5) is added to read as follows:

§ 173.154 Flammable solids, organic peroxide solids and oxidizers not specifically provided for.

(a) * * *

(5) Specification 56 (§ 178.252 of this subchapter). Metal portable tank. Authorized only for flammable solids (including water reactive materials) and dry oxidizers.

* * * * *

7. In § 173.164, paragraph (a)(7) is added to read as follows:

§ 173.164 Chromic acid or chromic acid mixture, dry.

(a) * * *

(7) Specification 56 (§ 178.252 of this subchapter). Steel portable tank.

* * * * *

8. In § 173.178, the heading and the introductory text of paragraph (a) are revised to read as follows:

§ 173.178 Calcium carbide, calcium silicon powder, and magnesium granules, coated.

(a) Calcium carbide, calcium silicon powder, and magnesium granules, coated must be packed as follows:

* * * * *

9. In § 173.182 the last sentence of paragraph (b)(6)(ii) is revised to read as follows:

§ 173.182 Nitrates.

* * * * *

(b) * * *

(6) * * *

(i) * * *

(ii) * * * Authorized only for amonium nitrate (no organic coating), ammonium nitrate fertilizer, and potassium nitrate; or

* * * * *

10. In § 173.220, the heading and the introductory texts of paragraphs (b) and (b)(2) are revised to read as follows:

§ 173.220 Magnesium or zirconium scrap consisting of borings, clippings, shavings, sheets, turnings, or scalpings, and magnesium metallic (other than scrap), powder, pellets, turnings, or ribbon; magnesium aluminum powder.

* * * * *

(b) Magnesium metallic (other than scrap), powder, pellets, turnings or ribbon, magnesium aluminum powder, must be packed in containers as prescribed in § 173.154.

* * * * *

(2) Specification 56 (§ 178.252 of this subchapter). Portable tank. Not authorized for transportation by water. For magnesium powder or magnesium aluminum powder, the following additional requirements must also be met:

* * * * *

11. In § 173.245, paragraph (a)(38) is added to read as follows:

§ 173.245 Corrosive liquids not specifically provided for.

(a) * * *

* * * * *

(38) Specification 57 (§ 178.253 of this subchapter). Steel portable tank. Authorized only for acetic acid, glacial; acetic acid solutions; compound, cleaning liquid; compound, lacquer, paint, or varnish removing, liquid; compound, rust preventing or compound, rust removing; *orthochlorophenol;* and phosphoric acid not exceeding 85 percent strength. For acid solutions, tanks constructed of a steel other than stainless steel must have a polyethylene liner impervious to the solution. Authorized for transportation by water when having a minimum design pressure of 9 psig and equipped in accordance with § 178.253–4, except that frangible devices are not authorized. Also, for water transportation, no pressure relief device may open at less than 5 psig.

* * * * *

12. In § 173.256, paragraph (b) is added to read as follows:

§ 173.256 Compounds, cleaning, liquid.

* * * * *

(b) Compounds, cleaning, liquid containing not more than 20 percent hydrofluoric acid, by weight, may also be shipped in specification containers as follows:

(1) Specification 57 (§ 178.253 of this subchapter). Steel portable tank. Authorized for transportation by water when having a minimum design pressure of 9 psig and equipped in accordance with § 178.253–4, except that frangible devices are not authorized. Also, for water transportation, no pressure relief device may open at less than 5 psig. Tanks must have a polyethylene liner impervious to the solution.

13. In § 173.263, paragraph (a)(8) is added to read as follows:

§ 173.263 Hydrochloric (muriatic) acid; hydrochloric (muriatic) acid mixtures; hydrochloric (muriatic) acid solution, inhibited; sodium chlorite solution (not exceeding 42 percent sodium chlorite); and cleaning compounds, liquids, containing hydrochloric (muriatic) acid.

(a) * * *

(8) Specification 57 (§ 178.253 of this subchapter). Steel portable tank. Authorized only for cleaning compounds, liquid, containing hydrochloric (muriatic) acid of not over 20 percent total acid by weight. Tank must have a polyethylene liner impervious to the solution. Authorized for transportation by water when having a minimum design pressure of 9 psig and equipped in accordance with § 178.253–4, except that frangible devices are not authorized. Also, for water transportation, no pressure relief device may open at less than 5 psig.

* * * * *

14. In § 173.276, paragraph (a)(12) is added to read as follows:

§ 173.276 Anhydrous hydrazine and hydrazine solution.

(a) * * *

* * * * *

(12) Specification 57 (§ 178.253 of this subchapter). Stainless steel portable tank. Authorized for hydrazine, aqueous solution only. Authorized for transportation by water when having a minimum design pressure of 9 psig and equipped in accordance with § 178.253–4, except that frangible devices are not authorized. Also, for water transportation, no pressure relief device may open at less than 5 psig.

15. In § 173.277, paragraph (c) is added to read as follows:

§ 173.277 Hypochlorite solutions.

* * * * *

(c) Specification 57 (§ 178.253 of this subchapter). Steel portable tank. Authorized for not over 15 percent solutions of sodium hypochlorite only. Authorized for transportation by water when having a minimum design pressure of 9 psig and equipped in accordance with § 178.253–4, except that frangible devices are not authorized. Also, for water transportation, no pressure relief device may open at less than 5 psig. Tanks constructed of a steel other than stainless steel must have a polythylene liner impervious to the solution. Vented closures are authorized.

* * * * *

16. In § 173.301, paragraph (k) is amended by revising (k) introductory text as follows:

§ 173.301 General requirements for shipment of compressed gases in cylinders.[1]

* * * * *

(k) *Outside packagings.* Specification 2P, 2Q, 3E, 3HT, 4BA spherical type, 4D, 4DA, 4DS, 9[1], 39, 40[1], and 41[1] must be shipped in strong outside packagings, except that the 4BA spherical type may

be securely mounted on pallets to provide protection for the spheres and any attachments.

* * * * *

17. In § 173.357, paragraph (b)(3) is revised to read as follows:

§ 173.357 Chloropicrin and chloropicrin mixtures containing no compressed gas or Poison A liquid.

* * * * * * *

(b) * * *

* * * * *

(3) Specification 17C or 17E (§§ 178.115, 178.116 of this subchapter). Metal drums (single-trip) with openings not over 2.3 inches in diameter. Capacity not to exceed 55 gallons for Spec. 17C nor 30 gallons for Spec. 17E. Authorized only for chloropicrin mixtures containing not over 15 percent chloropicrin by weight or 15 percent by volume chloropicrin, 85 percent by volume dichloropropene technical, and only authorized for such mixtures not classed as flammable under these regulations.

* * * * *

18. In § 173.365, paragraph (a)(11) is added to read as follows:

§ 173.365 Poison B solids not specifically provided for.

(a) * * *

* * * * * * *

(11) Specification 56 (§ 178.252 of this subchapter). Metal portable tank. Authorized only for *p-nitrobenzyl bromide.*

* * * * * * *

19. In § 173.375, paragraph (a)(3) is added to read as follows:

§ 173.375 Sodium azide.

(a) * * *

* * * * * *

(3) Specification 56 (§ 178.252 of this subchapter). Stainless steel portable tank designed for top loading and unloading only. Tanks may be equipped with a bottom clean out plug. No part of the tank or fittings that come in contact with the sodium azide may contain any metal such as copper, lead, silver or mercury which can form explosive azide compounds. Each transport vehicle must be loaded by the consignor and unloaded by the consignee or by persons trained by the consignor. Not authorized for transportation by water.

20. In § 173.505, paragraph (b) is revised to read as follows:

§ 173.505 Exceptions for Other Regulated Material (ORM).

* * * * * *

(b) Strong outside packagings as specified in § 173.1200 of this subchapter are not required for materials classed as ORM–D when unitized in cages, carts, or similar overpacks and when shipped by a private or contract motor carrier from a distribution center to a retail outlet.

PART 175—CARRIAGE BY AIRCRAFT

21. In § 175.310, paragraph (c)(1) is revised to read as follows:

§ 175.310 Transportation of flammable liquid fuel in small, passenger-carrying aircraft.

* * * * * *

(c) * * *

(1) In strong tight metal containers of not more than 5 gallons capacity, each packed inside a DOT Specification 12B fiberboard box or each packed inside a DOT Specification 15A, 15B, 15C, 16A, 19A or 19B wooden box, or in the case of a small aircraft in Alaska, each packed inside a wooden box of at least one-half inch thickness;

* * * * * *

PART 176—CARRIAGE BY VESSEL

22. In § 176.340, the entire section is revised to read as follows:

§ 176.340 Combustible liquids in portable tanks.

(a) Combustible liquids may be transported by vessel in portable tanks only as specified below:

(1) Portable tanks authorized in § 173.119 of this subchapter.

(2) Portable tanks approved and maintained in accordance with 46 CFR 98.35, constructed prior to October 1, 1974. Such tanks may continue in service only until October 1, 1984.

(3) Portable tanks approved by the Commandant of the Coast Guard (G–MHM).

PART 178—SHIPPING CONTAINER SPECIFICATIONS

23. In § 178.51, §§ 178.51–2, 178.51–10 ((b) and (c) revised and (d) added), 178.51–12, 178.51–13 (heading and paragraph (a)) and 178.51–19 ((c) revised) are revised to read as follows:

§ 178.51–2 Type, size, and service pressure.

(a) *Type.* Cylinders may be spherical or cylindrical in shape. Closures made by the spinning process are not authorized.

(1) Spherical type cylinders must be made from two seamless hemispheres joined by the welding of one circumferential seam.

(2) Cylindrical type cylinders must be of circumferentially welded or brazed construction.

(b) *Size.* The capacity of the cylinder must be 1,000 pounds water capacity or less.

(c) *Service pressure.* The service pressure must be at least 225 and not over 500 pounds per square inch gauge.

§ 178.51–10 is amended by revising (b) and (c) and adding (d) to read as follows:

§ 178.51–10 Wall thickness.

(a) * * *

(b) Cylinders that are cylindrical in shape must have the wall stress calculated by the formula:

$$S=[P(1.3D^2+0.4d^2)]/(D^2-d^2)$$

Where:

S = wall stress in pounds per square inch;
P = minimum test pressure prescribed for water jacket test;
D = outside diameter in inches;
d = inside diameter in inches.

(c) Cylinders that are spherical in shape must have the wall stress calculated by the formula:

$$S=PD/4tE$$

Where:

S = wall stress in pounds per square inch;
P = minimum test pressure prescribed for water jacket test;
D = outside diameter in inches;
t = minimum wall thickness in inches;
E = 0.85 (provides 85 percent weld efficiency factor which must be applied in the girth weld area and heat affected zones which zone shall extend a distance of 6 times wall thickness from center line of weld);
E = 1.0 (for all other areas).

(d) For cylinders with wall thickness less than 0.100 inch, the ratio of tangential length to outside diameter shall not exceed 4.0.

§ 178.51–12 is revised to read as follows:

§ 178.51–12 Openings in cylinders.

(a) Any opening must be placed on other than a cylindrical surface.

(b) Each opening in a spherical type cylinder must be provided with a fitting, boss, or pad of weldable steel securely attached to the container by fusion welding.

(c) Each opening in a cylindrical type cylinder must be provided with a fitting, boss, or pad, securely attached to container by brazing or by welding.

(d) If threads are used, they must comply with the following:

(1) Threads must be clean-cut, even, without checks and tapped to gauge.

(2) Taper threads to be of length not less than as specified for American Standard taper pipe threads.

(3) Straight threads, having at least 4 engaged threads, to have tight fit and calculated shear strength at least 10 times the test pressure of the cylinder; gaskets required, adequate to prevent leakage.

§ 178.51–13 is revised to read as follows:

§ 178.51–13 Pressure relief devices and protection for valves, safety devices, and other connections, if applied.

(a) Must be as required by the Department of Transportation's regulations that apply (see §§ 173.34(d), 173.124(a), 173.301(g), and 173.301(k) of this subchapter).

§ 178.51–19 is amended by revising (c) to read as follows:

§ 178.51–19 Marking.

* * * * *

(c) Location of markings. Markings may be stamped plainly and permanently in the following locations on the cylinder:

(1) On shoulders and top heads not less than 0.087 inch thick.

(2) On side wall adjacent to top head for side walls not less than 0.090 inch thick.

(3) On a cylindrical portion of the shell which extends beyond the recessed bottom of the cylinder constituting an integral and non-pressure part of the cylinder.

(4) On a plate attached to the top of the cylinder or permanent part thereof; sufficient space must be left on the plate to provide for stamping at least six retest dates; the plate must be at least 1/16 inch thick and must be attached by welding, or by brazing at a temperature of at least 1100°F., throughout all edges of the plate.

* * * * *

24. In § 178.118, the introductory text of § 178.118–10(a) introductory text is revised to read as follows:

§ 178.118–10 Marking.

(a) Marking requirements for new or altered drums are as follows: *New drums.* Marking on each drum by embossing on the permanent head, with raised marks, or by embossing or die stamping on footring, (if equipped), or on metal plates securely attached to drum by brazing or welding not less that 20 percent of the perimeter. *Altered drums.* Drums which have been altered to Specification 17H from an all 18-gauge tight head drum may be embossed on the body of the drum, no more than six inches from top curl.

* * * * *

(49 U.S.C. 1803, 1804, 1808; 49 CFR 1.53, App. A to Part 1).

Note.—The Materials Transportation Bureau has determined that this document will not result in a "major rule" under the terms of E.O. 12291 and is not a significant regulation under DOT's regulatory policy and procedures (44 FR 11034), nor require an environmental impact statement under the National Environmental Policy Act (49 U.S.C. 4321, et seq.) A regulatory evaluation and an environmental assessment are available for review in the docket. I certify that this final rule will not have a significant economic impact on a substantial number of small entities.

Issued in Washington, D.C. on November 25, 1981.

L. D. Santman,

Director, Materials Transportation Bureau.

BILLING CODE 4910–60–M

INTERSTATE COMMERCE COMMISSION

49 CFR Part 1033

[S.O. No. 1499]

Chicago and North Western Transportation Company Authorized To Use Tracks and/or Facilities of Chicago, Milwaukee, St. Paul and Pacific Railroad Company, Debtor (Richard B. Ogilvie, Trustee)

AGENCY: Interstate Commerce Commission.

ACTION: Service Order No. 1499.

SUMMARY: Service Order No. 1499, authorizes Chicago and North Western Transportation Company (CNW) to use tracks and/or facilities of Chicago, Milwaukee, St. Paul and Pacific Railroad Company, Debtor (Richard B. Ogilvie, Trustee) (MILW). This order permits CNW, under agreement with the Trustee, to operate MILW lines between Jefferson and Herndon, Iowa, as part of a program to provide access to lines under purchase agreement which are in need of refurbishing.

EFFECTIVE DATES: 12:01 a.m., December 1, 1981, and continuing in effect until 11:59 p.m., March 31, 1982, unless modified, amended or vacated by order of this Commission.

FOR FURTHER INFORMATION CONTACT: M. F. Clemens, Jr., (202) 275–7840.

SUPPLEMENTARY INFORMATION:

Decided: November 27, 1981.

Pursuant to section 122 of the Rock Island Transition and Employee Assistance Act, Pub. L. 96–254, the Commission is authorizing the Chicago and North Western Transportation Company (CNW) to provide interim service over Chicago, Milwaukee, St. Paul and Pacific Railroad Company, Debtor (Richard B. Ogilvie, Trustee), (MILW) and to use such tracks and facilities as are necessary for that operation.

This order permits CNW, under agreement with the Trustee, to operate MILW lines between Jefferson and Herndon, Iowa, as part of a program to provide access to lines under purchase agreement which are in need of refurbishing. This order is issued separately from Service Order No. 1474 due to the extended period of time agreed to by the Trustee.

It is the opinion of the Commission that an emergency exists requiring that the CNW be authorized to conduct operations, identified in the appendix, using MILW tracks and/or facilities; that notice and public procedure are impracticable and contrary to the public interest; and that good cause exists for making this order effective upon less than thirty days' notice.

It is ordered,

§ 1033.1499 Service Order No. 1499.

(a) *Chicago and North Western Transportation Company authorized to use tracks and/or facilities of the Chicago, Milwaukee, St. Paul and Pacific Railroad Company, Debtor (Richard B. Ogilvie, Trustee).* Chicago and North Western Transportation Company (CNW) is authorized to use tracks and/or facilities of the Chicago, Milwaukee, St. Paul and Pacific Railroad Company (MILW), as listed in Appendix A to this order, to provide interim service over the MILW as agreed to by the Trustee.

(b) The Trustee shall permit the CNW to enter upon the property of the MILW to conduct service essential to these interim operations.

(c) The Trustee will be compensated on terms established between the Trustee and the affected carrier(s); or upon failure of the parties to agree as hereafter fixed by the Commission in accordance with pertinent authority conferred upon it by section 122(a) Pub. L. 96–254.

(d) The interim operator, authorized in Appendix A to this order, shall, within fifteen (15) days of its effective date, notify the Railroad Service Board of the date on which interim operations were commenced or the expected commencement date of those operations.

(e) The interim operator, authorized in Appendix A to this order, shall, within thirty days of commencing operations under authority of this order, notify the MILW Trustee of those facilities they believe are necessary or reasonably related to the authorized operations.

(f) During the period of this operation over the MILW lines, the interim operator shall be responsible for preserving the value of the lines associated with this interim operation, to the MILW estate, and for performing necessary maintenance to avoid undue deterioration of lines and associated facilities.

(g) Any operational or other difficulty associated with the authorized

operations shall be resolved through agreement between the affected parties or, failing agreement, by the Commission's Railroad Service Board.

(h) Any rehabilitation, operational, or other costs related to the authorized operations shall be the sole responsibility of the interim operator incurring the costs, and shall not in any way be deemed a liability of the United Stated Government.

(i) *Application.* The provisions of this order shall apply to intrastate, interstate and foreign traffic.

(j) *Rate applicable.* Inasmuch as this operation by an interim operator over tracks previously operated by the MILW is deemed to be due to carrier's disability, the rates applicable to traffic moved over these lines shall be the rates applicable to traffic routed to, from, or via these lines which were formerly in effect on such traffic when routed via MILW, until tariffs naming rates and routes specifically applicable become effective.

(k) In transporting traffic over these lines, the interim operator involved shall proceed even though no contracts, agreements, or arrangements now exist between them with reference to the divisions of the rates of transportation applicable to that traffic. Divisions shall be, during the time this order remains in force, those voluntarily agreed upon by and between the carriers; or upon failure of the carriers to so agree, the divisions shall be those hereafter fixed by the Commission in accordance with pertinent authority conferred upon it by the Interstate Commerce Act.

(l) *Employees*—In providing service under this order the interim operator, to the maximum extent practicable, shall use the employees who normally would have performed work in connection with the traffic moving over the lines subject to this Service Order.

(m) *Effective date.* This order shall become effective at 12:01 a.m., December 1, 1981.

(n) *Expiration date.* The provisions of this order shall expire at 11:59 p.m., March 31, 1982, unless otherwise modified, amended, or vacated by order of this Commission.

(49 U.S.C. 10304–10305 and sec. 122, Pub. L. 96–254)

This order shall be served upon the Association of American Railroads, Transportation Division, as agent of the railroads subscribing to the car service and car hire agreement under the terms of that agreement and upon the American Short Line Railroad Association. Notice of this order shall be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing a copy with the Director, Office of the Federal Register.

By the Commission, Railroad Service Board, members John H. O'Brien, William F. Sibbald, Jr. and Ray G. Atherton, Jr. William F. Sibbald, Jr. not participating.

Agatha L. Mergenovich,

Secretary.

Appendix A—MILW Lines Authorized To Be Operated By Interim Operator

1. *Chicago and North Western Transportation Company (CNW):*

A. Between Jefferson (milepost 67.2) and Herndon (milepost 54.2), Iowa, a distance of approximately 13 miles.

BILLING CODE 7035-01-M

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 611

Foreign Fishing

AGENCY: National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Final rule.

SUMMARY: This action increases the total allowable level of foreign fishing (TALFF) of Pacific whiting in the fishery conservation zone off the Washington, Oregon, and California coasts by releasing the reserve of Pacific whiting for allocation by the Department of State. Regulations require the Regional Director to release any part of the whiting reserve to TALFF in excess of domestic needs as soon after August 1 as practical.

EFFECTIVE DATE: December 2, 1981.

FOR FURTHER INFORMATION CONTACT: H. A. Larkins, Director, Northwest Region, National Marine Fisheries Service, 7600 Sand Point Way N.E., BIN C15700, Seattle, Washington 98115, 206–527–6150.

SUPPLEMENTARY INFORMATION: On February 10, 1977, a preliminary fishery management plan (PMP) prepared by the Secretary of Commerce was published in the **Federal Register** (42 FR 8578). The PMP established conservation and management measures for the foreign trawl fisheries of the Washington, Oregon, and California region under authority of Section 201(h) of the Magnuson Fishery Conservation and Management Act (Magnuson Act), 16 U.S.C. 1801 *et seq.* The fourth amendment to the PMP, published in the **Federal Register** on May 20, 1981 (46 FR 27483), established on optimum yield of 175,000 metric tons (mt), a domestic annual harvest (DAH) of 80,000 mt, and a total allowable level of foreign fishing (TALFF) of 60,000 mt. Because of uncertainties in stock abundance and DAH, 35,000 mt of the optimum yield were held in reserve until better information could be obtained. Provisions in the fourth amendment required the Regional Director to release to TALFF any part of the whiting reserve and DAH in excess of domestic needs as soon as practical after August 1 if domestic fishery performance and other available data justified such action. A 15-day comment period followed publication of the proposal on September 15, 1981, in 46 FR 45656 to allow for public review of the proposal to release any part of the whiting reserves or DAH. All pertinent statistics were available for public review in the Regional Office during this time. No comments were received on the proposed action.

The Regional Director may supplement TALFF with all part of the Pacific whiting reserve and DAH in excess of domestic needs if, as of July 1:

(1) The results of the spring larval whiting assessment support the optimum yield (OY) estimate; and

(2) The part of the Pacific whiting reserve and DAH to be added to TALFF will not be harvested by domestic vessels during the rest of the fishing year, as determined by U.S. catch and effort statistics compared to previously projected U.S. catch and effort for the rest of the fishing year.

These statistics indicate that, by July 1, the criteria for release of the whiting reserve were met:

(1) The 1981 whiting larvae survey showed no significant changes in spawning biomass, and thereby supports the 1981 estimate of OY; and

(2) The unharvested balance of the intital DAH estimate of 80,000 mt represents domestic needs and intentions for the remainder of 1981.

The inseason survey of shore-based processors reaffirmed the accuracy of the initial domestic annual processing (DAP) estimate of 5,000 mt of whiting. Although one foreign processor (joint venture) ceased processing U.S.-harvested whiting in June, demand from other joint venture participants increased and compensated for this withdrawal. The initial estimate for joint venture processing (JVP) of 75,000 mt remains the same. Consequently, no part of the DAH is available for TALFF and domestic intentions are not to harvest

any part of the whiting reserve of 35,000 mt.

Based on the above information, the Regional Director has determined that the 35,000 mt reserve should be added to TALFF, raising TALFF to 95,000 mt. The DAH (80,000 mt), DAP (5,000 mt), and JVP (75,000 mt) estimates are unchanged.

This action is prescribed by the regulations which implemented Amendment 4 to the PMP. These regulations at 50 CFR 611.70 were determined then to be consistent with the national standards, other provisions of the Magnuson Act and other applicable law; to be non-significant under E.O. 12291; and not to have a significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act.

This action does not change any existing collection of information requirements, and is in compliance with the Paperwork Reduction Act.

Dated: November 24, 1981.

Robert K. Crowell,

Deputy Executive Director, National Marine Fisheries Service.

50 CFR Part 611 is amended as follows:

PART 611—FOREIGN FISHING

1. The authority citation for 50 CFR Part 611 reads as follows:

Authority: 16 U.S.C. 1821 and 1855.

2. In § 611.20, Appendix I, Entry 5 is revised to read as follows:

§ 611.20 Total allowable level of foreign fishing.

APPENDIX 1.—OPTIMUM YIELD (OY), ESTIMATED DOMESTIC ANNUAL HARVEST (DAH), ESTIMATED DOMESTIC ANNUAL PROCESSING (DAP), JOINT VENTURE PROCESSING (JVP), DOMESTIC NON-PROCESSED FISH (DNP), RESERVE, AND TOTAL ALLOWABLE LEVEL OF FOREIGN FISHING (TALFF), ALL IN METRIC TONS

	Species	Species code	OY	DAH	DAP	JVP	DNP	Reserve	TALFF
5. Northeast Pacific Ocean Fishery: Washington, Oregon and California fisheries	Pacific whiting	704	175,000	[illegible]	5,000	[13] 75,000		0	95,000

BILLING CODE 3510-22-M

---

50 CFR Part 671

Tanner Crab off Alaska; Opening Season Dates

AGENCY: National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Final rule.

SUMMARY: The Secretary of Commerce issues a final rule which delays the opening season dates in five districts of Registration Area J for U.S. Tanner crab fishing. Regulations allow the Secretary to adjust opening and closing dates of fishing seasons for the Federal registration areas under certain specified conditions met in this action. The intended effects are to maintain orderly, uniform fisheries management in contiguous State and Federal waters, and to safeguard stock conditions.

EFFECTIVE DATES: December 1, 1981. Public comments are invited until December 16, 1981.

ADDRESSES: Comments may be sent to Robert W. McVey, Director, Alaska Region, National Marine Fisheries Service, P.O. Box 1668, Juneau, Alaska 99802.

FOR FURTHER INFORMATION CONTACT: Robert W. McVey, 907-586-7221.

SUPPLEMENTARY INFORMATION: Regulations implementing the fishery management plan (FMP) for the Commercial Tanner Crab Fishery Off the Coast of Alaska provide for inseason adjustments to season dates and are a openings and closures. Rules specify in 50 CFR 671.27(b) that these decisions shall be made by the Secretary under criteria set out in that section. The Tanner crab fishery is conducted simultaneously in the fishery conservation zone (FCZ) and contiguous State waters. The Alaska Board of Fisheries altered the opening dates of the 1981-82 Tanner crab fishery in State waters within Registration Area J as follows:

Kodiak—from January 22 to February 10.

South Peninsula—from December 1 to December 15.

Chignik—From November 1 to December 15.

Aleutians—from January 15 to February 15 east of 172° W. longitude. In that part of the Aleutians west of 172° W. longitude the opening date shall remain January 15.

Bering Sea—from January 15 to February 15.

These opening date changes are conservation measures intended to safeguard stock condition by allowing the harvest of crab during the period of their prime physical condition, thereby minimizing handling mortality of female and sublegal male crab which must be returned to the sea and minimizing dead loss of legal male crab which are retained. This rule changes the opening dates of the Tanner crab fishery in the FCZ within Registration Area J to coincide with those of State waters. This action follows consultation with the Alaska Department of Fish and Game and is taken to extend the stock condition safeguards to the FCZ and to provide for a uniform fishing season to

preclude the overharvest of Tanner crab in the FCZ.

Rapid implementation of this rule is in the public interest to prevent conflicts between State and Federal enforcement of the Tanner crab fishery that could occur because of different season opening dates. Under present Federal rules, the first district opening date is November 1, 1981, but the State's first opening date is December 15, 1981. For these reasons, the Secretary finds, under 50 CFR 671.27(b)(4)(i), that there is good cause for not providing opportunity for public comment on this rule prior to its promulgation, and for not allowing the passage of the normal 30-day period before it goes into effect. Therefore, under 50 CFR 671.27(a)(2) and 5 U.S.C. 553 (b)(3) and (d)(3), this rule shall become effective immediately following its filing for publication in the **Federal Register** and publication for 48 hours through Alaska Department of Fish and Game (ADF&G) procedures.

Under 50 CFR 671.27(b)(4)(iii), public comments on this field order (rule) may be submitted to the Regional Director at the address stated above for 15 days following the effective date. During the 15-day comment period, the data upon which this field order is based will be available for public inspection during business hours (8:00 a.m.–4:30 p.m.) at the NMFS Kodiak field office, ADF&G Building, at Kashevaroff and Mission Roads, Kodiak, Alaska. If comments are received, the Secretary will reconsider the necessity of this rule, and subsequently publish in the **Federal Register** a notice either extending, modifying, or rescinding this rule.

A final environmental impact statement was prepared for implementation of the FMP under section 102(2)(C) of the National Environmental Policy Act and is on file with the Environmental Protection Agency. The notice of availability for § 671.27 was published in the **Federal Register** on October 28, 1977 at 42 FR 56772.

The Administrator of NOAA (Administrator) has determined that this is not a "major rule" requiring a regulatory impact analysis under Executive Order 12291.

Because this rule implements a field order, which does not have a general notice of proposed rulemaking, it is exempt from the requirements of the Regulatory Flexibility Act and a determination on the need for a regulatory flexibility analysis is unnecessary.

Finally, this rule does not contain a collection of information requirement or involve any agency in the collection of information. Therefore, the Paperwork Reduction Act of 1980 does not apply.

Dated: November 30, 1981.

Robert K. Crowell,

Deputy Executive Director, National Marine Fisheries Service.

50 CFR Part 671 is amended as follows:

PART 671—TANNER CRAB OFF ALASKA

1. The authority citation for Part 671 reads as follows:

Authority: 16 U.S.C. 1801 et seq.

2. In § 671.26 paragraphs (f)(2) (i), (ii), (iii), (iv) and (v) are revised to read as follows:

§ 671.26 Season and gear restrictions.

* * * * *

(f) *Registration area J.*

* * * * *

(2) * * *

(i) In all sections of the Kodiak District from 12:00 noon February 10, through 12:00 noon April 30 only, except that in the Semidi Island section Tanner crab may be taken from 12:00 noon February 10 through 12:00 noon May 15 only.

(ii) In the South Peninsula District from 12:00 noon December 15 through 12:00 noon, May 15 only.

(iii) In the Chignik District from 12:00 noon December 15 through 12:00 noon May 15 only.

Proposed Rules

Federal Register
Vol. 46, No. 232
Thursday, December 3, 1981

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

SMALL BUSINESS ADMINISTRATION

13 CFR Part 122

Business Loans; Export Revolving Line of Credit Loans

AGENCY: Small Business Administration.

ACTION: Proposed rule.

SUMMARY: These proposed regulations outline the standards and guidelines to implement the new financial assistance authority in the Small Business Export Expansion Act of 1980, Part B of Pub. L. 96–481 (94 Stat. 2321). They incorporate normal criteria and cite any special criteria relating to eligibility, maturity, collateral or special loan conditions. the SBA proposes to limit this expanded Section 7(a) authority to guarantee loans, to provide extensions or revolving lines of credit to enable small businesses to develop foreign markets and for pre-export expense.

DATE: Comments are to be received on or before January 4, 1982.

ADDRESS: Written comments are to be submitted in duplicate to the Director, Office of Business Loans, Small Business Administration, 1441 L Street, NW, Washington, D.C. 20416.

FOR FURTHER INFORMATION CONTACT: Questions regarding this proposed rule may be directed to: Richard L. Wray, Financial Analyst, (202) 653–6470.

SUPPLEMENTARY INFORMATION: In 1980, SBA administratively authorized a pilot Export Revolving Line of Credit program in four states. The six month pilot period was to expire August 31, 1980, to be followed with an evaluation period. Before the evaluation was completed, the new legislation was enacted on October 21, 1980.

While there was only limited interest expressed in the pilot program these proposed regulations would carry out the legislative purpose to provide limited financial assistance, as necessary, to promote the competitive viability of small business in export.

The financial requirements of the applicant should be established by the participating lender based on its full understanding of the applicant's financial capability and managment ability and the requirements for domestic and international trade and finance. For example, the lender's commercial loan officer with the advice of an international division's loan officer (or with the help of its correspondent) will determine whether a term loan, a seasonal or contract line of credit loan, a revolving line of credit loan or a combination of two or more of these Section 7(a) plans is needed to achieve the optimum lending plan for the applicant. These proposed regulations deal only with the revolving line of credit plan.

A monthly cash flow projection is a vital tool in this analysis and should be examined to see that the extent and length of the financial needs correspond to the loan request. The cash flow projection should clearly show the status of the credit line at the end of each month. This can be a valuable guide to monitor a borrower's progress and, if properly used, can anticipate problems before they become insoluble.

In the final analysis our position will rest on management's ability and its financial capacity and we shall depend to the greatest extent on the lender's analysis. SBA will make the final credit decision based on a review of the credit analysis submitted by the lender.

The legislation also provided that participating lenders may charge a rate of interest that is both legal and reasonable. We believe that the existing regulations (§ 120.3(b)(2) of this Chapter) that cover our interest rate policy adequately define what is considered reasonable.

SBA has determined that this proposal does not constitute a major rule for the purposes of Executive Order 12291. In this regard we are certain that the annual effect of this rule of the economy will be less than $100 million. In addition this proposed rule, if promulgated as final, will not result in a major increase in costs or price for consumers, individual industries, Federal, State or local government agencies or geographic regions, and will not have significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets. In addition, for the purpose of compliance with the Regulatory Flexibility Act, P.L. 96–354, effective January 1, 1981, SBA hereby certifies that this proposed rule, if promulgated in final form, will not have a significant economic impact on a substantial number of small entities. Our own estimate, based upon this agency's experience with the pilot program referred to above, and budgetary resources available for the program, indicates that we may expect to make perhaps one hundred loans averaging $95,000, or a total of less than $10 million available to qualified applicants in Fiscal Year 1982, and that we may indeed expect to service a relatively small number of qualified applicants.

This action is being proposed in order to implement the specific statutory authority contained in Pub. L. 96–481. This statute authorized a revolving line of credit for export subject to the conditions in this proposal. This rule would be applicable to any small business involved in export trade, but still contemplates that guaranteed business loan applicants are subject to all other relevant eligibility criteria for receipt of SBA assistance. In addition, no additional appropriations for this type of loan are available to SBA. The loans, if any, will be funded from part of our overall business loan guarantee authority. Thus, these proposed rules, if promulgated in final form do not of themselves create additional benefits for a class of small businesses. Finally, these proposed regulations, if promulgated in final form would not impose any special reporting or record keeping requirements on the small businesses that avail themselves of this assistance.

Accordingly, pursuant to the authority in section 5(b)(6) of the Small Business Act (15 U.S.C. 631 et seq.), Part 122, Chapter 1, Title 13 of Code of Federal Regulations would be amended by designating Subpart A as "General" and adding a new Subpart D to read as follows:

PART 122—BUSINESS LOANS

* * * * *

Subpart D—Export Revolving Line of Credit

Sec.
122.400 General.

Sec.
122.401 Eligibility.
122.402 Use of Proceeds.
122.403 Fees.
122.404 Maturity.
122.405 Collateral.
122.406 Additional Loan Conditions.

Authority: Sec. 5(b)(6), Small Business Act, 15 U.S.C. 631 et seq.

Subpart D—Export Revolving Line of Credit

§ 122.400 General.

The statute authorizes the use of Sec. 7(a) regular business loans to finance export assistance, and specifically authorizes extensions and revolving lines of credit for export purposes, to develop foreign markets and for pre-export financing. The interest rates, allowable fees, size limitations and other standards or guidelines that are applicable to all 7(a) loans (see Subpart A of this Part and Part 120 of this Chapter) also apply to these loans unless modified by this subpart. A small business may have other 7(a) loans in addition to an Export Revolving Line of Credit loan, so long as the total outstanding balance of all such loans will not exceed the $500,000 (SBA share) Statutory ceiling. This Subpart deals only with Export Revolving Line of Credit (ERLC) loans which are available only as an SBA guaranteed loan.

§ 122.401 Eligibility.

Applicants for an ERLC, in addition to meeting the eligibility criteria applicable to all 7(a) loans, must have been in operation for at least 12 full months prior to filing an application.

§ 122.402 Use of Proceeds.

Proceeds of an ERLC loan can be used only to penetrate or develop a foreign market and to finance labor and materials for pre-export production. Professional export marketing advice or services, foreign business travel or participation in trade shows are examples of eligible expenses to develop or penetrate a foreign market. The cost of acquiring or renting office or commercial space in a foreign country, equipping such an office or wages for a staff in such an office are examples of ineligible uses of proceeds, since these funds should be provided through equity capital or a term loan.

§ 122.403 Fees.

In addition to fees permitted under § 120.3(b) of this Chapter and § 122.18 of this part, the participant in an ERLC loan is permitted to charge the borrower a commitment fee equal to one-fourth of one percent of the loan or $200.00 dollar minimum. This fee cannot be charged until the SBA has approved the lender's request for guarantee.

§ 122.404 Maturity.

The maturity of an ERLC loan, together with all extensions and renewals, cannot exceed eighteen (18) months.

§ 122.405 Collateral.

Only collateral that is located in the United States, its territories and possessions will be acceptable security for these loans.

§ 122.406 Additional Loan Conditions.

(a) *Projected Cash Flow Statement.* All ERLC loan applications must include a projected cash flow that supports the need for the funds and that evidences repayment ability. The projection must cover the applicant's total operation and clearly identify the use(s) of the loan proceeds and source(s) of repayment. The projection must cover 12 months or the term of the loan, whichever is greater.

(b) *Monthly Progress Reports.* The ERLC borrowers must submit monthly progress reports to the lender and explain discrepancies between the projected cash flow and the progress report.

(c) *Withholding Taxes.* Applicants must be current on all payroll taxes and have in operation a depository plan for the payment of future withholding taxes.

Advisory Circular for Airplane System Design Analysis

Correction

In FR Doc. 81-32031, appearing at page 54958, in the issue of Thursday, November 5, 1981, make the following changes:

On page 54958, in the third column, paragraph "3. a.", the tenth line, insert (between considered and section.

On page 54959, in the first column, paragraph "4.b.", the fourth line should read "occurrence of a hazardous failure condition is".

On page 54959, in the third column, paragraph "5.m.", in the eighth line, change "even" to "event".

On page 54960, in the first column, paragraph "5.o.1." change 10^{5} to 10^{-5}.

On page 54960, in the first column, paragraph "5.o.2." change 10^{5} to 10^{-5} and change 10^{9} to 10^{-9}.

On page 54960, in the first column, paragraph "5.o.3." change 10^{9} to 10^{-9}.

On page 54960, in the first column, in the **Note** subsection (b) change 50 in the third line to read 5o and change "realiability" in the sixth line of the same paragraph to read "reliability".

BILLING CODE 1505-01-M

CONSUMER PRODUCT SAFETY COMMISSION

16 CFR Part 1145

Withdrawal of Proposed Rule and Reproposal of Rule To Regulate Under the CPSA Risk of Injury That May Be Presented by Certain Stuffed Toys

AGENCY: Consumer Product Safety Commission.

ACTION: Withdrawal of proposed rule and reproposal.

SUMMARY: The Commission has reason to believe that a potential strangulation hazard may be presented by certain stuffed toys suspended from one or more strings, elastic, springs, or other cords, which form a loop in conjunction with the toy to which they are attached. The Commission proposes to use the procedures of the Consumer Product Safety Act rather than those of the Federal Hazardous Substances Act should regulatory action become necessary regarding this potential risk of injury. The Commission preliminarily determines that this transfer of procedures is necessary because, if the Commission finds that the products present a strangulation hazard, public notification and remedial action can be accomplished more expeditiously under the CPSA than under the FHSA. The Commission also withdraws the proposed regulation published at 45 FR 75685, November 17, 1980, and publishes a new proposed regulation to include some products which were not covered in the proposed rule of November 17, 1980.

DATE: Comments concerning this proposal must be received in the Office of the Secretary by January 4, 1982.

ADDRESS: Comments should be sent to the Office of the Secretary, Consumer Product Safety Commission, Washington, D.C. 20207, (202) 634-7700.

FOR FURTHER INFORMATION CONTACT: William J. Moore, Jr., Administrative Litigation Division, Consumer Product Safety Commission, 5401 Westbard Avenue, Bethesda, Maryland (mailing address: Washington, D.C. 20207), telephone: (301) 492–6626.

SUPPLEMENTARY INFORMATION: In the **Federal Register** of November 17, 1980 (45 FR 75685), the Commission proposed to regulate a risk of injury associated with certain stuffed animal toys under the Consumer Product Safety Act (CPSA, 15 U.S.C. 2051 *et seq.*) rather than under the Federal Hazardous. Substances Act (FHSA, 15 U.S.C. 1261 *et seq.*). The risk which the Commission proposed to regulate under the CPSA was one of strangulation which may be presented by stuffed animal toys suspended from two or more cords (strings, elastic, springs or other types of cord) when such cords, in conjunction with the product, form a loop. The proposal was limited to products manufactured before the effective date of any final rule based on the proposal. See,45 FR 75685 at 75686.

The proposal to regulate under the CPSA was made in accordance with section 30(d) of that act (15 U.S.C. 2079(d)), which provides:

> A risk of injury which is associated with a consumer product and which could be eliminated or reduced to a sufficient extent by action under the Federal Hazardous Substances Act . . . may be regulated under [the CPSA] only if the Commission by rule finds that it is in the public interest to regulate such risk of injury under this Act.

Although the risk of injury presented by the products which were the subject of the proposal of November 17, 1980, could have been eliminated or reduced to a sufficient extent under the FHSA, the Commission proposed to regulate these products under the CPSA because it had preliminarily determined that it would be in the public interest to regulate that risk of injury under the CPSA. This preliminary determination was based on provisions of the FHSA and CPSA which in effect in 1980, and on information about the physical characteristics of the products available to the Commission before it published the proposal.

Since publication of the proposal of November 17, 1980, provisions of the FHSA which were factors in the Commission's preliminary determination to regulate under the CPSA rather than the FHSA have been modified by the Consumer Product Safety Amendments of 1981 (section 1211(f)(1), Pub. L. 97–35, 95 Stat. 721), effective August 13, 1981. Additionally, after consideration of comments received in response to the proposal, and evaluation of additional information about the products which may present the risk of injury, the Commission has decided to broaden the scope of the proposal to include some products which were not covered by the proposal of November 17, 1980.

Therefore, the Commission is withdrawing the proposal of November 17, 1980, and publishing a new proposal to regulate a risk of injury associated with certain stuffed toys under the CPSA rather than the FHSA under provisions of section 30(d) of the CPSA.

A. Background

The Commission's investigation of this hazard began in 1979, after R. Dakin and Company (Dakin) reported to the Commission staff an infant death, apparently by strangulation, involving a stuffed animal mobile that Dakin had imported. The toy had been hung from a crib corner post on the inside portion of the crib. The product was one of six models of stuffed toy animals imported by Dakin. Each product used an identical three elastic cord suspension system. One cord was attached to the body of the toy. Two other cords were attached to the toys's body parts (*e.g.*, wings, ears). The three elastic cords met and were fastened together at a single point above the toy. The size and configuration of the openings created by the elastic cords, as well as the elastic property of the cords themselves, appeared to permit an infant to get the head and neck entangled in the cords. The Commission staff is aware of two incidents, involving two different Dakin stuffed toy animals, in which an infant allegedly became entangled in the elastic cords, strangled, and died.

After Dakin filed its report to the Commission in 1979 concerning the death associated with a stuffed animal toy it had imported, Dakin voluntarily recalled the stuffed animal products of the type involved in the report.

In the course of its investigation of the products imported by Dakin, the Commission staff learned that at least two other firms manufactured or imported products similar to those which were the subject of the investigation.

B. Proposal of November 17, 1980

After considering these facts, the Commission published its proposal of November 17, 1980, to regulate the risk of injury presented by these products under the CPSA rather than the FHSA. The notice of that proposal set forth the following reasons for the Commission's determination that regulation of that risk under the CPSA is in the public interest:

At the time the proposal was published, the FHSA authorized the Commission to issue a regulation by following the provisions of the Administrative Procedure Act (APA, 15 U.S.C. 553) to declare the products in question to be "banned hazardous substances" if the Commission determined that they were toys or other children's articles which present a mechanical hazard. (These provisions were contained in sections 2(f)(1)(D), 2(q)(1(A), 2(s)(9), and 3(e) of the FHSA (15 U.S.C. 1261(f)(1)(D), 1261(q)(1)(A), 1261(s)(9), and 1262(e)) prior to the amendment of the FHSA by the Consumer Product Safety Amendments of 1981 (section 1211(f)(1), Pub. L. 97–35, 95 Stat. 721)).

Under the repurchase provisions of section 15 of the FHSA (15 U.S.C. 1276) and the Commission's regulations implementing that section (16 CFR 1500.202, 203) which were in effect in 1980, retail stores in the distribution chain of any "banned hazardous substance" were required to place an identification of the banned product on a "Banned Articles or Substances List," to be displayed in various store locations for not less than 120 days. No other form of notice to consumers of the hazard presented by these products and the manufacturer's or importer's duty to recall them could be required under the provisions of the FHSA and implementing regulations in 1980.

When Dakin carried out its voluntary recall effort, it notified consumers in a manner similar to that then required by the FHSA and implementing regulations, described above. Dakin also provided additional notice to consumers in the form of press releases and mailings to newspapers and television stations. Despite Dakin's efforts to notify consumers, fewer than 36.000 products were returned of the more than 422.000 that Dakin had imported; and of the products recovered, fewer than 1.500 were returned by consumers.

In contrast to the limited requirements for notification to consumers which could be imposed under the FHSA and implementing regulations, the CPSA (in 1980 and after passage of the 1981 amendments) gives the Commission several ways to seek recall of hazardous products in the possession of consumers. Section 12 of the CPSA (15 U.S.C. 2061) authorizes the Commission to file an action in a United States district court against a manufacturer, importer, distributor, or retailer of a consumer product which presents an imminent and unreasonable risk of death or severe personal injury. The court has the authority to order recall of the product,

its repair or replacement, or refund of the purchase price of the product. The court also has authority to order a firm to undertake extensive notification efforts to advise purchasers and the general public of the nature of the risk and of the firm's obligation for remedial action.

Under provisions of section 15 of the CPSA (15 U.S.C. 2064) in 1980 and after the 1981 amendments, the Commission may determine, after conducting a hearing, that a product presents a substantial product hazard and order the manufacturer, importer, distributor, or retailer to repair, replace or refund its purchase price. Additionally, the Commission may order the manufacturer, importer, distributor, or retailer of a product which has been determined to present a substantial product hazard to undertake a broad notification program to inform the public of the hazard and of the corrective action to be taken, if the Commission determines that notification is required to adequately protect the public from the hazard.

Thus, when the Commission proposed in 1980 to regulate the risk of injury associated with the products in question under the CPSA, it believed such action to be in the public interest because the Commission then had greater authority to require widespread notification of the public concerning the nature of the hazard associated with the products and to require the recall, repair, or replacement of the product, or the refund of the purchase price under the CPSA than under the FHSA.

C. Consumer Product Safety Amendments of 1981

On August 13, 1981, the Consumer Product Safety Amendments of 1981, (1981 amendments, Pub. L. 97–35, 95 Stat. 703), became law. This legislation modified both the CPSA and the FHSA. Among the changes made by the 1981 amendments is modification of section 15 of the FHSA to make its provisions regarding notification to the public and recall of "banned hazardous substances" similar to those provisions of section 15 of the CPSA regarding notification to the public and requirements for repair, replacement, or refund of the purchase price of consumer products which present a "substantial product hazard."

Consequently, many of the reasons set forth in the proposal of November 17, 1980, for the Commission's preliminary determination that it is in the public interest to regulate the risk of injury associated with the products which were the subject of that proposal are no longer valid.

The modification of section 15 was not the only change to the FHSA made by the 1981 amendments. That legislation also changed the procedures required to issue a regulation which declares a toy or children's article to be a "banned hazardous substance."

As indicated above, before the 1981 amendments, such a regulation could be issued by following the procedures set forth in the APA at 5 U.S.C. 553. Those procedures involve publication of a proposal and giving opportunity for submission of written comments; consideration of any comments received; and publication of a notice to issue the rule on a final basis.

The 1981 amendments added several steps to the procedure required to issue a regulation declaring a product to be a "banned hazardous substance." These additional steps now appear in section 3 (f), (g), (h), and (i) of the FHSA (15 U.S.C. 1262 (f), (g), (h), and (i)). They require the Commission to publish an advance notice of proposed rulemaking in the **Federal Register** which identifies the product and the risk of injury associated with it; summarizes regulatory alternatives being considered by the Commission; identifies any existing standards which may be relevant and states the reason why the Commission believes they may not be adequate; solicits comments on the product and risk of injury which are the subject of the notice; and invites interested parties to submit existing standards or offers to develop or modify a voluntary standard to address the risk of injury presented by the product.

If, after consideration of all information received in response to the advance notice of proposed rule making, the Commission determines that a rule declaring the product to be a "banned hazardous substance" may be needed, the 1981 amendments require the Commission to publish a notice in the **Federal Register** to propose the rule. The notice of proposal must also include a preliminary analysis of anticipated benefits and costs of the proposed rule; the Commission's reasons for deciding that no existing standard or offer to develop or modify a voluntary standard would be adequate to address the risk of injury; and a description of alternatives to the proposed regulation considered by the Commission, including benefits and costs of each such alternative, and an explanation of why each alternative should not be proposed as a regulation.

If, after consideration of comments received in response to the proposal, the Commission decides to issue a final regulation declaring a product to be a "banned hazardous substance," the FHSA now requires the Commission to publish a notice in the **Federal Register** to issue the rule on a final basis. That notice must include an analysis of potential benefits and costs of the rule; a description of alternatives considered by the Commission and the reasons for rejecting each alternative; and a summary of significant issues raised by comments on the proposal. Additionally, the Commission must make and include in the final rule findings: that the benefits anticipated from the rule bear a reasonable relationship to its costs; that the regulation imposes the least burdensome requirements which adequately reduce the risk of injury under consideration; and, if a voluntary standard is applicable to the product which is the subject of the rule, that the voluntary standard is not expected to adequately address the risk of injury associated with the product.

Thus, while the provisions of section 15 of the FHSA have been changed to authorize the Commission to give wider notice to the public that a product is banned and subject to remedial action, the procedures now prescribed by the FHSA to declare the product to be a "banned hazardous substance" have become significantly more complex and time-consuming.

The 1981 amendments also made changes to the CPSA. However, they do not add to the complexity of the procedure set forth in section 30(d) for issuing a rule to regulate a risk of injury covered by the FHSA under the CPSA. The 1981 amendments also do not affect the authority contained in section 12 of the CPSA for a court to order notification of the public and recall, repair, replacement, or refund of the purchase price of a consumer product which presents an imminent hazard. Also unchanged are the procedures under section 15 of the CPSA for ordering notice to the public that a product presents a substantial product hazard and for ordering repair, replacement, or refund of the purchase price of a product which presents a substantial product hazard.

While section 15 of the FHSA now contains provisions for consumer notification and corrective action which are similar to those contained in section 15 of the CPSA, they would not become applicable to the toys in question until the Commission issues a regulation to declare them to be "banned hazardous substances." As indicated above, the 1981 amendments to the FHSA have added new steps to the procedure required to issue such a regulation. By increasing the complexity of the rulemaking proceeding, the 1981 amendments to the FHSA add

V 46 / 232 DEC 3 81 UMI

considerably to the length of time needed to issue a banning rule applicable to a toy under the FHSA on a final basis.

However, if a product is subject to regulation under the CPSA, no preliminary rule-making proceeding is required before the Commission may take action under section 12 of that act to deal with any imminent hazard which it may present, or under section 15 of the CPSA to require notification or corrective action of any substantial product hazard which it may pose.

Consequently, as a result of the 1981 amendments to the FSHA, the Commission has again preliminarily determined that it would be in the public interest to regulate the products which were the subject of the November 17, 1980, proposal under the CPSA rather than the FHSA. The reason for this preliminary determination is that as a result of the 1981 amendments, notification of the public and remedial action can be accomplished more expeditiously under the CPSA than under the FHSA.

Sections 7 and 9 of the CPSA (15 U.S.C. 2056, 2058) set forth procedures for issuing safety standards applicable to consumer products. The CPSA also contains authority at section 8 (15 U.S.C. 2057) for issuance of regulations to declare consumer products to be "banned hazardous products." As a result of the 1981 amendments, the procedures in the CPSA for issuance of consumer product safety standards and banning regulations are similar to those prescribed by the FHSA for issuance of a regulation to declare a toy or children's article to be a "banned hazardous substance."

If the rule proposed below is issued on a final basis and the Commission thereafter determines that a consumer product safety standard or banning regulation is needed for the products covered by the rule, such a standard or regulation will be issued by following the provisions of the CPSA rather than the FHSA.

Provisions of section 15(b) of the CPSA, which require manufacturers, distributors, and retailers of a consumer product which could create a "substantial product hazard" to notify the Commission, are applicable regardless of whether the product in question is or is not subject to a consumer product safety standard or banning rule.

D. Comments on the Proposal of November 17, 1980

In response to the proposal of November 17, 1980, the Commission received three comments. Comments from a toy manufacturer and a trade association of toy manufacturers objected to the limitation of the proposed rule to those products manufactured prior to the effective date of any final rule based on the proposal. These comments stated that section 30(d) of the CPSA provides for the complete transfer of an entire risk of injury from the FHSA to the CPSA, and not a "piecemeal" transfer of the risk.

The Commission has reconsidered the proposal of November 17, 1980, and in view of the changes made to the FHSA by the 1981 amendments, now agrees with these comments that it would be more efficient to regulate under the CPSA the entire risk of injury posed by stuffed toys suspended by strings, elastic, springs, or other cords which may, in conjunction with the toy to which they are attached, form a loop, regardless of the date on which the toys were manufactured. Accordingly, the regulation proposed below would be applicable to any toy described in proposed § 1145.9(a), regardless of date of manufacture.

A third comment suggested that the proposed rule should be extended to include any toy of the type described in the proposal of November 17, 1980, and not limited to those in the configuration of stuffed animals. This comment suggested that the proposed rule should be applicable to any toy presenting the same risk of injury as the products which were the subject of the proposal of November 17, 1980, regardless of the material from which it is made, or its shape, if it is capable of being suspended from strings, elastic, springs, or other cords supplied with the toy, and if the cords, in conjunction with the toy, form a loop. This comment also suggested that a toy suspended from a single cord could present a strangulation hazard.

From the investigation which was initiated in response to the death reported in 1979, the Commission has learned that only stuffed toys of the type described by the commenter have been associated with incidents involving a strangulation hazard.

However, the Commission agrees with the commenter that a stuffed toy in the shape of some object other than an animal (for example, a clown or an airplane) could present the same hazard as the toys which were the subject of the proposal of November 17, 1980. The Commission also agrees with this commenter that a stuffed toy suspended by a single cord, elastic, or spring, could present a strangulation hazard, if both ends of the cord were attached to the body of the toy in such a manner as to form a loop in conjunction with the toy.

For these reasons, proposed § 1145.9 published below describes the products covered by the proposals as "stuffed toys" rather than "stuffed animal toys." Additionally, the toys which are the subject of the proposal are described in proposed § 1145.9(a) as stuffed toys suspended from "one or more strings, elastic, springs, or other cords" rather than stuffed toys suspended from "two or more" strings or cords. Of course, any subsequent action commenced under the CPSA would not necessarily be as broad as the risk of injury which is the subject of the proposal published below.

E. Impact on Small Businesses

Section 603 of the Regulatory Flexibility Act (RFA, 5 U.S.C. 603) requires agencies to prepare and make available for public comment an initial regulatory flexibility analysis of the impact of any proposed rule on small entities, including small businesses. Section 605(b) of the RFA provides that an agency is not required to prepare a regulatory flexibility analysis if the agency certifies that the rule, if issued on a final basis, will not have a significant economic impact on a substantial number of small entities.

The regulation proposed below, if issued on a final basis, will not by itself impose any legal or other obligation on any person or firm. The rule would simply announce that any action taken to eliminate or reduce the risk of injury with which it is concerned will be taken following the procedures set forth in the CPSA rather than the FHSA.

If the Commission issues a final rule based on the proposal issued below, and then determines that it should act to eliminate or reduce the risk of injury which is the subject of the rule, the Commission will be required to initiate and follow through to completion appropriate judicial or administrative proceedings under one or more sections of the CPSA before it can impose any obligation on any person or firm.

Since a final rule based on the proposal imposes no obligation on any person or firm, the Commission hereby certifies that it will not have a significant economic impact on a substantial number of small businesses.

F. Environmental Considerations

The regulation proposed below falls within the categories of Commission actions described in 16 CFR 1021.5(c) that have little or no potential for affecting the human environment. For this reason, neither an environmental assessment nor an environmental impact statement is required.

G. Withdrawal and Reproposal

After consideration of the information set forth above, changes to the FHSA made by the Consumer Product Safety Amendments of 1981 (Pub. L. 97–35), and comments received, the Commission hereby withdraws the proposal published in the **Federal Register** of November 17, 1980 (45 FR 75685). Until issuance of any final regulation under section 30(d) of the CPSA, the Commission has authority to regulate the products described in the proposal of November 17, 1980, and in this notice, under provisions of the FHSA.

PART 1145—REGULATION OF PRODUCTS SUBJECT TO OTHER ACTS UNDER THE CONSUMER PRODUCT SAFETY ACT

Under provisions of the Consumer Product Safety Act (section 30(d), Pub. L. 92–573, 86 Stat. 1231, as amended Pub. L. 94–284, 90 Stat. 3472, Pub. L. 97–35, 95 Stat. 703; 15 U.S.C. 2079(d)), the Commission proposes to amend the Code of Federal Regulations, Title 16, Chapter II, Subchapter B, Part 1145, by adding a new § 1145.9, as follows:

§ 1145.9 Certain stuffed toys; risk of strangulation injury.

(a) The Commission finds that it is in the public interest to regulate under the Consumer Product Safety Act, rather than under the Federal Hazardous Substances Act, the risk of strangulation that may be presented by stuffed toys suspended from one or more strings, elastic, springs, or other cords when such cords, in conjunction with the product, form a loop.

(b) Therefore, if the Commission finds regulation necessary, any such toys shall be regulated only under one or more provisions of the Consumer Product Safety Act.

Interested persons are invited to submit written comments by January 4, 1982. Comments may be accompanied by written data, views, and arguments and should be addressed to the Secretary, Consumer Product Safety Commission, Washington, D.C. 20207.

Received comments may be seen in the Office of the Secretary, Third floor, 1111 18th Street, N.W., Washington, D.C. between 8:30 a.m. and 5:00 p.m., Monday through Friday.

(Sec. 30(d) Pub. L. 92–573, 86 Stat. 1231, as amended Pub. L. 94–284, 90 Stat. 3472, Pub. L. 97–35, 95 Stat. 703; 15 U.S.C. 2079(d))

Dated: November 24, 1981.

Sadye E. Dunn,

Secretary, Consumer Product Safety Commission.

45 CFR Parts 74 and 1336

Grants and Subgrants to For-Profit Organizations

AGENCY: Department of Health and Human Services (HHS).

ACTION: Proposed rules.

SUMMARY: This rule proposed to remove regulatory bars to grants to for-profit organizations under three HHS grant programs in which the for-profit organizations are not barred by statute from receiving grants.

It also proposes (1) to make HHS's Department-wide grants administration regulations, 45 CFR Part 74, apply automatically to grants and subgrants to for-profit organizations and (2) to add to those regulations additional provisions for grants and subgrants to for-profit organizations.

These actions reflect a reversal of the Department's generally policy of not making for-profit organizations eligible for grants in those few programs where they are not statutorily barred from receiving grants.

DATE: Comments must be received on or before February 1, 1982.

ADDRESS: Send comments to: Matthias Lasker, Department of Health and Human Services, Room 513D, Hubert H. Humphrey Building, 200 Independence Avenue, S.W., Washington, D.C. 20201. The public may see the comments received in Room 517D from 9 a.m. to 5:30 p.m., Monday through Friday.

FOR FURTHER INFORMATION CONTACT: Matthias Lasker, Director, Division of Grants Policy and Regulations Development, 202–245–7565.

SUPPLEMENTARY INFORMATION:

Background: Eligibility of For-Profit Organizations for HHS Grants

Under a few HHS discretionary grant programs, for-profit organizations are not barred by the authorizing statute from receiving grants. However, for many years HHS policy has been not to award grants to for-profit organizations. These organizations have been eligible for procurement contracts but not grants.

With the passage of the Federal Grant and Cooperative Agreement Act (Pub. L. 95–224, 41 U.S.C. 501–509) and the issuance of OMB guidance for implementing the Act (43 FR 36860, August 18, 1978), the policy is no longer appropriate. That Act makes choice of funding instrument—grant, cooperative agreement or contract—dependent upon factors other than kind of recipient. The OMB guidance states that grants may be made to for-profit organizations when deemed by the agency to be consistent with legislative intent and program purposes.

Accordingly, the Department now intends to make for-profit organizations eligible for grants in those grant programs where the OMB critieria are met.

When for-profit organizations are made eligible under a discretionary program, their applications will normally compete on equal terms with other applications and be evaluated according to the same priorities and criteria.

We believe the public will benefit from this new approach. The HHS grant programs affected will likely have more projects or activities to select from. The programs will be able to choose the best of those projects or activities, without regard to the kinds of organizations that will receive the grants except to the extent that that factor bears upon program objectives.

Note.—The Federal Grant and Cooperative Agreement Act provides that, if substantial Federal involvement is anticipated during performance of what would otherwise be a grant, the instrument is to be designated a "cooperative agreement." Please take all statements we make in this preamble on grants as applying equally to cooperative agreements. The Department's grants administration regulations in 45 CFR Part 74, which are discussed later in this preamble, define "grant" broadly enough to include cooperative agreements, and in this preamble we are using "grant" in that broad sense.

As a first step in exploring and adopting the new approach, on February 28, 1980, HHS's Public Health Service (PHS) published a notice in the **Federal Register** (at 45 FR 13200) inviting comments on a proposal to begin permitting grants (including cooperative agreements) to for-profit organizations under certain PHS research programs.

V 46 / 232 / DEC 3 81 UMI

In a **Federal Register** notice on April 6, 1981, (at 46 FR 20603), PHS responded to the comments and announced its decision to amend its regulations to remove bars to grants to for-profit organizations in the research programs identified in the earlier notice.

Extending Eligibility to For-Profits in additional Grant Programs

After reviewing its statutory authorities and its regulations, the Department has identified four additional HHS grant programs which have no statutory bars to grants to for-profit organizations but do have regulations containing such bars.

The regulations for one of these programs (Health Care Technologies Research) are the same as those which apply to some of the programs PHS listed in its April 6, 1981 announcement on grants to for-profit organizations. Elsewhere in this issue of the **Federal Register** the Department is issuing final amendments to those regulations to remove the non-statutory bars.

This notice proposes to remove the non-statutory bars from the regulations of the other three programs and so make for-profit organizations eligible for grants under those programs. The programs are: National Cancer Institute Clinical Cancer Education Program (Secs. 404(a)(4) and 404(b)(7) of the Public Health Service Act, 42 U.S.C. 285(a)(4) and (b)(7), 42 CFR Part 52d) (Amendments A below.)

(Grants for Educational Programs in Occupational Safety and Health (Sec. 21(a)(1) of the Occupational Safety and Health Act of 1970, 29 U.S.C. 670, 42 CFR Part 86) (Amendment B below))

Native American Programs—Research, Demonstrations, and Pilot Projects (Sec. 805 of the Native American Programs Act of 1974, 42 U.S.C. 2991d, Subpart E of 45 CFR Part 1336) (Amendment D below).

The Department has also identified additional programs under which grants to for-profit organizations are statutorily authorized. However, these programs either have no regulations or have regulations that contain no bars to grants to for-profit organizations. The programs are:

- Substances and Living Organisms for Biomedical and Behavioral Research (Sec. 301(a) of the PHS Act, 42 U.S.C. 241(a)) (Grants of property)
- Health Statistics Research and Epidemiological Research (Secs. 306(b) (2) and (3) of the PHS Act, 42 U.S.C. 242k(b) (2) and (3))
- Biological Products (Sec. 352(b) of the PHS Act, 42 U.S.C. 263(b)) (Grants of property)
- National Cancer Program (the rest of the program besides the Clinical Cancer Education subprogram, whose regulations this notice proposes to amend, as explained above) (Sec. 404(b)(7) of the PHS Act, 42 U.S.C. 285(b)(7))
- National Heart, Blood Vessel, Lung, and Blood Diseases and Blood Resources Program (Sec. 413(c)(3) of the PHS Act, 42 U.S.C. 287b(c)(3))
- Experiments and Demonstration Projects Under Titles XVIII and XIX of the Social Security Act (Medicare and Medicaid) (Sec. 222(a) of Pub. L. 92–603, 42 U.S.C. 1395b–1 (note))
- Grants to "Alternate" Professional Standards Review Organizations (Sec. 1152 of the Social Security Act, 42 U.S.C. 1320c–1)
- National Impact Demonstrations Under Title IV of the Older Americans Act (Sec.424 of the Act, 42 U.S.C. 3035e)
- Projects to Relieve Older Individuals from High Utility and Home Heating Costs (Sec 425 of the Older Americans Act, 42 U.S.C. 3035f)
- Evaluation of Projects Assisted by the Native American Programs Act of 1974 (Sec. 810 of the Act, 42 U.S.C. 2992)
- Research, Demonstration, and Pilot Projects under Headstart (formerly Sec. 552 of the Economic Opportunity Act, now Sec. 649 of Pub. L. 97–35,, the Omnibus Budget Reconciliation Act of 1981)

As explained above, PHS has already invited comments on a proposal to begin permitting grants to for-profit organizations under certain programs. Any future invitations for grant applications in those programs will not preclude applications from for-profit organizations unless there are exceptional circumstances. We now propose, and seek comments on, following the same policy for the programs identified in this preamble. These programs are the Health Care Technologies Research program (Sec.309(b) of the PHS Act, 42 U.S.C. 242n, 42 CFR Part 52), the three programs listed above whose regulations are to be amended, and the programs listed above that have neither statutory nor regulatory bars.

Making 45 CFR Part 74 Apply to Grants and Subgrants to For-Profit Organizations

HHS's Department-wide grants administration regulations, 45 CFR Part 74, presently do not apply to grants and subgrants to for-profit organizations.

There is currently no body of government-wide or HHS-wide guidance or rules on the administration of grants or subgrants to for-profit organizations. OMB has been studying the question, but it may be some time before government-wide guidance is issued. In the meantime, to assure orderly administration of any HHS grants or subgrants awarded to for-profit organizations, we propose to make Part 74 apply to those awards. (Amendment C.3 below.)

Adding Provisions to 45 CFR Part 74 for Grants and Subgrants to For-Profit Organizations

In making 45 CFR Part 74 apply to grants and subgrants to for-profit organizations, we also propose to add some provisions to Part 74 to deal specifically with the administration of these grants and subgrants. The proposed provisions are similar to those special conditions listed in the April 6, 1981 **Federal Register** notice for PHS grants to for-profit organizations.

When enacted the provisions will apply to all HHS grants and subgrants to for-profit organizations, including PHS grants, thus eliminating the present need for any special conditions in PHS grants to for-profit organizations.

We do not propose provisions for Federal access or rights to data, such as those described in the April 6, 1981 **Federal Register** notice referring to PHS grants to for-profit organizations.

After further review the Department believes that further regulation on Federal rights to data is not necessary. We have no evidence that research data are withheld in practice and in the absence of such evidence, we believe it would be arbitrary to impose special conditions for one group of grantees.

For-profit organizations will be subject to the same administrative policies as apply to non-profit institutions—as set forth in 45 CFR Part 74.

Following are descriptions of the additional provisions we are proposing for awards to for-profit organizations:

1. *Cost principles.* Some set of principles must be prescribed for determining allowable costs of for-profit organizations under grants and subgrants. We are proposing a section providing for use of the cost principles used in cost-type Federal procurement contracts awarded to for-profit organizations.

The section makes an exception for for-profit organizations that are hospitals. We believe the hospital cost principles in Appendix E to Part 74 are clearly more suitable and should apply to all hospitals, whether public, private nonprofit, or for-profit.

The section also continues a long-standing HHS policy of not allowing the

costs of independent research and development, which would otherwise be allowable as indirect costs. The exception will apply to for-profit organizations performing as contractors under grants or subgrants as well as those performing as grantees or subgrantees. (Amendment C.8 below.)

2. *Prohibition against profit.* A section will be added drawing the attention of for-profit organizations to the Part 74 rule that prohibits the payment of grant funds as profit to any grantee or subgrantee.

This prohibition is one of the fundamental features that characterize grants and distinguish them from contracts. We intend no exception for any kind of recipient.

We propose to add this section solely because for-profit organizations may not be sufficiently aware of the prohibition. (Amendment C.9 below, § 74.705.)

3. *Real property, equipment, and supplies.* A section will be added containing special rules for real property, equipment, and supplies acquired with grant financial support by a for-profit grantee or subgrantee.

The special rules provide that title to the property vests in the Federal Government rather than the recipient. When the Federally-owned property is no longer to be used for grant-supported activities, the recipient must follow disposition instructions from the granting agency.

When for-profit organizations receive HHS contracts, title to property acquired under the contracts normally vests in the Federal Government. By applying the same policy to property under grants, we will reduce the differences in rules for these organizations under these instruments. We may also enable some of these organizations to use essentially the same property control and management systems for grant property as they use for contract property.

The proposed section expands slightly upon the special condition with the same intent, described in the PHS April 6, 1981 **Federal Register** notice referred to above. Most of the added material describes when property disposition instructions are to be requested from the granting agency. (Amendment C.9 below, § 74.710.)

4. *General program income.* A section will be added providing that, of the three alternatives in Part 74 regarding the use of general program income earned from grant-supported activities, the "additional costs alternative" will not be used if the income is earned by a for-profit recipient.

Under this alternative, the income is used for any costs that further the objectives of the Federal statute under which the grant was made, and the term "objectives" has been interpreted broadly. That kind of general support is not normally appropriate for for-profit organizations. (Amendment C.9 below, § 74.715.)

5. *Royalties on patents and inventions.* A section will be added on the disposition of royalties (or equivalent income) on inventions or patents arising out of the activities assisted by a grant or subgrant to a for-profit organization other than a small business firm. The section will provide that determinations or agreements on disposition of these royalties will be made or entered into on a case-by-case basis only.

Currently, with some grantee organizations, HHS enters into blanket agreements covering inventions, patents, and associated royalties arising out of any of HHS's research project grants to the organization. The agreements provide for the retention of royalties by the organization, subject to certain conditions and requirements.

It is likely that HHS will be amending its patent regulations to implement 35 U.S.C. Chapter 18, "Patent Rights in Inventions Made With Federal Assistance," added by Pub. L. 96–517. At that time, we will review the entire question of inventions developed by for-profit grantees other than small business firms and income earned on those inventions. In the meantime, we think it prudent to deal with patent and invention royalties earned by these grantees on a case-by-case basis only. (The section will not apply to inventions made by grantees or subgrantees that are small business firms. Rights to those inventions are governed by 35 U.S.C. 200–211.) (Amendment C.9 below, § 74.720.)

6. *Prohibition against institutional cost-sharing agreements.* A section will be added providing that, under research grants to for-profit organizations, HHS will implement statutory requirements for cost sharing through project-by-project cost-sharing agreements only; it will not enter into "institutional cost-sharing agreements."

Under project-by-project cost-sharing agreements, for each research project supported by a grant, HHS negotiates a percentage of cost sharing for that particular project.

Under an institutional cost-sharing agreement, a percentage is negotiated for all or some of HHS's research project grants to the grantee in the aggregate. The actual amount of cost sharing may vary among individual projects at the discretion of the grantee.

Because the number of grants to any one for-profit organization will likely be few, an institutional cost-sharing agreement with a for-profit organization makes little sense and has no advantage. (Amendment C.9 below, § 74.725.)

Other Proposed Amendments

In addition to the amendments discussed above and associated technical conforming amendments, we proposed a few additional amendments to Part 74, as follows:

1. We propose to add a simple definition of "for-profit organization." (Amendment C.2 below.)

2. Section 74.130 of Part 74 provides that equipment or supplies acquired by a contractor under a grant or subgrant is subject to the Part 74 rules on grant property only if, by the terms of the contract, the property is to be owned by the grantee or subgrantee. However, under one of the proposed provisions (No. 3 in the above discussion of provisions), if title is not to vest in the contractor or another third party, situations will arise in which property will be owned not by the grantee or subgrantee—but by the Federal Government—and yet be subject to some property rules in Part 74.

We are proposing to change the wording of § 74.130 to eliminate the conflict with the new provision. (Amendment C.7 below.)

3. As explained above (No. 1 in the above discussion of provisions), we are proposing a new section specifying the cost principles for determining the allowable costs of for-profit organizations. The section will apply to for-profit cost-type contractors as well as to for-profit grantees and subgrantees. As a result, a paragraph now in Part 74 on cost principles for these contractors will no longer be needed and is being proposed for deletion. (Amendment C.8 below.)

Other Information

The Department has determined that this is not a major rule as defined in Executive Order 12291. Pursuant to the provisions of 5 U.S.C. Section 605(b), I hereby certify that this rule will not have a significant economic impact on a substantial number of small entitles.

Approved: November 10, 1981.

Richard S. Schweiker,

Secretary of Health and Human Services.

Accordingly, the Department of Health and Human Services proposes to amend Titles 42 and 45 of the Code of Federal Regulations as follows:

A. 42 CFR Part 52d is amended as follows:

PART 52—NATIONAL CANCER INSTITUTE CLINICAL CANCER EDUCATION PROGRAM

1. Section 52d.2 is amended to remove and reserve paragraph (c), the definition of "nonprofit."

§ 52d.2 [Amended]

* * * * *

(c) [Reserved]

* * * * *

2. Section 52d.3 is amended to revise introductory paragraph and paragraph (a) to read as follows:

§ 52d.3 Eligibility.

To be eligible for a grant under this part, an applicant must be:

(a) A public or private school of medicine, osteopathy, dentistry, or public health, affiliated teaching hospital, or specialized cancer institute; and

* * * * *

3. Section 52d.4 is amended to remove and reserve paragraph (b).

Authority: Sec. 215, 58 Stat. 690, as amended 63 Stat. 835 (42 U.S.C. 216); sec. 404(a)(4), 92 Stat. 3426 (42 U.S.C. 285).

§ 52d.4 [Amended]

* * * * *

(b) [Reserved]

* * * * *

B. 42 CFR Part 86 is amended as follows:

PART 86—GRANTS FOR EDUCATION PROGRAMS IN OCCUPATIONAL SAFETY AND HEALTH

1. Section 86.2 is amended to remove and reserve paragraph (b), the definition of "nonprofit agency or institution."

§ 86.2 [Amended]

* * * * *

(b) [Reserved]

* * * * *

2. Section 86.11 is amended to revise paragraph (a) to read as follows:

§ 86.11 Eligibility.

(a) *Eligible applicants.* Any public or private educational or training agency or institution located in a state is eligible to apply for a grant under this subpart.

* * * * *

3. Section 86.31 is amended to revise introductory paragraph and paragraph (a) to read as follows:

§ 86.31 Eligibility; minimum requirements.

In order to be eligible for an award under this subpart an applicant must:

(a) Have been accepted by a public or private institution for the purpose of the activity for which the traineeship is sought.

* * * * *

Authority: 84 Stat. 1600, 29 U.S.C. 657(g); 84 Stat. 1612, 29 U.S.C. 670(a).

C. 45 CFR Part 74 is amended as follows:

1. The Table of Contents is amended to revise the entries for Subpart Q and to add entries for Subparts U through AA as follows:

PART 74—ADMINISTRATION OF GRANTS

* * * * *

Subpart Q—Cost Principles

* * * * *

Sec.

74.175 For-profit organizations other than for-profit hospitals.
74.176 Subgrants and cost-type contracts.
74.177 Costs allowable with approval.

* * * * *

Subparts U–Z [Reserved]

Subpart AA—Special Provisions for Grants and Subgrants to For-Profit Organizations

74.701 Scope of subpart.
74.705 Prohibition against profit.
74.710 Real property, equipment, and supplies.
74.715 General program income.
74.720 Royalties or equivalent income earned from patents or inventions.
74.725 Cost sharing under research grants.

* * * * *

Authority: 5 U.S.C. 301.

2. Section 74.3 is amended to add the following definition after the definition of "Federally recognized Indian tribal government":

§ 74.3 Definitions.

* * * * *

"For-profit" organization or institution means a corporation or other legal entity which is organized or operated for the profit or benefit of its shareholders or other owners.

* * * * *

3. Section 74.4 is amended to remove the words "for-profit organization" from paragraphs (a) and (b) and to add a new paragraph (d). As revised, § 74.4 reads as follows:

§ 74.4 Applicability of this part.

(a) *General.* Except where inconsistent with Federal statutes, regulations, or other terms of a grant, this part applies to all HHS grants. However, unless expressly made applicable by the granting agency, this part shall not apply when the grantee is a Federal agency, foreign government or organization, international organization such as the United Nations, or individual.

(b) *Subgrants.* For each substantive provision in this part, either the language of the provision itself or other text in the same subpart will indicate whether the provision affects only grants, only subgrants, or both. Use of the term "recipient" (as defined in § 74.3) in a provision shall be taken as referring equally to grantees and subgrantees. Similarly, use of the term "awarding party" (as defined in § 74.3) shall be taken as referring equally to granting agencies and to grantees awarding subgrants. However, unless expressly made applicable by the granting agency, this part need not be applied by the grantee to a subgrant if the subgrantee is a Federal agency, foreign government or organization, international organization such as the United Nations, or individual.

(c) *Public institutions of higher education and hospitals.* Grants and subgrants to institutions of higher education and hospitals operated by a government shall be subject only to provisions of this subpart that apply to nongovernmental organizations.

(d) *For-profit organizations.* The attention of for-profit organizations is directed to Subpart AA of this part. The special provisions in that subpart for grants and subgrants to those organizations contain exceptions to other portions of this part.

4. Section 74.22 is amended to add to paragraph (b) a cross reference to new § 74.710(e), as follows:

§ 74.22 Starting date of retention period.

* * * * *

(b) *Equipment records.* The retention period for the equipment records required by § 74.140(a) starts from the date of the equipment's disposition (§§ 74.139 or 74.710(e)) or replacement (§ 74.138) or transfer at the discretion of the awarding party (§ 74.136).

* * * * *

§ 74.101 [Amended]

5. Section 74.101 is amended by revising the reference to § 74.176 in the first sentence to § 74.177.

§ 74.105 [Amended]

6. Section 74.105 is amended by revising the reference to § 74.176 in paragraph (c) to § 74.177.

7. Section 74.130 is amended to revise paragraph (d) to read as follows:

§ 74.130 Scope and applicability of this subpart.

* * * * *

(d) Equipment or supplies acquired by a contractor under its contract are not subject to this subpart if, by the terms of

the contract, title to the property vests in the contractor or another third party.

* * * * *

8. Subpart Q is amended by adding a new § 74.175, by redesignating current §§ 74.175 and 74.176 as §§ 74.176 and 74.177 respectively, and by deleting the second paragraph in the section redesignated as § 74.176. As amended, §§ 74.175 and 74.176 read as follows:

§ 74.175 For-profit organizations other than for-profit hospitals.

(a) The principles to be used in determining the allowable costs of activities conducted by for-profit organizations (other than for-profit hospitals) are contained in the Federal Procurement regulations at 41 CFR Subpart 1–15.2. *Exception:* Independent research and development costs (including the indirect costs allocable to them) are unallowable. Independent research and development are defined in the Federal Procurement Regulations at 41 CFR 1–15.205–35.

(b) For hositals, see § 74.173.

§ 74.176 Subgrants and cost-type contracts.

The cost principles applicable to a subgrantee or cost-type contractor under an HHS grant will not necessarily be the same as those applicable to the grantee. For example, where a State government awards a subgrant or cost-type contract to an institution of higher education, OMB Circular A–21 would apply to the costs incurred by the institution of higher education, even though OMB Circular A–87 would apply to the costs incurred by the State.

§ 74.177 Costs allowable with approval.

* * * * *

9. Suparts U through Z are reserved and a new Subpart AA is added as follows:

Subparts U-Z [Reserved]

Subpart AA—Special Provisions for Grants and Subgrants to For-Profit Organizations

§ 74.701 Scope of subpart.

(a) This subpart contains provisions that apply to grants and subgrants to for-profit organizations. These provisions are in addition to other portions of this part that apply to all recipients, or they make exceptions for awards to for-profit organizations from other provisions of this part.

(b) This subpart also draws attention to, or discusses, provisions elsewhere in this part that need special emphasis or clarification with respect to awards to for-profit organizations.

§ 74.705 Prohibition against profit.

Attention is directed to § 74.170 which provides, in effect, that no grant funds may be paid as profit to any recipient of a grant or subgrant, even if the recipient is a for-profit organization. Profit is any amount in excess of allowable direct and indirect costs of the recipient.

§ 74.710 Real property, equipment, and supplies.

(a) *Applicability.* (1) This section applies to real property, equipment, and supplies which, in accordance with § 74.130, would be suject to Subpart O of this part but is acquired under a grant or subgrant to a for-profit organization.

(2) A grantee that is not a for-profit organization may take title to property acquired under a subgrant to a for-profit organization. If so, the property will be considered as acquired by the grantee under its grant, and this section will not apply to the property.

(b) *Exemptions from Subpart O.* Property subject to this section is exempt from Subpart O of this part except for the definitions in § 74.132 and except, with respect to equipment, for the equipment management requirements in § 74.140.

(c) *Title.* The recipient shall vest title to the real property, equipment, and supplies in the Federal Government.

(d) *Inventory results.* The recipient shall inform the granting agency of the results of each physical inventory taken of the equipment. (Inventory requirements are in § 74.140 of this part.)

(e) *Disposition.* The recipient shall request and follow the instructions of the granting agency regarding disposition of the property as follows:

(1) For real property and equipment, whenever an item is no longer needed for the grant-supported activities.

(2) For supplies, annually during the performance of its grant or subgrant with respect to any supplies that during the preceding year ceased to be needed for the grant-supported activities.

(3) For all property, at the end of the recipient's grant or subgrant, with respect to any of the property which it still holds.

(f) *Other instructions.* The recipient shall follow any other instructions issued by the granting agency regarding use, management, or disposition of the property.

§ 74.715 General program income.

The additional costs alternative described in § 74.42(e) of this part may not be applied to general program income earned by a recipient that is a for-profit organization.

§ 74.720 Royalties or equivalent income earned from patents or inventions.

(a) As explained in § 74.45 of this part, disposition of royalties or equivalent income earned on patents or inventions arising out of activities assisted by a grant or subgrant is governed by determinations made or agreements entered into under HHS's patent regulations (45 CFR Parts 6 and 8). However, in the case of patents or inventions arising out of activities assisted by a grant or subgrant to a for-profit organization, those determinations or agreements will be made or entered into on a case-by-case basis only, and hence §§ 8.1 (b) and (c) will not apply to these awards.

(b) This section does not apply to small business firms, as defined in section 201(h) of Chapter 18 of Title 35, United States Code. For inventions made with Federal assistance by those firms, determinations of ownership and disposition of rights are made in accordance with that Chapter 18.

§ 74.725 Cost sharing under research grants.

Under research grants to for-profit organizations, HHS does not enter into institutional cost-sharing agreements that cover all or a number of its research project grants to the grantee in the aggregate. In research grants to these organizations, HHS implements statutory requirements for cost sharing through separate cost-sharing agreements negotiated for each research project.

PART 1336—NATIVE AMERICAN PROGRAMS

D. In 45 CFR Part 1336, § 1336.30 is amended to delete the word "nonprofit" in the two places that it occurs.

Authority: 88 Stat. 2324 (42 U.S.C. 2991d).

[FR Doc. 81–34719 Filed 12–2–81; 8:45 am]
BILLING CODE 4150–04–M

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 73

[BC Docket No. 81–774; RM–3947]

FM Broadcast Stations in Key West, Florida; Proposed Changes in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: This action proposes the assignment of Class C FM Channel 254 to Key West, Florida, in response to a

petition filed by B.F.J. Timm. The proposed assignment could provide a fourth FM broadcast service to Key West.

DATES: Comments must be filed on or before January 4, 1982, and reply comments on or before January 19, 1982.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Montrose H. Tyree, Broadcast Bureau, (202) 632–7792.

SUPPLEMENTARY INFORMATION:

Notice of Proposed Rulemaking

Adopted: November 6, 1981.

Released: November 24, 1981.

By the Acting Chief, Policy and Rules Division.

In the Matter of amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations. (Key West, Florida), BC Docket No. 81–774 RM–3947.

1. The Commission herein considers a petition for rule making,[1] filed by B.F.J. Timm ("petitioner"), proposing the assignment of Class C FM Channel 254 to Key West, Florida, as that community's fourth FM assignment. Petitioner stated his intent to apply for the channel, if assigned. No oppositions to the proposal were received.

2. Key West (population 24,292),[2] in the Key West Division (population 31,637), is located approximately 208 kilometers (130 miles) southwest of Miami, Florida. It is served locally by daytime-only AM Station WKWF, fulltime AM Station WKIZ, and three FM stations: WIIS (Channel 296A), WFYN (Channel 223) and WVFK (Channel 258).

3. According to petitioner, year-round tourism, trade and the fishing industry are the primary sources of Key West's economy. Key West is also the location of an anti-submarine and training Naval base and Navy hospital, which tends to boost the economy. Petitioner claims that approximately 48,000 people would be served by the proposed Channel 254 assignment (Key West Division 31,637, Lower Keys Division 6,353, and Middle Keys Division 10,221). It is the belief of the petitioner that the above factors contribute to an active community with a strong need for expanded communications facilities.

4. The study submitted by the petitioner shows that no community with a population greater than 1,000 will be precluded by the proposed assignment of Channel 254 to Key West.

[1] Public Notice of the petition was given on July 28, 1981. Report No. 1300.

[2] Population figures are taken from the 1980 U.S. Census.

5. This proposal exceeds the Commission's population guidelines for a fourth FM assignment. However, since we are more concerned with the efficiency of allocations, than with the total number of allocations to a community, we have analyzed the preclusive impact of the proposal. See *Waycross, Georgia,* 47 RR 2d 319 (1980). Here preclusion appears to present no obstacle to the proposed assignment since no community appears to be adversely affected.

6. In view of the foregoing, the Commission proposes to amend the FM Table of Assignments, § 73.202(b) of the rules, as follows for the listed community:

City	Channel No.	
	Present	Proposed
Key West, Florida	223, 258,	223, 254, 258, 296A

7. The Commission's authority to institute rule making proceedings, showings required, cut-off procedures, and filing requirements are contained in the attached Appendix and are incorporated by reference herein.

Note.—A showing of continuing interest is required by paragraph 2 of the Appendix before a channel will be assigned.

8. Interested parties may file comments on or before January 4, 1982, and reply comments on or before January 19, 1982.

9. The Commission has determined that the relevant provisions of the Regulatory Flexibility Act of 1980 do not apply to rule making proceedings to amend the FM Table of Assignments, § 73.202(b) of the Commission's Rules. See Certification that sections 603 and 604 of the Regulatory Flexibility Act Do Not Apply to Rule Making to Amend §§ 73.202(b), 73.504 and 73.606(b) of the Commission's Rules, 46 FR 11549, published February 9, 1981.

10. For further information concerning this proceeding, contact Montrose H. Tyree, Broadcast Bureau, (202) 632–7792. However, members of the public should note that from the time a *Notice of Proposed Rule Making* is issued until the matter is no longer subject to Commission consideration or court review, all *ex parte* contacts are prohibited in Commission proceedings, such as this one, which involve channel assignments. An *ex parte* contact is a message (spoken or written) concerning the merits of a pending rule making other than comments officially filed at the Commission or oral presentation required by the Commission.

(Secs. 4, 303, 48 stat., as amended, 1066, 1082; 47 U.S.C. 154, 303)

Federal Communications Commission.

Martin Blumenthal,

Acting Chief, Policy and Rules Division. Broadcast Bureau.

Appendix

1. Pursuant to authority found in sections 4(i), 5(d)(1), 303 (g) and (r), and 307(b) of the Communications Act of 1934, as amended, and § 0.281(b)(6) of the Commission's rules, it is proposed to amend the FM Table of Assignments, § 73.202(b) of the Commission's rules and regulations, as set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached.

2. *Showings Required.* Comments are invited on the proposal(s) discussed in the *Notice of Proposed Rule Making* to which this Appendix is attached. Proponent(s) will be expected to answer whatever questions are presented in initial comments. The proponent of a proposed assignment is also expected to file comments even if it only resubmits or incorporates by reference its former pleadings. It should also restate its present intention to apply for the channel if it is assigned, and, if authorized, to build a station promptly. Failure to file may lead to denial of the request.

3. *Cut-off Procedures.* The following procedures will govern the consideration of filings in this proceeding.

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered if advanced in reply comments. (See § 1.420(d) of the Commission's rules.)

(b) With respect to petitions for rule making which conflict with the proposal(s) in this *Notice,* they will be considered as comments in the proceeding, and Public Notice to this effect will be given as long as they are filed before the date for filing initial comments herein. If they are filed later than that, they will not be considered in connection with the Decision in this docket.

(c) The filing of a counterproposal may lead the Commission to assign a different channel than was requested for any of the communities involved.

4. *Comments and Reply Comments; Service.* Pursuant to applicable procedures set out in §§ 1.415 and 1.420 of the Commission's rules and regulations, interested parties may file comments and reply comments on or before the dates set forth in the *Notice of Proposed Rule Making* to which this

Appendix is attached. All submissions by parties to this proceeding or persons acting on behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings. Comments shall be served on the petitioner by the person filing the comments. Reply comments shall be served on the person(s) who filed comments to which the reply is directed. Such comments and reply comments shall be accompanied by a certificate of service. (See § 1.420 (a), (b) and (c) of the Commission's rules.)

5. *Number of Copies.* In accordance with the provisions of § 1.420 of the Commission's rules and regulations, an original and four copies of all comments, reply comments, pleadings, briefs, or other documents shall be furnished the Commission.

6. *Public Inspection of Filings.* All filings made in this proceeding will be available for examination by interested parties during regular business hours in the Commission's Public Reference Room at its headquarters, 1919 M Street, NW., Washington, D.C.

[BC Docket No. 81-812; RM-3941]

FM Broadcast Station in Lamoni, Iowa; Proposed Changes in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: This action proposes to assign FM Channel 249A to Lamoni, Iowa, in response to a petition filed by Lamoni Broadcasting Co. The assignment could provide Lamoni with a first local aural broadcast service.

DATES: Comments may be filed on or before January 4, 1982, and reply comments on or before January 19, 1982.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Nancy V. Joyner, Broadcast Bureau, (202) 632-7792.

SUPPLEMENTARY INFORMATION:

Adopted: November 12, 1981.

Released: November 18, 1981.

By the Acting Chief, Policy and Rules Division.

In the Matter of amendment § 73.202(b), Table of Assignments, FM Broadcast Stations. (Lamoni, Iowa) BC Docket No. 81-812 RM-3941.

1. Lamoni Broadcasting Co. ("petitioner") has filed a petition for rule making [1] seeking assignment of FM Channel 249A to Lamoni, Iowa, as that community's first assignment. The assignment can be made in compliance with the Commission's rules, and petitioner states that it will apply for the channel, if assigned. No oppositions to the proposal were received.

2. Lamoni (population 2,705),[2] in Decatur County (population 9,794), is located approximately 112 kilometers (70 miles) south of Des Moines, Iowa. It presently has no local aural service.

3. Petitioner states that Lamoni, the largest city in Decatur County, is growing and has an excellent potential for development, due largely to its accessible location adjacent to an interstate and U.S. Highway. A further indicator of its growth potential is attributed to its equi-distant location between Des Moines and Kansas City. The proposed station would fill an important community need for coverage of general events and especially sports activities, for which there is considerable interest in the Lamoni area, according to petitioner.

4. In view of the fact that the proposed FM assignment could provide a first local aural broadcast service to Lamoni, the Commission proposes to amend the FM Table of Assignments, § 73.202(b) of the Commission's rules, as follows:

City	Channel No	
	Present	Proposed
Lamoni, Iowa		249A

5. The Commission's authority to institute rule making proceedings, showings required, cut-off procedures, and filing requirements are contained in the attached Appendix and are incorporated by reference herein. NOTE: A showing of continuing interest is required by paragraph 2 of the Appendix before a channel will be assigned.

6. Interested parties may file comments on or before January 4, 1982 and reply comments on or before January 19, 1982.

7. The Commission has determined that the relevant provisions of the Regulatory Flexibility Act of 1980, do not apply to rule making proceedings to amend the FM Table of Assignments, § 73.202(b) of the Commission's Rules. See, *Certification that sections 603 and 604 of the Regulatory Flexibility Act Do Not Apply to Rule Making to Amend §§ 73.202(b), 73.504 and 73.606(b) of the Commission's rules*, 46 FR 11549, published February 9, 1981.

[1] Public Notice of the petition was given on July 28, 1981, Report No. 1300.

[2] Population figures are extracted from the 1980 U.S. Census.

8. For further information concerning this proceeding, contact Nancy V. Joyner, Broadcast Bureau, (202) 632-7792. However, members of the public should note that from the time a Notice of Proposed Rule Making is issued until the matter is no longer subject to Commission consideration or court review, all *ex parte* contacts are prohibited in Commission proceedings, such as this one, which involve channel assignments. An *ex parte* contact is a message (spoken or written) concerning the merits of a pending rule making other than comments officially filed at the Commission or oral presentation required by the Commission.

Federal Communications Commission.

Martin Blumenthal,

Acting Chief, Policy and Rules Division, Broadcast Bureau.

Appendix

1. Pursuant to authority found in sections 4(i), 5(d)(1), 303 (g) and (r), and 307(b) of the Communications Act of 1934, as amended, and § 0.281(b)(6) of the Commission's Rules, IT IS PROPOSED TO AMEND the FM Table of Assignments, Section 73.202(b) of the Commission's rules and regulations, as set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached.

2. *Showings Required.* Comments are invited on the proposal(s) discussed in the *Notice of Proposed Rule Making* to which this Appendix is attached. Proponent(s) will be expected to answer whatever questions are presented in initial comments. The proponent of a proposed assignment is also expected to file comments even if it only resubmits or incorporates by reference its former pleadings. It should also restate its present intention to apply for the channel if it is assigned, and, if authorized, to build a station promptly. Failure to file may lead to denial of the request.

3. *Cut-off Procedures.* The following procedures will govern the consideration of filings in this proceeding.

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered if advanced in reply comments. (See § 1.420(d) of the Commission's rules.)

(b) With respect to petitions for rule making which conflict with the proposal(s) in this *Notice*, they will be considered as comments in the

proceeding, and Public Notice to this effect will be given as long as they are filed before the date for filing initial comments herein. If they are filed later than that, they will not be considered in connection with the decision in this docket.

(c) The filing of a counterproposal may lead the Commission to assign a different channel than was requested for any of the communities involved.

4. *Comments and Reply Comments; Service.* Pursuant to applicable procedures set out in §§ 1.415 and 1.420 of the Commission's Rules and Regulations, interested parties may file comments and reply comments on or before the dates set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached. All submissions by parties to this proceeding or persons acting on behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings. Comments shall be served on the petitioner by the person filing the comments. Reply comments shall be served on the person(s) who filed comments to which the reply is directed. Such comments and reply comments shall be accompanied by a certificate of service. (See § 1.420 (a), (b) and (c) of the Commission's rules.)

5. *Number of Copies.* In accordance with the provisions of Section 1.420 of the Commission's Rules and Regulations, an original and four copies of all comments, reply comments, pleadings, briefs, or other documents shall be furnished the Commission.

6. *Public Inspection of Filings.* All filings made in this proceeding will be available for examination by interested parties during regular business hours in the Commission's Public Reference Room at its headquarters, 1919 M Street, NW., Washington, D.C.

47 CFR PART 73

[BC Docket No. 81-778; RM-3946]

FM Broadcast Station in Great Bend, Kansas; Proposed Changes in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: This action proposes the assignment of Class C Channel 300 to Great Bend, Kansas, in response to a petition filed by John E. Bozeman. The proposed assignment could provide a second commercial FM service to Great Bend.

DATES: Comments must be filed on or before January 4, 1982, and reply comments on or before January 19, 1982.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Montrose H. Tyree, Broadcast Bureau, (202) 632-7792.

SUPPLEMENTARY INFORMATION:

Adopted: November 6, 1981.

Released: November 20, 1981.

By the Acting Chief, Policy and Rules Division.

In the matter of amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations. (Great Bend, Kansas) BC Docket No. 81-778 RM-3946.

1. The Commission herein considers a petition for rule making [1] filed by John E. Bozeman ("petitioner"), proposing the assignment of Class C Channel 300 to Great Bend, Kansas. The proposal could provide Great Bend with its second commercial FM assignment. Petitioner stated his intent to apply for the channel, if assigned. No oppositions to the proposal were received.

2. Great Bend (population 16,606),[2] seat of Barton County (population 31,343), is located approximately 144 kilometers (90 miles) northwest of Wichita, Kansas. It is served locally by fulltime AM Station KVGB, FM Station KVGB (Channel 282), and noncommercial FM Station KBJC (Channel 220A).

3. Petitioner states that the proposed assignment would provide Great Bend with a second commercial broadcast service under separate ownership. Petitioner's preclusion study indicates that nine communities [3] with a population greater than 1,000 people, having no FM service, would be affected by the assignment. An alternative channel is available to each of the communities in the precluded area.

4. Comments are invited on the proposal to amend the FM Table of Assignments, § 73.202(b) of the Rules, with regard to the city of Great Bend, Kansas, as follows:

City	Channel No.	
	Present	Proposed
Great Bend, Kansas	282	282, 300

5. The Commission's authority to institute rule making proceedings, showings required, cut-off procedures, and filing requirements are contained in the attached Appendix and are incorporated by reference herein.

Note.—A showing of continuing interest is required by paragraph 2 of the Appendix before a channel will be assigned.

6. Interested parties may file comments on or before January 4, 1982, and reply comments on or before January 19, 1982.

7. The Commission has determined that the relevant provisions of the Regulatory Flexibility Act of 1980 do not apply to rule making proceedings to amend the FM Table of Assignments, § 73.202(b) of the Commission's rules. See, *Certification that sections 603 and 604 of the Regulatory Flexibility Act Do Not Apply to Rule Making to Amend §§ 73.202(b), 73.504 and 73.606(b) of the Commission's rules*, 46 FR 11549. published February 9, 1981.

8. For further information concerning this proceeding, contact Montrose Tyree, Broadcast Bureau, (202) 632-7792. However, members of the public should note that from the time a Notice of Proposed Rule Making is issued until the matter is no longer subject to Commission consideration or court review, all *ex parte* contacts are prohibited in Commission proceedings, such as this one, which involve channel assignments. An *ex parte* contact is a message (spoken or written) concerning the merits of a pending rule making other than comments officially filed at the Commission or oral presentation required by the Commission.

(Secs. 4, 303, 48 Stat., as amended, 1066, 1082; 47 U.S.C. 154, 303)

Federal Communications Commission.

Martin Blumenthal,

Acting Chief, Policy and Rules Division, Broadcast Bureau.

Appendix

1. Pursuant to authority found in Sections 4(i), 5(d)(1), 303 (g) and (r), and 307(b) of the Communications Act of 1934, as amended, and § 0.281(b)(6) of the Commission's Rules, it is proposed to amend the FM Table of Assignments, § 73.202(b) of the Commission's rules and regulations, as set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached.

2. *Showings Required.* Comments are invited on the proposal(s) discussed in the *Notice of Proposed Rule Making* to which this Appendix is attached. Proponent(s) will be expected to answer whatever questions are presented in initial comments. The proponent of a proposed assignment is also expected to file comments even if it only resubmits

47 CFR Part 73

[BC Docket No. 81-780; RM-3922]

TV Broadcast Station in Lawrence, Kansas; Proposed Changes in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: This action proposes to assign UHF television Channel 38 to Lawrence, Kansas, in response to a petition filed by Telegraphics, Inc. The assignment could provide Lawrence with its first local television service.

DATES: Comments must be filed on or before January 4, 1982, and reply comments must be filed on or before January 19, 1982.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Nancy V. Joyner, Broadcast Bureau, (202) 632-7792.

SUPPLEMENTARY INFORMATION:

Adopted: November 6, 1981.

Released: November 20, 1981.

By the Acting Chief, Policy and Rules Division:

In the matter of amendment of § 73.606(b), Table of Assignments, Television Broadcast Stations. (Lawrence, Kansas) BC Docket No. 81-780 RM-3922.

1. A petition for rule making [1] was filed by Telegraphics, Inc. ("petitioner") proposing the assignment of UHF television Channel 38 to Lawrence, Kansas, as that community's first local commercial television broadcast service. The assignment could be made in compliance with the minimum distance separation requirements of § 73.610 of the Commission's rules. Supporting comments were filed by the petitioner in which it reaffirmed its intent to apply for the channel, if assigned. Appended to those comments were letters from citizens of the community advocating support of the proposal. No oppositions to the proposal were received.

2. Lawrence (population 52,738),[2] the seat of Douglas County (population 67,640), is located in the northeastern part of Kansas, approximately 60 kilometers (37 miles) southwest of Kansas City. It presently has no local television channel assignment.[3]

3. Petitioner advises that Lawrence has its own government unit, municipal services, health care services, a library, schools, banks, savings and loan associations, and recreational facilities. Additionally, it is the location of the University of Kansas, as well as Haskell Indian Junior College, one of the largest Indian schools in the United States, according to petitioner. It further asserts that a substantial portion of its economy is derived from agriculture, although several major industries in Lawrence also contribute to its economic base. It adds that the community is well served by a multiplicity of transportation services, and indicates the availability of several local newspapers to its residents. Petitioner has submitted suitable data to demonstrate a need for the proposed television assignment to Lawrence.

4. In view of the foregoing, and the fact that the proposed television channel assignment could provide a first local commercial television broadcast service to Lawrence, the Commission believes it appropriate to propose amending the Television Table of Assignments, § 73.606(b) of the Rules, as follows:

City	Channel No	
	Present	Proposed
Lawrence, Kans.		■

5. The Commission's authority to institute rule making proceedings, showings required, cut-off procedures, and filing requirements are contained in the attached Appendix and are incorporated by reference herein. NOTE: A showing of continuing interest is required by paragraph 2 of the Appendix before a channel will be assigned.

6. Interested parties may file comments or or before January 4, 1982 and reply comments on or before January 19, 1982.

7. The Commission has determined that the relevant provisions of the Regulatory Flexibility Act of 1980 do not apply to rule making proceedings to amend the TV Table of Assignments, § 73.606(b) of the Commission's rules. *See, Certification that sections 603 and 604 of the Regulatory Flexibility Act do not apply to rule making to amend §§ 73.202(b), 73.504 and 73.606(b) of the*

[1] Public Notice of the petition was given on July 8, 1981, Report No. 1296.

[2] Population figures are extracted from the 1980 U.S. Census.

[3] Petitioner observes that Channel *11, formerly assigned to Lawrence, was reassigned to Topeka in 1962, where it is in use today by the Washburn University of Topeka. (Such reassignment was made in order to facilitate development of a statewide educational network (Docket No. 13860).)

Commission's Rules, 46 FR 11549, published February 9, 1981.

8. For further information concerning this proceeding, contact Nancy V. Joyner, Broadcast Bureau, (202) 632-7792. However, members of the public should note that from the time a Notice of Proposed Rule Making is issued until the matter is no longer subject to Commission consideration or court review, all *ex parte* contacts are prohibited in Commission proceedings, such as this one, which involve channel assignments. An *ex parte* contact is a message (spoken or written) concerning the merits of a pending rule making other than comments officially filed at the Commission or oral presentation required by the Commission.

(Secs. 4, 303, 48 Stat., as amended, 1066, 1082; 47 U.S.C. 154, 303)

Federal Communications Commission.

Martin Blumenthal,

Acting Chief, Policy and Rules Division Broadcast Bureau.

Appendix

1. Pursuant to authority found in section 4(i), 5(d)(1), 303 (g) and (r), and 307(b) of the Communications Act of 1934, as amended, and § 0.281(b)(6) of the Commission's Rules, it is proposed to amended the TV Table of Assignments, § 73.606(b) of the Commission's rules and regulations, as set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached.

2. *Showing Required.* Comments are invited on the proposal(s) discussed in the *Notice of Proposed Rule Making* to which this Appendix is attached. Proponent(s) will be expected to answer whatever questions are presented in initial comments. The proponent of a proposed assignment is also expected to file comments even if it only resubmits or incorporates by reference its former pleadings. It should also restate its present intention to apply for the channel if it is assigned, and, if authorized, to build a station promptly. Failure to file may lead to denial of the request.

3. *Cut-off Procedures.* The following procedures will govern the consideration of filings in this proceeding.

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered if advanced in reply comments. (See § 1.420(d) of the Commission's rules.)

(b) With respect to petitions for rule making which conflict with the proposal(s) in this *Notice*, they will be considered as comments in the proceeding, and Public Notice to this effect will be given as long as they are filed before the date for filing initial comments herein. If they are filed later than that, they will not be considered in connection with the decision in this docket.

(c) The filing of a counterproposal may lead the Commission to assign a different channel than was requested for any of the communities involved.

4. *Comments and Reply Comments; Service.* Pursuant to applicable procedures set out in §§ 1.415 and 1.420 of the Commission's rules and regulations, interested parties may file comments and reply comments on or before the dates set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached. All submissions by parties to this proceeding or persons acting on behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings. Comments shall be served on the petitioner by the person filing the comments. Reply comments shall be served on the person(s) who filed comments to which the reply is directed. Such comments and reply comments shall be accompanied by a certificate of service. (See § 1.420(a), (b) and (c) of the Commission's rules.)

5. *Number of Copies.* In accordance with the provisions of § 1.420 of the Commission's rules and regulations, an original and four copies of all comments, reply comments, pleadings, briefs, or other documents shall be furnished the Commission.

6. *Public Inspection of Filings.* All filings made in this proceeding will be available for examination by interested parties during regular business hours in the Commission's Public Reference Room at its headquarters, 1919 M Street, NW., Washington, D.C.

47 CFR Part 73

[BC Docket No. 81-783; RM-3939]

FM Broadcast Station in McPherson, Kansas; Proposed Changes in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: This action proposes to assign FM Channel 240A to McPherson, Kansas, in response to a petition filed by Dean Curfman. The assignment could provide McPherson with a second FM station.

DATES: Comments must be filed on or before January 4, 1982, and reply comments must be filed on or before January 19, 1982.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Nancy V. Joyner, Broadcast Bureau, (202) 632-7792.

SUPPLEMENTARY INFORMATION:

Adopted: November 6, 1981.

Released: November 20, 1981.

By the Acting Chief, Policy and Rules Division:

In the Matter of amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations. (McPherson, Kansas) BC Docket No. 81-783 RM-3939.

1. Dean Curfman ("petitioner") has filed a petition for rule making,[1] seeking assignment of Channel 240A to McPherson, Kansas, as that community's second FM assignment. The assignment could be made with a site restriction, as noted *infra*, to comply with the minimum distance separation requirements, and petitioner stated that he will apply for the channel, if assigned. Comments were filed by McPherson Broadcasting, Inc. ("MBI"), licensee of co-owned Stations KNEX (AM-FM), in McPherson, to which the petitioner responded.

2. McPherson (population 11,753),[2] in McPherson County (population 26,855), is located approximately 80 kilometers (50 miles) north of Wichita, Kansas. It is presently served locally by daytime-only AM Station KNEX and KNEX (FM) (Channel 244A).

3. Petitioner indicates that McPherson's present aural facilities are co-owned by MBI, which, in turn, is owned by the community's local newspaper. It adds that a second diverse voice is needed in the community for the presentation of new and public affairs.

4. MBI stated that petitioner's preclusion study was incomplete in that a number of Kansas communities not mentioned in the petition would be precluded by the assignment of Channel 240A to McPherson.[3]

5. Petitioner advises that the assignment of Channel 240A to McPherson will cause preclusion on Channels 240A and 242. Petitioner should provide a list of all precluded

[1] Public Notice of the petition was given on July 28, 1981, Report No. 1300.

[2] Population figures are extracted from the 1980 U.S. Census.

[3] MBI also alleged that the petitioner recently passed away and attached an obituary notice. Petitioner responded that the notice pertained to his late father, Dean Curfman.

communities containing a population in excess of 1,000 persons which would sustain preclusion as a result of the assignment, and a list of alternate channels for all precluded communities without local service. This information should be supplied in its supporting comments.

6. As a final matter, it is noted that the transmitter site must be located approximately 10.6 kilometers (6.6 miles) north-northwest of McPherson to avoid short-spacing to Station KGCS in Derby, Kansas.

7. In order to give further consideration to the request, the Commission proposes to amend the FM Table of Assignments, § 73.202(b) of the Commission's Rules, as follows:

City	Channel No.	
	Present	Proposed
McPherson, Kans.	244A	240A, 244A

8. The Commission's authority to institute rule making proceedings, showings required, cut-off procedures, and filing requirements are contained in the attached Appendix and are incorporated by reference herein. NOTE: A showing of continuing interest is required by paragraph 2 of the Appendix before a channel will be assigned.

9. Interested parties may file comments on or before January 4, 1982, and reply comments on or before January 19, 1982.

10. The Commission has determined that the relevant provisions of the Regulatory Flexibility Act of 1980 do not apply to rule making proceedings to amend the FM Table of Assignments, § 73.202(b) of the Commission's Rules. *See, Certification that sections 603 and 604 of the Regulatory Flexibility Act Do Not Apply to Rule Making to Amend §§ 73.202(b), 73.504 and 73.606(b) of the Commission's rules*, 46 FR 11549, published February 9, 1981.

11. For further information concerning this proceeding, contact Nancy V. Joyner, Broadcast Bureau, (202) 632-7792. However, members of the public should note that from the time a Notice of Proposed Rule Making is issued until the matter is no longer subject to Commission consideration or court review, all *ex parte* contacts are prohibited in Commission proceedings, such as this one, which involve channel assignments. An *ex parte* contact is a message (spoken or written) concerning the merits of a pending rule making other than comments officially filed at the Commission or oral presentation required by the Commission.

(Secs. 4, 303, 48 stat., as amended, 1066, 1082; 47 U.S.C. 154, 303)

Federal Communications Commission.

Martin Blumenthal,

Acting Chief, Policy and Rules Division Broadcast Bureau.

Appendix

1. Pursuant to authority found in sections 4(i), 5(d)(1), 303 (g) and (r), and 307(b) of the Communications Act of 1934, as amended, and § 0.281(b)(6) of the Commission's rules, it is proposed to amend the FM Table of Assignments, § 73.202(b) of the Commission's rules and regulations, as set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached.

2. *Showings Required.* Comments are invited on the proposal(s) discussed in the *Notice of Proposed Rule Making* to which this Appendix is attached. Proponent(s) will be expected to answer whatever questions are presented in initial comments. The proponent of a proposed assignment is also expected to file comments even if it only resubmits or incorporates by reference its former pleadings. It should also restate its present intention to apply for the channel if it is assigned, and, if authorized, to build a station promptly. Failure to file may lead to denial of the request.

3. *Cut-off Procedures.* The following procedures will govern the consideration of filings in this proceeding.

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered if advanced in reply comments. (See § 1.420(d) of the Commission's rules.)

(b) With respect to petitions for rule making which conflict with the proposal(s) in this *Notice*, they will be considered as comments in the proceeding, and Public Notice to this effect will be given as long as they are filed before the date for filing initial comments herein. If they are filed later than that, they will not be considered in connection with the decision in this docket.

(c) The filing of a counterproposal may lead the Commission to assign a different channel than was requested for any of the communities involved.

4. *Comments and Reply Comments; Service.* Pursuant to applicable procedures set out in §§ 1.415 and 1.420 of the Commission's rules and regulations, interested parties may file comments and reply comments on or before the dates set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached. All submissions by parties to this proceeding or persons acting on behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings. Comments shall be served on the petitioner by the person filing the comments. Reply comments shall be served on the person(s) who filed comments to which the reply is directed. Such comments and reply comments shall be accompanied by a certificate of service. (See § 1.420(a), (b) and (c) of the Commission's rules.)

5. *Number of Copies.* In accordance with the provisions of Section 1.420 of the Commission's Rules and Regulations, an original and four copies of all comments, reply comments, pleadings, briefs, or other documents shall be furnished the Commission.

6. *Public Inspection of Filings.* All filings made in this proceedings will be available for examination by interested parties during regular business hours in the Commission's Public Reference Room at its headquarters, 1919 M Street, NW, Washington, D.C.

[BC Docket No. 81-773; RM-3871, RM-3913]

TV Broadcast Station Norwell, New Bedford and Vineyard Haven, Massachusetts, and Kittery, Maine; Proposed changes in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: This action proposes the assignment of UHF television Channel 46 to Norwell, Massachusetts, substitution of Channel *34 for Channel *47 at New Bedford, Massachusetts, and substitution of Channel *39 for channel *34 at Kittery, Maine, in response to a petition filed by Mid-Shore Communications, Inc. This action also proposes the assignment of UHF television Channel 58 to Vineyard Haven, Massachusetts, in response to a petition filed by Metrovision, Inc.

DATES: Comments must be filed on or before January 4, 1982, and reply comments on or before January 19, 1982

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Montrose H. Tyree, Broadcast Bureau, (202) 632-7792.

SUPPLEMENTARY INFORMATION:

Notice of Proposed Rule Making

Adopted: November 6, 1981.

V 46 / 232 / DEC 3 81 UMI

Released: November 25, 1981.

By the Acting Chief, Policy and Rules Division.

In the matter of amendment of § 73.606(b), Table of Assignments, Television Broadcast Stations. (Norwell, New Bedford and Vineyard Haven, Massachusetts, and Kittery, Maine) BC Docket No. 81–772 RM–3871 RM–3913.

1. The Commission has before it for consideration two separate petitions for rule making. The first filed by Mid-Shore Communications, Inc. ("Mid-Shore"),[1] proposes the assignment of UHF television Channel 46 to Norwell, Massachusetts, the substitution of Channel *34 for Channel *47 at New Bedford, Massachusetts, and the substitution of Channel *39 for Channel *34 at Kittery, Maine. The second petition filed by Metrovision, Inc. ("Metrovision"),[2] proposes the assignment of UHF television Channel 19 to Vineyard Haven, Massachusetts. Although the requests can be resolved independently, we are consolidating them for consideration here due to the short spacing conflict between Vineyard Haven, Massachusetts (Channel 19) and New Bedford, Massachusetts (Channel *34). Both petitioners have stated their intent to apply for their respective requested channels, if assigned. The Association of Maximum Service Telecasters, Inc. ("MST") filed comments on both proposals.

2. MST in comments to the Mid Shore proposal contends that short spacing exists between the reference point proposed for Channel *39 at Kittery, Maine, and WXNE–TV (Channel 25), Boston, Massachusetts. It does not object to the proposal, provided a site restriction is imposed. With regard to the Vineyard Haven proposal (Channel 19), the transmitter site is approximately 21 miles from the proposed New Bedford, Massachusetts, Channel 34 assignment, whereas 75 miles is required. It appears impossible to comply with the mileage separation requirements for both proposals based on the engineering data submitted. MST states that it takes no position as to which proposal should be granted, provided no short spacing results.

3. Norwell (population not listed in U.S. Census) in Plymouth County (population 405,437),[3] is located approximately 37 kilometers (23 miles) southeast of Boston. It has no local television service. Vineyard Haven (population 1,600), in Dukes County (population 8,942), is located on the Island of Martha's Vineyard, approximately 105 kilometers (67 miles) south of Boston. It is also without local television service.

4. Mid-Shore states that it earlier applied for authority to construct a low-power translator station at Hanover-Norwell on Channel 46, but now feels that a full service operation with a significant orientation toward public concerns, community needs and local interests, would best serve the community. Due to Federal Aviation Administration restrictions, the antenna height of the translator would have been restricted. An alternate site would have provided excellent coverage of Massachusetts Bay but poor coverage in the areas of greatest population concentration. Both are to be considered unfavorable since restricted coverage would limit revenues and the ability to finance programming. Mid-Shore noted, in connection with the proposed changes, the short spacing of Channel *39 at Kittery to Channel 25 at Boston, but claims that little difficulty would be encountered in meeting the requirements. The proximity of the proposed assignment to Pease Air Force Base would virtually mandate a location beyond the business district of Kittery at a site north or northeast of the city. According to Mid-Shore, Norwell's growing economy and population is supportive of a first television assignment.

5. Metrovision contends that Martha's Vineyard (Dukes County) has a seasonably variable population (winter approximately 6,100; and summer approximately 54,000). It is within the Grade A contour of most Providence and New Bedford stations, yet it is still without local television, cable or radio service. Vineyard Haven does, however, have two weekly newspapers.

6. *Comments:* The proposed assignment of Channel 19 to Vineyard Haven, Massachusetts, is short spaced to the proposed assignment of Channel *39 at Kittery, Maine. A staff study shows that Channel 58 is available for assignment to Vineyard Haven. No other channel was available as a substitute at Kittery. The proposal for Kittery (Channel *39) will require a site restriction of 1.5 kilometers (0.9 miles) northeast. All other proposals can be made in compliance with the minimum distance separation requirements.

7. Canadian concurrence in the assignments and substitutions must be obtained.

8. The Commission believes that consideration of the proposals would be in the public interest. Accordingly, it is proposed to amend the Television Table of Assignments, § 73.606(b) of the Commission's rules, for the communities listed below:

City	Channel No.	
	Present	Proposed
Kittery, Maine	*34	*39
New Bedford, Massachusetts	6+, 28–, *47–	6+, 28–, *34
Norwell, Massachusetts		46+
Vineyard Haven, Massachusetts		58+

9. The Commission's authority to institute rule making proceedings, showings required, cut-off procedures, and filing requirements are contained in the attached Appendix and are incorporated by reference herein.

Note.—A showing of continuing interest is required by paragraph 2 of the Appendix before a channel will be assigned.

10. Interested parties may file comments on or before January 4, 1982, and reply comments on or before January 19, 1982.

11. The Commission has determined that the relevant provisions of the Regulatory Flexibility Act of 1980 do not apply to rule making proceedings to amend the Television Table of Assignments, § 73.606(b) of the Commission's rules. See, *Certification that sections 603 and 604 of the Regulatory Flexibility Act Do Not Apply to Rule Making to Amend § 73.202(b), 73.504 and 73.606(b) of the Commission's Rules, 46 FR 11549, published February 9, 1981.*

12. For further information concerning this proceeding, contact Montrose Tyree, Broadcast Bureau, (202) 632–7792. However, members of the public should note that from the time a Notice of Proposed Rule Making is issued until the matter is no longer subject to Commission consideration or court review, all *ex parte* contacts are prohibited in Commission proceedings, such as this one, which involve channel assignments. An *ex parte* contact is a message (spoken or written) concerning the merits of a pending rule making other than comments officially filed at the Commission or oral presentation required by the Commission.

[2] Public Notice of the petition was given on June 19, 1981, Report No. 1293

[3] Population figures are taken from the 1980 U.S. Census.

Appendix

1. Pursuant to authority found in sections 4(i), 5(d)(1), 303 (g) and (r), and 307(b) of the Communications Act of 1934, as amended, and §§ 0.281(b)(6) of the Commission's rules, it is proposed to amend the TV Table of Assignments, § 73.606(b) of the Commission's rules and regulations, as set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached.

2. *Showings Required.* Comments are invited on the proposal(s) discussed in the *Notice of Proposed Rule Making* to which this Appendix is attached. Proponent(s) will be expected to answer whatever questions are presented in initial comments. The proponent of a proposed assignment is also expected to file comments even if it only resubmits or incorporates by reference its former pleadings. It should also restate its present intention to apply for the channel if it is assigned, and, if authorized, to build a station promptly. Failure to file may lead to denial of the request.

3. *Cut-off Procedures.* The following procedures will govern the consideration of filings in this proceeding.

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered if advanced in reply comments. (See § 1.420(d) of the Commission's rules.)

(b) With respect to petitions for rule making which conflict with the proposal(s) in this *Notice*, they will be considered as comments in the proceeding, and Public Notice to this effect will be given as long as they are filed before the date for filing initial comments herein. If they are filed later than that, they will not be considered in connection with the decision in this docket.

(c) The filing of a counterproposal may lead the Commission to assign a different channel than was requested for any of the communities involved.

4. *Comments and Reply Comments; Service.* Pursuant to applicable procedures set out in §§ 11.415 and 1.420 of the Commission's Rules and Regulations, interested parties may file comments and reply comments on or before the dates set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached. All submissions by parties to this proceeding or persons acting on behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings. Comments shall be served on the petitioner by the person filing the comments. Reply comments shall be served on the person(s) who filed comments to which the reply is directed. Such comments and reply comments shall be accompanied by a certificate of service. (See § 1.420 (a), (b) and (c) of the Commission's rules.)

5. *Number of Copies.* In accordance with the provisions of § 1.420 of the Commission's Rules and Regulations, an original and four copies of all comments, reply comments, pleadings, briefs, or other documents shall be furnished the Commission.

6. *Public Inspection of Filings.* All filings made in this proceeding will be available for examination by interested parties during regular business hours in the Commission's Public Reference Room at its headquarters, 1919 M Street, NW., Washington, D.C.

47 CFR Part 73

[BC Docket No. 81-775; RM-3942]

FM Broadcast Station in Leland, Mississippi and McGehee, Arkansas; Proposed changes in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: Action taken herein proposes the assignment of a Class A FM channel to Leland, Mississippi, and the substitution of one Class A channel for another at McGehee, Arkansas, in response to a petition filed by River Broadcasting Co., Inc. The proposed channel assignment at Leland could provide for a second FM service to that community.

DATES: Comments must be filed on of before January 4, 1982, and reply comments on or before January 19, 1982.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Montrose H. Tyree, Broadcast Bureau, (202) 632-7792.

SUPPLEMENTARY INFORMATION:

Notice of Proposed Rule Making

Adopted: November 6, 1981.

Released: November 24, 1981.

By the Acting Chief, Policy and Rules Division.

In the matter of amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations. (Leland, Mississippi, and McGehee, Arkansas) BC Docket No. 81-775; RM-3942.

1. A petition for rule making [1] was filed by the River Broadcasting Co., Inc. ("petitioner"), proposing the assignment of FM Channel 272A to Leland, Mississippi,[2] and the substitution of FM Channel 276A for unused Channel 272A at McGehee, Arkansas. Petitioner has expressed a desire to apply for Channel 272A, if assigned.

2. Leland (population 6,667),[3] in Washington County (population 72,344), is located approximately 136 kilometers (85 miles) northwest of Jackson, Mississippi. It is served locally by daytime-only AM Station WESY and FM Station WBAD (Channel 232A).

3. Petitioner asserts that Leland is only ten miles from the recreational advantages of the Mississippi River and the cultural advantages of Greenville. Although primarily an agricultural area, the economy is based largely on oil production and manufacturing. The community is said to be healthy and orderly with an expectation of future growth. There is a need for an additional assignment, based on its economy and projected growth, according to petitioner.

4. *Comments:* Petitioner did not submit a preclusion study for the proposed second FM assignment at Leland (Channel 272A) and is requested to do so in comments to this proposal, indicating alternate channels available to the communities precluded by the assignment.

5. In view of the apparent need for a second local FM broadcast service to Leland, the Commission proposes to amend the FM Table of Assignments, § 73.202(b) of the Commission's Rules, as it pertains to Leland, Mississippi, and McGehee, Arkansas, as follows:

City	Channel No.	
	Present	Proposed
McGehee, Arkansas	272A	276A.
Leland, Mississippi	232A	232A, 272A.

6. The Commission's authority to institute rule making proceedings, showings required, cut-off procedures,

[1] Public Notice of the petition was given on July 28, 1981, Report No. 1300.

[2] The assignment of Channel 272A to Leland, Mississippi, was mutually exclusive with a pending request to assign Channel 272A to Belzonia, Mississippi. Since Channel 296A is available for assignment to Belzonia, whereas there are no other channels available for assignment to Leland, we have substituted Channel 296A for consideration at Belzonia.

[3] Population figures are taken from the 1980 U.S. Census.

and filing requirements are contained in the attached Appendix and are incorporated by reference herein.

Note.—A showing of continuing interest is required by paragraph 2 of the appendix before a channel will be assigned.

7. Interested parties may file comments on or before January 4, 1982, and reply comments on or before January 19, 1982.

8. The Commission has determined that the relevant provisions of the Regulatory Flexibility Act of 1980 do not apply to rule making proceedings to amend the FM Table of Assignments, § 73.202(b) of the Commission's Rules. See *Certification that sections 603 and 604 of the Regulatory Flexibility Act Do Not Apply to Rule Making to Amend §§ 73.202(b), 73.504 and 73.606(b) of the Commission's Rules*, 46 FR 11549, published February 9, 1981.

9. For further information concerning this proceeding, contact Montrose H. Tyree, Broadcast Bureau, (202) 632–7792. However, members of the public should note that from the time a *Notice of Proposed Rule Making* is issued until the matter is no longer subject to Commission consideration or court review, all *ex parte* contacts are prohibited in Commission proceedings, such as this one, which involve channel assignments. An *ex parte* contact is a message (spoken or written) concerning the merits of a pending rule making other than comments officially filed at the Commission or oral presentation required by the Commission.

(Secs. 4, 303, 48 Stat., as amended, 1066, 1082; 47 U.S.C. 154, 303

Federal Communications Commission.

Martin Blumenthal,

Acting Chief, Policy and Rules Division, Broadcast Bureau.

Appendix

1. Pursuant to authority found in sections 4(i), 5(d)(1), 303(g) and (r), and 307(b) of the Communications Act of 1934, as amended, and § 0.281(b)(6) of the Commission's rules, it is proposed to amend the FM Table of Assignments, § 73.202(b) of the Commission's rules and regulations, as set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached.

2. *Showings Required.* Comments are invited on the proposal(s) discussed in the *Notice of Proposed Rule Making* to which this Appendix is attached. Proponent(s) will be expected to answer whatever questions are presented in initial comments. The proponent of a proposed assignment is also expected to file comments even if it only resubmits or incorporates by reference its former pleadings. It should also restate its present intention to apply for the channel if it is assigned, and, if authorized, to build a station promptly. Failure to file may lead to denial of the request.

3. *Cut-off Procedures.* The following procedures will govern the consideration of filings in this proceeding.

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered if advanced in reply comments. (See § 1.420(d) of the Commission's rules.)

(b) With respect to petitions for rule making which conflict with the proposal(s) in this *Notice*, they will be considered as comments in the proceeding, and Public Notice to this effect will be given as long as they are filed before the date for filing initial comments herein. If they are filed later than that, they will not be considered in connection with the Decision in this docket.

(c) The filing of a counterproposal may lead the Commission to assign a different channel than was requested for any of the communities involved.

4. *Comments and Reply Comments; Service.* Pursuant to applicable procedures set out in §§ 1.415 and 1.420 of the Commission's rules and regulations, interested parties may file comments and reply comments on or before the dates set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached. All submissions by parties to this proceeding or persons acting on behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings. Comments shall be served on the petitioner by the person filing the comments. Reply comments shall be served on the person(s) who filed comments to which the reply is directed. Such comments and reply comments shall be accompanied by a certificate of service. (See § 1.420(a), (b) and (c) of the Commission's rules.)

5. *Number of Copies.* In accordance with the provisions of § 1.420 of the Commission's rules and regulations, an original and four copies of all comments, reply comments, pleadings, briefs, or other documents shall be furnished the Commission.

6. *Public Inspection of Filings.* All filings made in this proceeding will be available for examination by interested parties during regular business hours in the Commission's Public Reference Room at its headquarters, 1919 M Street, NW., Washington, D.C.

[BC Docket No. 81-782; RM-3937]

FM Broadcast Station Cozad, Nebr.; Proposed Changes in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: This action proposes two optional assignment plans regarding allocation of an FM channel to Cozad, Nebraska, in response to a petition filed by Tri-City Broadcasting, Inc. The proposal could provide Cozad with its first FM service.

DATES: Comments must be filed on or before January 4, 1982, and reply comments must be filed on or before January 19, 1982.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Nancy V. Joyner, Broadcast Bureau, (202) 632–7792.

SUPPLEMENTARY INFORMATION:

Adopted: November 6, 1981.

Released: November 20, 1981.

By the Acting Chief, Policy and Rules Division.

In the Matter of Amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations. (Cozad, Nebraska), BC Docket No. 81–782, RM–3937.

1. Tri-City Broadcasting, Inc. ("petitioner"), has filed a petition for rule making [1] seeking assignment of Channel 283 to Cozad, Nebraska, as its first FM assignment. Petitioner states that it will apply for the channel, if assigned to Cozad. No oppositions to the petition have been filed, and the channel could be assigned in compliance with the minimum distance separation requirements of § 73.207 of the Commission's Rules.

2. Cozad (population 4,453),[2] in Dawson County (population 22,162), is located approximately 280 kilometers (175 miles) west of Lincoln, Nebraska. It is currently served by daytime-only Station KAMI.

3. Petitioner states that Cozad's principal economic base is derived from agriculture and industrial

[1] *Public Notice* of the petition was given on July 28, 1981, Report No. 1300.

[2] Population figures are extracted from the 1980 U.S. Census.

manufacturing. It also has its own government unit, municipal services, retail outlets, schools, health care accommodations, a library, churches, a post office, and recreational facilities. Further, it is stated that Cozad is served by rail and is accessible by an Interstate highway and an airport.

4. Petitioner asserts that the assignment of Channel 283 to Cozad will cause preclusion on Channels 280A, 282, 283, 284, 285A and 286. Twenty-two communities with populations over 1,000 lie within the precluded areas. Petitioner determined that eleven of these communities do not presently have FM assignments. It submitted a study for three of those communities, determined that a number of alternate channels are available for each, and assumed that the remaining eight would likewise have obtainable frequencies.

5. Normally, high-powered, wide-coverage area Class C channels are not assigned to communities as small as Cozad. Exceptions to this policy are made, however, where a Class C channel could provide a significant amount of first or second FM or aural service to surrounding areas and population. Therefore, petitioner should provide a *Roanoke Rapids/Anamosa* study to indicate whether its proposal would cover any unserved and underserved areas. See, *Roanoke Rapids, North Carolina*, 9 FCC 2d 672 (1967), and *Anamosa, Iowa*, 46 FCC 2d 520 (1974). Absent justification for the proposed Class C assignment, a Class A channel may be more appropriate for assignment. Therefore, we are proposing the alternate assignment of Channel 221A to Cozad. Interested parties should indicate whether they would be interested in applying for a Class A channel in Cozad in the event that the Commission determines that a Class C assignment is inappropriate.

6. In light of the foregoing, the Commission proposes to amend the FM Table of Assignments, § 73.202(b) of the Commission's Rules, with respect to Cozad, Nebraska, as follows:

City	Channel No.	
	Present	Proposed
Cozad, Nebr.		283
Alternative II		
Cozad, Nebr.		221A

7. The Commission's authority to institute rule making proceedings, showings required, cut-off procedures, and filing requirements are contained in the attached Appendix and are incorporated by reference herein.

Note.—A showing of continuing interest is required by paragraph 2 of the Appendix before a channel will be assigned.

8. The Commission has determined that the relevant provisions of the Regulatory Flexibility Act of 1980 do not apply to rule making proceedings to amend the FM Table of Assignments, § 73.202(b) of the Commission's rules. *See, Certification that sections 603 and 604 of the Regulatory Flexibility Act Do Not Apply to Rule Making to Amend §§ 73.202(b), 73.504 and 73.606(b) of the Commission's Rules*, 46 FR 11549, published February 9, 1981.

9. For further information concerning this proceeding, contact Nancy V. Joyner Broadcast Bureau, (202) 632–7792. However, members of the public should note that from the time a Notice of Proposed Rule Making is issued until the matter is no longer subject to Commission consideration or court review, all *ex parte* contacts are prohibited in Commission proceedings, such as this one, which involve channel assignments. An *ex parte* contact is a message (spoken or written) concerning the merits of a pending rule making other than comments officially filed at the Commission or oral presentation required by the Commission.

10. Interested parties may file comments on or before January 4, 1982, and reply comments on or before January 19, 1982.

(Secs. 4, 303, 48 stat., as amended, 1066, 1082; 47 U.S.C. 154, 303)

Federal Communications Commission.

Martin Blumenthal,

Acting Chief, Policy and Rules Division, Broadcast Bureau.

Appendix

1. Pursuant to authority found in sections 4(i), 5(d)(1), 303 (g) and (r), and 307(b) of the Communications Act of 1934, as amended, and § 0.281(b)(6) of the Commission's rules, it is proposed to amend the FM Table of Assignments, § 73.202(b) of the Commission's Rules and Regulations, as set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached.

2. *Showing Required.* Comments are invited on the proposal(s) discussed in the *Notice of Proposed Rule Making* to which this Appendix is attached. Proponent(s) will be expected to answer whatever questions are presented in initial comments. The proponent of a proposed assignment is also expected to file comments even if it only resubmits or incorporates by reference its former pleadings. It should also restate its present intention to apply for the channel if it is assigned, and, if authorized, to build a station promptly. Failure to file may lead to denial of the request.

3. *Cut-off Procedures.* The following procedures will govern the consideration of filings in this proceeding.

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered if advanced in reply comments. (See § 1.420(d) of the Commission's rules.)

(b) With respect to petitions for rule making which conflict with the proposal(s) in this *Notice*, They will be considered as comments in the proceeding, and Public Notice to this effect will be given as long as they are filed before the date for filing initial comments herein. If they are filed later than that, they will not be considered in connection with the decision in this docket.

(c) The filing of a counterproposal may lead the Commission to assign a different channel than was requested for any of the communities involved.

4. *Comments and Reply Comments; Service.* Pursuant to applicable procedures set out in §§ 1.415 and 1.420 of the Commission's rules and regulations, interested parties may file comments and reply comments on or before the dates set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached. All submissions by parties to this proceeding or persons acting on behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings. Comments shall be served on the petitioner by the person filing the comments. Reply comments shall be served on the person(s) who filed comments to which the reply is directed. Such comments and reply comments shall be accompanied by a certificate of service. (See § 1.420 (a), (b) and (c) of the Commission's rules.)

5. *Number of Copies.* In accordance with the provisions of § 1.420 of the Commission's Rules and Regulations, an original and four copies of all comments, reply comments, pleadings, briefs, or other documents shall be furnished the Commission.

6. *Public Inspection of Filings.* All filings made in this proceeding will be available for examination by interested parties during regular business hours in the Commission's Public Reference Room at its headquarters, 1919 M Street, NW., Washington, D.C.

[BC Docket No. 81-781; RM-3869]

TV Broadcast Station in Las Vegas, Nev.; Proposed Changes in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: This action proposes the assignment of UHF television Channel 15 to Las Vegas, Nevada, in response to a petition filed by Doctor R. Crants, Jr. The proposed assignment could provide for a fifth commercial television service to Las Vegas.

DATES: Comments must be filed on or before January 4, 1982, and reply comments on or before January 19, 1982.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Montrose H. Tyree, Broadcast Bureau, (202) 632-7792.

SUPPLEMENTARY INFORMATION:

Adopted: November 6, 1981.

Released: November 25, 1981.

By the Acting Chief, Policy and Rules Division:

In the matter of amendment of § 73.606(b), Table of Assignments, Television Broadcast Stations. (Las Vegas, Nevada) BC Docket No. 81-778 RM-3946.

1. The Commission herein considers a petition for rule making [1] filed by Doctor R. Crants, Jr. ("petitioner"), proposing the assignment of UHF television Channel 15 to Las Vegas, Nevada, as its fifth television assignment. Petitioner stated that he will apply for the channel, if assigned. Opposing comments were filed by Carson Broadcasting Corporation,[2] to which the petitioner responded.

2. Las Vegas (population 164,674),[3] in Clark County (population 471,816), is located at the southern tip of Nevada, approximately 370 kilometers (230 miles) northeast of Los Angeles, California. It is served locally by television Stations KVBC (Channel 3), KLAS-TV (Channel 8), KTNV-TV (Channel 13), Channel 21 (four applications for construction permits are pending) and KLVX (noncommercial educational Channel *10).

3. Petitioner states that Las Vegas is the sixth fastest growing major in city in the United States. The county's projected population for 1990 is approximately 668,000 persons, which, according to petitioner, is due primarily to tourism, new and expanding industry, and the city's attraction as a retirement community and convention center. Petitioner contends that Las Vegas needs and can readily support an additional television station.

4. Carson in opposing comments, argues that the proposed assignment would represent the sixth commercial television station to the Las Vegas-Henderson market, resulting in economic injury to the present licensees. According to Carson, the addition of a sixth station ignores the recognized unitary nature of the Las Vegas-Henderson market and the pending proceeding (BC Docket 80-399) in which another licensee is to be selected for a Las Vegas station.[4] Carson claims that the addition of another television facility would impair the ability of the stations now operating to present programming in the public interest, referring to the Commission's Broadcast Financial Data for 1978 and 1979, as an indication of how the Las Vegas-Henderson market is being severely affected by slowing revenues and rapidly escalating operating costs. It also claims that other markets of comparable size have not had to support as many as six commercial television stations.[5] Additionally, Carson claims that the petitioner has also made a commitment to apply for FM Channel 277 at Las Vegas, and if the Commission considers these commitments reliable, there must be some explanation as to how it will reconcile these commitments with the cross-ownership prohibition in § 73.636(a)(1).[6]

5. Petitioner, in reply comments, asserts that the thrust of the opposition's allegation is the alleged unwholesome economic impact on the market. It has been Commission policy not to place artificial limits on the number of channels assigned to a community, where additional channels can be made available without seriously impairing future assignments, citing *Topeka, Kansas*, 4 FCC 2d 536, 537, 7 RR 2d 1753, 1755 (1966). Petitioner contends that the economic impact argument should be resolved at the application stage, instead of the rule making stage. With regard to the reconciliation of his commitments to apply for an FM and television channel at Las Vegas, petitioner states that the Commission cannot assume that he will be the ultimate licensee of either of the proposed allocations.

6. The opposition's focus on the economic viability for an additional television facility in the Las Vegas-Henderson market, should be resolved at the application stage, and so should the matter of cross-ownership. In a recent proceeding at *Tullahoma, Tennessee* (BC Docket No. 79-179 (Mimeo No. 29965), 46 Fed. Reg. 43170 (published August 27, 1981), we have refused to suspend action on requests for new assignments pending the outcome of the cited rule making in BC Docket No. 79-233. Especially since this is merely the notice stage, we do not believe that this step of the proceeding should be delayed. Therefore we shall propose to amend the Television Table of Assignments, § 73.606(b) of the Commission's rules, as it pertains to Las Vegas, Nevada, as follows:

City	Channel No	
	Present	Proposed
Las Vegas, Nev.....	3, 8-, *10+, 13-, and 21+.	3, 8-, *10+, 13-, 15+, and 21+

7. The Commission's authority to institute rule making proceedings, showings required, cut-off procedures, and filing requirements are contained in the attached Appendix and are incorporated by reference herein.

Note.—A showing of continuing interest is required by paragraph 2 of the Appendix before a channel will be assigned.

8. Interested parties may file comments on or before January 4, 1982, and reply comments on or before January 19, 1982.

9. The Commission has determined that the relevant provisions of the Regulatory Flexibility Act of 1980 do not apply to rule making proceedings to amend the Television Table of Assignments, § 73.606(b), of the Commission's rules. See, *Certification that sections 603 and 604 of the Regulatory Flexibility Act Do Not Apply to Rule Making to Amend §§ 73.202(b), 73.504 and 73.606(b) of the Commission's rules*, 46 FR 11549, published February 9, 1981.

10. For further information concerning this proceeding, contact Montrose Tyree, Broadcast Bureau, (202) 632-7792. However, members of the public should note that from the time a Notice of

[1] Public Notice of the petition was given on April 7, 1981, Report No. 1279.

[2] Carson is licensee of Station KVVU-TV, Henderson, Nevada.

[3] Population figures are taken from the 1980 U.S. Census.

[4] BC Docket No. 80-399 involves four mutually exclusive applications for a construction permit to operate on Channel 21 at Las Vegas, Nevada.

[5] As reported in the Commission's Television Channel Utilization Report, Public Notice No. 85889, of October 30, 1980, the Las Vegas-Boulder area (Boulder assignment used at Henderson) is shown as Market 137.

[6] Section 73.636(a)(1) is currently under review in BC Docket No. 79-233, a proceeding to delete the UHF-FM exception to the multiple ownership rules.

Proposed Rule Making is issued until the matter is no longer subject to Commission consideration or court review, all *ex parte* contacts are prohibited in Commission proceedings, such as this one, which involve channel assignments. An *ex parte* contact is a message (spoken or written) concerning the merits of a pending rule making other than comments officially filed at the Commission or oral presentation required by the Commission.

(Secs. 4, 303, 48 stat., as amended, 1066, 1082; 47 U.S.C. 154, 303)

Federal Communications Commission,

Martin Blumenthal,

Acting Chief, Policy and Rules Division, Broadcast Bureau.

Appendix

1. Pursuant to authority found in sections 4(i), 5(d)(1), 303 (g) and (r), and 307(b) of the Communications Act of 1934, as amended, and § 0.281(b)(6) of the Commission's rules, it is proposed to amend the TV Table of Assignments, § 73.606(b) of the Commission's rules and regulations, as set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached.

2. *Showings Required.* Comments are invited on the proposal(s) discussed in the *Notice of Proposed Rule Making* to which this Appendix is attached. Proponent(s) will be expected to answer whatever questions are presented in initial comments. The proponent of a proposed assignment is also expected to file comments even if it only resubmits or incorporates by reference its former pleadings. It should also restate its present intention to apply for the channel if it is assigned, and, if authorized, to build a station promptly. Failure to file may lead to denial of the request.

3. *Cut-off Procedures.* The following procedures will govern the consideration of filings in this proceeding.

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered if advanced in reply comments. (See § 1.420(d) of the Commission's rules.)

(b) With respect to petitions for rule making which conflict with the proposal(s) in this *Notice*, they will be considered as a comments in the proceeding, and Public Notice to this effect will be given as long as they are filed before the date for filing initial comments herein. If they are filed later than that, they will not be considered in connection with the decision in this docket.

(c) The filing of a counterproposal may lead the Commission to assign a different channel than was requested for any of the communities involved.

4. *Comments and Reply Comments; Service.* Pursuant to applicable procedures set out in §§ 1.415 and 1.420 of the Commission's rules and regulations, interested parties may file comments and reply comments on or before the dates set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached. All submissions by parties to this preceeding or persons acting on behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings. Comments shall be served on the petitioner by the person filing the comments. Reply comments shall be served on the person(s) who filed comments to which the reply is directed. Such comments and reply comments shall be accompanied by a certificate of service. (See § 1.420 (a), (b) and (c) of the Commission's rules.)

5. *Number of Copies.* In accordance with the provisions of Section 1.420 of the Commission's rules and regulations, an original and four copies of all comments, reply comments, pleadings, briefs, or other documents shall be furnished the Commission.

6. *Public Inspection of Filings.* All filings made in this proceeding will be available for examination by interested parties during regular business hours in the Commission's Public Reference Room at its headquarters, 1919 M Street, NW, Washington, D.C.

[BC Docket No. 81-568; RM-3861]

FM Broadcast Station in Las Vegas, Nevada; Order Extending Time for Filing Reply Comments

AGENCY: Federal Communications Commission.

ACTION: Proposed rule; Extension of reply comment period.

SUMMARY: Action taken herein extends the time for filing reply comments in a proceeding concerning the proposed assignment of an FM channel to Las Vegas, Nevada. Counsel states that an extension of time is needed to permit petitioner's consulting engineer to complete an evaluation of certain preclusion data.

DATE: Reply comments must be filed on or before November 23, 1981.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Nancy V. Joyner, Broadcast Bureau, (202) 632-7792.

SUPPLEMENTARY INFORMATION:

Order Extending Time for Filing Reply Comments

Adopted: November 17, 1981.

Released: November 20, 1981.

By the Acting Chief, Policy and Rules Division.

In the matter of amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations (Las Vegas, Nevada), BC Docket No. 81-568 RM-3861.

1. On August 11, 1981, the Commission adopted a *Notice of Proposed Rule Making*, 46 FR 43207, published August 27, 1981, in the above-referenced proceeding. Comments were filed, and reply comments were due November 9, 1981.

2. We now have before us for consideration a motion for extension of time for filing reply comments to and including November 23, 1981, filed by counsel for Doctor R. Crants ("petitioner"), noting that the request is late pursuant to the requirements of § 1.46(b) of the Rules. Counsel states that petitioner's consulting engineer has recently been summoned as a juror by a local Nashville, Tennessee, court. As a result of this unanticipated commitment, counsel states that the additional time is needed to permit him to evaluate certain preclusion considerations raised in comments filed herein by Western Cities Broadcasting, Inc. ("Western").

3. Counsel for petitioner states that counsel for Western has been contacted and advises that he will interpose no objection to this extension request.

4. We are of the view that, under the circumstances mentioned, additional time is warranted to afford petitioner a moderate period in which to formulate his reply comments. Therefore, we will waive the requirements of Section 1.46(b) since such extension will assure development of a sound and comprehensive record on which to base a decision herein.

5. Accordingly, it is ordered, That the time for filing reply comments in BC Docket No. 81-568 (RM-3861) is extended to and including November 23, 1981.

6. This action is taken pursuant to authority contained in sections 4(i), 5(d)(1) and 303(r) of the Communications Act of 1934, as amended, and § 0.281 of the Commission's rules.

Federal Communications Commission.

Martin Blumenthal,

Acting Chief, Policy and Rules Division, Broadcast Bureau.

[BC Docket No. 81-615; RM-3897]

FM Broadcast Station in Thoreau, New Mexico; Order Extending Time for Filing Reply Comments

AGENCY: Federal Communications Commission.

ACTION: Proposed rule; Extension of reply comment period.

SUMMARY: Action taken herein extends the time.for filing reply comments in a proceeding involving a proposed FM channel to assignment to Thoreau, New Mexico. Counsel for petitioner states that the additional time is needed to formulate a proper response.

DATE: Reply comments must be filed on or before December 7, 1981.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Nancy V. Joyner, Broadcast Bureau, (202) 632-7792.

SUPPLEMENTARY INFORMATION:

Adopted: November 18, 1981.

Released: November 20, 1981.

By the Acting Chief, Policy and Rules Division.

In the Matter of amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations. (Thoreau, New Mexico), BC Docket No. 81-615 RM-3897.

1. On August 25, 1981, the Commission adopted a *Notice of Proposed Rule Making*, 46 FR 45169, published September 10, 1981, in the above-entitled proceeding. Comments have been filed and reply comments are due November 23, 1981.

2. On November 16, 1981, counsel for HAL, Inc. ("petitioner") filed a motion for extension of time to and including December 7, 1981, in which to file reply comments herein. Counsel states that opposition comments have been filed by at least two parties, but that due to a change in office location, one of these comments was not received by him in time to formulate an adequate reply. Therefore, a two-week extension of time is requested to enable counsel to confer with the petitioner and prepare a proper response to the opposition comments.

3. Counsel states that counsel for the other parties have been notified of this extension request.

4. In view of the foregoing, we believe that additional time is warranted. Such extension will assure development of a sound and comprehensive record on which to base a decision in this proceeding.

5. Accordingly, it is ordered, That the motion for extension of time filed on behalf of HAL, Inc., is granted, and the time for filing reply comments is extended to and including December 7, 1981.

6. This action is taken pursuant to section 4(i), 5(d)(1), and 303(r) of the Communications Act of 1934, as amended, and § 0.281 of the Commission's rules.

Federal Communications Commission.

47 CFR Part 73

[BC Docket No. 81-785; RM-3940]

FM Broadcast Station in Minor Hill, Tenn.; Proposed changes in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: This action proposes to assign Channel 221A to Minor Hill, Tennessee, in response to a petition filed by Burwood Broadcasting Corporation. The assignment could provide Minor Hill with a first local FM service.

DATES: Comments may be filed on or before January 4, 1982, and reply comments may be filed on or before January 19, 1982.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Nancy V. Joyner, Broadcast Bureau, (202) 632-7792.

SUPPLEMENTARY INFORMATION:

Adopted: November 6, 1981.

Released: November 20, 1981.

By the Acting Chief, Policy and Rules Division.

In the matter of amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations. (Minor Hill, Tennessee), BC Docket No. 81-785 RM-3940.

1. A petition for rulemaking [1] was filed by Burwood Broadcasting Corporation ("Petitioner"), seeking assignment of Channel 221A to Minor Hill, Tennessee, as that community's first FM assignment. The assignment can be made with a site restriction, as noted *infra*, to conform with the minimum distance separation requirements of § 73.207 of the Commission's rules. Petitioner states that it will apply for the channel, if assigned. No oppositions to the proposal were received.

2. Minor Hill (population 564),[2] in Giles County (population 24,625), is located approximately 167 kilometers (104 miles) west of Chattanooga, Tennessee. It presently has no local aural service.

3. Petitioner states that Minor Hill has its own government unit, municipal services, an elementary school, civic and social organizations, a bank, and churches. Further, petitioner asserts that the community is comprised also of numerous retail and industrial concerns, and that it is the center of commerce for the surrounding portion of Giles County. In justification of its proposal, petitioner asserts that in addition to a lack of local aural service in the community, it also has no local newspaper. The nearest community to provide broadcast service, according to petitioner, is Pulaski, Tennessee, approximately 16 kilometers (10 miles) distant. Hence, petitioner has set forth sufficient data to demonstrate a need for the proposed service to Minor Hill.

4. In order to accommodate this proposal, the transmitter site must be located at least 2.9 kilometers (1.8 miles) northwest of Minor Hill to avoid short-spacing to Stations WKLN (Channel 221A), Cullman, Alabama, and WDEF (Channel 222), Chattanooga, Tennessee.

5. In view of the fact that the proposed FM channel could provide a first local aural broadcast service to Minor Hill, the Commission believes it appropriate to propose amending the FM Table of Assignments, § 73.202(b) of the Commission's Rules, as follows:

City	Channel No.	
	Present	Proposed
Minor Hill, Tennessee		221A

6. The Commission's authority to institute rule making proceedings, showings required, cut-off procedures, and filing requirements are contained in the attached Appendix and are incorporated by reference herein.

---

[1] *Public Notice* of the petition was given July 28, 1981, Report No. 1300.

[2] Population figures are extracted from the 1980 U.S. Census.

Note.—A showing of continuing interest is required by paragraph 2 of the Appendix before a channel will be assigned.

7. Interested parties may file comments on or before January 4, 1982, and reply comments on or before January 19, 1982.

8. The Commission has determined that the relevant provisions of the Regulatory Flexibility Act of 1980 do not apply to rule making proceedings to amend the FM Table of Assignments, § 73.202(b) of the Commission's rules. *See, Certification that sections 603 and 604 of the Regulatory Flexibility Act Do Not Apply to Rule Making to Amend §§ 73.202(b), 73.504 and 73.606(b) of the Commission's Rules*, 46 FR 11549, published February 9, 1981.

9. For further information concerning this proceeding, contact Nancy V. Joyner, Broadcast Bureau, (202) 632-7792. However, member of the public should note that from the time a Notice of Proposed Rule Making is issued until the matter is no longer subject to Commission consideration or court review, all *ex parte* contacts are prohibited in Commission proceedings, such as this one, which involve channel assignments. An *ex parte* contact is a message (spoken or written) concerning the merits of a pending rule making other than comments officially filed at the Commission or oral presentation required by the Commission.

(Secs. 4, 303, 48 stat. as amended, 1066, 1082; 47 U.S.C. 154, 303)

Federal Communications Commission.

Martin Blumenthal,

Acting Chief, Policy and Rules Division Broadcast Bureau.

Appendix

1. Pursuant to authority found in sections 4(i), 5(d)(1), 303(g) and (r), and 307(b) of the Communications Act of 1934, as amended, and § 0.281(b)(6) of the Commission's rules, it is proposed to amend the FM Table of Assignments, § 73.202(b) of the Commission's rules and regulations, as set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached.

2. *Showings Required.* Comments are invited on the proposal(s) discussed in the *Notice of Proposed Rule Making* to which this Appendix is attached. Proponent(s) will be expected to answer whatever questions are presented in initial comments. The proponent of a proposed assignment is also expected to file comments even if it only resubmits or incorporates by reference its former pleadings. It should also restate its present intention to apply for the channel if it is assigned, and, if authorized, to build a station promptly. Failure to file may lead to denial of the request.

3. *Cut-off Procedures.* The following procedures will govern the consideration of filings in this proceeding.

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered if advanced in reply comments. (See § 1.420(d) of the Commission's rules.)

(b) With respect to petitions for rule making which conflict with the proposal(s) in this *Notice*, they will be considered as comments in the proceeding, and Public Notice to this effect will be given as long as they are filed before the date for filing initial comments herein. If they are filed later than that, they will not be considered in connection with the decision in this docket.

(c) The filing of a counterproposal may lead the Commission to assign a different channel than was requested for any of the communities involved.

4. *Comments and Reply Comments; Service.* Pursuant to applicable procedures set out §§ 1.415 and 1.420 of the Commission's rules and regulations, interested parties may file comments and reply comments on or before the dates set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached. All submissions by parties to this proceeding or persons acting on behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings. Comments shall be served on the petitioner by the person filing the comments. Reply comments shall be served on the person(s) who filed comments to which the reply is directed. Such comments and reply comments shall be accompanied by a certificate of service. (See § 1.420(a), (b) and (c) of the Commission's rules.)

5. *Number of Copies.* In accordance with the provisions of Section 1.420 of the Commission's Rules and Regulations, an original and four copies of all comments, reply comments, pleadings, briefs, or othe documents shall be furnished the Commission.

6. *Public Inspection of Filings.* All filings made in this proceeding will be available for examination by interested parties during regular business hours in the Commission's Public Reference Room at its headquarters, 1919 M Street, NW., Washington, D.C.

47 CFR Part 73

[BC Docket No. 81-772; RM-3938]

FM Broadcast Station in Denton, Tex.; Proposed Changes in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: This action proposes the assignment of Class C Channel 256 to Denton, Texas, in response to a petition filed by New Century Broadcasting, Inc. The proposed assignment would provide for a second commercial FM broadcast service to Denton.

DATES: Comments must be filed on or before January 4, 1982, and reply comments on or before January 19, 1982.

FOR FURTHER INFORMATION CONTACT: Montrose H. Tyree, Broadcast Bureau, (202) 632-7792.

SUPPLEMENTARY INFORMATION:

Adopted: November 6, 1981.

Released: November 25, 1981.

By the Acting Chief, Policy and Rules Division.

In the matter of amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations. (Denton, Texas), BC Docket No. 81-772 RM-3938.

1. The Commission herein considers a petition for rule making [1] filed by New Century Broadcasting, Inc. ("petitioner"), proposing the assignment of Class C Channel 256 to Denton, Texas, as its second commercial FM assignment. Comments were filed by the petitioner reaffirming its commitment to apply for the channel, if assigned, and by KIX Radio, Inc.[2]

2. Denton (population 48,063),[3] seat of Denton County (population 143,126) is located approximately 56 kilometers (38 miles) northwest of Dallas. It is currently served by fulltime AM Station KDNT, FM Station KIXK (Channel 291) and noncommercial FM Station KNTU (Channel 201).

3. Petitioner states that the economy of Denton is supported by local and federal government, industrial companies and manufacturing. It claims that during the past year 155 new businesses became operational. Petitioner also claims that Denton's 1980 population figures showed an increase

[1] Public Notice of the petition was given on July 28, 1981. Report No. 1300.

[2] KIX Radio, Inc. is licensee of Station KIXK (FM), Denton, Texas.

[3] Population figures are taken from the 1980 U.S Census.

of 21 percent (48,063) over the 1970 population (39,874), and the projected increase for the year 1990 is (73,000) 52 percent over the 1980 figures.[4] Based on the present population, projected future growth and the stable economy of Denton, petitioner alleges a second commercial FM assignment is warranted.

4. KIK in comments to the proposal contends that it is not opposed to the allocation of Channel 256 to Denton. It is however distressed that petitioner made certain allegations about the inadequacy of Station KIXK's programming in meeting the needs of the community. KIX asserts that it is both unfair and misleading for petitioner to make these charges, since it only assumed operation of KIXK (formerly KDDC) on January 2, 1981. It further states it has since that date planned and produced a variety of programs which service the needs of Denton. It is the opinion of KIX that today KIXK(FM) is a station the community of Denton can be proud of.

5. According to the information submitted by the petitioner, the assignment of Channel 256 to Denton will cause preclusion on Channels 255, 256 and 257. The study including communities with populations in excess of 3,000. However, it has been Commission policy to consider the impact of the proposal on the future needs of communities with population greater than 1,000. Petitioner lists only Jacksboro, Texas (population 3,554), as a community with no FM assignment precluded by the assignment of Channel 256 to Denton. Petitioner is requested to submit a list of alternate channels available to that community and to other communities over 1,000 population with no local service in comments to this proposal.

6. The proposed assignment requires a site restriction of 21.6 miles northwest of the city due to Stations KTXU in Paris, KNUS in Dallas, and KPLX in Fort Worth, Texas. Petitioner proposed locating the transmitter approximately 29 miles west-northwest of Denton, indicating that a transmitter located at such a distance would cover Denton with the required 70 dBu signal.

7. In view of the foregoing information and the fact that the assignment would provide a second commercial FM broadcast service, the Commission proposes to amend the FM Table of Assignments, § 73.202(b) of the rules, with regard to Denton, Texas, as follows:

City	Channel No	
	Present	Proposed
Denton, Texas	291	256, 291

8. The Commission's authority to institute rule making proceedings, showing required, cut-off procedures, and filing requirements are contained in the attached Appendix and are incorporated by reference herein.

Note.—A showing of continuing interest is required by paragraph 2 of the Appendix before a channel will be assignment.

9. Interested parties may file comments on or before January 4, 1982, and reply comments on or before January 19, 1982.

10. The Commission has determined that the relevant provisions of the Regulatory Flexibility Act of 1980 do not apply to rule making proceedings to amend the FM Table of Assignments, Section 73.202(b) of the Commission's Rules. See, *Certification that sections 603 and 604 of the Regulatory Flexibility Act Do Not Apply to Rule Making to Amend §§ 73.202(b), 73.504 and 73.606(b) of the Commission's rules*, 46 Fed. Reg. 11549, published February 9, 1981.

11. For further information concerning this proceeding, contact Montrose H. Tyree, Broadcast Bureau, (202) 632–7792. However, members of the public should note that from the time a Notice of Proposed Rule Making is issued until the matter is no longer subject to Commission consideration or court review, all *ex parte* contacts are prohibited in Commission proceedings, such as this one, which involve channel assignments. An *ex parte* contact is a message (spoken or written) concerning the merits of a pending rule making other than comments officially filed at the Commission or oral presentation required by the Commission.

(Secs. 4, 303, 48 stat., as amended, 1066, 1082; 47 U.S.C. 154, 303)

Federal Communications Commission.

Martin Blumenthal,

Acting Chief, Policy and Rules Division, Broadcast Bureau.

Appendix

1. Pursuant to authority found in sections 4(i), 5(d)(1), 303 (g) and (r), and 307(b) of the Communications Act of 1934, as amended, and § 0.281(b)(6) of the Commission's Rules, it is proposed to amend the FM Table of Assignments, § 73.202(b) of the Commission's rules and regulations, as set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached.

2. *Showings Required.* Comments are invited on the proposal(s) discussed in the *Notice of Proposed Rule Making* to which this Appendix is attached. Proponent(s) will be expected to answer whatever questions are presented in initial comments. The proponent of a proposed assignment is also expected to file comments even if it only resubmits or incorporates by reference its former pleadings. It should also restate its present intention to apply for the channel if it is assigned, and, if authorized, to build a station promptly. Failure to file may lead to denial of the request.

3. *Cut-off Procedures.* The following procedures will govern the consideration of filings in this proceeding.

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered if advanced in reply comments. (See Section 1.420(d) of the Commission's Rules.)

(b) With respect to petitions for rule making which conflict with the proposal(s) in this *Notice*, they will be considered as comments in the proceeding, and Public Notice to this effect will be given as long as they are filed before the date for filing initial comments herein. If they are filed later than that, they will not be considered in connection with the decision in this docket.

(c) The filing of a counterproposal may lead the Commission to assign a different channel than was requested for any of the communities involved.

4. *Comments and Reply Comments; Service.* Pursuant to applicable procedures set out in §§ 1.415 and 1.420 of the Commission's rules and regulations, interested parties may file comments and reply comments on or before the dates set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached. All submissions by parties to this proceeding or persons acting on behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings. Comments shall be served on the petitioner by the person filing the comments. Reply comments shall be served on the person(s) who filed comments to which the reply is directed. Such comments and reply comments shall be accompanied by a certificate of service. (See § 1.420(a), (b) and (c) of the Commission's rules.)

5. *Number of Copies.* In accordance with the provisions of § 1.420 of the Commission's rules and regulations, an original and four copies of all comments, reply comments, pleadings, briefs, or

[4] Population figures are estimated by the Denton Chamber of Commerce.

other documents shall be furnished the Commission.

6. *Public Inspection of Filings.* All filings made in this proceeding will be available for examination by interested parties during regular business hours in the Commission's Public Reference Room at its headquarters, 1919 M Street, NW, Washington, D.C.

[BC Docket No. 81-816; RM-3948]

FM Broadcast Station in Mathis and Robstown, Texas; Proposed Changes in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: Action taken herein proposes the deletion of FM Channel 252A from Mathis, Texas, and its reassignment to Robstown, Texas, in response to a petition filed by Humberto Lozano Lopez. The proposed assignment could provide a second local broadcast service to Robstown.

DATES: Comments must be filed on or before January 4, 1982, and reply comments must be filed on or before January 19, 1982.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Montrose H. Tyree, Broadcast Bureau, (202) 632-7792.

SUPPLEMENTARY INFORMATION:

Adopted: November 16, 1981.

Released: November 23, 1981.

By the Acting Chief, Policy and Rules Division.

In the matter of amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations. (Mathis and Robstown, Texas), BC Docket No. 81-816, RM-3948.

1. The Commission herein considers a petition for rule making,[1] filed by Humberto Lozano Lopez ("petitioner"), requesting the deletion of FM Channel 252A from Mathis, Texas, and its reassignment to Robstown, Texas. Petitioner expressed an interest in applying for the channel, if assigned to Robstown. No oppositions to the proposal were received.

2. Mathis (population 5,667),[2] in San Patricio County (population 58,013), is located appoximately 48 kilometers (30 miles) northwest of Corpus Christi, Texas. Mathis has no local broadcast service. Channel 252A is assigned but unoccupied at Mathis. Robstown (population 12,100), in Nueces County (population 268,215), is located approximately 24 kilometers (15 miles) west of Corpus Christi. It is served locally by Stations KROB (AM) and KROB-FM, Channel 260.

3. Petitioner asserts that there are no other FM frequencies available for assignment to Robstown. The proposed assignment (to a community somewhat larger than Mathis) would provide an additional programming source for the Hispanic community, resulting in a fair and equitable use of spectrum space, according to the petitioner.

4. The petitioner did not submit a preclusion study, and is requested to do so in comments to this proposal, listing the communities with a population greater than 1,000 precluded by the proposed assignment and whether alternate channels are available to those communities.

5. We are satisfied from the information submitted by the petitioner, that a sufficient showing has been made to justify proposing a second FM assignment to Robstown, Texas. However, we are reluctant to delete a channel from Mathis which represents the opportunity for a first local service at that community. Since no interest has been expressed for the use of Channel 252A at Mathis, we have decided to seek comments on the proposal. As we indicated in *Greenfield and Springfield, Mo.* (Docket 81-503) 46 FR 42703, published August 24, 1981, the public interest may be better served by putting to use a vacant frequency if there is no interest in its use at the place of assignment. Here Channel 252A was assigned to Mathis in 1973 not in response to an expression of interest but to conform to the Mexican-U.S. agreement. In view of that fact, we believe it may not be in the public interest to continue to reserve the channel for future use at Mathis.

6. The assignment to Robstown would result in an intermixture of a Class A and a Class C channel (260). The Commission has a policy of permitting such intermixture where no other Class C channels are available for assignment and where, as here, the petitioner is willing to apply for the Class A channel in spite of the unfavorable competitive situation.

7. In view of the foregoing information, the Commission proposes to amend the FM Table of Assignments, § 73.202(b) of the rules, with regard to the following communities:

City	Channel No.	
	Present	Proposed
Mathis, Texas	252A	
Robstown, Texas	260	252A, 260

8. That Commission's authority to institute rule making proceedings, showings required, cut-off procedures, and filing requirements are contained in the attached Appendix and are incorporated by reference herein. NOTE: A showing of continuing interest is required by paragraph 2 of the Appendix before a channel will be assigned.

9. Interested parties may file comments on or before January 4, 1982, and reply comments on or before January 19, 1982.

10. The Commission has determined that the relevant provisions of the Regulatory Flexibility Act of 1980 do not apply to rule making proceedings to amend the FM Table of Assignments, § 73.202(b) of the Commission's rules. *See, Certification that sections 603 and 604 of the Regulatory Flexibility Act Do Not Apply to Rule Making to Amend §§ 73.202(b), 73.504 and 73.606(b) of the Commission's Rules,* 46 FR 11549, published February 9, 1981.

11. For further information concerning this proceeding, contact Montrose H. Tyree, Broadcast Bureau, (202) 632-7792. However, members of the public should note that from the time a Notice of Proposed Rule Making is issued until the matter is no longer subject to Commission consideration or court review, all *ex parte* contacts are prohibited in Commission proceedings, such as this one, which involve channel assignments. An *ex parte* contact is a message (spoken or written) concerning the merits of a pending rule making other than comments officially filed at the Commission or oral presentation required by the Commission.

(Secs. 4, 303, 48 stat., as amended, 1066, 1082; 47 U.S.C. 154, 303)

Federal Communications Commission.

Martin Blumenthal,

Acting Chief, Policy and Rules Division, Broadcast Bureau.

Appendix

1. Pursuant to authority found in sections 4(i), 5(d)(1), 303 (g) and (r), and 307(b) of the Communications Act of 1934, as amended, and § 0.281(b)(6) of the Commission's Rules, it is proposed to amend the FM Table of Assignments, § 73.202(b) of the Commission's rules and regulations, as set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached.

2. *Showings Required.* Comments are invited on the proposal(s) discussed in

[1] *Public Notice* of the petition was given on July 28, 1981, Report No. 1300.

[2] Population figures are taken from the 1980 U.S. Census.

V 46 / 232 DEC 3 81 UMI

the *Notice of Proposed Rule Making* to which this Appendix is attached. Proponent(s) will be expected to answer whatever questions are presented in initial comments. The proponent of a proposed assignment is also expected to file comments even if it only resubmits or incorporates by reference its former pleadings. It should also restate its present intention to apply for the channel if it is assigned, and, if authorized, to build a station promptly. Failure to file may lead to denial of the request.

3. *Cut-off Procedures.* The following procedures will govern the consideration of filings in this proceeding.

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered if advanced in reply comments. (See Section 1.420(d) of the Commission's Rules.)

(b) With respect to petitions for rule making which conflict with the proposal(s) in this *Notice*, they will be considered as comments in the proceeding, and Public Notice to this effect will be given as long as they are filed before the date for filing initial comments herein. If they are filed later than that, they will not be considered in connection with the decision in this docket.

(c) The filing of a counterproposal may lead the Commission to assign a different channel than was requested for any of the communities involved.

4. *Comments and Reply Comments; Service.* Pursuant to applicable procedures set out in §§ 1.415 and 1.420 of the Commission's rules and regulations, interested parties may file comments and reply comments on or before the dates set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached. All submissions by parties to this proceeding or persons acting on behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings. Comments shall be served on the petitioner by the person filing the comments. Reply comments shall be served on the person(s) who filed comments to which the reply is directed. Such comments and reply comments shall be accompanied by a certificate of service. (See § 1.420 (a), (b) and (c) of the Commission's rules.)

5. *Number of Copies.* In accordance with the provisions of § 1.420 of the Commission's rules and regulations, and original and four copies of all comments, reply comments, pleadings, briefs, or other documents shall be furnished the Commission.

6. *Public Inspection of Filings.* All filings made in this proceeding will be available for examination by interested parties during regular business hours in the Commission's Public Reference Room at its headquarters, 1919 M Street, NW., Washington, D.C.

[BC Docket No. 81-811; RM-3944]

FM Broadcast Station in Raymond, Washington; Proposed Changes in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: This action proposes to assign FM Channel 249A to Raymond, Washington, in response to a petition filed by David E. Gauger. The assignment could provide Raymond with a first local FM and second nighttime aural broadcast service.

DATES: Comments may be filed on or before January 4, 1982 and reply comments may be filed on or before January 19, 1982.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Nancy V. Joyner, Broadcast Bureau, (202) 632-7792.

SUPPLEMENTARY INFORMATION: .

Adopted: November 12, 1981.

Released: November 19, 1981.

By the Acting Chief, Policy and Rules Division.

In the matter of amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations. (Raymond, Washington), BC Docket No. 81-811 RM-3944.

1. David E. Gauger ("petitioner") has filed a petition for rule making [1] seeking assignment of Channel 249A to Raymond, Washington, as that community's first FM assignment. The assignment can be made in compliance with the minimum distance separation requirements of Section 73.207 of the Commission's Rules, and petitioner states that he will apply for the channel, if assigned. No oppositions to the proposal were received.

2. Raymond (population 2,991),[2] in Pacific County (population 17,237), is located approximately 80 kilometers (50 miles) southwest of Olympia, Washington. It is currently served locally by full-time AM Station KAPA.

3. According to petitioner, the area's economic base is derived primarily from the lumber and fishing industries, although tourism, recreation and agriculture also lend support to its economy. Additionally, petitioner indicates that Raymond has its own governmental structure, municipal services, educational institutions, library, health care and recreational facilities.

4. Since Raymond is located within 400 kilometers (250 miles) of the U.S.-Canada border, the proposed assignment of Channel 249A to that community requires coordination with the Canadian Government.

5. In view of the fact that the proposed FM channel assignment would provide Raymond with a first local FM and second nighttime aural broadcast service, the Commission believes it appropriate to amend the FM Table of Assignments, § 73.202(b) of the Commission's rules, as follows:

City	Channel No.	
	Present	Proposed
Raymond, Washington		249A

6. The Commission's authority to institute rule making proceedings, showings required, cut-off procedures, and filing requirements are contained in the attached Appendix and are incorporated by reference herein.

Note.—A showing of continuing interest is required by paragraph 2 of the Appendix before a channel will be assigned.

7. Interested parties may file comments on or before January 4, 1982, and reply comments on or before January 19, 1982.

8. The Commission has determined that the relevant provisions of the Regulatory Flexibility Act of 1980, do not apply to rule making proceedings to amend the FM Table of Assignments, § 73.202(b) of the Commission's Rules. See, *Certification that Sections 603 and 604 of the Regulatory Flexibility Act Do Not Apply to Rule Making to Amend §§ 73.202(b), 73.504 and 73.606(b) of the Commission's rules*, 46 FR 11549, published February 9, 1981.

9. For further information concerning this proceeding, contact Nancy V.

[1] Public Notice of the petition was given on July 28, 1981, Report No. 1300.

[2] Population figures are extracted from the 1980 U.S. Census

Joyner, Broadcast Bureau, (202) 632-7792. However, members of the public should note that from the time a Notice of Proposed Rule Making is issued until the matter is no longer subject to Commission consideration or court review, all *ex parte* contacts are prohibited in Commission proceedings, such as this one, which involve channel assignments. An *ex parte* contact is a message (spoken or written) concerning the merits of a pending rule making other than comments officially filled at the Commission or oral presentation required by the Commission.

Acting Chief, Policy and Rules Division, Broadcast Bureau.

Appendix

1. Pursuant to authority found in sections 4(i), 5(d)(1), 303 (g) and (r), and 307(b) of the Communications Act of 1934, as amended, and § 0.281(b)(6) of the Commission's rules, it is proposed to amend the FM Table of Assignments, § 73.202(b) of the Commission's Rules and Regulations, as set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached.

2. *Showings Required.* Comments are invited on the proposal(s) discussed in the *Notice of Proposed Rule Making* to which this Appendix is attached. Proponent(s) will be expected to answer whatever questions are presented in initial comments. The proponent of a proposed assignment is also expected to file comments even if it only resubmits or incorporates by reference its former pleadings. It should also restate its present intention to apply for the channel if it is assigned, and, if authorized, to build a station promptly. Failure to file may lead to denial of the request.

3. *Cut-off Procedures.* The following procedures will govern the consideration of filings in this proceeding.

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered if advanced in reply comments. (See § 1.420(d) of the Commission's Rules.)

(b) With respect to petitions for rule making which conflict with the proposal(s) in this *Notice*, they will be considered as comments in the proceeding, and Public Notice to this effect will be given as long as they are filed before the date for filing initial comments herein. If they are filed later than that, they will not be considered in connection with the decision in this docket.

(c) The filing of a countproposal may lead the Commission to assign a different channel than was requested for any of the communities involved.

4. *Comments and Reply Comments; Service.* Pursuant to applicable procedures set out in §§ 1.414 and 1.420 of the Commission's rules and regulations, interested parties may file comments and reply comments on or before the dates set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached. All submissions by parties to this proceeding or persons acting on behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings. Comments shall be served on the petitioner by the person filing the comments. Reply comments shall be served on the person(s) who filed comments to which the reply is directed. Such comments and reply comments shall be accompanied by a certificate of service. (See § 1.420(a), (b) and (c) of the Commission's rules.)

5. *Number of Copies.* In accordance with the provisions of § 1.420 of the Commission's rules and regulations, an original and four copies of all comments, reply comments, pleadings, briefs, or other documents shall be furnished the Commission.

6. *Public Inspection of Filings.* All filings made in this proceeding will be available for examination by interested parties during regular business hours in the Commission's Public Reference Room at its headquarters, 1919 M Street, NW, Washington, D.C.

[PR Docket 79-191; RM-3380; Docket 79-334, RM-3691]

Release of 800 MHz Reserve Channels; Order Extending Reply Comment Period

AGENCY: Federal Communications Commission.

ACTION: Proposed rule; Extension of reply comment period.

SUMMARY: This order extends by 45 days the time for filing reply comments to the Further Notice of Proposed Rule Making in PR Docket 79-191 concerning the release of the remaining 250 channels in the 800 MHz land mobile reserve band. This action is taken in response to a request for a time extension filed by the Land Mobile Communications Council who indicated that the analysis of the Comments submitted in this proceeding will require this additional time in order for them to provide comprehensive and responsive reply comments.

DATES: Reply Comments are now due by January 15, 1982.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Eugene Thomson, Private Radio Bureau, (202) 632-6497.

SUPPLEMENTARY INFORMATION:

Adopted: November 16, 1981.

Released: November 20, 1981.

By the Chief, Private Radio Bureau.

In the matter of amendment of Part 90 of the Commission's rules to designate frequencies in the 806-821 and 851-866 Mhz bands for Slow-Growth Land Mobile Radio Systems of utilities and public safety Agencies, PR Docket No. 79-191, RM-3380; Amendment of Part 90 of the Commission's rules to allocate frequencies in the 806-821 and 851-866 MHz bands for Public Safety/Special Emergency, Industrial/Land Transportation, Business Radio Service and SMRS/CR Frequency Pools; Amendment of Part 90 of the Commission's rules to facilitate authorization of Wide-Area Mobile Radio Communications Systems on frequencies allocated for Trunked Systems, PR Docket No. 79-334; Amendment of Part 90 of the Commission's rules to allocate additional frequencies from the 800 MHz Spectrum Reserve to Loaded Specialized Mobile Radio-Trunked Systems in markets having all presently-allocated SMR-Trunked frequencies assigned, RM-3691.

1. A Further Notice of Proposed Rule Making in the above-captioned matter was released July 14, 1981. The deadline for filing comments was October 30, 1981, and for filing Reply Comments is November 30, 1981. On November 12, 1981, the Land Mobile Communications Council (LMCC) requested that the date for filing Reply Comments in this proceeding be extended by 45 days.

2. The LMCC states that since over 20 major sets of comments were filed, in addition to numerous smaller filings by other parties, extensive Reply Comments will be required on the part of the LMCC and its constituent members. They estimate it will take until the end of December 1981 to complete the work on their reply comments, and that an additional 15 days will be necessary for review and approval by the LMCC Directors.

V 46 / 232 DEC 3 81 UMI

3. Due to the importance of this proceeding to the private land mobile community, and because of the Commission's desire to have the most definitive and complete responses possible, an additional forty-five (45) days for filing Reply Comments will be allowed.

4. Accordingly, it is ordered, pursuant to §§ 0.331 and 1.46 of the Commission's rules and regulations, that the time for filing Reply Comments in the above-captioned proceeding is extended from November 30, 1981 to January 15, 1982.

Federal Communications Commission.

DEPARTMENT OF COMMERCE

Foreign-Trade Zones Board

[Order No. 180]

Resolution and Order Approving Application of Maryland Department of Transportation for Foreign-Trade Zone at Baltimore/Washington International Airport, Maryland

Pursuant to the authority granted in the Foreign-Trade Zones Act of June 18, 1934, as amended (19 U.S.C. 81a–81u), the Foreign-Trade Zones Board has adopted the following Resolution and Order:

The Board, having considered the matter, hereby orders:

After consideration of the application of the Maryland Department of Transportation, filed with the Foreign-Trade Zones Board (the Board) on May 14, 1981, requesting a grant of authority for establishing, operating, and maintaining a general-purpose foreign-trade zone at the Baltimore/Washington International Airport, Maryland, with the Baltimore Customs port of entry, the Board, finding that the requirements of the Foreign-Trade Zones Act, as amended, and the Board's regulations are satisfied, and that the proposal is in the public interest, approves the application.

As the proposal involves open space on which buildings may be constructed by parties other than the grantee, this approval includes authority to the grantee to permit the erection of such buildings, pursuant to Section 400.815 of the Board's regulations, as are necessary to carry out the zone proposal, providing that prior to its granting such permission it shall have the concurrences of the local District Director of Customs, the U.S. Army District Engineer, when appropriate, and the Board's Executive Secretary. Further, the grantee shall notify the Board's Executive Secretary for approval prior to the commencement of any manufacturing operation within the zone. The Secretary of Commerce, as Chairman and Executive Officer of the Board, is hereby authorized to issue a grant of authority and appropriate Board Order.

GRANT TO ESTABLISH, OPERATE, AND MAINTAIN A FOREIGN-TRADE ZONE AT BALTIMORE-WASHINGTON INTERNATIONAL AIRPORT, MARYLAND

Whereas, by an Act of Congress approved June 18, 1934, an Act "To provide for the establishment, operation, and maintenance of foreign-trade zones in ports of entry of the United States, to expedite and encourage foreign commerce, and for other purposes," as amended (19 U.S.C. 81a–81u) (the Act), the Foreign-Trade Zones Board (the Board) is authorized and empowered to grant to corporations the privilege of establishing, operating, and maintaining foreign-trade zones in or adjacent to ports of entry under the jurisdiction of the United States;

Whereas, the Maryland Department of Transportation (the Grantee) has made application (filed May 14, 1981) in due and proper form to the Board, requesting the establishment, operation, and maintenance of a foreign-trade zone at the Baltimore/Washington International Airport, within the Baltimore Customs port of entry;

Whereas, notice of said application has been given and published, and full opportunity has been afforded all interested parties to be heard; and,

Whereas, the Board has found that the requirements of the Act and the Board's regulations (15 CFR Part 400) are satisfied;

Now, therefore, the Board hereby grants to the Grantee the privilege of establishing, operating, and maintaining a foreign-trade zone, designated on the records of the Board as Zone No. 73 at the location mentioned above and more particularly described on the maps and drawings accompanying the application in Exhibits IX and X, subject to the provisions, conditions, and retrictions of the Act and the regulations issued thereunder, to the same extent as though the same were fully set forth herein, and also to the following express conditions and limitations:

Operation of the foreign-trade zone shall be commenced by the Grantee within a reasonable time from the date of issuance of the grant, and prior thereto the Grantee shall obtain all necessary permits from Federal, State, and municipal authorities.

The Grantee shall allow officers and employees of the United States free and unrestricted access to and throughout the foreign-trade zone site in the performance of their official duties.

The Grantee shall notify the Executive Secretary of the Board for approval prior to the commencement of any other manufacturing operations within the zone.

The grant shall not be construed to relieve the Grantee from liability for injury or damage to the person or property of others occasioned by the construction, operation, or maintenance of said zone, and in no event shall the United States be liable therefor.

The grant is further subject to settlement locally by the District Director of Customs and the Army District Engineer with the Grantee regarding compliance with their respective requirements for the protection of the revenue of the United States and the installation of suitable facilities.

In witness whereof, the Foreign-Trade Zones Board has caused its name to be signed and its seal to be affixed hereto by its Chairman and Executive Officer at Washington, D.C. this 19th day of November 1981, pursuant to Order of the Board.

Foreign-Trade Zones Board.

Malcolm Baldrige,
Chairman and Executive Officer.

Attest:

John J. Da Ponte, Jr.,
Executive Secretary.

BILLING CODE 3510-25-M

International Trade Administration

Louisiana World Exposition Public Hearing; Environmental Impact

AGENCY: International Trade Administration, Commerce.

ACTION: Notice.

SUMMARY: The International Trade Administration (ITA) announces a public hearing on a draft Environmental Impact Statement regarding the proposed 1984 International Exposition in New Orleans, Louisiana.

DATE: The hearing will be held at 6:30 p.m., January 6, 1982.

ADDRESS: The hearing will be held at the City of New Orleans Council Chambers, City Hall, New Orleans, Louisiana.

FOR FURTHER INFORMATION CONTACT: Ed Wilczynski, Department of Commerce, Room 7614, Washington, D.C. 20230, (202) 377–2938.

SUPPLEMENTARY INFORMATION: The purpose of the hearing is to solicit views of all interested and affected parties on matters concerning, among other things, the major site, design, and transportation features for the proposed Louisiana World Exposition (May through October, 1984), New Orleans, Louisiana. The proposed action consists of the development and operation of a

Special Category International Exposition to be held in the City of New Orleans, Louisiana in 1984. The Exposition is proposed for an area along the Mississippi River immediately adjacent to the City's Warehouse District.

Oral statements will be received. However, in order that all persons desiring to present statements have an equal opportunity to express their views, it is requested that all persons limit their oral comments to approximately ten (10) minutes. The cooperation and assistance of persons in conforming to this request will be appreciated. Written statements and exhibits will be accepted by the Department of Commerce official conducting the hearing, or they may be mailed to Mr. Wilczynski at the above address, postmarked within ten (10) calendar days following the hearing.

Copies of the Draft Environmental Impact Statement are available for review at the following locations:

(1) City Planning Commission, Room 9W, City Hall, 1300 Perdido Street, New Orleans, Louisiana 70130.

(2) New Orleans Central Library, 219 Loyola Avenue, New Orleans, Louisiana 70112.

(3) Algiers Regional Library, 3014 Holiday Drive, New Orleans, Louisiana 70114.

(4) East New Orleans Regional Library, 5641 Read Boulevard, New Orleans, Louisiana 70127.

(5) Gentilly Branch Library, 3000 Foy Street, New Orleans, Louisiana 70122.

BILLING CODE 3510-25-M

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

Adjusting the Import Restraint Level for Certain Man-Made Fiber Apparel From the Republic of Korea

November 30, 1981.

AGENCY: Committee for the Implementation of Textile Agreements.

ACTION: Increasing from 1,838,541 dozen to 2,188,541 dozen the level of restraint established for man-made fiber shirts, other than dress shirts, in Category 640, produced or manufactured in the Republic of Korea and exported during the twelve-month period which began on January 1, 1981.

(A detailed description of the textile categories in terms of T.S.U.S.A. numbers was published in the **Federal Register** on February 28, 1980 (45 FR 13172), as amended on April 23, 1980 (45 FR 27463), August 12, 1980 (45 FR 53506), December 24, 1980 (45 FR 85142), May 5, 1981 (46 FR 25121), October 5, 1981 (46 FR 48963) and October 27, 1981 (46 FR 52409)).

SUMMARY: Pursuant to the Bilateral Cotton, Wool and Man-Made Fiber Textile Agreement of December 23, 1977, as amended, between the Governments of the United States and the Republic of Korea, consultations have been held between representatives of the two governments concerning, among other things, man-made fiber textile products in Category 640. Agreement has been reached to increase the 1981 level for man-made fiber shirts, other than dress shirts, in Category 640 by 350,000 dozen; a decrease of an equivalent amount will be made in the 1982 level for man-made fiber dress shirts in Category 640.

EFFECTIVE DATE: December 3, 1981.

FOR FURTHER INFORMATION CONTACT: William J. Boyd, International Trade Specialist, Office of Textiles and Apparel, U.S. Department of Commerce, Washington, D.C. 20230 (202/377-4212).

SUPPLEMENTARY INFORMATION: On December 30, 1980, there was published in the **Federal Register** (45 FR 85811) a letter dated December 23, 1980 from the the Chairman, Committee for the Implementation of Textile Agreements, to the Commissioner of Customs, which established levels of restraint for certain specified categories of cotton, wool and man-made fiber textile products, including man-made fiber textile products in Category 640, produced or manufactured in the Republic of Korea, which may be entered into the United States for consumption, or withdrawn from warehouse for consumption, during the twelve-month period which began on January 1, 1981 and extends through December 31, 1981. In the letter published below, the Chairman of the Committee for the Implementation of Textile Agreements directs the Commissioner of Customs to adjust the level of restraint established for man-made fiber textile products in Category 640pt. (man-made fiber shirts, other than dress shirts) during the agreement year which began on January 1, 1981.

Arthur Garel,

Acting Chairman, Committee for the Implementation of Textile Agreements.

November 30, 1981.

Commissioner of Customs,
Department of the Treasury, Washington, D.C.

Dear Mr. Commissioner: On December 23, 1980, the Chairman, Committee for the Implementation of Textile Agreements, directed you to prohibit entry for consumption, or withdrawal from warehouse for consumption, of cotton, wool and man-made fiber textile products in certain specific categories, produced or manufactured in the Republic of Korea and exported to the United States during the agreement year which began on January 1, 1981, in excess of designated levels of restraint. The Chairman further advised you that the levels of restraint are subject to adjustment.[1]

Under the terms of the Arrangement Regarding International Trade in Textile done at Geneva on December 20, 1973, as extended on December 15, 1977; pursuant to the Bilateral Cotton, Wool and Man-Made Fiber Textile Agreement of December 23, 1978, as amended, between the Governments of the United States and the Republic of Korea; and in accordance with the provisions of Executive Order 11651 of March 3, 1972, as amended by Executive Order 11951 of January 6, 1977, you are directed to prohibit, effective on December 3, 1981, and for the twelve-month period beginning on January 1, 1981 and extending through December 31, 1981, entry into the United States for consumption and withdrawal from warehouse for consumption of man-made fiber textile products in Category 640pt.[2] in excess of 2,188,541 dozen.[3]

The actions taken with respect to the Government of the Republic of Korea and with respect to imports of man-made fiber textile products from the Republic of Korea

[1] The term "adjustment" refers to those provisions of th Bilateral Cotton, Wool and Man-Made Fiber Textile Agreement of December 23, 1977, as amended, between the Governments of the United States and Republic of Korea, which provide, in part, that: (1) Within the aggregate and applicable group limits, specific levels or restraint may be adjusted by designated percentages; (2) these same levels may be adjusted for carryover and carryforward up to 11 percent of the applicable category limit; and (3) administrative arrangements or adjustments may be made to resolve problems arising in the implementation of the agreement.

[2] In Category 640, all T.S.U.S.A. numbers except 380.0455, 380.8431 and 380.8433.

[3] The level of restraints has not been adjusted to account for any imports after December 31, 1980.

have been determined by the Committee for the Implementation of Textile Agreements to involve foreign affairs functions of the United States. Therefore, these directions to the Commissioner of Customs, which are necessary for the implementation of such actions, fall within the foreign affairs exception to the rule-making provisions of 5 U.S.C. 553. This letter will be published in the **Federal Register**.

Sincerely,

Arthur Garel,

Acting Chairman, Committee for the Implementation of Textile Agreements.

[FR Doc. 81-34723 Filed 12-2-81; 8:45 am]

BILLING CODE 3510-25-M

DEPARTMENT OF ENERGY

Office of Conservation and Renewable Energy

[Case No. F-003]

Energy Conservation Program for Consumer Products; Petition of Energy Kinetics Incorporated for Waiver of DOE Furnace Test Procedures

AGENCY: Department of Energy.

ACTION: Decision and order.

SUMMARY: Today's Decision and Order denies in part and grants in part the petition of Energy Kinetics Incorporated for a waiver from the existing DOE test procedures for furnaces. The use of the alternate test procedures recommended by petitioner to determine the energy efficiency or consumption of its "purgeable low thermal mass" boiler is denied. Today's Decision and Order modifies the existing DOE test procedures to permit testing of petitioner's purgeable-type boiler.

EFFECTIVE DATE: November 18, 1981.
Expiration Date: November 18, 1982.

FOR FURTHER INFORMATION CONTACT: James A. Smith, U.S. Department of Energy, Office of Conservation and Renewable Energy, Room GH-065, Forrestal Building, 1000 Independence Avenue, SW, Washington, D.C. 20585, (202) 252-9127, Eugene Margolis, Esq., U.S. Department of Energy, Office of General Counsel, Room 6B-128, Forrestal Building, 1000 Independence Avenue, SW, Washington, D.C. 20585, (202) 252-9510.

SUPPLEMENTARY INFORMATION: The Energy Conservation Program for Consumer Products was established pursuant to the Energy Policy and Conservation Act, Pub. L. 94-163, as amended by the National Energy Conservation Policy Act, Pub. L. 95-619, which requires the Department of Energy (DOE) to prescribe standardized test procedures to measure the energy consumption of certain consumer products, including furnaces. The intent of the test procedures is to provide a comparable measure of energy consumption that will assist consumers in making purchase decisions. These test procedures appear at 10 CFR Part 430, Subpart B.

The Department of Energy, on September 18, 1980 (45 FR 64108, Sept. 26, 1980), amended the prescribed test procedure regulations to allow the Assistant Secretary for Conservation and Renewable Energy to waive temporarily test procedures for a particular basic model when a petitioner shows that the basic model contains one or more design characteristics which either prevent testing of the basic model according to the prescribed test procedures or the prescribed test procedures may evaluate the basic model in a manner so unrepresentative of its true energy consumption characteristics as to provide materially inaccurate comparative data.

On December 27, 1980, Energy Kinetics Incorporated filed a Petition for Waiver from the DOE test procedure requirements for measuring the energy consumption of furnaces. In accordance with the provisions of Part 430.27(b) of Chapter II of Title 10, Code of Federal Regulations, DOE published in the **Federal Register** on February 23, 1981 the Energy Kinetics petition and thereby solicited comments, data, and information respecting the content of the petition (46 FR 13566). By letters dated February 24, 1981, Energy Kinetics notified all known manufacturers of domestically marketed furnaces of similar design. Comments were received from the Hydronics Institute, Hydrotherm, Incorporated, Lawrence D. Spielvogel, Incorporated, and Weil-McLain, Incorporated. The first three comments were sent to the petitioner on April 6, 1981, and Energy Kinetics responded by letter to DOE on April 23, 1981. The comments of Weil-McLain were received late by DOE but nevertheless were sent to the petitioner on April 16, 1981. The petitioner's rebuttal comments to Weil-McLain were contained in its April 23 response. The commenters recommended that DOE deny the petition on the grounds that the test procedures do give representative results; to grant otherwise would give unfair advantage to petitioner because other manufacturers also may deserve some additional credits for their boiler designs. DOE consulted with the Federal Trade Commission on August 20, 1981 concerning the petition from Energy Kinetics, Inc.

The Energy Kinetic's petition contends that the low mass purgeable boiler manufactured by the company has design characteristics which prevent testing in accordance with the prescribed DOE test procedures. The petitioner adds further that even if the test procedures were modified to allow testing of the model, the results obtained from the test procedures would provide materially inaccurate comparative data. Specifically, the petitioner asserts that since the boiler has low mass and low water volume, the temperature rise range of 120°F specified in the existing DOE test procedures (Appendix N, § 2.5.4) will create an inadequate flow rate through the boiler such that the water would flash to steam during the test causing damage to the test unit. The temperature rise range has been the subject of past "applications for exception" filed by manufacturers of finned tube boilers and resulted in amendments to test procedure section 2.5.4. Today's decision and order modifies the test procedures to allow Energy Kinetics "purgeable boiler" to be tested in accordance with the provisions heretobefore applicable only to finned tube boilers. Since the problem for both types of boilers is attributable to low thermal mass, similar testing provisions are appropriate, i.e., the water temperature rise is to be 20°F to 40°F. The modification will allow petitioner to test in accordance with existing DOE test procedures.

Even with granting of the above-mentioned modifications, petitioner believes the test procedure still will provide inaccurate information because credits for energy savings attributable to "purgeable features" are not allowed. Thus, petitioner requests a waiver from the DOE test procedures. Petitioner requests that it be allowed to use other test procedures (for instance, Brookhaven National Laboratory) which give additional credits to designs with "purgeable features," i.e., low thermal mass, low standby temperatures, circulating pump delay, to obtain boiler efficiency. DOE rejects, at this time, the contention of Energy Kinetics. DOE and National Bureau of Standards are studying the various designs of purgeable boilers to determine what, if any, test procedure modifications are justified, and will address the issue in a forthcoming rulemaking to amend the DOE furnace test procedures. The rulemaking process will allow all interested parties to participate in determining what changes, if any, are necessary to accurately evaluate these designs.

In consideration of the foregoing, it is therefore ordered that: (1) The "Petition for Waiver" filed by Energy Kinetics Incorporated on December 27, 1980 is hereby denied except as set forth in paragraph (2) below, subject to the provisions of paragraphs (3), (4) and (5).

(2) Notwithstanding any contrary provisions of 10 CFR, Part 430, Energy Kinetics shall be permitted to test its "purgeable type boiler" with the provisions allowed finned tube boilers in § 2.5.4 of Appendix N.

The Energy Kinetics "purgeable boiler" shall be allowed to have a water flow rate adjusted to produce a temperature rise during steady state operation of 20°F to 40°F and outlet water temperature of 200°F ± 5°F. The maximum permissible temperature variation of the return water is limited to 50°F.

(3) With the exception of the modifications set forth in paragraph (2) above, Energy Kinetics shall comply in all respects with the test procedures specified in 10 CFR, Part 430, Appendix N.

(4) The waiver shall remain in effect only until the Department of Energy issues test procedures appropriate to the type of purgeable boiler manufactured by Energy Kinetics and shall in any event expire (one year from issuance).

(5) The decision is based upon the presumed validity of statements, allegations, and documentary materials submitted by the petitioner and commenters. The decision may be revoked or modified at any time upon a determination that the factual basis underlying the petition is incorrect.

Issued in Washington, D.C., November 18, 1981.

Joseph J. Tribble,

Assistant Secretary Conservation and Renewable Energy.

BILLING CODE 6450-01-M

Economic Regulatory Administration

Pioneer Corp.; Proposed Consent Order

AGENCY: Economic Regulatory Administration, DOE.

ACTION: Notice of Proposed Consent Order and opportunity for comment.

SUMMARY: The Economic Regulatory Administration (ERA) of the Department of Energy (DOE) announces a proposed Consent Order and provides an opportunity for pubic comment on the proposed Consent Order.

DATE: Comments by: January 4, 1982.

ADDRESS: Send comments to: Wayne I. Tucker, Southwest District Manager for Enforcement, Economic Regulatory Administration, Department of Energy, P.O. Box 35228, Dallas, Texas 75235, Phone: 214/767-7745.

FOR FURTHER INFORMATION CONTACT: Wayne I. Tucker, Southwest District Manager for Enforcement, Economic Regulatory Administration, P.O. Box 35228, Dallas, Texas 75235, phone: 214/767-7745.

SUPPLEMENTARY INFORMATION: On November 19, 1981 the Office of Enforcement of the ERA executed a proposed Consent Order with Pioneer Corporation of Amarillo, Texas. Under 10 CFR 205.199J(b) a proposed Consent Order which involves a sum of $500,000 or more, excluding interest and penalties, becomes effective no sooner than thirty days after publication in the **Federal Register** requesting comments concerning the proposed Consent Order. Although the ERA has signed and tentatively accepted the proposed Consent Order, the ERA may, after consideration of the comments it receives, withdraw its acceptance and, if appropriate, attempt to negotiate an alternative Consent Order.

I. THE CONSENT ORDER

Pioneer Corporation, with its home office located in Amarillo, Texas, is a firm engaged in the processing of natural gas and sale of natural gas liquids, natural gas liquid products and plant condensate, and was subject to the Mandatory Petroleum Price and Allocation Regulations at 10 CFR Parts 210, 211, and 212 during the period covered by this Consent Order ("settlement period"). To resolve certain potential civil liability arising out of the Mandatory Petroleum Allocation and Pricing Regulations and related regulations, 10 CFR Parts 205, 210, 211, 212, in connection with Pioneer Corporation's transactions involving natural gas liquids, natural gas liquid products and plant condensate during the period September 1, 1973 through January 28, 1981, the Office of Enforcement, ERA, and Pioneer Corporation entered into a Consent Order, the significant terms of which are as follows:

A. Pioneer Corporation did not apply in a manner acceptable to the DOE the provisions of 6 CFR Part 150, Subpart I, and 10 CFR Part 212, Subparts D, E and K, when determining the prices to be charged for its natural gas liquid products and plant condensate and, as a consequence, charged prices in excess of the maximum lawful sales prices resulting in overcharges to its customers.

B. The period covered by the Consent was September 1, 1973 through January 28, 1981, and it included all sales of natural gas liquids, natural gas liquid products and plant condensate which were made during that period.

C. The Consent Order constitutes neither an admission by Pioneer Corporation that ERA regulations have been violated nor a finding by the ERA that Pioneer Corporation has violated ERA regulations.

D. The provisions of 10 CFR 205.199J, including those regarding the publication of this Notice, are applicable to the Consent Order.

II. REFUNDS

In this Consent Order, Pioneer Corporation will pay the sum of $14,907,060 including interest in 24 equal monthly installments commencing on or before 30 days after the effective date of this Consent Order, plus installment interest. Pioneer Corporation may accelerate payment at its election without penalty. Upon full satisfaction of the terms and conditions of this Consent Order by Pioneer Corporation, the DOE releases Pioneer Corporation from any civil claims that the DOE may have arising out of the specified transaction during the settlement period. The Director, Office of Enforcement, ERA, shall direct that these monies be deposited in a suitable account for ultimate disposition by DOE.

III. SUBMISSION OF WRITTEN COMMENTS

The ERA invites interested persons to comment on the terms, conditions, or procedural aspects of this Consent Order.

You should send your comments to Wayne I. Tucker, District Manager for Enforcement, Southwest District Office, Department of Energy, P.O. Box 35228, Dallas, Texas 75235. You may obtain a free copy of this Consent Order by writing to the same address or by calling (214) 767-7745.

You should identify your comments on the outside of your envelope and on the documents you submit with the designation, "Comments on Pioneer Corporation Consent Order." We will consider all comments we receive by 4:30 p.m., local time on January 4, 1982. You should identify any information or data which, in your opinion, is confidential and submit it in accordance with the procedures in 10 CFR 205.9(f).

Issued in Dallas, Texas on the 24th day of November, 1981.

Robert D. Gerring,

Director, Program Operations Division, Office of Enforcement, Economic Regulatory Administration.

ENVIRONMENTAL PROTECTION AGENCY

[RD-FRL-1997-4]

PCI Ozone Corp.; Ambient Air Monitoring Reference and Equivalent Methods; Receipt of Application for Equivalent Method Determination

Notice is hereby given that on October 19, 1981, the Environmental Protection Agency received an application from PCI Ozone Corporation, West Caldwell, New Jersey, to determine if its Model LC-12 Ozone Analyzer should be designated by the Administrator of the EPA as an equivalent method under 40 CFR Part 53 (40 FR 7049, February 18, 1975, 41 FR 11255, March 17, 1976). If, after appropriate technical study, the Administrator determines that this method should be so designated, notice thereof will be given in a subsequent issue of the Federal Register.

Andrew P. Jovanovich,

Acting Assistant Administrator for Research and Development.

November 25, 1981.

[OPTS-51359; TSH-FRL-1997-3]

Certain Chemicals; Premanufacture Notices

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: Section 5(a)(1) of the Toxic Substances Control Act (TSCA) requires any person who intends to manufacture or import a new chemical substance to submit a premanufacture notice (PMN) to EPA at least 90 days before manufacture or import commences. Statutory requirements for section 5(a)(1) premanufacture notices are discussed in EPA statements of interim policy published in the Federal Register of May 15, 1979 (44 FR 28558) and November 7, 1980 (45 FR 74378). This notice announces receipt of three PMN's and provides a summary of each.

DATE: Written comments by: January 19, 1982; PMN 81-599, 81-600 and 81-601.

ADDRESS: Written comments, identified by the document control number "[OPTS-51359]" and the specific PMN number should be sent to: Document Conrol Officer (TS-793), Office of Pesticides and Toxic Substances, Environmental Protection Agency, Rm. E-409, 401 M St., SW., Washington, D.C. 20460 (202-755-5687).

FOR FURTHER INFORMATION CONTACT: David Dull, Acting Chief, Notice Review Branch, Chemical Control Division (TS-794), Office of Toxic Substances, Environmental Protection Agency, Rm. E-216, 401 M St., SW., Washington, D.C. 20460 (202-426-2601).

SUPPLEMENTARY INFORMATION: The following are summaries of information provided by the manufacturer on the PMNs received by EPA:

PMN 81-599

Close of Review Period. February 18, 1982.

Manufacturer's Identity. Claimed confidential business information.

Specific Chemical Identity. Claimed confidential business information. Generic name provided: Substituted benzenesulfonic acid salt.

Use. The manufacturer states that the PMN substance will be used as a site-limited intermediate.

PRODUCTION ESTIMATES

	Maximum kilograms per year
1 year	3,000
2 year	4,000
3 year	5,000

Physical/Chemical Properties

Melting point—270° C with decomposition.

Solubility: water—0.1-1%.

Toxicity Data. No data were submitted.

Exposure. The manufacturer states that during manufacture and use 15 workers may experience dermal and inhalation exposure up to 2 hrs/day, up to 2 days/yr during manual transfer operations.

Environmental Release/Disposal. The manufacturer states that release to the environment will be negligible. Disposal is by inceneration.

PMN 81-600

Close of Review Period. February 18, 1982.

Manufacturer's Identity. Claimed confidential business information.

Specific Chemical Identity. Claimed confidential business information. Generic name provided: Dichroic tetra-azo ester dye.

Use. Claimed confidential business information.

PRODUCTION ESTIMATES

	Kilograms per year	
	Minimum	Maximum
1 year	.025	[illegible]
2 year	05	1
3 year	.1	5

Physical/Chemical Properties

Melting point—>250° C.

Vapor pressure—$<1\times10^{-6}$ Torr.

Toxicity Data. No data were submitted.

Exposure. The manufacturer states that during manufacture 1 worker may experience synthesis exposure 100 days/yr during filling operations.

Environmental Release/Disposal. The manufacturer states that release to the environment will be negligible. Disposal is by approved waste disposal firm.

PMN 81-601

Close of Review Period. February 18, 1982.

Manufacturer's Identity. Claimed confidential business information.

Specific Chemical Identity. Claimed confidential business information. Generic name provided: Dichroic tetra-azo dye.

Use. Claimed confidential business information.

PRODUCTION ESTIMATES

	Kilograms per year	
	Minimum	Maximum
1 year	025	050
2 year	05	1
3 year	.1	5

Physical/Chemical Properties

Melting point—>250° C.

Vapor pressure—$<1\times10^{-6}$ Torr.

Toxicity Data. No data were submitted.

Exposure. The manufacturer states that during manufacture 1 worker may experience synthesis exposure 100 days/yr during filling operations.

Environmental Release/Disposal. The manufacturer states that release to the environment will be negligible. Disposal is by approved waste disposal firm.

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: Section 5(a)(1) of the Toxic Substances Control Act (TSCA) requires any person who intends to manufacture or import a new chemical substance to submit a premanufacture notice (PMN) to EPA at least 90 days before manufacture or import commences. Statutory requirements for section 5(a)(1) premanufacture notices are discussed in EPA statements of interim policy published in the **Federal Register** of May 15, 1979 (44 FR 28558) and November 7, 1980 (45 FR 74378). This notice announces receipt of two PMNs and provides a summary of each.

DATES: Written comments by: January 24, 1982; PMN 81–602 and 81–603.

ADDRESS: Written comments, identified by the document control number "[OPTS–51360]" and the specific PMN number should be sent to: Document Control Officer (TS–793), Office of Pesticides and Toxic Substances, Environmental Protection Agency, Rm. E–409, 401 M St., SW., Washington, D.C. 20460 (202–755–5687).

FOR FURTHER INFORMATION CONTACT: David Dull, Acting Chief, Notice Review Branch, Chemical Control Division (TS–794), Office of Toxic Substances, Environmental Protection Agency, Rm. E–216, 401 M St., SW., Washington, D.C. 20460 (202–426–2601).

SUPPLEMENTARY INFORMATION: The following are summaries of information provided by the manufacturer on the PMNs received by EPA:

PMN 81–602

Close of Review Period. February 23, 1982.

Manufacturer's Identity. Minnesota Mining and Manufacturing Company, 3M Center, Building 220–3N–02, St. Paul, MN 55144.

Specific Chemical Identity. Decanoic acid, decyl ester.

Use. The manufacturer states that the PMN substance will be used in industrial and commercial temperature indicating devices for perishable products.

PRODUCTION ESTIMATES

	Maximum kilograms per year
1st year	3
2d year	5
3d year	5

Physical/Chemical Properties

Appearance—Oily liquid.
Specific gravity @ 20° C—0.84.
Boiling point—164–170/1 mm.
Flash point COC—350° F.
% volatile by volume—0.5%.
Freezing point—20° C.
Evaporation rate—< 1.
Solubility: water % by wt. @ 20° C—Insoluble.
Vapor pressure @ 20° C—< 1 mm Hg.

Toxicity Data

Acute oral toxicity LD_{50}—> 5.0 ml/kg.
Skin irritation—Very slight irritation.
Eye irritation—Non-irritant.

Exposure. The manufacturer states that during manufacture and use 2 workers may experience dermal exposure up to 0.5 hr/day, up to 20 days/yr during transfer and clean up.

Environmental Release/Disposal. The manufacturer states that less than 10 kg/yr will be released to land and water. Disposal is to a publicly owned treatment works (POTW) and by landfill.

PMN 81–603

Close of Review Period. February 23, 1982.

Manufacturer's Identity. Claimed confidential business information.
Organization information provided:
Annual sales—Over 500 million.
Manufacturing site—Middle Atlantic and East South Central regions.
Standard Industrial Classification Code—282.

Specific Chemical Identity. Claimed confidential business information.
Generic name provided: A modified polymer of substituted and unsubstituted alkyl methacrylates, a substituted alkane, an alkenoic acid and an alkyl acrylate.

Use. Claimed confidential business information. Generic use information provided: The manufacturer states that the PMN substance will be used in a contained use.

Production Estimates. Claimed confidential business information.

Physical/Chemical Properties

Appearance—Clear liquid, amber solution.
Specific gravity—1.0–1.1.
Flash point (SFCC)—151° F.
Viscosity for solids @ 25° C—8,000–100,000 cps.
Solvent—60/40.
Residual monomer—< .50%.

Toxicity Data

Acute oral toxicity LD_{50} (rat)—> 5 g/kg.

Acute dermal toxicity LD_{50} (rat)—> 5 g/kg.

Skin irritation—Slight.
Eye irritation—Moderate.

Exposure. The manufacturer states that during manufacture a total of 8 workers may experience dermal and ocular exposure up to 8 hrs/day, up to 116 days/yr during sampling, analytical, equipment cleaning, filtration replacement or drumming.

Environmental Release/Disposal. The manufacturer states that no release to the environment is anticipated. Disposal is by landfill and incineration.

Dated: November 30, 1981.

[PP 1G2511/T336; PH–FRL–1997–2]

Pendimethalin; Establishment of Temporary Tolerances

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA has established temporary tolerances for the combined residues of the herbicide pendimethalin [*N*-(1-ethylpropyl)-3,4-dimethyl-2,6-dinitrobenzenamine and its metabolite 4-[(1-ethylpropyl)amino]-2-methyl-3,5-dinitrobenzyl alcohol in or on the raw agricultrual commodities, sweet corn grain, fodder and forage at 0.1 part per million (ppm).

DATE: These temporary tolerances expire April 1, 1983.

FOR FURTHER INFORMATION CONTACT: Robert Taylor, Product Manager (PM) 25, Registration Division (TS–767C), Office of Pesticide Programs, Environmental Protection Agency, Rm. 245, CM#2, 1921 Jefferson Davis Highway, Arlington, VA 22202 (703–557–1800).

SUPPLEMENTARY INFORMATION: American Cyanamid Co., PO Box 400, Princeton, NJ 08540, has requested the establishment of temporary tolerances for the combined residues of the herbicide pendimethalin [*N*-(1-ethylpropyl)-3,4-dimethyl-2,6-dinitrobenzenamine and its metabolite 4-[(1-ethylpropyl)amino]-2-methyl-3,5-dinitrobenzyl alcohol in or on the raw agricultural commodities, sweet corn grain, fodder and forage at 0.1 ppm.

These temporary tolerances will permit the continued marketing of the above raw agricultural commodities when treated in accordance with the provisions of the experimental use permit 241–EUP–98 which is being

issued under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) as amended, (92 Stat. 819; 7 U.S.C. 136).

The scientific data reported and all other relevant material were evaluated, and it was determined that establishment of the temporary tolerances will protect the public health. Therefore, the temporary tolerances have been established on the condition that the herbicide be used in accordance with the experimental use permit and with the following provisions:

1. The total amount of the active herbicide to be used must not exceed the quantity authorized by the experimental use permit.

2. American Cyanamid Co. must immediately notify the EPA of any findings from the experimental use that have a bearing on safety. The company must also keep records of production, distribution, and performance and on request make the records available to any authorized officer or employee of the EPA or the Food and Drug Administration.

These tolerances expire April 1, 1983. Residues in excess of these amounts remaining in or on the raw agricultural commodities after this expiration date will not be considered actionable if the herbicide is legally applied during the term of, and in accordance with, the provisions of the experimental use permit and temporary tolerances. These tolerances may be revoked if the experimental use permit is revoked or if any experience or scientific data with this herbicide indicate that such revocation is necessary to protect the public health.

As required by Executive Order 12291, EPA has determined that these temporary tolerances are not a "Major" rule and therefore do not require a Regulatory Impact Analysis. In addition, the Office of Management and Budget (OMB) has exempted these temporary tolerances from the OMB review requirements of Executive Order 12291, pursuant to section 8(b) of that Order.

Pursuant to the requirements of the Regulatory Flexibility Act (Pub. L. 96-534, 94 Stat. 1164, 5 U.S.C. 610-612), the Administrator has determined that regulations establishing new tolerances or raising tolerance levels or establishing exemptions from tolerance requirements do not have a significant economic impact on a substantial number of small entities. A certification statement to this effect was published in the **Federal Register** of May 4, 1981 (46 FR 24950).

(Sec. 408(j), 68 Stat. 516, (21 U.S.C. 346a(j)))

Dated: November 20, 1981.

Douglas D. Campt,

Director, Registration Division, Office of Pesticide Programs.

[FR Doc. 81-34728 Filed 12-2-81; 8:45 am]

BILLING CODE 6560-32-M

FEDERAL COMMUNICATIONS COMMISSION

[BC Docket No. 81-788 et al.; File No. BPCT-790130LI et al.]

Bay Television Inc., et al.; Hearing Designation Order

Adopted: November 9, 1981.

Released: November 24, 1981.

In re applications of: Bay Television, Inc., St. Petersburg, Florida, BC Docket No. 81-788 File No. BPCT-790130LI; Home TV, Incorporated, St. Petersburg, Florida, BC Docket No. 81-789 File No. BPCT-790803KF; Oak Television of Tampa Bay Inc., St. Petersburg, Florida, BC Docket No. 81-790 File No. BPCT-790615KH for construction permit.

1. The Commission, by the Chief, Broadcast Bureau, acting pursuant to delegated authority, has before it the above-captioned mutually exclusive applications of Bay Television, Inc. (Bay), Home TV, Inc. (Home), and Oak Television of Tampa Bay, Inc. (Oak) for authority to construct a new commercial television broadcast station on Channel 38, St. Petersburg, Florida.

2. Home and Oak contemplate operating subscription television (STV) over their proposed facilities. STV is essentially an entertainment format comparable to other entertainment packages except that it is supported directly by viewers' subscriptions rather than by advertising revenues. In the *Second Report and Order in Docket 21502*, FCC 81-13 (released March 25, 1981) The Commission decided not to consolidate STV authorization requests with applications designated for hearing, where some propose STV operation and others conventional facilities. Accordingly, the STV authorization requests will not be consolidated for hearing in this proceeding.

3. Minority Broadcasters of Florida, Inc. (Minority), filed four oppositions against Oak's November 21, 1980, February 23, March 20, and August 31, 1981 amendments. Minority was an applicant for a construction permit on Channel 38, St. Petersburg, Florida when it filed its oppositions. However, on October 29, 1981 Minority's application was dismissed.[1] Although Minority is no longer a party to this proceeding, the objections raised by their oppositions are a matter of record and will be discussed.

4. Oak's amendment of November 21, 1980 notified the Commission that Oak's 95% shareholder, Oak Industries, Inc. (OIC), had applied for consent to transfer negative control of KBSC-TV, Corona, California. By its February 23, 1981 amendment, Oak informed the Commission that OIC had effectuated the transfer of control. Oak's March 20, July 20, and August 31, 1981 amendments contain revised exhibits of OIC's broadcast interests which reflected OIC's transfer of control of KBSC-TV to a voting trustee. Each of these amendments states that the information provided is being submitted pursuant to §§ 1.65 and 73.3522, that acceptance of the amendment would not disrupt processing of the applications, and that the other applicants would not be prejudiced by the acceptance of the amendment.

5. Minority proposes that Oak's amendments referring to the transfer of its stock in KBSC-TV be accepted for § 1.65 purposes only. They point out that the transfer of control was a voluntary action taken and reported after the period for amendment as a matter of right had expired. In addition, they contend that this action would improve Oak's comparative posture by improving its diversification showing.

6. The Commission does not allow applicants to amend their applications after the pre-hearing period for filing amendments as a matter of right has passed, in a manner which would improve their comparative posture. *Mid-Florida Television Corporation*, 76 FCC 2d, 158, 46 RR 2d 1503 (1980). The divestiture of an applicant's broadcast interests improves its comparative posture. See, *Azalea Corporation*, 38 FCC 2d 95, 104; 25 RR 2d 975, 986-87 (Rev. Bd. 1972). OIC's transfer of negative control of KBSC-TV took place, and was reported, after the period to amend as of right had passed. Since OIC owns 95% of Oak's stock, Oak's comparative posture would be improved by an unconditional acceptance of the amendments. In light of Commission policy prohibiting applicants from accruing a comparative advantage from post cut-off amendments and Oak's repeated assurance that the other applicants would not be prejudiced by the amendments' acceptance, Oak's four

[1] On October 29, 1981 the Commission approved the merger agreement between Home and Minority which required Minority to dismiss its application. Under the terms of the agreement Minority's principals would each be offered a one-thirteenth interest in Home.

amendments will be accepted on the condition that its comparative posture will not be improved by their acceptance.

7. *Bay Television, Inc.* (Bay) [2] Applicant estimates that $692,140 will be required to construct the proposed station and operate it for three months, itemized as follows:

Equipment downpayment	None
Equipment lease (5 months)	$139,140
Land	100,000
Building	85,000
Miscellaneous	150,000
Operating Costs	218,000
Total	692,140

Applicant plans to finance construction and operation with the following funds: a bank loan of up to $1,775,000 to Chesapeake Television, Inc. and $1,000 existing capital.

8. Applicant relies on a bank loan to Chesapeake Television, Inc. which was originally applicant's parent corporation. However, in its amendment of August 15, 1979, applicant notified the Commission of its reorganization. Chesapeake Television, Inc. terminated its involvement with the applicant. Chesapeake's seven shareholders acquired shares of the applicant corporation in direct proportion to their holdings in Chesapeake. Since Chesapeake has terminated its relationship with the applicant, Bay cannot rely on the $1,775,000 bank loan to Chesapeake to finance its proposed station. However, applicant has demonstrated that it has $1,000 existing capital. Accordingly, an issue will be designated to determine whether applicant can obtain the $691,140 it needs to construct and operate its proposed station.

9. Bay proposes a transmitter site which is 1 mile short-spaced to an existing station, WXLT–TV, Sarasota, Florida.[3] Applicant has not requested waiver § 73.610(d) of the Rules. Accordingly, an issue with respect to the short-spacing of Bay's proposed transmitter site will also be specified.

10. *Home TV, Inc.* (Home). Home estimates that $920,259 will be required to construct the proposed station and operate for three months, itemized as follows:

Equipment downpayment	$529,250
Equipment payments	134,959
Building	45,000
Miscellaneous	68,000
Operating Costs, three months[1]	143,050
Total	920,259

[1] Includes land

Home plans to finance construction and operation with the following funds: [4] $1,580,000 from its STV franchisee, Suncoast STV, Inc. (Suncoast); either $200,000 from the sale of air time to Suncoast or 6% of the gross monthly program receipts from Suncoast's STV operation, whichever is greater; $15,000 is existing capital; and $1,000 from its stock subscription agreements.

11. Applicant relies on the proceeds of a $5,000,000 bank loan which will be made to Subscription Television of America, Inc. (STA). STA will then make available the portion of these funds that its subsidiary, Suncoast, requires to meet its commitment to Home. Suncoast states in a letter of intent that it will make up to $1,580,000 of the funds it receives from STA available to the applicant. Suncoast conditions the availability of these funds on both the grant of the construction permit and STV authorization. Since STV authorization is granted independently of the grant of the construction permit, the applicant cannot rely on the $1,580,000.

12. Applicant also relies on payment of the greater sum: either $200,000 [5] from the sale of its air time to Suncoast, or 6% of the gross monthly program receipts of Suncoast's STV operation. Since payment of either amount is conditioned upon STV authorization, and STV authorization is granted independently from the grant of the construction permit, applicant cannot rely on either the $200,000 or a percentage of the proceeds from Suncoast's STV operation. Further, Suncoast is not required to pay applicant the $200,000 until STV operations commence. Payment of percentage of gross receipts would not occur until 30 days after the close of the quarterly account period. Therefore, applicant would not receive the funds in time for it to be used for the construction and operation of the station during the first three months. For the reasons discussed above, applicant may not rely on either the $200,000 or a percentage of the proceeds from Suncoast's STV operation.

13. Applicant relies on $15,000 in existing capital and $1,000 to be raised by stock subscriptions. Home has demonstrated that it has $15,000 in existing capital to finance and construct the proposed station. According to the merger agreement between Home and Minority Broadcasters of Tampa Bay, each of the thirteen principals will receive 769 shares of the merged entity. The shares will be purchased for $0.10 each. Home will receive approximately $1,000 from these subscriptions. In light of the nominal amount raised by the subscriptions, the Commission will not require the submission of thirteen separate subscription agreements or inquire into the principals' ability to meet their commitments. Therefore, applicant may rely on the $1,000 it will raise by its stock subscriptions. Accordingly, an issue will be designated to determine whether Home has the additional $904,259 necessary to construct and operate its proposed station.

14. Section 73.636(a)(1) sets forth a policy against granting television construction permits to applicants who directly or indirectly own, operate or control the radio station licensed to a community which is completely encompassed by the predicted Grade A contour of their proposed television station. Since Home filed its application before September 13, 1979, its application is subject to Note 8 of the Rule. Note 8 exempts UHF applicants from the blanket prohibition of § 73.636(a)(1) and, instead, requires case-by-case analysis to determine whether common ownership, operation, or control of the stations in question would be in the public interest. *Notice of Proposed Rule Making in BC Docket 79–233*, 44 FR 5603 (1979). Two of Home's principals, Robert L. Gilder, and J. Eugene Danzey, have broadcast interests in radio stations which would raise Note 8 issues if Home's application were granted. Robert L. Gilder, 7.69% shareholder of the applicant, is the President of WTMP (AM), Tampa,

[2] Bay Television, Inc. is 39.1% owned by the Commercial Radio Institute, Inc. (CRI). David D. Smith is a 4.8% shareholder of CRI. CRI has ownership interests in:

WPTT–TV, Pittsburgh, Pennsylvania
WBFF–TV, Baltimore, Maryland
Channel 28, Columbus, Ohio (construction permit granted)
Channel 38, St. Petersburg, Florida (application)
Channel 61, Wilmington, Delaware (application)
Channel 61, Hartford, Connecticut (application)

In addition, David Smith owns 33% of Comark Television, Inc., the applicant for television stations in:

Channel 26, Daytona Beach, Florida
Channel 38, New Orleans, Louisiana
Channel 18, San Juan, Puerto Rico
Channel 15, Portland, Maine
Channel 62, Syracuse, New York

Section 73.636(a)(2) of the Commission's Rules limits a party to direct or indirect interest in no more than seven television stations.

[3] Applicant submitted an FAA Determination of No Hazard to Air Navigation for a site with different co-ordinates from the site mentioned in its application. Applicant has never amended its application to reflect a change of location of its transmitter site.

[4] Applicant's source of funding was assigned to applicant by MBF as a product of their merger. See, footnote 1 supra.

[5] Suncoast has agreed to pay $800,000 to Home for air time. Applicant then divided that figure by four to determine what it would receive for the first three months of operation.

Florida. Since Home's proposed station's Grade A contour would envelop Tampa, a one-to-a-market issue will be designated regarding Mr. Gilder's broadcast interests. J. Eugene Danzey, Director, Vice-President Sales and 7.69% shareholder of Home, is the Vice-President, General Manager and fifty percent shareholder of WRXB (AM), St. Petersburg Beach, Florida. If Home's application were granted, the predicted Grade A contour would completely encompass the community of license of WRXB. However, Mr. Danzey has agreed to divest himself of all interest in WRXB upon grant of a construction permit for Home's proposed station. Accordingly, no issue will be specified regarding Mr. Danzey's broadcast interests, but any grant of Home's construction permit will be conditioned on Mr. Danzey severing his association with WRXB (AM).

15. On June 15, 1981, Home amended its application to reflect the results of election of officers held during its annual stockholders meeting of May 25, 1981. Several officers changed position within the applicant's corporation. In addition, a new officer, Beverly Ann Kennard, was elected Assistant Secretary.[6] On August 3, 1981, Home further amended its application to provide the information required by Form 301, Section II, Tables I and II for Ms. Kennard. In its August 3, 1981, amendment, Home renounced any comparative advantage which might accrue by virtue of its amendment.

16. Bay filed an opposition to Home's June 15, 1981 amendment. Bay contends that the applicant was attempting to accrue an improper comparative advantage by virtue of its post cut-off amendment. Bay objects to Ms. Miller's elevation from Secretary to Vice-President and Mr. Rahall's advancement from Comptroller to Secretary-Treasurer. In addition, Bay objects to the inclusion of Ms. Kennard's name as an officer, and Home's failure to include Table I and II data on her. While Bay does not object to the acceptance of the June 15, 1981, amendment, it advocates barring Home from receiving any comparative advantage by its acceptance.

17. Since Home's June 15, 1981 and August 3, 1981, amendments were timely filed and their acceptance would not disrupt the proceeding, these two amendments will be accepted for § 1.65 purposes. In light of Home's renunciation of any comparative advantage arising from the acceptance of its August 3rd amendment and its statement that acceptance of its June 15, 1981, amendment will not prejudice any other parties to the proceeding, these two amendments are accepted on the condition Home's comparative posture will not be improved by their acceptance. Accordingly, Bay's opposition will be denied.

18. *Oak Television of Tampa Bay, Incorporated* (Oak). We have not received a determination from the Federal Aviation Administration that Oak's proposed tower height and location would not constitute a hazard to air navigation. Accordingly, an issue regarding this matter will be specified.

19. Except as indicated by the issues specified below, the applicants are qualified to construct and operate as proposed. However, since the proposals are mutually exclusive, they must be designated for hearing in a consolidated proceeding on the issues specified below.

Accordingly, it is ordered, That, pursuant to section 309(e) of the Communications Act of 1934, as amended, the applications are designated for hearing in a consolidated proceeding, at a time and place before an Administrative Law Judge to be specified in a subsequent order, upon the following issues:

1. To determine with respect to Bay Television, Inc.:

(a) whether it has the additional $691,140 available to finance the construction and operation expenses;

(b) whether the proposal of the applicant is consistent with the minimum mileage separation requirements of Section 73.610 and if not, whether circumstances exist which would warrant a waiver of that rule.

(c) whether, in light of the evidence adduced pursuant to (a) and (b), applicant is financially and technically qualified.

2. To determine with respect to Home TV, Inc.:

(a) whether Home has the additional $904,259 available to finance the construction and operation expenses;

(b) whether, in light of Mr. Gilder's interest in WTMP(AM), Tampa, Florida, grant of Home TV, Inc.'s application would be in the public interest.

(c) whether, in light of the evidence adduced pursuant to (a) and (b) applicant is financially and legally qualified.

3. To determine, with respect to Oak Television of Tampa Bay, Incorporated: Whether there is a reasonable possibility that the tower height and location proposed would constitute a hazard to air navigation.

4. To determine which of the proposals would, on a comparative basis, best serve the public interest.

5. To determine, in light of the evidence adduced pursuant to the foregoing issues, which of the applications should be granted.

21. It is further ordered, That, grant of a construction permit to Home TV Inc., will be subject to the following condition: Prior to the commencement of operation, Mr. Danzey shall certify to the Commission that he severed all interest in and connection with WRXB (AM), St. Petersburg Beach, Florida.

22. It is further ordered, That, Bay Television, Inc.'s Opposition to Home's June 15, 1981 amendment is denied.

23. It is further ordered, That, the Federal Aviation Administration is made a party respondent with respect to issue three.

24. It is further ordered, That, to avail themselves of the opportunity to be heard, the applicants and the party respondent herein shall, pursuant to § 1.221(c) of the Commission's rules, in person or by attorney, within 20 days of the mailing of this Order, file with the Commission, in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and to present evidence on the issues specified in this Order.

25. It is further ordered, That the applicants herein shall, pursuant to section 311(a)(2) of the Communications Act of 1934, as amended, and § 73.3594 of the Commission's rules, give notice of the hearing within the time and in the manner prescribed in such rule, and shall advise the Commission of the publication of such notice as required by § 73.3594(g) of the rules.

Federal Communications Commission.

Larry D. Eads,

Chief Broadcast Facilities Division, Broadcast Bureau

[FR Doc. 81-34651 Filed 12-2-81; 8:45 am]

BILLING CODE 6712-01-M

[6] Home's June 15, 1981 amendment states that the election results do not alter the previously filed integration proposal with respect to full time participation of its officers. In addition, in its petition for leave to amend, Home states that acceptance of the amendment would not prejudice any party, or prove disruptive of the proceeding.

Radio Technical Commission for Marine Services (RTCM) Meetings

In accordance with Pub. L. 92-463, "Federal Advisory Committee Act," the schedule of future Radio Technical Commission for Marine Services (RTCM) meetings is as follows:

Special Committee No. 79

"Universal Marine Radiotelephone Compatibility"

Notice of 4th Meeting: Wednesday, December 16, 1981—9:30 a.m., Conference Room A–106, FCC Annex, 1229 20th Street, N.W., Washington, D.C.

Agenda

1. Administrative Matters.
2. Discussion concerning tasks and organization.
3. Report of Working Groups.

T. B. Miller, Chairman SC–79, WJG Telephone Company, P.O. Box 9363, Memphis, TN 38109, Phone: (901) 789–3800

Special Committee No. 81

"Review of FCC Rules Applicable to VHF–FM Maritime Frequencies"

Notice of 3rd Meeting: Wednesday, December 16, 1981—1:00 p.m., Conference Room A–106, FCC Annex, 1229 20th Street, N.W., Washington, D.C.

Agenda

1. Administrative Matters.
2. Review of FCC Rules, Parts 81 and 83.

Carl Gray, Chairman SC–81, Consultant, American Waterways Operators, Inc., 1055 Dalebrook Drive, Alexandria, VA 22308, Phone: (703) 360–4625

Executive Committee Meeting

Notice of December Meeting: Thursday, December 17, 1981—9:30 a.m., Conference Room A–110, 1229 20th Street, N.W., Washington, D.C.

Agenda

1. Administrative Matters.
2. Consideration of Terms of Reference for new Special Committees:
   a. Minimum Performance Standards (MPS) for Automated Vessel Reporting Systems.
   b. Update of RTCM SC–65 final report concerning "Ship Radar and Related Matters".

Special Committee No. 80

"FCC Rules Review as Required by Regulatory Flexibility Act of 1980"

Notice of 1st Meeting: Thursday, December 17, 1981—1:30 p.m., Conference Room A–110, FCC Annex, 1229 20th Street, N.W., Washington, D.C.

Agenda

1. Administrative Matters.
2. Discussion concerning tasks and organization.
3. Working group assignments.

Charles S. Carney, Chairman SC–80, Nav-Com, Inc., 711 Grand Blvd., Deer Park, NY 11729, Phone: (516) 667–7710

The RTCM has acted as a coordinator for maritime telecommunications since its establishment in 1947. All RTCM meetings are open to the public. Written statements are preferred, but by previous arrangement, oral presentations will be permitted within time and space limitations.

Those desiring additional information concerning the above meeting(s) may contact either the designated chairman or the RTCM Secretariat (phone: (202) 632–6490).

Federal Communications Commission.

William J. Tricarico,

Secretary.

[FR Doc. 81–34652 Filed 12–2–81; 8:45 am]

BILLING CODE 6712–01–M

[BC Docket No. 81–824 and 81–825; File Nos. BPET–558 and 595]

Public Communication Foundation for North Texas and Denton Channel Two Foundation, Inc.; Hearing Designation Order

Adopted: November 24, 1981.
Released: December 1, 1981.

In the matter of Public Communication Foundation for North Texas, Flower Mound, Texas; BC Docket No. 81–824, File No. BPET–558, and Denton Channel Two Foundation, Inc., Denton, Texas, BC Docket No. 81–825, File No. BPET–595, For a Television construction permit.

1. The Commission has before it: (a) above-captioned mutually exclusive applications of Public Communication Foundation for North Texas (PCF) and Denton Channel Two Foundation, Inc. (Denton Foundation) for a new noncommercial educational television station to operate on Channel 2, allocated to Denton, Texas;[1] (b) petitions to deny filed by each applicant against the other;[2] and (c) related pleadings.

2. PCF and Denton Foundation specify Flower Mound and Denton, respectively, as their communities of license. Consequently, it will be necessary to determine, pursuant to section 307(b) of the Communications Act of 1934, as amended, whether a new station in Flower Mound or Denton would better provide a fair, efficient, and equitable distribution of radio service. If the section 307(b) issue is not determinative (the applicants would serve substantial areas in common), the applications can be considered under the comparative issue.

Public Communication Foundation for North Texas

3. PCF's proposal embodies several factors identified by the United States Court of Appeals for the District of Columbia Circuit as relevant to a determination as to whether an applicant realistically proposes to serve another (usually larger) community rather than the one specified as its proposed community of license (*de facto* reallocation). *Communications Investment Corporation v. Federal Communications Commission*, 641 F 2d 954 (1981). PCF plans to locate its transmitter near Cedar Hill, Texas, approximately 12 miles southwest of Dallas, Texas, and 28 miles south of Flower Mound. This represents a distance ratio of approximately 2:1. The site is within two miles of the sites of 12 radio and television stations licensed to Dallas and/or Fort Worth. From the proposed site, PCF would encompass all of Dallas, Fort Worth, and Flower Mound within its predicted city grade contour (74 dBu). Flower Mound is a rural community of 4,402 persons with no major industry and only one public elementary school. The 1980 Census indicates that Dallas has a population of 904,078 and Fort Worth has a population of 385,141. PCF, the licensee of KERA-TV and KERA-FM, Dallas, proposes to locate its main studio in Dallas and share staff and facilities with its Dallas stations. PCF's administrative offices are located in Dallas and 52 of its 54 officers and directors reside in either Dallas or Fort Worth; no members of the governing board or officers or directors are residents of Flower Mound. These factors raise a substantial question as to whether PCF realistically intends to serve Dallas and Fort Worth, rather than Flower Mound, and an appropriate issue will, therefore, be specified.

4. Section 73.1125 of the Commission's rules requires that the main studio of a television station be located within the city of license but that, on a showing of good cause, the main studio may be located outside that community. As stated in paragraph 3 above, PCF proposes to locate its main studio in Dallas. Since the main studio location is

---

[1] Pursuant to § 73.607(b) of the Commission's Rules, PCF proposes Flower Mound, Texas, as its community of license.

[2] The petitions are, in essence, pre-designation petitions to specify issues. Since such petitions are no longer permitted, they will be dismissed. *Processing of Contested Broadcasting Applicotions*, 72 F.C.C. 2d 202 (1979).

[3] The Commission recently has indicated that it intends to revisit its current *de facto* reallocation policy. The staff has been directed to prepare an item for the Commission's consideration for the purpose of reexamining that policy. *Son Broadcasting, Inc.*, FCC 81–542 (released November 19, 1981). If and when the Commission's *de facto* reallocation policy is changed, the new policy will be applied to all pending applications, including any then in hearing.

a factor to be considered in a determination of the *de facto* reallocation question of Channel 2 to Dallas or Fort Worth, we are unable to determine that good cause exists or that locating the main studio in Dallas would be consistent with operation of the station in the public interest. Accordingly, an appropriate issue will be specified.

5. PCF estimates that $2,840,445 will be required to construct its proposed station and to operate it for three months, itemized as follows:

Equipment	$2,162,695
Land	400,000
Building	125,000
Other Costs	105,000
Total construction costs	2,742,695
Operating costs (three months)	97 750

To meet its construction expenses, PCF intends to rely upon $2,946,795 from a fund-raising drive and upon a loan of $500,000 from the First National Bank in Dallas, and to meet its operating costs for three months, the applicant relies on annual project income of $491,400 from the Dallas County Community College District (DCCCD). Section 73.621(d) of the Commission's Rules prohibits the sale of time by a noncommercial educational television station and limits consideration to be received to the costs incidental to the production and broadcasting of programs. In any case, the agreement with DCCCD is too speculative, since DCCCD states only that it ". . . would almost certainly be interested in negotiating an agreement with (PCF) for the use of some of the additional time which would be available." With respect to a planned fund-raising campaign, in the absence of a showing that nearly $3,000,000 can be raised from the public, we also find this source of funds too speculative to rely upon. Consequently, it appears that the applicant will have only $500,000 upon which it can rely, and an appropriate financial issue will be specified.

6. As stated in Paragraph 3 above, Dallas is the community of license of KERA–TV and KERA–FM, and PCF's predicted city grade contour for its proposed Flower Mound facility would encompass the entire city of Dallas. The Commission has under consideration a proposal which would extend our multiple ownership rules to include noncommercial stations. *Notice of Proposed Rule Making in BC Docket No. 78–165*, 43 F.R. 31047 (July 19, 1978). Accordingly, in the event of a grant of PCF's application, the construction permit will be subject to the outcome of that proceeding.

Denton Channel Two Foundation, Inc.

7. Denton Foundation estimates that $1,821,550 will be required to construct its proposed station and to operate it for three months, itemized as follows:

Equipment	$1,488 850
Building	115,000
Other (including earth station, engineering equipment, miscellaneous and pre-operation expenses)	100,660
Operating Costs (three months)	117,040
Total	1,821,550

The applicant does not indicate the costs it will incur in acquiring a tower site. Accordingly, as appropriate financial issue will be specified.

8. To meet its expenses, Denton Foundation intends to rely on $393,500 in existing capital, a $1,191,833 grant from the National Telecommunications and Information Administration (NTIA), an anticipated $318,000 from unnamed universities, $138,777 in anticipated donations, $65,200 from project income, and an anticipated community service grant of $150,000 from the Corporation for Public Broadcasting (CPB). Although NTIA will not commit funds to an applicant in hearing, we have no reason to suppose that, in the event of a grant of its application, Denton Foundation will not receive the full $1,191,833 which it has requested. Nevertheless, we cannot find that the applicant will have available any of the other funds upon which it relies. Since the applicant has failed to submit a balance sheet, as required by FCC Form 340, Section III, Question 2(b), we cannot determine the availability of any existing capital. No university, corporation, or individual has committed any other funds, and it is unclear what the $65,200 from "project income" represents. Finally, credit cannot be given for a prospective CPB grant, since grants are not awarded until after a station is operational. Consequently, even with a full grant from NTIA, Denton Foundation would require an additional $629,717 plus the cost of acquiring a transmitter site, and an appropriate financial issue will be specified.

9. On August 18, 1978, counsel for PCF advised the Commission that Roy Appleton, the president of Denton Foundation, may have improperly solicited or encouraged another person to make an improper *ex parte* presentation in support of its application. In June, 1978, Appleton contacted Congressman Ray Roberts about the delayed acceptance of its application for filing. Roberts brought the matter to the attention of Congressman Lionel Van Deerlin, then-Chairman of the House Communications Subcommittee, who, in turn, wrote then-Chairman Charles Ferris. Van Deerlin's letter primarily focused on the status of Denton Foundation's application. It did not go to the merits of this case and was essentially a request for expeditious processing. Consequently, we find no improper *ex parte* presentation.

10. On July 27, 1978, Appleton wrote then Chairman Ferris expressing his views in favor of the proposed rule making which would extend the multiple ownership rules to include noncommercial educational FM and TV stations. *Notice of Proposed Rule Making in BC Docket No. 78–165*, 43 FR 31047 (July 19, 1978). The outcome of that proceeding could affect the grant of PCF's application. (See Paragraph 6 above). Since Appleton's letter did not speak to the merits of PCF's application, we find no improper *ex parte* presentation.

11. In February, 1980, the General Investigating Committee of the Texas House of Representatives issued a report regarding the alleged misappropriation of funds by North Texas State University and Texas Women's University. The report alleges that, contrary to state law, some of Denton Foundation's legal and travel expenses and the cost of postage and aerial photographs were paid by the universities. This matter was referred to the State Auditor and, ultimately, to the District Attorney; however, no formal charges have been made. Consequently, no further inquiry is warranted.

Conclusion and Order

12. Except as indicated by the issues specified below, the applicants are qualified to construct and operate as proposed. Since the applications are mutually exclusive, the Commission is unable to make the statutory finding that their grant will serve the public interest, convenience, and necessity. Therefore, the applications must be designated for hearing in a consolidated proceeding on the issues set out below.

13. Accordingly, it is ordered, That, pursuant to section 309(e) of the Communications Act of 1934, as amended, the above-captioned applications are designated for hearing in a consolidated proceeding to be held before an Administrative Law Judge at a time and place to be specified in a subsequent Order, upon the following issues:

1. To determine, with respect to Public Communication Foundation for North Texas:

(a) Whether the proposal is realistically one to serve Dallas and/or Fort Worth, Texas, rather than Flower

Mound, Texas, and, if so, the effect thereof on the applicant's basic qualifications;

(b) Whether, in the light of the evidence adduced pursuant to (a) above, the applicant has demonstrated good cause for locating its main studio outside its community of license and whether to do so would be consistent with operation of the station in public interest;

(c) Whether the applicant has available an additional $2,340,445 for its construction and three months operating costs;

(d) Whether, in light of the evidence adduced pursuant to (c) above, the applicant is financially qualified.

2. To determine, with respect to Denton Channel Two Foundation, Inc.:

(a) The cost of purchasing or leasing its proposed tower site for five months;

(b) Whether the applicant has available an additional $629,717 plus the cost of purchasing or leasing its proposed tower site;

(c) Whether, in light of the evidence adduced pursuant to (a) and (b) above, the applicant is financially qualified.

3. To determine, in the light of section 307(b) of the Communications Act of 1934, as amended, which of the proposals would better provide a fair, efficient and equitable distribution of television service.

4. In the event that it is concluded that a choice between the applications should not be based solely on considerations relating to section 307(b), to determine which of the proposals would, on a comparative basis, better serve the public interest.

5. To determine, in the light of the evidence adduced pursuant to the foregoing issues, which of the applications should be granted.

14. It is further ordered, That, in the event of a grant of the application of Public Communication Foundation for North Texas, the grant shall be made subject to the outcome of the rule making proceeding in Docket No. 78–165.

15. It is further ordered, That the petitions to deny filed by PCF and Denton Foundation against each other are dismissed.

16. It is further ordered, That, to avail themselves of the opportunity to be heard, the applicants herein shall, pursuant to § 1.221(c) of the Commission's rules, in perons or by attorney, within 20 days of the mailing of this Order, file with the Commission, in triplicate, a written appearance stating an intention to appear on the date fixed for hearing and to present evidence on the issues specified in this Order.

17. It is further ordered, That the applicants herein shall pursuant to section 311(a)(2) of the Communications Act and § 73.3594 of the Commission's rules give notice of the hearing, within the time and in the manner prescribed in such Rule, and shall advise the Commission of the publication of such notice as required by § 73.3594(g) of the rules.

Federal Communications Commission.

William J. Tricarico,

Secretary.

BILLING CODE 6210-01-M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Health Resources Administration

National Council on Health Planning and Development; Steering Subcommittee; Meeting

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92–463), announcement is made of the following National Advisory body scheduled to meet during the month of December 1981:

Name: Steering Subcommittee of the National Council on Health Planning and Development.

Date and Time: Friday, December 11, 1981; 9:30 a.m. – 3:00 p.m.

Place: Conference Room 525–529A, Hubert H. Humphrey Building, 200 Independence Avenue, S.W., Washington, D.C. 20201.

Open for entire meeting.

Purpose: The objectives of the Agenda Planning Subcommittee are to (1) assist the Chairperson in planning the order and timing of agenda topics for full Council consideration and action to assure that the Secretary will receive advice and/or recommendations on each of its three areas of functional responsibilities under section 1503(a) in an appropriate time and manner; (2) coordinate information about and among subcommittee activities and plans; and (3) provide preliminary review of proposed changes in Council operations.

Agenda: The Subcommittee will review status reports from HRA officials and plan two FY 1982 plenary sessions for the National Council on Health Planning and Development.

Anyone requiring information regarding the subject Subcommittee should contact Mrs. S. Judy Silsbee, Executive Secretary, National Council on Health Planning and Development, Room 10–27, Center Building, 3700 East-West Highway, Hyattsville, Maryland, 20782. Telephone (301) 436–7175.

Agenda items are subject to change as priorities dictate.

Dated: November 23, 1981.

Jackie E. Nylen,

Advisory Committee Management Officer, HRA.

BILLING CODE 4160–15–M

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of Environmental Quality

[Docket No. NI–87]

Intended Environmental Impact Statement; Rochester, N.Y.

The Department of Housing and Urban Development gives notice that an Environmental Impact Statement (EIS) is intended to be prepared by the City of Rochester, New York, for the following project under HUD programs as described in the appendix to this Notice: Convention Center. This Notice is required by the Council on Environmental Quality under its rules (40 CFR Part 1500).

Interested individuals, governmental agencies, and private organizations are invited to submit information and comments concerning the project to the specific person or address indicated in the appropriate part of the appendix.

Particularly solicited is information on reports or other environmental studies planned or completed in the project area, issues and data which the EIS should consider, recommended mitigating measures and alternatives, and major issues associated with the proposed project. Federal agencies having jurisdiction by law, special expertise or other special interests should report their interests and indicate their readiness to aid the EIS effort as a "cooperating agency."

Each Notice shall be effective for one year. If one year after the publication of a Notice in the **Federal Register** a Draft EIS has not been filed on a project, then the Notice for that project shall be cancelled. If a Draft EIS is expected more than one year after the publication of the Notice in the **Federal Register,** then a new and updated Notice of Intent will be published.

Issued at Washington, D.C., November 23, 1981.

Francis G. Haas,

Deputy Director, Office of Environmental Quality.

Appendix—EIS on the Convention Center Project

The City of Rochester, New York intends to prepare an Environmental Impact Statement on the project described below and solicits information and comments for consideration in the EIS.

Description: The proposed Convention Center will have a 5,000 to 7,000 person seating capacity and be approximately 205,000 square feet in size. The project will be located in downtown Rochester, New York in the area bounded on the north by East Main Street, on the east by South Avenue, on the south by Broad Street and on the west by the East Bank of the Genesee River. The estimated cost of the project is $40,000,000. The proposed project is being developed in accordance with the city's Urban Renewal Plan and may be assisted under the Department of Housing and Urban Development's Community Development Block Grant program.

Need: The City of Rochester determined to prepare an EIS due to the large-scale nature of the project in a dense urban setting and the possible impact on traffic. The EIS will be published and distributed on or about January, 1982. Copies will be on file for public inspection or may be obtained at the address given below.

Alternatives: Alternatives to be considered are: Accept project as proposed; accept smaller project; and no project.

Scoping: The responses to this Notice will assist in identifying data sources and significant environmental issues which the EIS should address, and will help to identify cooperating agencies.

Comments: Comments should be sent by December 24, 1981 to: Peter A. Korn, City Manager, 30 Church Street, Rochester, New York 14614 (or call (716) 428–6924).

[FR Doc. 81–34681 Filed 12–2–81; 8:45 am]

BILLING CODE 4210–01–M

[Docket No. NI–88]

Intended Environmental Impact Statement; Rich County, Utah

The Department of Housing and Urban Development gives notice that an Environmental Impact Statement (EIS) is intended to be prepared for the following project under HUD programs as described in the appendix to this Notice: Eagle Springs planned development, Rich County, Utah. This Notice is required by the Council on Environmental Quality under its rules (40 CFR 1500).

Interested individuals, governmental agencies, and private organizations are invited to submit information and comments concerning the project to the specific person or address indicated in the appropriate part of the appendix.

Particularly solicited is information on reports or other environmental studies planned or completed in the project area, issues and data which the EIS should consider, recommended mitigating measures and alternatives,

and major issues associated with the proposed project. Federal agencies having jurisdiction by law, special expertise or other special interests should report their interests and indicate their readiness to aid the EIS effort as a "cooperating agency."

Each Notice shall be effective for one year. If one year after the publication of a Notice in the **Federal Register** a Draft EIS has not been filed on a project, then the Notice for that project shall be cancelled. If a Draft EIS is expected more than one year after the publication of the Notice in the **Federal Register**, then a new and updated Notice of Intent will be published.

Issued at Washington, D.C., November 24, 1981.

Francis G. Haas,

Deputy Director, Office of Environmental Quality.

Appendix—Environmental Impact Statement on the Eagle Springs Planned Development, Rich County, Utah

The HUD Area Office in Denver, Colorado intends to prepare an EIS on the Eagle Springs development as described below, and requests information and comments for consideration in the EIS.

Description: Approximately 2,750 dwelling units will be constructed on 1,800 acres in Rich County, Utah. Eagle Springs is located approximately 1½ miles south of Woodruff, Utah on County Road. A potential 1,892 additional units could be built on 520 acres of land under the developer's option.

Need: An EIS is required because the total number of dwelling units exceeds a HUD established threshold.

Alternatives: The alternatives are HUD participation in the development as proposed by the developer, participation in the development provided that HUD required modifications are implemented by the developer, or rejection of participation in the development.

Scoping: A scoping meeting will not be held. HUD will request imput from the appropriate government agencies and service organizations. This notice will also appear in a paper of local circulation in Evanston, Wyoming.

Comments: Comments should be forwarded by December 24, 1981 to: Mr. Carroll F. Goodwin, Area Environmental Officer, U.S. Department of Housing and Urban Development, 1405 Curtis Street, Denver, Colorado 80202. Telephone Number (303) 837–3103, FTS 327–3103.

BILLING CODE 4210–01–M

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[AR–031177; A–17378]

Arizona; Non-Competitive Sale; Public Land in Greenlee County, Arizona, and Termination of Recreation and Public Purposes Classification

The following described land has been examined and identified for disposal by sale under Section 203 of the Federal Land Policy and Mangement Act of 1976 (90 Stat. 2750; 43 U.S.C. 1713):

Gila and Salt River Meridian

T. 8S., R. 32E.,
Sec. 30, E½NW¼SE¼.

The offering of the subject land for sale will terminate the Recreation and Public Purposes classification AR–031177 on the subject land.

The above described land, comprising 20 acres, is being offered as a direct, non-competitive sale at no less than fair market value, to Rural Housing Development Association, Incorporated. Purchase price will be $24,000.

Rural Housing Development Association, Incorporated would acquire the land for development of a senior citizen housing complex for southern Greenlee County. The senior citizen complex is a part of the flood relocation project for the Town of Duncan.

Disposal will serve the public interest. The sale is consistent with the Bureau's planning for the land.

The land will be offered for sale within 60 days after the date of this Notice.

Patent when issued, will contain the following reservations:

1. A right-of-way thereon for ditches and canals constructed by the authority of the United States, Act of August 30, 1890, 26 Stat. 391; 43 U.S.C. 945.

2. All mineral deposits in the lands so patented, and to it, or persons authorized by it, the right to prospect, mine, and remove such deposits from the same under applicable law and such regulations as the Secretary of the Interior may prescribe.

And will be subject to:

1. A right-of-way for the road which traverses section 30.

2. A 20' wide right-of-way for a natural gas pipeline for City Utilities Company which traverses the E½NW¼SE¼, section 30.

Detailed information concerning the sale is available for review at the Safford District Office, 425 E. 4th Street, Safford, Arizona.

For a period of 45 days, interested parties may submit comments to the Safford District Manager, 425 E. 4th Street, Safford, Arizona 85546. Any adverse comments will be evaluated by the District Manager, who may vacate or modify this realty action and issue a final determination. In the absence of any action by the District Manager, this realty action will become the final determination of the Department of Interior.

Dated: November 25, 1981.

Kurt J. Kotter,

Acting District Manager.

BILLING CODE 4310–84–M

[U–2924; U–3057]

Utah; Termination of Classification for Multiple Use Management

1. Pursuant to the authority delegated by Bureau Order No. 701 dated July 23, 1964 (29 FR 10526), the Bureau of Land Management Multiple-Use Classification Orders dated August 16, 1967 and October 4, 1967, Serial No's: U–2924 and U–3057 published in the **Federal Register** August 17, 1967, Vol. 32, No. 159, Pages 11894 and 11895, and October 5, 1967, Vol. 32, No. 193, Pages 13876 and 13877 respectively, are hereby terminated.

The public lands involved aggregate 312,609 acres in Daggett, Duchesne, and Uintah Counties.

2. The classification orders segregated the public lands from appropriation under the agricultural land laws (43 U.S.C. Pts. 7 and 9; 25 U.S.C. 334), from sale under Section 2455 of the Revised Statutes (43 U.S.C. 1171), and from disposition through State and private exchanges under Section 8 of the Act of June 28, 1934 (48 Stat. 1272), as amended by Section 3 of the Act of June 26, 1936 (49 Stat. 1976; 43 U.S.C. 315g) at 10:00 a.m. on December 31, 1981, the lands shall be open to the public land laws generally, subject to valid existing rights, the provisions of existing withdrawals, and the requirements of applicable law.

Inquiries concerning the lands should be addressed to the Chief, Branch of Lands and Minerals Operations, Bureau of Land Management, University Club Building, 136 East South Temple, Salt Lake City, Utah 84111.

Dated: November 23, 1981.

Roland G. Robison Jr.,

State Director.

[FR Doc. 81–34689 Filed 12–2–81; 8:45 am]

BILLING CODE 4310–84–M

Oklahoma; Intention To Amend Southeast Oklahoma Management Framework Plan

AGENCY: Bureau of Land Management; Interior.

ACTION: Notice of intent to amend southeast Oklahoma management framework plan.

SUMMARY: This notice is to advise the public that the Albuquerque, New Mexico District Office of the Bureau of Land Management (BLM) is reviewing and will amend a portion of the Southeast Oklahoma Management Framework Plan (MFP). The review and amendment are in response to an application for competitive lease sale submitted by HFCO, Inc. (NM–50410 (OK)). During the amendment process, the application area will be evaluated to identify areas acceptable for further consideration for leasing.

FOR FURTHER INFORMATION CONTACT: Srinivas Rao, (405) 231–4481, Oklahoma Resource Area Office, Bureau of Land Management, Room 548, 200 NW. Fifth Street, Oklahoma City, Oklahoma 73102.

SUPPLEMENTARY INFORMATION: The Oklahoma Subregion of the Western Interior Coal Production Region was cancelled August 6, 1981 and the six-county Southeast Oklahoma Planning Unit opened to lease by application. The background for this action is contained in the **Federal Register**, Vol. 46, No. 157, 41218–41219 of August 14, 1981. The MFP Amendment, planned for completion in March, 1982, will incorporate the 170-acre coal Lease Application Area (LAA) into the land use planning process. The LAA was not included in the existing Southeast Oklahoma MFP. The potential for leasing interest was considered low due to the small size of the tract and limited amount of recoverable coal reserves. HFCO, Inc. is now interested in surface mining the Stigler coal bed. HFCO, Inc. is currently mining a private coal lease adjacent to the lease application area on the north. The decision to offer the area at a competitive coal lease sale will be based on the following criteria: The application of unsuitability criteria (43 CFR Part 3461), the resolution of conflicts with existing MFP decisions, the results of public participation and review, surface owner consultation, coordination with other state and federal agencies, and analysis of those values that could be impacted by coal development (for example but not limited to rights-of-way, residences, and socio-economic values).

The application area is located approximately 7 miles northwest of the town of Spiro, in LeFlore County, Oklahoma. The application includes the following described lands:

Indian Meridian, Oklahoma

T. 9 N., R. 24 E.,
Sec. 3, NE¼NE¼, NW¼SE¼NE¼, SW¼NE¼, NW¼NW¼SE¼, NE¼SW¼, NW¼SE¼SW¼, N½SW¼SW¼.

Background standards and procedures for MFP Amendment preparation are contained in 43 CFR Part 3400 and 43 CFR Part 1600. The standards for this review are also discussed in the Final Environmental Statement—Federal Coal Management Program, describing the Secretary of the Interior's preferred coal program and alternatives, released in April 1979.

An interdisciplinary team of specialists in the Oklahoma Resource Area Office will conduct the amendment process. Disciplines to be represented include cultural resources, geology, hydrology, land uses, socioeconomics, soils, vegetation, and wildlife.

Public participation opportunities will be provided in the following ways: (1) A notice of intent to amend the MFP will be sent to federal, state, and local governments that would be concerned with the plan or have land use regulatory authority in the vicinity of the proposed amendment, asking them to identify issues and concerns; (2) A news release will appear in local newspapers, asking interested parties to identify issues of concern and impacts that should be addressed; (3) A draft MFP amendment will be distributed for a 30-day public review and comment period in January, 1982; (4) A public meeting will be held during the 30-day review and comment period and will be announced by a news release to appear in local newspapers; (5) Public comments will be considered in the preparation of the final amendment which will be completed and made available to the public in March, 1982. On publication of the final amendment a 30-day protest period will be in effect before a decision can be implemented.

Documents relevant to the planning process are available for public inspection at the BLM Oklahoma Resource Area Office in Oklahoma City at the address provided above.

Dated: November 25, 1981.

L. Paul Applegate,

Albuquerque District Manager, New Mexico State Office.

BILLING CODE 4310–84–M

California; Application To Renew Airport Lease Los Angeles 0165216

Notice is hereby given that pursuant to the Act of May 24, 1928, as amended (49 U.S.C. 211–214), the County of San Bernardino, California, has filed an application to renew its airport lease Los Angeles 0165216 for the following described land:

San Bernardino Meridian, California

T. 14 N., R. 8 E.,
Sec. 24, W½NE¼ and SE¼.

The purpose of this notice is to inform the public that the filing of this application segregates the described land from all other forms of use of disposal under the public land laws.

Interested persons may submit comments to the District Manager, Bureau of Land Management, 1695 Spruce Street, Riverside, California 92507.

Dated: November 24, 1981.

Joan B. Russell,

Chief, Lands Section, Branch of Lands and Minerals Operations.

New Mexico Redelegation of Authority

November 27, 1981.

SUMMARY: Section 1.1(a)(2) of Bureau Order No. 701 dated July 23, 1964, as amended by notice published at 45 FR 6177 on Friday, January 25, 1980 (FR Doc. 80-2428 filed 1-24-80; 8:45 a.m.), authorizes the Bureau of Land Management State Directors the opportunity to redelegate the authority to grant, renew, reassign or revoke rights-of-way under Title I, Section 28 of the Mineral Leasing Act of 1920, as amended, and under the Federal Land Policy and Management Act of 1976 to Bureau of Land Management District and Area Managers.

That authority is hereby redelegated to the Albuquerque District Manager.

This notice has no other effect on the provisions of FR Doc. 80-2428.

EFFECTIVE DATE: This redelegation will become effective January 4, 1982.

FOR FURTHER INFORMATION CONTACT: New Mexico State Office, Bureau of Land Management, P.O. Box 1449, Santa Fe, New Mexico 87501.

Billy M. Brady,

Acting State Director.

BILLING CODE 4310-84-M

[U-45943]

Salt Lake District, Utah; Realty Action-Land Exchange

AGENCY: Bureau of Land Management, Salt Lake District.

ACTION: Notice.

SUMMARY: The following described public lands have been determined to be suitable for disposal by exchange under section 206 of the Federal Land Policy and Management Act of 1976, 43 U.S.C. 1716:

SELECTED (PUBLIC LAND)

6 N. 18 W. 14, all	640
6 N. 18 W. 26, all	640
7 N. 18 W. 4, SW¼	160
7 N. 18 W. 8, all	640
7 N. 18 W. 10, E½NE¼, NW¼SW¼, S½SW¼, SW¼SE¼	240
7 N. 18 W. 14, all	640
7 N. 18 W. 22, all	640
7 N. 18 W. 26, all	640
Total	1,240

In exchange for these lands the Federal Government will acquire the following privately-owned land from Monte Tipton, c/o Herbert H. Halleday, trustee:

OFFERED (PRIVATELY-OWNED LAND)

4 N. 19 W. 23, E½	320.00
4 N. 19 W. 27, E½	320.00
4 N. 19 W. 35, all	640.00
5 N. 19 W. 5, Lots 1-4	41.44
5 N. 19 W. 27, all	640.00
6 N. 19 W. 3, Lot 4, SW¼NW¼, W½SW¼	159.93
6 N. 19 W. 5, Lots 1-4	34.17
6 N. 19 W. 9, Lot 1, NE¼NE¼, W½NE¼NW¼, NE¼SW¼, NW¼SE¼	396.95
6 N. 19 W. 17, Lots 1-4	37.40
6 N. 19 W. 27, W½	320.00
7 N. 19 W. 17, Lots 1-4	39.52
7 N. 19 W. 17, Lots 1-4	13.20
7 N. 19 W. 21, all	640.00
7 N. 19 W. 29, Lots 1-4	25.04
7 N. 19 W. 33, all	640.00
Total	4,269.65

The exchange will involve the surface estates only, of the above described lands. All of the lands, both public and private, are hereby segregated from the workings of the land laws and from mining claim locations.

DATE: For a period of 45 days interested parties may submit comments to the District Manager, BLM, Salt Lake District, 2370 South 2300 West, Salt Lake City, UT 84119. Any adverse comments will be evaluated by the District Manager who may vacate or modify this realty action and issue a final determination.

FOR FURTHER INFORMATION CONTACT: Detailed information concerning the exchange, including the environmental assessment, is available for review at the Salt Lake District Office, 2370 South 2300 West, Salt Lake City, Utah 84119, or call Evan N. Rudd at 524-5348.

SUPPLEMENTARY INFORMATION: The purpose of the exchange is to acquire non-federal lands valuable for wildlife management purposes and to dispose of public lands designed for agricultural purposes. The exchange has been discussed with Box Elder County officials and is consistent with planning. The public interest will be well served by making this exchange.

The value of the lands to be exchanged are approximately equal and the acreage will be adjusted or money will be used to equalize the values, upon completion of the final appraisal of the lands. The terms and conditions applicable to the exchange will be as follows:

(1) Ditches and canals reservation on the selected land.

(2) All minerals, together with the rights of ingress and egress to prospect for, mine and remove the same under applicable law, on the offered and the selected land.

(3) Right-of-way for the county roads which pass through the selected land.

(4) Oil and gas leases numbered U-31579, U-31580, U-3582, U-3583 and U-3584, issued to Sue Hartley, Suite 1520, United Bank Center Bldg., Denver, CO 80202.

Frank W. Snell,

District Manager.

BILLING CODE 4310-84-M

[W-52857 and W-73129]

Wyoming; Termination of Segregation

November 20, 1981.

Two proposals for exchange under the authority of the General Exchange Act of March 20, 1922 (42 Stat. 465) were filed with the Regional Forester and serialized and noted to the records of the Wyoming State Office of the Bureau of Land Management. The selected lands were segregated from entry under the General Mining Law. The lands involved are described as:

Sixth Principal Meridian, Wyoming

(W-52857)

T. 41 N., R. 116 W.,
Sec. 33: N½NE¼SE¼SW¼, NW¼SE¼SW¼, N½SW¼SW¼.
Containing 35.00 acres.

(W-73129)

T. 35 N., R. 118 W.,
Sec. 30: Lots 4, 5, 8, 9, 10 and 11.
Containing 81.23 acres.

The lands are within the Teton and Bridger National Forests respectively.

These exchange proposals no longer being viable, the notation of the applications is being removed. Accordingly, pursuant to 43 CFR 2091.2-3, the lands shall be opened to operation of the mining laws at 7:45 a.m. on January 4, 1981, subject to valid existing rights, the provisions of existing withdrawals, and the requirements of applicable law.

Inquiries concerning the lands should be addressed to the Chief, Branch of Lands and Minerals Operations, Bureau of Land Management, P.O. Box 1828,

2515 Warren Avenue, Cheyenne, Wyoming 82001.

Harold G. Stinchcomb,

Chief, Branch of Lands and Minerals Operations.

BILLING CODE 4310-84-M

Craig District, Little Snake Resource Area, Colo.; Amendment to Management Framework Plan

In accordance with 43 CFR Part 1601 and Pub. L. 94-579, section 603, the Bureau of Land Management, Craig District, Colorado, is in the process of amending the Williams Fork Management Framework Plan. The purpose of the MFP amendment is to identify areas of high to moderate coal development potential that are suitable for further consideration for competitive coal leasing.

In addition to studying the area listed in the Williams Fork MFP coal amendment announced in the notice published in the **Federal Register**, Volume 46, Number 191, Friday, October 2, 1981, the areas previously found unsuitable for further consideration for coal development will be reviewed. Any corrections or additions to legal descriptions or stipulations which may be found to be needed will be proposed in the draft environmental assessment for the Williams Fork MFP coal amendment.

BLM Contacts

Comments or requests for further information should be addressed to Duane Johnson, Team Leader, Little Snake Resource Area Office, P.O. Box 1136, Craig, Colorado 81626; or telephone (303) 824-4441.

Dan Martin,

Acting District Manager.

BILLING CODE 4310-84-M

Montana and North Dakota; Regional Coal Team Meeting for Final Tract Ranking, Final Tract Selection, and Final Selection of Alternatives for the Fort Union Regional EIS

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of Regional Coal Team Meeting.

SUMMARY: Pursuant to the responsibilities set forth in 43 CFR Part 3400, the Montana State Office is issuing this notice to announce a Fort Union Regional Coal Team meeting January 6 and 7, 1982, in the large conference room (6th floor) of the Granite Tower Building, 222 North 32nd Street, Billings, Montana. On January 6 the meeting will begin at 10:00 a.m. and on January 7 at 8:15 a.m.

The Fort Union Coal Team agenda includes: (1) Final tract ranking; (2) final tract selection; and (3) final selection of alternatives for the regional EIS.

FOR FURTHER INFORMATION CONTACT:

Bill Frey, Assistant Project Manager, Bureau of Land Management, Montana State Office, P.O. Box 30157, Billings, Montana 59107, (406) 657-6632/FTS 585-6632.

SUPPLEMENTARY INFORMATION: At its November 2-4 meeting, the Fort Union Regional Coal Team made preliminary tract rankings, preliminary tract selections, and preliminary selections of alternatives for the Fort Union Regional EIS. The Regional Coal Team also extended the public comment period for the Site-Specific Analyses and the Preliminary Facility Evaluation Reports until December 15, 1981. The Regional Coal Team invites public comment until this date.

The following describes the federal coal being considered for leasing in each of the 24 tracts.

BILLING CODE 4310-84-M

Rock Springs District; Final Management Decisions, Coal, Wyoming

November 24, 1981.

AGENCY: Bureau of Land Management, Department of the Interior.

ACTION: Notice of Final Coal Management Decisions, Rock Springs District.

SUMMARY: The Rock Springs, Wyoming District Office of the Bureau of Land Management has reviewed and made final decisions for federal coal management in the Big Sandy and Salt Wells Resource Areas. The prupose for the review was to update the Management Framework Plans (MFPs) for the two areas and to make certain that the MFPs reflect current statutory requirements and policies to continue carrying out the requirements of Section 522 of the Surface Mining Control and Reclamation Act of 1977. The decisions affect the Rock Springs Known Recoverable Coal Resource Area (KRCRA) which is located in both the Big Sandy and Salt Wells Resource Areas. The KRCRA extends approximately 30 miles north, 30 miles south, and 30 miles to the east of Rock Springs.

Public participation opportunities were provided by **Federal Register** notice of June 22, 1981; by an open house conducted in Rock Springs on July 8 to discuss the proposed decisions; by a public hearing on the evening of July 8 in Rock Springs; by public review of the proposed decisions brochure of June 19, 1981; and by informal public contacts in the process of reviewing the area. Public comments were carefully considered and the final coal decisions contained in the Management Framework Plans reflect those considerations.

Two brochures summarizing these final coal decisions will be available about December 7, 1981 in the Rock Springs District Office, the Big Sandy Resource Area Office, and the Salt Wells Resource Area Office. Those who attended the public hearing or requested that their name be placed on the coal mailing list will be mailed a copy of each brochure.

DATES: The two brochures will be available to the public on about December 7, 1981.

ADDRESSES: The Rock Springs District, Big Sandy Resource Area, and Salt Wells Resource Area are all located at: Highway 187 North—Box 1869, Rock Springs, Wyoming 82901.

FOR FURTHER INFORMATION:

For further information please contact the appropriate Area Manager or the District Geologist at the above address; or call (307) 382-5350. Big Sandy Resource Area Manager: Clint Hanson. Salt Wells Resource Area Manager: Bob Bierer. District Geologist: Steve Ellis.

Maxwell T. Lieurance,

State Director.

BILLING CODE 4310-84-M

Geological Survey

Oil and Gas Sulphur Operations, Outer Continental Shelf; Conoco, Inc.

AGENCY: U.S. Geological Survey, Department of the Interior.

ACTION: Notice of the receipt of a proposed development and production plan.

SUMMARY: Notice is hereby given that Conoco Inc. has submitted a Development and Production Plan describing the activities it proposes to conduct on Lease OCS 0146, Block 58, West Delta Area, offshore Louisiana.

The purpose of this Notice is to inform the public, pursuant to Section 25 of the OCS Lands Act Amendments of 1978, that the Geological Survey is considering approval of the Plan and that it is available for public review at the Office of the Conservation Manager, Gulf of Mexico OCS Region, U.S. Geological Survey, 3301 North Causeway Blvd., Room 147, Metairie, Louisiana 70002.

FOR FURTHER INFORMATION CONTACT: U.S. Geological Survey, Public Records, Room 147, open weekdays, 9 a.m. to 3:30 p.m., 3301 North Causeway Blvd., Metairie, Louisiana 70002, Phone (504) 837–4720, Ext. 226.

SUPPLEMENTARY INFORMATION: Revised rules governing practices and procedures under which the U.S. Geological Survey makes information contained in Development and Production Plans available to affected States, executives of affected local governments, and other interested parties became effective December 13, 1979, (44 FR 53685). Those practices and procedures are set out in a revised § 250.34 of Title 30 of the Code of Federal Regulations.

Dated: November 25, 1981.

Lowell G. Hammons,

Conservation Manager, Gulf of Mexico OCS Region.

BILLING CODE 4310–31–M

Oil and Gas and Sulphur Operations, Outer Continental Shelf; Transco Exploration Co.

AGENCY: U.S. Geological Survey, Interior.

ACTION: Notice of the receipt of a proposed development and production plan.

SUMMARY: Notice is hereby given that Transco Exploration Company has submitted a Development and Production Plan describing the activities it proposes to conduct on Lease OCS–G 3949, Block A–552, High Island Area, offshore Texas.

The purpose of this Notice is to inform the public, pursuant to Section 25 of the OCS Lands Act Amendments of 1978, that the Geological Survey is considering approval of the Plan and that it is available for public review at the Office of the Conservation Manager, Gulf of Mexico OCS Region, U.S. Geological Survey, 3301 North Causeway Blvd., Room 147, Metairie, Louisiana 70002.

FOR FURTHER INFORMATION CONTACT: U.S. Geological Survey, Public Records, Room 147, open weekdays 9 a.m. to 3:30 p.m., 3301 North Causeway Blvd., Metairie, Louisiana 70002, Phone (504) 837–4720, Ext. 226.

SUPPLEMENTARY INFORMATION: Revised rules governing practices and procedures under which the U.S. Geological Survey makes information contained in Development and Production Plans available to affected States, executives of affected local governments, and other interested parties became effective December 13, 1979, (44 FR 53685). Those practices and procedures are set out in a revised § 250.34 of Title 30 of the Code of Federal Regulations.

Dated: November 25, 1981.

Lowell G. Hammons,

Conservation Manager, Gulf of Mexico OCS Region.

National Register of Historic Places; Pending Nominations

Nominations for the following properties being considered for listing in the National Register were received by the National Park Service before November 27, 1981. Waiver of the 15-day public commenting period following

this publication is necessary for the Oregon nominations listed below in order for listing of eligible properties to be accomplished before December 31, 1981. Listing in the National Register by this date will enable property owners to take advantage of Oregon's Historic Property Tax Law of 1975 (ORS 358.475), which provides that owners of properties entered into the National Register of Historic Places, including those properties which have been designated as contributing features of historic districts, may apply for special assessment status—a freeze of the assessed valuation for a 15-year period. Waiver of the public commenting period will allow timely listing which is necessary to aid in the preservation of these properties.

Carol D. Shull,

Acting Keeper of the National Register.

BILLING CODE 4310-70-M

INTERSTATE COMMERCE COMMISSION

Motor Carriers; Permanent Authority Decisions; Decision-Notice

The following applications, filed on or after February 9, 1981, are governed by Special Rule of the Commission's Rules of Practice, see 49 CFR 1100.251. Special Rule 251 was published in the **Federal Register** on December 31, 1980, at 45 FR 86771. For compliance procedures, refer to the **Federal Register** issue of December 3, 1980, at 45 FR 80109.

Persons wishing to oppose an application must follow the rules under 49 CFR 1100.252. Applications may be protested *only* on the grounds that applicant is not fit, willing, and able to provide the transportation service or to comply with the appropriate statutes and Commission regulations. A copy of any application, including all supporting evidence, can be obtained from applicant's representative upon request and payment to applicant's representative of $10.00.

Amendments to the request for authority are not allowed. Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority.

Findings

With the exception of those applications involving duly noted problems (e.g., unresolved common control, fitness, water carrier dual operations, or jurisdictional questions) we find, preliminarily, that each applicant has demonstrated a public need for the proposed operations and that it is fit, willing, and able to perform the service proposed, and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the Commission's regulations. This presumption shall not be deemed to exist where the application is opposed. Except where noted, this decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later become unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

To the extent that any of the authority granted may duplicate an applicant's other authority, the duplication shall be construed as conferring only a single operating right.

By the Commission, Review Board No. 2, Members Carleton, Fisher, Williams.

Agatha L Mergenovich,

Secretary.

Note.—All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract".

Please direct status inquiries to the Ombudsman's Office, (202) 275-7326.

Volume No. OPY-4-457

Decided: November 20, 1981.

MC 159277, filed November 13, 1981. Applicant: WALLACE JACKSON TRUCKING CO., P.O. Box 6003, 751 S. Orange Ave., Newark, NJ 07106. Transporting *food and other edible products and byproducts intended for human consumption* (except alcoholic beverages and drugs), *agricultural limestone and fertilizers, and other soil conditioners* by the owner of the motor vehicle in such vehicle, between points in the U.S.

MC 159287, filed November 16, 1981. Applicant: PAUL WORTH SALMON, Rt. 2, Box 551, Lillington, NC 27546. Representative: Paul Worth Salmon (same address as applicant), (919) 893-3962. Transporting (1) *food and other edible products and byproducts intended for human consumption* (except alcoholic beverages and drugs),

V 46 / 232 / D E 3 / 8 1 UMI

agricultural limestone and fertilizer, and other soil conditioners, by the owner of the motor vehicle in such vehicle, and (2) *shipments weighing 100 pounds or less* if transported in a motor vehicle in which no one package exceeds 100 pounds, between points in the U.S.

Volume No. OPY–4–459

Decided: November 25, 1981.

MC 148086 (Sub-1), filed November 12, 1981. Applicant: NATIONAL BOOK CONSOLIDATORS, INC., 1227 Madison Avenue, Paterson, NJ 07053. Representative: Morton E. Kiel, Suite 1832, Two World Trade Center, New York, NY 10048–0640, (212) 466–0220. Transporting *shipments weighing 100 pounds or less if transported in a motor vehicle in which no one package exceeds 100 pounds,* between points in the U.S. (except AK and HI).

[FR Doc. 81–34752 Filed 12–2–81; 8:45 am]

BILLING CODE 7035–01–M

[Volume No. 203]

Motor Carriers; Permanent Authority Decisions; Restriction Removals; Decision-Notice

Decided: November 25, 1981.

The following restriction removal applications, filed after December 28, 1980, are governed by 49 CFR Part 1137. Part 1137 was published in the **Federal Register** of December 31, 1980, at 45 FR 86747.

Persons wishing to file a comment to an application must follow the rules under 49 CFR 1137.12. A copy of any application can be obtained from any applicant upon request and payment to applicant of $10.00.

Amendments to the restriction removal applications are not allowed.

Some of the applications may have been modified prior to publication to conform to the special provisions applicable to restriction removal.

Findings

We find, preliminarily, that each applicant has demonstrated that its requested removal of restrictions or broadening of unduly narrow authority is consistent with 49 U.S.C. 10922(h).

In the absence of comments filed within 25 days of publication of this decision-notice, appropriate reformed authority will be issued to each applicant. Prior to beginning operations under the newly issued authority, compliance must be made with the normal statutory and regulatory requirements for common and contract carriers.

By the Commission, Restriction Removal Board, Members Sporn, Ewing, and Shaffer.

Agatha L. Mergenovich,

Secretary.

MC 65802 (Sub-78X), filed November 16, 1981. Applicant: LYNDEN TRANSPORT, INC., 5615 West Marginal Way, S.W., Seattle, WA 98106. Representative: John R. Sims, Jr., 915 Pennsylvania Bldg., 425–13th Street, NW., Washington, DC 20004. BILLING CODE 7035-01-M

[Finance Docket No. 29772]

Guilford Transportation Industries, Inc.; Control; Delaware and Hudson Railway Co.; Intent To File

Guilford Transportation Industries, Inc. (GTI), hereby gives notice that it will file with the Interstate Commerce Commission on or about December 15, 1981, an application under 49 U.S.C. 11343 seeking authorization to acquire control of Delaware and Hudson Railway Company (D&H), a class I rail carrier, through stock ownership.

GTI, a non-carrier, currently controls Maine Central Railroad Company (MEC), and has filed an application in Finance Docket No. 29720 (Sub-No. 1) for authority to control the Boston & Maine Corpration (B&M).

GTI has agreed to purchase, from a subsidiary of Norfolk and Western Railway Company (N&W), all of the outstanding common stock of D&H. GTI's agreement is conditioned on its obtaining Commission approval of its acquisition of control of both D&H and B&M.

GTI and D&H will prepare a traffic study based on trafffic for the 1980 calendar year. Because GTI will not acquire control of D&H unless it also can acquire B&M, GTI's traffic study must be prepared as if GTI controlled B&M.

This application will be filed under the requirements of 49 CFR Part 1111 relating to major transactions.

The Commission has waived the 3 to 6 month advance notice requirement (49 CFR 1111.4(b)) for the filing of this application.

Because this case must be decided within 180 days of its receipt under section 1164 of the Northeast Rail Service Act of 1981, the Commission cannot follow the procedural schedule of 49 CFR 1111.4. Upon receipt of the application an expedited procedural schedule will be issued.

Dated: November 20, 1981.

By the Commission, Chairman Taylor, Vice-Chairman Clapp, Commissioners Gresham and Gilliam.

Agatha L. Mergenovich,
Secretary.

BILLING CODE 7035-01-M

[Ex Parte No. 387 (Sub-66)]

Louisville and Nashville Railroad Company Exemption for Contract Tariff ICC-L&N-C-0005

AGENCY: Interstate Commerce Commission.

ACTION: Notice of Provisional Exemption.

SUMMARY: Petitioner is granted a provisional exemption under 49 U.S.C. 10505 from the notice requirements of 49 U.S.C. 10713(e) and its contract and contract tariff to be filed may be made effective on one day's notice. This exemption may be revoked if protests are filed within 15 days of publication in the Federal Register.

FOR FURTHER INFORMATION CONTACT: Jane F. Mackall, (202) 275-7656.

SUPPLEMENTARY INFORMATION: The Louisville and Nashville Railroad Company (L&N) filed on November 17, 1981, a petition for exemption under 49 U.S.C. 10505 from the statutory notice provisions of 49 U.S.C. 10713(e). It requests that we permit it to make tariff ICC-L&N-C-0005 effective on one day's notice. The contract involves the movement of coal over the lines of the L&N from Scotia, KY to Mobile, AL. The duration of the contract is five months and renewal options are available. The contract and contract tariff were filed with the Commission on November 17, 1981, and bear the statutorily required effective date of December 18, 1981.

Under 49 U.S.C. 10713(e) contracts must be filed to become effective on not less than 30 nor more than 60 days' notice. There is no provision for waiving this requirement. Cf. former section 10762(d)(1). However, the Commission has granted relief under section 10505 exemption authority in exceptional situations.

The petition shall be granted. Based on the development of a requirement to ship test coal, shipper and petitioner have negotiated in emergency sessions and have agreed to an interim short-term contract to cover the experimental, or test, shipments of coal to begin immediately and to end no later than April 30, 1982. It is imperative that this contract be made effective as soon as possible in order for the shipper to fulfill its requirements and to avoid placing a multi-year contract, scheduled to be in place in April, 1982, in jeopardy. Petitioners state that there has been no procrastination on the part of any of the parties involved in the contractual process. We find that this is the type of exceptional circumstance which warrants an exemption. Contract tariff ICC-L&N-C-0005 may become effective on one day's notice.

We will apply the following conditions which have been imposed in similar exemption proceedings;

If the Commission permits the contract to become effective on one day's notice, this fact neither shall be construed to mean that this is a Commission approved contract for purposes of 49 U.S.C. 10713(g) nor shall it serve to deprive the Commission of jurisdiction to institute a proceeding, on its own initiative or on complaint, to review this contract and to disapprove it.

Subject to compliance with these conditions, under 49 U.S.C. 10505(a) we find that the 30 day notice requirement in these instances is not necessary to carry out the transportation policy of 49 U.S.C. 10101a and is not needed to protect shippers from abuse of market power. Further, we will consider revoking this exemption under 49 U.S.C. 10505(c) if protests are filed within 15 days of publication in the Federal Register.

This action will not significantly affect the quality of the human environment or the conservation of energy resources.

Dated: November 24, 1981.

By the Commission, Division 2, Commissioners Gresham, Gilliam, and Taylor. Commissioner Taylor did not participate.

Agatha L. Mergenovich,
Secretary.

[FR Doc. 81-34754 Filed 12-2-81; 8:45 am]
BILLING CODE 7035-01-M

Service of Decisions Upon Tariff Bureaus and Members in Rate Cases; Procedural Change

AGENCY: Interstate Commerce Commission.

ACTION: Notice of adoption of procedural change.

SUMMARY: The Commission is adopting the procedure of serving decisions in certain rate cases involving tariffs filed by the tariff bureau on behalf of its members only on the agent, who filed the tariff. Also, bureau members who are participating formally in the proceeding will be served. This procedural change does not apply to independent action filings or formal complaints.

EFFECTIVE DATE: This procedural change is effective upon publication in the Federal Register.

FOR FURTHER INFORMATION CONTACT: Darlene Proctor, (202) 275–7233.

SUPPLEMENTARY INFORMATION: By notice published at 46 FR 41639 (08–17–81), the Commission informed the public that it was considering changing its procedure regarding service of certain rate decisions. The Commission proposed that it would serve such decisions on the agent for the tariff bureau and upon those members of the tariff bureau who were formally participating in the proceeding, rather than serve all bureau members. The agent for the tariff bureau would be responsible for notification of the bureau members, who were not formally participating in the proceeding, if the agent deemed such notification necessary.

Comments were received from the Eastern Central Motor Carriers Association, Inc., Central States Motor Freight Bureau, Inc., Rocky Mountain Motor Tariff Bureau, Inc., and Waterways Freight Bureau. The comments were generally favorable. Misunderstanding arose, however, regarding the scope of the proposal.

In response to those comments, we want to clarify that this procedural change will only affect those proceedings in which the tariff bureau has made a collective filing on behalf of its members. Primarily, this would involve a rate investigation and suspension case set for modified procedure. In those cases the Commission will serve only the agent who filed the tariff, and any members who are formally participating in the proceeding. It will be the agent's responsibility to notify the bureau members, if the agent finds that such notification is necessary.

This procedure will not apply to rate cases which involve independent actions of bureau members. We will continue to serve the bureau member or members involved. It will not apply to formal complaints. We will serve all defendants individually.

Accordingly, the Commission adopts the procedural change as discussed above, to become effective upon publication of this notice in the **Federal Register.**

Decided: November 25, 1981.

By the Commission, Chairman Taylor, Vice Chairman Clapp, and Commissioners Gresham and Gilliam.

Agatha L. Mergenovich,

Secretary.

BILLING CODE 7035–01–M

DEPARTMENT OF JUSTICE

Attorney General

Proposed Consent Decree in Action To Require Compliance With Particulate Emission Regulations at Boise Cascade's Paper Mill, Beaver Falls, New York

In accordance with Departmental policy, 28 CFR § 50.7, 38 FR 19029, notice is hereby given that on November 16, 1981 a proposed consent decree in *United States of America* v. *Boise Cascade Corporation,* Civil No. 81–CZ–1242 was lodged with the United States District Court for the Northern District of New York.

The proposed consent decree requires the Boise Cascade Corporation to achieve compliance by January 15, 1983 with particulate emissions regulations pertaining to a boiler at the Lewis Mill portion of its Beaver Falls, New York facility.

The proposed consent decree may be examined at the Office of the United States Attorney, 369 Federal Building, 100 South Clinton Street, Syracuse, New York 13260; at the Region II Office of the Environmental Protection Agency, 26 Federal Plaza, New York, New York 10278; and at the Office of the Environmental Enforcement Section, Land and Natural Resources Division of the U.S. Department of Justice, Room 1252, Tenth and Pennsylvania Avenue, N.W., Washington, D.C. 20530. A copy of the proposed consent decree may be obtained in person or by mail from the Environmental Enforcement Section, Land and Natural Resources Division of the Department of Justice. In requesting a copy, please enclose a check in the amount of $1.30 (10 cents per page reproduction charge) payable to the Treasurer of the United States.

The Department of Justice will receive written comments relating to the proposed consent decree for a period of thirty days from the date of this notice. Comments should be directed to the Assistant Attorney General for the Land and Natural Resources Division of the Department of Justice, Tenth and Pennsylvania Avenue, N.W., Washington, D.C. 20530 and should refer to *United States of America* v. *Boise Cascade Corporation,* D.J. Ref. 90–5–2–1–486.

Carol E. Dinkins,

Assistant Attorney General.

[FR Doc. 81–34685 Filed 12–2–81; 8:45 am]

BILLING CODE 4410–01–M

Proposed Consent Decree in Action; Abatement of Pollution by Vertac Chemical Corporation and Hercules, Inc.

In accordance with Departmental Policy, 28 CFR 50.7, 38 FR 19029, notice is hereby given that on November 18, 1981, a proposed consent decree in *United States of America* v. *Vertac Chemical Corporation and Hercules, Inc.,* Civil Action No. LR–C–80–109, and *Arkansas Department of Pollution Control and Ecology* v. *Vertac Chemical Corporation and Hercules Inc.,* Civil Action No. LR–C–80–110, was lodged in the United States District Court for the Eastern District of Arkansas.

The consent decree concerns the Jacksonville, Arkansas facility owned and operated by the defendants. The decree provides for the conduct of studies regarding contamination, proposals for remedial action as appropriate, management of drummed waste, interim pretreatment requirements on discharges into the City of Jacksonville sewage treatment facility and for maintenance of remedial measures. A separate letter confirms that the case does not involve conditions at the Jacksonville sewage treatment plant or its system lines. The Department of Justice will receive until January 4, 1981 written comments related to the proposed judgment. Comments should be addressed to the Assistant Attorney General, Land and Natural Resources Division, Department of Justice, Washington, D.C. 20530, and refer to *United States* v. *Vertac Chemical Corporation and Hercules, Inc.,* D.J. Ref. 90–7–1–18.

The proposed consent decree may be examined at the office of the United States Attorney, Room 327, 600 W. Capitol Street, Little Rock, Arkansas 72201, at the Region VI Office of the Environmental Protection Agency, 1201 Elm Street, Dallas, Texas 75270, and at the Environmental Enforcement Section, Land and Natural Resources Division, Department of Justice, Room 1254, 10th and Pennsylvania Avenue, NW., Washington, D.C. 20530. A copy of the proposed decree may be obtained in person or by mail from the Environmental Enforcement Section, Land and Natural Resources Division, Department of Justice. All requests for copies must be accompanied by a check covering reproduction costs ($0.10 per page) in the amount of $2.60 (decree without plan of study) or $21.20 (decree

with plan of study) made payable to the Treasurer of the United States.

Anthony C. Liotta,

Deputy Assistant Attorney General, Land and Natural Resources Division.

BILLING CODE 4410-01-M

MOTOR CARRIER RATEMAKING STUDY COMMISSION

Public Hearing; Collective Ratemaking

Date: December 10, 1981.

Place: Conference Room 1013, Federal Building, 230 North First Avenue, Phoenix, Arizona.

Time: 9:00 a.m.

Purpose: To receive testimony from various parties on collective ratemaking.

The Motor Carrier Act of 1980, Pub. L. 96-296, directs the Motor Carrier Ratemaking Study Commission (Commission) to make a full and complete investigation and study of the collective ratemaking process for all rates of motor common carriers and of the need or lack of need for continued antitrust immunity thereof. The Commission is specifically directed to estimate the impact of the elimination of such immunity upon the rate levels and rate structures and to describe the impact of such on the Interstate Commerce Commission and its staff. Also, the Commission has been directed to give special consideration to the impact of the elimination of such immunity upon rural areas and small communities.

The Commission, through its Hearings Committee, calls for this regional hearing for the purpose of receiving testimony from representatives of key communities of interest which shall focus on:

1. Motor Carrier Regulation: the Arizona Experience;

2. Small Communities and Rural Areas; and

3. Clarifying the Terminology

Anyone who is interested in submitting written testimony for the record of the Commission may do so by sending same to: Larry F. Darby, Executive Director, Motor Carrier Ratemaking Study Commission, 214 Massachusetts Avenue, NE., Washington, D.C. 20002.

For further information contact: J. Dent Jarrell, General Counsel, (202) 724-9600.

This notice is being submitted late due to the uncertainty of the availability of Congressional members due to recent changes in the Congressional calendar.

Submitted this, the 30th day of November 1981

Larry F. Darby,

Executive Director.

BILLING CODE 6820-80-M

NATIONAL ADVISORY COMMITTEE ON OCEANS AND ATMOSPHERE

Meeting Addendum

November 30, 1981.

Changes have been made to the Agenda for the December 8-9, 1981 Meeting of the National Advisory Committee on Oceans and Atmosphere (NACOA), published in the **Federal Register** of November 23, 1981 (Page 57376). The agenda has been revised as follows:

Note.—Please note that the swear-in ceremony will be held at the Department of Commerce in Room 5843. The remaining sessions of the agenda will be held at the Page Complex, Page Building #1 at 2001 Wisconsin Avenue, NW.

Tuesday, December 8, 1981

8:45 a.m.–10:30 a.m.
Plenary
8:45 a.m.–9:00 a.m.
• Announcements
9:00 a.m.–10:30 a.m.
• Swear-In Ceremony for New Members
Guest Speakers
Honorable Ted Stevens, Committee on Commerce, Science, and Transportation, U.S. Senate
Honorable Don Fuqua, Chairman, Committee on Science and Technology, U.S. House of Representatives (Invited)
Honorable Norman E. D'Amours, Chairman, Subcommittee on Oceanography, Committee on Merchant Marine and Fisheries, U.S. House of Representatives (Invited)
10:30 a.m.–11:00 a.m.
Break

Page Building #1, Rooms B-100 and 418, 2001 Wisconsin Avenue, NW., Washington, D.C.

11:00 a.m.–12:00 Noon
• Briefings to New NACOA Members
NACOA Staff, Room 418
12:00 Noon–1:00 p.m.
Lunch
1:00 p.m.–5:00 p.m.
Panel Meetings
1:00 p.m.–5:00 p.m.
• Environment and Regulations
Co-Chairmen: Sylvia A. Earle Michael R. Naess
Room B-100
Topic: Clean Water Act—Section 404 (Permits)
Speakers: Corps of Engineers (TBA); Environmental Defense Fund James Tripp, Counsel; American Petroleum Institute David Lindgren, Assistant General Counsel
Topic: Offshore Diving Regulations Scientific Exemption
1:00 p.m.—5:00 p.m.
• Hydrology
Chairman: Paul Bock
Worksession: Review of Draft Report
5:00 p.m.
Recess

Page Building #1, Room 418, 2001 Wisconsin Avenue, NW., Washington, D.C.

Wednesday, December 9, 1981

8:15 a.m.–11:15 a.m.
Panel Meeting
• Weather Services
Chairman: Warren M. Washington Room 418
Topic: Provision of Weather Services to the Nation
U.S. Dept. of Agriculture (TBA)
Environmental Data and Information Service, National Oceanic and Atmospheric Administration (TBA)
Federal Aviation Administration (TBA)
Aircraft Owners and Pilots Association (TBA)
11:15 a.m.–12:00 Noon
Plenary
• User Fees
Speaker: Dr. Steve Hanke, Senior Economist, President's Council of Economic Advisers
12:00 Noon–1:00 p.m.
Lunch
1:00 p.m.–3:00 p.m.
Plenary
• Panel Reports
• Discussion of Preliminary Trends
Marine Transportation: Don Walsh
3:00 p.m.
Adjourn Regular NACOA Meeting
3:00 p.m.–6:00 p.m.
Panel Meeting (continued)
• Hydrology
Chairman: Paul Bock
Worksession: Review of Draft Report
Adjourn

Additional information concerning this portion of the meeting may be obtained through the Committee's Executive Director, Steven N. Anastasion, whose mailing address is: National Advisory Committee on Oceans and Atmosphere, 3300 Whitehaven Street, NW., (Page Building #1, Room 438), Washington, DC 20235. The telephone number is 202/653-7818.

Dated: November 30, 1981.

James A. Almazan,

Staff Physical Scientist.

BILLING CODE 3510-12-M

NATIONAL FOUNDATION ON THE ARTS AND HUMANITIES

Humanities Panel; Meeting

AGENCY: National Endowment for the Humanities, NFAH.

ACTION: Notice of Meeting.

V 46 / 232 / DEC 3 81 UMI

SUMMARY: Pursuant to the provision of the Federal Advisory Committee Act (Pub. L. 92–463, as amended), notice is hereby given that the following meeting of the Humanities Panel will be held at 806 15th Street, N.W., Washington, DC 20506:

Date: December 17–18, 1981.
Time: 9:00 a.m. to 5:30 p.m.
Room: 1134.
Program: This meeting will review applications submitted for Research Marerials Program: Translations Western Languages Panel, Division of Research Programs, for projects beginning after April 1, 1982.

The proposed meeting is for the purpose of Panel review, discussion, evaluation and recommendation on applications for financial assistance under the National Foundation on the Arts and the Humanities Act of 1965, as amended including discussion of information given in confidence to the agency by grant applicants. Because the proposed meeting will consider information that is likely to disclose, (1) Trade secrets and commercial or financial information obtained from a person and privileged or confidential; (2) Information of a personal nature the disclosure of which would constitute a clearly unwarranted invasion of personal privacy; and (3) Information the disclosure of which would significantly frustrate implementation of proposed agency action; pursuant to authority granted me by the Chairman's Delegation of Authority to Close Advisory Committee Meetings, dated January 15, 1978, I have determined that this meeting will be closed to the public pursuant to subsections (c)(4), (6) and (9)(B) of section 552b of Title 5, United States Code.

Further information about this meeting can be obtained from Mr. Stephen J. McCleary, Advisory Committee Management Officer, National Endowment for the Humanities, Washington, DC 20506, or call 202–724–0367.

Stephen J. McCleary,
Advisory Committee Management Officer.

NATIONAL TRANSPORTATION SAFETY BOARD

Reports, Recommendations, Responses; Availability

Railroad Accident Report: *Derailment of Amtrak Train No. 97 on Seaboard Coast Line Railroad Track, Lochloosa, Fla., May 26, 1981 (NTSB–RAR–81–9).*—Related recommendations sent Oct. 21 to—

The Family Lines Rail System, R–81–99 through –101: compliance with Federal railway signal regulations; confirmation of signal system operation after equipment/circuitry change; resolution of conflicting operating department instructions to signal maintainers, unsafe acts to avoid train delays.

Association of American Railroads, R–81–102: inform membership of subject accident, need to check signal systems, maintenance procedures.

Recommendation Responses from—

Federal Aviation Administration: Nov. 16, A–81–19 and –20: ground proximity warning system alarms, Change 24 to Handbook 8430.17. *Nov. 16, A–81–24:* Part 135 operators' training in handling takeoff emergencies, Change 3 to Handbook 8430.1B. *Nov. 10, A–81–33:* emergency/park brake light "out" before taxi/takeoff, Change 25 to Handbook 8440.5A. *Nov. 16, A–81–45:* Airworthiness Directive 81–16–04 revises Bellanca Decathlon flight manual re competition harness. *Nov. 16, A–81–70:* design of flanges and fasteners on fan case of JT9D turbofan engines reviewed. *Nov. 16, A–81–88 through –91:* nonconcurrence in changing terminal air traffic control accident notification procedures, training, supervision, performance monitoring; nonconcurrence in maintenance of current standardized search area maps; nonconcurrence in installing kit 101–3062–1 on all Beech aircraft having remote ELT switch; General Aviation Airworthiness Alert issued re updated owner's manual, Document 950012, for ELT Model CIR–11–2. *Nov. 10, A–81–94 and –95:* FAA will audio-record and retain all weather briefings provided by flight service station personnel; compliance with weather briefing procedures in Flight Services Handbook 7110.10.

United States Coast Guard: Nov. 9, M–79–73 and –74: 26th session, subcommittee on Safety of Navigation (SUBNAV) set for Feb. 15–19, 1982, vessel traffic service Strait of Gibraltar; report to Maritime Safety Committee, 25th Session, SUBNAV re worldwide VFH navigational channel. *Nov. 10, M–79–88 through –95:* nonconcurrence in combining an Engine Order Telegraph with sound-powered telephone system at local control stations; publication of final rule on CGD 74–125A not expected before Dec. 1981, thrust indicator standards; U.S. position paper to Intergovernmental Maritime Consultative Organization pending; awaiting completion, July 1983, of upgrade of automated systems of Sealift Pacific class vessels by Military Sealift Command.

Note.—Single copies of reports, recommendation letters and responses are free on written request, identified by recommendation or report number, to: Public Inquiries Section, National Transportation Safety Board, Washington, D.C. 20594. (Multiple copies of reports are available from National Technical Information Service, U.S. Department of Commerce, Springfield, Va. 22161.)

Margaret L. Fisher,
Federal Register Liaison Officer.

BILLING CODE 4910–58–M

NUCLEAR REGULATORY COMMISSION

[Docket No. 40–8771]

Arizona Public Service Co.; for Operation of R&D in Situ Leach Project, Converse County, Wyoming

The U.S. Nuclear Regulatory Commission (the Commission) is issuing a Source Material and Byproduct Material License to Arizona Public Service Company authorizing R&D-scale uranium solution mining operations at their South Powder River Basin Peterson Project Site in Converse County, Wyoming.

The Commission's Division of Waste Management has prepared an environmental impact appraisal for the proposed action. On the basis of this appraisal, the Commission has concluded that an environmental impact statement for this particular action is not warranted for there will be no significant environmental impact attributable to the action. The environmental impact appraisal is available for public inspection and copying at the Commission's Public Document Room at 1717 H Street, N.W., Washington, D.C.

Dated at Silver Spring, Maryland, this 29th day of October 1981.

For the Nuclear Regulatory Commission.

Ross A. Scarano,
Chief, Uranium Recovery Licensing Branch, Division of Waste Management.

[FR Doc. 81–34761 Filed 12–2–81; 8:45 am]
BILLING CODE 7590–01–M

[Byproduct Material License No. 34–06943–01; EA 81–65]

Dayton X-Ray Co.; Order To Show Cause

I

Dayton X-Ray Company 1150 West Second Street, Dayton, OH 45407, (the "licensee") holds Byproduct Material License No. 34–06943–01, (the "license") which authorizes the licensee to possess and use byproduct material for industrial radiography. The license was originally issued on December 20, 1960, and will expire on April 30, 1985.

II

On November 27, 1974, the Commission imposed a civil penalty of $2,350 on the licensee for failure to provide adequate training to individuals acting as radiographers. On April 21, 1978, the Commission imposed a civil penalty of $6,000 on the licensee for again failing to provide adequate training to individuals acting as radiographers. A January 1979 inspection disclosed numerous deficiencies in the licensee's training program. On July 20, 1979, the licensee attended an enforcement conference at the NRC office in Bethesda, Maryland. The enforcement conference resulted in the licensee making several commitments to the NRC. These commitments were confirmed by telephone on July 23, 1979, and in an Immediate Action Letter dated July 23, 1979. One of these commitments as described in the Immediate Action Letter was that the licensee would:

"Permit no individual, other than Mr. Dennis Taylor, to act as Radiographer as defined in 10 CFR 34.2(b), nor permit any individual to act as Radiographer's Assistant as defined in 10 CFR 34.2(c), until such time as Dayton X-Ray Company's program for training and qualification of Radiographers and Radiographer's Assistants has been upgraded, and approved by the Commission, and License No. 34–06943–01 has been amended accordingly."

Amendment No 22, dated May 1, 1980, amended the license in its entirety. License Condition 12 of that amendment designated Taylor as the only individual authorized to perform radiography. Amendment No. 23, dated June 13, 1980, changed License Condition 12 to permit radiography to be performed by individuals who had completed the licensee's training program which was described in letters dated September 26, 1979, February 18, 1980, and May 14, 1980.

An investigation was conducted on October 20, 21 and 28, November 5 and December 3, 1980, and January 20–22 and March 2, 1981, in response to an allegation that unauthorized personnel were permitted to perform radiography.

During the investigation it was determined that from July 23, 1979, (the date of the Immediate Action Letter) to June 13, 1980, (the date of License Amendment No. 23 which lifted the named radiographer restriction) four individuals other than Taylor acted as radiographers. This included the period May 1–June 13, 1980, when Amendment No. 22 to the license authorized only Taylor to act as a radiographer. It was also determined that, contrary to the licensee's training program approved by the NRC, personnel were permitted to act as radiographers and radiographer's assistants before they demonstrated their competence to do so through written and practical examinations.

During the inspection that was conducted concurrent with the investigation described above, a total of nine violations were discovered. Another inspection was conducted on September 22–23, 1981. During that inspection five violations were discovered.

From the foregoing, it is apparent that despite the NRC's identification of serious inadequacies in the licensee's program and demand for appropriate corrective action through two civil penalties, a license modification, an Immediate Action Letter and several enforcement conferences, including at least two with NRC Headquarters staff, the licensee has not demonstrated the capacity to conduct its industrial radiography program in accordance with NRC regulatory requirements. Particularly, the licensee has demonstrated an inability and unwillingness over a period of almost six years to assure that radiographic procedures were performed only by authorized personnel. This has occurred even though the licensee assured the NRC that effective corrective actions had been implemented, and more recently, in direct contradiction of specific commitments by the licensee and a license condition.

III

Accordingly, pursuant to section 161b and section 186 of the Atomic Energy Act of 1954, as amended, and the Commission's regulations in 10 CFR Parts 2, 20, 30 and 34, it is hereby ordered that:

The licensee show cause, as specified in section IV of this order, why License No. 34–06943–01 should not be revoked.

IV

The licensee may, in accordance with 10 CFR 2.202, show cause within 30 days of the date of this order by filing a written answer under oath or affirmation which sets forth matters of fact and law on which the licensee relies. Upon failure of the licensee to file an answer within the specified time, the Director of the Office of Inspection and Enforement may issue without further notice an Order revoking the license as described in section III above.

V

The licensee or any other person who has an interest affected by this Order may request a hearing within 30 days of the date of this Order. Any answer to this Order or any request for hearing shall be submitted to the Director, Office of Inspection and Enforcement, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555. Copies shall also be sent to the Secretary of the Commission and the Executive Legal Director at the same address. If a person other than the licensee requests a hearing, that person shall describe specifically, in accordance with 10 CFR 2.714(a)(2), the person's interest and the manner in which that interest is affected by this Order.

If a hearing is requested by the licensee or other person who has an interest affected by this Order, the Commission will issue an Order designating the time and place of any hearing. If a hearing is held, the issue to be considered at such hearing shall be:

Whether, on the basis of the matters set forth in section II of this Order, License No. 34–06943–01 should be revoked as provided in section III of this Order.

Dated at Bethesda, Maryland this 27th day of November 1981.

For the Nuclear Regulatory Commission.

Richard C. DeYoung,

Director, Office of Inspection and Enforcement.

[FR Doc. 81–34762 Filed 12–2–81; 8:45 am]

BILLING CODE 7590–01–M

[Docket No. 50–302]

Florida Power Corp., et al.; Notice of Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 44 to Facility Operating License No. DPR–72, issued to the Florida Power Corporation, City of Alachua, City of Bushnell, City of Gainesville, City of Kissimmee, City of Leesburg, City of New Smyrna Beach and Utilities Commission, City of New Smyrna Beach, City of Ocala, Orlando Utilities Commission and City of Orlando, Sebring Utilities Commission, Seminole Electric Cooperative, Inc., and the City of Tallahassee (the licensees) which revised the Technical specifications for operation for the Crystal River Unit No. 3 Nuclear Generating Plant (the facility) located in Citrus County, Florida. The amendment is effective as of the date of issuance.

This amendment revises the Technical Specification requirements for testing of Radiation Monitor RM–A5 to be consistent with Standard Technical Specifications.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR § 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) the application for amendment dated February 15, 1980, (2) Amendment No. 44 to License No. DPR-72, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW, Washington, D.C., and at the Crystal River Public Library, 668 N.W. First Avenue, Crystal River, Florida. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Licensing.

Dated at Bethesda, Maryland, this 24th day of November 1981.

For the Nuclear Regulatory Commission.

John F. Stolz,

Chief, Operating Reactors Branch No. 4, Division of Licensing.

[FR Doc. 81-34766 Filed 12-2-81; 8:45 am]

BILLING CODE 7590-01-M

[Docket No. 50-259]

Tennessee Valley Authority (Browns Ferry Nuclear Plant, Unit 1); Modification of Order

I

The Tennessee Valley Authority (the licensee) is the holder of Facility Operating License No. DPR-33 which authorizes the operation of the Browns Ferry Nuclear Plant, Unit 1 at steady state reactor power levels not in excess of 3293 megawatts thermal rated power. The facility consists of a boiling water reactor located at the licensee's site in Limestone County, Alabama.

II

On January 13, 1981 the Commission issued an Order modifying the license requiring: 1) the licensee to promptly assess the suppression pool hydrodynamic loads in accordance with NEDO-24583-1 and the Acceptance Criteria contained in Appendix A to NUREG-0661; and 2) design and install any plant modifications needed to assure that the facility conforms to the Acceptance Criteria contained in Appendix A to NUREG-0661. The Order, published in the **Federal Register** on January 28, 1981 (46 FR 9318) required installation of any plant modifications needed to provide compliance with the Acceptance Criteria in Appendix A to NUREG-0661 be completed not later than October 31, 1981, or, if the plant is shutdown on that date, before the resumption of power thereafter. In addition, the Order provided for extending, up to that same date, an exemption from General Design Criteria 50 of Appendix A to 10 CFR Part 50.

III

On October 31, 1979, the staff issued an initial version of its acceptance criteria to the affected licensees. These criteria were subsequently revised in February 1980 to reflect acceptable alternative assessment techniques which would enhance the implementation of this program. Throughout the development of these acceptance criteria, the staff has worked closely with the Mark I Owners Group in order to encourage partial plant-unique assessments where necessary and modifications to be undertaken.

Since the development of these acceptance criteria significant progress has been made by the licensee in meeting the Order requirements. However, by letter May 22, 1981 the licensee stated that unforeseen difficulties and delays have been encountered primarily related to torus and torus attached piping analyses, equipment delivery, outage scheduling at a three unit site, and personnel safety concerns associated with prolonged overtime during extended outages that has necessitated revision of the Order date(s).

Browns Ferry Unit 1 was shutdown for six months (April 11 to October 1, 1981) primarily for torus modifications. During that outage most of the major modifications, which are those associated with the torus, vent system, internal structures and safety relief valve piping were completed. These modifications comprise a significant portion of the total program effort. Consequently substantial improvements have already been made in the margins of safety of the containment systems. The major delays in program completion are primarily associated with the torus attached piping modifications.

The staff currently has under review a generic proposal to extend the completion dates for the Mark I containment long term program modifications for all affected licensees. In light of the above, the Director has determined that there is good cause for modidying the Order and granting an extension of 45 days from the date of this Order.

IV

Accordingly, pursuant to the Atomic Energy Act of 1954, as amended, including sections 103 and 161i, and the Commission's rules and regulations in 10 CFR Parts 2 and 50, it is ordered that the: completion date specified in section V of the January 13, 1981 "Order for Modification of License", is extended to 45 days following the effective date of this Order. The Order of January 13, 1981, except as modified herein remains in effect in accordance with its terms.

Dated at Bethesda, Maryland, this 25th day of November 1981.

For the Nuclear Regulatory Commission.

Robert A. Purple,

Deputy Director, Division of Licensing, Office of Nuclear Reactor Regulation.

[FR Doc. 81-34783 Filed 12-2-81; 8:45 am]

BILLING CODE 7590-01-M

[Docket No. 40-8786]

Uranium Resources, Inc.; Negative Declaration Regarding Issuance of Source and Byproduct License for Operation of R&D in Situ Leach Project, Converse County, Wyoming

The U.S. Nuclear Regulatory Commission (the Commission) is issuing a Source Material and Byproduct Material License to Uranium Resources Inc. authorizing R&D-scale uranium solution mining operations at their South Powder River Basin North Platte Project Site in Converse County, Wyoming.

The Commission's Division of Waste Management has prepared an environmental impact appraisal for the proposed action. On the basis of this appraisal, the Commission has concluded that an environmental impact

statement for this particular action is not warranted for there will be no significant environmental impact attributable to the action. The environmental impact appraisal is available for public inspection and copying at the Commission's Public Document Room at 1717 H Street, N.W., Washington, D.C.

Dated at Silver Spring, Maryland, this 30th day of October 1981.

For the Nuclear Regulatory Commission.

Ross A. Scarano,

Chief, Uranium Recovery Licensing Branch, Division of Waste Management.

[FR Doc. 81-34764 Filed 12-2-81; 8:45 am]

BILLING CODE 7590-01-M

[Docket No. 50-271]

Vermont Yankee Nuclear Power Corp. (Vermont Yankee Nuclear Power Plant); Modification of Order

I

The Vermont Yankee Nuclear Power Corporation (the licensee) is the holder of Facility Operating License No. DPR-28 which authorizes the operation of the Vermont Yankee Nuclear Power Plant at steady state reactor power levels not in excess of 1593 megawatts thermal (rated power). The facility consists of a boiling water reactor located at the licensee's site in Windham County, Vermont.

II

On January 13, 1981 the Commission issued an Order modifying the license requiring: 1) the licensee to promptly assess the suppression pool hydrodynamic loads in accordance with NEDO-24583-1 and the Acceptance Criteria contained in Appendix A to NUREG-0661; and 2) design and install any plant modifications needed to assure that the facility conforms to the Acceptance Criteria contained in Appendix A to NUREG-0661. The order, published in the **Federal Register** on January 28, 1981 (46 FR 9323) required installation of any plant modifications needed to provide compliance with the Acceptance Criteria in Appendix A to NUREG-0661 be completed not later than November 30, 1981, or, if the plant is shut down on that date, before the resumption of power thereafter. In addition, the Order provided for extending, up to that same date, an exemption from General Design Criteria 50 of Appendix A to 10 CFR Part 50.

III

On October 31, 1979, the staff issued an initial version of its acceptance criteria to the affected licensees. These criteria were subsequently revised in February 1980 to reflect acceptable alternative assessment techniques which would enhance the implementation of this program. Throughout the development of these acceptance criteria, the staff has worked closely with the Mark I Owners Group in order to encourage plant-unique assessments where necessary and modifications to be undertaken.

Since the development of these acceptance criteria significant progress has been made by the licensee in meeting the Order requirements. However, by letter dated February 23, 1981 the licensee stated that unforseen difficulties and delays have been encountered primarily related to torus and torus attached piping analysis, and equipment delivery that has necessitated revision of the Order date.

The major modifications, which are those associated with the torus, vent system, internal structures and safety relief value piping, which comprise approximately 75% of the total program effort, have been completed. Consequently substantial improvements have already been made in the margins of safety of the containment systems. The delays in program completion are primarily associated with the torus attached piping modifications.

The staff currently has under review a generic proposal to extend the completion dates for the Mark I long term program containment modifications for all affected licensees. In light of the above, the Director has determined that there is good cause for modifying the Order and granting an extension of 45 days from the date specified in Section V of the January 13, 1981 Order.

IV

Accordingly, pursuant to the Atomic Energy Act of 1954, as amended, including sections 103 and 161i, and the Commission's rules and regulations in 10 CFR Parts 2 and 50, it is ordered that the: November 30, 1981 completion date specified in Section V of the January 13, 1981 "Order for Modification of License", is extended to January 14, 1982. The Order of January 13, 1981, except as modified herein remains in effect in accordance with its terms.

Dated at Bethesda, Maryland this 25th day of November 1981.

For the Nuclear Regulatory Commission.

Robert A. Purple,

Deputy Director, Division of Licensing, Office of Nuclear Reactor Regulation.

BILLING CODE 7590-01-M

OFFICE OF MANAGEMENT AND BUDGET

Agency Forms Under Review

November 30, 1981.

Background

When executive departments and agencies propose public use forms, reporting, or recordkeeping requirements, the Office of Management and Budget (OMB) reviews and acts on those requirements under the Paperwork Reduction Act (44 U.S.C. chapter 35). Departments and agencies use a number of techniques including public hearings to consult with the public on significant reporting requirements before seeking OMB approval. OMB in carrying out its responsibility under the act also considers comments on the forms and recordkeeping requirements that will affect the public.

List of Forms Under Review

Every Monday and Thursday OMB publishes a list of the agency forms received for review since the last list was published. The list has all the entries for one agency together and grouped into new forms, revisions, extensions (burden change), extensions (no change), or reinstatements. The agency clearance officer can tell you the nature of any particular revision you are interested in. Each entry contains the following information:

The name and telephone number of the agency clearance officer (from whom a copy of the form and supporting documents is available)
The office of the agency issuing this form
The title of the form
The agency form number, if applicable
How often the form must be filled out
Who will be required or asked to report
The standard industrial classification (SIC) codes, referring to specific respondent groups that are affected
Whether small businesses or organizations are affected
A description of the Federal budget functional category that covers the information collection
An estimate of the number of responses
An estimate of the total number of hours needed to fill out the form
An estimate of the cost to the Federal Government
An estimate of the cost to the public
The number of forms in the request for approval
An indication of whether section 3504(h) of Pub. L. 96-511 applies

The name and telephone number of the person or office responsible for OMB review and
An abstract describing the need for and uses of the information collection.

Reporting or recordkeeping requirements that appear to raise no significant issues are approved promptly. Our usual practice is not to take any action on proposed reporting requirements until at least ten working days after notice in the **Federal Register**, but occasionally the public interest requires more rapid action.

Comments and Questions

Copies of the proposed forms and supporting documents may be obtained from the agency clearance officer whose name and telephone number appear under the agency name. The agency clearance officer will send you a copy of the porposed form, the request for clearance (SF83), supporting statement, instructions, transmittal letters, and other documents that are submitted to OMB for review. If you experience difficulty in obtaining the information you need in reasonable time, please advise the OMB reviewer to whom the report is assigned. Comments and questions about the items on this list should be directed to the OMB reviewer or office listed at the end of each entry.

If you anticipate commenting on a form but find that time to prepare will prevent you from submitting comments promptly, you should advise the reviewer of your intent as early as possible.

The timing and format of this notice have been changed to make the publication of the notice predictable and to give a clearer explanation of this process to the public. If you have comments and suggestions for further improvements to this notice, please send them to Jim J. Tozzi, Deputy Administrator, Office of Information and Regulatory Affairs, Office of Management and Budget, 726 Jackson Place, Northwest, Washington, D.C. 20503.

DEPARTMENT OF AGRICULTURE

(Agency Clearance Officer—Richard J. Schrimper—202–447–6201)

Extensions (Burden Change)

• Federal Crop Insurance Corporation
Application (Multi-Crop) For Insurance
FCI–12
On occasion
Individuals or households/farms
Individual farmers
SIC: 011 013 016 017
Farm income stabilization: 50,000 responses; 4,000 hours; $0 Federal cost; 1 form; not applicable under 3504(h)
Charles A. Ellett, 202–395–7340

The FCI–12 Application is a revision of the former named crop application, however, the proposed form is a mult-crop application. The form is used to apply for crop insurance protection. The information is used to compute coverage and premium rate.

DEPARTMENT OF COMMERCE

(Agency Clearance Officer— Edward Michals—202–377–3627)

Revisions

• National Oceanic and Atmospheric Administration
Application For Federal Fisheries Permit
NOAA 88–155
On occasion/annually
Individuals or households/businesses or other institutions
US fishermen
SIC: 091
Other Advancement and regulation of commerce: 10,000 responses; 5,000 hours; $11,625 Federal cost; 2 forms; not applicable under 3504(h)
William T. Adams, 202–395–4814

The application provides information required for issuance of permit to domestic fishermen engaged in fishing in the U.S. fisheries conservation zone. The permit is used to enumerate the participants in individual fisheries and to determine the level or fishing effort.

• National Oceanic and Atmospheric Administration
Logbook Family of Forms
NOAA 88–176 88–59 88–140 88–153
On occasion/weekly/monthly
Businesses or other institutions
Captains of fishing craft
SIC: 091
Small Businesses or organizations
Other advancement and regulation of commerce: 225,028 responses; 8,978 hours; $25,100 Federal cost; 2 forms; not applicable under 3504(h)
William T. Adams, 202–395–4814

Data are needed to monitor fisheries managed under fishery management plans and to update these plans.

DEPARTMENT OF ENERGY

(Agency Clearance Officer—John Gross—202–633–9770)

Extensions (Burden Change)

• Energy Information Administration
Weekly Pipeline Stocks of Finished Products
EIA–163
Weekly
Businesses or other institutions
Pipeline product operators
SIC: 461
Small businesses or organizations
Energy information, policy, and regulation: 392 responses; 14,398 hours; $721,000 Federal cost; 1 form; not applicable under 3504(h)
Jefferson B. Hill, 202–395–7340.

Data are used as input to "weekly petroleum status report." Data are used to project energy supplies and provide early warning of potential shortages.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

(Agency Clearance Officer—Joseph Strnad—202–245–7488)

New

• Health Care Financing Administration
Contractors' Information Collection Supplemental Desk Review[1]
HCFA–9021
Annually
Businesses or other institutions
Hospitals, skilled nursing fac., home health agencies
SIC: 806 808
Small businesses or organizations
Health: 14,300 responses; 114,400 hours; $0 Federal cost; 1 form; not applicable under 3504(h)
Richard Eisinger, 202–395–6880

Supplemental desk review forms are used to obtain pertinent information from providers. Desk reviews are performed on all cost reports. This enables intermediaries to cut down on full scale field audits, and to pinpoint areas to be examined during audits.

• Health Care Financing Administration
Contractors' Information Collections—Extended [1] Repayment Schedule
9004
Annually
Businesses or other institutions
Facilities participating in the medicare program
SIC: 805, 806, 808, 809
Small businesses or organizations
Health: 5,000 responses; 25,000 hours; $0 Federal cost; 1 form; not applicable under 3504(h)
Richard Eisinger, 202–395–6880

Forms are used by intermediaries to recover and return to the medicare trust fund overpayments made to providers.

---

[1] These reporting forms have been approved for interim use by OMB for one year in order to continue operation of the Medicare Program. However, OMB will continue its reviews of these forms, and will accept comments from health care providers and others based on their experience with these forms through this approval period. Health care providers and recipients, who are respondents to these Medicare contractor forms, are invited to send comments to Joseph Strnad at the above address, and to the OMB reviewers listed.

Providers requesting extended repayment schedules are requested to submit a variety of financial statements documenting their current financial status. It is then determined if an extended repayment schedule will be granted.

• Health Care Financing Administration
Contractor Information Collection—Home Office Cost [1]
9018
Annually
Businesses or other institutions
Chain organizations which participate in medicare
SIC: 805, 806, 807, 808, 809
Health: 900 responses; 900,000 hours; $0 Federal cost; $9,000,000 public cost; 1 form; not applicable under 3504(h)
Richard Eisinger, 202–395–6880

These intermediary forms gather information on home office costs and equity capital of chain organizations.

• Health Care Financing Administration
Contractors' Information Collections—Collateral Contacts [1]
9007
On occasion
Individuals or households/businesses or other institutions
Financial institutions, insurance companies, employers, etc.
SIC: 919
Small businesses or organizations
Health: 3,051 responses; 3,051 hours; $0 Federal cost; 1 form; not applicable under 3504(h)
Richard Eisinger, 202–395–6880

State and medicaid agencies conduct quality control reviews of their eligibility claims processing, and third party liability findings. HCFA's regional office (RO) may need to make collateral contacts to substantiate State medicaid determinations. This clearance is for RO collateral contact forms sent to financial institutions, employers, etc.

• Health Care Financing Administration
Contractors Information Collection—HCFA Program Integrity [1] Forms to Verify Services
9011
On occasion
Individuals or households
Medicare beneficiaries and medicaid beneficiaries
Health: 1,400 responses; 700 hours; $0 Federal cost; 1 form; not applicable under 3504(h)
Richard Eisinger, 202–395–6880

HCFA's regional offices investigate allegations of fraud and abuse against suppliers and physicians. These RO forms verify services rendered to medicare beneficiaries and medicaid recipients by the supplier/physician.

Revisions

• Health Care Financing Administration
Contractor Information Collection Interim Payment Adjustment [1] Forms for Hospitals/SNFs
9019, 91
Quarterly
Businesses or other institutions
Hospitals and SNFs which receive periodic interim payments
SIC: 805, 806
Small businesses or organizations
Health: 17,400 responses; 174,000 hours; $0 Federal cost; 1 form; not applicable under 3504(h)
Richard Eisinger, 202–395–6880

These intermediary forms collect cost and medicare utilization data from hospitals and skilled nursing facilities. The data allows adjustments of interim payments, if necessary.

Reinstatements

• Health Care Financing Administration
Contractors' Information Collections—Admission and Open [1] Item Forms
9003, 292
On occasion
Businesses or other institutions
Facilities which participate in the medicare program
SIC: 805, 806
Small businesses or organizations
Health: 513,600 responses; 128,400 hours; $0 Federal cost; $52,000 public cost; 1 form; not applicable under 3504(h)
Richard Eisinger, 202–395–6880

These forms were developed by intermediaries to collect admission information from hospitals and skilled nursing facilities (SNFS). They are used when a medicare beneficiary enters a hospital or SNF before a final bill has been submitted for a prior stay in a hospital or SNF.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Agency Clearance Officer—Robert G. Masarsky—202–755–5184

New

• Management and Administration
Subcontractor's Certification Concerning Labor Standards and Prevailing Wage Requirements
1422
On occasion
Businesses or other institutions
Construction contractors—subcontractors
SIC: 152, 154, 161
Small businesses or organizations
Multiple functions: 75,000 responses; 18,750 hours; $13,974 Federal cost; 1 form; not applicable under 3504(h).
Richard Sheppard, 202–395–6880.

Ascertain compliance in accordance with Title 29 CFR, Part 5, Sec. 5.5.

• Management and Administration
Contractor's Certification Concerning Labor Standards and Prevailing Wage Requirements
HUD–1421
On occasion
Businesses or other institutions
Prime contractors only
SIC: 152, 154, 161 MUL
Multiple functions: 15,000 responses; 3,750 hours; $13,974 Federal cost; 1 form; not applicable under 3504(h).
Richard Sheppard, 202–395–6880.

Ascertain compliance in accordance with Title 29, Part 5, Sec. 5.5

• Management and Administration
Survey of Prevailing Maintenance Wage Rates
5136
Annually
Businesses or other institutions/State or local governments, management companies, local public entities, apt. managers
SIC: Multiple 651, 653, 839, 863
Small businesses or organizations
Multiple functions: 15,000 responses; 2,500 hours; $740,000 Federal cost; 1 form; not applicable under 3504(h).
Richard Sheppard, 202–395–6880.

Form is used to obtain current data on wages paid maintenance workers in the private and public sector. Data is then used to determine and establish wage rates for PHAS' maintenance workforce.

DEPARTMENT OF THE INTERIOR

Agency Clearance Officer—Vivian A. Keado—202–343–6191

New

• Bureau of Land Management
Outer Continental Shelf Minerals and Rights-of-Way Management

SIC: 131, 144, 147, 148, 149
Small businesses or organizations
Conservation and land management: 4,704 responses; 67,669 hours; $239,206 Federal cost; 3 forms; $4,080,310 public cost; NPRM under 3504(h).
Robert Shelton, 202–395–7340.

43 CFR 3300 and related information collection requirements establish the procedures under which the secretary exercises the authority granted to administer a leasing program on the Outer Continental Shelf.

V 46 / 232 DE 3 81 UMI

DEPARTMENT OF JUSTICE

Agency Clearance Officer—Larry E. Miesse—202–633–4312

Extensions (Burden Change)

• Drug Enforcement Administration
Application for Permit To Export Controlled Substances
DEA 161
On occasion
Individuals or households/businesses or other institutions, manufacturers of controlled substances
SIC: 800
Small businesses or organizations
Federal law enforcement activities: 675 responses; 170 hours; $12,510 Federal cost; 1 form; not applicable under 3504(h).
Andy Uscher, 202–395–4814.

Section 1312.22, CFR 21, requires individuals who export controlled substances listed in schedules I and II to obtain a permit from the Drug Enforcement Administration. The information is used by the Drug Enforcement Administration for issuing export permits and exercising control over the exportation of controlled substances.

• Drug Enforcement Administration
Report of theft or loss of controlled substances
DEA 106
On occasion
Individuals or households/State or local governments/businesses or other institutions
All regist. (Mfgrs., distrib., pharmacies, physicians, etc.)
SIC: 801
Small businesses or organizations
Federal law enforcement activities: 13,000 responses, 6,500 hours; $123,107 Federal cost; 1 form; not applicable under 3504 (h)
Andy Uscher, 202–395–4814

Sections 1301.74(C) and 1301.76(F), CFR 21, require that a registrant upon discovery of a theft or loss of controlled substances, submit DEA Form 106 regarding such theft or loss to the Drug Enforcement Administration for monitoring quantities of controlled substances diverted into the illicit market and developing investigative leads pursuant to criminal prosecutions.

DEPARTMENT OF TRANSPORTATION

(Agency Clearance Officer—John Windsor—202–426–1887)

New

BILLING CODE 3110–01–M

SMALL BUSINESS ADMINISTRATION

[Proposed License No. 06/06–0253]

Business Capital Corp. of Arlington; Application for License To Operate as a Small Business Investment Company

Notice is hereby given that an application has been filed with the Small Business Administration pursuant to § 107.102 of the regulations governing small business investment companies (13 CFR 107.102 (1981)), under the name of Business Capital Corporation of Arlington, Suite 100, 711 E. Lamar Blvd., Arlington, Texas 76011, for a license to operate as a small business investment company (SBIC) under the provisions of the Small Business Investment Act of 1958, as amended (the Act), (15 U.S.C. 661 *et seq.*), and the rules and regulations promulgated thereunder.

The proposed officers, directors and shareholders of the Applicant are as follows:

Chairman of the Board, President, Director
James E. Sowell, 3600 Drexel, Dallas, Texas 75205
Vice President, Director
Keith D. Martin, 6705 Elvedon, Dallas, Texas 75248
Secretary, Treasurer Director
Elizabeth F. Sowell, 3600 Drexel, Dallas, Texas 75205
Sole Stockholder
Quoin Corporation, Suite 100, 711 E. Lamar Blvd., Arlington, Texas 76011

Mr. Sowell beneficially owns all of the outstanding capital stock of Quoin Corporation, a Texas corporation.

There will be one class of stock authorized: five million shares of common stock. Initially only five hundred thousand shares will be issued with a resultant private capital of $510,000. Applicant proposes to conduct its operations principally in the State of Texas.

Matters involved in SBA's consideration of the application include the general reputation and character of shareholder and management, and the probability of successful operation of the new company in accordance with the Act and Regulations.

Notice is further given that any person may, not later than December 18, 1981, submit to SBA, in writing, comments on the proposed licensing of this company. Any such communications should be addressed to: Deputy Associate Administrator for Investment, Small Business Administration, 1441 "L" Street, N.W., Washington, D.C. 20416.

A copy of this notice shall be published by the Applicant in a newspaper of general circulation in Arlington, Texas.

BILLING CODE 8025–01–M

DEPARTMENT OF TRANSPORTATION

Coast Guard

[CGD–81–09]

Intent To Prepare an Environmental Impact Statement for Proposed South Bronx-Oak Point Link Project, Harlem River, Bronx County, N.Y.

AGENCY: U.S. Coast Guard.

ACTION: Notice of intent to prepare an Environmental Impact Statement.

SUMMARY: The U.S. Coast Guard is preparing an Environmental Impact Statement (EIS) for the Oak Point Link Railroad project which involves the permitting of new railroad bridge(s) and the amending of permits for existing highway bridges. The proposed project is located along the east side of the Harlem River, between Highbridge and Oak Point Yard, The Bronx, New York.

FOR FURTHER INFORMATION CONTACT: Mr. William C. Heming, Bridge Administrator or Mr. John G. Waffenschmidt, Environmental Protection Specialist, Commander (oanbr), Third Coast Guard District, Governors Island, New York 10004, Telephone (212) 668–7994.

SUPPLEMENTARY INFORMATION: The U.S. Coast Guard is the lead federal agency with the U.S. Corps of Engineers as a cooperating agency. The New York State Department of Transportation (NYSDOT) is the lead state agency as well as the applicant for the bridge project.

The proposed project involves the construction of a new rail freight connection between Highbridge and the Oak Point Yard as part of the New York State "Full Freight Access Program". Various alternatives are being evaluated. All of the alternatives except the no build alternative require the construction of bridge structures.

The project's various build alternatives could deny waterway access to up to 1.7 miles of the shoreline, and cut off various slips and docks. In addition, the bridge structure(s) could increase the likelihood of a vessel collision on the waterway. The overall length of this project is approximately 1.7 miles. The primary reason for the project is to reverse the ongoing decline of rail freight service to New York City and Long Island by creating a freight only route capable of handling trailer on-flat-car and container on-flat-car traffic requiring clearances of 17'6". The "Full Freight Access Program" is intended to provide and increase full service rail accessibility into and within the New York metropolitan area.

Significant issues to be evaluated, based upon the ongoing scoping process, are social and economic impacts, intermodal conflicts, land use planning, aquatic ecology, noise and air quality and impacts on cultural resources and navigation. Alternatives being considered are no-build, Shore Route, Market West Route and the Offshore Route which would be outside the pierhead and bulkhead line.

The applicant, NYSDOT, has prepared and submitted an environmental assessment to the Third Coast Guard District. The development of this document has been the result of the scoping process which has been and will continue to be conducted in accordance with 40 CFR 1501.7. Many scoping meetings have been held with various groups. The need for a final scoping meeting has not yet been determined.

The Coast Guard invites the participation of Federal, State, local agencies and other interested parties in determining the scope of issues to be addressed and the need for a final scoping meeting.

Peter J. Rots,

Captain, U.S. Coast Guard, Acting Chief, Office of Navigation.

November 18, 1981.

BILLING CODE 4910–14–M

Federal Aviation Administration

Aircraft Microphones (Except Carbon), Headsets and Speakers, Audio Selector Panels, and Amplifiers

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Request for comments on draft Technical Standard Order (TSO).

SUMMARY: The draft TSO–C58a/C57a/C50c prescribes the minimum performance standard that aircraft microhones (except carbon), headsets and speackers, audio selector panels, and amlifiers must meet in order to be identified with the TCO marking "TSO–C58a/C57a/C50c."

DATE: Comments must identify the TSO file number and be received on or before March 1, 1982.

ADDRESS: Send all comments on the draft Technical Standard Order to:

Federal Aviation Administration, Systems Branch, AWS–130, Aircraft Engineering Division, Office of Airworthiness—File No. TSO–C58a/C57a/C50c, 800 Independence Avenue, S.W., Washington, D.C. 20591.

Or deliver comments to:

Room 335, 800 Independence Avenue, S.W., Washington, D.C. 20591.

FOR FURTHER INFORMATION CONTACT: Ms. Bobbie J. Smith, Systems Branch, ASW–130, Aircraft Engineering Division, Office of Airworthiness, Federal Aviation Administration, 800 Independence Avenue, S.W., Washington, D.C. 20591, Telephone (202) 426–8395.

Comments received on the draft Technical Standard Order may be inspected, before and after the closing date for comments, at Room 335, FAA Headquarters Building (FOB–10A), 800 Independence Avenue, S.W., Washington, D.C. 20591, between 8:30 a.m. and 5:00 p.m.

SUPPLEMENTARY INFORMATION:

Comments Invited

Interested persons are invited to comment on the proposed TSO listed in this notice by submitting such written data, views, or arguments as they may desire. Communications should identify the TSO file number and be submitted to the address specified above. All comunications received on or before the closing date for comments specified above will be considered by the Director of Airworthiness before issuing the final TSO.

How to Obtain Copies

A copy of the proposed draft TSO may be obtained by contacting the person under "For Further Information Contact." TSO–C58a/C57a/C50c references Radio Technical Commission for Aeronautics (RTCA) Document No. DO–170 dated February 28, 1975, for the minimum performance standard and either RTCA Document No. DO–160 dated February 28, 1975, or DO–160A dated January 1980 for the environmental conditions and test procedures. RTCA Document Nos. DO–170 and DO–160A may be purchased from the Radio Technical Commission for Aeronautics Secretariat, 1717 H. Street, N.W., Washington, D.C. 20006. A copy of RTCA Document No. DO–160 is available for inspection at any FAA regional office, in the Engineering and Manufacturing Branch Standards Division (or in the Northwest-Mountain Region, the Aircraft Certification Division).

Issued in Washington, D.C., on November 17, 1981.

M. C. Beard,

Director, Office of Airworthiness.

BILLING CODE 4910–13–M

Temporary Airman Certificates; Effective Period

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of extension of the effective period of temporary airman certificates.

SUMMARY: This notice announces the extension of the effective period from 120 to 180 days for temporary airman certificates. These certificates are issued to applicants for certificates and ratings pending FAA review of their applications and supplementary documents, and the issue of the certificate and rating applied for. This extension is necessary because administrative workload has prevented the timely issuance of some permanent certificates. It is intended to relieve applicants of the burden of possibly having to obtain a second temporary certificate.

DATE: This extension is effective immediately.

FOR FURTHER INFORMATION CONTACT: Joseph Brennan, Aeronautical Center Counsel (AAC–7), Federal Aviation Administration, Aeronautical Center, Oklahoma City, Oklahoma 73125. Telephone: (405) 686–2296.

SUPPLEMENTARY INFORMATION: Sections 61.17, 63.13, and 65.13 of the Federal Aviation Regulations state that a temporary airman certificate or rating, effective for a period of not more than 120 days, is issued to a qualified applicant pending a review of his or her application and the issuance of a permanent certificate or rating.

A notice was published in the **Federal Register** of March 26, 1981, at 46 FR 18845, stating that from that date until June 30, 1981, the effective period of temporary airman certificates was extended to 180 days.

At that time it was anticipated that with the acquisition in April 1981 of direct access from terminals in the Airmen Certification Branch to the computers printing the permanent certificates, the present backlog could be reduced and the 120-day deadline met later in the calendar year 1981. However, it now appears that it will take until the end of 1982 to reduce the continuing backlog and again meet the 120-day deadline. In the meantime, to relieve the burden on those receiving temporary airman certificates the FAA is again extending the effective period of these temporary certificates to 180 days. Instructions are being issued to all persons authorized to issue temporary airman certificates, directing them to amend all temporary certificates issued between the date of this notice and December 31, 1982, by a pen and ink change, so that the effective period of the certificate is 180 days.

Issued in Washington, D.C., on November 20, 1981.

Bernard A. Geier,

Chief, General Aviation and Commercial Division, Office of Flight Operations.

[Summary Notice No. PE–81–31]

Petitions for Exemption; Summary of Petitions Received and Dispositions of Petitions Issued

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of petitions for exemption received and of dispositions of prior petitions.

SUMMARY: Pursuant to FAA's rulemaking provisions governing the application, processing, and disposition of petitions for exemption (14 CFR Part 11), this notice contains a summary of certain petitions seeking relief from specified requirements of the Federal Aviation Regulations (14 CFR Chapter I) and of dispositions of certain petitions previously received. The purpose of this notice is to improve the public's awareness of, and participation in, this aspect of FAA's regulatory activities. Neither publication of this notice nor the inclusion or omission of information in the summary is intended to affect the legal status of any petition or its final disposition.

DATE: Comments on petitions received must identify the petition docket number involved and must be received on or before: December 23, 1981.

ADDRESS: Send comments on any petition in triplicate to: Federal Aviation Administration, Office of the Chief Counsel, Attn: Rules Docket (AGC–204). Petition Docket No. , 800 Independence Avenue, SW., Washington, D.C. 20591.

FOR FURTHER INFORMATION: The petition, any comments received and a copy of any final disposition are filed in the assigned regulatory docket and are available for examination in the Rules Docket (AGC–204), Room 916, FAA Headquarters Building (FOB 10A), 800 Independence Avenue, SW., Washington, D.C. 20591: telephone (202) 426–3644.

This notice is published pursuant to paragraphs (c), (e), and (g) of § 11.27 of Part 11 of the Federal Aviation Regulations (14 CFR Part 11).

Issued in Washington, D.C., on November 27, 1981.

John H. Cassady,

Deputy Assistant Chief Counsel Regulations and Enforcement Division.

Petitions for Exemption

Docket No.	Petitioner	Regulations affected	Description of relief sought
22417	Ozark Air Lines	14 CFR § 121.311(f)	Extension of the March 6, 1982, compliance date for each flight attendant to have a seat in the passenger compartment for takeoff and landing with a combined safety belt and shoulder harness for petitioner's DC-9 aircraft.
19910	Canadian Warplane, Heritage Inc.	14 CFR § 91.27(a)(1)	Extension of Exemption No. 2478c which permits certain Canadian-registered aircraft currently operating in Canada on a valid flight permit to attend various airshows in the United States during calendar year 1982.
22418	Air Transport Association of America	14 CFR § 63.39(b)(2)	To allow petitioner's members to conduct flight engineer training and certification in normal procedures in an airplane simulator rather than in flight.
22436	American Airlines	14 CFR §§ 121.351(a) and 121.99	To permit operation of petitioner's turbojet aircraft on routes in the New York Oceanic Control Area between the east coast and Bermuda with one of two installed HF communications sytems inoperative at the time of departure and without maintaining two-way radio communications between each aircraft and the dispatch office along the named route.
22168	Executive Air Fleet Corporation	14 CFR § 135.297(a)	Extension of Exemption No. 3203 which permits petitioner to use as pilots in command persons who have within the past 12 months completed an instrument proficiency check and, in addition, within the past 6 months have either completed an instrument proficiency check or trained to proficiency in an approved simulator.
22435	Northern Air Cargo, Inc.	14 CFR § 121.185(a)	To allow petitioner's DC-6 aircraft to use 100 percent of the effective length of all the runways it serves within Alaska in determining gross landing weight.
22434	Chalk's International Airline, Inc.	14 CFR § 61.151(a)	To permit Mr. James W. Tarr to obtain an airline transport pilot certificate before reaching his 23rd birthday.
22048	Steven S. Fern	14 CFR § 61.65(e)(1)	To permit petitioner to apply for an instrument-helicopter rating even though he does not have the required 50 hours of cross-country flight experience in helicopters.
22444	Transamerica Airlines	14 CFR § 121.311(e)	Extension of the March 6, 1982 compliance date to September 15, 1982, for the shoulder harness requirement for petitioner's Lockheed L-382 aircraft.
22442	Air Exec, Inc	14 CFR §§ 135.85(c) 135.91	To permit petitioner to carry on its helicopters the personnel and equipment of the IT Corp. required to respond to incidents of hazardous materials spills within the State of California.
22441	United Airlines, Inc.	14 CFR §§ 121.433, 121.441 and Appendix F of Part 121.	To permit the line check required for pilots in command to be administered in the sixth calendar month subsequent to an annual combined training and proficiency check session, except that a line check given the month before or the month after the sixth calendar month subsequent to such a combined restructured training session would be considered to have been accomplished in the sixth calendar month subsequent to such session. In addition, in lieu of the proficiency check described in Appendix F petitioner would be permitted to use a check concept designed for a particular crew position, aircraft type, and line operation.
22445	Southwest Airlines	14 CFR § 121.391	To permit petitioner to use only two flight attendants aboard its B-737-200 aircraft configured with 118 or more passenger seats when all seats over 100 are blocked from use and when a third flight attendant is not available or cannot be made available without undue delay or flight cancellation.
22359	Kenn-Air	14 CFR § 135.261	To permit petitioner to operate on a 48-hour on/48-hour off duty cycle while ensuring that the pilot on duty will receive at least 10 consecutive hours of rest.
22440	Florida Dept. of Law	14 CFR §§ 91.65(b), 91.73(a), 91.79(c), 91.85(b), and 91.109(a).	To carry out law enforcement air support without complying with the cited sections.
22437	Trans World Airlines	14 CFR § 25.853(b)	To permit the use of Type A Temperfoam on B-747 and L-1011 captain, first officer, and flight engineer's crew seat bottom cushions.
22328	Flying Tiger Line	14 CFR § 121.578	To extend for 6 months the February 20, 1982, compliance date for installation of cabin ozone catalytic converter.
13416	Sierra Academy of	14 CFR § 63.39(b)(2)	To extend Exemption No. 2095C which permits flight engineer applicants being trained by petitioner to show that they can satisfactorily perform the normal duties and procedures in an airplane simulator rather than in flight.
22409	Interstate Airlines	14 CFR § 91.305	To allow petitioner to temporarily operate B-707 aircraft in the U.S. without the required 50 percent fleet compliance with the noise standards.
22282	Commuter Airline Association of America	14 CFR § 135.261(b)	To permit petitioner's members to assign a flight crewmember and for flight crewmembers to accept flight duty time without having had at least 10 consecutive hours of rest during that 24-hour period preceding the planned completion of the flight assignment. *Note: This petition was previously published. The comment period is reopened and extended until December 15, 1981, at the request of ALPA to allow additional study and response.*

Disposition of Petitions for Exemption

Docket No.	Petitioner	Regulations affected	Description of relief sought—Disposition
22141	Royal American Airways, Inc.	14 CFR § 121.291(a)(1)	To permit petitioner to increase the seating capacity of Viscount 745D aircraft from 43 seats to 47 seats and introduce the aircraft into service without first conducting an emergency evacuation demonstration of the full-passenger-seating capacity. *Denied 11/10/81.*
189125	Virgin Air, Inc	14 CFR § 135.243	To permit petitioner to use pilots in command, who do not hold airline transport pilot certificates, for flights under day VFR on direct routes between St. Thomas and St. Barthelemy and St. Thomas and St. Croix *Granted 11/9/81.*
21678	Los Angeles Dodgers, Inc	14 CFR Portions of Parts 21 and 91	To permit use of an FAA-approved minimum equipment list and configuration deviation list for one B-720B aircraft in Part 91 operations. *Granted 11/9/81.*

V 46 / 232 DEC 3 81 UMI

DISPOSITION OF PETITIONS FOR EXEMPTION—Continued

Docket No	Petitioner	Regulations affected	Description of relief sought—Disposition
22080	Midway Airlines, Inc	14 CFR § 121.311(f)	To permit petitioner to operate their newly acquired or soon to be acquired Douglas DC–9–31 aircraft in Part 121 operations without having installed the required approved shoulder harnesses for all flight attendant seats. *Granted 11/9/81*
22121	Southwest Forest Industries	14 CFR § 91.32(b)(1)(ii)	To permit petitioner to operate the Gates Learjet Model 36A aircraft above flight level 410 without the use of oxygen masks. *Denied 11/12/81.*
22277	Horizon Air	14 CFR § 121.61	To permit petitioner to employ Mr. Roy G. Kogle as its Chief Inspector with 3 years of experience as an engineering aide for a Part 121 air carrier substituted as equivalent experience for the required 1-year experience as a maintenance inspector. *Granted 11/10/81.*
22423	Aerovias Nacionales, De Colombia, S.A	14 CFR §§ 61.77 and 63.23	To permit petitioner's airmen who possess current U.S. special purpose airman certificates with appropriate pilot and flight engineer ratings to serve as flight crewmembers of one-time ferry flights of three U.S.-registered Boeing 727 aircraft not under lease to Avianca from Georgetown, Grand Cayman Island, to Phoenix, Arizona, on or about November 9, 12 and 17, 1981. *Granted 11/10/81*
22414	Nomads, Inc	14 CFR § 121.291(a)(b)	To allow petitioner to introduce its B–727 aircraft into passenger-carrying operations without first conducting a full-seating capacity emergency evacuation and ditching demonstration. *Granted 11/10/81*
21903	Dale Logsdon	14 CFR § 65.91(c)(1)	To permit petitioner to become eligible for an Inspection Authorization without meeting the three year waiting period requirement after acquiring airframe and powerplant ratings. *Denied 11/10/81*
21737	Alan Kappmeier	14 CFR § 141.33(b)	To permit petitioner to be designated to serve as chief flight instructor for more than one pilot school. *Denied 11/10/81.*
22096	United Air Lines, Inc	14 CFR § 121.291(a)(2)	To allow petitioner to increase the seating capacity of its Boeing B–747–100 series aircraft from 424 to 429 passenger seats and in the future to 527 passenger seats without first conducting an emergency evacuation demonstration of the full-passenger-seating capacity. *Granted 11/16/81*
16243	Scenic Airlines, Inc	14 CFR § 135.113	To the extend Exemption 2631A which presently permits passenger seating in the co-pilot seat of petitioner's Cessna 404 airplanes. *Denied 11/16/81*
22040	Ball Brothers, Inc	14 CFR § 91.31(a)	To permit petitioner to operate their McDonnell Douglas DC–6 aircraft at a 5-percent increase in zero fuel and landing weight. *Granted 11/12/81*
21817	Robert Wood	14 CFR § 121.383(c)	To permit petitioner to serve as a pilot on an airplane engaged in air carrier operations after his 60th birthday. *Denied 11/18/81*
22191	American Airlines	14 CFR § 121.434	To permit 50 percent of the operating experience requirement to be accomplished in a simulated flight of at least 2.5 hours duration on a static airplane in lieu of actual aircraft operating experience. *Withdrn 11/13/81*
22408	Cascade Airways, Inc	14 CFR Portions of Parts 61 and 121	To allow petitioner to utilize a British Aerospace instructor, Captain Peter Henley, to conduct flight training for petitioner's pilots at Cascade's installation even though Mr. Henley does not have a U.S. Airline Transport Pilot Certificate. *Withdrn 11/16/81*
22319	Commerical Airlines, Inc	14 CFR § 121.291(a)	To permit petitioner to introduce its DC–9–30 series aircraft into passenger-carrying service in a 120-seating configuration without first conducting a full-seating capacity emergency evacuation demonstration. *Granted 11/17/81.*
21824	Pan American World Airways	14 CFR § 121.318(b)(2)	To permit petitioner to operate its B–727–100 and L–1011–385 airplanes after December 1, 1981 and until March 6, 1982 and April 1, 1983, respectively, without having the required public address system microphone installed for each flight attendant seated near a floor-level exit. *Granted 11/18/81.*
22143	Airwest Offshore, Inc	14 CFR § 43.3(h)	To permit petitioner's pilots to remove, check, and reinstall magnetic chip detector plugs on Allison 250C series engines used on Bell 206 helicopters. *Granted 11/20/81.*
17397	Delta Air Lines, Inc	14 CFR § 121.291 and Appendix D to Part 121	Amendment to Exemption No. 2480 to permit petitioner to increase the passenger-seating capacity of the DC–8–61 airplane to 212 without complying with limitation No. 1 of the exemption. That limitation states a demonstration must be conducted in which line flight attendants open 50 percent of the exits and deploy 50 percent of the slides on the DC–8–61 airplanes in a 244 passenger-seat configuration. *Denied 11/20/81*
22129	Chaparral Airlines	14 CFR § 121.61(a)	To permit Mr. Frank Eddy to serve as Director of Operations without the required 3 years of experience as pilot in command of a large aircraft or as Director of Operations of an operation using large aircraft. *Granted 11/20/81*
21992	Earth Space Transport Systems, Corporation	14 CFR §§ 91.55 and 125	To operate two Concorde aircraft for limited periods, at supersonic speeds, within segments of U.S. airspace. The proposed flight would follow this route: Heathrow, London; JFK, New York; Orlando, Florida, Johnson Space Cener, Houston; Dryden Flight Research Center, California, Everett, Washington; and back to New York and/or Dulles, Washington, D.C. *Denied 11/3/81*
15819	United Airlines	14 CFR § 121.285	Extension of Exemption No. 2343A which permits the carriage of organ transplant modules in any passenger seat, subject to the condition that the modules be carried in accordance with the requirements of § 121.285(c)(1) through (5). *Granted 11/20/81*
21961	Deere and Company	14 CFR § 91.45	To permit petitioner's Pilots to perform ferry flights with one engine inoperative from time to time as the necessity arises without obtaining a ferry permit for each flight. *Denied 11/20/81.*
22146	Transamerica Airlines	14 CFR § 121.318	To permit petitioner to operate DC–8 aircraft after December 1, 1981, without having a public address system at each floor-level exit in a passenger compartment which is readily accessible to a flight attendant seated in a seat adjacent to that exit. *Granted 11/23/81*
22275	Comair, Inc	14 CFR § 61.31	To permit petitioner's pilots to serve as pilots in command of Embraer Banderante EMB–110 aircraft without possessing the appropriate type rating for that aircraft. *Granted 11/25/81*
19504	Lineas Aereas, Costamicenses, S.A	14 CFR Parts 21, 61, 63, and 91	To allow petitioner to continue to operate leased U.S.-registered B–727 aircraft using an FAA-approved master minimum equipment list and continuous airworthiness maintenance program. *Granted 11/24/81*

BILLING CODE 4910–13–M

Federal Highway Administration

Establishment of National Motor Carrier Advisory Committee

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Notice.

SUMMARY: The FHWA announces establishment of a National Motor Carrier Advisory Committee. The Committee will consult with and make recommendations to the Federal Highway Administrator on matters relating to the activities and functions of the FWHA in areas affecting commercial motor vehicles. Meetings of the Committee will be open to the public and announced in the **Federal Register.** Copies of the Committee charter are available on request.

FOR FURTHER INFORMATION CONTACT: Mr. Thomas P. Holian, Attorney-Adviser, Office of the Chief Counsel, Federal Highway Administration, HCC-10, Room 4223, 400 Seventh Street, SW., Washington, D.C. 20590, (202) 426-0761. Office hours are from 7:45 a.m. to 4:15 p.m. ET, Monday through Friday.

Issued on: November 23, 1981.

R. A. Barnhart,

Federal Highway Administrator.

BILLING CODE 4910-22-M

Federal Railroad Administration

[FRA Docket No. AM-80-1]

National Railroad Passenger Corp. v. Grand Trunk Western Railroad Co.; Hearing

ACTION: Notice of hearing.

SUMMARY: This notice is of the Presiding Officer's Order dated November 18, 1981 setting for hearing the National Railroad Passenger Corporation's (Amtrak) application, pursuant to 45 U.S.C. 562(f), for an order requiring Grand Trunk Western Railroad Company to accelerate the speeds at which it operates Amtrak's passenger trains between Battle Creek and Port Huron, Michigan. The Order is attached as the Appendix.

DATE: The hearing will begin at 10:00 a.m. on February 3–5, 1982.

ADDRESS: U.S. Court of Claims, Courtroom 3, Room 309, 717 Madison Place, N.W., Washington, D.C.

FOR FURTHER INFORMATION CONTACT: Mr. Gregory B. McBride, Office of Chief Counsel, Federal Railroad Administration, 400 Seventh Street, S.W., Washington, D.C. 20590 (202/472-5438).

Michael T. Haley,

Deputy Chief Counsel.

November 23, 1981.

Appendix

U.S. Department of Transportation

Federal Railroad Administration

National Railroad Passenger Corporation, Petitioner, v. *Grand Trunk Western Railroad Company,* Respondent.

FRA Docket No. AM-80-1.

Notice of Hearing Order

1. *Nature of hearing.* The purpose of the hearing is to determine whether the petitioner's application of June 17, 1980, pursuant to 45 U.S.C. 562(f), for an order requiring the respondent to operate the petitioner's passenger trains at an accelerated speed of 79 miles per hour on the respondent's Flint subdivision between Battle Creek and Port Huron, Michigan, should be granted. The petitioner represents that its application applies to all segments of the rail line on which the respondent operates freight trains in excess of 40 miles per hour, except:

a. On curved sections of the rail line where the respondent contends that the combination of degree of curvature and elevation of the outer rail indicates slower maximum allowable speeds computed in accordance with Federal Railroad Administration track safety regulations, 49 CFR Part 213, Appendix A;

b. On sections of the rail line where the respondent contends that crossing protection is inadequate for 79 miles per hour operations under the laws of the State of Michigan; and

c. On sections of the rail line on which the respondent has from time to time imposed temporary slow orders to accomplish track maintenance or for other safety-related reasons.

The petitioner also represents that the application does not extend to improvements necessary to render rail line facilities safe and practicable if it is determined that the accelerated speed requested would be unsafe or otherwise impracticable as to any portion of the rail line.

2. *Place and date of hearing.* The hearing will commence at 10:00 a.m., on February 3–5, 1982, at the U.S. Court of Claims, Courtroom 3, Room 309, 717 Madison Place, N.W., Washington, D.C.

3. *Legal authority.* The hearing is to be conducted pursuant to 5 U.S.C. 556 and 557, 45 U.S.C. 562(f), and the Federal Railroad Administration's Formal Rules of Practice for Passenger Service, 46 FR 2613–2618 (1981).

4. *Issues of fact.* The principal issues in controversy are whether an increase in speed to 79 miles per hour will create any unsafe condition or otherwise be impracticable. The following ancillary issues appear to be in issue:

a. Whether the track is a Class 4 level track. See 49 CFR 213.9(a) and (b).

b. Whether crossing protection is inadequate for an accelerated speed of 79 miles per hour under laws of the State of Michigan or for other reasons and, if so, where.

c. Whether an accelerated speed of 79 miles per hour will be safe or materially lessen the quality of freight service provided to shippers because of inadequate facilities for passing and meeting other trains.

d. Whether an appreciable reduction in travel time will result if the petitioner's application is granted.

5. *Final date for intervention and submission of direct testimony.* Any party desiring to intervene in these proceedings should file by December 15, 1981, a notice of intent to participate in the hearing. The final date for submitting direct testimony in written documents is also December 15, 1981. The final date for submitting direct testimony in written documents to rebut testimony previously submitted is January 11, 1982. The original copy of notices to intervene and of direct testimony should be filed with: George O. Taylor, Jr., Administrative Law Judge, Occupational Safety and Health Review Commission, Presidential Building, 6525 Belcrest Road, Suite 1005, Hyattsville, Maryland 20782, Telephone: (301) 436-8870.

6. *Additional copies of documents.* An intervenor shall provide one copy of his notice to intervene and of direct testimony submissions to:

Roderick C. Dennehy, Jr. Esq., Deputy General Counsel, National Railroad Passenger Corporation, 400 North Capitol Street, N.W., Washington, D.C. 20001

John C. Danielson, Esq., Law Department, Grand Trunk Railroad Company, 131 West Lafayette Boulevard, Detroit, Michigan 48226

At the hearing, the parties shall provide the original and four copies of each document and exhibit offered into evidence.

7. *Inspection of record and direct testimony.* The case record and submitted direct testimony will be available for public inspection from 8:30 a.m. to 5:00 p.m. on weekdays, except federal hoildays, at the office specified in paragraph 5, above.

8. *Prehearing conference.* No prehearing conference is contemplated.

9. *Potential witnesses.* a. By virtue of an affidavit contained in the record, the following person appears to be a potential witness for the petitioner: James L. Larson, Assistant Vice President—Contracts, National Railroad Passenger Corporation, 400 North Capitol Street, N.W., Washington, D.C. 20001.

b. By virtue of affidavits contained in the record, the following persons appears to be potential witnesses for the respondent:

William G. Liftin, NRPC Operations Officer, Grand Trunk Western Railroad Company, 131 West Lafayette Boulevard, Detroit, Michigan 48226

Joseph M. Letro, Chief Engineer, Grand Trunk Western Railroad Company, 131 West Lafayette Boulevard, Detroit, Michigan 48226

James L. McNutt, General Superintendent of Transportation, Grand Trunk Western

Railroad Company, 131 West Lafayette Boulevard, Detroit, Michigan 48226

10. *Parties.* At present, the only parties to the proceedings are the respondent, who opposes the petitioner's application, and the petitioner.

11. *Conduct of the hearing.* The hearing shall be conducted in accordance with §§ 201.18 through 201.21, Formal Rules of Practice for Passenger Service, *supra.* Following presentation of evidence by the petitioner in support of its application, evidence will be presented by any intervenors who support the application. Therefore, evidence will be presented by the respondent and ay intervenors who oppose the application. Rebuttal evidence will be received in the same order.

12. *Final agenda.* This order constitues the final agenda for the hearing unless direct testimony submitted pursuant to this order raised other issues. In that event, appropriate notice of the additional issues shall be provided. Any person who submits direct testimony in written documents shall be considered as a potential witness, and the petitioner, the respondent, and any intervenors shall be provided appropriate notice of the submission of such testimony.

13. *Discovery.* The discovery provisions in the Federal Rules of Civil Procedure shall be used as a guide on discovery matters, except that the presiding officer will impose time restraints more stringent than those prescribed in the Federal Rules of Civil Procedure.

Dated: November 18, 1981, Hyattsville, Maryland.

George O. Taylor, Jr.,

Presiding Officer.

[FR Doc. 81-34563 Filed 12-2-81; 8:45 am]

BILLING CODE 4910-06-M

Urban Mass Transportation Administration

Seattle, Washington; Intent To Prepare Environmental Impact Statement

Pursuant to the National Environmental Policy Act (83 Stat. 852), the Council on Environmental Quality's implementing regulations (40 CFR Parts 1500–1508), and UMTA/FHWA Regulations (49 CFR Part 622), the Urban Mass Transportation Administration (UMTA) gives notice that an environmental impact statement is being prepared for alternative transit circulation options for downtown Seattle, Washington.

The Municipality of Metropolitan Seattle (Metro) and the City of Seattle are investigating alternatives that would provide transit operating capacity commensurate with the level of demand projected for 1990. Metro's 1990 Comprehensive Plan for Public Transportation calls for an alternative that would meet the capacity needs, as well as the environmental and urban design goals of downtown Seattle. To achieve these goals, four alternatives are being considered. These include: A Do Nothing (or Null) Alternative; a Transportation Systems Management (TSM) Alternative; a Transit Mall Alternative; and a Transit Mall with Intercept Terminals Alternative. Diesel and electric trolley buses would be the vehicles used.

Scoping meetings for the proposed project are scheduled for Monday, December 14, 1981 at 3:00 p.m. in the Federal Office Building, room 2866, 915 2nd Avenue, Seattle, Washington 98174 and at 7:00 p.m. in the third floor conference room of the Seattle First Bank Building, 1001 Fourth Avenue, Seattle, Washington. The Urban Mass Transportation Administration invites the participation of agencies and individuals with expertise or interest to comment on the scope of the environmental impact statement that will be prepared for this project.

Comments and questions regarding the proposed action and environmental impact statement should be referred to Sue C. Kaminsky, Office of Program Analysis, Urban Mass Transportation Administration, Washington, D.C. 20590, telephone (202) 472–7100.

Dated: November 17, 1981.

Franz K. Gimmler,

Associate Administrator for Transit Assistance.

BILLING CODE 4830-02-M

DEPARTMENT OF LABOR

Pension and Welfare Benefit Programs

[Applications D-1937, D-2004]

Proposed Class Exemption for Transactions Involving Certain Residential Mortgage Financing Arrangements

AGENCY: Department of Labor.

ACTION: Notice of proposed class exemption.

SUMMARY: This document contains a notice of pendency before the Department of Labor (the Department) of a proposed class exemption from certain prohibited transaction restrictions of the Employee Retirement Income Security Act of 1974 (ERISA) and from certain taxes imposed by the Internal Revenue Code of 1954 (the Code). The proposed class exemption would exempt transactions related to the issuance by an employee benefit plan of a commitment to provide mortgage financing to purchasers of certain residential construction and to the provision of loans pursuant to such commitments. The proposed exemption, if granted, would affect participants and beneficiaries of employee benefit plans involved in such transactions, certain employers who contribute to such plans, and other persons engaging in the described transactions.

DATES: Written comments must be received by the Department of Labor on or before January 4, 1982.

EFFECTIVE DATE: It is proposed to make the exemption effective as of January 1, 1975.

ADDRESSES: All written comments (preferably at least three copies) should be sent to: Office of Fiduciary Standards, Pension and Welfare Benefit Programs, Room C-4526, U.S. Department of Labor, 200 Constitution Avenue, NW., Washington, D.C. 20216, Attention: Applications D-1937, and D-2004. The applications for exemptions and the comments received will be available for public inspection in the Public Documents Room of Pension and Welfare Benefit Programs, U.S. Department of Labor, Room N-4677, 200 Constitution Avenue, NW., Washington, D.C.

FOR FURTHER INFORMATION CONTACT: Jay S. Neuman, Esq., Plan Benefits Security Division, Office of the Solicitor,

U.S. Department of Labor, (202) 523–8658. (This is not a toll-free number.)

SUPPLEMENTARY INFORMATION: Notice is hereby given of the pendency before the Department of a proposed class exemption from the restrictions of section 406(a) of ERISA and from certain taxes imposed by section 4975 (a) and (b) of the Code by reason of section 4975(c)(1) of the Code. Exemptive relief for transactions described herein was requested in applications filed by the National Coordinating Committee for Multiemployer Plans (NCCMP) (D–1937), and by the National Association of Home Builders (NAHB) (D–2004) (collectively referred to herein as the applicants) pursuant to section 408(a) of ERISA and section 4975(c)(2) of the Code, and in accordance with the procedures set forth in ERISA Procedure 75–1 (40 FR 18471, April 28, 1975).

It should be noted that the applicants have requested retroactive and prospective relief for transactions which are described below. Since it appears that transactions of the general types described are customary for the residential mortgage financing industry, the Department proposes, in accordance with the applicants' requests, that the exemption be granted retroactively as well as prospectively.

A. Summary of the Applications

The facts and representations contained in these applications are summarized below. Interested persons are referred to the applications on file with the Department for the complete representations of the applicants.

1. *Background.* Residential building projects generally proceed with two types of financing: short-term loans to the project developer to pay for the cost of construction; and long-term (mortgage) loans to the purchasers of the residential units, the proceeds of which are used as partial payment to the developer for those units. The developer pays off the construction loan with the proceeds from the sales of the units.

Before a lender will make a construction loan, it must generally be satisfied that mortgage financing for purchasers of the units will be available when the units are ready for sale. Generally, such a lender, if it does not intend to provide the mortgage financing itself, will require a commitment from another lender obligating the second lender to make such mortgage financing available. Once a satisfactory commitment has been obtained, the construction loan will be made.

Often a developer seeking a short-term construction loan will contact a company that specializes in providing or obtaining commitments for mortgage financing, such as a state or federally chartered bank or savings and loan association, an insurance company, or similar entity (financial institution).

The financial institution first typically makes a determination as to the feasibility of the proposed project. If that determination is favorable, it may agree to provide or attempt to obtain a commitment for long-term financing. It charges the developer a fee for this service, usually a percentage of the total long-term financing obtained. The financial institution usually looks to institutional investors, including employee benefit plans, for such commitments.

A commitment to provide mortgage financing may take several forms. One typical arrangement obligates the lender to make loans up to a specific aggregate amount directly to purchasers of particular new dwelling units who qualify under guidelines set forth in the commitment.

Another common arrangement obligates the lender to purchase loans up to a specific aggregate amount that are originally made by the financial institution to the purchasers of the units, provided that the mortgages meet requirements set forth in the commitment. In this case, the financial institution itself will make a mortgage financing commitment to the short-term lender, and will rely on the commitment of the lender to purchase the resulting mortgages from it.

A typical commitment might contain requirements concerning, among other things, the type and quality of the underlying real estate security, the credit worthiness of the prospective borrowers, and the terms of the individual loans.

When a commitment is issued by a lender, a loan fee is normally paid to it by the financial institution. Part of the fee may be refundable if loans are made or mortgages are tendered and purchased pursuant to the commitment. It is the Department's understanding that this type of fee is designed to cover the lender's administrative and other expenses in connection with considering and issuing the commitment, and to compensate the lender in part for its having arranged to have funds available to meet its obligations under the commitment.

2. *Request for relief.* The applicants have requested relief which would enable employee benefit plans to issue written commitments to provide mortgage financing to purchasers of certain residential construction and, after the units are completed, to honor the commitments by making mortgage loans to purchasers of the units (or by buying mortgage loans on such units which have been originated by another financial institution) under the following circumstances.

Financing would be provided only for owner-occupied, single family dwelling units. These may consist of detached houses, town houses, condominiums or units in a multi-unit subdivision restricted by recorded documents which limit the use of the property to residential purposes and provide for maintenance of common facilities (planned unit development). A developer or builder of the units might be an employer of employees who are covered by the plan making the commitment, but in such a case the commitment and financing could only be made if the developer or builder (or any affiliate thereof) does not act as a plan fiduciary with respect to the issuance of the commitment or the provision of the financing. Similarly, the applicant have proposed that no financial institution or construction lender associated with the financial arrangement or origination of mortgages to be purchased pursuant to the exemption (or any affiliate thereof) would be a plan fiduciary with respect to the issuance of the commitment or the provision of the financing by the plan.

Commitments issued by a plan would be in writing, and the loans made by a plan would be evidenced by a written note secured by a first lien on the new dwelling unit. The terms of the commitments, and of the loans, would be at least as favorable to the plan as similar commitments and loans involving unrelated parties, and would be consistent with customary practices in the residential mortgage industry. The commitments would set forth specific requirements for the loans regarding such matters as borrower qualification, fair market value appraisals of the units to be used as collateral, loan-to-value ratios, and insurance requirements. The loans would be made through an established financial institution which would select the receipient of the loan on behalf of the plan and make the loan on terms which are consistent with customary practices in the residential mortgage industry. A person may be retained to service the loans for the plan, which would include such duties as collecting and remitting payments to the plan, assuring payment of taxes and insurance premiums, and making decisions regarding foreclosures.

The applicants propose that loans be available to persons who are parties in interest with respect to the plan under section 3(14) of ERISA, but only if they are parties in interest solely by reason

V 46 / 232 2 DEC 3 8 1 UMI

of being an employee of: an employer any of whose employees are covered by the plan; a person providing services to the plan; an employee organization any of whose members are covered by the plan; or any affiliate of the above. The exemption would not be available for loans from a plan to a person who would be a disqualified person with respect to the plan under section 4975(e)(2) of the Code.[1]

Finally, applicants propose that the plan would maintain, for the duration of any loan made under the exemption, records necessary to enable interested persons to determine whether the conditions of the exemption have been met.

Applicants represent that investments of this type are expected to provide a consistent high rate of return as well as the security and stability of income which is desirable for effective plan administration. They also represent that the requested exemption would help plans to achieve a better diversification of plan investments. Additionally, applicants believe that significant protections are inherent in mortgage lending because the lender can look to the credit worthiness of each individual borrower, backed by the security of the property as collateral. In this regard, they represent, and have submitted data to substantiate, that losses on loans of the type involved in this request have historically been minimal, and suggest that loans made pursuant to the requested exemption would be at least as secure due to the requirement that these loans and commitments be made only in the circumstances described above.

3. *Prohibited Transactions.* Applicants indicate that the above described transactions might violate the prohibited transactions provisions of ERISA and the Code[2] as a result of the following relationships. The financial institution to which the plan makes a commitment in exchange for a fee, or which sells loans to a plan, or selects loan recipients or services loans on behalf of the plan, may have a pre-existing relationship with the plan so as to make it a party in interest with respect to the plan as defined in section 3(14) (A) or (B) of ERISA. A developer of a project or a builder involved in the construction of the dwelling units who employs persons covered by the plan would be a party in interest under section (3)(14)(C) and, perhaps, section 3(14)(A). A mortgage loan might be made to a person who is a party in interest under section 3(14)(H) solely by reason of being an employee of an employer, a service provider, or an employee organization that is related to the plan.

Based on the above relationships, applicants represent that the following prohibited transactions might occur.

The receipt of a fee in exchange for a loan commitment between a plan and a financial institution which, for example, already services mortgages for the plan, might violate section 406(a)(1)(A) (which prohibits the sale or exchange or leasing of property between a plan and a party in interest) or section 406(a)(1)(D) (which prohibits a transfer to, or use by or for the benefit of, a party in interest of any assets of the plan). A commitment by a plan to make loans or purchase mortgages (or the making of such loans or purchasing of such mortgages), the proceeds of which will be used to purchase units developed or built, in whole or in part, by an employer who contributes to the plan, might give rise to a violation of section 406(a)(1)(B) (which prohibits a lending of money or other extension of credit between a plan and a party in interest) or section 406(a)(1)(D). If such a contributing employer is a fiduciary with respect to the plan, applicants suggest that the mere involvement of the builder might, in itself, constitute a violation of section 406(b)(1) (which prohibits a fiduciary from dealing with the assets of the plan in his own interest or for his own account), or section 406(b)(2) (which prohibits a plan fiduciary from acting in any transaction involving the plan on behalf of a party (or representing a party) whose interests are adverse to the interests of the plan or its participants and beneficiaries), or section 406(b)(3) (which prohibits a plan fiduciary from receiving any consideration for his own personal account from any party dealing with the plan in connection with a transaction involving plan assets).

The purchase of a mortgage by a plan from a financial institution providing services to the plan, or a direct loan by a plan, the proceeds of which are used to purchase a dwelling unit where the purchase results in the repayment of a construction loan made by such financial institution, might give rise to a violation of section 406(a)(1) (A) and (D).

A direct or indirect (through the purchase of a mortgage) loan by a plan to a purchaser of a dwelling unit who is an employee of a contributing employer, service provider, or related union might give rise to a violation of section 406(a)(1) (B) and (D).

Applicants also express concern that the provision of additional loan administration services by a financial institution already providing services to the plan might violate section 406(a)(1)(C) (which prohibits a furnishing of goods, services or facilities between the plan and a party in interest) or 406(a)(1)(D).

B. Description of the Proposed Exemption

On the basis of the applications for class relief filed by the NAHB and the NCCMP, and in view of the individual exemption requests for similar relief already received and acted upon by the Department,[3] and the expectation that similar individual requests would continue to be filed, the Department has determined to propose for public comment a class exemption along the lines suggested by the applicants, as described above. However, as explained below, the class exemption proposed herein does not provide all the relief requested by the applicants, and includes a number of conditions, in addition to those suggested by the applicants, which the Department believes would be necessary in order to make the findings required by section 408(a).

1. Applicants request that the Department grant relief from the prohibitions against fiduciary self-dealing and conflict of interest contained in section 406(b) for acts in connection with the above described transactions. The applications, however, were not specific enough to afford a sufficient basis for proposing such relief. Moreover, the Department is concerned that provision of such relief would not be in the interests of plans, and their participants and beneficiaries, or protective of the rights of participants and beneficiaries, because it appears that the decision to commit a plan to making or purchasing mortgages for a given project could be subject to certain abuses of the types which section 406(b) is designed specifically to guard against. The Department is proposing to require that such commitments be made on behalf of the plan by a financial institution which is not subject to the

[1] Under section 3(14) of ERISA, all employees of certain parties in interest with respect to a plan (for example, contributing employers, or unions covering plan members) are themselves parties in interest with respect to the plan. Under section 4975(e)(2) of the Code, relatively few of such employees would be disqualified persons. Accordingly, the exemption would include loans to "rank and file" employees, but would not cover loans to, for example, corporate directors or union officers.

[2] References herein to sections of ERISA also include the corresponding sections of the Code.

[3] *See*, for example, Prohibited Transaction Exemption (PTE) 80–76, 45 FR 69065, October 17, 1980; PTE 80–37, 45 FR 41089, June 17, 1980; and PTE 79–34, 44 FR 40950, July 13, 1979.

controlling influence of certain interested persons. The Department believes that this requirement should make unnecessary the granting of relief from section 406(b) by sufficiently insulating plan fiduciaries who might have an interest in the transaction from the decision making process. In addition, this requirement will help assure that conditions suggested by the applicants (for example, that such commitments must be no less favorable to the plan than commitments involving unrelated persons) would be met. This position is consistent with the position the Department has taken on matters involving very similar transactions.[4]

2. The NAHB application requested special relief to permit a non-profit corporation, which would be established by a regional, state or local home building association affiliated with NAHB, to amalgamate small loan commitments from employee benefit plans for presentation to financial institutions. According to the NAHB, such corporation would not actually place loans or handle loan servicing, but would arrange loan commitments working through plans and financial institutions. After amalgamating small commitments from plans, the corporation would take them to a financial institution for actual placement of the loan. As in the case of loans placed directly through a financial institution, certain general criteria might be established by the non-profit organization or the plans concerning the types of loans that would be acceptable. It is anticipated that the corporation may receive a fee for its loan placement activities, which the NAHB estimated "might be approximately ⅛ of one point."

In this regard, it does not appear to the Department that the NAHB has demonstrated that the inclusion of relief of this nature in the class exemption would be necessary in order to achieve the purposes for which the exemption was requested. Addtitionally, it appears that, to the extent an exemption would be required, plans wishing to avail themselves of this type of service might be able to do so under section 408(b)(2) of ERISA and 29 CFR 2550.408b–2 which, if certain conditions are met, exempt provision of services to plans from the prohibitions of section 406(a). For this reason, the Department is also not proposing relief under the class exemption for other transactions which involve solely the provision of services to a plan.

3. In addition to the above-described conditions suggested by the applicants, the Department believes that the following safeguards would be appropriate.

Under the proposed exemption, the financial institution which approves loans on behalf of the plan must be one which commonly makes mortgage loans on similar terms and conditions from its own funds. This condition will help assure that such institution has the expertise required, for example, to make competent selections of borrowers, and that the representations (that these transactions will be consistent with customary lending practices and at least as favorable to the plan as transactions involving unrelated parties) will be met. The Department has added a condition which will help assure that, in those instances where the plan will service the loans made pursuant to the exemption, such servicing will be carried on in a commercially reasonable manner, pursuant to appropriate procedures. Finally, as discussed above, the Department has conditioned relief on the making of the commitment by an independent financial institution.

Notice to Interested Persons

Because all plan participants and beneficiaries whose plans might invest in mortgages could conceivably be considered interested persons, the Department has determined that the only practical form of notice is publication in the **Federal Register**.

General Information

The attention of interested persons is directed to the following:

(1) The fact that a transaction is the subject of an exemption under section 408(a) of ERISA and section 4975(c)(2) of the Code does not relieve a fiduciary or other party in interest or disqualified person from certain other provisions of ERISA and the Code, including any prohibited transaction provisions to which the exemption does not apply and the general fiduciary responsibility provisions of section 404 of ERISA which require, among other things, that a fiduciary discharge his duties respecting the plan solely in the interests of the participants and beneficiaries of the plan and in a prudent fashion in accordance with section 404(a)(1)(B) of ERISA; nor does it affect the requirement of section 401(a) of the Code that the plan must operate for the exclusive benefit of the employees of the employer maintaining the plan and their beneficiaries;

(2) Before an exemption may be granted under section 408(a) of ERISA and section 4975(c)(2) of the Code, the Department must find that the exemption is administratively feasible, in the interests of the plan and of its participants and beneficiaries, and protective of the rights of participants and beneficiaries of the plan; and

(3) The proposed exemption, if granted, will be supplemental to, and not in derogation of, any other provisions of ERISA and the Code, including statutory or administrative exemptions and transitional rules. Furthermore, the fact that a transaction is subject to an administrative or statutory exemption is not dispositive of whether the transaction is in fact a prohibited transaction.

(4) The proposed exemption, if granted, will not extend to transactions prohibited under section 406(b) of ERISA and section 4975(c)(1)(E) and (F) of the Code.

Written Comments

All interested persons are invited to submit written comments on the proposed exemption to the address and within the time period set forth above. All comments will be made a part of the record. Comments should state the reasons for the writer's interest in the proposed exemption. Comments received will be available for public inspection with the applications for exemption at the address set forth above.

Proposed Exemption

On the basis of the facts and representations set forth in the applications, the Department is considering granting the following class exemption under the authority of section 408(a) of ERISA and section 4975(c)(2) of the Code, and in accordance with the procedures set forth in ERISA Procedure 75–1:

---

[4] *See*, PTE 76–1, Part B, 41 FR 12740, 12742, March 26, 1976; and the matters cited in footnote 3 above.

In this regard, the Department has given serious consideration to an alternative method of providing adequate safeguards. This would involve setting forth in the exemption very detailed standards (such as a variety of percentage limitations, specific requirements as to the content of commitments, etc.) which would help to decrease the possibility that the interests and rights of plan participants and beneficiaries would suffer as a result of issuing a commitment to a party in interest. The Department has used this type of approach in the area of individual exemptions, where it is possible to tailor the conditions and scope of relief to fit a particular situation. In the context of a request for relief for a large and varied class of persons, however, such an approach would deprive parties of desirable flexibility in establishing and maintaining a program which best suits them and which could be adapted to developments in the mortgage financing industry. Accordingly, it is the Department's view that this would not be a desirable approach. However, the Department continues to be willing to explore viable alternatives to an "independent fiduciary" requirements, and specifically requests public comment on this aspect of the proposed exemption.

V 46 / 232 DEC 3 81 UMI

I. Transactions

Effective January 1, 1975, the restrictions of section 406(a) of the Employee Retirement Income Security Act of 1974 (ERISA) and the taxes imposed by section 4975(a) and (b) of the Internal Revenue Code of 1954 (Code) by reason of section 4975(c)(1)(A) through (D) of the Code shall not apply to the following transactions if the conditions set forth in part II below are met:

A. The issuance of a commitment by an employee benefit plan to provide mortgage financing to purchasers of new single-family residential dwelling units, either by making loans directly to purchasers or by purchasing mortgages originated by a third party;

B. The receipt by the plan of a fee in exchange for issuing such commitment; and

C. The actual making or purchase of a mortgage loan by the plan pursuant to such commitment.

II. Conditions

The following conditions apply to the transactions described in part I above:

A. The commitment must be in writing and must be at least as favorable to the plan as a commitment involving unrelated parties and consistent with customary practices in the residential financing industry;

B. The commitment must set forth customary guidelines concerning the loans that will be made pursuant to the commitment, including (but not limited to) appropriate requirements concerning the income levels and credit worthiness of borrowers, fair market value appraisals of the collateral, loan to value ratios, and title, hazard and private mortgage insurance;

C. The decision to issue the commitment must be made on behalf of the plan by an established financial institution, as to which neither the plan, an employer or group of employers contributing to the plan, nor an employee organization any of whose members are covered by the plan, has the power to exercise a controlling influence over the management or policies of such established financial institution;

D. The financing must be provided through an established financial institution which selects the recipient and makes (or, on behalf of the plan, purchases) the loan based on criteria that are consistent with customary practices in the residential mortgage industry, and which commonly makes mortgage loans on similar terms and conditions from its own funds;

E. The loan must be evidenced by a written note, the terms of which are (1) at least as favorable to the plan as the terms of a loan involving unrelated parties and (2) consistent with customary practices in the residential mortgage industry; and must be secured by a duly recorded first lien on the unit;

F. No person who is a developer or a builder involved in the development or construction of the units, or a lender who is associated with the construction financing arrangement for the units, or who is the originator of a mortgage which may be purchased by the plan pursuant to the commitment (or any affiliate of such person) shall have exercised any discretionary authority or control or rendered any investment advice that would make that person a fiduciary with respect to the decision to issue a commitment, setting the terms thereof, or the decision to make (or purchase) any loan pursuant thereto;

G. No loan may be made to a disqualified person as defined in section 4975(e)(2) of the Code, and, if the loan is made to a party in interest (as defined in section 3(14) of ERISA), that person is a party in interest solely by reason of being an employee of a person described in section 3(14)(B), (C), (D), (E) or (G) of ERISA;

H. If the loans are to be serviced by the plan, the plan shall have adopted in writing reasonable procedures, consistent with customary practices in the residential mortgage industry, designed to ensure that the loans will be serviced in a diligent and systematic manner (servicing a loan includes such duties as, for example, collecting mortgage payments, assuring that taxes and insurance premiums for the units are paid, and making all decisions relating to, and handling, foreclosures); and

I. (1) The plan shall maintain for the duration of any loan made pursuant to this exemption records necessary to enable the persons described in paragraph (2) of this section to determine whether the conditions of this exemption have been met, except that (a) a prohibited transaction will not be deemed to have occurred, if, due to circumstances beyond the control of the fiduciaries of the plan, records are lost or destroyed prior to the termination of the loan and, (b) no party in interest shall be subject to the civil penalty which may be assessed under section 502(i) of ERISA, or to the taxes imposed by section 4975 (a) and (b) of the Code, if the records are not maintained or are not available for examination as required by paragraph (2) below.

(2) Notwithstanding any provisions of subsections (a)(2) and (b) of section 504 of ERISA, the records referred to in paragraph (1) of this section must be unconditionally available at their customary location for examination during normal business hours by: any trustee, investment manager, participant or beneficiary of the plan, or any duly authorized employee or representative of such person or of the Department of Labor or the Internal Revenue Service.

III. Definitions

For purposes of this exemption—

A. An "affiliate" of a person means a person defined in 29 CFR § 2510.3–21(e).

B. An "established financial institution" means an investment manager described in section 3(38) of ERISA with respect to the plan, or a savings and loan association subject to regulation by the Federal Home Loan Bank Board, which, in the normal course of its business, engages in transactions of the types described in part I of this exemption.

C. A "residential dwelling unit" or "unit" means an owner-occupied, detached house, townhouse, condominium, or unit in a multi-unit subdivision (planned unit development) restricted by recorded documents which limit the use of the property to residential purposes and provide for maintenance of common facilities.

Signed at Washington, D.C., this 2d day of December, 1981.

Ian D. Lanoff,

Administrator, Pension and Welfare Benefit Programs, Labor-Management Services Administration, U.S. Department of Labor.

FEDERAL DEPOSIT INSURANCE CORPORATION

Agency Meeting

Pursuant to the provisions of the "Government in the Sunshine Act" (5 U.S.C. 552b), notice is hereby given that the Federal Deposit Insurance Corporation's Board of Directors will meet in open session at 2:00 p.m. on Monday, December 7, 1981, to consider the following matters:

Summary Agenda: No substantive discussion of the following items is anticipated. These matters will be resolved with a single vote unless a member of the Board of Directors requests that an item be moved to the discussion agenda.

Disposition of minutes of previous meetings.

Recommendations regarding the liquidation of a bank's assets acquired by the Corporation in its capacity as receiver, liquidator, or liquidating agent of those assets:

Case No. 44,977-L—The Hamilton Bank & Trust Company, Atlanta, Georgia
Memorandum and Resolution re: Watkins Banking Company, Faunsdale, Alabama
Memorandum and Resolution re: City Bank of Philadelphia, Philadelphia, Pennsylvania

Recommendations with respect to payment for legal services rendered and expenses incurred in connection with receivership and liquidation activities:

Morrison, Hecker, Curtis, Kuder & Parrish, Kansas City, Missouri, in connection with the liquidation of The Mission State Bank and Trust Company, Mission, Kansas.

Memorandum and Resolution re: Proposed amendments to Part 309 of the Corporation's rules and regulations, entitled "Disclosure of Information," which would permit banks to disclose their examination reports to majority shareholders under certain conditions.

Memorandum and Resolution re: Amendments to Part 329 of the Corporation's rules and regulations, entitled "Interest on Deposits," which would include stock savings banks within the definition of "mutual savings banks."

Reports of committees and officers:

Minutes of the actions approved by the Committee on Liquidations, Loans and Purchases of Assets pursuant to authority delegated by the Board of Directors.
Reports of the Director of the Division of Bank Supervision with respect to applications or requests approved by him and the various Regional Directors pursuant to authority delegated by the Board of Directors.
Report of the Director, Office of Corporate Audits:
Audit Report re: Liquidation Audits, dated September 3, 1981.

Discussion Agenda:

No matters scheduled.

The meeting will be held in the Board Room on the sixth floor of the FDIC Building located at 550 17th Street, N.W., Washington, D.C.

Requests for information concerning the meeting may be directed to Mr. Hoyle L. Robinson, Executive Secretary of the Corporation, at (202) 389-4425.

Dated: November 30, 1981.

Federal Deposit Insurance Corporation.

Hoyle L. Robinson,

Executive Secretary.

2

FEDERAL DEPOSIT INSURANCE CORPORATION

Agency Meeting

Pursuant to the provisions of the "Government in the Sunshine Act" (5 U.S.C. 552b), notice is hereby given that at 2:30 p.m. on Monday, December 7, 1981, the Federal Deposit Insurance Corporation's Board of Directors will meet in closed session, by vote of the Board of Directors pursuant to sections 552b(c)(2), (c)(6), (c)(8), and (c)(9)(A)(ii) of Title 5, United States Code, to consider the following matters:

Summary Agenda: No substantive discussion of the following items is anticipated. These matters will be resolved with a single vote unless a member of the Board of Directors requests that an item be moved to the discussion agenda.

Requests for relief from adjustment for violations of Regulation Z:

Names and locations of banks authorized to be exempt from disclosure pursuant to the provisions of subsections (c)(8) and (c)(9)(A)(ii) of the "Government in the Sunshine Act" (5 U.S.C. 552b(c)(8) and (c)(9)(A)(ii)).

Note: Some matters falling within this category may be placed on the discussion agenda without further public notice if it becomes likely that substantive discussion of those matters will occur at the meeting.

Recommendations with respect to the initiation, termination, or conduct of administrative enforcement proceedings (cease-and-desist proceedings, termination-of-insurance proceedings, suspension or removal proceedings, or assessment of civil money penalties) against certain insured banks or officers, directors, employees, agents, or other persons participating in the conduct of the affairs thereof:

Names of persons and names and locations of banks authorized to be exempt from disclosure pursuant to the provisions of subsections (c)(6), (c)(8), and (c)(9)(A)(ii) of the "Government in the Sunshine Act" (5 U.S.C. 552b(c)(6), (c)(8), and (c)(9)(A)(ii)).

Note: Some matters falling within this category may be placed on the discussion agenda without further public notice if it becomes likely that substantive discussion of those matters will occur at the meeting.

Discussion Agenda:

Request for relief from a previously imposed condition of an order issued pursuant to Section 18(c) of the Federal Deposit Insurance Act:

Peoples Westchester Savings Bank, Tarrytown, New York, in connection with its application to merge with Peekskill Savings Bank, Peekskill, New York and the Greenburgh Savings Bank, Dobbs Ferry, New York.

Recommendation regarding the liquidation of a bank's assets acquired by the Corporation in its capacity as receiver, liquidator, or liquidating agent of those assets:

Case No. 45,005-L—American Bank & Trust, Orangeburg, South Carolina

V 46 / 232 / DE 3 81 1 UMI

Personnel actions regarding appointments, promotions, administrative pay increases, reassignments, retirements, separations, removals, etc.:

Names of employees authorized to be exempt from disclosure pursuant to the provisions of subsections (c)(2) and (c)(6) of the "Government in the Sunshine Act" (5 U.S.C. 552b(c)(2) and (c)(6)).

The meeting will be held in the Board Room on the sixth floor of the FDIC Building located at 550 17th Street, N.W., Washington, D.C.

Requests for information concerning the meeting may be directed to Mr. Hoyle L. Robinson, Executive Secretary of the Corporation, at (202) 389–4425.

Dated: November 30, 1981.

Federal Deposit Insurance Corporation.

Hoyle L. Robinson,

Executive Secretary.

SYNTHETIC FUELS CORPORATION

Meeting of the Board of Directors

ACTION: Notice of meeting.

SUMMARY: Interested members of the public are invited to attend and observe a meeting of the Board of Directors of the United States Synthetic Fuels Corporation to be held at the time, date and place specified below. This public announcement is made pursuant to the open meeting requirements of section 116(f)(1) of the Energy Security Act (9 Stat. 611, 637; 42 U.S.C. 8701, 8712(f)(1)) and section 4 of the Corporation's Statement of Policy on Public Access to Board Meetings. During the meeting, the Board of Directors may consider a resolution to close a portion of the meeting pursuant to Article II section 4 of the Corporation's By-laws, section 116(f) of the said Act and sections 4 and 5 of the said policy.

MEETING OPEN TO THE PUBLIC: 8:30 a.m.

1. Approval of minutes of prior meeting.
2. Meeting with Advisory Committee to the Board of Directors.
3. Consideration of Supplement to Initial Solicitation for Proposals and Second Solicitation for Synthetic Fuel Projects.
4. Tranfer of Department of Energy Projects.
5. Audit Committee Functions.
6. Report of independent auditor.
7. Annual Report of the Inspector General.
8. Resource, Maturity Criteria, and Project Briefings.

In addition, the Board of Directors will consider such other matters as may be properly brought before the meeting.

TIME AND DATE: 8:30 a.m., December 11, 1981.

PLACE: Hotel Utah, Salt Lake City, Utah.

PERSON TO CONTACT FOR MORE INFORMATION: If you have any questions regarding this meeting, please contact Mr. Owen J. Malone, Office of General Counsel (202) 653–4230.

December 1, 1981.

Edward E. Noble,

Chairman of the Board.

Part II

Department of Commerce

National Oceanic and Atmospheric Administration

Fishermen's Protective Act; Final Rule

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 258

Fishermen's Protective Act

AGENCY: National Oceanic and Atmospheric Administration, Commerce.

ACTION: Final rule.

SUMMARY: This final rulemaking implements amendments to section 10 of the Fishermen's Protective Act effected by the American Fisheries Promotion Act (Pub. L. 96–561, enacted December 22, 1980). The amendments (1) eliminate compensation for fishing gear casualties attributable to an "act of God"; (2) provide a rebuttable presumption that fishing gear casualties are attributable to other vessels; and (3) provide compensation for up to 25 percent of the gross income lost because of not being able to fish or having to fish at a reduced level of effort as a result of a fishing gear or vessel casualty. These statutory amendments became effective on the date of enactment of the American Fisheries Promotion Act.

Because of the additional time and administrative cost required to process claims for economic loss, the following fee changes have been made. The filing fee has been changed from 1 percent of the lower of two estimates for the repair or replacement cost to a flat fee of $75 per claim, regardless of the amount claimed. The 4 percent approval fee, currently deducted only from compensation for property loss, shall now be deducted from the total amount compensable for both economic loss and property loss. In addition, the limit on the combined total of the filing fee and the approval fee is raised from $1,000 to $2,000.

Two other minor changes are made. The 90-day filing requirement may be satisfied by the submission of an incomplete application; and the previously nonrefundable filing fee shall be refunded when the claim is withdrawn because the applicant has received or will receive compensation from another source.

Because of the number of changes required by the statutory amendments, this final rulemaking is in the form of a complete set of regulations, as amended.

EFFECTIVE DATE: December 3, 1981, except for amendments to the filing and approval fees which will be effective January 4, 1982.

FOR FURTHER INFORMATION CONTACT: Michael L. Grable, Chief, Financial Services Division, National Marine Fisheries Service, 3300 Whitehaven St., NW., Washington, D.C. 20235, Telephone (202) 634–1900.

SUPPLEMENTARY INFORMATION: Final rules implementing section 10 of the Fishermen's Protective Act of 1967, as amended by Pub. L. 95–376, were published on October 25, 1979 (44 FR 61546). These were amended on March 17, 1980, September 15, 1980, and November 3, 1980.

On August 7, 1981 (46 FR 40228), NOAA published proposed rulemaking and invited comments for 45 days (ending September 21, 1981). The following summarizes the comments received and the Agency's responses.

Section 258.34(c)(1)

Rebuttal of presumption. The proposed rulemaking provides that weather and sea conditions greater than one standard deviation from the historical mean for the time and place of an unobserved casualty shall constitute sufficient evidence to rebut the presumption that the casualty was caused by another vessel.

Comment: Under certain conditions, properly deployed gear will withstand weather and sea conditions much greater than one standard deviation from the historical mean. Consequently, the one standard deviation test does not constitute proper and sufficient evidence to rebut the presumption.

Response: After conferring with the Oceanic Services Branch of the National Oceanic Data Center, we have determined that the one standard deviation test may be too severe and might result in the denial of claims for unobserved casualties which were, in fact, caused by other vessels. Experience to date with the section 10 program shows that wind velocities meeting the one standard deviation test are generally within the range of gale force intensity (i.e., 34 to 47 knots), but may be significantly lower depending on the geographical area. In one area of the Gulf of Mexico, for example, winds of 18 knots or more and waves of 7 feet or higher constitute conditions greater than one standard deviation from the historical mean.

Since radically different weather conditions in different geographical areas (the Gulf of Mexico versus the Bering Sea, for example) will constitute one standard deviation from the historical mean for the particular time and place, the Agency has determined that a standard more reliable than the one standard deviation test is required to rebut the presumption. Weather and sea conditions meeting the definition of a "storm" (winds of 48 knots or greater), provide a reliable basis for rebuttal. Use of the "storm" conditions standard is reasonable since mobile fishing operations (the source of most conflicts with fixed gear) are not generally conducted during weather of storm intensity. Consequently, under storm conditions, there is a reduced probability that casualties will be attributable to other vessels and an increased probability that they will be attributable to weather and sea conditions. However, use of the "storm" conditions standard for rebuttal of the presumption of causation does not affect the possibility that a loss may be attributable to other environmental phenomena (e.g. ice floes) which would make the loss ineligible.

Section 258.40(b)

Approval fee. The proposed rulemaking provides for (1) the deduction of a 4 percent approval fee from the total amount compensable for both property loss and economic loss and (2) raising the limit on the combined total of the filing fee and the approval fee from $1,000 to $2,000.

Comment: The 4 percent approval fee should not be deducted from amounts compensable for economic loss because the deduction will reduce the benefit to the fisherman and "deteriorate the value of the Act."

Response: The program's authorizing legislation, Pub. L. 95–376, provides for the payment of a reasonable administrative fee. The purpose of this fee is to cover the approximate costs of administering the Fishing Vessel and Gear Damage Compensation Fund. To date, administrative costs have been greater than revenues received from filing and approval fees. It is anticipated that the 4 percent approval fee to be deducted from amounts compensable for economic loss will make up the shortfall. The extension of the approval fee to economic loss will reduce compensation for economic loss by one twenty-fifth. We do not believe this small amount ($40 out of each $1,000) will impose a hardship or constitute a burden which can be fairly described as a deterioration of the value of the Act.

Comment: Raising the limit on the total of the two fees would constitute an additional burden on fishermen who are already experiencing economic difficulties and would reduce the value of the section 10 program.

Response: The average amount claimed for compensation from the Fund is approximately $7,500. The 4 percent approval fee on this amount is $300. Only for claims in amounts greater than $23,125 will the combined filing and approval fees exceed $1,000. The $2,000 limit will be reached only with claims for $48,125. The increased limit of the filing and approval fees will, thus, affect

only a small minority of claimants. Moreover, because processing time increases with claims for larger amounts and because the computation of economic loss will impose additional administrative costs, deductions exceeding $1,000, but limited to $2,000, will not result in a greater revenue than is needed to offset administrative expenses.

Section 258.36 Compensation for Resulting Economic Loss

The proposed rulemaking provided for compensation for resulting economic loss sustained (1) on the vessel trip of the discovery of the casualty and (2) on subsequent vessel trips which are made at a reduced level of effort or, if fishing is discontinued, which would have been made at full operational capacity between the dates of order and receipt of replacement gear or the dates when repair begins and ends, whichever is appropriate.

Since fixed gear is seldom replaced or repaired at the time of the discovery of the casualty, fishermen will generally sustain a loss of income on the next vessel trip after the one on which they discover the casualty, regardless of whether they have ordered replacement gear or begun repair. Generally, fishermen will replace fixed gear on the next vessel trip after the casualty; so the economic loss on this trip will be sustained even if a fisherman has a reserve inventory of gear from which to replace that involved in the casualty. We have, consequently, added a provision in this rulemaking for payment of compensation for resulting economic loss sustained on the next vessel trip after the trip on which the casualty was discovered if repair or replacement could not be made between the time of the discovery of the casualty and the next vessel trip afterward, regardless of whether replacement gear has been ordered or repair begun.

Having reviewed this final rulemaking in accordance with the specifications of Executive Order 12291, "Federal Regulation," and the Departmental guidelines implementing that order, the Agency has determined that it is not "major" because it has no significant effect on the economy, cost or prices, and no impact on competition, employment, investment, or productivity. Accordingly, no regulatory impact analysis is required.

Since this final rulemaking relates only to benefits, it is exempt from the notice and comment provisions of the Administrative Procedure Act and, thus, from the Regulatory Flexibility Act requirement of regulatory flexibility analysis.

The statutory amendments will necessitate the collection of additional information from claim applicants to document and establish the amount of resulting economic loss. This collection is necessary for the proper performance of the Agency in determining both the eligibility of claims and the amounts to be paid for compensation of resulting economic loss. The collection of information request has been approved by OMB (#0648–0094) in accordance with the Paperwork Reduction Act of 1980.

Because the final rulemaking will affect only fishing vessel owners or operators who may suffer casualties eligible for compensation from the Fishing Vessel and Gear Damage Compensation Fund, it will not have a significant economic impact on a substantial number of small entities. The Administrator of NOAA has certified that these regulations do not require the preparation of an environmental impact statement under the National Environmental Policy Act.

Dated: November 27, 1981.

Robert K. Crowell,

Deputy Executive Director, National Marine Fisheries Service.

PART 258—FISHERMEN'S PROTECTIVE ACT PROCEDURES

Accordingly, the present 50 CFR Part 258 Subpart C is revised to read as follows:

Subpart C—Compensation for Fishing Vessel or Fishing Gear Damage Attributable to Other Vessels in a U.S. Fishery

Sec.

258.30 Purpose and scope.
258.31 Definitions.
258.32 Eligibility.
258.33 Applications.
258.34 Rebuttable presumption of causation and proof of casualty.
258.35 Amount of compensation for actual damage, loss, or destruction.
258.36 Compensation for resulting economic loss.
258.37 Initial determination.
258.38 Final determination.
258.39 Subrogation.
258.40 Payments.
258.41 Penalties.

Authority: Pub. L. 95–376 Pub. L. 96–289, and Pub. L. 96–561; 92 Stat. 715 (22 U.S.C. 1980).

Subpart C—Compensation for Fishing Vessel or Fishing Gear Damage Attributable to Other Vessels in a U.S. Fishery

§ 258.30 Purpose and scope.

(a) This subpart contains the regulations for compensating the owners or operators of United States commercial fishing vessels or fishing gear for casualties occurring on or after December 22, 1980. Eligible vessel casualties are those which are attributable to any foreign vessel (or its crew or fishing gear). Eligible fishing gear casualties are those which are attributable to any other vessel (of its crew or fishing gear), whether or not such vessel is a vessel of the United States.

(b) For regulations governing casualties occurring before January 1, 1979, see Subpart B.

§ 258.31 Definitions.

Unless the context otherwise requires, in this subpart:

(a) "Assistant Administrator" means the Assistant Administrator for Fisheries, National Oceanic and Atmospheric Administration.

(b) "Casualty(ies)" means loss, damage, or destruction of fishing vessels which is attributable to foreign vessels (or their crew or fishing gear) or loss, damage, or destruction of fishing gear which is attributable to any other vessels (or their crew or fishing gear).

(c) "Chief, FSD", means Chief, Financial Services Division, National Marine Fisheries Service.

(d) "Commercial shipping lane" means any area designated for commercial shipping traffic by vessel tracklines shown on pilot charts published by the U.S. Defense Mapping Agency Hydrographic Center or vessel traffic separation lanes as depicted on U.S. National Ocean Survey nautical charts.

(e) "Compensable period" means that period after the discovery of the casualty between the date of order and receipt of replacement gear, or the date repair begins and ends (whichever is appropriate), or such other period as the Chief, FSD, determines to be reasonable.

(f) "Fishery" means: one or more stocks of fish which can be treated as a unit for purposes of conservation, management, and utilization and which are identified on the basis of geographical, scientific, technical, recreational, and economic characteristics.

(g) "Fishery Conservation Zone" means the fishery conservation zone established by section 101 of the Magnuson Fishery Conservation and Management Act of 1976, as amended.

(h) "Fishing" means:

(1) The commercial catching, taking, or harvesting of fish; and

(2) Any operations at sea in support of, or in preparation for, any activity described in paragraph (h)(1) of this section. Fishing does not include any

scientific research activity conducted by a scientific research vessel.

(i) "Fishing gear" means any equipment or appurtenance which is:

(1) Used for, or of a type which is normally used for, fishing by a fishing vessel, whether or not attached to the vessel; and

(2) Not considered a part of the fishing vessel for the purpose of recovery under a commercial policy of full hull and machinery and protection and indemnity insurance.

(j) "Fishing vessel" means any vessel, boat, ship, or other craft which is used for, equipped to be used for, or of a type which is normally used for:

(1) Fishing; or

(2) Aiding or assisting one or more vessels at sea in the performance of any activity relating to fishing including, but not limited to, preparation, supply, storage, refrigeration, transportation, or processing.

(k) "Foreign vessel" means a vessel other than a vessel of the United States, regardless of such vessel's trade or use.

(l) "Rebuttable presumption" means a presumption which may be overcome by additional evidence which may be available.

(m) "Resulting economic loss" means the gross income that an eligible fishing vessel owner or operator will lose, as a direct result of the casualty with respect to which a claim is filed, (1) on the vessel trip during which the casualty was discovered; (2) if appropriate under § 258.36(a)(2), on the next vessel trip after that during which the casualty was discovered; and (3) on later vessel trips which would normally have been made at full operational capacity during the compensable period (as defined under paragraph (e) of this section) because of not being able to fish or having to fish at a reduced level of effort.

(n) "Trip ticket" means a receipt documenting the amount and value of fish sold from the catch of a fishing vessel.

(o) "United States fishery" means any fishery subject to the exclusive fishery management authority of the United States under the Magnuson Fishery Conservation and Management Act of 1976, as amended.

(p) "United States fishing vessel" means any fishing vessel which is a vessel of the United States.

(q) "Unobserved fishing gear casualty" means a fishing gear casualty which was not observed by the applicant or any other witness known to the applicant.

(r) "Vessel of the United States" means any vessel documented under the laws of the United States or registered under the laws of any State, regardless of such vessel's trade or use.

§ 258.32 Eligibility.

(a) *Applicants.* Only the owner or operator of a United States fishing vessel or fishing gear is eligible for compensation under this subpart.

(b) *Dates.* Casualties occurring on or after December 22, 1980, are eligible for compensation under this subpart. Casualties occurring on or after January 1, 1979, and before December 22, 1980, are governed by program regulations published October 25, 1979, and subsequent amendments published before December 22, 1980. See Subpart B of this part for regulations governing casualties occurring before January 1, 1979.

(c) *Casualty to fishing vessels.* A casualty to a United States fishing vessel is eligible for compensation under this subpart if it occurred in a United States fishery and is attributable to any foreign vessel (or its crew or fishing gear).

(d) *Casualty to fishing gear.* A casualty to fishing gear is eligible for compensation under this subpart if it occurred in a United States fishery and is attributable to any other vessel (or its crew or fishing gear, even if such gear was not attached to the vessel), whether or not such vessel is a foreign vessel.

(e) *Reporting requirement.* A casualty to fixed fishing gear attributable to any other vessel is not eligible for compensation unless the claimant has met all mandatory reporting requirements regarding gear deployment set forth in any applicable Fishery Management Plan or other Federal regulation. Fishermen are encouraged to participate in voluntary gear reporting programs. A record of gear deployment broadcast to other vessels may be considered evidence of prudent care on the part of a fisherman to notify other vessels in a particular area of the presence of that fisherman's gear.

(f) *Insurance.* Compensation for property loss under this subpart will not be made for any part of a casualty which would have been recoverable under a commercial policy of full hull and machinery and protection and idemnity insurance, regardless of whether or not such insurance was in effect. The Fund will, however, compensate for United States fishing vessel casualties caused by foreign vessels (or their crew or fishing gear) to the extent of a reasonable deductible under full hull and machinery and protection and indemnity insurances even if such insurances were not in effect. It will also compensate for economic loss resulting from fishing vessel casualties.

(g) *Commercial Shipping Lanes.* No casualty incurred in a commercial shipping lane caused by a vessel transiting such lane is eligible for compensation under this subpart.

§ 258.33 Applications.

(a) *Who may apply.* Applications under this subpart shall be submitted by the owner or operator whose United States fishing vessel or fishing gear suffered the casualty and the resulting economic loss for which compensation is sought.

(b) *Where to apply.* Applications shall be submitted to the Financial Services Division, National Marine Fisheries Service, Washington, D.C. 20235.

(c) *Time requirement.* After June 30, 1980, applications must be submitted to the Financial Services Division within 90 calendar days of the date the owner or operator became aware of the casualty. Applications sent by mail must be postmarked during that 90-day period. Applications made later than 90 days are not eligible. The 90-day filing requirement is satisfied by the filing of an improperly completed or incomplete application.

(d) *Contents.* (1) Applications may be submitted on forms provided by the Financial Services Division when such forms are available. Until such forms are available, applications shall include the information required by paragraphs (d) through (l) of this section.

(2) Each application shall be signed by the applicant and shall state the applicant is the owner or operator of the United States fishing vessel or fishing gear involved in the casualty.

(3) Each application shall include as attachments the affidavits and supporting documentation required by this section. For the purposes of this section, an affidavit is a written statement sworn to or affirmed before a notary public or other official empowered to administer oaths.

(e) *Affidavit of vessel master.* Each application shall include an affidavit of the master of the United States fishing vessel which suffered, or whose fishing gear suffered, the casualty and the resulting economic loss for which compensation is sought. If more than one master was involved at any material time before, during, or after the casualty, the application shall include an affidavit from each master. The affidavit shall set forth a full statement of all facts and circumstances before, during, and after the incident resulting in the casualty and the resulting

economic loss for which compensation is sought, including:

(1) A full description of the nature of the fishing operations engaged in prior to the casualty. The description of casualties to fixed fishing gear shall ordinarily include a diagram and accompanying explanation showing the various components of the gear involved in the casualty and how they were arranged while operating.

Example. The description for a casualty to fixed fishing gear should explain:

(i) How the gear was fixed, anchored, or otherwise prevented from drifting and with what size, weight, type, construction material, and number of anchors or other means of fixation;

(ii) How many pots, traps, or other units of gear of what size, weight, type, and construction material were fixed to the gear; how they were fixed; and at what intervals;

(iii) How the gear was buoyed with what size, shape, type, and construction material buoys, and how many buoys were used at what intervals on the gear set;

(iv) What size, weight, type, grade, and construction material lines, ropes, or cables were used;

(v) What provisions were made to ensure the gear could be seen by other vessels;

(vi) What provisions were made to ensure the gear could be located and retrieved;

(vii) At what depth the gear operated, its length, and what area it covered;

(viii) What weather or sea conditions the gear was designed to withstand; and

(ix) Any other relevant details of the casualty.

(2) A full description of the nature and extent of loss, damage, or destruction involved in the casualty, including photographs of the damage where possible.

(3) The time, date, and location (in latitude and longitude coordinates or Loran C readings) of the incident resulting in the casualty.

(4) If the casualty was not observed at the time it happened, include:

(i) The time, date, and location when the gear was first deployed;

(ii) The time, date, and location when the gear was last observed to be in a sound state (if different from the time and date of its deployment);

(iii) The time, date, and location when the casualty first became known; and

(iv) A full statement (to the best of applicant's knowledge) of the weather and sea conditions which existed during the period after deployment and before first knowledge of the casualty.

(5) If the casualty was observed, a full description of the vessel which caused the casualty (for instance, the vessel's size, type, flag, name, number, color of house or hull, and other identifying characteristics) and a full description of such vessel's and/or its crew's action before, during, and after the casualty.

(6) A full description of the actions of the applicant's fishing vessel and its crew before, during, and after the casualty, including all circumstances involving deployment of any fishing gear involved in the casualty and locating and retrieving it, or all attempts at locating and retrieving it.

(7) A full statement of the reasons for believing the casualty was caused by another vessel (or its crew or gear) rather than by weather and sea conditions or by other ineligible causes (for example, defective deployment, defective retrieval, or other circumstances which constitute normal operating contingencies);

(8) A full inventory of all property involved in the casualty, including: the number of all components lost, damaged, or destroyed; their size, type, grade and construction material; their age; their useful economic life; whether the damage was total or repairable (and, if a combination of both, what components were totally damaged or lost and what components were retrieved in what condition, etc.).

(f) *Affidavit of the owner.* Each application shall also include an affidavit of the owner of the United States fishing vessel or fishing gear involved in the casualty. A single affidavit of the vessel master and owner may be submitted if the vessel master is also the owner of the property concerned. Each affidavit shall include:

(1) A complete inventory of all fishing gear owned by the applicant of a type similar to any fishing gear involved in the casualty for which a claim for compensation is being made. The inventory shall be current as of the date of the casualty and must include the lost, damaged, or destroyed fishing gear. The age and remaining useful economic life of each unit of fishing gear in the inventory shall be specified.

(2) The date, place, and cost of acquisition of all fishing gear and components lost, damaged, or destroyed in the casualty. Purchase invoices or other acceptable proof of ownership for such gear shall be submitted.

(g) *Estimates.* Each application shall include two estimates (or one estimate and one purchase invoice or receipt) from commercial sources, acceptable to the Chief, FDS, of the replacement cost of the property lost, damaged, or destroyed or its repair cost if it is repairable.

(h) *Documentation of resulting economic loss.* Each application shall include proper and complete documentation of all facts necessary to substantiate the resulting economic loss as defined in § 258.31(m).

(1) In support of any claim for economic loss sutained on the vessel trip during which the casualty was discovered, the claimant shall submit:

(i) Copies of trip tickets (or other suitable documentation of gross income) for the three vessel trips immediately before that during which the casualty was discovered or, if these are not available, documentation of gross income for three other vessel trips nearest in time to that during which the casualty was discovered;

(ii) A statement of the number of gear units (traps, longlines, pots, gillnets, etc.) hauled on each of the three vessel trips; or if the casualty involves mobile gear, a statement of fishing time involved on each of the three vessel trips; and

(iii) If available, documentation (such as copies of relevant pages from the vessel's log book) supporting the statement of the number of gear units hauled or time involved on each of the three vessel trips.

(2) In support of any claim for resulting economic loss sustained on the next vessel trip after that on which the casualty was discovered, the applicant shall submit:

(i) A copy of a trip ticket (or other suitable documentation of gross income) for the vessel trip; and

(ii) A statement of the number of operable gear units in the applicant's total inventory.

(3) To establish the compensable period for resulting economic loss sustained following the next vessel trip after that during which the casualty was discovered, the claimant shall submit documentation establishing the date of order of the replacement gear and the date of its receipt, or the date repair began and ended (whichever is appropriate). Appropriate documentation may consist of purchase orders, bills of lading, or statements from commercial repair or supply sources.

(4) In support of any claim for resulting economic loss sustained during the compensable period, the applicant shall submit:

(i) If fishing is continued at a reduced level, copies of trip tickets (or other suitable documentation of gross income) for vessel trips made during the compensable period, along with a statement of the number of gear units

(traps, longlines, pots, gillnets, etc.) deployed and hauled during each trip, and any available documentation (such as copies of relevant pages from the vessel's log book) supporting the statement of the number of gear units deployed and hauled during each trip;

(ii) If fishing is discontinued because of the casualty, copies of trip tickets (or other suitable documentation of gross income) for vessel trips made the previous year during the period corresponding to the compensable period, along with a statement of the number of gear units (traps, longlines, pots, gillnets, etc.) deployed during each trip and the number hauled during each trip, and any available documentation (such as copies of relevant pages from the vessel's log book) supporting the statement of the number of gear units deployed and hauled during each trip.

(i) *Witnesses.* Each application shall include:

(1) The name, address, and telephone number of each known witness to the casualty; and

(2) An affidavit from any material witness to the casualty setting forth material information possessed by such witness.

(j) *Efforts to retrieve fishing gear.* A full description of the actions taken to retrieve the fishing gear involved in the casualty must accompany the claim. The applicant is responsible for reporting any fishing gear retrieved to the Chief, FSD, whether retrieved before or after a decision is made on a claim.

(k) *Other evidence.* The Chief, FSD, may require an applicant to submit affidavits, information, explanations, or estimates in addition to those specified in this section.

(l) *Filing fee.* Each application for each casualty shall include a check or money order made payable to the National Marine Fisheries Service for a filing fee of $75. The filing fee is nonrefundable, except when the claim is withdrawn because the applicant has received or will receive compensation from another source.

(m) *Incomplete and abandoned applications.* All applications for compensation for property loss or for resulting economic loss under this subpart must be filed within 90 days after the date of discovery of the casualty. When necessary, however, additional time, as determined reasonable by the Chief, FSD, will be allowed to enable applicants to submit information and documentation required for the computation of resulting economic loss. As soon as practicable after receipt of an incomplete or improperly completed application, the Chief, FSD, shall so notify the applicant.

(1) If the application is incomplete or improperly completed with regard to the claim for compensation for actual loss, damage, or destruction, the Chief, FSD, shall notify the applicant, and the applicant shall have 60 calendar days following the date of notification to correct the deficiency. If the applicant without good cause fails to correct the deficiency within such 60-day period, the application will be considered abandoned.

(2) If the application is incomplete or improperly completed with regard to the claim for compensation for resulting economic loss, the Chief, FSD, may grant the applicant additional time as is deemed reasonable to correct the deficiency. If the applicant without good cause fails to correct the deficiency of the claim for resulting economic loss within the additional time allowed, the application will be considered abandoned.

(3) If a claim is considered abandoned because of the failure of the applicant to correct a deficiency after notice from the Chief, FSD, the claim shall not be eligible for compensation under this subpart.

(4) An application may be amended at any time before issuance of the initial determination specified in § 258.37. The Chief, FSD, will then make an initial determination on the application, as amended.

§ 258.34 Rebuttable presumption of causation and proof of casualty.

(a) *Proof of casualty.* An applicant seeking compensation for a fishing vessel or gear casualty must submit evidence:

(1) That a casualty actually occurred; evidence of the occurrence may consist of affidavits of material witnesses (affidavits should be submitted by the vessel's Master and its crew);

(2) Of ownership of the vessel or gear involved in the casualty; evidence of gear ownership may consist of receipts, itemized income tax statements, cancelled checks, or affidavits of sellers; and

(3) That the gear involved in the casualty was deployed in conformity with customary usage and practice.

(b) *Rebuttable presumption.* Claims for unobserved casualties to fishing gear shall be afforded a rebuttable presumption that the damage, loss, or destruction is attributable to another vessel, its crew, or its gear. The presumption of causation for unobserved fishing gear casualties shall not apply to observed fishing vessel or fishing gear casualties.

(c) *Rebuttal of presumption.* In the case of an unobserved casualty, the Chief, FSD, may rebut the presumption that any damage, loss, or destruction of fishing gear is attributable to another vessel if there is sufficient evidence that:

(1) The casualty was caused by weather and sea conditions or other natural causes. Weather and sea conditions of storm intensity or greater (i.e., wind velocities of 48 knots or more) for the time and place of an unobserved casualty shall constitute sufficient evidence to rebut the presumption that the casualty was caused by another vessel. The Office of Oceanic and Atmospheric Services of the National Oceanic and Atmospheric Administration will provide data on weather and sea conditions for the general location and time of the casualty.

(2) The casualty resulted from the negligence or fault of the claimant or from a normal operating contingency; or

(3) The casualty resulted from some other cause unassociated with other vessels.

(d) *Proof after rebuttal of presumption.* Once the presumption of causation has been rebutted, the burden rests with the applicant to provide sufficient evidence that the damage, loss, or destruction of the fishing gear was in fact caused by other vessels.

§ 258.35 Amount of compensation for actual damage, loss, or destruction.

(a) *General.* The amount of compensation under this section is the amount determined in accordance with paragraph (b) of this section minus the sum of any deduction for the negligence of the applicant determined under paragraph (e) of this section and minus any deduction for insurance proceeds under paragraph (f) of this section.

(b) *Amount of compensation.* If the property concerned is determined by the Chief, FSD, to be repairable at a cost less than its depreciated replacement cost, the compensable amount is the repair cost. The compensable amount for property which is totally (actually or constructively) lost or destroyed is its depreciated replacement cost.

(c) *Depreciated replacement cost.* For purposes of this section the depreciated replacement cost is the present replacement cost of the property (at the time the claim is submitted) involved in the casualty, depreciated (on a straightline basis over the property's economically useful life) so as to exclude from the replacement cost the value of the property's economically useful life which is already expired. The present replacement cost is the lower of the two submitted estimates required to be submitted under § 258.33(g).

V 46 / 232 2
DEC 3 81
UMI

(d) *Economically useful life remaining.* (1) If the age, condition, and value of individual units of fishing gear involved in the casualty cannot be established to the satisfaction of the Chief, FSD, the Chief, FSD, shall use the average remaining economically useful life for all units identified in the inventory required by § 258.33 in calculating the depreciated replacement cost.

(2) If the average remaining economically useful life of fishing gear involved in the casualty is less than the average remaining economically useful life of all the property in the inventory required by § 258.33, the average remaining economically useful life of the fishing gear in the casualty will be used as the basis for calculating the depreciated replacement cost.

Example No. 1

(i) Applicant claims to have lost 100 crab pots with various remaining economically useful lives averaging 2.5 years. The applicant's fishing gear inventory shows that the applicant owns 500 crab pots (including the 100 involved in the casualty) with various remaining economically useful lives averaging 3.5 years.

(ii) The replacement cost of the 100 pots involved in the casualty will be depreciated as if they each had a remaining economically useful life of 2.5 years.

(iii) If the present replacement cost of the pots is $500 each and they have an economically useful life when new of 5 years, the depreciated replacement cost of each pot will be $250 (or 50 percent of the replacement cost), since 2.5 years (or 50 percent of their new economically useful life) was regarded as remaining at the time of the casualty.

(iv) Thus, the compensation would be 100 pots at a depreciated replacement cost of $250 each, for a total of $25,000.

(3) If the average remaining economically useful life of the fishing gear involved in the casualty is more than the average remaining economically useful life of all the fishing gear in the inventory required by § 258.33, the average remaining economically useful life of all the fishing gear in the inventory will be used as the basis for calculating the depreciated replacement cost.

Example No. 2

If the 100 crab pots described in Example No. 1 above, had an average remaining economically useful life of 4 years (instead of 2.5 years), then the 3.5-year average remaining economically useful life of all the fishing gear in the inventory would be used as the basis for depreciating the cost of the replacement pots. Since 3.5 years is 70 percent of the new economically useful life (5 years) of the pots, the compensation would be $35,000 (70 percent of $500 equals $350 times 100 pots equals $35,000).

(e) *Comparative negligence.* In calculating the amount of compensation under this section, the compensable amount determined under paragraph (b) of this section will be reduced proportionally to the extent that any negligence of the applicant (or the applicant's agents) contributed to the cause or extent of the casualty.

Example

If the applicant's total damages (property and resulting economic loss) were $25,000 and 10 percent of the damages were the result of the applicant's negligence, the applicant would receive $22,500 in compensation. If the negligence of the applicant had caused 90 percent of the loss, $2,500 in compensation would be paid.

(f) *Insurance proceeds.* For purposes of calculating the amount of compensation under this section, the amount of compensation determined under paragraph (b) of this section will be reduced by the amount the applicant has, or reasonbly would have, received under a commercial policy of full hull and machinery and protection and indemnity insurance, whether or not such insurance was in effect at the time the casualty occurred. Recovery will be allowed for a reasonable deductible as set forth in § 258.32(f).

§ 258.36 Compensation for resulting economic loss.

(a) *General.* Applicants shall be eligible to receive compensation for up to 25 percent of the gross income lost as a direct result of the casualty with respect to which the claim is filed. The amount of compensation will be reduced proportionally to the extent that any negligence of the applicant (or applicant's agents) contributed to the cause or extent of the casualty. (See example of proportionate reduction under § 258.35(e)). No compensation will be paid for economic loss resulting from a gear or vessel casualty for which a vessel owner or operator is not otherwise entitled to compensation for property loss under this subpart. Compensation will be made for up to 25 percent of:

(1) Gross income lost on the vessel trip during which the casualty was discovered; and

(2) Gross income lost on the next vessel trip which was made or, if fishing is discontinued because of the casualty, would have been made after the vessel trip of the casualty, if the gear involved in the casualty was not replaced or repaired between the vessel trip of the discovery of the casualty and the next vessel trip; and

(3) Gross income lost within the compensable period specified in paragraph (b) of this section on vessel trips made at a reduced level of effort because of the casualty or, if fishing is discontinued because of the casualty, on vessel trips which would normally have been made at full operational capacity.

(b) *Compensable period.* Except as specified in paragraph (a)(2) of this section, applicants will be eligible for compensation for income lost after the vessel trip on which the casualty was discovered only during the period between the dates of order and receipt of replacement gear or the dates repair begins and ends (whichever is appropriate), or such other period as the Chief, FSD, determines to be reasonable.

(c) *Calculation of economic loss for the vessel trip of discovery of casualty.* Compensation for economic loss on the vessel trip during which the casualty was discovered shall be determined as follows:

(1) For casualties involving fixed gear by:

(i) Totaling the dollar value of the catch for the three vessel trips immediately before the trip of the casualty, or the three trips nearest in time to that of the casualty, if the former is unavailable;

(ii) Dividing this total value by the total number of gear units hauled during these three trips;

(iii) Multiplying this average dollar value per gear unit times the number of units lost or damaged; and

(iv) Computing 25 percent of the result.

(2) For casualties involving mobile gear by:

(i) Totaling the dollar value of the catch for the three vessels trips immediately before the trip of the casualty, or the three trips nearest in time to that of the casualty if the former is unavailable;

(ii) Dividing this total value by the total number of units (hours, days) of fishing time during these three trips;

(iii) Multiplying this average dollar value per unit of fishing time times the number of units of fishing time lost as a result of the casualty; and

(iv) Computing 25 percent of the result.

(d) *Calculation of economic loss on the next vessel trip after the discovery of the casualty.* (1) If fishing is continued at a reduced level of effort because of the casualty, compensation for resulting economic loss on the next vessel trip made after the discovery of the casualty shall be computed by dividing the value of the catch by the number of operable gear units (units in the total inventory minus those involved in the casualty); multiplying this average value per gear unit times the number of units involved

in the casualty; and computing 25 percent of the result.

(2) If fishing is discontinued because of the casualty, the compensation for economic loss on the next vessel trip which would normally have been made shall be the same as the amount computed under paragraph (c)(1) of this section.

(e) *Calculation of economic loss during the compensable period.* Resulting economic loss suffered during the compensable period may result from an inability to fish or from fishing at a reduced level of effort because of the casualty. In either case, the calculation of the amount of the loss shall be based upon:

(1) The number of gear units lost, or damaged, or destroyed in the casualty or, in the case of mobile gear, the amount of fishing time lost;

(2) The length of the compensable period;

(3) The number of gear units hauled on each vessel trip made during the compensable period or during the corresponding period of the previous year;

(4) Information, such as amount and value of catch, available from trip tickets, or other suitable documentation, for the vessel trips made during the compensable period or the corresponding period of the previous year; and

(5) The number of operable gear units in the claimant's complete inventory under § 258.33(f)(1).

§ 258.37 Initial determination.

After receipt of an application which is properly completed as to claims for actual loss, damage, or destruction, the Chief, FSD, will make an initial determination of the amount of any compensation to be paid the applicant for such loss, damage, or destruction. After receipt of all required information and documentation of resulting economic loss, the Chief, FSD, will make an initial determination of the amount of any compensation to be paid to the applicant for resulting economic loss.

(a) *Contents.* An initial determination shall state:

(1) If the application is disapproved, the reasons therefore; or

(2) If the application is approved. the amount of compensation and the basis upon which the amount was determined.

(b) *Notice.* The initial determination, along with the subrogation agreement (where applicable) provided for in § 258.38, shall be mailed to the applicant.

§ 258.38 Final determination.

(a) *Final determination.* Unless appealed under subsection (b) the initial determination of the Chief, FSD, shall become final 30 days after its issuance under § 258.37.

(b) *Appeal.* Any applicant may, within 30 days after the date of issuance of an initial determination under § 258.37, file with the Assistant Administrator at 3300 Whitehaven Street, Washington, D.C. 20235 a written request for review of the initial determination.

(c) *Additional evidence.* The applicant may submit to the Assistant Administrator written data relating to the initial determination no later than 30 calendar days after the filing of a petition under paragraph (b) of this section.

(d) *Appellate determination.* The Assistant Administrator shall issue a final determination on an appealed application within 60 days of the submission of any written data by the applicant under paragraph (c) of this section. A copy of the final determination shall be mailed to the applicant.

§ 258.39 Subrogation.

(a) After approval of an applicant's claim, but before compensation is disbursed, the applicant shall execute a subrogation agreement in a form satisfactory to the Chief, FSD, which:

(1) Assigns to the United States all rights which the applicant may have to proceed against any party who may be liable for damages with respect to any part of a casualty for which compensation is being made hereunder. and;

(2) Requires, as a condition of continuing to retain any compensation, that the applicant assist the Chief, FSD, in any reasonable way to pursue collection of the subrogated rights.

§ 258.40 Payments.

(a) *Amount.* The Chief, FSD, shall compensate the applicant in the amount calculated under §§ 258.35 and 258.36 minus the approval fee as determined according to the paragraph (b) of this section. Payment shall be made to the applicant upon receipt of a properly executed subrogation agreement under § 258.39.

(b) *Approval fee.* The approval fee is 4 percent (4%) of the amount of compensation calculated under §§ 258.35 and 258.36, but in no case shall the sum of the approval fee and the filing fee under § 258.33(l) exceed $2,000.

§ 258.41 Penalties.

Persons who willfully make any false or misleading statement or representation for the purpose of obtaining compensation under this subpart are subject to criminal prosecution pursuant to the provisions of 22 U.S.C. 1980(g), which provides penalties, upon conviction, of a fine of not more than $25,000, or imprisonment for not more than one year, or both. Any evidence of false or misleading statements or representations will be promptly forwarded to the U.S. Department of Justice for action.

DOT/RSPA			DOT/RSPA	
DOT/SLSDC			DOT/SLSDC	
DOT/UMTA			DOT/UMTA	

Documents normally scheduled for publication on a day that will be a Federal holiday will be published the next work day following the holiday. Comments on this program are still invited.

Comments should be submitted to the Day-of-the-Week Program Coordinator, Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408.

List of Public Laws

Last Listing November 27, 1981

This is a continuing list of public bills from the current session of Congress which have become Federal laws. The text of laws is not published in the **Federal Register** but may be ordered in individual pamphlet form (referred to as "slip laws") from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402 (telephone 202–275–3030).

S. 815 / Pub. L. 97–86 Department of Defense Authorization Act, 1982, (Dec. 1, 1981; 95 Stat. 1099) Price: $2.50.

S. 1133 / Pub. L. 97–87 To amend the National Advisory Committee on Oceans and Atmosphere Act of 1977 to authorize appropriations to carry out the provisions of such Act for fiscal year 1982, and for other purposes. (Dec. 1, 1981; 95 Stat. 1134) Price: $1.50.

Part III

Department of Education

National Defense Student Loan Program and National Direct Student Loan Program; Cancellation of Loan for Teaching Service

DEPARTMENT OF EDUCATION

Office of Postsecondary Education

National Defense Student Loan Program and National Direct Student Loan Program; Cancellation of Loan for Teaching Service

AGENCY: Department of Education.

ACTION: Notice of cancellation of loan for teaching service.

SUMMARY: The Secretary of Education is publishing the list of schools which the Secretary has determined to have a high concentration of students from low-income families. The list identifies schools in which the enrollment of students from low-income families exceeds thirty percent of the total enrollment of students.

FOR FURTHER INFORMATION CONTACT: Inquires concerning these lists may be made to the appropriate State educational agency or to Ronald Allen, Campus and State Grants Branch, Division of Program Operations, Office of Student Financial Assistance, U.S. Department of Education, Washington, D.C. 20202, Telephone (202) 245–9640.

SUPPLEMENTARY INFORMATION:

Defense Loans

Borrowers under the National Defense Student Loan Program may cancel the entire amount of their loan plus interest, if they teach full-time in one of the schools listed. For each complete year of full-time teaching a borrower may cancel 15 percent of his or her loan and the interest on that amount.

The procedures used for selecting schools are described in the National Defense Student Loan Program regulations (34 CFR 674.53).

The Secretary has determined that for the 1981–82 academic year teaching service in the schools set forth below qualifies for cancellation in accordance with the above provision.

Direct Loans

Borrowers under the National Direct Student Loan Program may cancel the entire amount of their loan plus interest, if they teach full-time in one of the schools listed. For the first two complete years of full-time teaching, the cancellation rate is 15 percent; for the third and fourth complete years of fulltime teaching, the cancellation rate is 20 percent; for the fifth complete year, the cancellation rate is 30 percent.

The procedures used for selecting schools are described in the National Direct Student Loan Program regulations (34 CFR 674.54).

The Secretary has determined that for the 1981–82 academic year teaching service in the schools set forth below qualifies for cancellation in accordance with the above provision.

The schools are listed alphabetically under county and/or school district designation, by State. The entries for American Samoa, Commonwealth of the Northern Mariana Islands, Guam, Puerto Rico, the Trust Territory of the Pacific Islands, and the Virgin Islands appear following the list for the State of Wyoming. The District of Columbia is included in the alphabetical sequence.

(Catalog of Federal Domestic Assistance Number 84.037: Higher Education—National Defense/Direct Student Loan Cancellations)

Dated: November 24, 1981.

T. H. Bell,

Secretary of Education.
